EXHIBIT "B"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, the Ochoco Highway is one of the major state primary highways and is likewise a Federal highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that at the community of Powell Butte approximately 8.38 miles east of the City of Redmond on said highway in Crook County, vehicles are parked on both sides of the highway for extended periods of time; and

WHEREAS, the parking of said vehicles on the shoulders of said highway tends to restrict and impair the use of the traveled portion of the highway to such an extent that, in the opinion of the Highway Commission, a hazard is created not only to through traffic, but to pedestrians and to the owners and drivers of said parked vehicles; and

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the shoulders on each side of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendation by members of its staff, that the parking of vehicles along either shoulder of the Ochoco Highway between M. P. 8.27 (Engineer's Station 246+95), which point is approximately 580 feet west of the Powell Butte postoffice, and M. P. 8.48 (Engineer's Station 258+03), which point is approximately one-tenth of a mile east of the Powell Butte postoffice, creates a hazard not only to through traffic, but to pedestrians and to person's owning and using said parked vehicles.

2. That, in the opinion of the Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience, which in the opinion of the Commission, should be provided pedestrians and the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on either side of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, and on which signs shall be printed

(cont.)

EXHIBIT "B" (cont.)

in plain letters the words, "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 6th day of January, 1953.

EXHIBIT "C"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: PACIFIC HIGHWAY WEST

Highway number: 1-W Route number: US 99W

Location of Termini			Established Speed
M. P. 58.62 (0.12 mile north of Rickreall grade school)	to	M. P. 59.04 (0.07 mile south of Salem-Dallas Highway Intersection)	40 miles per hour

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number

(cont.)

adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this action be entered in the minutes and records of the Commission as of the 6th day of January, 1953.

EXHIBIT "D"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Joseph-Hayden Gulch Section of the Little Sheep Creek State Secondary Highway No. 350 in Wallowa County, and in connection therewith to prepare a map showing the route and location of said section of highway and file said report and record with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed the said survey and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, a majority of the members being present and affirmatively voting as follows:

1. That the survey of the Joseph-Hayden Gulch Section of the Little Sheep Creek State Secondary Highway, beginning at Engineer's Station 0+00 at the intersection of the Wallowa Lake Primary Highway in the city of Joseph and extending easterly therefrom approximately five miles to Engineer's Station 266+38, together with the map, which for identification purposes bears map number 6B-16-5 and the date of July, 1945, revised January 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said section of said highway is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the 6th day of January, 1953.

EXHIBIT "E"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of state highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

Contract No. 3443, with R. & M. Construction Company, for structures, grading and surfacing on the Holland Loop County Road in Josephine County, completed October 29, 1952.

Contract No. 3464, with Coos Bay Dredging Company, Inc., for grading and paving on the Cedar Point-Coquille Section of the Oregon Coast Highway in Coos County, completed October 22, 1952.

Contract No. 3479, with Larsen Brothers, for painting the McCullough Bridge on the Oregon Coast Highway in Coos County, completed November 20, 1952.

Contract No. 3532, with General Construction Company, for hydraulic embankment on the Hood River-Mosier Section of the Columbia River Highway in Hood River and Wasco Counties, completed November 14, 1952.

Contract No. 3534, with R. A. Heintz Construction Company, for grading and paving on the Bridgton Road-Gertz Road and Columbia Slough-Columbia Boulevard Sections of the Pacific Highway East in Multnomah County, completed November 28, 1952.

Contract No. 3566, with C. H. Grimstad & T. Vanderveldt and Heavy Hauling Company, for structures, grading and bituminous macadam surfacing on the Cannon Beach-Arcadia Section of the Oregon Coast Highway in Clatsop County, completed November 8, 1952.

Contract No. 3575, with T. W. Thomas, for grading and paving on the Rogue River (Main Street) City Street Section in Jackson County, completed July 31, 1952.

Contract No. 3576, with T. W. Thomas, for grading and paving on the North Grants Pass Section of the Pacific Highway in Josephine County, completed July 31, 1952.

Contract No. 3578, with C. J. Eldon, for constructing the Little North Santiam River Bridge on the North Santiam Highway in Marion County, completed December 19, 1952.

(cont.)

EXHIBIT "E" (cont.)

Contract No. 3612, with Pacific Sand & Gravel Company, for grading and paving on the La Grande-North Powder Section of the Old Oregon Trail Highway in Union and Baker Counties, completed November 10, 1952.

Contract No. 3614, with Vernie Jarl, for paving on the Big Creek Section of the Columbia River Highway in Clatsop County, completed October 3, 1952.

Contract No. 3618, with E. C. Hall Company & J. C. Compton Company, for paving on the Judkins Point-Goshen Section of the Pacific Highway in Lane County, completed November 26, 1952.

Contract No. 3629, with John A. Logan, for grading and rock surfacing on the Catching Slough-Enegren Ferry Section of the Coos River Highway in Coos County, completed December 6, 1952.

Contract No. 3637, with Porter W. Yett, for paving on the Summit-Buxton Section of the Nehalem Highway in Washington County, completed November 15, 1952.

Contract No. 3645, with Newport Construction Company, for furnishing crushed material in stockpile on the Hermiston Section of four state highways in Umatilla County, completed December 15, 1952.

Contract No. 3672, with Vernie Jarl, for grading and paving on the Union Avenue Service Roads Section of the Pacific Highway East in Multnomah County, completed November 21, 1952.

Contract No. 3694, with Snook Brothers, for constructing bridge over the Nehalem River on the Nehalem Highway in Clatsop County, completed December 23, 1952.

Contract No. 3710, with Hamilton & Thoms, for constructing Turner Road and Southern Pacific Overcrossings on the Pacific Highway East in Marion County, completed November 25, 1952.

Contract No. 3711, with The United Contracting Company, for grading and paving on The Dalles Section of the Columbia River Highway in Wasco County, completed November 26, 1952.

Contract No. 3723, with Jed Wilson, for furnishing crushed materials in stockpiles on the Clatsop County Line-Rockaway Section of the Oregon Coast and Necanicum Highways in Tillamook County, completed September 4, 1952.

Contract No. 3728, with Todd Building Company, for constructing the Oakland Junction Grade Separation Structure on the Pacific Highway in Douglas County, completed December 11, 1952.

EXHIBIT "E" (cont.)

Contract No. 3731, with Rogers Construction Company, for rock surfacing on the York Ranch-Hay Creek Section of the Wasco-Heppner Highway in Gilliam County, completed November 28, 1952.

Contract No. 3748, with J. C. Compton Company, for grading and paving on the Lafayette-North Yamhill River Section of the Pacific Highway West in Yamhill County, completed November 25, 1952.

Contract No. 3768, with P. C. Knox, for roadbed widening on the Service Creek-Kimberly Section of the John Day Highway in Wheeler and Grant Counties, completed November 30, 1952.

Contract No. 3802, with Rex C. Ayers Construction Company, for embankment and riprap repair on the Oneonta Section of the Columbia River Highway in Multnomah County, completed November 29, 1952.

THEREFORE BE IT RESOLVED that the work covered by said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "F"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, on the 19th day of February, 1952, and on the 26th day of May, 1952, at regular meetings of the Oregon State Highway Commission, the Commission adopted resolutions reducing the maximum load limit allowed by law on the following described state highway bridges:

OLD OREGON TRAIL NO. 6

			State Load Limit Placed - Removed
M. P. 412.11	Payette Bridge over the Snake River between Malheur County in Oregon and the state of Idaho.	11 tons	2-19-52 12-11-52

NYSSA-ADRIAN SECONDARY HIGHWAY NO. 450

M. P. 8.95	Bridge over the Owyhee River at Nyssa	15 tons	2-26-52 12-22-52

and,

WHEREAS, subsequent to the passage of said resolutions, conditions have changed so that it no longer is necessary or desirable and the Commission finds that it no longer is necessary or desirable to maintain the reduced load limit set out in each of said resolutions.

NOW, THEREFORE, BE IT RESOLVED that the action of the State Highway Commission reducing the allowable load limit on the Payette Bridge on the Old Oregon Trail be and the same hereby is rescinded and cancelled as of 8:00 a.m., Thursday, December 11, 1952, and that the action of the State Highway Commission reducing the allowable load limit on the Owyhee River Bridge at Nyssa be and the same hereby is rescinded and cancelled as of 8:00 a.m., December 22, 1952, and that the maximum load limit permissible on each of said bridge structures thereafter shall be the maximum load limit prescribed by law; and,

IT IS FURTHER ORDERED that a certified copy of this resolution be furnished to the County Clerk of Malheur County and that a like copy be furnished the Superintendent of the Department of State Police for his information.

Dated this 6th day of January, 1953.

EXHIBIT "G-1"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completed described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of Highway: OREGON COAST HIGHWAY

21072

EXHIBIT "H-1"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of state highways, including all necessary bridges and culverts; and

WHEREAS, for the purpose of constructing and maintaining certain sections of the state highway system, the said Commission plans and proposes to acquire certain road building materials, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee simple title to said property for the acquisition of road building materials;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that the following described real property is necessary and required for the acquisition of road building materials for the proper construction and maintenance of certain sections of the state highway system, said real property being located in Douglas County, Oregon, to wit:

R-19345
Owner: Richard Stevenson

A parcel of land lying in Section 3, Township 28 South, Range 6 West, W. M., Douglas County, Oregon, and being a portion of the

(cont.)

EXHIBIT "H-1" (cont.)

following described property: That tract of land which was conveyed by that certain deed to Richard Stevenson and Marjorie Ruth Stevenson, recorded in Book 154, Page 425, of Douglas County Records of Deeds, the said parcel being described as follows:

All the land lying West of Lots Forty-nine (49) and Fifty (50) of Plat "H", Roseburg Home Orchard Tracts, to the center of the South Umpqua River.

The parcel of land to which this description applies contains 14.1 acres.

2. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located and will be operated and maintained in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in

(cont.)

21178

EXHIBIT "H-1" (cont.)

his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 6th day of January, 1953.

EXHIBIT "H-2"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Garden Valley Road-Second Crossing of the Umpqua River Unit of the Deady-Shady Section of the Pacific Highway; and,

WHEREAS, the said Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said high way should be controlled; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

(cont.)

21171

EXHIBIT "H-2" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for the proper relocation, construction, improvement and maintenance of the Garden Valley Road-Second Crossing of the Umpqua River Unit of the Pacific Highway as a throughway, the following described real property, to wit:

R-17887
Owner: Vernon Orr, et al

A parcel of land lying in Section 24, Township 27 South, Range 6 West W.M., Douglas County, Oregon, and being a portion of that property conveyed by that deed to Vernon Orr and Hugh Harrison, recorded in Book 108, Page 116 of Douglas County Records of Deeds, the said parcel being that portion of said property included in a strip of land of variable width, lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 2570+00, said Station being 1054.9 feet South and 836.86 feet East of the Southwest corner of the J. Huntley Donation Land Claim No. 56, Township 27 South, Range 6 West, W.M.,; thence South 47° 29' 10" West 333.38 feet; thence on a spiral curve left (the long chord of which bears South 44° 09' 10" West) 500 feet; thence on a 1432.40 foot radius curve left (the long chord of which bears South 25° 39' 10" West) 591.67 feet; thence on a spiral curve left (the long chord of which bears South 7° 09' 10" West) 500 feet; thence South 3° 49' 10" West 874.95 feet to Engineer's Station 2598+00; said relocated center line crosses the North and South lines of said property approximately at Station 2574+03 and Station 2596+66 respectively,

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
2570	2578+33.38	Variable to River	200 feet
2578+33.38	2584+25.05	125 feet	200 feet
2584+25.05	2598	125 feet	125 feet

The bearings used herein are based on the Oregon Coordinate System, South Zone.

EXHIBIT "H-2" (cont.)

The parcel of land to which this description applies contains 14.48 acres, of which 2.14 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 12.34 acres lie outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Garden Valley Road-Second Crossing of the Umpqua River Unit of the Deady-Shady Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land the following:

A right of access to the Umpqua Park County Road, also known as Douglas County Road No. 56, where said county road lies within the right of way of the hereinabove described real property and Westerly of the said main relocated highway; said Umpqua Park County Road to be connected to the said main highway, or other public ways, only at such point or points as are designated by the State of Oregon.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the State Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or

admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 6th day of January, 1953.

EXHIBIT "H-3"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property, which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Deady-Winchester Unit of the Deady-Shady Section of the Pacific Highway; and,

WHEREAS, the said Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

(cont.)

EXHIBIT "H-3" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for the proper relocation, construction, improvement and maintenance of the Deady-Winchester Unit of the Deady-Shady Section of the Pacific Highway as a throughway, the following described real property, to wit:

R-19411
Owner: William A. Oerding

Parcel No. 1:

A parcel of land lying in Plat G, Roseburg, Home Orchard Tract, situated in Section 6, Township 26 South, Range 5 West, W.M., Douglas County, Oregon, the said parcel being that portion of Plat G of said Roseburg Home Orchard Tracts included in a strip of land of variable width, lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station L_3 1943+65.04, said Station being 844.15 feet north and 2065.23 feet east of the north quarter ($N\frac{1}{4}$) corner of said Section 6; thence on a spiral curve right (the long chord of which bears South 3° 35' West) 600 feet; thence on a 1909.86 foot radius curve right (the long chord of which bears South 15° 23' West) 386.67 feet; thence on a spiral curve right (the long chord of which bears South 27° 11' West) 600 feet; thence South 30° 11' West 151.08 feet to equation in which L_2 1961+02.79 back equals 1960+93.78 ahead; thence South 30° 11' West 4906.22 feet to Engineer's Station L_2 2010+00. Said center line crosses the north and west lines of said Plat G approximately at Stations 1952+95 and 2006+90, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on East Side of Center Line	Width on West Side of Center Line
L_3 1952+00	1957	Variable to present Pacific Highway	125 feet
1957	1966+00	125 feet	125 feet
1966+00	1968+35	125 feet	150 feet
1968+35	1969+35	Variable to present right of way Pacific Highway	180 feet

(cont.)

EXHIBIT "H-3" (cont.)

Station to Station		Width on East Side of Center Line	Width on West Side of Center Line
1969+35	1974+50	125 feet	180 feet
1974+50	1982	125 feet	150 feet
1982	1984+50	125 feet	Taper 150 feet to 290 feet
1984+50	1984+75	125 feet	290 feet
1984+75	1986+00	125 feet	Taper 290 feet to 125 feet
1986+00	2010+00	125 feet	125 feet

The bearings used in this description are based upon the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 33.84 acres.

2. That in addition to the acquisition of fee simple title to the hereinabove described real property designated as Parcel No. 1, it is necessary that there be acquired an easement across the following described parcel of real property, hereinafter designated as Parcel No. 2, for the construction of an approach road to be connected to a frontage road to be constructed by the State of Oregon on the hereinabove described Parcel No. 1.

Parcel No. 2:

A parcel of land lying in Plat G, Roseburg Home Orchard Tract, situated in Section 6, Township 26 South, Range 5 West, W.M., Douglas County, Oregon, the said parcel being a strip of land of variable width, lying on each side of the center line of a road approach as said road approach has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 0+00, said Station being 1423.82 feet South and 1062.32 feet East of the North quarter ($N\frac{1}{4}$) corner of said Section 6; (said Station also being North 59° 49' West, 125 feet from Engineer's center line Station 1969+00 of the relocated Pacific Highway); thence North 72° 19' West 60.54 feet; thence on a 159.15 foot radius curve right (the long chord of which bears North 35° 59' West) 201.85 feet; thence North 0° 21' East, 37.61 feet to Station 3+00. Said strip of land extends from a line which is 180 feet Westerly from the relocated center line of the Pacific Highway to a line lying at right angles to said center line at Station 3+00.

The widths in feet of the strip of land above referred to are as follows:

(cont.)

EXHIBIT "H-3' (cont.)

Station to Station		Width of North Side of Center Line	Width on South Side of Center Line
0+00	2+00	40 feet	40 feet
2+00	3+00	30 feet	30 feet

The bearings used herein are based upon the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 0.40 acres, which includes the existing right of way.

3. That in addition to the acquisition of fee simple title to the real property hereinabove described as Parcel No. 1 and an easement across the real property hereinabove described as Parcel No. 2, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Deady-Winchester Unit of the Deady-Shady Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining real property, their heirs and assigns, a right of access to a frontage road to be constructed by the State upon the hereinabove described real property and Westerly of the said main relocated highway, said frontage road to be connected to the said main highway or other public ways only at such point or points as are designated by the State of Oregon.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the State Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the

EXHIBIT "H-3" (cont.)

State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 6th day of January, 1953.

EXHIBIT "H-4"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right of interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property, which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, may, in its discretion, acquire an entire lot, block or tract of land, if by so doing the interest of the owners and the State will be best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Deady-Winchester Unit of the Deady-Shady Section of the Pacific Highway; and,

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

(cont.)

EXHIBIT "H-4" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for use in connection with the relocation, construction, improvement and maintenance of the Deady-Winchester Unit of the Deady-Shady Section of the Pacific Highway as a throughway, the following described real property, to wit:

R-19416
Owner: Francis A. Vasche, et al

Parcel No. 1:

A parcel of land lying in Lot 43, Plat D, Roseburg Home Orchard Tracts, situated in Section 7, Township 26 South, Range 5 West, W. M., Douglas County, Oregon, and being a portion of the following described property: That tract of land which was conveyed by that certain deed to Francis A. Vasche and Alice J. Vasche, recorded in Book 192, Page 35, of Douglas County Record of Deeds, the said parcel being described as follows:

Beginning at a 3/4 inch iron bar in the Westerly line of the County Road and the Easterly line of said Lot 43, from which the West quarter ($W\frac{1}{4}$) corner of said Section 7 bears South 57° 03' West, 1090.7 feet; thence North 87° 20' West 98 feet, more or less, to a point which is 125 feet Westerly of (when measured at right angles to) the relocated center line of the Pacific Highway; thence in a Northeasterly direction along a line which is parallel to and 125 feet Westerly of said highway center line, 122 feet, more or less, to the North line of said property; thence South 87° 20' East along said North line 28 feet, more or less, to the Westerly line of said County Road; thence South 10° 55' East along the Westerly line of said County Road 115 feet to the point of beginning.

The center line referred to above is described as follows: Beginning at Engineer's center line Station 2030+80.52, said Station being 993.10 feet North and 1201.91 feet East of the West quarter ($W\frac{1}{4}$) corner of said Section 7; thence on an 11,459.16 foot radius curve left (the long chord of which bears South 27° 03' 30" West) 1,000 feet to Station 2040+80.52.

The parcel of land to which this description applies contains 0.16 acre.

2. The Commission does hereby find and declare that the acquisition of the real property hereinabove described as Parcel No. 1 and the denial of

21088

EXHIBIT "H-4" (cont.)

access to the owners' remaining property from the said Deady-Winchester Unit of the Deady-Shady Section of the Pacific Highway will result in depriving the owners of all means of access from the said remaining real property lying Westerly of the real property hereinabove described as Parcel No. 1 and the said relocated highway, and, therefore, it is in the best interest of the owners, as well as the interest of the State of Oregon, that the State acquire fee simple title to all of the owners' said remaining property lying Westerly of the West boundary of the said relocated highway, which said remaining real property is described as follows, to wit:

Parcel No. 2:

A parcel of land lying in Lot 43, Plat D, Roseburg Home Orchard Tracts, situated in Section 7, Township 26 South, Range 5 West, W. M., Douglas County, Oregon, and being a portion of the following described property: That tract of land which was conveyed by that certain deed to Francis A. Vasche and Alice J. Vasche, recorded in Book 192 Page 35 of Douglas County Record of Deeds, the said parcel being described as follows:

Beginning at a 3/4 inch iron bar in the Westerly line of the County Road and the Easterly line of said Lot 43, from which the West quarter ($W\frac{1}{4}$) corner of said Section 7 bears South 57° 03' West 1090.7 feet; thence North 87° 20' West 133.6 feet to the Southwest corner of said property and the true point of beginning; thence South 87° 20' East 35.6 feet, more or less, to a point which is 125 feet Westerly of (when measured at right angles to) the relocated center line of the Pacific Highway; thence in a Northeasterly direction along a line which is parallel to and 125 feet Westerly of said highway center line 122 feet, more or less, to the North line of said property; thence North 87° 20' West 105.6 feet, more or less, to the Northwest corner of said property; thence South 10° 55' East 115 feet to the true point of beginning.

The center line referred to above is described as follows: Beginning at Engineer's center line Station 2030+80.52, said Station being 993.10 feet North and 1201.91 feet East of the West quarter ($W\frac{1}{4}$) corner of said Section 7; thence on a 11,459.16 foot radius curve left (the long chord of which bears South 27° 03' 30" West) 1,000 feet to Station 2040+80.52.

The parcel of land to which this description applies contains 0.18 acre.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to

(cont.)

acquire title to said real property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the State Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisiton of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, The State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 6th day of January, 1953.

21184

EXHIBIT "H-5"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Deady-Winchester Unit of the Deady-Shady Section of the Pacific Highway; and,

WHEREAS, the said Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS for the purpose of establishing, constructing, improving, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

(cont.)

EXHIBIT "H-5" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for the proper relocation, construction, improvement and maintenance of the Deady-Winchester Unit of the Deady-Shady Section of the Pacific Highway as a throughway, and in connection therewith, the construction of approach and connecting roads and a traffic interchange to connect the said relocated highway with Winchester County Road, also known as Douglas County Road No. 115, and the Old Pacific Highway, the following described real property, to wit:

R-18989
Owner: John M. Fleck, et al

A parcel of land lying in Sections 24 and 25, Township 26 South, Range 6 West, W.M., Douglas County, Oregon, and being a portion of the following described property:

That tract of land which was conveyed by that certain deed to John M. Fleck, recorded in Book 163, Page 717, of Douglas County Record of Deeds, the said parcel being that portion of said property lying West of the Easterly right of way line of the present Pacific Highway.

The parcel of land to which this description applies contains 7.15 acres, of which 0.48 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 6.67 acres lie outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary for the State to acquire or extinguish all existing, future or potential rights of access, if any there be, whereby the owners may have the right to cross the existing Old Pacific Highway and thereby gain access to the real property hereinabove described. The owners, their heirs and assigns, shall, however, have access from their remaining real property to the Old Pacific Highway.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any man-

ner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the State Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 6th day of January, 1953.

EXHIBIT "H-6"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property, which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Elk Head Road-Rice Hill Section of the Pacific Highway; and,

WHEREAS, the said Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of establishing, constructing, improving, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled; and,

WHEREAS, said Commission is authorized to tkae fee simpel title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this

(cont.)

Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for the proper relocation, construction, improvement and maintenance of the Elk Head Road-Rice Hill Section of the Pacific Highway as a throughway, the following described real property, to wit:

R-19484
Owner: Darrell Ross, et al

Parcel No. 1:

A parcel of land lying in the East half ($E\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 21, and the Northwest quarter ($NW\frac{1}{4}$) of Section 22, Township 23 South, Range 5 West, W.M., Douglas County, Oregon, and being a portion of the following described property: That tract of land which was described in that certain deed to Darrell Ross and Mildred F. Ross recorded in Book 160, Page 518 of Douglas County Record of Deeds, the said parcel being described as follows:

Beginning at a point in the North line of said property, said point being 125 feet Westerly from (when measured at right angles to) the relocated center line of the South bound lane of the Pacific Highway, said point also being 1761 feet South and 1264 feet West of the Northeast corner of Donation Land Claim No. 46, Township 23, South, Range 5 West, W.M.; thence South 19° 34' West parallel to said center line 895 feet, more or less, to the South line of said property approximately opposite Station 954+00; thence East along said South line to a point 125 feet Easterly from (when measured at right angles to) the said center line approximately opposite Station 953+20; thence North 19° 34' East parallel to said center line 280 feet, more or less to a point opposite and 125 feet Easterly of Station 950+44.74 of said center line; thence South 70° 26' East 6 feet; thence North 23° 29' East 383.56 feet; thence North 32° 56' 30" East 42.23 feet; thence Northeasterly 225 feet, more or less, to a point on the West line of the existing Pacific Highway, which point is 20 feet Southerly of the Northeast corner of said property; thence North 20 feet along said West line to the Northeast corner of said property; thence North 89° 30' West along the North line of said property 380 feet, more or less, to the point of beginning, containing 5.62 acres.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

2. The Commission does further find and declare that the acquisition of the real property hereinabove described and the denial of access thereto will

result in depriving the owners of all means of access from the remaining portion of their real property lying Westerly of and adjacent to the real property hereinabove described to any public highway and to the owners' remaining real property and, therefore, it is to the best interest of both the State Highway Commission and the owners for the State Highway Commission to acquire fee simple title to the owners' entire tract of real property lying Westerly of the East boundary of the real property hereinabove described, which said tract includes the real property hereinabove described and the real property described as follows, to wit:

Parcel No. 2:

A parcel of land lying in the East half ($E\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 21, and the Northwest quarter ($SW\frac{1}{4}$) of Section 22, Township 23 South, Range 5 West, W.M., Douglas County, Oregon, and being a portion of the following described property: That tract of land which was described in that certain deed to Darrell Ross and Mildred F. Ross, recorded in Book 160, Page 518 of Douglas County Record of Deeds, the said parcel being that portion of said property lying Westerly of a line which is parallel to and 125 feet Westerly of the relocated center line of the South bound lane of the Pacific Highway as said center line is hereinabove described in Parcel No. 1, and containing 31.2 acres, more or less.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

3. That in addition to the acquisition of fee simple title to the real property hereinabove described, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Elk Head Road-Rice Hill Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the State Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of

eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of the said revised description.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interest of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 6th day of January, 1953.

EXHIBIT "H-7"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Columbia River Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, the Highway Commission has adopted a survey of a route and has designated said route as a state highway to be known as the Arlington-Heppner Junction Section of the Columbia River Highway, and has ordered and declared that said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

EXHIBIT "H-7" (cont.)

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Arlington-Heppner Junction Section of the Columbia River Highway as a throughway, the following described real property, to wit:

R-19506
Owner: Ralph D. Phillips, et al

A parcel of land being Lots 6 and 7, and that portion of Lots 3, 4, and 5 lying East of the O. W. R. R. & N. Co. right of way in Block 9 of Denny's Addition to the City o Arlington, situated in the Southwest quarter ($SW\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 21, Township 3 North, Range 21 East, W. M., Gilliam County, Oregon.

The parcel of land to which this description applies contains 9,650 square feet.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

4. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

5. That this resolution be entered in full in the minutes and records of the Commission this 6th day of January, 1953.

EXHIBIT "H-8"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, the Highway Commission has adopted a survey of a route and has designated said route as a state highway to be known as the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway, and has ordered and declared that said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled; and

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

(cont.)

EXHIBIT "H-8" (cont.)

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway as a throughway, the following described real property, to wit:

R 3257
Owner: Nellie L. Fromm, et al

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of Section 36, Township 33 South, Range 15 West; the Southwest quarter ($SW\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 31, Township 33 South, Range 14 West; the Northeast quarter ($NE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 1, Township 34 South, Range 15 West, and Lots 4 and 5, being the West half ($W\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 6, Township 34 South, Range 14 West, W. M., Curry County, Oregon, the said parcel being that portion of said subdivisions included in a strip of land of variable width, lying on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 389+15.13, said Station being 2879.46 feet North and 932.37 feet West of the Southeast corner of said Section 36; thence on a spiral curve left (the long chord of which bears South 4° 25' West) 400 feet; thence on a 2864.79 foot radius curve left (the long chord of which bears South 13° 06' 30" East) 1485.83 feet; thence on a spiral curve left (the long chord of which bears South 30° 38' East) 400 feet; to Engineer's center line Station 412+00.96 back equals 412+00.36 ahead; thence South 31° 58' East 1923.61 feet; thence on a spiral curve right (the long chord of which bears South 31° 18' East) 400 feet; thence on a 5729.58 foot radius curve right (the long chord of which bears South 19° 04' 30" East) 2178.33 feet to Engineer's center line Station 457+02.30, said center line intersects the North line of said Southeast quarter ($SE\frac{1}{4}$) of Section 36 and the East line of said Lot 5 of Section 6 approximately at Stations 392+53 and 448+10 respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
389+15.13	393+00	100 feet	100 feet
393+00	419+00	60 feet	100 feet
419+00	422+75	100 feet	100 feet

(cont.)

422+75	440+00	60 feet	100 feet
440+00	458+00	100 feet	100 feet

Also those portions of said Lots 4 and 5 of Section 6 lying Easterly of the above described strip of land and Westerly of the existing Oregon Coast Highway, which portions lie approximately between Stations 425+75 and 430+00 and between Stations 433+00 and 438+00 of said center line.

The parcel of land to which this description applies contains 21.88 acres, of which 5.20 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 16.68 acres lie outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all exising, future or potential rights of access between the right of way of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the Oregon Coast Highway of a width not to exceed 25 feet on the Easterly side of the said Oregon Coast Highway, opposite Highway Engineer's center line Station 404+50, for ordinary travel for private residential use and for the production and transportation to market of farm and forest products of the owners' remaining land only, and said access shall not be used in connection with any other commercial activity.

b. A right of access to the Oregon Coast Highway of a width not to exceed 25 feet on the Easterly side of the said Oregon Coast Highway, opposite Highway Engineer's center line Station 413+50, for ordinary travel for private residential use and for the production and transportation to market of farm and forest products of the owners' remaining land only, and said access shall not be used in connection with any other commercial activity.

c. A right of access to the Oregon Coast Highway of a width not to exceed 25 feet on the Westerly side of the said Oregon Coast Highway, opposite Highway Engineer's center line Station 447+00, for ordinary travel for private residential use and for the production and transportation to market of farm and forest products of the owners' remaining land only, and said access shall not be used in connection with any other commercial

(cont.)

EXHIBIT "H-8" (cont.)

activity.

The above said accesses to the said relocated highway from the said remaining real property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to barricade said accesses for all purposes in the event of any violation.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access herein reserved to and from the said Oregon Coast Highway that are on or adjacent to any such frontage road or roads shall cease, but the owners, their heirs and assigns, shall have access to the frontage road or roads at such places as will afford reasonable and safe connections. Said frontage roads shall be connected to the said main highway or other public ways only at such point or points as the State of Oregon may designate.

3. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in the interest of the said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 6th day of January, 1953.

EXHIBIT "H-9"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, the Highway Commission has adopted a survey of a route and has designated said route as a state highway to be known as the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway, and has ordered and declared that said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled; and

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

21102

EXHIBIT "H-9" (cont.)

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway as a throughway, the following described real property, to wit:

R 3256 B
Owner: Vera H. Redenbaugh

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$), and in Lots 6 and 7 of Section 6, Township 34 South, Range 14 West, W. M., Curry County, Oregon, the said parcel being that portion of said subdivisions of Section 6 included in a strip of land of variable width, said strip of land being 100 feet in width on the Easterly side and variable on the Westerly side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 431+23.97, said Station being 925.73 feet South and 593.31 feet East of the Northwest corner of said Section 6; thence on a spiral curve right (the long chord of which bears South 31° 18' East) 400 feet; thence on a 5729.58 foot radius curve right (the long chord of which bears South 19° 04' 30" East) 2178.33 feet; thence on a spiral curve right (the long chord of which bears South 6° 51' East) 400 feet; thence South 6° 11' East 130.07 feet; thence on a spiral curve left (the long chord of which bears South 7° 31' East) 400 feet; thence on a 2864.79 foot radius curve left (the long chord of which bears South 13° 38' East) 345 feet; thence on a spiral curve left (the long chord of which bears South 19° 45' East) 400 feet; thence South 21° 05' East 711.43 feet to Station 480+88.80. Said center line crosses the North and South lines of the Southwest quarter ($SW\frac{1}{4}$) of Section 6 approximately at Stations 450+85 and 478+10, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Westerly Side of Center Line
444+00	458+00	100 feet
458+00	480+88.80	To mean high tide of Pacific Ocean

(cont.)

EXHIBIT "H-9" (cont.)

The parcel of land to which this description applies contains 27.85 acres, of which 0.65 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 27.2 acres lie outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Oregon Coast Highway and all of the contiguous real property of the owner remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owner of the said remaining land, her heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the West side of the said relocated highway, opposite Highway Engineer's center line Station 451+25, for ordinary travel for private residential use and for the production and transportation to market of farm and forest products of the owner's remaining land only, and said access shall not be used in connection with any other commerical activity.

b. A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the East side of the said relocated highway, opposite Highway Engineer's center line Station 455+00, for ordinary travel for private residential use and for the production and transportation to market of farm and forest products of the owner's remaining land only, and said access shall not be used in connection with any other commercial activity.

The above said accesses to the said relocated highway from the said remaining real property shall not be used by the owner, her heirs or assigns, or anyone holding under her, for any use not herein stated, and the State Highway Commission shall have the power to barricade said accesses for all purposes in the event of any violation.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access herein reserved to and from the said Oregon Coast Highway that are on or adjacent to any such frontage road or roads shall cease, but the owner, her heirs and assigns, shall have access to the frontage road or roads at such places as will afford reasonable and safe connections. Said frontage road or roads shall

(cont.)

21104

EXHIBIT "H-9" (cont.)

be connected to the said main highway or other public ways only at such point or points as the State of Oregon may designate.

3. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of the said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 6th day of January, 1953.

EXHIBIT "H-10"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in the Oregon Compiled Laws Annotated and amendmendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct, and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts, and

WHEREAS, for the purpose of constructing and maintaining certain sections of the State highway system, the said Commission plans and proposes to acquire a quarry site and an easement for right of way for a hauling road in conjunction therewith, and for such purpose and connection therewith, the real property hereinafter described is necessary, and

WHEREAS, said Commission is authorized to take fee title to said property for the acquisition of a quarry site and is authorized to take an easement for right of way for the construction, improvement or maintenance of a hauling road in conjunction therewith;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find that the following described property is necessary and required for the acquisition of a quarry site, in connection with the proper construction and maintenance of certain sections of the state highway system, said property being located in Douglas County, Oregon, to wit:

R 19958
Owner: G. C. Long, et ux

Parcel No. 1:

A parcel of land lying in the South half ($S\frac{1}{2}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 15, and in the North half ($N\frac{1}{2}$) of the North half ($N\frac{1}{2}$) of Section 22, Township 23 South, Range 5 West, W. M., Douglas County, Oregon, and being a portion of the following described property: That tract of land which was described in that certain deed to G. C. Long,

(cont.)

EXHIBIT "H-10" (cont.)

recorded in Book 168, Page 380, of Douglas County Record of Deeds, the said parcel being described as follows:

Beginning at an iron pin in the East right of way line of the Southern Pacific railroad, said iron pin being 356.4 feet South and 656.2 feet East of the Northeast corner of the John Long Donation Land Claim No. 46; thence Southwesterly along said right of way 1836.5 feet; thence leaving said right of way line North 72° 39' East 270.92 feet; thence South 56° 18' 30" East 802.23 feet; thence North 33° 41' 30" East 1620 feet; thence North 56° 18' 30" West 1044.65 feet to the place of beginning.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 38.38 acres, of which 2.62 acres lie within the existing right of way of Douglas County Road No. 126, title to which hereby is acknowledged to be in the public, and 35.76 acres lie outside of the existing right of way.

2. The Commission does hereby find and declare that an easement over and across the following described real property is necessary and required for the construction, improvement and maintenance of a hauling road to be used in conjunction with the quarry site situated upon the real property described as Parcel No. 1, said property being located in Douglas County, Oregon, and described as follows, to wit:

Parcel No. 2:

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of Section 15, Township 23 South, Range 5 West, W. M., Douglas County, Oregon, the said parcel being described as follows:

A strip of land 50 feet in width lying adjacent to and Easterly of the Southern Pacific Railroad right of way line, said strip of land extending from the South line of the William H. Wilson Donation Land Claim No. 45 of Township 23 South, Range 5 West, W. M., to the Northerly line of Parcel No. 1 above, containing 0.43 acre.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

(cont.)

EXHIBIT "H-10" (cont.)

4. That the Legal and Right of Way Department for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcels of property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property.

5. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 6th day of January, 1953.

EXHIBIT "H-11"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, the Highway Commission has adopted a survey of a route and has designated said route as a state highway to be known as the Elk Head Road-Rice Hill Section of the Pacific Highway, and has ordered and declared that said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled; and

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

(cont.)

EXHIBIT "H-11" (cont.)

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Elk Head Road-Rice Hill Section of the Pacific Highway as a throughway, the following described real property, to wit:

R 19469
Owner: Mamie Lake, et al

A parcel of land lying in Section 31, Township 22 South, Range 4 West, and in Section 1, Township 23 South, Range 5 West, and in Section 6, Township 23 South, Range 4 West, W. M., Douglas County, Oregon, and being a portion of that property described in that deed to Verna Baxter, Mamie Lake and Birdie Nelson, recorded in Book 120, Page 118, of Douglas County Records of Deeds, the said parcel being that portion of said property lying Southeasterly of a line which is parallel to and 280 feet Northwesterly of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 705+77.44, said Station being 1092 feet South and 488 feet East of the Northwest corner of the John M. Scott Donation Land Claim No. 37 in Township 22 South, Range 4 West, W. M.; thence on a 5729.58 foot radius curve right (the long chord of which bears South 44° 49' West) 1295 feet; thence on a spiral curve right (the long chord of which bears South 52° 37' 30" West) 400 feet; thence South 53° 17' 30" West 740.03 feet to Station 730+12.47 back equals Station 729+77.30 ahead; thence continuing South 53° 17' 30" West 522.7 feet to Station 735+00, said center line crossing the township line between 22 South and 23 South approximately at Station 717+80.

The parcel of land to which this description applies contains 9.7 acres, more or less.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:

Rights of access to the Yoncalla-Elk Head County Road, also known as Douglas County Road No. 7, where said county

(cont.)

EXHIBIT "H-11" (cont.)

road lies within the right of way of the real property hereinabove described and Westerly of the said main relocated highway. Said rights of access to the said county road shall be to and from that portion of the said remaining property which abuts upon said county road Westerly of the said relocated highway. The said Yoncalla-Elk Head County Road shall be connected to the said main highway or other public ways only at such point or points as are designated by the State of Oregon.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 6th day of January, 1953.

EXHIBIT "H-12"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domian, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domian, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, the Highway Commission has adopted a survey of a route and has designated said route as a state highway to be known as the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway, and has ordered and declared that said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled; and

WHEREAS, the said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

(cont.)

21112

EXHIBIT "H-12" (cont.)

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway as a throughway, the following described real property, to wit:

R 19453
Owner: Stephen J. Spoerl, et ux

Parcel No. 1:

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of Section 7, and the Northeast quarter ($NE\frac{1}{4}$), and the Northeast quarter ($NE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 18, Township 34 South, Range 14 West, W. M., Curry County, Oregon, the said parcel being that portion of said subdivisions included in a strip of land of variable width, lying on the Easterly side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 524+06.16, said Station being 942.78 feet North and 2165.37 feet West of the Southeast corner of said Section 7; thence on a spiral curve right (the long chord of which bears South 32° 10' East) 400 feet; thence on a 4407.37 foot radius curve right (the long chord of which bears South 23° 51' 20" East) 1011.97 feet; thence on a spiral curve right (the long chord of which bears South 15° 32' 40" East) 400 feet; thence South 14° 40' 40" East 239.65 feet; thence on a spiral curve left (the long chord of which bears South 18° 14' East) 266.67 feet; thence on a 716.20 foot radius curve left (the long chord of which bears South 27° 45' 15" East) 60.24 feet; thence on a spiral curve left (the long chord of which bears South 37° 16' 30" East) 266.67 feet; thence South 40° 49' 50" East 84.35 feet; thence on a spiral curve right (the long chord of which bears South 34° 09' 50" East) 400 feet; thence on a 572.96 foot radius curve right (the long chord of which bears South 17° 12' 50" East) 72.33 feet; thence on a spiral curve right (the long chord of which bears South 0° 15' 50" East) 400 feet; thence South 6° 24' 10" West 88.78 feet; thence on a spiral curve left (the long chord of which bears South 1° 00' 10" West) 360 feet; thence on a 636.62 foot radius curve left (the long chord of which bears South 11° 40' 50" East) 41.85 feet; thence on a spiral curve left (the long chord of which bears South 24° 21' 50" East) 360 feet; thence South 29° 45' 50" East 168.05 feet; thence on an increasing spiral curve right through a spiral angle of 20° 00' (the long chord of

(cont.)

EXHIBIT "H-12" (cont.)

which bears South 23° 05' 50" East) 400 feet; thence on a decreasing spiral curve right through a spiral angle of 20° 00' (the long chord of which bears South 3° 34' 10" West) 400 feet; thence South 10° 14' 10" West 119.59 feet to Station 579+46.31; said center line intersects the Easterly line of that tract conveyed to the State of Oregon, by and through its State Highway Commission, by deed recorded in Book 24, Pages 218-219 of Curry County Record of Deeds, and intersects the South line of said Northeast quarter ($NE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 18 approximately at Stations 528+95 and 577+00, respectively.

Also that portion of said subdivisions lying Westerly of said center line and Easterly of said tract conveyed to the State of Oregon, by and through its State Highway Commission, by deed recorded in Book 24, Pages 218-219.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line
524+70	532+50	100 feet
532+50	537+00	230 feet
537+00	545+00	100 feet
545+00	549+00	150 feet
549+00	553+00	100 feet
553+00	561+50	Variable to existing Easterly right of way line
561+50	565+25	200 feet
565+25	579+46.31	Variable to existing Easterly right of way line

The parcel of land to which this description applies contains 40.16 acres, of which 5.36 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 34.8 acres lie outside of the existing right of way.

2. The Commission does further find and declare that the following described real property is necessary and required for a quarry site, for the proper construction and maintenance of certain sections of the state highway system, to wit:

Parcel No. 2:

A parcel of land lying in the Northwest quarter ($NW\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 7, Township 34

(cont.)

EXHIBIT "H-12" (cont.)

South, Range 14 West, W. M., Curry County, Oregon, the said parcel being described as follows:

Beginning at a point on the Easterly line of that tract of land conveyed to the State of Oregon, by deed recorded in Book 24, Pages 218-219 of Curry County Deed Records; said point being opposite and 100 feet Easterly from Engineer's center line Station 516+50 as said Station was established in said State deed, said point also being North 1484.67 feet and West 2234.74 feet from the Southeast corner of said Section 7; thence North 71° 10' East 400 feet; thence North 18° 50' West 538.15 feet; thence South 71° 10' West 342.14 feet to the Easterly line of said State tract; thence Southerly along said Easterly line to the point of beginning.

The parcel of land to which this description applies contains 4.701 acres.

3. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing future or potential rights of access between the right of way of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the East side of the said relocated highway, opposite Highway Engineer's center line Station 523+00, for ordinary travel for private residential use, and for the production and transportation to market of farm products of the owners' remaining land only, and said access shall not be used in connection with any other commercial activity.

b. A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the East side of the said relocated highway for ordinary travel for private residential use and for the production and transportation to market of farm products of the owners' remaining land only, and said access shall not be used in connection with any other commercial activity. The location of this station will be determinec by mutual agreement between the owners and the State Highway Commission after the completion of the said relocated highway.

The above said accesses to the relocated highway from the said remaining property shall not be used by the owners,

their heirs and assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to barricade said accesses for all purposes in the event of any violation.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access herein reserved to and from the aforesaid highway that are on or adjacent to any such frontage road or roads shall cease, but the owners, their heirs and assigns, shall have access to the frontage road or roads at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

4. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of the said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 6th day of January, 1953.

EXHIBIT "H-13"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and

WHEREAS, for the purpose of constructing and maintaining certain sections of the state highway system, the said Commission plans and proposes to acquire a quarry site, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee simple title to said property for the acquisition of a quarry site;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find that the following described real property is necessary and required for the acquisition of a quarry site in connection with the proper construction and maintenance of certain sections of the state highway system, said property being located in Marion County, Oregon, to wit:

R 19753
Owner: James Baker, et ux

A parcel of land lying in the South half ($S\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 25, Township 8 South, Range 3 West, W. M., Marion County, Oregon, the said parcel being described as follows:

Beginning at a point on the East line of Pringle Road, said point being 1942.4 feet South and 1253.99 feet East of the North quarter ($N\frac{1}{4}$) corner of said Section 25; thence North 65° 15' East 814.03 feet; thence North 89° 27' 11" East 659.86 feet to the East line of Section 25; thence South 0° 32' 47" East 1071.21 feet along said East line

(cont.)

to the Southeast corner of said South half ($S\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$); thence North 89° 48' West along the South line of said South half ($S\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) 1293.6 feet; more or less, to a 5/8 inch iron rod which is the Southeast corner of a 10 acre parcel of land described in that deed to Marion County, recorded in Volume 205, Page 313, Marion County Records of Deeds; thence North 0° 04' East along the East line of said Marion County parcel 317.46 feet to a 5/8 inch iron rod which is the Northeast corner of said Marion County parcel; thence along the North line of said Marion County parcel 28.18 feet, more or less, to the Easterly right of way line of said Pringle Road; thence North 51° 51' 59" West along said Easterly right of way line 101.2 feet, more or less, to an angle point on said right of way line; thence North 11° 11' West along said right of way line 310.54 feet to the point of beginning.

The parcel of land to which this description applies contains 30.183 acres, outside of the existing right of way.

2. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be operated and maintained in a manner which, in the opinion of the Commission will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said real property.

4. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

5. That this resolution be and it hereby is entered in the minutes and records of the Commission this 6th day of January, 1953.

EXHIBIT "H-14"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highwa purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, the Highway Commission has adopted a survey of a route and has designated said route as a state highway to be known as the Elk Head Road-Rice Hill Section of the Pacific Highway, and has ordered and declared that said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction,

(cont.)

improvement and maintenance of the Elk Head Road-Rice Hill Section of the Pacific Highway as a throughway, the following described real property, to-wit:

R-19465
Owner: E. M. Housley, et al

A parcel of land lying in the John M. Scott Donation Land Claim No. 37, also situated in Section 31, Township 22 South, Range 4 West, W. M., Douglas County, Oregon, and being a portion of that property described in that deed to Mrs. E. M. Housley and J. D. Housley, recorded in Book 91, Page 382, of Douglas County Records of Deeds, the said parcel being a strip of land over and across said property, said strip of land lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 686+34.35, said Station being 470.50 feet North and 1643.25 feet East of the Northwest corner of said John M. Scott Donation Land Claim No. 37; thence South 36° 20' 30" West 1543.09 feet; thence on a spiral curve right (the long chord of which bears South 37° 00' 30" West) 400 feet to Station 705+77.44, said center line intersecting the North and South lines of said property approximately at Stations 692+60 and 705+25, respectively.

The Easterly line of said strip of land begins on the North line of said property at a point which is 200 feet Easterly of (when measured at right angles to) said relocated highway center line; thence parallel to and 200 feet Easterly of said center line to a point opposite Station 692+00; thence in a straight line to a point which is 125 feet Easterly of said center line, opposite Station 694+00; thence parallel to and 125 feet Easterly of said center line to a point opposite Station 701+50; thence along a straight line which is 125 feet Easterly of said center line opposite Station 701+50 to a point 290 feet Easterly of said center line opposite Station 707+00, said Easterly line crossing the South line of said property approximately opposite Station 703+90.

The Westerly line of said strip of land begins on the North line of said property at the Northeast corner of that tract described in that deed to School District No. 30, recorded in Book 66, Page 115, Douglas County Deed Records; thence along the East and South lines of said School District No. 30 property to the Easterly line of the Anlauf-Scotts Valley County Road; thence along the East line of said county road to the South line of said Housley property.

The parcel of land to which this description applies contains 7.54 acres, outside of the existing right of way.

(cont.)

EXHIBIT "H-14" (cont.)

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future, or potential rights of access between the right of way of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described, except that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:

> Rights of access to the relocated Scotts Valley County Road, also known as Douglas County Road No. 8, where said county road lies within the right of way of the real property hereinabove described, and Southerly of the said main relocated highway. Said rights of access to the said county road shall be to and from only that portion of the said remaining property which abuts upon said county road Southerly of the said relocated highway. The said Scotts Valley County Road shall be connected to the said main highway or other public ways only at such point or points as are designated by the State.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if and, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 6th day of January, 1953.

EXHIBIT "H-15" (cont.)

and required for right of way purposes for the proper relocation, construction, improvement and maintenance of the Elk Head Road-Rice Hill Section of the Pacific Highway as a throughway, the following-described real property, to-wit:

R 19467 - Harold Turpin

Two parcels of land lying in the South half ($S\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 31, Township 22 South, Range 4 West, W. M., and the Northeast quarter ($NE\frac{1}{4}$) of Section 1, Township 23 South, Range 5 West, W. M., Douglas County, Oregon, and being portions of that property described in that deed to Harold Turpin, recorded in Book 108, Page 207, of Douglas County Records of Deeds, the said parcels being those portions of said property lying Northeasterly (Parcel No. 1) and Southwesterly (Parcel No. 2) of that tract of land conveyed to Verna Baxter, Mamie Lake and Birdie Nelson as recorded in Book 120, Page 118, Douglas County Records of Deeds, and included in a strip of land of variable width, lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 686+34.35, said Station being 470.50 feet North and 1643.25 feet East of the Northwest corner of the John M. Scott Donation Land Claim No. 37, Township 22 South, Range 4 West, W.M.; thence South 36° 20' 30" West 1543.09 feet; thence on a spiral curve right (the long chord of which bears South 37° 00' 30" West) 400 feet; thence on a 5729.58 foot radius curve right (the long chord of which bears South 44° 49' West) 1295 feet; thence on a spiral curve right (the long chord of which bears South 52° 37' 30" West) 400 feet; thence South 53° 17' 30" West 740.03 feet to Station 730+12.47 back equals 729+77.30 ahead; thence South 53° 17' 30" West 3908.02 feet to Station 768+85.32.

Parcel No. 1 being that portion of said Turpin property lying Northeasterly of said Baxter tract and Southeasterly of the following described line:

Beginning at a point on the North line of said Turpin property 250 feet Northwesterly of (when measured at right angles to) said center line approximately opposite Station 702+35; thence Southwesterly parallel to said center line to a point opposite Station 705+77.44; thence Northwesterly at right angles to said center line 30 feet; thence Southwesterly parallel to and 280 feet Northwesterly of said center line to the Northerly line of said Baxter tract.

Parcel No. 2 being that portion of said Turpin property lying Southwesterly of said Baxter tract and Southeasterly of the following described line:

EXHIBIT "H-15" (cont.)

Beginning on the Northwesterly line of said Baxter tract at a point 250 feet Northwesterly of (when measured at right angles to) said center line approximately opposite Station 727+65; thence Southwesterly parallel to said center line to a point opposite Station 756+64.93; thence Southwesterly on a straight line to a point opposite and 300 feet from Station 761+00, said Westerly line of said strip of land crossing the West line of said Turpin property approximately opposite Station 758+40.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The Parcels of land to which this description applies contain 28.49 acres, of which 2.92 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public and 25.57 acres lie outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future, or potential rights of access between the right of way of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described, except that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:

Rights of access to the Yoncalla-Elk Head County Road, also known as Douglas County Road No. 7, and the Scotts Valley County Road, also known as Douglas County Road No. 8, where said county road lies within the right of way of the real property hereinabove described, and Westerly of the said main relocated highway. Said rights of access to the said county roads shall be to and from only that portion of the said remaining property which abuts upon said county roads Westerly of the said relocated highway. The said Scotts Valley County Road and the Yoncalla-Elk Head County Road shall be connected to the said main highway or other public way only at such point or points as are designated by the State of Oregon.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

Minutes of January 6, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Elk Head Road-Rice Hill Section of the Pacific Highway; and,

WHEREAS, the said Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Elk Head Road-Rice Hill Section of the Pacific Highway as a throughway, the following described real property in fee simple, to wit:

EXHIBIT "H-16" (cont.)

R-19488
Owner: Arthur O. Anderson, et ux

A parcel of land lying in the South half ($S\frac{1}{2}$) of Robert Smith Donation Land Claim No. 47, also lying in Section 28, Township 23 South, Range 5 West, W. M., Douglas County, Oregon, and being a portion of that property conveyed by that deed to Arthur O. Anderson and Esther S. Anderson, recorded in Book 109, Page 267, of Douglas County Records of Deeds, the said parcel being that portion of said property included in a strip of land 315 feet in width, 125 feet on the Southeasterly side and 190 feet on the Northwesterly side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1024+50, said Station being 1146.4 feet North and 1639 feet West of the Southeast corner of said Robert Smith Donation Land Claim No. 47; thence South 19° 34' West 189.95 feet; thence on a spiral curve right (the long chord of which bears South 20° 31' 48" West) 340 feet; thence on a 3370.34 foot radius curve right (the long chord of which bears South 34° 43' 37" West) 1443.58 feet to Station 1044+23.53, said center line intersecting the North and South lines of said property approximately at Stations 1025+55 and 1034+20 respectively.

Excepting that part of the above described strip of land lying within that tract conveyed to Richard E. Thorp and Georgena E. Thorp by deed recorded in Book 196, Page 208, of Douglas County Records of Deeds.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 6.25 acres.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the relocated Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of said remaining land, their heirs and assigns, for service of the said remaining land, the following:

Rights of access to a frontage road to be constructed by the State upon the above described real property and Westerly of the main relocated highway, said frontage road to be connected to the said main highway or other public ways only at such point or points as are designated by the State.

EXHIBIT "H-16" (cont.)

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

5. That the Legaland Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

6. That this resolution be entered in full in the minutes and records of the Commission this 6th day of January, 1953.

Minutes of January 6, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Elk Head Road-Rice Hill Section of the Pacific Highway; and,

WHEREAS, the said Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Elk Head Road-Rice Hill Section of the Pacific Highway as a throughway, and in connection therewith, the relocation of a portion of the Wilson County Road, also known as Douglas County Road No. 127, and the construction of an overpass carrying the said Wilson County

(cont.)

EXHIBIT "H-17" (cont.)

Road over the said relocated highway, the following described real property in fee simple, to wit:

R-18667
Owner: Earl Brant, et ux

Parcel No. 1:

A parcel of land lying in the Robert Cowan Donation Lane Claim No. 43, also in Section 11, Township 23 South, Range 5 West, W.M., Douglas County, Oregon, and being a portion of that property conveyed by that deed to Earl Brant and Addie M. Brant, recorded in Book 119, Page 550, of Douglas County Records of Deeds, the said parcel being that portion of said property included in a strip of land of variable width, lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 836+00, said Station being 1320.74 feet North and 7228.21 feet East of the Northwest corner of the W. H. Wilson Donation Land Claim No. 45; thence South 40° 34' West 5400 feet to Station 890+00, said center line intersecting the Northerly and Southerly lines of said property approximately at Stations 840+80 and 855+20 respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Westerly Side of Center Line	Width on Easterly Side of Center Line
840+00	854+00		75 feet
854+00	860+00		250 feet
840+00	852+00	125 feet	

Taper from 125 feet at Station 852+00 to the Southeast corner of the Pleasant Hill School property approximately opposite Station 858+35.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 7.98 acres, outside of the existing right of way in county road.

Parcel No. 2:

A parcel of land lying in the W. H. Wilson Donation Land Claim No. 45, also in Sections 11, 14 and 15, Township 23 South, Range 5 West, W.M., Douglas County, Oregon, and being a portion of that property conveyed by that deed to Earl Brant and Addie M. Brant, re-

(cont.)

corded in Book 102, Page 160 of Douglas County Records of Deeds, the said parcel being that portion of said property included in a strip of land 200 feet in width, 75 feet on the Easterly side and 125 feet on the Westerly side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 836+00, said Station being 1320.74 feet North and 7228.21 feet East of the Northwest corner of said Donation Land Claim No. 45; thence South 40° 34' West 5400 feet to Station 890+00, said center line intersecting the Northerly and Southerly lines of said property approximately at Stations 866+25 and 886+95 respectively.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 9.50 acres, outside of the existing right of way in county road.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the relocated Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 6th day of January, 1953.

Portland, Oregon
January 21, 1953

The State Highway Commission met in regular session at 9:00 a.m. in the Crystal Room of the Benson Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2d Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Bids, as follows, for highway construction were opened and read aloud by the Secretary pursuant to previously published notice, at the conclusion of which it was announced that the awards of contracts would be made at 4:30 p.m. in the same room:

CLACKAMAS COUNTY
WILSONVILLE FERRY SERVICE

J. F. LaRouche, Portland	$2,400.00 per month
Theodore E. Bruck, Wilsonville	2,460.00 per month

The Commission conferred with the following persons representing the U. S. Bureau of Public Roads and the U. S. Forest Service relative to the formulation of a construction program for the 1954 fiscal year Forest Highway Funds, amounting to $2,660,000, which have been authorized by the Congress, and necessary revisions in previously approved programs:

Representing the Bureau of Public Roads were W. H. Lynch, Division Engineer, F. E. Andrews, Assistant Division Engineer, and R. N. Kellogg, Highway Engineer.

Representing the U. S. Forest Service were R. F. Grefe, Assistant Regional Forester, and W. L. MacDonald, Highway Engineer.

Mr. Lynch presented for the Commission's consideration a list of projects that are eligible for the funds under discussion. The State Highway Engineer also submitted a list of projects. Both lists were carefully considered by the Commission, and as a result of discussion, it was mutually agreed to recommend to the Chief, Forest Service, and to the Commissioner of Public Roads, Washington, D. C., the following projects for the funds under discussion, it being understood that actual construction cannot proceed until the Congress has appropriated the funds:

Recommended Allocations to Previously Programmed Projects

Project and Account No.	Route name and Type of Work	Length Miles	Recommended Increase
9-A4, B4, C1 (3020-00)	Oregon Coast Highway Surf. & Bit. Paving	8.8	$ 150,000.00
47-E (3024-00)	North Umpqua Hwy. Grading	4.0	145,000.00

Recommended Allocations to New Projects

Project and Account No.	Route name and Type of Work	Length Miles	Recommended Allocation
10-C1 (3070-00)	Oregon Coast Highway Grading	8.0	$ 840,000.00

January 21, 1953

Recommended Allocations to New Projects (cont.)

Project and Account No.	Route Name and Type of Work	Length Miles	Recommended Allocation
21-D5 (3071-00)	Willamette Highway Grading Surf. & Bit. Surf.	4.4 4.4 2.1	$ 300,000.00
24-A8 (3080-00)	North Santiam Highway Bridge	.02	40,000.00
25-A9 (3072-00)	Mt. Hood Highway Grad., Surf. & Bit. Surf.	2.0	350,000.00
38-B2 (3073-00)	Flora-Enterprise Hwy. Grading	8.0	225,000.00
46-C4, D3, E2 (3074-00)	Cascade Lakes Highway Grading 4.5 mi. Selected Borrow 12.4 mi.	12.4	185,000.00
47-A3, B6, C1, D2 (3075-00)	North Umpqua Highway Surfacing and crushed rock production	16.9	375,000.00
51-A (3076-00)	Belknap Springs Highway Advance Clearing	8.0	50,000.00
	TOTAL		$2,660,000.00

In the discussion of the above forest highway program, the representatives of the U. S. Forest Service strongly urged commitments for the Starkey-Ukiah Forest Highway in Union and Umatilla Counties and for the Belknap Springs-Clear Lake Forest Highway connecting the McKenzie and Santiam Highways in Lane and Linn Counties. Further improvement of the Enterprise-Flora Highway was also urged. It was mutually agreed to include in the present program an item of $50,000 for clearing the right of way on the Belknap Springs-Clear Lake Project. It was also mutually agreed that provision will be recommended in the next following forest highway program for funds with which to finance additional work on this highway, for construction on the Starkey-Ukiah Forest Highway, and for bituminous surfacing on the Enterprise-Flora Project. (A program letter containing recommendations mutually agreed to at this conference is to be prepared by the Bureau of Public Roads and submitted to the Highway Commission for approval at its next meeting.)

The State Parks Superintendent reported on the following park matters:

1. Sale of down and dead timber on the Sunset Highway resulting from recent severe wind storms: The Parks Superintendent advised that he has received a number of requests to purchase this timber. He recommended that it be sold in conformity with approved methods, and that there be included in the sale the removal of some standing trees that are considered dangerous. He mentioned that the timber

is located on three park areas on the east side of the coast range, and that the standing dangerous trees are located on a strip of land about 100 feet wide on the south side of the highway near the summit. He also stated that the removal of the dangerous trees will not adversely affect the aesthetic features of the highway, and that it is planned to replant the area later. The Commission unanimously authorized the sale of the timber as recommended, and left it with the Parks Superintendent to decide the method to be used, either auction or the taking of competitive bids.

2. Request of Roscoe Phelps, Ocean Lake, for permission to use an existing roadway across Van Duzer Corridor, at M. P. 12.19 on the Salmon River Highway, in connection with logging operations that he is conducting on private property adjacent to this location: The Parks Superintendent advised that Mr. Phelps has used this road for the last two years. He recommended that Mr. Phelps be granted a two-year extension of time for the use of the road. The Commission approved the recommendation.

3. Report on establishment of a proposed park on the North Umpqua River about 30 miles east of the City of Roseburg, in Douglas County: The Parks Superintendent presented a comprehensive written report on this subject, including maps, which, he stated, was prepared after a very careful study of the area and conditions of acquisition. He mentioned that the area is a very beautiful one and that it should be developed by some agency, but he could not recommend its development as a state park because it is situate so far from the state highway. He recalled that it is contrary to the Highway Commission's long-established policy to create and develop state parks so far distant from a state highway. He recommended against the development as a state project. It was the opinion of the members of the Commission, as expressed, that the area should be developed for park and recreational purposes and that such development would be done as a State responsibility were the area located adjacent to a state highway, but, considering its great distance from a state highway, the Commission's policy with regard to such matters, and the fact that it would be necessary to construct and maintain an access road to it, it would not be in the interest of the State to assume the obligation, and that the project belongs rightly to Douglas County and the Federal Government. Accordingly, the Commission decided unanimously not to assume jurisdiction of the area. (For further details, see copy of Parks Superintendent's report, dated December 24, 1952, in the General Files.)

4. Construction of overnight camping facilities at Harris Beach, Honeyman, Big Creek, and The Cove State Parks, and construction of additional facilities at Armitage and Cape Lookout State Parks: The Parks Superintendent advised that the 1953 park budget, which was approved by the Commission in principle, contains provision for these facilities. He recommended definite approval at this time for the projects under discussion so as to insure that they will be completed during the coming working season. The Commission approved the recommendation.

5. Progress report re investigation of conditions in the Columbia Gorge as requested by the "Save the Gorge" Committee of the Portland Women's Forum: The Parks Superintendent recalled that the "Save the Gorge" Committee appeared

before the Commission at its November meeting and asked for an investigation of the possibilities of purchasing 105 acres of land located near Sheppards Dell which is owned by the Sheppard estate, and a tract of land located on the highway near the east bank of Tanner Creek, owned by Mr. and Mrs. N. E. Tyrell. It was explained at the time that these areas were either being logged now or were about to be logged, but it would be possible to postpone the operations were the highway Commission able to work out an exchange of properties with the Federal Government. The Parks Superintendent stated that the logging operation on the Sheppard's tract is now at a stand-still, and very little additional timber is to be removed; in fact, the logging operator has removed his equipment, and it may be that he will not return; however, he said, the Tyrell property presents a different picture, and it appears that negotiations between the U. S. Forest Service and the Tyrells are at a stand-still, the Forest Service having offered to exchange for the Tyrells' property 1,140 MFBM of timber located in the National Forest, whereas, the Tyrells are demanding 1,300 MFBM. He gave as his feeling that the difference will be ironed out in the not distant future, and, if so, it will not be necessary for the State to participate in the action in any manner whatsoever. The Commission took no action in the matter.

The Right of Way Engineer presented for the Commission's approval options obtained for the acquisition of real property needed as right of way or for other purposes in connection with state highway improvements. After careful consideration, the Commission approved the options as reported and authorized the Right of way Engineer to close them in accordance with the prices mentioned therein. The attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission unanimously.

The Right of Way Engineer requested authority to negotiate acquisition of the following real properties that are needed for various highway purposes:

1. Quarry site on the Arlington-Service Creek Section of the John Day Highway in Gilliam County, consisting of approximately 17.47 acres; owners, Kreb Brothers and Shaffer Brothers.

2. Right of way for the Springfield Bridge Section of the McKenzie Highway in Lane County, consisting of approximately 2.01 acres; owners, Seaver, Casey, Both-Kelly Lumber Company, Service, and Sellin.

3. Gravel pit on the Azalea-Jump Off Joe Creek Section of the Pacific Highway in Josephine County, consisting of approximately 30.35 acres; owner, Mr. Guth.

4. Right of way for the Klondike-Gilliam County Section of the Wasco-Heppner Secondary Highway in Sherman County, consisting of approximately 3.40 acres; owner, Mr. Hanson.

The Commission approved the request unanimously.

The Commission unanimously confirmed sales of miscellaneous properties as reported by the Right of Way Engineer. (For a list of the properties sold, see

copy of report prepared by Mr. C. W. Parker, Property Manager, dated January 21 and 22, 1953, on file in the Secretary's office under the heading "Miscellaneous Sales".)

The Right of Way Engineer presented for the Commission's approval the matter of exchange of lands with R. B. and Josephine Rands covering properties in Morrow County. He explained that the State Highway Commission has a gravel pit located in Section 12, Township 4 North, Range 24 East, W. M., containing 39.69 acres, which was acquired from H. I. Napper and T. E. Hendrick, under Right of Way File No. Q 898, on which the gravel materials have been practically exhausted and that the present value of the area has been appraised at $595.35. He further stated that in the exchange the State will acquire three parcels of land located in Sections 8, Township 4 North, Range 25 East, Section 29, Township 5 North, Range 26 East, and Section 31, Township 5 North, Range 26 East, which will be valuable for right of way purposes and which are of equal or superior value to the tract to be conveyed by the State. The Right of Way Engineer further explained that Mr. Rands has agreed that in the event the State Highway Commission should desire to secure further materials from the property at some future time, he will give a lease to the State Highway Commission for such purposes without cost. Based upon the report of the Right of Way Engineer, the Commission found and declared that the property now owned by the State is no longer needed, required or useful for highway purposes and accordingly authorized the making of the exchange.

The Right of Way Engineer brought up for discussion the matter of compensating Mr. C. H. Williams, a Forest Service employee, for telephone service due to his being forced to occupy a temporary dwelling on account of a slide condition at Columbia Gorge Ranger Station, resulting from highway construction. He said that the Forest Service is asking the sum of $11.40 to cover telephone service up to and including December 16, 1952, and the amount of $5.35 per month thereafter, until such time as the Forest Service dwelling can be put in a liveable condition. He recommended payment of the claim; however, he advised his intention to make a lump sum settlement, if possible. The Commission approved the recommendation.

The Commission discussed, and upon recommendation of the Engineer, unanimously approved the granting of a roadway easement to the Pacific Portland Cement Company across property acquired as right of way for the Rock Point-Blackwell Hill Section of the Pacific Highway in Jackson County (The easement was signed by the Commission later in the session.)

At the request of the Right of Way Engineer, Mr. C. W. Parker, Property Manager, reported on the proposed sale of excess property on the waterfront in the City of Coos Bay to the City, said property being of no value for State highway purposes. Mr. Parker recalled that the Commission purchased the property from the Santa Cruz Cement Company at the rate of 42 cents per square foot and that the property just to the north of this area was acquired by the State from the City of Coos Bay at the rate of 18 cents per square foot. He further stated that the City has plans to construct a floating dock in the bay in connection with which it needs the State's land for which the City is willing to pay

the State the sum of 18 cents per square foot, or a total of $13,522.50 for the area involved, $1,000 to be paid upon delivery of the deed and the balance in July of 1953. He pointed out that the land the City sold to the State for 18 cents per sq. ft. is more valuable than the land that the State acquired from the Santa Cruz Cement Company at 42 cents per square foot. He recommended sale of the property to the City at the rate of 18 cents per square foot. As a result of discussion, the Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed, and upon recommendation of the Right of Way Engineer and the Chief Counsel, unanimously approved sale to Mr. and Mrs. T. H. Richmond for the sum of $100 a portion of Lot 5, Block 4, Rainbow Addition to the City of Reedsport, it being understood that the property is of no value for State highway purposes, and that the Richmonds shall relinquish all of their rights of access to the highway from the property and from additional adjacent property. (The Commission signed a form of "Indenture" covering the matter later in the session.)

The Engineer presented for the Commission's approval an agreement with Eagle Lodge No. 123 IOOF, Richland, Oregon, being a compromise settlement of a property line discrepancy between State Highway property and Lodge property in the City of Richland. He explained there is an overlap of 17 feet in the property description which was reconciled by establishing a boundary line along an old well-established fence location which was considered locally to be the dividing line between the two properties. He recommended approval of the arrangement. The Commission approved the recommendation. (An agreement covering the matter was signed by the Commission later in the session.)

The Commission discussed, and upon recommendation of the Right of Way Engineer, approved the granting of a change in the access point to the Forest Boundary-Hauser Section of US 101, Coos County, from property owned by Rachel E. Mullins. (An "Indenture of Access" covering the matter was signed by the Commission later in the session.)

Consideration was given by the Commission to the matter of leasing to Ronald E. Phair a small parcel of land located at the intersection of the Klamath Falls-Lakeview and Klamath Falls-Malin Highways, about four miles east of Klamath Falls. The Right of Way Engineer explained details pointing out that the lease is for a period of four years at an annual rental of $150, and that the lease contains a clause providing for cancellation of the lease on six months notice. He recommended approval of the lease. The Commission approved the recommendation. (A lease agreement was signed by the Commission later in the session.)

The Right of Way Engineer reported difficulties in the relocation of the plant of the Shell Oil Company in Arlington to accommodate highway improvement at this place. He explained that the highway improvement requires relocation of a plant of this company and that the State is to furnish a new site on which to move the Shell Company's facilities. He further stated that a suitable site has been found, and an option was secured from the owner, Charles D. Conner, et ux., con-

taining a price that is considered exorbitant. He asked the Commission to reject the option and to authorize the Chief Counsel to condemn the property if further negotiations reveal that to be necessary. The Commission approved the recommendation unanimously.

The Right of Way Engineer requested instructions as to the type of access to be granted the State Game Commission from its property at Eel Lake to the Forest Boundary-Hauser Section of US 101, Coos County. He recalled that as partial consideration for the right of way that was acquired from the Game Commission for the highway improvement access to the highway was granted, and that he discussed with the members of the Game Commission the matter of making this a private access, but the Game Commission demands access that is not restricted. He pointed out that because this is another State agency the Highway Commission does not have authority to condemn the right of way. He also said that the Game Commission would not even consider a compromise whereby as long as the adjacent property belonged to the Game Commission, free access to the highway would be granted, but if the property were sold to a private party, access would be limited. The State Highway Engineer pointed out that if the Commission granted unlimited access to the Game Commission, the privilege would be extended to any subsequent purchaser of the property who could use it for commercial purposes if he so desired. He suggested that it would be advisable for the Commission to discuss the matter with the members of the Game Commission or have the Governor intervene. As a result of the discussion, the Commission decided unanimously to accept the right of way on the best terms possible that can be made with the State Game Commission.

The Engineer reported completion of the following location surveys:

1. Survey for a four-lane highway between the Tualatin River and Middleton on US 99W in Washington County.

2. Survey for the reconstruction of the Moro Underpass Section of the Sherman Highway in Sherman County.

3. Survey for the West Portland Expressway from the intersection of Montgomery Street and Harbor Drive in Portland to a connection with Barbur Boulevard.

He exhibited maps showing the proposed locations. He explained details and recommended adoption of the surveys by the Commission. As a result of discussion and careful consideration, the Commission unanimously approved and adopted the said surveys as recommended. The attached resolutions relative thereto, marked EXHIBITS "C-1" and "C-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission by unanimous vote.

The Chief Counsel requested authority to acquire by condemnation, if

necessary, the following properties that are needed as right of way or for other purposes in connection with various highway improvements, and to tender offers for the same in conformity with instructions given him in the resolution that was adopted by the Commission at its meeting on December 20, 1951:

West Unit of the Arlington-Heppner Junction Section of the Columbia River Hwy

		Recommended Offer
R 19502 -	Charles D. Conner, et ux Right of Way (Gilliam) 55 square feet 7,435 square feet for other purposes	*
R 19505 -	Shell Oil Company (Gilliam) Right of Way 2,950 square feet	*

Rowena-The Dalles Section of the Columbia River Highway

R 16217 -	John Oliver Briggs Right of Way (Wasco) 9.1 acres	*

Unit No. 2 of the West Portland-Harbor Drive Expressway

R 19089 -	Dorothy M. Johnstone Right of Way (Multnomah) 1.024 acres	$7,000.00
R 19546 -	McGuire Construction Co. Right of Way (Multnomah) 0.325 acre	$3,600.00

Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway

L 1816 -	C. R. Lawrence, et ux New resolution to be prepared	*
L 1818 -	I. R. Lawrence, et ux New resolution to be prepared	*
L 1815 -	Leroy Lumber Company, et al New resolution to be prepared	$11,000.00

Lapine-Forest Boundary Unit of the Lapine-Diamond Lake Junction of The Dalles-California Highway

R 18023 -	Lawrence Harvey Kozowski Condemnation previously authorized, request approval of offer		
	House No. 1	$1,800.00	
	House No. 2	1,500.00	
	Root Cellar	125.00	

Lapine-Forest Boundary Unit of the Lapine-Diamond Lake Junction of The Dalles-California Highway (cont.)

			Recommended Offer
R 18023 - Lawrence Harvey Kozowski (cont.)			
Chicken House	$ 40.00		
Out-house	35.00		
Garage-Storage Shed	250.00	$3,750.00	
Land, 8 acres at $100 per acre		800.00	
Value of Remainder after Taking:			
6.56 acres at $50 per acre		325.00	
Taking value:			
1.44 acres at $100 per acre		145.00	
Damage due to Taking		775.00	
Total value of Taking		4,220.00	$4,225.00

Garden Valley Road-Second Crossing of the Umpqua River Unit of the Deady-Shady Section of the Pacific Highway

R 17859 - Eugene A. Springer, et ux.		
Condemnation previously authorized, request approval of offer		
Land, present market value	$3,000.00	
Improvements, present market value	15,500.00	
Garage, present market value	1,250.00	
Total value	$19,750.00	
Value after taking	11,850.00	
Taking and Damages	$7,900.00	$7,900.00

County Farm-Ashland Section of the Pacific Highway

R 19534 - Thomas A. Klarin		
Condemnation previously authorized, request approval of offer		
Value of entire tract before taking:		
Land	$5,065.00	
Two-story frame dwelling	3,373.00	
Total value of tract	$8,438.00	
Value of remainder after taking	750.00	
Value of taking	$4,315.00	
Total value of improvements	3,373.00	
Damages due to taking	500.00	
Total value of taking	$8,188.00	$8,200.00

Garden Valley Road-Second Crossing of the Umpqua River Unit of the Deady-Shady Section of the Pacific Highway

R 17857 - Douglas Community Hospital, Inc.	
Condemnation previously authorized, request approval of offer	
	$ 750.00

The Commission approved the request unanimously by adoption of the attached resolutions relative thereto, marked EXHIBITS "J-1" through "J-4" inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Chief Counsel reported cases in which settlements have been effected since the last meeting of the Commission, and he recommended approval of the settlements as follows:

(1) State vs. Albert Vik, et al, File No. L-1946: This case involves acquisition of 14,729 square feet of land with improvements located thereon, for the sum of $16,900, the property being acquired for the City of Springfield Section of the McKenzie Highway. The Chief Counsel advised that an option was obtained from the Viks for the amount stated which option was accepted by the Commission at its meeting in April of 1952; however, the term of the option expired before the option could be taken up due to delays by the City of Springfield in fulfilling certain obligations in connection with this project. Subsequently, the City completed its obligations, and the Viks were again contacted relative to the acquisition of their property. They advised they would sell only on the condition that the State pay the 1952-1953 taxes that had accrued after the date of the option, and would also pay 6 percent interest on the option price from the date of the option. They were told, he said, that payment of the taxes would be recommended, but no such recommendation would be made with respect to the payment of the interest charge. He added that the Viks refused to execute a new option for the original price plus the tax item, and accordingly the Commission authorized condemnation of the property. Upon filing the complaint, Mr. Vik reconsidered and finally agreed to convey the property to the State for the original price of $16,900 plus the extra taxes, amounting to $195, for a total of $17,095. The Commission approved the settlement.

(2) State vs Roland M. Cole, et al, File No. L-1898: This case involves acquisition of two tracts of land containing a total of 1.32 acres, required as right of way for the Forest Boundary-Hauser Unit of the Oregon Coast Highway, Coos County, together with all rights of access from the owners remaining land to the relocated highway, except for one private access to serve each of two separate parcels of remaining land. The original offer in this case was in the sum of $4,410, whereas the owners demanded $4,500 for the land and their unwillingness to give up the speculative possibility of later securing, by court order, commercial accesses to serve their remaining land. The matter, he said, has been discussed at length with the attorney for the Coles, but the Coles still will not grant a release of their speculative hopes, so inasmuch as the property is immediately needed, a provisional settlement was agreed upon whereby the State will at this time acquire the building located on the property for the sum of $4,200, the owners agreeing to convey the land itself to the State for the sum of $300, with one private access being reserved to serve each of the two remaining parcels, should any of the cases presently being prosecuted by the State for acquisition of rights of way

on this same section of highway result in judicial determination that a commercial access must be granted to the owners. This arrangement, he said, has been prepared in a form of agreement which will be presented to the Commission for execution when it has been signed by the Coles. The Commission approved the report.

(3) State vs Helen Marie Lovin, File No. L-1759: This is an amended complaint file on March 21 for the acquisition of 4 acres of land necessary for widening the Sylvan Section of the Sunset Highway, and for construction of approaches or connecting roads between the Sunset Highway and S. W. Schools Ferry, S. W. Hewitt Boulevard, and S. W. Humphrey Boulevard. An offer of $61,000 was made prior to the filing of the complaint which offer the owners refused and stated their demands for $100,000. The State's offer, the Chief Counsel said, was based on three appraisals, two by commercial appraisers, and one by a Highway Department Right of Way Agent, the high one being that of the Right of Way Agent at $60,668. He further stated that negotiations were carried on with Mr. James P. Powers, Attorney for the owners, and as a result thereof, settlement was reached on the basis of the State's offer of $61,000. The Commission approved the report.

(4) State vs O. V. Rentfrow, File No. L-1870: This case concerns right of way needed for the Tigard-Tualatin River Section of the West Portland-Hubbard Highway and involves acquisition of a portion of certain property that is being utilized for motel purposes. The area needed contains 8,200 square feet of which 5,730 square feet lies within the existing right of way and 2,490 square feet lies outside of the existing right of way. Settlement with the Rentfrows was effected on the basis of the State paying them $2,600 in cash for the property, providing them a better connection with the highway, and allowing them to landscape and maintain a grass area between the frontage road and their property. The Commission approved the settlement.

The Chief Counsel reported that an offer of $11,000 was made the Leroy Lumber Company, et al, prior to the commencement of condemnation proceedings to acquire right of way across the property of the company for improvement of the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway, Lane County. The Commission approved the offer.

The Chief Counsel requested authority to commence specific performance suits against the following persons:

(1) Suit against Mary N. Bendele for acquisition of 0.49 acre needed for the Reedsport-Winchester Bay Section of US 101.

(2) Suit against Charles J. Marks for conveyance of a parcel of property needed in connection with right of way for Reedsport-Coos County Line Section of US 101.

He explained details. The Commission approved the request unanimously.

The Chief Counsel asked the Commission to confirm telephonic authority given him by Commissioner McIver on January 8, 1953 to increase the price to be paid Vica and Paul Prince, from $12,200 to $14,200, for property required from them as right of way for the Chrome-Coquille Section of the Oregon Coast Highway. The Commission confirmed the increased amount by unanimous vote.

The Engineer reported on the request of the City of Seaside for designation of a truck route along Roosevelt Drive and its extension to Avenue "P" in Seaside, in order to relieve traffic congestion on the present highway route through the business district. He pointed out that were the truck route to be provided along Roosevelt Drive, it would be used by all traffic, so its improvement would have to be considered as a by-pass for US 101 through Seaside. He estimated the cost to construct a satisfactory improvement along the present Roosevelt Drive at about $105,000, and to extend the improvement southerly to Avenue "P", which would require complete new construction, at an additional $78,300, or a total of $183,300 exclusive of right of way which, he said, will cost approximately $100,000. He recommended such an improvement when monies become available to finance the work. The Commission approved the recommendation and ordered that the City be so informed.

The Engineer rendered a status report on the survey that is being conducted for a proposed revision of the Oregon Coast Highway across Young's Bay at Astoria connecting Astoria with Warrenton on a location closely paralleling the S. P. & S. Railway. He said that work on the survey up to the present time has been intermittent because the Engineer assigned to the project has been busily engaged on construction, but arrangements have now been made to place a survey party full time on the Young's Bay crossing including the entire section between Astoria and Seaside, so the work should be completed by June or July. He mentioned the possibilities of an additional route heretofore not considered, and he requested authority from the Commission to extend the investigation to include such route before any definite commitment is made with respect to any route. The Commission approved the request and instructed the Engineer to expedite completion of the investigation as much as is possible.

The Commission also discussed a written report from the Engineer, dated January 15, 1953, on matters that are to be presented by a delegation from Astoria on the following day, viz: (1) Request of the City of Astoria and Clatsop County that the Commission deed back to the City and the County certain property located on the south side of Commercial Street between 15th Street and 18th Street which was originally deeded to the State for possible use in developing a new ferry terminal at 17th Street; (2) Request of the City that reconsideration be given by the Commission to the moving of the ferry terminal from the foot of 14th Street to the foot of 17th Street; and (3) Prohibition of parking cars along US 30 between 44th Street and 46th Street. The Engineer advised that the tentative plan and design for the new terminal at 17th Street does not contemplate the use of the City's and County's property on the south side of Commercial Street, and he recommended that this property be deeded back to the City and the County. As to the moving of the ferry terminal from 14th Street to 17th Street, the Engineer pointed out that the terminal property at the foot of 14th Street was purchased by the Commission under the assumption that present facilities would handle traffic satisfactorily for three or

four years. He said that the only suitable location for a new terminal is at the foot of 17th Street where there would be sufficient property available to accommodate storage of 96 cars to complete ferry loads with no interference with the free flow of traffic on Commercial and Bond Streets. He recommended continuance of the ferry terminal at the foot of 14th Street until such time as the facilities at that location cannot handle traffic satisfactorily. As to prohibiting the parking of cars along US 30 between 44th and 46th Streets, the Engineer stated that he is heartily in accord with the City's proposal, and he recommended action to that end, and that the parking of cars along this highway route between 15th Street and 21st Street also be prohibited if further study by the City and the State reveals that to be advisable in order to provide for four lanes of traffic. The Commission approved the report. (A delegation from Astoria appeared before the Commission on the following day concerning these subjects. See ahead for additional paragraph.)

The Engineer reported on a request from citizens of Woodburn for construction of a traffic interchange on the new Portland-Salem Expressway, west of the town of Woodburn. The Engineer pointed out that present plans call for a separation of highway and county road traffic at this point, including an underpass, but no provision has been made for traffic to get on to the highway from the county road which is the desire of the local people. He gave as his feeling that there is merit in the request, and accordingly he requested authority for the Right of Way Department to negotiate options to acquire property needed for such an interchange, it being understood that the interchange would not be constructed until such time as traffic warrants it. The Commission approved the report, and thereupon authorized the right of way negotiations. A delegation appeared before the Commission on the following day on this subject. See ahead for additional paragraph.)

The Engineer brought up for discussion a protest from Mr. Otto E. Rieben, Banks Oregon, against the proposed location of the Wilson River Highway between Wilkesboro and Sunset Highway Junction near North Plains. He advised that the location suggested by Mr. Rieben would be about 0.3 mile shorter between common points than the adopted location but to construct such a route would cost about $219,300 more than the other; moreover, the route adopted makes a much better connection with the Sunset Highway. He recommended that no change be made in the location as heretofore adopted by the Commission. The Commission approved the recommendation unanimously.

The Engineer rendered a report on departmental employees who will be affected by the Public Employees Retirement Act during the second quarter of 1953. He submitted a list of fifteen employees so affected, and recommended that six of them be retired on their respective retirement dates and the remaining nine be retained in service for another year. The Commission approved the recommendation unanimously. (For complete list of the employees affected, see copy attached to the Engineer's letter dated January 14, 1953 directed to the Oregon State Highway Commission, in the General Files.)

The Engineer reported receipt of a number of requests for installation of flashing light signals at the Southern Pacific Railroad crossing on Three Mile Lane State Secondary Highway north of Dayton, Yamhill County. He recalled

that signalization of this crossing has been requested on a number of occasions in the past, but on each occasion the request was denied as unwarranted; however, a recent check of the conditions and records indicate that the crossing should be signalized now as a matter of safety. He recommended installation of two mercury vapor luminaire units at an estimated cost of $700 on the condition that the Southern Pacific Company will pay 50 percent of the expense involved and 50 percent of the cost of the electrical energy needed to operate the lights. The Commission approved the recommendation.

The Commission discussed a written report from the Engineer, dated January 15, 1953, on potential hazards to motor vehicles due to impaired horizontal clearance on some of the structures on US 30 between Pendleton and Ontario. According to the report there are 24 structures on this section which have horizontal clearance less than design standards. Twenty-two of these structures have horizontal clearances which, in the Engineer's opinion, are sufficient for safe passage of two legal size vehicles, but the remaining two, one being the crossing of the Grand Ronde River at Perry, and the other the crossing of the same river at Oro Dell, have horizontal clearance of only 17 feet 2 inches. It appears that the highway at each of these crossings carries an average daily traffic of 1,800 vehicles, and that the five-year accident record discloses six accidents at the Oro Dell crossing and sixteen at the Perry Crossing. In order to minimize the occurrence of accidents and as a traffic safeguard, the Engineer recommended installation of stop and go signals complete with necessary warning signs at the Perry Crossing, estimated cost $2,700, and the installation of three advance oversize reflectorized signs reading "SLOW", "NARROW BRIDGE" and "ONE WAY TRAFFIC FOR TRUCKS" at the Oro Dell Crossing. He explained that it appears inadvisable to attempt to stop the trucks with stop and go lights at the Oro Dell crossing because the grade of the highway for westbound traffic at this location is descending, and particularly during the winter season the stopping of traffic at this crossing would introduce additional hazards. Commissioner Reynolds expressed himself as opposed to installing "stop and go" signals on any primary state highway. He pointed out that a survey is now underway for reconstruction of the Old Oregon Trail along this section, and he suggested in view thereof that the installation of the "stop and go" signal at the Perry Crossing be deferred until such time as the survey is completed, inasmuch as there are possibilities that the highway will be aligned at these two crossings and the structures eliminated. He suggested that until the survey is completed, the treatment to be accorded at the Perry Overcrossing be limited to signs similar to those recommended for the Oro Dell Crossing. The suggestion was approved by the Commission unanimously, and it was so ordered.

The Engineer reported on a request from the City of Gresham for an investigation to solve the problem of handling traffic in a safe and expeditious manner on US 26 (Powell Boulevard) within the City of Gresham. He advised that the investigation has been made, and it has been found that the central portion of the business district lies on Powell Boulevard between Main Street and S. E. Roberts Avenue, and that vehicle and pedestrian counts made at the intersections of Main Street and Roberts Avenue with Powell Boulevard reveal that the total volume of both vehicular and pedestrian traffic meet the standard requirements and warrants for signalization. The Engineer recommended the following solution of the problem: Installation of two inter-connected fixed-time traffic signals on Powell Boulevard, one at Main Street and the other at S. E. Roberts Avenue, at a total cost of $6,000, the

installation to be contingent upon the City passing the necessary parking prohibitions to implement optimum operation of the signals. He further advised that this matter has been discussed with the proper city officials who state that the City will pay its 50 percent share of the expense involved. The Commission unanimously approved the recommendation on the condition that the City will pass the necessary ordinances and contribute 50 percent of the total cost.

The Commission discussed and ordered filed a letter from Mr. A. G. Beals, Tillamook, regarding erosion of the Bay Ocean Peninsula, Tillamook County, it being the Commission's feeling that this is not a state highway matter.

The Commission also discussed and ordered filed a written report from the Engineer on extensions of time that have been granted contractors during the past two years, within which to complete highway contracts. The report covers the period March 2, 1950 to October 31, 1952 and involves 529 contracts, 379 of which had been completed as of October 31, 1952. Of the 379, 207 were completed within the specified time limit, and of the remaining 172, 25 overran the time limit more than 60 days, considering the winter slow-down. The report also indicates that of the total contracts completed, 86.4 percent of the money value was completed within the specified time limit, and of the 172 that overran the specified time limit, 80.1 percent of the money value of the work had been completed within the specified time limit. The Commission took no action.

There was presented to the Commission a petition signed by numerous citizens of the City of Tillamook residing along the Wilson River Highway east of the Tillamook City limits, requesting construction of a sidewalk adjacent to this highway through this populated area. The Engineer advised that this matter has been investigated, and it has been determined that a footpath is warranted from the end of the existing sidewalk at the city limits to a street known as Evergreen Drive. He estimated the cost of such footpath at $1,450, and recommended approval of the project. The Commission approved the recommendation.

The Commission discussed briefly and ordered filed a report from the Engineer on the status of surveys and the location of survey parties.

The Engineer also reported the status of the removal of dangerous trees and timber that were blown down on the highway during recent severe storms. He recalled his report of May 1, 1951 wherein he estimated there were about 6,000 trees on State Highway right of way and 9,254 trees located off the highway right of way, making a total of about 15,254 danger trees located on highway rights of way and on private property adjacent thereto. Field reports as of December 31, 1952, he said indicate that 3,200 of these trees have been removed from the right of way by state forces, and 700 trees have been removed by other parties, principally the Forest Service, leaving a balance of about 2,100 trees remaining to be removed. Of the 2,100 trees, he said, 600 will be disposed of by the Forest Service, and the remainder will be removed by the State. As to the cost, he advised that during the 18-month period between June, 1951 and January, 1953, $46,000 of State money has been spent for removal of danger trees. He also said that the 1953 budget contains an item of

$25,500 to continue this worthwhile project. He pointed out that the removal of the trees is a continuing operation, and that under ordinary or normal conditions approximately 1,000 trees would be removed each year. He gave as his opinion that the remainder of the danger trees would be removed during the 1953 working season. As to the removal of the blown down timber, he said that very good progress has been made and that there remains only a small amount of such timber to be removed. He also mentioned that this timber has been sold to various parties as a result of advertising for bids or by negotiated sales. He added that attempts to dispose of the timber through sales or otherwise will be continued, and if the timber cannot be sold, it will be removed by state forces. The Commission approved the report.

The Engineer requested authority to make reconnaissance surveys for improvement of the following state highway sections:

1. Corvallis-Newport Highway between Toledo and Philomath, 44 miles in length.

2. Crater Lake Highway between Cascade Gorge and Trail, 16 miles in length.

3. Wallowa Lake Highway between Union County line and Enterprise, 32 miles in length.

4. Wallowa Lake Highway at Rinehart Overcrossing between La Grande and Elgin, approximately two miles in length.

The Commission approved the request unanimously.

A letter was presented from Mr. Brooks Hawley, Sumpter Stage, Baker, Oregon, requesting the oiling of an additional four or five-mile section of the Sumpter Valley Secondary Highway. The Engineer advised that this highway is located in a narrow gorge of the Powder River where the US Reclamation Services proposes to construct a dam. He advised that the Congress is now being requested to appropriate funds to finance the dam construction, and he suggested in view thereof, that further work on this highway, other than certain surfacing work heretofore authorized by the Commission, be deferred until such time as uncertainties with respect to the Reclamation Service project have been clarified. He pointed out that if the Powder River Dam is constructed, the highway will have to be relocated at a higher elevation on an adjacent cliff which will cost a large sum of money, whereas if the dam does not materialize, it will be possible to construct the highway along the abandoned right of way of the Sumpter Valley Railroad where the cost will be very nominal compared to the cost to construct it on the hillside. The Commission approved the Engineer's suggestion.

The Commission discussed a request from the Medford Parent Teacher Association that something be done to eliminate the hazard to which school children are subjected in crossing the Medford-Provolt Secondary Highway at Lozier Lane, just west of Medford, in going to and from school. The Engineer advised that this matter has been investigated, and it is believed that the hazard would be very materially decreased were a median island constructed to control parking and to

afford refuge for pedestrians who cross the main highway at this point. He estimated the cost to construct such island at $300 and recommended approval of the project. The Commission approved the recommendation.

The Engineer reported that the cities of Athena, Scio, and Scotts Mills have satisfied the legal requirements with respect to the expenditure of State Tax Street Funds which accrued to them during the last half of the year 1951. He also advised that the following cities and towns have satisfied the legal requirements with respect to the expenditure of State Tax Street Funds that accrued to them during the first half of the year 1952:

Adams	$ 416.84	Amity	$1,818.92
Antelope	162.40	Athena	2,030.05
Boardman	324.81	Butte Falls	1,006.90
Canyon City	1,375.02	Cascade Locks	1,984.03
Coburg	1,875.76	Columbia City	1,096.22
Condon	2,620.12	Cornelius	2,701.32
Dayton	1,946.14	Dayville	774.13
Donald	506.16	Dufur	1,142.24
Estacada	2,571.39	Fairview	1,185.55
Falls City	2,308.84	Fossil	1,745.84
Gaston	196.08	Gold Hill	1,675.47
Granite	108.27	Halfway	844.50
Hammond	1,412.91	Helix	492.62
Hines	2,484.78	Hubbard	1,334.42
Idanha	1,196.37	Jefferson	1,721.48
Joseph	1,802.68	Juntura	289.62
Lafayette	1,791.86	Lexington	641.50
Lostine	481.80	Manzanita	917.58
Maupin	844.50	Merrill	2,260.12
Moro	971.72	Mosier	701.04
North Powder	1,090.81	Oakland	2,243.88
Port Orford	1,824.34	Prairie City	2,224.93
Scappoose	1,783.74	Scio	1,212.62
Scotts Mills	587.36	Shaniko	165.11
Sherwood	1,556.37	Sodaville	424.96
Stanfield	2,287.19	St. Paul	611.72
Sublimity	993.37	Summerville	197.59
Turner	1,651.11	Wasco	825.55

The plans for the projects proposed to be financed with the funds available, he said, have been examined and found satisfactory, and he recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolutions relative thereto, marked EXHIBITS "D-1" and "D-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Engineer requested authority for an expenditure of about $12,000 to backfill Mitchell Point Tunnel on the old route of the Columbia River Highway, the use of which has been discontinued since the new water grade route between

Viento and Hood River has been completed and opened to traffic. He explained that the tunnel is not in a safe condition, and there are possibilities that it will fail at some future date causing injury to persons and damage to property. It was his feeling that the tunnel should be completely backfilled in the interest of safety to highway traffic on the new route. The Commission approved the expenditure unanimously.

The Commission approved a report from the Engineer advising satisfaction of the conditions governing the award of Contract No. 3839 for grading and paving the Springfield Section of the McKenzie Highway in Lane County, bids for which were received on November 24, 1952 and the conditions of the award satisfied on January 13, 1953.

The Commission discussed requests from the county courts of Columbia, Coos, and Linn Counties for the placement of additional county roads on the Federal Aid Secondary (county road) System. The Engineer advised that in Columbia County all existing Federal Aid Secondary roads have been improved to an oil-wearing surface, and the additional mileage is required in order to permit expenditure of current Federal Aid Secondary Funds. As to Coos County, he said that the County has several miles of existing county roads that need improvement, but the County proposes to accomplish the work with county forces insofar as is possible, but wants the Coos County Road, one mile in length, added to the Federal Aid Secondary System so as to make it possible to place an additional bridge across Isthmus Slough. As to Linn County, the Engineer advised that practically all of the existing Federal Aid Secondary roads have been improved to satisfactory standard, and the additional mileage has been requested to permit the County more latitude in programming Federal Aid Secondary Funds. He presented a list of the county roads which the County Courts wish to place on the Federal Aid Secondary System as follows:

Columbia County--Rainier-Apiary Road and the Oak Ranch Creek Road which extends southwesterly from the Columbia River Highway a distance of 21.3 miles to a connection with the Nehalem Highway.

Coos County--Coos County Road which extends easterly from the Oregon Coast Highway, across Isthmus Slough, to a junction with a county road, length one mile.

Linn County--Lebanon-Brownsville Road from its junction with the South Santiam Highway in Lebanon southerly and westerly to a connection with the Halsey-Sweet Home Secondary Highway in Brownsville, 15.6 miles in length. Scio-Stayton County Road southerly from its junction with the North Santiam Highway to a connection with Federal Aid Secondary Highway No. 126 in Scio, a distance of approximately 7.3 miles.

He exhibited maps showing the location of the several roads. The Commission by unanimous vote approved the designation of these roads as Federal Aid Secondary Highways and authorized the Engineer to present them to the Bureau of Public Roads for further approval.

The Engineer presented a detailed report on the County Federal Aid

Secondary Highway System Program for the fiscal years 1954 and 1955. He recommended approval of all of the projects proposed for 1954 and a partial program of projects to be constructed in 1955. The Commission approved the recommendation unanimously. (For details, see copy of the report and recommendation in the General Files.)

The Commission discussed a request from the City of Myrtle Point, Oregon, for approval of three city street improvement projects located within the city as follows:

(1) Widening and construction of curbs along Highway No. 42 from the intersection of Spruce and 8th Streets to the intersection of "A" and Maryland Streets.

(2) Sidewalk construction on Highway No. 42 southerly from the point of intersection of "A" and Maryland Streets to the south city limits.

(3) Improvement of Ash Street and connecting streets between Ash Street and Spruce Street.

The Engineer advised that Highway No. 42 is the Coos Bay-Roseburg Highway and that the widening and curb construction requested by the City is a project of considerable magnitude, estimated to cost about $50,000. He gave as his considered opinion that the improvement of most importance is construction of a new connection in the Northern part of the city where a circuitous route now extends, and he recommended that the project requested by the City be denied. As to the City's request for sidewalk construction, the Engineer pointed out that it is contrary to the policy of the Commission to construct sidewalks within corporate limits of cities or towns. He recommended in view of this policy, that the request in this instance be denied. As to the improvement of Ash Street and connecting streets, the Engineer advised that these streets are used heavily by logging trucks, and that their improvement is recommended in the program for 1953 Special City Allotment Funds. He recommended approval of the project in such program. The Commission approved the Engineer's recommendations.

The Commission discussed a report from the Engineer containing a recommended program for 1953 Special City Allotment Funds, amounting to $250,000. As a result of careful consideration, the Commission unanimously approved the program of projects as recommended therein. (For details, see copy of report in General Files.)

The Commission discussed the matter of allocating to the cities and towns of the State 10 percent of State Highway revenues that accrued to the State Highway Fund during the last half of 1952, totalling $2,574,589.24, pursuant to the provisions of Chapter 149, Oregon Laws 1949. The Engineer submitted a tabulation showing the amount distributable to each city and town as based on population. He advised that the amounts have been very carefully checked with the offices of the Secretary of State and the State Treasurer and are correct. He recommended approval of the allocations as shown therein. The Commission approved the recommendation unanimously by adoption of the attached resolution

relative thereto, marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A letter was presented from Mr. James F. Lonergan, Attorney, Portland, requesting in behalf of clients installation of a traffic signal at the intersection of the Clackamas Highway and ORE 212, east of the town of Clackamas. The Engineer advised that this request has been investigated, and it has been determined that the intersection does not meet standard warrants for signalization. He recommended in view thereof that the request be denied; but that the existing warning signs on the approaches to the intersection be replaced with larger signs with scotchlite lettering. The Commission approved the recommendation.

A letter was presented from Mr. G. W. Speidel, Oswego, requesting installation of a traffic light at the intersection of the Oswego Highway and Briarwood Road between Portland and Oswego. The Engineer advised that investigation of this request reveals that somewhat of a hazard does exist at this intersection, and that a similar hazard exists at the Palatine Hill Road Junction. He pointed out that three other intersections on this section of highway previously were illuminated which increases the hazards at the Briarwood and Palatine Hill Roads intersection because of lack of illumination at these points. He recommended installation of one mercury vapor luminaire unit at each of these two intersections which, he estimated, would cost about $750. The Commission approved the recommendation.

The Engineer requested authority for an expenditure of $850 for installation of three mercury vapor luminaire units at the junction of the Pacific Highway and the Coos Bay-Roseburg Highway, south of Roseburg, where a hazardous condition exists to traffic, particularly at night time. The Commission approved the request.

The Engineer reported that in construction of the T. H. Banfield Expressway between 92d Avenue in Portland, and Fairview it is necessary to rearrange the water pipe lines of the Rockwood Water District which work is estimated to cost about $5,000. He pointed out that it has been the practice of the Commission in the past to absorb the cost of rearrangement of public-owned facilities, and he recommended in view thereof approval of the re-establishment of the facilities of the Water District in this instance, at State expense. The Commission approved the recommendation.

The Commission discussed a request from the Engineer for an expenditure of approximately $3,800 to provide air conditioning for Room 120 in the new State Highway Building in Salem which is occupied by personnel of the Right of Way Department. He explained that the room contains an area of 2,707 square feet and is occupied by from 22 to 28 persons who complain that there is inadequate air supply and that conditions are conducive of illness. Investigation, he said, reveals that the existing ventilating system supplies only 10 percent of the minimum fresh air required according to recognized ventilating standards, and that to correct the condition will require installation of a unit air conditioner complete with steam coils to temper winter air and refrigeration coils to cool summer air. He recommended approval of the installation. The Commission approved the recommendation.

In this connection, the Engineer advised that due to expansion in the Construction Department, particularly as a result of the assignment of Mr. Forrest Cooper as First Assistant Construction Engineer and enlargement of personnel in the Soils Engineering Department, it has become necessary to partition additional office space in that department. He estimated the cost of constructing partitions for two additional offices at $1,265, and he recommended approval of the expenditure, the work to be contracted through the Department of Finance and Administration. The Commission approved the recommendation.

The Commission discussed a petition from residents, citizens, and taxpayers of Pine Valley and Eagle Valley, Baker County, requesting the widening, surfacing, and oiling of that portion of the Baker-Homestead State Highway which extends from Robinette Junction to the Idaho Power Station at Robinette, a distance of approximately four and one-half miles. The Engineer advised that the section of highway referred to is rather narrow and that the surfacing consists of gravel only, but is passable at all times of the year; further, that the traffic is low, the average daily traffic for 1951 being only 55 vehicles. He estimated the cost to improve the four and one-half mile section to Secondary Highway standards at about $170,000. He recommended that the request be denied because of the small traffic volume which gives the improvement a very low priority. The Commission approved the recommendation.

A letter was presented from members of Eagle Valley Grange No. 656, Richland, Oregon, in which the Highway Commission is asked to give serious consideration to the further improvement of the state highway which extends easterly from the City of Baker to the town of Halfway (Baker-Homestead and Halfway Highways). The Engineer advised that the highway has been rebuilt between the City of Baker and Table Rock Creek, but there are several sections totalling about 22 miles in length between that point and Halfway Highway Junction that should be improved when there is money available to finance the work. He estimated the cost involved at about $960,000, and he also said that the road carries a large volume of traffic. The Engineer further stated that the immediate desire of the people of this district is for improvement of the five-mile section between Table Rock Mountain and Black Bridge which is estimated to cost about $300,000. He suggested that the improvement be deferred until the Commission can supply the funds to finance it. The Commission indicated approval of the suggestion, but deferred a definite decision until the following day when a delegation from Baker County is scheduled to be present to urge their request in person. (The Baker County delegation appeared before the Commission on the following day and presented a strong plea for this improvement. They were assured by the Commission at that time that improvement of the Table Rock Creek-Black Bridge Section would be placed under contract during 1954. See paragraph ahead.)

The Commission discussed a letter from the City of Hillsboro by J. W. Barney, City Manager, in which the Commission is urged to expedite as much as possible proposed highway improvements within the City because they seriously affect the City's plans for street improvements. The Engineer advised that the highway improvements referred to have been provided for ten-

tatively in the Commission's five-year program, and he knows of no way now to finance the improvements earlier than is contemplated in that program. It was the feeling of the Commission that this project must wait until funds can be spared to finance the work. The Secretary was instructed to so inform the City.

The Commission had under discussion the following requests for extensions of time within which to complete highway contracts:

1. K. F. Jacobsen & Company, Inc., and J. M. Arenz, Contract No. 3439-A for grading and oil mat surfacing on the Drake Creek-Adel Section of the Warner Secondary Highway in Lake County, requested an extension of time of 26 days, from July 31, 1952 to August 26, 1952, within which to complete this job. They gave the following reason for overrunning the specified time limit: The contract was originally awarded to Spada Brothers under State Highway Contract No. 3439. This contract was defaulted and was completed by K. F. Jacobsen and J. M. Arenz under arrangement dated October 10, 1951 made by the Oregon State Highway Commission and the Great American Indemnity Company. They pointed out that the grading was practically completed during 1951, but due to weather conditions, the rocking and oiling had to be deferred until the summer of 1952. The Engineer advised that the reasons given by the contractor for overrunning the specified completion date are correct. He recommended in view of the circumstances that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

2. Barney B. Helser, Contract No. 3709 for rock production on the Wasco-Grass Valley Section of the Sherman Highway, Sherman County, requested an extension of time of 150 days, from October 31, 1952 to March 31, 1953, within which to complete this job. He attributed his failure to complete the project within the specified time limit to extra work required on other State Highway Projects which prevented him from starting the Wasco-Grass Valley Rock Production Project as early as was anticipated. The Engineer advised that during the 1952 season it was difficult to secure bidders for rock production projects, and as a result. Mr. Helser was awarded more contracts than he was able to complete within the specified time periods. The materials produced under this contract, he said, are to be used in 1953, so the delay in furnishing the materials will not handicap the State's operations; moreover, the State will incur no additional expense for engineering supervision if the job is completed by March 31, 1953. He recommended that the extension of time up to that date be granted without penalty. The Commission approved the recommendation.

The Engineer reported that Contracts Nos. 3439-A, 3587, 3659, 3717, and 3755 for construction of State Highway projects have been completed according to the requirements of the contracts or modifications thereof and that said projects are now ready for acceptance. After due consideration, the Commission by unanimous vote, accepted said contracts by adoption of the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A letter was presented from Mr. A. L. Greenwalt, Chairman of the Building Committee of the Government Camp Community Club, stating that they have been unable up to the present time to raise the remaining amount due the State for the purchase of the old maintenance property at Government Camp, and requesting additional time within which to raise the funds. The Commission unanimously granted an additional six months time, to July 1, 1953, for the club to complete this transaction.

A letter was presented from the Recreational and Natural Resources Committee of the Portland Chamber of Commerce requesting that an historical marker be erected on the Wilson River Highway containing factual information concerning Tillamook Burn. The Engineer recommended approval of the request subject to the condition that the reading matter on the marker be first approved by the Memorials Committee of the Oregon Historical Society in conformity with the usual practice. The Commission approved the recommendation.

The Engineer brought to the Commission's attention a proposal from the Columbia Sand and Gravel Products Company, Umatilla, Oregon, for the taking of materials for commercial purposes from a State-owned gravel pit located just east of the town of Umatilla. The Company proposes to either purchase the material on a royalty basis or to furnish the State oversize material from its own quarry on a yard for yard basis and to stockpile this material on State property for future crushing. The Engineer gave as his opinion that it would be to the State's advantage to obtain the larger size material because it would make it possible to produce maintenance rock at small cost. He recommended approval of the Company's proposition on an exchange basis and that the matter be covered by an agreement providing for an exchange of a maximum amount of 6,000 cubic yards of material. The Commission unanimously approved such an arrangement on a one-year basis.

The Commission discussed with the Engineer the bids received during the morning session for highway construction work, and at 4:45 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project, as follows, the Commission's action having been by unanimous vote:

"Olney-Jewell Rock Production Project on the Nehalem Highway southeast of Astoria, Clatsop County: Jed Wilson, Seaside, was the low bidder for this work in the amount of $27,300.00. Three higher bids were received. The contract has been awarded to Jed Wilson at his bid price.

"Endicott Creek-Mystic Creek Rock Production Project on the Coos Bay-Roseburg Highway, Coos and Douglas Counties: Of the three bids received for this work, E. C. Swaggart Company, Eugene, submitted the low bid in the amount of $47,829.00. The Commission has awarded the contract to the low bidder at its bid price.

"Grading the Elkhead Road-Rice Hill Unit, Divide-Rice Hill Section of the Pacific Highway in Douglas County: The Commission received eleven bids for this project, the low one being that of R. A. Heintz Construction Company, Portland, in the amount of $497,028.50. The bid of R. A. Heintz Construction Company in

the sum of $497,028.50 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading and oil mat surfacing on the South Umpqua River-Fairgrounds Unit, Deady-Shady Section of the Pacific Highway in and south of Roseburg, Douglas County: Funderburk Construction Company, Sutherlin, submitted the low bid for this work in the amount of $480,105.50. The Commission received nine higher bids. The bid of Funderburk Construction Company in the sum of $480,105.50 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Installation of traffic signals in the city of Roseburg, Douglas County: Only two bids were received for this work, the low one being that of Trowbridge and Glynn Electric Company, Medford, in the amount of $6,050.00. The contract has been awarded to the low bidder at its bid price.

"Construction of two reinforced concrete structures on the Elkhead Road-Rice Hill Unit of the Pacific Highway east of Yoncalla, Douglas County: Of the nine bids received for this job, Hannan Brothers Company, Portland, submitted the low one in the amount of $71,910.00. The bid of Hannan Brothers Company in the sum of $71,910.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading, roadbed topping, leveling course, rock shoulders, oil mat surfacing and crushed rock or gravel in stockpiles on the Middle Unit, Princeton-Follyfarm Section of the Rome-Princeton Highway, Harney County: The Commission received nine bids for this work, the low one being that of Diamond Tractor and Equipment Company, Portland, in the amount of $262,890.00. The bid of Diamond Tractor and Equipment Company in the sum of $262,890.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading and paving the Lapine-Forest Boundary Unit, Lapine-Diamond Lake Junction Section of The Dalles-California Highway south of Lapine, Klamath and Deschutes Counties: Rogers Construction Company, Portland, submitted the low bid for this job at $490,453.00. Nine higher bids were received. The bid of Rogers Construction Company in the sum of $490,453.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of reinforced concrete structures, grading, and paving at the intersections of the T. H. Banfield Expressway with 148th Avenue 162d Avenue, Rockwood Road, and Birdsdale Avenue, Multnomah County: Of the eight bids received for this job, Parker-Johnson Company, Portland, submitted the low one in the sum of $364,607.50. The bid of Parker-Johnson Company in the sum of $364,607.50 is accepted, and the Engineer is instructed to have a contract prepared and offered to

said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Nye Junction-Beech Creek Rock Production Project on the Pendleton-John Day Highway in the vicinity of Ukiah and Long Creek, Umatilla and Grant Counties: The Commission received six bids for this job, the low one being that of R. H. Sussex, Bellingham, Washington, at $66,080.00. The contract has been awarded to the low bidder at his bid price.

"Weston-Summerville Junction Rock Production Project on the Weston-Elgin Highway east of Weston in Umatilla and Union Counties, and Enterprise Rock Production Project on the Wallowa Lake and Lewiston-Enterprise Highways near Enterprise in Wallowa County: Barney B. Helser, Moro, submitted the low combination bid for these two jobs in the total amount of $86,205.00. Six higher bids were received. The Commission has awarded both contracts to Barney B. Helser on his low combination bid.

"Grading and paving on the Rowena-Chenoweth Creek Unit, Mosier-The Dalles Section of the Columbia River Highway in Wasco County: Of the fourteen bids received for this work, the low one was submitted by Vernie Jarl, Gresham, at $1,229,045.00. The bid of Vernie Jarl in the sum of $1,229,045.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of three reinforced concrete structures on the Rowena-Chenoweth Creek Unit, of the Columbia River Highway west of The Dalles, Wasco County: Johnson and Amens, McMinnville, submitted the low bid for this job at $90,645.00. Four higher bids were received. The bid of Johnson and Amens in the sum of $90,645.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Furnishing of ferry service across the Willamette River on the Beaverton-Aurora Secondary Highway at Wilsonville in Clackamas County for a fifteen month period beginning April 1, 1953: Only two bids were received for this operation, the low one being that of J. F. LaRouche, Portland, at $2,400.00 per month. The Commission has awarded the contract to the low bidder at his bid price."

The Commission discussed a request from the Sea Lion Caves Corporation for permission to construct a parking area on the east side of US 101 opposite Sea Lion Caves. The Engineer advised that this matter has been thoroughly investigated by the Traffic Engineer and the Maintenance Engineer who recommend approval of the Corporation's request subject to the following:

1. Fill materials are to be taken from the cut bank along the east side of the highway between Engineer's Stations 626+00 and 627+30.

2. The Corporation is to extend the eighteen-inch culvert pipe on

the east side of the highway and construct a standard concrete catch basin with a grate, in conformity with Highway Department standards.

3. That the parking area that will be formed on the east side of the highway be protected from the highway proper through installation of a standard guard rail between Engineer's Stations 627+55 and 629+10.

4. That the parking lot on the west side of the highway be insulated with a standard guard rail between Engineer's Stations 629+90 and 630+75.

5. All of the foregoing items are to be taken care of by the owner at his own cost and expense in accordance with plans and specifications prepared by the State Highway Department.

The Engineer stated his concurrence in the recommendation. The Commission approved the recommendation unanimously, and ordered the matter covered by a revocable permit.

In this connection the Engineer gave as his feeling that the parking of cars on the highway shoulders on both sides of the highway between Engineer's Stations 626+00 and 633+00 should be prohibited. He recommended appropriate action by the Commission to that end. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A letter was presented from the Commanding Officer of the Tongue Point Naval Station, Astoria, requesting that the existing 35 mile per hour speed zone on the Columbia River Highway within the corporate limits of the City of Astoria be extended easterly to include the intersection of the road leading to the Naval Station and its housing area. The Engineer advised that this matter has been investigated by the Traffic Engineering Department which recommends designation of a 45 mile per hour speed zone on that section of the Columbia River Highway which extends from the east city limits of Astoria (M. P. 101.03) to a point 0.18 mile easterly therefrom (M. P. 100.85), such designation to be contingent upon the State Speed Control Board changing the present 35 mile per hour speed zone within the city to a maximum of 45 miles per hour. The Commission approved the recommendation.

A petition was presented from property owners residing along Canyon Road, Portland, for designation of a reduced speed zone on the Tualatin Valley Highway between Sylvan and West Slope. The Engineer advised that the Traffic Engineer investigated this request and the studies indicate that the speed zoning as now exists on this section, graduating from 35 miles per hour to 45 miles per hour should not be changed. He recommended retention of the present restrictions. The Commission approved the recommendation.

The Engineer requested authority to post the new water grade highway between Hood River and Mosier for a maximum speed limit of 35 miles per hour, effective on or about January 19, 1953, when this section was opened for public use. He explained that traffic has been allowed to use the new highway, notwithstanding

its incomplete status, because of hazards existing along the old route of the Columbia River Highway near Mosier Tunnel. The contractor on this water grade route, he said, is still operating on that section, and will continue to operate after it is opened to travel which necessitates a restriction of speed on all traffic using this new road. The Commission approved the request unanimously by adoption of the attached resolution relative thereof, marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A letter was presented from the City of Eugene requesting illumination of the intersection where the City Airport Road connects with the Pacific Highway, about six miles north of Eugene; also requesting that the existing 40 mile per hour speed zone north of Eugene be extended to include this point. The Engineer advised that investigation reveals that a number of accidents have occurred at this intersection due to left-turn traffic movements from the south onto the Airport Road. He recommended installation of three luminaire units as a corrective treatment, the estimated cost of which would be about $900. He also recommended that the request for the extension of the 40 mile per hour speed zone be denied. The Commission approved the recommendations unanimously.

The Commission discussed a letter from the Scappoose Garden Club protesting the use of poisonous sprays to destroy weeds growing along state highway rights of way. It is the Club's contention that the use of such sprays not only kills the weeds but it also kills the native flowers or shrubbery and renders the roadside unsightly and a fire hazard. The Engineer advised that there is no question that the use of poisonous sprays does destroy broad leaf plants, but he pointed out that the Highway Commission is required by law to destroy obnoxious weeds. Weed control activities of the Highway Department, he said, are coordinated with those of county agents in the respective areas and are prosecuted only in areas where organized weed control programs are in effect. He added that for a time the spraying work was done without proper care and resulted in some unsightly effects, however, steps have now been taken to prevent recurrence of the procedure whereby the spraying operations will not be done promiscuously, but will be confined to the spraying of low plants not over a foot or so in height which should prove satisfactory. The Commission approved the arrangement unanimously and cautioned the Engineer not to spray the higher shrubbery and bushes.

The Commission discussed and upon recommendation of the Engineer and Chief Counsel unanimously approved an agreement with the Southern Pacific Company and the Central Pacific Railroad Company with reference to the maintenance of drainage structures on the revised location of the Willamette Highway around Meridian Dam, Lane County. (The agreement was signed by the Commission later in the session.)

The Commission also discussed and approved an agreement with Josephine County relative to the abandonment of right of way on the old route of the Redwood Highway over Hayes Hill, and in this connection unanimously adopted the attached resolution relative thereto, marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full

herein. (The Commission signed the agreement later in the session.)

The Commission approved out-of-state travel expenses for the following:

1. Lewis E. Scott, Chief Geologist, to attend annual meeting of Americal Institute of Mining and Metallurgical Engineers in Los Angeles, California, February 16 to 19 and to inspect corrective measures that have been taken in California to prevent slides. Estimated cost, $150.

2. Carl W. Jordan, Director of the Travel Department, to attend annual travel show, sponsored by National Association of Travel Officials in Chicago, during February 20 to March 1, inclusive. Estimated cost, $335.

3. Dennis D. Clarke, Assistant Director of Travel Division, to attend annual Sports, Travel, and Boat Show in San Francisco during March 4 to 17. Estimated cost, $200.

4. W. W. Stiffler, Assistant State Highway Engineer, and L. L. Spaulding, Chief Weighmaster, to attend the Sierra Cascade Logging Conference in Redding, California, during the period February 11 to February 14, inclusive. Estimated cost $100.

The Commission unanimously approved the Secretary's report on papers signed by him on behalf of the Commission during the period November 19, 1952 to January 16, 1953.

The Commission discussed the following items of unfinished business appearing on the Secretary's summary, dated January 6, 1953:

1. Proposed re-routing of US 99W through the City of McMinnville: Due to the unfinished status of this matter, the Commission ordered the item retained on the list of unfinished business.

2. Request from the City of Coos Bay for lease rights on excess right of way along the waterfront in Coos Bay: The Commission ordered this item deleted from the list inasmuch as the matter had been disposed of earlier in the session.

3. Request for sidewalk construction along the Wilson River Highway just east of Tillamook: This item was disposed of earlier in the session, hence, was ordered deleted from the list.

4. Request for roadway access from the Community of Lakeside to the Oregon Coast Highway, in Coos County: The Engineer advised that his report on this subject is not yet ready to render. The Commission ordered the item retained on the list.

5. Report concerning extensions of time that have been granted to contractors during the past two years: This item was ordered deleted from

the list of unfinished business, the Engineer having rendered his report earlier in the session.

6. Request of Douglas County for establishment of a state park along the North Umpqua River about thirty miles east of Roseburg: This matter was reported on by the State Parks Superintendent earlier in the session when the Commission decided not to assume the responsibility. The item was ordered deleted from the list of unfinished business.

7. Proposed improvement of Crescent Lake Secondary Highway: The matter was discussed briefly and was ordered deleted from the list.

8. Proposed plan for a connection between Swift Boulevard and Denver Avenue in North Portland: This matter was ordered retained on the list of unfinished business pending inspection of the premises by the members of the Commission.

9. Request of the City of Seaside for designation of a truck route along Roosevelt Drive: The Engineer's report on this subject was rendered earlier in the session. The item is to be deleted from the list.

10. Request of the "Save the Gorge" Committee of the Portland Women's Forum that areas at Sheppards Dell and Tanner Creek on the Upper Columbia River Highway be acquired as state parks: The Parks Superintendent reported on this matter earlier in the session. The item was ordered deleted from the list.

11. Report on the cleaning up of down timber and danger trees on highway rights of way: The Engineer's report on this subject was rendered earlier in the session. The item was ordered deleted from the list.

12. Preparation of maps showing construction performed and contemplated: The Commission ordered this item deleted from the list of unfinished business inasmuch as the maps have been furnished.

13. Proposed agreement with U. S. Army Engineers regarding the use of an area of Federal land at Hat Rock State Park, Umatilla County: The Parks Superintendent advised that he is not yet ready to report on this subject, in view of which, the Commission ordered the item retained on the list of unfinished business.

14. Request of Westport Community Church for installation of a traffic signal on the Columbia River Highway in Westport: The Engineer advised that his report on this subject is not yet ready for presentation. The item is to be retained on the list of unfinished business.

15. Status of wayside area acquisition at the mouth of Ladd Canyon on US 30 near La Grande: In the discussion of this matter it appeared that

satisfactory progress is being made on this project. In view of this, the Commission ordered the item deleted from the list of unfinished business.

16. Proposed wayside development on US 30 between La Grande and Rattlesnake Springs: The Engineer advised that investigations are not yet complete. The item was ordered retained on the list of unfinished business.

17. Request of Wallowa County Court that the State assume jurisdiction over a road extending southerly from Wallowa Lake Lodge to the falls in the West Fork of the Wallowa River: The Engineer advised that his report on this subject is not yet ready. The item was ordered retained on the list of unfinished business.

The Commission had under discussion the setting of a definite date for its next regular meeting and decided unanimously to hold such meeting in Portland on Tuesday and Wednesday, February 17 and 18, 1953. The Commission also set Wednesday and Thursday, April 8 and 9, 1953 as the date for its next following meeting. The Secretary was instructed to arrange for the use of the Crystal Room in the Benson Hotel for these meetings. In the event the Crystal Room is not available, then the Tyrolean Room is to be reserved.

The Engineer requested authority to join with the City of Eugene in the installation of a fully-actuated volume-density signal control at the intersection of 6th Street and High Street in the City of Eugene. He estimated the cost of the installation at $3,500. He advised that the signal is needed and that the City of Eugene will pay 50 percent of the installation cost and will maintain the control after the installation is completed. The Commission approved the request.

The Engineer brought up for discussion the matter of constructing climbing lanes for slow-moving vehicles on intermittent sections of the Pacific Highway between Glendale Junction and Jump Off Joe Creek, Josephine County, involving seven miles of construction. He estimated the cost imvolved at $100.000 and advised that the improvement was anticipated in the 1953 budget. He recommended approval of the project, and that he be authorized to advertise it for bids to be received as soon as the specifications can be prepared. The Commission approved the recommendation unanimously.

The Commission discussed briefly, and ordered filed, a request from the Deschutes County Court for further improvement of the Cascade Lakes Highway between Bend and Elk Lake, inasmuch as this matter was disposed of earlier in the session during a conference with representatives of the U. S. Bureau of Public Roads and the U. S. Forest Service.

A letter was presented from the City of Stayton requesting relief from payment of the balance of the City's share of the cost to widen five corners on Highway 222 in Stayton so as to permit operation of vehicle combinations having an overall length of 60 feet. The Engineer recited the history of this project in considerable detail and advised that the claim amounts to only $359.38. He recommended denial of the City's request and that the City be required to pay the full amount of the bal-

ance due. The Commission approved the recommendation, and so ordered.

The meeting adjourned at 5:00 p.m. to reconvene on the following morning at 9:00 a.m. in the same room.

Portland, Oregon
January 22, 1953

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Crystal Room of the Benson Hotel. The following persons were present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Bids, as follows, for highway construction work were opened and read aloud by the Secretary in conformity with previously published notice, at the conclusion of which it was announced that the contract awards would be made at 4:45 p.m. in the same room:

CLATSOP COUNTY
NECANICUM ROCK PRODUCTION AND SURFACING PROJECT

Calkins Crushing Company, Ocean Lake	$ 48,950.00
Homer G. Johnson, Portland	55,680.00
F. O. Laws, Salem	57,230.00
Smith Brothers, Vancouver, Washington	57,260.00
Rogers Construction Company, Inc. Portland	63,872.50

O'NEIL SECONDARY HIGHWAY IN CROOK COUNTY
GRADING AND OIL MAT SURFACING

Durbin Brothers, Eugene	$ 95,511.50
J. M. Arena, Portland	101,505.00

O'Neil Secondary Highway (cont.)

Babler Bros. & Rogers Const. Co., Portland	$102,465.00
Anliker and Robinson, Bend	108,075.00
John A. Logan, Portland	116,951.00
F. C. Scott Construction Co., Portland	117,320.00
C. R. O'Neil, Creswell	118,240.00
Stanton W. Payne, Eugene	118,790.00
Edwin C. Gerber, Oregon City	121,817.00
Diamond Tractor & Equipment Co., Portland	122,940.00
McNutt Bros., Eugene	140,580.00

OREGON COAST HIGHWAY IN CURRY COUNTY
GRADING BRUSH CREEK-RINEHART CREEK UNIT

Fred H. Slate Co. Oreg. Ltd & E. C. Hall Co., Portland	$648,682.50
Carl M. Halvorson, Inc., Portland	734,045.00
McNutt Bros., Eugene	776,003.00
Kuckenberg Construction Co., Portland	927,365.00
Cosmo Gilo, Lowell *	939,977.40
Morrison-Knudsen Co., Seattle, Washington	1,030,089.00

* Bidder will accept award of only one project.

PACIFIC HIGHWAY IN DOUGLAS COUNTY
GRADING DEADY-SHADY SECTION

White Bros. Co., Walla Walla, Washington	$524,152.50
J. G. Watts Construction Co., Portland	525,913.00
R. A. Heintz Construction Co., Portland	538,297.50
Cosmo Gilo, Lowell *	613,346.70
C. J. Montag & Son, Portland	647,373.50
Kuckenberg Construction Co., Portland	670,019.50
Fred H. Slate Co. Oreg. Ltd. & E. C. Hall Co., Portland	706,144.00
Gibbons & Reed Co., Salt Lake City, Utah	711,357.50
Natt McDougall Co., Portland	745,472.00
McNutt Bros., Eugene	820,608.00
Morrison-Knudsen Co., Seattle, Washington	893,593.00

* Bidder will accept award of only one project.

COLUMBIA RIVER HIGHWAY IN GILLIAM COUNTY
ARLINGTON-HEPPNER JUNCTION SECTION

Goodfellow Bros., Inc., Wenatchee, Washington	1,052,192.50
Rogers Construction Co., Portland	1,063,573.00
Peter Kiewit Sons' Co., Longview, Washington	1,107,828.50

January 22, 1953

Arlington-Heppner Junction Section (cont.)

Carl M. Halvorson, Inc., Portland	$1,110,942.50
White Bros. Co., Walla Walla, Washington	1,119,020.50
Morrison-Knudsen Co., Pendleton	1,147,310.00
Kuckenberg Construction Co., Portland	1,170,368.50
Gibbons & Reed Co., Salt Lake City, Utah	1,214,555.00
Roy L. Bair & Co., Spokane, Washington	1,233,079.00
J. N. Conley, Portland	1,243,058.00
Fred H. Slate Co. Oreg. Ltd & E. C. Hall Co. Portland	1,267,480.00
McNutt Brothers, Eugene	1,385,771.50

GILLIAM AND WHEELER COUNTIES
ARLINGTON-SERVICE CREEK ROCK PRODUCTION PROJECT

E. H. Itschner Co., Molalla	$ 79,177.50
R. H. Sussex, Bellingham, Washington	85,014.00
Newport Construction Co., Portland	99,982.50
Vernie Jarl, Gresham	103,950.00
Rogers Construction Co. Inc., Portland	111,862.50
Homer G. Johnson, Portland	114,816.00
McNutt Brothers, Eugene	137,310.00

GRANT COUNTY
OCHOCO JUNCTION-PRAIRIE CITY ROCK PRODUCTION PROJECT

E. H. Itschner Co., Molalla	$ 47,880.00
R. H. Sussex, Bellingham, Washington	51,300.00
Vernie Jarl, Gresham	55,403.50
Homer G. Johnson, Portland *	55,746.50
Rogers Construction Co. Inc., Portland	58,140.00
N. A. Toole Construction Co., Ontario	58,652.00

* Bidder will accept award of only two projects.

JOSEPHINE COUNTY
ROGUE RIVER LOOP SEC. HWY. ROCK PRODUCTION PROJECT

M. C. Lininger & Sons, Medford	$ 34,160.00
E. C. Swaggart, Eugene	34,608.00

LINN COUNTY
FOSTER-TOLL CREEK ROCK PRODUCTION PROJECT

Homer G. Johnson, Portland *	$ 52,322.50
Calkins Crushing Co., Ocean Lake	52,500.00

January 22, 1953

Foster-Toll Creek Rock Production Project (cont.)

J. G. Watts Construction Co., Portland	$ 59,845.00
Rogers Construction Co. Inc., Portland	59,850.00

* Bidder will accept award of only two projects.

MARION COUNTY
SALEM BY-PASS SECTION OF THE PACIFIC HIGHWAY EAST

Roy L. Houck and Son, Salem	$494,971.00
J. M. Arenz, Portland	544,607.00
R. A. Heintz Construction Co., Portland	548,916.00
Berke Bros., Portland	562,530.00
C. R. O,Neil, Creswell	563,824.00
Gibbons & Reed Co., Salt Lake City, Utah	573,970.00
Durbin Brothers, Eugene	589,100.00
Babler Brothers Inc., Portland	609,330.00
J. G. Watts Construction Co., Portland	611,652.00
Fred H. Slate Co. Oreg. Ltd & E. C. Hall Co., Portland	614,356.00
Cosmo Gilo, Lowell *	662,059.00
McNutt Bros., Eugene	738,250.00

* Bidder will accept award of only one project.

T. H. BANFIELD EXPRESSWAY IN MULTNOMAH COUNTY
CEREGHINO OVERCROSSING

Carl M. Halvorson, Inc., Portland	$207,370.00
Donald M. Drake Co., Portland	209,460.00
Tom Lillebo, Reedsport	211,010.00
C. J. Eldon, Portland	212,800.00
Lindstrom Brothers, Portland	216,640.00
C. J. Montag & Son, Portland	220,050.00
Teller Construction Company, Portland	229,050.00
Guy F. Atkinson Company, Portland	237,380.00
General Construction Company, Portland	253,830.00

T. H. BANFIELD EXPRESSWAY IN MULTNOMAH COUNTY
92ND AVENUE OVERCROSSING

United Builders, Inc., Beaverton	$ 67,393.00
Birkemeier & Saremal, Portland	68,090.00
Lindstrom Brothers, Portland	71,219.00
James & Yost, Portland	72,292.30
Teller Construction Company, Portland	73,611.00

COLUMBIA RIVER HIGHWAY IN WASCO COUNTY
LYLE FERRY ROAD UNDERCROSSING

Johnson & Bryant, Newberg	$ 23,865.00
Geo. E. Berry, Beaverton	24,870.00
United Builder, Inc., Beaverton	25,495.00
Orlando C. Bennard, Portland	26,410.00

WASHINGTON AND CLACKAMAS COUNTIES
WEST PORTLAND-HUBBARD HIGHWAY

Rogers Construction Co., Inc., Portland	$435,410.00
Warren Northwest, Inc., Portland	444,775.00
Newport Construction Co., Portland	483,408.00
J. N. Conley, Portland	486,652.00
Acme Construction Company, Eugene	488,917.00
D - H Paving Company, Vancouver, Washington	499,875.00
E. C. Hall Co., Portland	500,360.00
Porter W. Yett, Portland	505,398.00
Parker-Schram Company, Portland	549,642.00
Pacific Sand & Gravel Co., Centralia, Washington	563,582.00
O. C. Yocom, McMinnville	577,996.00

A delegation from Gleneden Beach, Lincoln County, was present regarding the proposed revision of the Oregon Coast Highway that will by-pass this community. The group was headed by Mr. Charles McKenzie, and included Jack Ofelt, Dale Rutledge, and O. F. Robbins, all of Gleneden Beach. Mr. McKenzie gave as his understanding that the Commission intends to build the permanent highway on swampy ground about one-half mile east of the present highway, and he declared if that is done, property values will be lowered, community development will be hindered, and business failures will result. He urged the Commission to improve the existing highway from which, he said, a view of the ocean may be obtained which is not available from the proposed location. Chairman Chandler advised that the proposed location was adopted by a former Highway Commission in 1936 and has been approved by each Highway Commission since then because it appeared to be the best route and the cheapest one to construct according to the engineering investigation which the Commission is obliged to follow. He also stated that not only has the location been adopted, but a considerable portion of needed right of way has been acquired. The matter was discussed further and was concluded by Chairman Chandler who stated that the Commission would take the matter under advisement and would secure an up-to-date report from the Engineer on the project. The Engineer was thereupon instructed to render such report and to send a copy of it to Mr. McKenzie.

The following persons representing "Save the Myrtle Woods, Inc.", Portland, was present regarding purchase of myrtle wood tracts situate adjacent to the Umpqua Highway near the mouth of Paradise Creek between Elkton and

Scottsburg: M. L. Merritt, President; Art Kirkham, Board Member; and Mrs. W. H. Wilhelm, Board Member. Mr. Merritt who headed the group stated that they have been endeavoring to acquire three small tracts in this vicinity, one of which belongs to a Mrs. Kaskich. He recalled that Mrs. Kaskich offered at one time to sell her property to the State for the sum of $750, and that the Highway Commission in the fall of 1950 authorized an expenditure not to exceed $500 for the purpose, on the condition that the difference would be paid by the "Save the Myrtle Woods" organization. At that time Mrs. Kaskich refused to complete the deal on the basis of her offer, but she is now willing to sell the tract for $1,000. Mr. Merritt asked the Highway Commission to reinstate its previous offer to contribute $500 to acquire Mrs. Kaskich's property. The matter was discussed by the Commission, and the previous offer to pay $500 towards purchase of Mrs. Kaskich's property was revived on the condition that the association will pay the difference. The Right of Way Engineer was instructed to handle the details with Mrs. Kaskich.

The following persons comprised a delegation from Astoria, Warrenton, Gearhart, and Seaside which appeared before the Commission in the interests of rerouting the Oregon Coast Highway between Astoria and Warrenton along alignment closely paralleling the S. P. & S. Railroad across Youngs Bay: J. E. Flynn, Secretary, Astoria Chamber of Commerce; Eric A. Hauke, Councilman; H. M. McCallister, Superintendent of Public Works; H. M. Olsvick, City Engineer; Mr. and Mrs. H. W. Dahlgren, West End Development League; R. Hammond, Heavy Hauling Company; Neil Brandenburg, Petroleum Industry; Gordon Ellsworth, Jerry Greenberg, Traffic Safety Committee; and H. A. Ellsworth, Traffic Safety Committee, all of Astoria; Dick Baldwin, Police Judge; H. Gramson, Mayor; D. S. Craven, President of the Chamber of Commerce; George Stuckrath and N. B. Rawls, Councilmen, all of Warrenton; Wm. R. Manion, Oregon Coast Association; John S. Baily, Chamber of Commerce; A. W. Ensor, President, Chamber of Commerce; Avery A. Combs, Vice President of Chamber of Commerce; Mrs. Avery Combs, and Mrs. Lloyd Eastman , all of Seaside; T. Rex Baldwin, Mayor of Gearhart; and H. A. Roberts, President of Oregon Coast Association, Florence; also present representing the U. S. Naval Station at Tongue Point were J. D. Shaw, Commanding Officer Columbia River Group; and C. C. Biggers, Commanding Officer U. S. Naval Station, Tongue Point.

Mr. Dick Baldwin, Police Judge, Warrenton, headed the group. He said that the delegation represents different groups and factions all of whom are interested in improvement of US 101 between Astoria and Seaside. He mentioned the name of each group and introduced representatives of each. He advised that all of the groups are one hundred percent in favor of this project although there are some people in the county who oppose it. Mr. Baldwin recited the history of their project and inquired as to its status with the State Highway Commission. He also said that the members of the group will express their personal opinions should the Commission so desire.

Chairman Chandler advised that the Commission is sufficiently familiar with the project so it will not be necessary for the group to make any lengthy presentation. He also said that the survey of the project is now in progress and will be completed sometime within the next three or four months; also that there are uncertainties as to how much the project is going to cost and when funds will become available to finance

construction. Commissioner Reynolds explained in some detail the problems that are confronting the State Highway Commission and the formula for allocating the funds to the several districts throughout the State, particularly mentioning the distribution of the monies derived from the sale of bonds which, he said, presented a problem which was solved by the Commission to the best of its judgment by deciding to spend these monies for primary highway improvements. He pointed out that the Legislature two years ago authorized the sale of only $40,000,000 of bonds out of a total of $75,000,000 requested, and that the Commission is now asking the Legislature to authorize an additional $32,000,000 without limitation as to when they can be sold. Commissioner Reynolds stated further that the Commission has prepared a five-year program as a result of very careful study of conditions obtaining throughout the State. He recalled a request from the people of Astoria and vicinity some years ago for improvement of the Lower Columbia River Highway, and he advised that the project was taken into consideration in the formulation of that program, an amount in excess of $4,000,000 having been allocated for the Lower Columbia River Highway. He confirmed the statements of Chairman Chandler to the effect that surveys are now being made with the view of rerouting the highway across Youngs Bay, and he added that the investigation will include all possible routes and that the Commission's decision will be based on information furnished by the Engineers. He also mentioned that the project involves a question of funds to finance the work, stating that the Commission must act for the interest of the State as a whole rather than for individual communities, and that highway revenues are not all available for construction purposes but a large portion must be spent for maintenance as well as to satisfy the legal requirements with respect to distribution to the cities, counties, and State police. He mentioned that the Commission is going to give this matter very serious study when the survey is completed, and that it is hoped a way can be found to advance the project with the least possible delay. Chairman Chandler and Commissioner McIver stated their concurrence in the remarks of Commissioner Reynolds. This concluded the conference.

The following persons were present as representatives of the City of Astoria: Eric A. Hauke, City Commissioner, President of the Council; William Thompson, City Commissioner; Brewer A. Billie, City Manager; Harold Olsvick, City Engineer; and H. M. McCallister, Superintendent of Public Works. Mr. Billie headed the group. He gave as their understanding that a question has arisen as to the transfer of the Astoria-Megler Ferry from the foot of 14th Street to the foot of 17th Street, and he advised, if the Commission is going to retain the 14th Street terminal, then the City and likewise the County would like to have returned to them certain property located on the south side of Commercial Street near 17th Street which they deeded to the State for possible use were the terminal changed to that location; on the other hand, if the terminal is to be changed to 17th Street, the Commission may need the property, and if so, it will be satisfactory for the Commission to retain it, but if it is not needed, the original owners want it returned to them because they have sale for it for industrial purposes. He asked the Commission to carry on further investigations so the matter can be definitely decided.

Mr. Billie also asked the Commission for the widening of Lief Erickson Drive, State Highway route, between 44th Street and 46th Street. He declared

the present width entirely too narrow to accommodate the traffic that uses it, and he suggested pending completion of the widening, that appropriate "NO PARKING" signs be maintained as a protection to the traffic that uses this street. Chairman Chandler advised that the Highway Commission has discussed the matter of deeding back to the City and County certain properties that the State acquired at the foot of 17th Street and has decided that the property located on the south side of Commercial Street will not be needed for the purpose originally intended so is going to deed this property back to the City and the County; however, property located on the north side will be retained by the State because of the possibility of changing the ferry terminal at some future time from the 14th Street location to the 17th Street location. He mentioned that because of the purchase of the terminal facilities at the foot of 14th Street, it is now possible to defer for several years moving the ferry terminal from 14th Street to 17th Street. As to prohibiting the parking of cars along Lief Erickson Drive between 44th Street and 46th Street, Chairman Chandler advised that the Commission will approve such restriction if the City will adopt the necessary ordinances.

The meeting recessed for luncheon at 12:10 p.m. and reconvened at 1:30 p.m. with the same persons present and participating.

County Judge Ward R. Webber, Wasco County, appeared before the Commission regarding the rerouting of the northerly end of The Dalles-California Highway so as to make a better connection with the Columbia River Bridge that is under construction at The Dalles. Judge Webber advised that their new bridge is well underway, and they expect to have it completed by November of this year. He inquired as to the funds the Commission may have to finance the proposed connection, and he suggested if no funds are available, the transfer of funds set up for improvement of the Cow Canyon Section of US 97. He mentioned that the County is in a position where it is planning its finances and any information the Commission can give will be appreciated. He was informed by Chairman Chandler that the Commission has provided no monies in its construction program for the proposed cutoff, but will give some thought to Judge Webber's suggestion that the money set up for the Cow Canyon Project ($1,000,000) be transferred. Anyway the Commission will have to wait until it is known what the Legislature is going to do about highway funds. In conclusion, Judge Webber gave as his feeling that Wasco County will be able to finance purchase of all right of way that may be needed for this project.

Mr. C. W. Parker, Property Controller, was present regarding insurance to be provided in 1953 on shop buildings located at Salem, Klamath Falls, and La Grande. He advised that the valuation of the shop buildings and their contents, at these three locations aggregates as of December 31, 1952, $381,000 more than the valuation set on them as of December 31, 1951. He inquired whether or not to secure an endorsement to the existing insurance policy increasing the coverage in that amount. It was the feeling of the Commission that the extra coverage should be provided and it was so ordered.

In this connection the Chief Counsel explained the attitude of the members of the Legislature with respect to the bills that have been presented authorizing the purchase of private insurance coverage for State-owned buildings. He said that indications are that the members of the joint House and Senate Committee are not in favor of granting such authority, so there are possibilities of great loss under

existing laws because the amount provided for in the Restoration Fund is far too small to secure desired benefits. The Commission indicated its desire to have the amount provided by the present Restoration Fund Law increased if the Legislature does not see fit to authorize purchase of private insurance.

The Engineer rendered an oral report on the condition of State Highways affected by recent heavy rain storms. He estimated that it would cost between $100,000 and $200,000 to repair damage done to the Oregon Coast Highway in Curry County. The Commission took no action in the matter.

The Commission considered, and upon recommendation of the Chief Counsel and the Engineer, unanimously approved an agreement with the Medford Irrigation District covering the re-establishment of certain irrigation ditches and facilities belonging to the District as is necessary in connection with the relocation of the Medford-County Farm Section of the Pacific Highway in Jackson County. (The agreement was signed by the Commission later in the session.)

A delegation from Baker County, consisting of the members of the County Court and residents of the Eagle Valley and Pine Valley districts was present and urged improvement of the Baker-Homestead Highway between the City of Baker and Halfway Junction. The group was headed by Hon. Lloyd Rea, Baker County Judge, and included the following: R. M. Phipps, Huntington, and Gill C. Wright, Newbridge, County Commissioners; State Senator Roger Leonig, Haines; Carl Holman, Baker, President of the Commercial Club; Lowell Fuller, Baker, Member of the Commercial Club; George I. Scott, Baker, Chairman Highway Committee, Chamber of Commerce; Omer George, Baker, representing the Baker County Farm Bureau; Frank McDowell, Halfway, representing the Citizens Group of Pine Valley; Paul Brooks, Richland, representing the Citizens Group of Eagle Valley; and Steven Emery, Baker, representing the Baker Motel Association. Judge Rea urged the modernization of a 6.41-mile section of this highway between Love Bridge and Black Bridge which, he said, would complete the section of highway that has already been surveyed. He also asked for a survey of the section between Black Bridge and Richland. He pointed out that the highway serves a population of between 2,000 and 2,500 people and is the only means of their getting into Baker which is the County Seat and their trading center. He advised that the present road is very narrow and is very deserving of improvement. Senator Leonig stated that this highway serves two prosperous valleys and is the only means of entrance into those valleys. He also said that the road is an important instrument in the development of the Snake River, and, in his estimation, it is only fair that its improvement be given favorable consideration by the Commission. Mr. Fuller presented a brief in support of the oral arguments made in behalf of the modernization of the highway. He urged construction of the 6.41-mile section mentioned by Judge Rea as being the only uncomplete portion of the section between Love Bridge and Black Bridge. He pointed out that the highway is very narrow and cannot be traversed by big equipment without hazard; moreover, school busses cannot negotiate it without extreme danger. He also pointed out that considerable log hauling is being carried on over the highway with modern equipment, and that the highway is badly needed in emergencies, such as transporting people to hospitals in Baker, there being no hospital facilities closer

to the district served by this road. Mr. Fuller also presented pictures showing that large equipment cannot pass safely along this section of highway, and he advised that the County Court of Baker County is unanimously in favor of the improvement of this section. He presented for the Commission's consideration written endorsements from eleven organizations of Baker County in support of the request.

Mr. Scott declared that an improved highway is much more necessary now than when the survey was made. He inquired as to the Commission's plans for improvement of the road. At the request of the Commission, the Engineer advised that the Commission has no plans for the immediate improvement of the section under discussion. He pointed out that there still remains 21 miles of highway between Baker and Halfway Junction that have not been reconstructed, particularly mentioning three sections, one of which has been surveyed and is estimated to cost $300,000, the other two presently not surveyed which are estimated to cost $315,000 and $350,000 respectively.

Commissioner Reynolds thanked the delegation for its presentation and advised that the improvement of the highway involves a question of funds. The Commission, he said, does not have the funds available to finance improvement of the entire uncompleted section, but is going to find the money to construct the first five-mile section between Table Rock Creek and Black Bridge, which is estimated to cost $300,000, and he assured the group that such work will be accomplished in 1954 as a Federal Aid Secondary Highway Project.

Mr. Scott then advised that their group is also interested in the further improvement of the Old Oregon Trail between Ontario and Baker. He stated that traffic from the east passing through Idaho now is directed to Oregon via Weiser rather than via Ontario because a wider road is available, so the Ontario district is not getting the benefit of the eastern tourist traffic. He gave as their feeling that improvement of the Old Oregon Trail on the Oregon side of the river would be a great help in drawing attention to the Ontario district. He was informed by Chairman Chandler that the Commission appreciates the value of an improved highway along the Snake River, but does not have the funds available presently to finance such a project. This concluded the conference.

A delegation from the City of Oswego appeared before the Commission and requested (1) the widening of the Oswego Highway from the end of the four-lane highway section in the business district to Sucker Creek Bridge, and (2) a better signalization of the Southern Pacific Company's Railroad grade crossing on this street. Mr. Lee Stidd, Jr., City Councilman, headed the group which included Messrs. Glen Wilson and Dr. C. L. Stanley, members of the City Council, Paul Hebb, representing the Chamber of Commerce, Phil Hammond, City Attorney, and Robert Belknap, President of the Lions Club. Mr. Stidd declared that the present highway is too narrow to take care of the traffic that it now carries and at the same time allow the parking of automobiles along the highway shoulders. He said that the traffic volume is increasing, and that existing bad conditions are getting worse. He pointed out that extremely hazardous conditions exist because of the bottleneck that is created from changing over from a four-lane highway north of the railroad to a two-lane highway southerly therefrom. He also mentioned the problem of handling small children who are obliged to cross the highway going to and from

school. He suggested as a solution of their problem the widening of the highway pavement and construction of curbs on both sides of the highway between Leonard Street and Sucker Creek Bridge, a distance of about 1700 feet. As to the signalization of the railroad crossing, Mr. Stidd stated that a wigwag signal is now in place, but people disregard it because it is constantly in operation by reason of the switching of trains which causes the signal to operate almost continually. As a result of the discussion which followed, the Commission instructed the Engineer to make an investigation of the conditions and report his findings with an estimate of the cost to make the necessary corrections. The delegation was informed that the signalizing of the railroad crossing should be taken up with the Public Utilities Commissioner who has jurisdiction over such matters.

Messrs. Winton J. Hunt and Lyman Seely, members of the Chamber of Commerce of the City of Woodburn, were present and asked the Commission for an answer to their previous request for a traffic interchange between the Salem-Portland Expressway and a county road west of Woodburn. Chairman Chandler advised that the Commission had this matter under discussion, and has authorized the acquisition of right of way so the State will be in a position to construct such interchange later on at minimum expense when conditions appear to deem it a necessity. Mr. Hunt remarked that they have discussed this matter with the State Highway Engineer who suggested as a solution construction of a one-half cloverleaf connection. Such type of interchange, he said, would be adequate for this particular location and would satisfy the people of Woodburn, as well as those of St. Paul, Silverton, and Mount Angel. In concluding the discussion, Chairman Chandler mentioned that the Legislature is being requested to authorize the sale of additional bonds in the amount of $32,000,000, and unless the bonds are authorized, there is no chance for early construction of the interchange.

The following persons representing the US Highway 20 Association were present: Messrs. E. F. Gilkey, Mayor of the City of Newport, H. W. Curry, representing the Newport Chamber of Commerce, Kurt Kiesow and Frank Updike, representing the Toledo Chamber of Commerce, Vance Taylor, Corvallis, President of US Highway 20 Association, R. G. Rodriguez, Member of the Corvallis Chamber of Commerce, Fred Spures, representing the Lebanon Chamber of Commerce, Reese Esgar, representing the Foster Chamber of Commerce, Bud Donahue, Secretary of the Albany Chamber of Commerce, Brad Bradley, Secretary of the Sweet Home Chamber of Commerce, and Bill Niskanen, representing the Bend Chamber of Commerce. Mr. Gilkey headed the group and introduced the members. He thanked the Commission for the work that has been started on US Highway 20, and he advised they are interested in the possibility that there might be some money available through the issuance of bonds to further the improvement of this highway route. He presented a written brief containing a number of projects that the Association wants the Highway Commission to study and to consider in the formulation of future construction programs. Included therein were the following: (1) Early completion of the reconnaissance survey and economic study easterly from Toledo to a junction with the Alsea Highway at Philomath so that reconstruction of at least ten miles on this section can be placed on the schedule for completion; (2) Construction of a four-lane divided highway between Philomath and

Corvallis; (3) Establishment of a high water road between Albany and Corvallis; (4) Rebuilding of approximately seventeen miles between the south city limits of Lebanon and Willamette National Mill near the town of Foster where many serious accidents and some fatalities have occurred due to sharp curvature and low standard of roadway construction; and (5) Resurfacing and repairing of fifty-seven miles between Juntura and Vale in Malheur County. (For details, see copy of brief in General Files.) Mr. Kiesow requested improvements between Toledo and Corvallis, emphasizing the need to eliminate hazardous conditions that exist on Pioneer Mountain and on Little Elk Mountain. He also asked for construction of a four-lane highway between Philomath and Corvallis. Mr. Donahue endorsed the remarks of the other speakers, and presented pictures and newspaper clippings in support thereof which indicated why it is necessary to improve the highway between Albany and Corvallis. He suggested that the Commission should authorize the acquisition of right of way of sufficient width for a four-lane highway between these points, and construction of a two-lane facility now with two additional lanes to be added later when conditions justify them.

Chairman Chandler pointed out that the Commission now has a definite agreement with the City of Corvallis with respect to the construction of certain highway improvements in that area, but indications are that the City is not satisfied with the program. He mentioned that the City should make up its mind one way or the other so the Commission will know how to act. Speaking again, Mr. Donahue inquired if the Commission's agreement with the City of Corvallis precludes new construction between Corvallis and Albany. The US Highway 20 Association, he said, is seeking improvement of the highway in its entirety, and as a highway group the Association is not particularly interested with improvement in any individual city or town. He inquired if there is any possibility that the Commission will authorize a survey to be made of this section. He was informed by Chairman Chandler that no provision has been made in the present highway program for the Albany-Corvallis Highway, although certain sums have been provided for projects on US Highway 20 in other locations. Mr. Esgar requested the widening of the Santiam Highway between Foster and Sweet Home for four lanes of traffic. He urged a preliminary survey and purchase of right of way for a four-lane facility along the seventeen-mile section between Lebanon and Foster where, he said, many accidents occur.

Chairman Chandler advised that the Commission's construction program for this year provides for the resurfacing of the Santiam Highway between Foster and Noble Slough, the project to include widening from eighteen feet to twenty-two feet. Mr. Niskanen requested two projects: (1) Improvement of the twelve-mile section of the Central Oregon Highway westerly from the town of Hines, and (2) Improvement of the Juntura-Harper Junction Section which, he said, is narrow and in bad condition and should be included in any construction program or should be maintained in a better condition than it now is being maintained. Mr. Curry presented for the Commission's consideration a copy of a report prepared by Thomas J. Murray Company, Portland, for the Ports of Newport and Toledo being a "Port Potential Survey". He stated that it would be helpful to the cities of Newport and Toledo if they were able to say that the Highway Commission is going to improve the highway to these ports.

Chairman Chandler concluded the conference by advising that the Commis-

sion has provided in its five-year program a considerable sum of money to finance improvements on US Highway 20 He mentioned some of the projects that are included in that program, and particularly pointed out that the Commission plans to resurface this year the section between Juntura and Vale. He assured the group that US Highway 20 is receiving consideration in the Commission's long range program.

A delegation from Astoria, consisting of thirty-one members representing the Clatsop County Development League, was present regarding the re-routing of US 30 through the Astoria district. They were headed by Mr. Samuel H. Lee, owner of Lee Motel, who stated that they had requested a hearing before the State Highway Commission to express opposition to the relocation of Highway No. 101 across Youngs Bay as proposed by a delegation that appeared before the Commission during the morning session; however, after listening to what the Commission had to say to the other group, they decided not to present arguments at this time because they felt that the Commission is going to investigate all possible routes before taking any definite action with respect to adoption of the new route across Youngs Bay as has been proposed. He read aloud and filed with the Commission a prepared statement signed by their Secretary, Mr. L. D. Sorenson, together with a map on which was disclosed a routing that they recommended for adoption by the Commission so as to avoid traffic congestion through the City of Astoria. Mr. Lee pointed out that the route they propose starts at a point on US 30 at John Day River crossing, thence through a low pass, intersecting Highway 202 (Nehalem Secondary Highway) at a point near the old Cornelius Ranch, thence continuing across Youngs River at approximately Miles Crossing and connecting with the present highway (US 101) at a point opposite Camp Clatsop State Military Reservation south of Warrenton. He advised that this route would shorten travel distance for people travelling US 30 to the Clatsop County beaches by about ten miles, and will by-pass the City of Astoria where he said, there exists one of the worst traffic bottlenecks on the entire coast; moreover, it will ease the flow of traffic across the present bridges at Youngs River and Lewis and Clark River. The Commission accepted the brief and ordered it filed for future reference.

The following persons comprised a delegation from Lane County who asked the Commission to improve the Springfield-Creswell Highway (No. 222) between the west end of the new bridge over the Willamette River at Jasper and a connection with Highway No. 58 (Willamette Highway) near Pleasant Hill. Charles Buckel, Clem Cummins, and C. E. Funk, all of Jasper and O. C. Larson, Secretary, Springfield Chamber of Commerce. Mr. Buckel headed the group. He read aloud and presented a petition, signed by 600 residents of Jasper and vicinity, requesting the paving of this two and one-half mile section. He also presented letters from a number of industries in the district endorsing the project. He mentioned also that they want this improvement constructed on permanent alignment which is a deviation from the present location. The group was informed by Chairman Chandler that the Commission's construction program for 1954 contains provision for the project that they have in mind, but there are no funds available to finance the improvement this year.

Mr. J. S. Burres, Condon, was present regarding the Wasco-Heppner

State Secondary Highway, particularly the West Cottonwood Grade Section thereof. He thanked the Commission for lifting the reduced load limit on the Cottonwood Bridge, and he asked the Commission to continue improvement on the present highway location northwesterly thereof. He mentioned rumors to the effect that the highway is to be rerouted so as to miss the warehouse located on the present route. He was informed by the Engineer that the Commission has no plans presently to reroute the highway and that there are no funds available to finance its immediate improvement.

A delegation from Arlington, headed by Mr. Marion Weatherford, farmer, came before the Commission regarding the new highway construction on US 30 at Arlington. Others in the group were Messrs. Dick Logan, City Councilman, Foster Odom, City Councilman, and George McClasky, Businessman. Mr. Weatherford stated that the plans for the highway improvement only recently have come to their attention and that a study thereof indicates to them that more thought should be given to the protection of traffic that enters and crosses from the John Day Highway. He suggested construction of an interchange because of the heavy tonnage of wheat that has to be truck-hauled across US 30 at this point enroute to the terminal on the Union Pacific Railroad. The Commission referred the matter to the Engineer to investigate conditions on the ground with the members of the delegation. He is to report his findings to the Commission.

The Engineer reported a request from Senator Elmo E. Smith and Representative Edward A. Geary, Chairmen of the Senate and House Roads and Highway Committees, respectively, that George Hester be authorized to attend a meeting of the Western Interstate Committee on Highway Policy Problems in Salt Lake City on January 31, 1953. He recommended approval of the request and advised the out-of-state travel expense would be approximately $140. The Commission approved the recommendation.

Chairman Chandler reported a request from Mr. A. G. Flegel, Mayor of the City Roseburg, for an engineering investigation concerning a certain city-county bridge project in the City of Roseburg. The Commission authorized the Engineer to advise the City and the County regarding this problem upon receipt of a formal request in writing from the City Council and the County Court.

Chairman Chandler brought up for discussion the Commission's condemnation action against Wilbur F. Badley, et ux, concerning acquisition of right of way needed for the proposed improvement of the Oregon Coast Highway at Otter Crest. He gave as his feeling that $20,000 is plenty to pay for the property in view of the benefits the Badleys are receiving from the highway improvement. Commissioner McIver declared himself similarly. The Chief Counsel was instructed to offer such amount to the owners and to pursue the case if it is refused. The Chief Counsel suggested if the Badleys do not accept the offer that construction of the parking area and loop road connection be deleted from the plan. The Commission approved the suggestion.

Chairman Chandler advised that Mr. Edward Stanton, Vice President and General Manager of the S. P. & S. Railway has requested detailed information concerning the plans for construction of the T. H. Banfield Expressway across railroad property on Unit No. 1 of this highway. The Right of Way Engineer was instructed

to contact the Company's Chief Engineer, Mr. Carl Thomas, at once and give him as much information as is available at this time.

A request was presented from Dr. Homer Rush, Portland, for permission to obtain a truck load of cinders from a State Highway Cinder Pit near Metolius, Jefferson County, for use in constructing footpaths on his premises in Portland. The Commission granted the request in view of the small amount of material that Dr. Rush desires.

The Commission discussed briefly a request from Senator Howard C. Belton for additional improvements to 82d Street (Cascade Secondary Highway) between Portland and Oregon City. The Engineer advised that an amount of $200,000 has been provided in the five-year program to finance a project on this highway between Flavel Street, Portland, and King Road, the work to be done in 1955. The Commission decided unanimously to adhere strictly with the present program for improvement of this highway.

Chairman Chandler brought up for discussion the making of trips this summer to inspect highway construction completed and underway. The Engineer was instructed to prepare itineraries for two or three trips of one week's duration each. He was also instructed to arrange for the purchase of a new seven passenger automobile of the Cadillac type, and to have it available for use on these contemplated trips.

The Commission discussed with the Engineer the bids received at the morning session for highway construction, and at 4:45 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project, as follows, the Commission's action being by unanimous vote:

"Necanicum Rock Production and Surfacing Project on three state highways and two state park roads in Clatsop County: The Commission received five bids for this job, the low one being that of Calkins Crushing Company, Oceanlake, at $48,950.00. The contract has been awarded to the low bidder at its bid price.

"Grading and oil mat surfacing on the East Unit, Deschutes County Line-Prineville Section of the O'Neil Secondary Highway west of Prineville, Crook County: Durbin Brothers, Eugene, submitted the low bid for this work in the amount of $95,511.50. Ten higher bids were received. The bid of Durbin Brothers in the sum of $95,511.50 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading on the Brushes Creek-Rinehard Creek Unit, Rocky Point-Gold Beach Section of the Oregon Coast Highway in Curry County: Of the six bids received for this work, the low one was submitted by Fred H. Slate Company Oregon Limited and E. C. Hall Company, Portland, in the sum of $648,682.50. The bid of Fred H. Slate Company Oregon Limited and E. C. Hall Company in the sum of $648,682.50 is accepted, and the Engineer is

instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading on the Deady-Winchester Unit, Deady-Shady Section of the Pacific Highway about eight miles north of Roseburg in Douglas County: The Commission received eleven bids for this job, White Brothers Company, Walla Walla, Washington, having submitted the low one in the amount of $524,152.50. The bid of White Brothers Company in the sum of $524,152.50 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading, rock base and paving, and construction of one timber bridge on the Arlington-Heppner Junction Section of the Columbia River Highway east of Arlington, Gilliam County: Goodfellow Brothers, Inc., Wenatchee, Washington, submitted the low bid for this work at $1,052,192.50. The Commission received eleven higher bids. The bid of Goodfellow Brothers in the sum of $1,052,192.50 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Arlington-Service Creek Rock Production Project on three state highways in the vicinity of Arlington and Condon in Gilliam and Wheeler Counties: Of the seven bids received for this job, E. H. Itschner Company, Molalla, submitted the low one at $79,177.50. The Commission has awarded the contract to the low bidder at its bid price.

"Ochoco Junction-Prairie City Rock Production Project on the John Day and Beech Creek Highways, Grant County: Six bids were received for this work, that of E. H. Itschner Company, Molalla, being the low one at $47,880.00. The contract has been awarded to the low bidder at its bid price.

"Rogue River Loop Secondary Highway Rock Production Project west of Grants Pass, Josephine County: Only two bids were submitted for this work, the low one being that of M. C. Lininger & Sons, Medford, in the amount of $34,160.00. The Commission awarded the contract to the low bidder at its bid price.

"Foster-Toll Creek Rock Production Project on the Santiam Highway east of Foster in Linn County: Homer G. Johnson, Portland, submitted the low bid at $52,322.50. Three higher bids were received. The bid of Homer G. Johnson in the sum of $52,322.50 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared.

"Grading and selected roadbed topping on the Turner Road-Battle Creek Junction Unit, Salem By-pass Section of the Pacific Highway East, south and east of Salem, Marion County: The Commission received twelve bids for this work, the low one being that of Roy L. Houck and Son, Salem, at $494,971.00. The bid of Roy L. Houck & Son in the sum of $494,971.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon

as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of twin reinforced concrete viaducts on the Cereghino Overcrossing of the Union Pacific Railroad Company tracks on the T. H. Banfield Expressway west of Fairview, Multnomah County: Of the nine bids received for this work, Carl M. Halvorson, Inc., Portland, submitted the low one at $207,370.00. The bid of Carl M. Halvorson, Inc. in the sum of $207,370.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of a reinforced concrete viaduct 130 feet in length to carry T. H. Banfield traffic over a connection to Multnomah Street at 92d Avenue in Portland, Multnomah County: United Builders, Inc., Beaverton, submitted the low bid for this work at $67,393.00. Four higher bids were received. The Commission has awarded the contract to the low bidder at its bid price.

"Construction of a reinforced concrete viaduct 107 feet in length known as the Lyle Ferry Road Undercrossing, on the Columbia River Highway west of Rowena in Wasco County: The Commission received four bids for this work, the low one being that of Johnson & Bryant, Newberg, at $23,865.00. Johnston & Bryant have been awarded the contract at their bid price.

"Rock base and paving on the Boones Ferry Road-Willamette River Unit, Barbur Boulevard-White School Section of the West Portland-Hubbard Highway in the vicinity of Tualatin, in Washington and Clackamas Counties: Rogers Construction Company, Inc., Portland, submitted the low bid for this work in the amount of $435,410.00. Ten higher bids were received. The Commission has awarded the contract to the low bidder at its bid price."

The Commission considered and signed agreements, etc., as follows:

"Grant of Easement" granting to Pacific Portland Cement Company roadway easement across State Highway property on Rock Point-Blackwell Hill Section of US 99, Jackson County.

"Indenture" re sale to Mr. T. H. Richmond of a portion of Lot 5, Block 4, Rainbow Addition to Reedsport.

Agreement with Eagle Lodge No. 123 IOOF, Richland, Oregon, to compromise a discrepancy in boundary line between State Highway property and Lodge property in Richland.

Agreement with the Southern Pacific Company and the Central Pacific Railroad Company with reference to the maintenance of drainage structures on the revised location of the Willamette Highway around Meridian Dam.

Agreement with Josephine County re abandonment of right of way on the old route of the Redwood Highway on Hayes Hill.

Agreement with the City of Coos Bay covering the proposed traffic signal installation at the intersection of Central Avenue (Empire-Coos Bay Highway) and 4th Street in Coos Bay.

Lease agreement with Ronald E. Phair covering rental of land in "wye" connection of Klamath Falls-Lakeview and Klamath Falls-Malin Highway 4 miles east of Klamath Falls.

Agreement between the State and Douglas County covering construction of the Elkhead Road-Rice Hill Unit of the Divide-Rice Hill Section of the Pacific Highway.

Agreement between the State and Douglas County covering construction of the South Umpqua River-Fairgrounds Unit of the Deady-Shady Section of the Pacific Highway.

Agreement between the State and Douglas County covering construction of the Deady-Winchester Unit of the Deady-Shady Section of the Pacific Highway.

Agreement with City of Roseburg covering the proposed traffic signal installation on Stephens Street (US 99) in City of Roseburg.

Extension Agreement with MacWilkins, Cole & Weber covering certain services and work in connection with Highway Commission's Travel Bureau, the period of extension to terminate on the twenty-fifth day of February, 1954.

Agreement with the Medford Irrigation District covering the proposed relocation of a section of the Pacific Highway in Jackson County, which section is known and described as the Medford-County Farm Section of the Pacific Highway.

The meeting adjourned at 4:50 p.m.

Minutes of

January 21 and 22, 1953

EXHIBIT "A"

Minutes of January 21 and 22, 1953

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other material sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission, outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

WEST PORTLAND HARBOR DRIVE EXPRESSWAY

19396 - Holmes, Walter J. and Sarah J. (Johnson)
Right of Way
Option expires February 25, 1953

Lot - 100x125.	$1,000.00
House - 1356 sq. ft.	5,250.00
Amount to be paid owner - chrg to Right of Way	$6,250.00

Takes all -

19900 - Renner, Alvin B. and Louise A. Mary A. Fitzwater (Smith)
Right of Way
Option expires May 22, 1953

71,400 sq. ft. at $0.093+ sq. ft.	$6,645.00
House - 1200 sq. ft.	1,800.00
Well and jet pumping equipment.	460.00
63 rods of fence at $1.50+ per rod.	95.00

EXHIBIT "B"

Minutes of January 21 and 22, 1953

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of parcels of land along and adjacent to the Oregon Coast Highway, described as follows:

Parcel No. 1. A parcel of land lying in Block 4, E. B. Dean & Company's Second Addition to the Town of Marshfield, City of Coos Bay Coos County, Oregon, and being a portion of the following described property: That tract of land which was conveyed by that certain deed to State of Oregon, by and through its State Highway Commission, recorded in Book 185, page 314, Deed Records of Coos County, said parcel being described as follows: That portion of said property lying easterly of the following described line:

Beginning at a point on the north line of said Block 4 which is also the south line of Central Avenue at a point which is 68.11 feet east of the northwest corner of said Block 4, said northwest corner also being the intersection of the south line of Central Avenue and the east line of Front Street; thence south 10° 13' 30" West 44.56 feet; thence South 9° 25' 30" West 29.82 feet; thence along the arc of a 1396.4 foot radius curve left (the long chord of which bears South 5° 28' West) 173.45 feet; thence South 1° 30' 30" West 29.82 feet; thence South 0° 42' 30" West, parallel to and 125 feet easterly of the west line of Front Street, 865 feet, to the north line of Ferry Street, containing 66,000 square feet.

SUBJECT to that certain easement described in that deed to the Southern Pacific Company, recorded in Book 220, page 430, Deed Records of Coos County.

Parcel No. 2. A parcel of land lying in Block "A" of S. B. Cathcart's unrecorded Plat of Town of Marshfield, in the City of Coos Bay, Coos County, Oregon, and being a portion of the following described properties: Those tracts of land which were described in those certain deeds to State of Oregon, by and through its State Highway Commission, recorded in Book 192, page 400; Book 190, page 474, and Book 192, page 256, Deed Records of Coos County, said parcel being described as follows: Those portions of said properties lying easterly of the following described line:

Beginning on the north line of said Block "A" which is the south line of Market Avenue, Coos Bay, at a point which is 29.5 feet east of the northwest corner of said Block "A"; said northwest corner also being the intersection of the east line of Front Street with the south line of Market Avenue; thence south 4° 44' 30" West 28.68 feet; thence South 4° 07' 30" West, 157.86 feet; thence South 4° 48' 30" West, 13.83 feet to the south line of said Block "A", and the north line of Commercial Avenue of City of Coos Bay, containing 9,125 square feet.

(cont.)

EXHIBIT "B" (cont.)

WHEREAS, after consideration, the Commission hereby finds and declares that the said property is no longer needed, required or useful for highway purposes; and,

WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $13,522.50, and the Commission is desirous of selling and disposing of said property and the City of Coos Bay is willing to purchase same, at the abovementioned price.

NOW, THEREFORE, BE IT RESOLVED, that the State Highway Commission will sell the property to the City of Coos Bay for $13,522.50, by a bargain and sale deed. The consideration to be paid $1,000.00 upon delivery of the deed and the balance on July 10, 1953.

EXHIBIT "C-1"

Minutes of January 21 and 22, 1953

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway in Multnomah, Washington, and Clackamas Counties, and to make a complete and final survey of the Moro Underpass Section of the Sherman Highway in Sherman County, and in connection therewith, to prepare maps showing the route and location of each of said highway sections and to file said reports and records with the Commission for consideration; and,

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for the approval or disapproval of the Commission; and,

WHEREAS, after due consideration of said surveys, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1. That the route survey of the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway beginning at the intersection of Montgomery Street and Harbor Drive in the City of Portland, (Engineer's Station 00+00), and extending southerly therefrom a distance of 6.61 miles to Barbur Boulevard Junction, (Engineer's Station 349+22), together with the map, which for identification purposes bears map File No. 7B-16-3 and 7B-16-4 and the date of December, 1952, field notes, and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That the survey of the Moro Underpass Section of the Sherman Highway beginning at a point about two and one-half miles south of the town of Moro, (Engineer's Station 597+50), and extending in a southerly direction therefrom a distance of approximately one-half mile, (Engineer's Station 623+00), together with the map, which for identification purposes bears map File No. 7B-16-16 and the date of January, 1953, field notes, and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

3. That when said highway sections are permanently constructed the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

(cont.)

EXHIBIT "C-1" (cont.)

4. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of a highway along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

5. That the survey of the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and the Moro Underpass Section of the Sherman Highway have been made within the meaning and purpose of Chapter 226, Oregon Laws 1947, as amended, commonly known as the Throughway Law, and the construction of said state highway sections shall be accomplished pursuant to the provisions of said law.

6. That this resolution be entered in the minutes and records of the Commission as of the 21st day of January, 1953.

EXHIBIT "C-2"

Minutes of January 21 and 22, 1953

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Tualatin River-Middleton Section of the Pacific Highway West in Washington County and in connection therewith to prepare a map showing the route and location of said section of highway and file said report and record with the Commission for consideration; and,

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for the approval or disapproval of the Commission; and,

WHEREAS, after due consideration of said survey, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1. That the survey of the Tualatin River-Middleton Section of the Pacific Highway West, beginning at a point near the southerly bank of the Tualatin River (Engineer's Station Ln245+24) and extending in a southwesterly direction to a point near the Middleton School (Engineer's Station Ls490+69.29), together with the map, which for identification purposes, bears Map File No. 7b-15-19 and the date of December, 1952, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said section of said highway is permanently constructed, the same shall be done in accordance with said survey unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare a d make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

(cont.)

4. That this resolution be entered in the minutes and records of the Commission as of the 21st day of January, 1953.

EXHIBIT "D-2" (cont.)

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 21st day of January, 1953.

EXHIBIT "E"

Minutes of January 21 and 22, 1953

RESOLUTION

WHEREAS, by the enactment of Chapter 149, Oregon Laws 1949, it is provided as follows:

"Beginning with the year 1949 and annually thereafter there shall be and hereby is appropriated out of the state highway fund such sums of money as will equal 10 per cent of all moneys credited to the state highway fund by the state treasurer between January 1 and December 31 of each year and which have accrued from funds transferred to the state highway fund by the state treasurer under the provisions of section 115-135, O. C. L. A.; section 15, chapter 413 Oregon Laws 1945, as amended by section 4, chapter 114, Oregon Laws 1947; and section 29, chapter 467, Oregon Laws 1947; and from fines and penalties collected for violations of the motor vehicle and transportation laws. Such approproation shall be distributed among the several cities as provided in this act."

AND, WHEREAS, by said law it is further provided that:

"Such appropriation shall be allocated to the cities as follows: The sum of two hundred fifty thousand dollars ($250,000) shall be withdrawn from such appropriation each year and set up in a separate account to be administered by the state highway commission. Such account shall be spent each year by such commission upon streets not a part of the state highway system within cities which are receiving excessive wear through sudden increases in population in the area or heavy and unusual industrial traffic. Such commission shall determine the distribution of such expenditures after considering applications made to it therefor from the cities. The balance remaining in such appropriation after the withdrawal of said two hundred fifty thousand dollars ($250,000) shall be distributed to all of the cities. Each city shall receive such share of the balance as its population bears to the total population of the cities."

AND WHEREAS, by section 3 of said act it is provided that.

"Funds accrued and payable to cities under this act shall be remitted semiannually by the secretary of state to the financial officer of each city. The funds appropriated by this act shall be apportioned on a semiannual basis immediately following June 30 and December 31 of each year by the state highway commission who shall certify such apportionment to the secretary of state. Upon receipt of such certificate the secretary of state shall issue his warrants therefor payable to the cities in the amounts set out."

(cont.)

EXHIBIT "E" (cont.)

WHEREAS, the funds or moneys which have been by the State Treasurer credited to the state highway fund during the period of July 1 to December 31, inclusive, of the year 1952, and which have accrued from the sources named herein, produced the following amounts:

Funds resulting under the provisions of Section 115-135, O. C. L. A. as amended by Section 1, Chapter 239, Oregon Laws 1949 (motor vehicle license fees)	$ 4,209,643.11
Funds resulting under the provisions of Section 15, Chapter 413, Oregon Laws 1945, as amended by Section 4, Chapter 114, Oregon Laws 1947, and as amended by Section 3, Chapter 385, Oregon Laws 1949 (gasoline tax)	17,527,200.17
Funds resulting under the provisions of Section 29, Chapter 467, Oregon Laws 1947 (motor carrier fees)	3,797,105.55
Funds resulting from fines and penalties collected for violations of the motor vehicle and transportation laws	211,943.58
	$25,745,892.41

AND, WHEREAS, the statutory ten per cent of said total produces for allocation and distribution by the Highway Commission to the benefited cities and towns a total of $2,574,589.24, from which sum there is to be deducted one-half of the sum of $250,000, or $125,000, thus leaving for allocation and distribution for the period July 1 to December 31, 1952, the sum of $2,449,589.24, and

WHEREAS, by applying the factors of allocation or distribution provided for in said Chapter 149, Oregon Laws 1949, the State Highway Commission has determined upon an apportionment of said balance among the cities of the state as shown in the tabulation given below;

NOW, THEREFORE, be it and it hereby is resolved and ordered by this Commission as follows:

1. The Commission does hereby find, declare and order that the funds made available for allocation and distribution to the several cities of the State of Oregon pursuant to law, are hereby allocated and appropriated to the cities and/or towns named below in the amounts set opposite the names of the respective cities:

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of state highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

Contract No. 3439-A, with K. F. Jacobsen & Co., Inc., and J. M. Arenz, for grading and oil mat surfacing on the Drake Creek-Adel Section of the Warner Highway in Lake County, completed August 26, 1952.

Contract No. 3587, with Lindstrom Brothers, Inc., for constructing Dee Bridge over East Fork Hood River on county road at Dee in Hood River, completed December 23, 1952.

Contract No. 3659, with H. & R. Construction Co., for constructing Second Street Overcrossing in Hood River on the Columbia River Highway, Hood River County, completed December 15, 1952.

Contract No. 3717, with Schrader Construction, for constructing overcrossing on the Chenoweth Park Connection in Douglas County, completed January 10, 1953.

Contract No. 3755, with West Coast Steel Works, for reconstruction expansion plates of the Oregon Slough Bridge on the Pacific Highway in Multnomah County, completed December 26, 1952.

THEREFORE, BE IT RESOLVED that the work covered by said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "G"

Minutes of January 21 and 22, 1953

RESOLUTION

WHEREAS, the Oregon Coast Highway is one of the major state primary highways and is likewise a federal highway, which, throughout its entire length, carries a large volume of traffic; and,

WHEREAS, it appears that in the vicinity of Sea Lion Caves, approximately fifteen miles south of Yachats on the Oregon Coast Highway in Lane County, vehicles are parked on both sides of the highway for extended periods of time; and,

WHEREAS, parking of said vehicles on the shoulders of said highway tends to restrict and impair the use of the traveled portion of the highway to such extent that, in the opinion of the Highway Commission, a hazard is created not only to through traffic but to pedestrians and to the owners and drivers of said parked vehicles; and,

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the shoulders of either side of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendations by members of its staff, that the parking of vehicles along either shoulder of the Oregon Coast Highway between Engineer's Station 626+00, approximately 400 feet south of Sea Lion Caves' building, and Engineer's Station 633+00, approximately 200 feet north of Sea Lions Caves' building, creates a hazard not only to through traffic but to pedestrians and to persons owning and using said parked vehicles.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience, which, in the opinion of the Commission, should be provided pedestrians and the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on either side of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed

EXHIBIT "G" (cont.)

in plain letters the words, "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 21st day of January, 1953.

21224

EXHIBIT "H"

Minutes of January 21 and 22, 1953

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of sub section (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following:

Name of highway: Columbia River Highway

Highway number: 2 Route number: US 30

Location of Termini		Established Speed
Engineer's Station 1208+73.07 (East city limits of Hood River on new highway route)	to Engineer's Station 1496+58 (west end of Rock Creek Bridge at west limits of town of Mosier on new highway route)	35 miles per hour

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

(cont.)

EXHIBIT "H" (cont.)

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the Commission as of the 21st day of January, 1953.

21221

EXHIBIT "I"

Minutes of January 21 and 22, 1953

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Redwood Highway No. 25 known as the Hayes Hill Section in Josephine County, the western terminus of which is at Highway Engineer's Station 0+00 of the relocated line and the eastern teminus of which is at Highway Engineer's Station 97+22 of the relocated line; and

WHEREAS, by reason of the relocation of said section of said highway, a portion or unit of the right of way of the highway as formerly located has been eliminated from the boundaries of the new location, which eliminated section or unit will no longer be needed for highway purposes; and

WHEREAS, the contract for the construction of this relocated section of the Redwood Highway has been completed and highway traffic is now routed over said section; and

WHEREAS, Josephine County and the Highway Commission have heretofore entered into an agreement under date of January 21, 1953 relating to the use and jurisdiction of the said eliminated portion or unit; and

WHEREAS, pursuant to said agreement is was agreed that the jurisdiction and control of the said eliminated portion or unit would vest in Josephine County; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the section or unit of the right of way of said highway which is affected by reason of said relocation;

NOW. THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. That the portion of the old right of way, which by reason of the relocation of said highway is no longer within the boundaries of the new right of way, which for the purpose of this resolution is identified as "Unit A" and is shown colored in red on the map attached hereto, marked "Exhibit A" and by this reference made a part hereof, and is more particularly described as follows.

"Unit A"

Beginning at Engineer's Station 20+00 of the relocated Redwood Highway No. 25. which is in the northeast quarter of the southeast quarter of Section 24. Township 37 South, Range 8 West, W.M., thence easterly to Engineer's Station 78+75 in the northwest quarter of the Northeast quarter of Section 19, Township 37 South, Range 7 West, W.M.

(cont.)

EXHIBIT "I" (cont.)

is hereby abandoned as part of said highway, and the same hereby vests under the control and jurisdiction of the County for such public use as the County Court of Josephine County may determine.

2. The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and other highway purposes or uses. For such uses or purposes, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State. *

3. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such boundary monuments shall thereafter be maintained in place.

4. This resolution shall be entered in the minutes and records of the Commission on this 21st day of January, 1953, and the Secretary hereby is directed to mail to the County Court of Josephine County a duly certified copy thereof.

---

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 270, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of the minute entry to the same extent as if copied in full herein.

21222

EXHIBIT "J-1"

Minutes of January 21 and 22, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway, and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, the Commission by certain resolutions made and entered in its records on the 8th day of November, 1951, and on the 19th day of August, 1952, declared the necessity and need for the acquisition of two parcels of land lying in the North half ($N\frac{1}{2}$) of the Northeast quarter($NE\frac{1}{4}$); the Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$), and in Lot 3 of Section 20, Township 21, South, Range 4 West, W. M., Douglas County, Oregon, for right of way purposes for the relocation, construction, improvement and maintenance of the said Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway, and in connection therewith, the relocation and construction of the channel of a certain stream commonly known as Pass Creek so that the said highway could be properly constructed and maintained, and authorized acquisition of said parcels in the manner provided by law, and it now is the opinion of the Commission that the said parcels of land as described in said resolutions are inadequate for the purpose of relocating the said Pacific Highway, and it is, therefore, the opinion of the Commission that the said resolutions of November 8, 1951, and August 19, 1952, should be revised to conform with the present needs of the traveling public; and,

WHEREAS, for the purpose of establishing, constructing and maint-

(cont.)

taining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively as follows:

1. The Commission does hereby declare that the resolutions made and entered in its records of November 8, 1951, and August 19, 1952, declaring the necessity and need for the acquisition of two parcels of land lying in the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$); the Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$), and in Lot 3 of Section 20, Township 21 South, Range 4 West, W.M., Douglas County, Oregon, be and the same hereby are, amended by this resolution.

2. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the relocation, construction, improvement and maintenance of the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway as a throughway, the following described real property, to wit:

R-17992
Owner: C. R. Lawrence, et ux

Parcel No. 1:

A parcel of land lying in the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$); the Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$), and in Lot 3 of Section 20, Township 21 South, Range 4 West, W.M., Douglas County, Oregon, the said parcel being that portion of said North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$); the Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$), and Lot 3 included in a strip of land of variable width, lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 168+55.60, said Station being 257.36 feet North and 847.48 feet West of the Northeast corner of said Section 20; thence South 65° 19' West 612.14 feet; thence on a spiral curve left (the long chord of which bears South 64° 17' 45" West) 350 feet; thence on a 3274.05 foot radius curve left (the long chord of which bears South 50° 35' 30" West) 1332.86 feet; thence on a spiral curve left (the long chord of which bears South 36° 53' 15" West) 350 feet; thence South 35° 52' West 1199.40 feet to Station 207+00; said center line intersecting the North line of said North half ($N\frac{1}{2}$) of the

(cont.)

21230

EXHIBIT "J-1" (cont.)

Northeast quarter (NE¼) approximately at Station 173+50 and the West line of said Lot 3 approximately at Station 204+05. Excepting therefrom a parcel of land lying in the North half (N½) of the Northeast quarter (NE¼) of Section 20 as deeded to DeEava Gibson in Book 178, Page 123 of Douglas County Records of Deeds.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
169+00	176+00	136 feet	Variable to railroad right of way
176+00	178+17.74	136 feet on straight line to 180 feet	Variable to railroad right of way
178+17.74	180+00	180 feet	Variable to railroad right of way
180+00	183+50	180 feet on straight line to 275 feet	Variable to railroad right of way
183+50	187+50	275 feet on straight line to 140 feet	Variable to railroad right of way
187+50	188+50	140 feet on straight line to 75 feet	
188+50	193+50	75 feet	
193+50	197+00	150 feet taper to 225 feet	
197+00	200+00	225 feet	
200+00	206+00	225 feet taper to 150 feet	
206+00	Property line	150 feet	
187+50	195+00.60		Variable to railroad right of way
195+00.60	202+00		190 feet
202+00	205+50		150 feet
205+50	219+00		125 feet

The parcel of land to which this description applies contains 20.61 acres, of which 2.21 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 18.40 acres lie outside of the existing right of way.

3. The Commission does further find and declare that in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired a temporary easement across the owners' real property for construction purposes only during the period necessary for the relocation and construction of a channel of a certain stream known as Pass Creek

(cont.)

so that the said highway can be properly constructed and maintained. The real property over which this temporary construction easement is required is described as follows, to wit:

Parcel No. 2:

A parcel of land lying in Lot 3 of Section 20, Township 21 South, Range 4 West, W.M., Douglas County, Oregon, the said parcel being all that portion of said Lot 3 lying between the Southern Pacific Railroad right of way and a line which is parallel to and 190 feet Westerly of the relocated center line of the Pacific Highway, and bounded on the Northeasterly side by a line at right angles to said center line at Station 199+00, said Station being 118 feet South and 1782 feet East of the Northwest corner of Samuel Hall Donation Land Claim No. 37, Township 21 South, Range 4 West, W.M., and bounded on the Southwesterly side by said Donation Land Claim.

The parcel of land to which this description applies contains 0.31 acre.

4. That in addition to the acquisition of fee simple title to and a temporary construction easement across the above describe parcels of real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property and temporary easement hereinabove described; except that there shall be reserved unto the owners of the said remaining real property, their heirs and assigns, the following:

a. A right of access to a frontage road to be constructed by the State upon the above described real property and Westerly of the main relocated Pacific Highway, said frontage road to be connected to the main highway or other public ways only at such point or points as are designated by the State of Oregon.

b. A right of access to a frontage road to be constructed by the State upon the above described real property and Easterly of the main relocated Pacific Highway, said frontage road to be connected to the main highway or other public ways only at such point or points as are designated by the State of Oregon.

c. A right of access to that portion of the right of way of the relocated Pacific Highway hereinabove described as Parcel No. 1, for the following purposes only:

The owners, their heirs and assigns, shall have the right to use that portion of the channel change of that certain stream commonly

known as Pass Creek, where said channel change lies within the right of way of the said relocated Pacific Highway, which said right of way is hereinabove described as Parcel No. 1, for the purpose of storing and transporting logs, providing, however, that the owners', their heirs' and assigns', use of said channel does not interfere with the use of the property described as Parcel No. 1 herein for right of way purposes, and also providing that the approach road to, and the dumping of said logs into, the said channel change of the said Pass Creek by the owners, their heirs and assigns, shall be confined to the West bank of the said creek, and in the event that the owners, their heirs or assigns, shall dump their said logs or construct their said approach road from any side other than the West side of the said Pass Creek, then and in that event the right hereby reserved to the owners, their heirs and assigns, shall be automatically forfeited, and the State shall have the power to close and barricade any such approach road to said creek which lies within the said right of way hereinabove described as Parcel No. 1, and the right to enjoin the said owners, their heirs and assigns, from the further storing or transporting of said logs in said creek in said right of way.

5. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

6. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to and a temporary easement across the said parcels of real property.

7. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property and temporary easement, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property and temporary easement, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of said revised description.

8. That upon the trial of any suit or action instituted to acquire the said parcel of real property and temporary easement, or any interest therein,

EXHIBIT "J-1" (cont.)

the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

9. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 21st day of January, 1953.

EXHIBIT "J-2"

Minutes of January 21 and 22, 1953

RESOLUTION

WHEREAS, by virtue of laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway, and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, the Commission by certain resolutions made and entered in its records on the 8th day of November, 1951, and on the 19th day of August, 1952, declared the necessity and need for the acquisition of two parcels of land lying in the Samuel Hall Donation Land Claim No. 37, situated in Section 20, Township 21 South, Range 4 West, W.M., Douglas County, Oregon, for right of way purposes for the relocation, construction, improvement and maintenance of the said Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway, and in connection therewith, the relocation and construction of the channel of a certain stream commonly known as Pass Creek so that the said highway could be properly constructed and maintained, and authorized acquisition of said parcels in the manner provided by law, and it now is the opinion of the Commission that the said parcels of land as described in said resolutions are inadequate for the purpose of relocating the said Pacific Highway, and it is, therefore, the opinion of the Commission that the said resolutions of November 8, 1951, and August 19, 1952, should be revised to conform with the present needs of the traveling public; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be

(cont.)

saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively as follows:

1. The Commission does hereby declare that the resolutions made and entered in its records of November 8, 1951, and August 19, 1952, declaring the necessity and need for the acquisition of two parcels of land lying in the Samuel Hall Donation Land Claim No. 37, situated in Section 20, Township 21 South, Range 4 West, W.M., Douglas County, Oregon, be, and the same hereby are, amended by this resolution.

2. The Commission does hereby find and declare that there is needed and required for right of way purposes for the relocation, construction, improvement and maintenance of the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway as a throughway, the following described real property, to wit:

R-17993
Owner: I. R. Lawrence, et ux

Parcel No. 1:

A parcel of land lying in the Samuel Hall Donation Land Claim No. 37, also in Section 20, Township 21 South, Range 4 West, W.M., Douglas County, Oregon, the said parcel being that portion of said Donation Land Claim No. 37 lying in said Section 20 and included in a strip of land of variable width, lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 200+00, said Station being 199.09 feet South and 1723.57 feet East of the Northwest corner of said Donation Land Claim No. 37; thence South 35° 52' West, 3366.07 feet; thence on a spiral curve right (the long chord of which bears South 36° 04' 30" West) 250 feet to Station 236+16.07; said center line crosses the East and South lines of said Donation Land Claim No. 37 approximately at Stations 204+05 and 234+66 respectively.

The widths in feet of the strip of land above referred to are as follows:

21:23

EXHIBIT "J-2" (cont.)

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
200+00	205+50	125 feet	75 feet
205+50	219+00	125 feet	125 feet
219+00	233+66.07	125 feet	200 feet
233+66.07	235+00	125 feet on straight line to 180 feet	220 feet
235+00	236+00	180 feet	220 feet

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 19.8 acres.

3. The Commission does further find and declare that in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired a temporary easement across the owners' real property for construction purposes only during the period necessary for the relocation and construction of a channel of a certain stream known as Pass Creek so that the said highway can be properly constructed and maintained. The real property over which this temporary construction easement is required is described as follows, to wit:

Parcel No. 2:

A parcel of land lying in the Samuel Hall Donation Land Claim No. 37, also in Section 20, Township 21 South, Range 4 West, W.M., Douglas County, Oregon, the said parcel being described as follows:

Beginning at a point on the Westerly line of Parcel No. 1 above, opposite and 75 feet distant Westerly from Engineer's center line Station 205+50, said point being 600.86 feet South and 1340.54 feet East of the Northwest corner of said Donation Land Claim No. 37; thence North 54° 08' West, 75 feet to a point which is opposite and 150 feet distant Westerly of said Station 205+50; thence North 35° 52' East, 350 feet, parallel to and 150 feet distant from the center line of the relocated Pacific Highway, as described in Parcel No. 1 above; thence North 54° 08' West to the Easterly right of way line of the Southern Pacific Railroad; thence Northerly along said Easterly line to the North line of said Donation Land Claim No. 37; thence East along said North line to the Northeast corner of said Donation Land Claim No. 37; thence South along the East line of said Donation Land Claim No. 37 to the Westerly line of Parcel No. 1 above; thence South 35° 52' West along said Westerly line to the point of beginning, containing 1.0 acre, more or less.

(cont.)

EXHIBIT "J-2" (cont.)

4. That in addition to the acquisition of fee simple title to and a temporary construction easement across the above described parcels of real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property and temporary easement hereinabove described; except that there shall be reserved unto the owners of the said remaining real property, their heirs and assigns, the following:

a. A right of access to a frontage road to be constructed by the State on the West side of the relocated Pacific Highway, which said road will connect with the Easterly boundary of the owners' property opposite Highway Engineer's center line Station 201+48, said frontage road to be connected to the said relocated Pacific Highway or other public ways only at such point or points as are designated by the State of Oregon.

b. A right of access to a frontage road to be constructed by the State on the East side of the relocated Pacific Highway, which said road will connect with the Easterly boundary of the owners' property opposite Highway Engineer's center line Station 206+05, said frontage road to be connected to the said relocated Pacific Highway or other public ways only at such point or points as are designated by the State of Oregon.

c. A right of access to a frontage road to be constructed by the State on the East side of the relocated Pacific Highway, which said road will connect with the Southerly boundary of the owners' property approximately opposite Highway Engineer's center line Station 233+66, said frontage road to be connected to the said relocated Pacific Highway or other public ways only at such point or points as are designated by the State of Oregon.

5. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

6. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to and a temporary easement across the said parcels of real property.

EXHIBIT "J-2" (cont.)

7. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property and temporary easement, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property and temporary easement, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of said revised description.

8. That upon the trial of any suit or action instituted to acquire the said parcel of real property and temporary easement, or any interest therein, the Chief Counsel, or in his absence; any Assistant Attorney for the State Highway Commission is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

9. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 21st day of January, 1953.

EXHIBIT "J-3"

Minutes of January 21 and 22, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to, or any interest in, any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State, and is, in addition, a part of a federal highway system; and,

WHEREAS, the Highway Commission has approved and adopted a survey of a route as a state highway to be known as the Divide-Anlauf Section of the Pacific Highway and has ordered and declared that said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, the Commission by a resolution made and entered in its records on the 8th day of November, 1951, declared the necessity and need for the acquisition of two parcels of land lying in the South half ($S\frac{1}{2}$) of the South half ($S\frac{1}{2}$) of Section 10 and in the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 16, Township 21 South, Range 4 West, W.M., Douglas County, Oregon, containing 46.39 acres outside of the existing right of way, for right of way purposes for the purpose of establishing, relocating, constructing, improving and maintaining the said Divide-Anlauf Section of the Pacific Highway, and authorized acquisition of the said parcels in the manner provided by law, and it now is the opinion of the Commission that the said parcels of land as described in said resolution are inadequate for the purpose of relocating the said Pacific Highway, and that in addition to the said required right of way, it is necessary for the Commission to obtain two parcels of real property for state park purposes, and it is, therefore, the opinion of the Commission that the said resolution of November 8, 1951, should be revised to conform with the present needs of the traveling public; and,

(cont.)

21241

EXHIBIT "J-3" (cont.)

WHEREAS, for the purpose of establishing, relocating, constructing, improving and maintaining the said Pacific Highway as a throughway to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted and highway travel in general safeguarded, the real property hereinafter described as Parcel No. 1 is necessary and that access to and from said highway should be controlled; and,

WHEREAS, the State Highway Commission is further authorized and empowered to acquire by purchase, agreement or donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the State Highway Commission necessary for the preservation of scenic places and other objects of attraction or scenic value adjacent to or along, or in close proximity to, state highways, or which may be conveniently reached from or by a public highway, and the Highway Commission is also authorized and empowered to acquire land and ground necessary for the development and maintenance of parks, parking places, auto camps, camp sites, roadside development, recreational grounds, or resorts, forest or timbered areas, or other places of attraction and scenic value which, in the judgment of the Commission, are necessary for the convenience of the public and which will contribute to the general welfare and pleasure of the motoring public or road users; and,

WHEREAS, the State Highway Commission plans and proposes to develop and maintain said parks for recreational purposes and for the convenience of the public and general welfare and pleasure of the motoring public using the relocated Pacific Highway, and for such purposes and in connection therewith the real property hereinafter described as Parcels No. 2 and 3 is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby declare that the resolution made and entered in its records of November 8, 1951, declaring the necessity and need for the acquisition of two parcels of land lying in the South half ($S\frac{1}{2}$) of the South half ($S\frac{1}{2}$) of Section 10 and in the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 16, Township 21 South, Range 4 West, W.M., Douglas County, Oregon, be and the same hereby is amended by this resolution.

2. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the relocation, construction, improvement and maintenance of the Divide-Anlauf Section of the Pacific Highway as a throughway, the following described real property, to wit:

R-17691
R-19462
Owner: LeRoy Lumber Company, et al

(cont.)

EXHIBIT "J-3" (cont.)

Parcel No. 1:

A parcel of land lying in the South half ($S\frac{1}{2}$) of the South half ($S\frac{1}{2}$) of Section 10, and in the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 16, Township 21 South, Range 4 West, W.M., Douglas County, Oregon, the said parcel being that portion of said South half ($S\frac{1}{2}$) of the South half ($S\frac{1}{2}$) of Section 10, and the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 16 included in a strip of land of variable width, lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 18+04.30, said Station being 478.83 feet North and 978.89 feet East of the Southeast corner of said Section 10; thence on a 1909.86 foot radius curve right (the long chord of which bears South 88° 42' 30" West) 1389.44 feet; thence on a spiral curve right (the long chord of which bears North 65° 27' West) 500 feet; thence North 62° 57' West 2.50 feet; thence on a spiral curve left (the long chord of which bears North 66° 17' West) 400 feet; thence on a 1145.91 foot radius curve left (the long chord of which bears North 76° 59' 30" West) 161.67 feet; thence on a spiral curve left (the long chord of which bears North 87° 42' West) 400 feet; thence South 88° 58' West 1373.04 feet; thence on a spiral curve left (the long chord of which bears South 86° 18' West) 400 feet; thence on a 1432.40 foot radius curve left (the long chord of which bears South 74° 47' 45" West) 308.54 feet; thence on a spiral curve left (the long chord of which bears South 63° 17' 30" West) 400 feet; thence South 60° 37' 30" West 4.63 feet; thence on a spiral curve right (the long chord of which bears South 63° 07' 30" West) 500 feet; thence on a 1909.86 foot radius curve right (the long chord of which bears South 76° 26' 30" West) 554.44 feet; thence on a spiral curve right (the long chord of which bears South 89° 45' 30" West) 500 feet; thence North 87° 44' 30" West 285.83 feet; thence on a spiral curve left (the long chord of which bears South 88° 55' 30" West) 500 feet; thence on a 1432.40 foot radius curve left (the long chord of which bears South 70° 58' 15" West 564.38 feet; thence on a spiral curve left (the long chord of which bears South 53° 01' West) 500 feet; thence South 49° 41' West 1239.74 feet to Station 117+88.51; said center line intersecting the East line of said South half ($S\frac{1}{2}$) of the South half ($S\frac{1}{2}$) of Section 10 approximately at Station 27+92 and intersecting the West line of said North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 16 approximately at Station 112+75.

Excepting that part of said strip of land lying within a tract of land in the Southwest quarter ($SW\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 10 as deeded to Frank J. Medine in Volume 99, Page 374 of Douglas County Record of Deeds; and excepting that part of said strip lying within a tract of land in the Southwest quarter ($SW\frac{1}{4}$) of

EXHIBIT "J-3" (cont.)

the Southeast quarter (SE¼) of Section 10 as deeded to Pass Creek Development Company in Volume 189, Page 367 of Douglas County Record of Deeds.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Southerly Side of Center Line	Width on Northerly Side of Center Line
22+00	28+00	150 feet	Variable to railroad right of way
28+00	29+50	150 feet taper in straight line to 250 feet	Variable to railroad right of way

80+50	84+00	200 feet	Variable to railroad right of way
84+00	100+00	150 feet	Variable to railroad right of way
100+00	101+00	150 feet taper in straight line to 230 feet	Variable to railroad right of way

(cont.)

EXHIBIT "J-3" (cont.)

Station to Station		Width on Southerly Side of Center Line	Width on Northerly Side of Center Line
101+00	109+50	230 feet	Variable to railroad right of way
109+50	111+35	230 feet taper in straight line to 180 feet	Variable to railroad right of way
111+35	116+00	180 feet	Variable to railroad right of way

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 56.55 acres, of which 8.73 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 47.82 acres lie outside of the existing right of way.

3. The Commission does hereby further find and declare that there is needed and required for the establishment of public parks for recreational purposes two parcels of real property, hereinafter described as Parcels No. 2 and 3, located in Douglas County, Oregon, and described as follows, to wit:

Parcel No. 2:

A parcel of land lying in the South half ($S\frac{1}{2}$) of the South half of Section 10, Township 21 South, Range 4 West, W.M., Douglas County, Oregon, the said parcel being a strip of land of variable width, lying South of the right of way of the Pacific Highway as said highway has been relocated, the relocated center line of which is described as follows:

Beginning at Engineer's center line Station 42+57.91, said Station being 853.95 feet North and 1359.27 feet West of the Southeast corner of said Section 10; thence on a decreasing spiral curve left (the long chord of which bears North 87° 42' West) 400 feet; thence South 88° 58' West 1373.04 feet to Engineer's center line Station 60+30.95, said parcel of land being more particularly described as follows:

Beginning at a point on the Southerly right of way line of said relocated highway, said point being opposite and 300 feet Southerly of center line Station 43+00; thence Westerly on a straight line to the Southeast corner of a tract of land conveyed to the Pass Creek Development Company by deed recorded in Book 189, Page 367 of Douglas County Deed Records; thence along the South line of said tract to a point opposite center line Station 52+00; thence Southerly at right angles to said center line to a point opposite and 300 feet Southerly of said Station 52+00; thence Westerly and parallel to said center line to a point opposite Engineer's center line Station 56+30; thence Southerly

(cont.)

at right angles to said center line, 150 feet to a point opposite and 450 feet Southerly of said Station 56+30; thence Easterly and parallel to said center line to a point opposite Engineer's center line Station 46+57.91; thence Northeasterly on a straight line to the point of beginning.

The parcel of land to which this description applies contains 4.62 acres.

Parcel No. 3:

A parcel of land lying in the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 16, Township 21 South, Range 4 West, W.M., Douglas County, Oregon, the said parcel being a strip of land of variable width, lying South of the right of way of the Pacific Highway as said highway has been relocated, the relocated center line of which is described as follows:

Beginning at Engineer's center line Station 86+98.56, said Station being 148.9 feet North and 446.1 feet West of the Northeast corner of said Section 16; thence North 87° 44' 30" West 285.83 feet; thence on a spiral curve left (the long chord of which bears South 88° 55' 30" West) 500 feet; thence on a 1432.4 foot radius curve left (the long chord of which bears South 70° 58' 15" West) 564.38 feet; thence on a spiral curve left (the long chord of which bears South 53° 01' West) 500 feet to Engineer's center line Station 105+48.77, said parcel of land being more particularly described as follows:

Beginning at a point on the Southerly right of way line of said relocated highway which point is opposite and 150 feet Southerly of center line Station 89+84.39; thence Westerly and parallel to said relocated highway center line to a point opposite and 150 feet Southerly of center line Station 100+00; thence in a straight line to a point opposite and 230 feet Southerly of center line Station 101+00; thence Easterly in a straight line to a point opposite and 450 feet Southerly of center line Station 89+84.39; thence North 2° 15' 30" East 300 feet to the point of beginning.

The parcel of land to which this description applies contains 5.31 acres.

4. That in addition to the acquisition of fee simple title to the above described parcels of real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the relocated Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

EXHIBIT "J-3" (cont.)

a. A right of access to the relocated Pacific Highway of a width of 25 feet on the North side of the said relocated highway opposite Highway Engineer's center line Station 45+25 for private access only.

b. A right of access to the relocated Pacific Highway of a width of 25 feet on the South side of the said relocated highway opposite Highway Engineer's center line Station 56+75 for private access only.

c. A right of access to the relocated Pacific Highway of a width of 25 feet on the North side of the said relocated highway opposite Highway Engineer's center line Station 69+90 for private access only.

d. A right of access to the relocated Pacific Highway of a width of 25 feet on the South side of the said relocated highway opposite Highway Engineer's center line Station 94+00, for private access only, together with an easement 25 feet in width for roadway purposes on the most appropriate location across the real property hereinabove described as Parcel No. 3.

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of the said highway; said access from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access herein reserved to and from the aforesaid highway and the said easement for a roadway across the real property hereinabove described as Parcel No. 3, lying between the South boundary of the said relocated highway right of way and the South boundary of the said frontage road, shall cease, but the owners, their heirs and assigns, shall have access to the said frontage road at such places as will afford reasonable and safe connections. Said frontage road or roads shall be connected to other public ways only at such point or points as the State of Oregon may designate.

5. That the highway facility and the park and recreational facilities for which the aforesaid real property is required and is being taken have been planned, designed, located, and will be constructed, developed and maintained in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

21241

EXHIBIT "J-3" (cont.)

6. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcels of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcels of real property.

7. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of said revised description.

8. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

9. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 21st day of January, 1953.

EXHIBIT "J-4"

Minutes of January 21 and 22, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Portland-Salem Expressway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct, improve and maintain the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be established, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

EXHIBIT "J-4" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for the proper establishment, construction, improvement and maintenance of the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway, the following described real property, to wit:

R 19089
Owner: Dorothy M. Johnstone

A parcel of land lying in the Southport Addition, a subdivision lying in the Southwest quarter ($SW\frac{1}{4}$) of Section 15, Township 1 South, Range 1 East, W. M., Multnomah County, Oregon, the said parcel being Lots 3, 4, 5, 6, 7, 8, 9, 10, 13 and 14 of Block 13 of said Southport Addition, containing 1.024 acres, more or less.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and all of the contiguous real property of the owners remaining after the appropriation of the above described real property.

3. That the highway facility for which the said real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department for the Commission is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said real property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 21st day of January, 1953.

Portland, Oregon
February 17, 1953

The State Highway Commission met in regular session at 9:00 a.m. in the Tyrolean Room of the Benson Hotel. Present were:

Chas. H. Reynolds, Commissioner, Acting Chairman
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, First Assistant State Highway Engineer
W. W. Stiffler, Second Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Mr. Ben R. Chandler, Chairman of the Commission, was excused from attending this meeting.

Commissioner Reynolds, Acting Chairman, called the meeting to order and presided in the absence of the Chairman. Routine matters were disposed of as follows:

The Commission approved the minutes of the meetings held on November 24 and 25, 1952 and on January 6, 1953.

The Parks Superintendent reported on the following park matters:

1. Request of Charles H. Hickerson and Marjorie K. Broomfield of Prospect, Oregon, for permission to install a one-inch water pipe line across Evergreen Park on the Crater Lake Highway about 38 miles northeast of Medford: He advised that the area in which they wish to install the pipe, being in the southwest quarter ($SW\frac{1}{4}$) of the southwest quarter ($SW\frac{1}{4}$) of Section 17, Township 33 South, Range 2 East, is used very little by the public, and he recommended that a revocable permit be granted to the applicants for a period of 25 years. The Commission approved issuance of the permit as recommended.

2. Request of the Oregon State Board of Forestry and the Oregon Federation of Women's Clubs for permission to plant trees along the Wilson River Highway about two miles west of Jordan Creek, and to maintain signs calling public attention to the plantings; The Parks Superintendent said that the planting will be done by Tillamook County schools under the supervision of the Board of Forestry. He also mentioned the request of the Federation of Women's Clubs to replant an area on the Sunset Highway under the supervision of the State Department of Forestry, as a memorial forest to be dedicated to the Oregon Federation of Women's Clubs. The Federation of Women's Clubs, he added, also asked permission to erect suitable signs designating the reforested area and carrying the legend of its purpose. He recommended

that the Commission approve both requests as a matter of policy as there may be other similar requests at a later time. Concerning the signs to be installed, it was his recommendation that the signs be erected only under the control of the Commission with determination to be made by the Commission as to wording, location, etc. After some further discussion, the Commission approved the Parks Superintendent's recommendations with the understanding that the signs to be installed shall conform strictly with the statutes covering such matters.

3. Proposed extension of salvage logging agreement in the Van Duzer Forest Corridor on the Salmon River Highway: The Parks Superintendent stated that about a year ago an agreement had been entered into with Munson and Paterson of Sheridan for salvaging logs in this area, but due to dry weather conditions and the requirement that no logging be done during the dry season, they were unable to complete the agreement within the specified time, but it is now felt that the work can be completed by May 15, 1953. He recommended that the agreement be extended to that date. The Commission approved the recommendation.

4. Request of George Hurst, Timber, Oregon, for permission to truck-haul logs over an existing roadway across Sunset Highway Forest Wayside about two miles west of Sunset Camp: The Parks Superintendent advised that Mr. Hurst also desires permission to load his equipment on a small area about 150 feet from the highway right of way. Mr. Hurst's operations, he said, will not interfere with public use of the area or cause damage to the wayside. Accordingly, he recommended approval of the request. The Commission approved the recommendation.

5. Request of Carl McKissick, Waldport, for permission to place rock revetment at the north end of Big Creek State Park about three miles south of Waldport: The Parks Superintendent stated that Mr. McKissick owns a home between the Oregon Coast Highway and the ocean in what is known as the Wakonda Beach area adjoining Big Creek State Park; that during the past winter, wave action has been extremely damaging to Mr. McKissick's property, and he has spent considerable money placing broken stone on the ocean side for his protection. However, the ocean is cutting around to the south of his house and through state property to a considerable extent, and to forestall further damage, Mr. McKissick desires to place stone riprap on state park property to stop the wave action. He recommended that Mr. McKissick be granted a revocable permit of 25 years duration to do what he has in mind at his own expense. The Commission approved the recommendation.

The Right of Way Engineer presented for consideration options secured for acquisition of real property needed for various state highway improvements and for other purposes. As a result of careful consideration, the Commission approved closing the options at the prices mentioned therein. The attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission.

The Right of Way Engineer requested authority to negotiate for acquisition

of property needed for right of way on sections for which no previous authority had been granted as follows:

County and Section	Highway
DOUGLAS	
Hinsdale Slough-Luder Creek Grading and Paving	Umpqua
CLACKAMAS	
Molalla Junction to Marquam Quarry and Right of Way	Cascade
LANE	
Judkins Point-Goshen-Access Points Frontage Roads and Grade Separations	Pacific

In discussing this request, it was pointed out that the improvement contemplated on the Cascade Secondary Highway from Molalla Junction to Marquam provides for the elimination of some curves, and as a consequence the revised center line of the highway would not be the same as the old line. It was the Chief Counsel's thought, inasmuch as the improvement does not follow the old highway center line and involves realignment of the highway, that the Commission should approve the survey of this highway section by appropriate action, and he so recommended. In conformity with the recommendation, the Commission unanimously adopted the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission then approved the Right of Way Engineer's request to negotiate acquisition of real property for which no authority previously had been granted, by adoption of the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission confirmed sales of miscellaneous properties as reported by the Right of Way Engineer. (For a list of properties sold, see copy of the report prepared by C. W. Parker, Property Manager, dated February 17 and 18, 1953, on file in the Secretary's office under the heading "Miscellaneous Sales".)

The Right of Way Engineer reported on negotiations for acquisition of the Gallier property for a proposed state park at Bandon. He recalled that previous negotiations for this property had failed as the price requested was too high; however, within the last few months there had been indications that a more favorable price might be secured and following this lead, negotiations had been reopened. Appraisals were made, he stated, on property that would be needed, showing a value between $7,500 and $10,000. Miss Gallier, how-

ever, asks $18,000 or $19,000 for the property, which, he felt is exhorbitant. The Commission concurred in this viewpoint and ordered further negotiations for purchase of the property abandoned.

The Commission considered a report presented by the Right of Way Engineer on negotiations with the S. P. & S. Railroad Company for land needed as right of way on "Unit I" of the T. H. Banfield Expressway in Portland. He reported that as requested by the Chairman at the last meeting, contact was made with Mr. Carl Thomas, Chief Engineer for the Railroad, who advised that the company will not negotiate specifically until plans for the Expressway involving the railroad company property are completed. The railroad company, he stated, is concerned with the exact location of right of way structures as they affect the railroad and wish to know exactly where such structures will be located. The Engineer stated that plans are not complete and that it would be, he thought, about two months before they would be complete. In reply to an inquiry from Acting Chairman Reynolds as to when it is expected that the contracting of "Unit I" will be advertised, the Engineer stated that it is not contemplated to advertise the project for bids until 1956 or 1957. The Commission instructed the Engineer to expedite the preparation of plans and negotiations with the railroad company as much as possible.

The Commission considered a request from the Lloyd Corporation that the Commission consent to the vacation of a portion of Northeast 18th Street, Portland, north of the O. W. R. & N. Company's right of way on "Unit II" of the T. H. Banfield Expressway. The Right of Way Engineer advised that such street vacation will not affect the highway right of way, and he recommended approval of the request. The Commission approved the recommendation. (The Commission signed a "petition for vacation" later in the session.)

The Right of Way Engineer presented for the Commission's consideration a proposed "Modification of an Industrial Lease" with the Westfall Engineering Company concerning the use of State Highway property near the intersection of 133d Street and T. H. Banfield Expressway east of Portland. He stated that the modification is necessary because part of the land included in the original lease is needed in connection with highway construction now under way; also, that the arrangement involves no change in the consideration to be paid by the company for use of the balance of the State's property, but is simply an adjustment in area. He recommended approval of the modification. The Commission adopted the recommendation. (A form of "Modification of Industrial Lease" was signed by the Commission later in the day.)

The Right of Way Engineer requested approval of an extension of an existing stockpile site lease with Evelyn J. and Cyril A. Van Dyke on the Nehalem Secondary Highway in Washington County. He advised that the present lease expired on June 6, 1952 and it is desired to extend it for three years, until June 7, 1955, at an annual rental of $25. The Commission approved the request. (A "Renewal of Lease" form was signed by the Commission later in the day.)

The Commission considered the matter of leasing to Wheel and Rim Service, Inc., Eugene, 1,500 square feet of state-owned property situate between 6th Street and 7th Street in the western part of Eugene. The Right of Way Engineer stated that

the granting of the lease will not adversely affect the State's interests. He recommended that the property be leased to the company for a period of four years, with a six-months' cancellation clause, for a consideration of $350 per year. The Commission approved the recommendation. (The lease was signed by the Commission later in the day.)

The Commission discussed a request from Kathryn Moore, Wolf Creek, Oregon, for a change in access from her property to the Pacific Highway at Wolf Creek, in Josephine County. The Right of Way Engineer recalled that this matter is of long standing, that Mrs. Moore heretofore has demanded additional access to the highway which was refused, but her present request is simply that her existing access point be moved about 200 feet. He recommended that her request be granted, provided she pays all of the costs involved. The Commission approved the recommendation as presented with the added stipulation that Mrs. Moore is to be allowed only one access point to the highway from her property. (An "Indenture of Access" agreement with Kathryn Moore was signed by the Commission later in the session with the understanding that Mrs. Moore's copy thereof shall not be delivered to her until she has advanced payment of the estimated cost of the contemplated work.)

The Commission considered and on recommendation of the Right of Way Engineer approved sale of an old gravel pit near the south city limits of Elgin, in Union County, to the Pacific Power and Light Company for the sum of $200. The Right of Way Engineer stated that the property is not needed by the Highway Department. (A deed conveying the property to the company was signed by the Commission later in the session.)

The Commission considered sale of 5.32 acres of land to Alfred Hoffmeister adjacent to the Chenoweth Park-Deady Section of the Pacific Highway in Douglas County. The Right of Way Engineer stated that the property is of no value for highway purposes, and he recommended that it be sold to Mr. Hoffmeister for $420, without access to the highway. The Commission approved the recommendation. (The Commission later in the day signed the deed.)

The Commission also considered the sale to R. E. Folsom of the west half of Lot 10, Block 7, Elliott's Addition to Coquille, adjacent to the Oregon Coast Highway in Coos County. The Engineer stated that the property is not needed for highway purposes, and he recommended that it be sold to Mr. Folsom for the sum of $200, with complete restriction of access to the highway. The Commission approved the recommendation. (The Commission signed the deed later in the session.)

The Chief Counsel presented for the Commission's consideration an option obtained from Stephen J. Spoerl of Port Orford, Oregon for land that is needed as right of way and as a quarry site on the Brush Creek-Rhinehart Creek Section of the Oregon Coast Highway, about 12 miles south of Port Orford in Curry County. He said that the option, which was obtained before the property was appraised, provides payment of $10,850 to Mr. Spoerl, whereas subsequent appraisals reveal the property has a value of

approximately $6,400. He also said that in addition Mr. Spoerl wants a ten-year grazing privilege on adjacent state land. He recommended rejection of the option and that authority be granted the Chief Counsel to condemn the property with an offer of $6,400 in connection therewith. The Commission approved the recommendation unanimously.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties needed as right of way in connection with various highway improvements, or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Noble Slough-Foster Section of the Santiam Highway

	Recommended Offer
R 19775 - Oregon Electric Railway Co. Right of Way (Linn) 2.305 acres	*
R 19784 - Fannie Jensen, Nettie B. Lucas, and Lucille D. Alderman Right of Way (Linn) 0.154 acre	*
R 19788 - Alwin H. Blankinship Right of Way (Linn) 0.034 acre	*
R 19776 - J. F. McGlothern Right of Way (Linn) 0.96 acre	*
R 19780 - A. L. Weddle Right of Way (Linn) 0.044 acre	*
R 19793 - Clare A. Fickert Right of Way (Linn) 0.138 acre	*
R 19762 - Henry Blankinship Materials and Storage Site (Linn) 6.13 acres	*
R 19763 - Samuel W. Tyler Materials and Storage Site (Linn) 2.02 acres	*

Hayesville School-State Street Unit of the Salem By-Pass Section of the Pacific Highway East

R 19933 -	Leonard F. Wilson Right of Way (Douglas) 2.19 acres	*

The Commission unanimously approved the request by adoption of the attached resolutions relative thereto marked EXHIBITS "N-1" through "N-6" inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered and approved a written report from the Chief Counsel on the trial of State vs Louisa Micek. This case involves acquisition of land on the West Portland-Hubbard Highway for which the State had offered to pay $7,150.00. Louisa Micek had demanded $21,930.00 plus $500 for attorney's fees. The jury returned a verdict in the amount of $7,700.00 plus $400 attorney's fees. (For details, see copy of Chief Counsel's report in General Files.)

The Commission also considered and approved a written report from the Chief Counsel concerning settlement of the following cases:

1. State vs Arthur O. Sasaki, et al, L 1823: Concerns acquisition of 15.02 acres of land needed as right of way for the Boones Ferry Road-Willamette River Unit of the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway in Washington County. Amount of settlement $25,500.00.

2. State vs Dan H. Adams, et al, L 1917: Acquisition of 186 square feet of land needed as right of way for the Medford-County Farm Section of the Pacific Highway, including access control, in Jackson County. Amount of settlement $200.00.

3. State vs A. H. Dudley, et ux, L 1916: Acquisition of 1332 square feet of land and access control on the Medford-County Farm Section of the Pacific Highway in Jackson County. Amount of settlement $2,200.00.

4. State vs Wilbur F. Badley, et ux, L 1485: Acquisition of land needed as right of way for the Depoe Bay-Miner Creek Section on the Oregon Coast Highway in Lincoln County. Amount of settlement, $22,500.00.

5. State vs Elton L. Grass, et al, L 1913: Acquisition of land needed as right of way for the Anlauf-Elk Creek Unit of the Anlauf-Rice Hill Section of the Pacific Highway in Douglas County. Amount of settlement $15,000.00.

6. State vs Sylvester B. Hall, et ux, L 1753: Acquisition of land needed as right of way for the T. H. Banfield Expressway in Portland. Amount of settlement $8,525.00.

7. State vs Francis Vasche property, R 19416: Acquisition of land for right of way on the Deady-Winchester Unit of the Deady-Shady Section of the Pacific Highway in Douglas County. Amount of settlement $10,000.00.

(For details, see copy of the Chief Counsel's report in the General Files.)

The Commission considered and confirmed offers reported by the Chief Counsel for acquisition of real property needed for various highway purposes, which offers were tendered to the owners prior to the commencement of condemnation proceedings in conformity with authority granted him by the Commission in its resolution adopted December 20, 1951:

Elkhead Road-Rice Hill Section of the Pacific Highway

R 19469 - Owner: Verna Baxter, et al. 9.7 acres for right of way and 3.7 acres for excess taking. Offer of $13,115.00 approved by Commissioner Reynolds on February 2, 1953.

R 18667 - Owner: Earl Brant, et ux. 17.48 acres for right of way. Offer of $18,326.00 approved by Commissioner Reynolds on February 2, 1953.

R 19465 - Owner: E. M. Housley, et al. 7.54 acres for right of way. Offer of $7,508.00 approved by Commissioner Reynolds on February 2, 1953.

R 19480 - Owner: Reuben J. Johnson, et al. 7.6 acres for right of way and 6.28 acres for excess taking. Offer of $3,717.00 approved by Commissioner Reynolds on February 4, 1953.

R 19471 - Owner: Leslie O. Chapman, et al. 4.28 acres for right of way. Offer of $1,830.00 approved by Chairman Chandler on February 5, 1953.

R 19467 - Owner: Harold Turpin, et ux. 25.57 acres for right of way. Offer of $7,500.00 approved by Commissioner Reynolds on February 4, 1953.

R 19484 - Owner: Darrell Ross, et al. 5.62 acres for right of way, and 31.2 acres for excess taking. Offer of $7,356.00 approved by Chairman Chandler on February 5, 1953.

R 19488 - Owner: Arthur O. Anderson, et al. 6.36 acres for right of way. Offer of $2,825.00 approved by Chairman Chandler on February 5, 1953.

Divide-Anlauf Section of the Pacific Highway

L 1815 - LeRoy Lumber Company. 47.82 acres for right of way and 9.93 acres for park purposes. Offer of $11,000.00 approved by Commissioner McIver on January 20, 1953.

Deady-Winchester Section of the Pacific Highway

R 19416 - Owner: Francis A. Vasche, et ux. 0.16 acre for right of way and 0.18 acre for excess taking. Offer of $9,862.00 approved by Commissioner Reynolds on January 26, 1953.

R 18989 - Owner: John M. Fleck, et al. 6.67 acres for right of way. Offer of $4,500.00 approved by Commissioner Reynolds on January 26, 1953.

State Street South Unit of the Salem By-Pass Section of the Pacific Highway

R 19753 - Owner: James M. Baker, et ux. 30.183 acres for quarry site. Offer of $8,625.00 approved by Commissioner Reynolds on February 2, 1953.

Arlington-Heppner Junction Section of the Columbia River Highway

R 19506 - Owner: Ralph F. Phillips, et al. 9,650 square feet for right of way. Offer of $8,608.00 approved by Commissioner Reynolds on February 2, 1953.

Brush Creek-Rhinehart Creek Section of the Oregon Coast Highway

R 3256B - Owner: Mrs. Vera H. Redenbaugh, et al. 27.2 acres for right of way. Offer of $6,300.00 approved by Commissioner McIver on February 9, 1953.

R 3257 - Owner: Nellie Fromm, et al. 11.865 acres for right of way. Offer of $7,500.00 approved by Commissioner McIver on February 9, 1953.

The Commission considered a proposed settlement with Glenn R. and Letha Edenfield for damage to their property caused by a slide on the Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County. The Chief Counsel reported that the Edenfield property, including the home, had been engulfed by a mud slide on January 16, 1953. The slide came from a new fill built by the State's contractor, which had become saturated by heavy rains. The Edenfields, he said, had been cooperative and reasonable in arranging a settlement of their case and had furnished an inventory of their property. Damage to the land and building had been appraised at $7,850.00 and damage to personal property and rent for temporary accommodations had been determined at $4,850.00 or a total of $12,700.00. He advised that settlement with the Edenfields has been made for such amount pursuant to telephone approval given by Chairman Chandler and Commissioner Reynolds on February 2, 1953 and a "Covenant not to sue" has been signed by the Edenfields which provides among other things that they relinquish all rights and interest in the real and personal property involved, and agree not to sue the State for any damages whatsoever arising out of this incident. He recommended confirmation of the settlement for the record. The Commission approved the settlement unanimously.

In connection with this matter, the Chief Counsel requested authority to start suit against the contractor who had built the fill that engulfed the Edenfield property, provided that it could be determined that the contractor is liable due to negligence, or otherwise. The contractor's surety, he added, has denied all liability, and at this time, he could not recommend any specific action pending determination of the legal aspects in the matter. After some further discussion, the Commission directed the Engineer and the Chief Counsel to investigate the matter thoroughly and present a joint report to the Commission at its next meeting, when a definite decision will be reached whether or not to bring action against the contractor and his surety.

The Chief Counsel requested authority to take action against Francis G. Murray to recover treble damages amounting to $600 for four trees cut and removed from the right of way of the Pacific Highway East, opposite 17720 S. E. McLoughlin Boulevard in Clackamas County. The trees, he stated had a value of $200 and were illegally removed by Mr. Murray, and under the law treble value for wrongful cutting and removal of trees may be claimed. The Commission approved the prosecution of Mr. Murray.

The Chief Counsel requested authority to prosecute a specific performance suit against Wilbur E. and Ilah Reed concerning right of way needed for the Medford-County Farm Section of the Pacific Highway in Jackson County. He explained that the Reeds signed an option to sell the property to the State but later refused to sign

the deed. The Commission approved the request.

The Chief Counsel presented an option previously taken from Fred R. Baxter, Verna Baxter, Mamie Lake, Charles E. Nelson, and Birdie Nelson covering acquisition of 9.7 acres of land required as right of way for the Elkhead Road-Rice Hill Section of the Pacific Highway in Douglas County. He explained that an early appraisal had shown a value on the property at $17,200, and on the basis of that appraisal an option was secured for $18,000. Later appraisals, however, showed that the property had a value between $12,500 and $13,400. He asked the Commission to reject the $18,000 option and to authorize an offer of $13,400 in condemnation. The Commission approved the request.

The Chief Counsel reported that Mr. Ernest Lundeen, previously employed in the Legal Department, has returned from service in Korea and is available for re-employment. He requested authority to re-hire him at $400 per month. He also requested authority to employ one more trial lawyer to replace Mr. Fred Miller, resigned. He recommended transfer of Mr. Robert May to that position and employment of a Mr. Earl Preston, a new man, to take over the work previously performed by Mr. May, at a salary of $400 per month. The Commission approved employment of both men at the salaries stated.

The Commission considered a report from the Engineer on a request from the community of Lakeside, Coos County, for new access to the Oregon Coast Highway aproximately 3/4 mile north of the community's existing connection. The Engineer advised that investigation discloses that in the first instance, the County has no intention whatsoever of constructing a new county road; in fact, the county has abandoned a portion of the old dedicated county road to make way for an airport. The requested access, he stated, does not appear to be of any benefit to anyone except a few local property owners who have investments near the airport. In view of these facts, he recommended that the request for access be denied. The Commission approved the recommendation.

The Engineer reported on the request of a delegation from Arlington that (1) provision be made in construction of the new highway at this place (US 30) to safeguard and to facilitate traffic that enters this highway from the main street of their town, route of the John Day Highway, particularly wheat hauling trucks that have to cross the highway enroute to the railroad yards; and (2) that the existing highway easterly from Arlington, a distance of approximately one-half mile, be maintained by the State as a connection between the old and new highways for one-way traffic eastbound only. He recommended the following as a result of a study of the situation:

1. That a traffic control signal be installed at the main street intersection when it is warranted, provided the City will pay one-half the cost of the installation and will bear the expense of its maintenance

2. That the old highway, for a distance of about one-half mile easterly from Arlington, be retained on the State highway system for eastbound

traffic only and that a connection between the old and new highways one-half mile east of Arlington be constructed for use by such eastbound traffic. He estimated the cost to construct such new connection at not over $3,000. The cost to maintain the old highway, he said, will be nominal.

The Commission approved both recommendations.

The Commission considered the Engineer's report on a request from residents of Gleneden Beach on the Oregon Coast Highway in Lincoln County for improvement of the present highway through Gleneden rather than construction of the proposed route that will be-pass this community. The Engineer recalled that the by-pass survey was adopted by a former highway commission in 1936 and has been approved by each highway commission since that time. The cost to improve the existing highway, he said, is estimated at $263,150, and no provision has been made to control access on such route; whereas the cost to construct the by-pass location is estimated at $140,000; moreover, $12,000 has already been spent for right of way on such route. He pointed out that the plans call for the existing highway to be a frontage road which will have a connection with the new highway at either end by channelized intersection. Experience in other states for communities such as Gleneden Beach, he said, indicates a decided benefit to the community by virtue of the frontage road and the subsequent elimination of fast traffic from the town and at the same time providing easy access. He recommended retention of the proposed by-pass route. The Commission approved the recommendation unanimously.

The Engineer requested confirmation of his action with respect to investment of State Highway funds through the offices of the State Treasurer. He stated that as explained in previous conversations with the Commission, he had requested the State Treasurer to invest $12,000,000 of Highway Bond money in U. S. Treasury Certificates running from February 15, 1953, to February 15, 1954, and bearing interest at the rate of $2\frac{1}{4}$ percent. He said that Mr. Fred Paulus, Deputy State Treasurer, considers the investment at $2\frac{1}{4}$ percent to be very advantageous, and he estimates that the return on such an investment will be at least $30,000 greater than the return from shorter term loans. The Commission confirmed his action.

The Commission confirmed the Engineer's action in re-classifying a section of the Richardson-Eugene Secondary Highway extending from Eugene westerly 13 miles to a place known as Veneta, from the status of a Group II Highway to the status of a Group I Highway.

The Commission approved a report from the Engineer advising that the conditions governing the awards of the following state highway contracts for which bids were received by the Commission on January 21 and 22, 1953 have been satisfied and that contract forms have been sent to the respective contractors for execution:

"Grading, surfacing, and oil mat construction on the Middle Unit, Princeton-Follyfarm Section of the Rome-Princeton Highway in Harney County. Bids received January 21, 1953. Conditions of award satisfied February 10, 1953. Diamond Tractor & Equipment Company, contractor.

"Grading and paving the Rowena-Chenoweth Creek Unit of the Columbia River Highway in Wasco County. Bids received January 21, 1953. Conditions of award satisfied February 5, 1953. Vernie Jarl, contractor.

"Construction of three reinforced concrete viaducts on the Rowena-Chenoweth Creek Unit of the Columbia River Highway in Wasco County. Bids received January 21, 1953. Conditions of award satisfied February 5, 1953. Johnson & Amens, contractor.

"Furnishing of crushed rock or crushed gravel for the Foster-Toll Creek Rock Production Project on the Santiam Highway in Linn County. Bids received January 22, 1953. Conditions of award satisfied February 3, 1953. Homer G. Johnson, contractor.

Consideration was given by the Commission to request from the Cloverdale Farm Bureau, Creswell, Oregon, for oiling a 6.3-mile section of the Springfield-Creswell Secondary Highway between Willamette Highway Junction and the bridge over the Coast Fork of the Willamette River near Creswell. The Engineer advised that provision has been made to oil this highway in 1954 between Jasper and the Willamette Highway Junction, but noprovision has been made for improvement of the section south of Willamette Highway Junction. He pointed out that there are several right angle turns which would require some new grading and the existing roadbed should be stabilized with at least eight inches of base rock before oiling, which work he estimated would cost about $200,000. The average daily traffic over the highway, he said, has reached a point justifying the application of an oiled surface; however, all of the money for this area has been allocated. He recommended that the project be given consideration when future funds are available, particularly after critical sections of the Territorial Highway have been improved. The Commission approved the recommendation.

The Commission also discussed a request from the Department of State Police that the State Highway Department construct a two-room building for its use in the City of Tillamook. The Engineer advised that the State Police who have been renting office space in the Tillamook County Courthouse have been requested to vacate within six months' time and, being unable to find suitable quarters in Tillamook, have appealed to the Highway Commission to construct a building for their use, the cost of which is estimated at $7,500, plus approximately $2,250 for a building site. To amortize the cost, the Police, he stated, have agreed to pay $100 per month rental. He recommended approval of the request and construction of the building within the current budget, the same to be financed by transferring funds from the Austin building project. He also recommended that the Right of Way Department be authorized to negotiate a suitable building site. Both recommendations were approved by the Commission.

The Engineer presented a request from the City of Portland for permission to improve the pedestrian underpass beneath Burnside Street at its intersection with Third Avenue West. He explained that the underpass has been closed for many years due to inadequate lights, improper stairways, and other features that made it undesirable for pedestrian use; however, the pedestrian

problem has become so critical at this location that it now appears desirable to make the improvements and to open the underpass for pedestrian traffic. The City of Portland, he said, has requested authority to perform the work which is estimated to cost $1,600, the cost to be shared equally by the State and the City by reason of the fact that Burnside Street is the state highway route (US 30). He recommended that the Commission join with the City in this undertaking on the basis stated, the cost to be charged to the 1953 Minor Betterment Account. The Commission approved the recommendation.

A letter was considered by the Commission from the Morgan Truck Service, Inc., of John Day urging completion of the Wasco-Heppner Secondary Highway. The Engineer advised that a considerable amount of money has been expended on this highway in the last three years, and the road is now improved to the extent that it is an all-year facility although not oiled throughout. He further stated that the westerly end of the road has not had any improvement since it was taken over from the County. He gave as his feeling that it would be desirable to improve this section when future funds become available and when more pressing projects in the area are completed. He so recommended. The Commission approved the recommendation.

The Commission considered and upon recommendation of the Engineer approved a request from Multnomah County for improvement of two county road sections in the Federal Aid Secondary Highway Program to take up the $186,000 of 1954 funds heretofore allocated to the county, both sections being parts of Sauvies Island County Road.

The Commission considered a petition from residents of the village of Otter Rock on the Oregon Coast Highway in Lincoln County, requesting a direct connection from Otter Rock to the new location of the Oregon Coast Highway. The Engineer advised that to build such a connection would require construction of 1,200 feet of highway on a steep grade. He pointed out that the plans for the new highway improvement provide for use of the old highway as an entrance to Otter Rock and that connections between the two will be provided at each end. The old highway section, he said, is only 1,800 feet long and is on an almost level grade to a connection with the new highway so people desiring to take the bus on the new highway will be required to walk only an additional 600 feet to reach it. He also pointed out that in the construction of a modern highway such as the Oregon Coast Highway, access control must be a major factor, and that such access control is well established at Otter Rock by the use of the existing highway as a frontage road. He recommended that the request be denied. The Commission approved the recommendation.

A letter was presented from Mr. David Van Zandt, Springfield, in which Mr. Van Zandt urged that some action be taken by the Commission to alleviate traffic congestion between Springfield and Springfield Junction, south of Eugene. The Engineer advised that this matter has been investigated by the Traffic Engineer who reports that during 1951 and the first 10 months of 1952, 20 accidents occurred between the signalized portion of Springfield Junction and the west end of the Springfield Bridge, and that of these 20 accidents, 17 were sideswipes, one was rear-end collision, and two involved turning movements. The average daily traffic over the Willamette River Bridge in 1951, he said, was 17,600 vehicles. He attributed the

primary cause of the accidents at this location to the fact that traffic from Eugene to Springfield is required to merge from two traffic lanes to one in the short distance between the junction signal and the end of the bridge. He added that the overall study indicates the need for a second bridge across the Willamette at this point, which structure is included in the five-year program for the year 1957. He recommended, in order to eliminate the existing hazards, the installation of raised asphaltic markers and the erection of appropriate signs, which he estimated will cost about $1,500. The Commission approved the recommendation.

The Engineer requested authority for the expenditure of approximately $6,100 for installation of luminaire units and to channelize traffic at the intersection of the Barlow-Monitor County Road with the Pacific Highway East, at Barlow (M. P. 24.6) a short distance south of Canby in Clackamas County. He advised that average daily traffic through this intersection is approximately 8,200 vehicles and that a very material hazard exists by reason of left-turn movements from the Pacific Highway to the county road; further, that of 45 accidents that occurred at the intersection between January 1, 1946 and July 31, 1952, 26 involved vehicles making a left-turn off the Pacific Highway East. He recommended installation of the luminaire units and the channelization project as a traffic safety measure. The Commission approved the recommendation.

A request from the City of Medford for installation of pedestrian wait-walk signals at the intersection of 12th Street and Central Avenue (US 99 southbound) and at 12th Street and Riverside Avenue (US 99 northbound) was considered by the Commission. The Engineer advised that these intersections are now signalized under a cooperative agreement with the City but the original installations did not include wait-walk indications for pedestrians as it appeared at the time that the pedestrian volume did not warrant them. However, since then there has been considerable complaint because the wait-walk indicators were not provided, and the City wants them installed immediately. He recommended approval of the request on the condition that the City will pay 50 percent of the costs involved, which he estimated at about $1,000. The Commission approved the recommendation.

The Commission considered a request from the City of Central Point for installation of a traffic signal at the intersection of Front Street (US 99) and Pine Street (main business street) in Central Point. The Engineer advised that this is a four-way cross type intersection and currently has a beacon flashing amber on the highway and red on Pine Street; also, that the indicated speed on the highway through the section is 25 miles per hour and that the intersection referred to is a school crossing; also, that parking has been prohibited along the highway in the vicinity of the intersection. A traffic count taken on January 12, 1953, he added, revealed a volume of vehicular and pedestrian traffic which warrant the installation of a traffic actuated signal. He recommended installation of such a signal provided the City will pay 50 percent of the costs involved, estimated at $3,500, will maintain the signal and will furnish necessary energy to operate it. The Commission approved the recommendation.

Consideration was given by the Commission to the following requests for extensions of time within which to complete certain highway contracts:

1. Tom Lillebo, Contract No. 3591 for bridge construction on the Bay City-Tillamook Section of the Oregon Coast Highway in Tillamook County, requested an additional extension of time of 234 days, from January 10, 1953 to August 31, 1953, within which to complete this job. He stated that construction of a 6' x 6' box culvert could not be completed until grading work is done. The Engineer advised that work on the structures under the original contract is now practically complete, and that the contractor had been directed to postpone finishing work until the weather is suitable; also, that the box culvert had been added to the project and cannot be constructed until some of the grading is done next summer. Because of these circumstances, he recommended that the additional extension of time be granted as requested without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

2. Lockyear and White, Inc., Contract No. 3636 for construction of the Shogren Overcrossing on the Columbia River Highway in Wasco County, requested an additional extension of time of 30 days, from December 1 to December 30, 1952, within which to complete this job. The contractor stated that he had been prevented from completing the work within the previously extended time due to freezing weather in late November and early December, 1952, which delayed completion of concrete finishing work. The Engineer advised that the structure was completed within the limits of the previously extended time except for some surface finish work and removal of falsework which work was held up by freezing weather in late November and early December; however, all work was completed by December 30, 1952. He also said that only a negligible amount of extra engineering expense was incurred by the state. In view of these facts, he recommended that the additional extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

3. Trowbridge and Flynn Electric Company, Contract No. 3775 for installation of traffic signals on the Medford-Ashland Section of the Pacific Highway in Jackson County, requested an extension of time of 90 days, from December 31, 1952, to and including March 31, 1953, within which to complete this contract. The contractor stated that the extension of time is necessary in order to obtain parts from the manufacturer to make adjustments ordered by the Engineer. The Engineer advised that the installation was completed on December 19, 1952, but final inspection disclosed that manufacturers of some of the equipment incorporated in the work had not complied in all respects to the specifications, and that certain parts had to be replaced, although in the meantime, the signals were in use. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

4. N. A. Toole Construction Company, Contract No. 3661 for rock production on the Alkali Lake Section of the Lakeview-Burns Highway in Lake County, requested an extension of time of 182 days, from September 30, 1952, to March 31, 1953, within which to complete this work. The contractor alleged that he was unable to complete the job within the specified time limit

because he had been required to crush materials for the Evans Corner job near Ontario before moving to other projects on which he was the principal contractor. He also alleged difficulty in screening some of the fine materials because of dampness. The Engineer advised that during the past season the number of contractors available to produce crushed rock had been at a minimum, and that he asked the contractor to complete the Evans Corner project before starting the one at Alkali Lake because material produced under this contract would not be needed until the 1953 season. As there was no inconvenience to the public nor extra expense to the State because of the delay, he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

5. N. A. Toole Construction Company, Contract No. 3642 for rock production on the Unity Junction-Mill Gulch Section of the Baker-Unity Highway in Baker County, requested an additional extension of time of 22 days, from November 30 to December 22, 1952, within which to complete this job. He stated that in order to take advantage of good weather, he moved his crushing plant to the Alkali Lake project instead of shaping stockpiles on this job and had finished the shaping after moving the plant. The Engineer advised that the contractor had completed all crushing on this project by November 30, but in order to take advantage of good weather, he deferred finishing and shaping stockpiles until he had transferred his equipment to another contract. He further stated that the public has not been inconvenienced nor has the State incurred extra expense for engineering by reason of the delay, and he recommended that the additional extension of time as requested be granted without penalty. The Commission approved the recommendation.

6. Newport Construction Company, Contract No. 3646 for rock production on the Pendleton section on four state highways in Umatilla County, requested an additional extension of time of 36 days, from November 30, 1952, to January 5, 1953, within which to complete this contract. They alleged that they had been unable to complete the job within the previously extended time because they had crushed additional rock to assist another contractor in completing his contract (No. 3645). The Engineer advised that the contractor's plant was engaged on two Federal Aid projects which the U. S. Department requested be completed before he started crushing on this job. The State, he said, has not incurred any additional expense in view of which he recommended that the additional extension of time as requested be granted without penalty. The Commission approved the recommendation.

The Engineer reported that contracts Nos. 3250, 3397, 3624, 3631, 3636, 3642, 3646, 3661, 3689, and 3782 for construction of state highway projects have been completed according to requirements of the contracts or modifications thereof, and that said projects are now ready for acceptance. After due consideration, the Commission accepted said contracts by adoption of the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered adoption of a resolution amending the resolution that was adopted on January 10, 1952, approving the survey of the

Brush Creek-Rinehart Creek Section of the Oregon Coast Highway in Curry County so as to establish this highway section as a "throughway". The Chief Counsel recommended adoption of an amendatory resolution so as to clarify the record. The Commission approved the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In the discussion concerning the aforementioned survey, it was pointed out that the resolution adopted by the Highway Commission on November 3, 1948, designating certain highways and sections of highways as throughways, did not include the section of the Oregon Coast Highway extending south from Coquille to the California State Line. Inasmuch as major improvements are contemplated on this section of highway, the Engineer recommended appropriate action by the Commission designating the section a "throughway" to the end that the Oregon Coast Highway throughout its entire length will be covered by the provisions of the "Throughway"Law. The Commission approved the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that the survey for improvement of the Jacksonville Hill Section of the Medford-Provolt Secondary Highway in Jackson County has been completed. He exhibited a map showing the proposed location and explained details. He recommended adoption of the survey by the Commission. After discussion the Commission unanimously approved and adopted the survey, as recommended, by adoption of the attached resolution relative thereto, marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed a request from the Columbia Lions Club of Portland for installation of a traffic signal on N. E. Union Avenue (US 99E) at its intersection with N. E. Holland as a protection to school children who attend Woodlawn School. The Engineer advised that a joint investigation with the City of Portland discloses that there is need for protection of the school children in this area, involving not only the Woodlawn School but also the Holy Redeemer School. However, the installation of a signal at Union Avenue and Holland Street is not considered advisable since distance relationship with respect to other signals on Union Avenue would preclude maintaining the progressive speed system now in operation. In lieu of the requested signal installation, he recommended installation of signals on N. E. Union Avenue at Bryant Street and at Portland Boulevard; also, that the existing signal at N. E. Union Avenue and Dekum Street be removed. These changes, he stated, would serve a two-fold purpose in providing more adequate protection for school children and at the same time improve the overall progressive signal system on N. E. Union Avenue. He estimated the total cost involved at $4,500, and he recommended approval of the installations under the usual arrangement wherein the State and City share equally in the costs. The Commission approved the recommendation.

The Engineer reported that the towns of Falls City, Halsey, and St. Paul have satisfied the legal requirements with respect to the expenditure of State Tax

Street Funds that accrued to them during the second six-month period of 1951; also, that the towns of Clatskanie, Halsey, and Prescott have satisfied legal requirements with respect to State Tax Street Funds that accrued to them during the first six-month period of 1952; also that the towns of Bay City, Long Creek, Rogue River, Sublimity and Waterloo have satisfied the legal requirements with respect to the expenditure of State Tax Street Funds that accrued to them during the second six-month period of 1952. The plans for the city projects proposed to be financed with the funds have in each instance, he stated, been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission accepted the Engineer's recommendation by adoption of the attached resolutions relative thereto marked EXHIBITS "H-1", "H-2" and "H-3" which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered and denied as a matter of policy a request from Patsy J. Drendel of Lake Grove, Oregon, for permission to operate a popcorn wagon on the view point overlooking Willamette Falls on the Pacific Highway East in Oregon City.

The Commission discussed a letter from the Greater Kelso-Longview Community Council containing a proposal that the Longview-Rainier Bridge across the Columbia River between Longview, Washington and Rainier, Oregon, be placed under one set of rules, ownership and tolls, with the existing bridge between Portland and Vancouver and the proposed bridge between these points, and that hearing be conducted to determine the feasibility of such plan. As a result of the discussion, the Commission decided that the proposal is impractical and adverse to the best interests of the State of Oregon. In this connection, the Secretary presented a letter from Governor Patterson stating that he has been presented petitions containing 1,500 names requesting consideration of the above-mentioned proposal. He was instructed to advise the Governor that the Commission does not look with favor on the proposal because, in the judgment of the Commission, to do what the petitioners request would not be to the interest of the State of Oregon.

The Engineer advised that the present contract for operation of the ferry across the Columbia River at Astoria expires on June 1, 1953. He requested authority to advertise for bids to operate the ferry for another three-year period, starting at the expiration of the present contract, and to advertise for bids for the necessary insurance coverage. The Commission approved both requests.

The Commission considered a request from J. W. and Nora B. Irwin, operators of the Log Cabin Motel, and Marie R. Hurley, owner of the Log Cabin Service Station, both situate south of Canyonville on the Pacific Highway, for permission to install luminaire units at the driveway entrances to their establishments. The Engineer advised that this matter has been investigated by the Maintenance and Traffic Divisions who report that the two establishments are on opposite sides of the highway at M. P. 232.53, and that it is possible to light both driveways with two luminaire units; also that the highway at this point is on a curve with a high cut bank on the north side of the service station;

consequently the driveway entrances are extremely hard to see at night time. The Engineer stated that the illumination of the driveways will not adversely affect the highway. He recommended that the petitioners be granted a revocable permit to maintain two mercury vapor luminaire units, one at the entrance to the Log Cabin Motel and one at the entrance to the Log Cabin Service Station on the condition that the installations are made in accordance with specifications prescribed by the State Highway Department and that the work shall be done by state forces at the sole cost and expense of the petitioners, who shall also be required to maintain and operate the lights. The Commission approved the recommendation.

Out-of-State travel expense in the amount of $140.00 for Mr. W. W. Stiffler, Assistant Highway Engineer and Mr. Ralph Sipprell, Director of Permits, to attend the Inter-Mountain Logging Conference in Spokane, Washington, March 23, 24, and 25, 1953 was authorized by the Commission.

The Commission considered a request from the Oregon Coast Ad Club, Inc., that a sign be erected at "D" River on the Oregon Coast Highway at DeLake, stating that this river is the shortest river in the world. The Commission denied the request because of the uncertainties that exit whether or not "D" River is the "shortest river in the world" and because of the great amount of research that would be required to determine this point.

A petition was presented from residents of Baker, Oregon, requesting an investigation to determine measures necessary to reduce hazards to children in the vicinity of the Dewey Avenue Underpass in the City of Baker caused by unsatisfactory traffic regulations. The Engineer advised that an investigation discloses that during the fall of 1952 a child was killed at the south entrance of the underpass, the child having dashed out from the side of the street, and the driver of the vehicle being unable to stop. This accident, he said, is one of four that have occurred here since the underpass was opened for public use and could not have been prevented by any known regulation. As to what can be done to prevent additional accidents, the Engineer stated that he knows of no remedial measures that can be taken by the State Highway Department, but the hazards might be alleviated if the City would provide a police officer at this location during the time school children are on their way to and from school. He also mentioned that it would be helpful if the City would prohibit pedestrians from crossing Dewey Avenue at Myrtle Street on the north side of the underpass and at Orchard Street on the south side. He recommended no change in the highway set-up as it now exists, it being his feeling that the problem is one for the City to solve. The Commission approved the recommendation and instructed the Engineer to bring the facts and suggested remedy to the attention of the proper City official.

The Commission approved the payment of 1953 membership dues in the Western Association of State Highway Officials, amounting to $50, and payment of 1953 membership dues in the American Association of State Highway Officials in amount $1012.50.

Consideration was given by the Commission to the claim of Cecilia McNamee for asphalt damage to her car while parked on Franklin Avenue in Bend on September 10, 1952. The Engineer advised that the claim is for removal of asphalt in the sum of $45. An investigation, he said, reveals that the damage was done when a

gust of wind blew fine asphalt spray onto the body of the car; it also reveals that the average cost in the cities of Madras and Bend to remove asphalt and restore the finish of a car so damaged is $18. He, therefore, recommended that the claim be allowed in the sum of $18 and that the check in such amount be made payable to Cecilia McNamee and mailed in care of her attorney, Mr. Robert Clapperton. The Commission approved the recommendation.

The Commission gave consideration to a request from C. H. Bogart, Mayor of the City of Toledo, for elimination of certain traffic problems on US 20 in this town. The Engineer advised that a study has been made, and as a result of recommendation, the City Countil passed an ordinance prohibiting the parking of vehicles on the shoulders of the Corvallis-Newport Highway (US 20) between "A" Street and Alder Street. He recommended that the Commission concur in the city ordinance. The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In this connection the Engineer also recommended that a "NO PARKING" zone be established on the north side of this highway for a distance of 110 feet easterly from the center line of Sunset Drive, contingent upon the Common Council of the City of Toledo passing the necessary ordinance providing such restriction. The Commission approved the recommendation.

The Engineer recommended establishment of a "NO PARKING" zone on the westerly side of the old route of the Pacific Highway East, for a distance of 250 feet northerly from the point where it connects with the present highway at its junction with the 12th Street truck route south of Salem, and establishment of a "NO PARKING" zone on the easterly side of the old highway for a distance of 60 feet northerly from said junction point. He explained that southbound highway traffic must turn left in order to enter the old highway which connects with a street known as Albert Drive on which are located some 19 residences. Presently, he said, there are no parking restrictions on the old highway, and because of the business establishments in the vicinity, there is considerable parking of vehicles on the old highway which creates a hazardous condition for cars that must make left-turn movements at this point. He added that the parking restriction will correct the condition, and he recommended approval of the plan. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "J", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered a request from Mr. B. F. Scheele, Chief of Police, Lebanon, for an investigation to determine the need for a reduced speed zone on the Santiam Highway near the north city limits of Lebanon. The Engineer advised that the investigation has been made by the Traffic Engineer who finds that there is warrant for a reduced speed of 45 miles per hour within the city limits and for a short distance outside of the city. He further stated that the findings have been reported to the State Speed

Control Board with a recommendation that a 45-mile per hour speed zone be established within the corporate limits of Lebanon. He added that if the Board adopts the recommendation, then the Commission should take action to establish a like speed restriction outside of the city limits, particularly between the north city limits and a point 0.11 mile northerly therefrom. The Commission approved the recommendation.

Consideration was given by the Commission to a request from the Josephine County Traffic Safety Committee for designation of a reduced speed zone on the Redwood Highway southwest of Grants Pass. The Engineer advised that an investigation of the section between the Jerome Prairie Road and the junction of the Pacific Highway in Grants Pass discloses considerable roadside culture consisting of residences and public establishments and ten intersecting roads. The daily traffic volume, he said, consists of between 4,144 and 6,727 vehicles. He also said that 133 accidents occurred on this section during the period January 1, 1947 to October 1, 1952, of which 35 happened during 1951. This accident rate, he said, is above normal for primary state highways, and in order to remedy the condition, he recommended establishment of a 45-mile per hour speed zone on the Redwood Highway between the Jerome Prairie Road at M. P. 40.10 and the intersection with the Williams Highway at M. P. 42.34. The Commission approved the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that under authority granted him by the Commission in a resolution adopted February 19, 1952, he has placed reduced load limits on a number of state highways as is necessary to protect them from damage when softened by heavy rains or freezing and thawing conditions. He asked the Commission to confirm his action for the record. The Commission approved the Engineer's action by adoption of the attached resolution relative thereto, marked EXHIBIT "L", which resolution by this reference is made a part hereof with like effect as though extended in full herein. (For details, see copies of the Engineer's letters on the subject in the General Files.)

The Engineer also reported improved conditions on a number of highways to such an extent that the previously placed reduced load limits no longer are required, and that he has ordered the signs removed pursuant to authority granted him by the Commission in its resolution dated February 19, 1952. He asked the Commission to confirm his action. The Commission approved the lifting of the reduced load limits by adoption of the attached resolution relative thereto, marked EXHIBIT "M", which resolution by this reference is made a part hereof with like effect as though extended in full herein. (For details, see copies of the Engineer's letters on the subject in the General Files.)

Mr. W. C. Williams, Assistant State Highway Engineer, was authorized by the Commission to attend a meeting of the Executive Board of the Western Association of State Highway Officials in Ogden, Utah, on February 23 and 24, 1953. Estimated cost, $105.00. It was explained that the purpose of the meeting is to discuss matters pertaining to the Idaho test road.

The Commission discussed the items of unfinished business apearing on

the Secretary's Summary, dated January 22, 1953, as follows:

1. Proposed rerouting of US 99W through McMinnville: The Engineer reported that negotiations concerning rights of way are still in progress. This item is to remain on the list of unfinished business.

2. Request from the Community of Lakeside for a new access to the Oregon Coast Highway in Coos County: The Engineer's report on this matter was made earlier in the day at which time the Commission denied the request. The Commission ordered the item deleted from the list of unfinished business.

3. Proposed plan for connection between Swift Avenue and Denver Avenue in North Portland: Action on this matter was deferred pending further study by the Commission. The item is to remain on the list of unfinished business.

4. Agreement with the Army Engineers regarding use of area at Hat Rock State Park: The Parks Superintendent reported that the Army Engineers are studying the matter, and he anticipates a satisfactory agreement will be reached shortly.

5. Request of Westport Community Church for installation of a traffic signal in Westport on the Columbia River Highway: The Commission denied the request and ordered the item removed from the list of unfinished business; if it again arises, it is to be considered as new business.

6. Development of a wayside area on US 30 between Ladd Canyon and Rattlesnake Springs in Union County: The Engineer advised that his report on this subject is not yet complete. The item is to be retained on the list of unfinished business.

7. Request of Wallowa County Court that the State assume jurisdiction over a road extending southerly from the lodge in Wallowa Lake Park; also offer of the Pacific Power and Light Company to lease an area for park purposes: The Parks Superintendent advised he has nothing to report at this time because his investigation has been handicapped by snow conditions and adverse winter weather. He gave as his feeling that it would not be possible to render an adequate report until next fall. The Commission ordered the item removed from the list of unfinished business. It is to be considered as new business when the subject again arises.

8. Request of residents of Gleneden Beach that no change be made in the alignment of the Oregon Coast Highway through this community and that some bad curves on this highway north of Gleneden and Boiler Bay be eliminated: The Engineer's report on these matters was considered earlier in the day. The Commission ordered the item removed from the list of unfinished business.

9. Request of residents of Oswego for widening of the Oswego Highway through the city, surfacing of parking strips, and improved signalization at the Southern Pacific Railroad crossing: The Engineer advised that his report on the subjects mentioned is not yet complete. The item was ordered retained on the list of unfinished business.

10. Request of a delegation from Arlington for a traffic interchange at the intersection of US 30 and Main Street in Arlington: The Engineer reported on this matter earlier in the session, in view of which the Commission ordered the item deleted from the list of unfinished business.

The Commission confirmed Wednesday and Thursday, April 8 and 9, 1953, as the date for its next regular meeting which is to be held in the Crystal Room of the Benson Hotel in Portland. The Commission also set Monday and Tuesday, May 18 and 19, 1953, as a tentative date for its next following meeting. The Secretary was instructed to arrange to hold this meeting in the Green Room of the Imperial Hotel in Portland, in view of the fact that the Benson Hotel cannot accomodate the Commission on those days.

The Commission discussed the death of Mr. Samuel H. Boardman, former State Parks Superintendent, who passed away quietly in his sleep on January 26, 1953 after rendering valuable service to the State of Oregon and the State Highway Department for many years. It was the feeling of the Commission that appropriate recognition of Mr. Boardman's accomplishments should be made a matter of record in the minutes of the Highway Commission. Accordingly, Commissioner Reynolds offered the following resolution with regard thereto which was adopted by the Commission by unanimous vote:

RESOLUTION

WHEREAS, The Creator of the Universe, for purposes beyond our comprehension has summoned from his earthly activities our long-time friend and faithful employee, SAMUEL H. BOARDMAN; and

WHEREAS, it is fitting and proper that this Commission give public recognition to the achievements of his more than thirty years of devoted and unselfish public service to the State of Oregon; and

WHEREAS, during his tenure of office as Superintendent of State Parks, he supervised the acquisition, improvement, maintenance and operation of in excess of one hundred eighty parks and scenic places which will, in the future as in the past, serve as locations and places of recreation, inspiration, beauty and convenience for the general public;

NOW, THEREFORE, BE IT, AND IT IS HEREBY RESOLVED, by this COMMISSION that we hereby acknowledge and give high praise to the efforts, judgment and accomplishments of

SAMUEL H. BOARDMAN

in being the guiding spirit in the acquisition of an outstanding selection of parks

and scenic places for the use and benefit of the public which will keep his memory alive for future generations, and, that we express to Mrs. Samuel H. Boardman, his wife; to Mrs. Albert Mefford, his daughter; to Mrs. Thorne Hammond, his daughter; to Kenneth Y. Boardman, his son; and to Albert Boardman, his son, our abiding sympathy in their bereavement; and

BE IT FURTHER RESOLVED, that this Resolution be entered in the permanent records of this Commission as of February 17, 1953, and a suitable embossed copy thereof be presented to Mrs. Boardman, Mrs. Mefford, Mrs. Hammond, Kenneth Boardman and Albert Boardman.

The Secretary was instructed to send an embossed copy of the resolution to Mrs. Boardman and a like copy to each of her children.

The Engineer presented a report compiled by the Permit Division covering the activities of the Weighmaster Section for the calendar year 1952. He pointed out that the percent of overload violations during 1952 is only 1.57 percent of the loads weighed, compared with 5.07 percent, 5.21 percent, 5.7 percent, 5.9 percent, and 3.13 percent in the years 1947 to 1951 inclusive. The Commission approved the report and instructed the Engineer to convey the information contained therein to the highway committees in the legislature and to others who would be benefited by it. He was also told to pass the information to Governor Patterson personally. (For further details, see copy of the Engineer's written report in the General Files.)

The Commission considered and approved an agreement with the U. S. Bureau of Public Roads covering removal of slide material on the North Santiam Secondary Highway near Detroit. The Engineer explained that the agreement provides that the State shall remove the slide by contracting inasmuch as the Federal Government does not have facilities available to do the work. He also explained that the Government will reimburse the State for all costs incurred up to a maximum amount of $10,000. (The Commission signed the agreement later in the session.)

In this connection, the Commission also considered and approved an agreement with Consolidated Builders, Inc., covering removal of the slide materials whereby the contractor, for amounts stipulated in the agreement, agrees to remove the material from the highway. (The Commission signed the agreement later in the session.)

Consideration was given by the Commission to a petition received from residents of the Town of Tangent and vicinity urging establishment of a restricted speed zone on the Pacific Highway East northerly from this town, near M. P. 83.00. The Engineer advised that the request has been investigated by the Traffic Engineer who reports that the section of highway referred to is level, is on a tangent, and has a 24-foot bituminous pavement surface with 8-foot gravel shoulders; further that the roadside culture is predominently residential and is grouped in a section 0.2 mile in length. The 1951 average daily traffic was 5,125 vehicles. A speed check showed that 80 percent of the vehicles were traveling at or below 58 miles per hour and the accident rate

from January 1, 1947 to November 30, 1952 on three subsections investigated, ranged from 0.51 to 2.81 accidents per million vehicle miles during 1951. The average accident rate for all rural primary state highways during the same period, he said, was 4.73 accidents per million vehicle miles. He stated further that 33 accidents occurred on this section due to wet or slippery pavement indicating the need for treatment of the pavement surface. In view of these facts, he recommended that the request for a speed zone be denied and that in lieu thereof, signs be maintained on either side of the section reading "LOOKOUT FOR CHILDREN AHEAD" and "SLIPPERY WHEN WET OR FROSTY", until the "slick" spots can be remedied next summer. The Commission approved the recommendation.

The Commission considered and approved an agreement with the Southern Pacific Company covering installation of an underground drainage pipe and catch basin on Railroad right of way in the Town of Lyons, Linn County. (The Commission signed the agreement later in the session.)

A revised plan concerning group life insurance was submitted by the Engineer for consideration. He explained that the plan now in effect provides for a maximum coverage to an individual of $1,000 and coverage for dependents up to $500 each; that the California-Western States Life Insurance Company which provided the existing contract has presented a revised plan of group insurance that is almost identical to its arrangement with the Oregon State Employee's Association whose plan is not available to Highway Department employees other than those who belong to the Association. The new revised plan, if approved by the Commission, he said, will give all Highway Department employees the same type of coverage that is enjoyed by Association members in other state departments. The new plan, he added, provides for coverage from the original $1,000 to a maximum of $3,500, depending upon the salary range of the employee. He recommended approval of the plan since discussion with the insurance representative and investigation by the Highway Department failed to reveal any objection to it. The Commission approved the recommendation.

A letter was presented from the City of Enterprise requesting that the State Highway Department prepare the design for a small bridge and sidewalk across a stream in this town. The Engineer stated that the bridge is to be financed with State Tax Street Funds allocated to the city and that the city has offered to pay the cost of the design. He recommended approval of the city's request. The Commission approved the recommendation.

The matter of amending an agreement with the United States Government concerning a section of the Willamette Highway around Meridian Dam in Lane County was presented by the Engineer. He explained that the contractor for the United States Army Engineers failed to properly maintain certain sections of the road used by the traveling public, and as a result, it had been necessary for the State to spend approximately $10,000 to repair the damage, and in order to secure reimbursement for this expenditure, it is necessary to execute an amendatory agreement with the Federal agency. He requested authority to sign the amended document in behalf of the Commission. The Commission approved the request.

A request from Leland Post, log hauler, through his attorney, Mr. Robert C. Belloni, Myrtle Point, Oregon, for reinstatement of his hauling permit which

was cancelled for gross violations, was considered by the Commission. The Engineer advised that Mr. Belloni wrote the Public Utilities Commissioner concerning the matter, and that he had discussed the matter in his office with a Mr. George Burr. Mr. Post, he said, has already been advised that if he wishes to have his PUC permit reinstated he should direct a letter to the Highway Department clearly stating that hereafter he intends to comply with the law and the rules and regulations governing his operations. The Chief Counsel pointed out that the Commission has authority to protect the highways and that the Commission is entirely within its rights in requesting a statement of cooperation from Mr. Post. The Commission ordered that Mr. Post or his attorney again be told to submit a satisfactory letter stating that Mr. Post intends hereafter to comply with the law, or to appear before the Commission in person.

The Commission discussed briefly the problems to be presented by delegations scheduled for hearings on the following day but took no action on any of them.

The Right of Way Engineer brought up for discussion the acquisition of Shell Oil Company property in Arlington, a portion of which is needed as right of way for a revision of the Columbia River Highway at that place. He explained that negotiations in this matter have been underway for some time and what appears to be a feasible solution involves reestablishment of the company's plant facilities on property belonging to a Mr. Conner who wants $15,000 for the area needed, being about $6,000 more than the value of the property as determined by appraisal. He further stated that the Shell Oil Company has offered to pay the difference so the cost to the State will be $9,000 plus the cost to move the plant which is estimated at $12,000. He pointed out that there are good possibilities for considerable salvage by reason of sale of excess area and a building located on the Conner property. He recommended approval of the arrangement as did also the State Highway Engineer. The Commission approved the recommendation.

The Commission discussed the proposition of the Columbia Sand & Gravel Company for an exchange of sand and gravel products from quarries located near the town of Umatilla. It appears that a misunderstanding has developed with respect to the arrangement that was approved by the Commission at the previous meeting, whereby the exchange was to be made on a yard for yard basis, and the company has asked for reconsideration of the matter, alleging that the present arrangement is unworkable. The Engineer suggested a modification of the present arrangement as follows: The company to deliver to the State in stockpiles 4,000 cu. yds. of oversize gravel from its quarry, and be allowed to take a like yardage of fine material from the State's quarry, an equal balance of quantities delivered and taken to be maintained at all times, the company also to deliver to the State in stockpiles all of the oversize material resulting from its operations in the State's quarry. He also suggested that the arrangement run for a period of two years. The Commission approved the suggestions and instructed the Engineer to discuss the matter with company officials on such basis.

Commissioner Reynolds reported an apparent misunderstanding

between County Judge W. R. Webber of Wasco County and employees of the State Highway Department concerning cooperative spraying of noxious weeds along highway rights of way, as indicated in a letter from the Judge alleging that the Highway Department is not cooperating with the County in such undertaking. The Engineer explained the proceedure followed in matters of this kind as agreed upon at a seminar held at Oregon State College in 1950, which proceedure, he said, was approved by all of the counties concerned but for some reason or other, no word was received from Wasco County. He was instructed to furnish Commissioner Reynolds with full information to enable him to make a satisfactory explanation to Judge Webber.

Commissioner Reynolds also brought up for discussion a communication from the Hood River Chamber of Commerce urging that something be done to relieve the traffic congestion that occurs at Koberg Beach adjoining the new Columbia River Highway near Hood River. The Chamber alleges, he said, that the congestion is bad now and will get worse as time goes on because Koberg Beach is a very popular place, and some provision should be made to alleviate this hazardous condition. The Engineer suggested, if the Commission wants to provide access to this place, that it would be advisable to provide a traffic interchange when conditions justify it, and in the meantime, that the widening of the pavement might take care of the immediate situation. As a result of the discussion, the Engineer was instructed to make plans for channelizing the intersection at the entrance to the beach property and for development of a car parking area entirely off the highway.

The Commission approved and signed agreements, etc., as follows:

"Petition for Vacation" re vacation of a portion of N. E. 18th Street north of the O. W. R. & N Company's right of way.

"Modification of Industrial Lease" with Westfall Engineering Company re State Highway property situate near intersection of 133d Street and T. H. Banfield Expressway, Portland.

"Renewal of Lease" with Evelyn J. and Cyril A. Van Dyke re stockpile site on Nehalem Secondary Highway.

"Lease for Land" with Wheel and Rim Service, Inc., re 1,500 square feet of State-owned property between Sixth Street and Seventh Street in the western part of Eugene.

"Indenture of Access" granting change in access from the Kathryn Moore property to US 99 on Wolf Creek Section, Josephine County.

"Deed" re sale of an old gravel pit near the south city limits of Elgin to the Pacific Power and Light Company. Consideration $200.

"Deed" re sale of 5.32 acres of land to Alfred Hoffmeister adjacent to the Chenoweth Park-Deady Section of US 99, Douglas County. Consideration $420 without highway access.

"Deed" re sale of west half of Lot 10, Block 7, Elliott's Addition to Coquille adjacent to US 101, Coos County to R. E. Folsom. Consideration $200 with complete restriction of highway access.

"Bargain and Sale Deed" to the City of Astoria for Lots 4, 5, and 6 of Block 132, Shively's Astoria. (Authorized by Commission January 21, 1953)

"Bargain and Sale Deed" to Clatsop County for a parcel of land in Lots 1, 2, 3, and 4, Block 133 City of Astoria. (Authorized by Commission January 21, 1953)

"Easement" covering construction of a well and pipe line by James H. Smith on State property in the Van Duzer Wayside. (Authorized by Commission July 10, 1952)

"Agreement" with City of Lakeview covering the construction on the Lakeview Section of the Fremont and Klamath Falls-Lakeview Highways in City of Lakeview. (Authorized by Commission December 20, 1951)

"Voucher" covering principal and interest payments due March 1, 1953.

"Agreement" with the O. W. R. & N Railroad Company and the U. P. Railroad Company re construction of grade separation structures on the T. H. Banfield Expressway at 148th Avenue, Rockwood Avenue, and Birdsdale Avenue. (Bids received January 21, 1953)

"Agreement" with the O. W. R. & N Railroad Company and the U. P. Railroad Company re construction of the Cereghino Overcrossing. (Bids received January 22, 1953)

"Agreement" with the O. W. R. & N Railroad Company and the U. P. Railroad Company re construction of the Cereghino Haul Road Overcrossing. (Bids received November 24, 1952)

"Agreement" with City of Mt. Angel covering the widening of Main Street (Hillsboro-Silverton Highway) in City of Mt. Angel. (Authorized by Commission March 13 and 14, 1952)

"Agreement" with the U. S. Bureau of Public Roads covering removal of slide material on the North Santiam Highway near Detroit Dam.

"Agreement" with the U. S. Bureau of Public Roads covering maintenance of the Flora-Enterprise Highway between M. P. 17.32 and M. P. 30.1 when rock base and oil surfacing contract now under way is completed. (Under contract by the BPR September 19, 1952)

"Agreement" with the Southern Pacific Company covering construction of a drainage pipe under the railroad in the City of Lyons.

21278

Project Agreements:
Oakland Junction-Deady Section, Pacific Highway
Lafayette-North Yamhill River Section, Pacific Highway
Lafayette-North Yamhill River Section, Pacific Highway West

"Agreement" with Consolidated Builders, Inc., covering slide removal on the North Santiam Highway at M. P. 39.2.

The meeting adjourned at 12:00 noon to reconvene at 9:00 a.m. on the following day in the same room.

Portland, Oregon
February 18, 1953

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Tyrolean Room of the Benson Hotel with the following persons present and participating:

Chas. H. Reynolds, Acting Chairman
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2d Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Chairman Chandler was excused from attending the meeting.

Bids as follows for highway construction were opened and read aloud by the Secretary pursuant to previously published notice, at the conclusion of which he announced that the awards of contracts would be made at 3:30 p.m. in the same room:

SUMPTER VALLEY HIGHWAY IN BAKER COUNTY
ROCK SURFACING POKER CREEK-SUMPTER SECTION

R. H. Sussex, Bellingham, Washington	$ 30,800.00
N. A. Toole Construction Co., Ontario	31,500.00
Arthur Simonsen, Baker	37,750.00
Newport Construction Co., Portland	40,725.00
C. E. Leseberg, Nyssa	47,000.00

CLACKAMAS COUNTY
BOECKMAN ROAD GRADE SEPARATION STRUCTURE

Birkemeier and Saremal, Portland	$ 45,530.00
Tom Lillebo, Reedsport	47,100.00
Babler Brothers, Portland	48,500.00

11251

A delegation representing Oregon City and Clackamas County appeared before the Commission concerning certain highway improvements in Clackamas County. The following people composed the group: Bob Jones and Stan Skoko, County Commissioners; County Judge Wallace Telford; Richard Long, Mayor of Oregon City; George Helser and Albert Roake, City Commissioners; Robert Finlayson, City Manager; Ed Kaen, Publisher, Enterprise-Courier; and Walter Buse and Ed Carswell, members of the Oregon City Chamber of Commerce. Judge Wallace Telford headed the group and introduced members. He thanked the Commission for approving construction of the Boeckman Road overcrossing on the Portland-Salem expressway and for other work performed in the county, and he urged the following additional improvements:

1. Widening and realignment of 82d Avenue from Portland to Oregon City.
2. Construction of a new bridge across the Willamette River between Oregon City and West Linn or widening of the present structure
3. Widening of the Pacific Highway East between New Era and Hubbard
4. Realignment of the Mt. Hood Highway from Sandy eastward

He requested early consideration of all of these projects and asked that priority be given to the improvement of 82d Avenue. Mr. Finlayson stated that Oregon City officials agree with the County Court on the list of improvements and the placing of the 82d Avenue job as first priority. He asked for surveys of the remaining projects and construction as soon as is possible. Mayor Long and County Commissioner Skoko endorsed Mr. Finlayson's statements. Mr. Jones and Mr. Buse each declared their approval of the program as presented and urged replacement of the narrow bridge at Parkplace. Judge Telford asked early consideration of these improvements, particularly modernization of 82d Avenue, and that surveys of the others be authorized to determine costs, et cetera. Acting Chairman Reynolds advised that improvement of a portion of 82d Avenue is in the Commission's program and that serious and careful consideration will be given to the other jobs requested; however, the Commission at this time is not in position to make any definite promises with respect to them. This concluded the conference. (This matter was discussed by the Commission later in the day when the Engineer was instructed to conduct an economic survey covering the projects requested by the group.)

A Lane County Delegation from Eugene and Creswell appeared before the Commission to urge completion of a $1\frac{1}{2}$-mile section of the Fox Hollow Secondary Highway about 6 miles south of Eugene. Present were Mrs. L. J. Murdock, Eugene; Mr. George Hayes, Creswell, and Mr. Harold Barton, Eugene. Mrs. Murdock who acted as spokesman stated that she represents people who reside along Fox Hollow Road, particularly in the vicinity of Prairie and Spencer Creek. She pointed out that there remains to be constructed only a $1\frac{1}{2}$-mile section of this road to provide a continuous facility from Eugene to a connection with the Camas Swale-Lorraine County Road which is hard surfaced throughout; also, that due to the fact that the section is not constructed at the present time, people in the area are required to travel several miles extra in order to reach the nearest trading center in Eugene or Springfield. Mr. Hayes stated that in his business of growing chickens, the road would save him eight miles per trip in going to Eugene, and that the same thing is true for about 15 other producers in the area. Mr. Barton pointed out that at present he has to haul timber over an adverse grade and that construction

of the 1½-mile section would be of benefit to him as well as to other haulers of products in the area. Acting Chairman Reynolds informed the delegation that the Commission is not very familiar with the project requested but will have an engineering investigation made at once. The Engineer was thereupon authorized and instructed to make the investigation and report his findings with cost estimates to the Commission at its next meeting.

A Yamhill County delegation consisting of people from Carlton, Yamhill, and Newberg appeared before the Commission to urge that the State take over as a state secondary highway the county road which extends from Carlton to Newberg. The following comprised the group: Harry Williams, Jim Robison, Myron Madson, Bill Estey, Carl H. Iverson, and L. F. Williams, all members of the Carlton Chamber of Commerce; Art Barackman, Walter Scott, Pat Paola, Larry Pekkola, and Lew Henry, farmers from Carlton; Emanuel Link, Guy Haynes, and Gordan Haynes, lumbermen, Carlton; Albert Youngberg and Charles Newman, County Commissioners; E. C. Stovell, President of the Yamhill Chamber of Commerce; R. J. Wulf, ex-Mayor of Yamhill; S. D. Adcock, truck operator, Yamhill; B. M. Lefever, insurance, Newberg; C. N. Windsor and Harold Scharff, truck operators, Newberg; and Herman Wilke, Secretary of the Newberg Chamber of Commerce. Mr. Harry Williams acted as spokesman and introduced the members of the delegation. He advised that the County does not have funds to adequately maintain the road and that it would be a great benefit to haulers of produce if the road were improved to a state secondary highway standard. He declared that were this road improved, it would create a saving of 12 miles in travel-distance between Carlton and Newberg and would relieve the Pacific Highway West of considerable traffic congestion. Others speaking in behalf of the project were Messrs. Guy Haynes, B. M. Lefever, Commissioners Youngberg and Newman, Wulf, Scott, and Estey.

The Engineer pointed out that the road in question is now a Federal Aid Secondary Highway about 5.8 miles in length so is eligible for Federal Aid Secondary Highway funds and could be improved with such funds without being made a state secondary highway; in fact, its inprovement could be accomplished sooner while in that category than were it designated a state highway. County Commissioner Youngberg explained that the County has obligated all available highway funds for improvement and construction of bridges so will not have any money for this road for about two years. Acting Chairman Reynolds stated that it does not appear possible for the State to assist in this matter unless the road is retained on the Federal Aid Secondary system and the County Court will recommend its improvement as a Federal Secondary Highway. He concluded the discussion by giving his opinion that prospects for the road are better as a Federal Highway than as a State Highway.

The meeting recessed at 12:30 p.m. and reconvened at 3:15 p.m. with the same persons present and participating.

W. H. Lynch, Division Engineer, Bureau of Public Roads was present and presented to the Commission for approval a letter directed to the Chief, Forest Service, and Commissioner of Public Roads, recommending a program for Fiscal Year 1954 Forest Highway funds, and containing projects mutually

selected for such funds by representatives of the State and Federal Governments at the meeting of the Highway Commission held on January 21, 1953. The Commission approved and signed the letter jointly with Mr. Lynch and Mr. R. F. Grefe, Acting Regional Forester, which letter is copied in full herein for the record:

486 Oregon General February 10, 1953

Chief, Forest Service
Commissioner of Public Roads,
Washington, D. C.

Dear Sirs:

Conforming to the Rules & Regulations for Administering Forest Highways, a joint conference was held January 21, 1953 between the Oregon State Highway Commission, the U. S. Forest Service, and the U. S. Bureau of Public Roads, for the purpose of selecting projects to be recommended for inclusion in the 1954 Fiscal Year program and to recommend necessary revisions in previously approved programs.

The following is a statement of the Forest Highway funds available from the 1954 apportionment and from the unobligated balance of previous apportionments.

Funds Available

Fiscal Year 1954 Apportionment		$3,100,639.00
Deducted for Washington Office Reserve 1954 (10%)		-310,064.00
Released from Washington Office previous reserve		+179,179.00
Total funds available		$2,969,754.00

Deductions

Required to finance deficits on projects now under contract	$119,963.00	
Reserved for State Contingent	109,791.00	229,754.00
Available for programming		$2,740,000.00

Under Fiscal Year 1953 program, approved April 11, 1952, the following project was included:

46-F (3023-00) Cascade Lakes Highway Grading, 5 Mi. $160,000.00

It is recommended that the above project be cancelled and the funds released for further allocation $ 160,000.00

Total funds available for programming $2,900,000.00

Increased costs subsequent to previous programming dictate revisions in funds programmed to two projects approved April 11, 1952 under Fiscal Year 1953 program as follows:

Project and Account No.	Route Name, Type of Work and Mileage	Present Est. Cost	Previous Amount Programmed	Recommended Increase
9-A4, B4, C1 (3020-00)	Oregon Coast Highway Surf. & Bit. Paving 8.8 Miles	$500,000	$350,000	$150,000
47-E (3024-00)	North Umpqua Hwy. Grading, 4.0 Miles	495,000	350,000	145,000

Total allocations to previously programmed projects $295,000.00

Balance remaining for new projects $2,605,000.00

Recommended Allocations to New Projects, 1954 Fiscal Year

Project and Account No.	Route Name and Type of Work	Length Miles	Recommended Allocation
10-C1 (3070-00)	Oregon Coast Highway Grading	8.0	$840,000.00
21-D5 (3071-00)	Willamette Highway Grading 4.4 Mi. Surf. & Bit. Surf. 2.1 Mi.	4.4	300,000.00
24-A8 (3080-00)	North Santiam Highway Bridge	.02	40,000.00
25-A9 (3072-00)	Mt. Hood Highway Grad., Surf. & Bit. Surf.	2.0	350,000.00
38-B2 (3073-00)	Flora-Enterprise Hwy. Grading	8.0	225,000.00
46-C4, D3, E2 (3074-00)	Cascade Lakes Highway Grading 4.5 Mi. Selected Borrow 12.4 Mi.	12.4	185,000.00

February 18, 1953

21288

Project and Account No.	Route Name and Type of Work	Length Miles	Recommended Allocation
47-A3, B6, C1, D2 (3075-00)	North Umpqua Highway Surfacing and crushed rock production	16.9	$375,000.00
51-A (3076-00)	Belknap Springs Highway Advance Clearing	8.0	50,000.00
(3077-00)	Location Survey		100,000.00
(3079-00)	Maintenance		140,000.00
	Total allocations to new projects		$2,605,000.00

Project Description and Comments

OREGON COAST HIGHWAY
Surfacing and Bituminous Paving, Project 9-A4, B4, C1, 8.8 Miles, Increase $150,000

Under project 9-A4, B4, C1, approved for $350,000 out of fiscal year 1953 funds, it was proposed to surface and bituminous pave 8.8 miles. Further investigation and rising costs subsequent to original programming dictates an increase in funds to complete the project. The presently estimated cost is $500,000 and an additional $150,000 will be required. It is recommended that these funds be supplied from Fiscal Year 1954 allotments.

OREGON COAST HIGHWAY
Grading, Project 10-C1, 8.0 Miles, $840,000

The State of Oregon has planned the early reconstruction of those sections of the Oregon Coast Highway which are now below the required standard to safely carry the traffic. One of these sections covers Forest Highway Route 10 between Port Orford and Gold Beach and the project recommended includes the grading of approximately 8 miles from the vicinity of Wedderburn north to Giesel Monument. The State plans to reconstruct the remaining part of the section north to Port Orford.

WILLAMETTE HIGHWAY
Grading 4.4 Miles and Surfacing & Bituminous Surfacing 2.1 Miles, Project 21-D5, $300,000

Previously programmed project 21-C2, D4, now underway, extends the improvement of this highway from the west to within 4.4 miles of Oakridge, Oregon. The recommended project contemplates the reconstruction grading of this 4.4 miles and the surfacing and bituminous

surfacing of those sections coincident with the existing highway, aggregating 2.1 miles at the east and west ends of the project. The intervening 2.3 mile section will involve a new bridge crossing of the Willamette River and the grading cannot be utilized until the bridge is completed, with bridge project is now contemplated for inclusion in next year's forest highway program or for early construction by the State. No surfacing, therefore, is contemplated for the intervening section and traffic will be carried over the existing highway. This project will complete the remaining reconstruction grading over one of the most sub-standard and hazardous sections of this highway.

NORTH SANTIAM HIGHWAY
Structure, Project 24-A8, 0.02 Mile, $40,000

Recent and unusually heavy rains have developed excessive raveling and sloughing of original ground in an old draw which has begun to threaten the existing roadway. Ground slopes are too steep to rebuild with embankment and it will be necessary to construct a viaduct to correct the damage. The $40,000 is recommended to finance this work.

MT. HOOD HIGHWAY
Grading, Surfacing & Bituminous Surfacing, Project 25-A9, 2.0 Miles $350,000

Under project 25-A8, approved under 1953 Fiscal Year program, a bridge was constructed over the Zig Zag River below the confluence of the Zig Zag River and Still Creek, which replaces two bridges on the existing highway which are obsolete and extremely hazardous. The proposed project will effect the utilization of the new bridge and reconstruct a substandard section of this highway which carries a heavy traffic both commercial and recreational. The project lies between Zig Zag on the west and Rhododendron on the east end, the latter being a focal center of a large recreational area.

FLORA-ENTERPRISE HIGHWAY
Grading, Project 38-B2, 8.0 Miles $225,000

Under previous projects 38-A3 and -A4, 12.27 miles at the southerly end of the route will be regraded, surfaced and bituminous surfaced. The recommended project continues the reconstruction grading to the Flora junction, beyond which reconstruction is not soon contemplated. Surfacing and bituminous surfacing of the project is contemplated under the next fiscal year program (1955) unless surplus funds become available sooner. The project will complete the reconstruction of a very substandard section.

CASCADE LAKES HIGHWAY
Grading 4.5 Miles and placing cinder borrow topping on 12.4 Miles, Project 46-C4, D3, E2, $185,000

Under projects 46-C3, D1, E and 46-D2, E1, 8.5 miles are being graded from the west end of the bituminous surfaced project to Devils Lake. The herein recommended project provides for the completion of grading to Elk Lake, the main objective in this area, and the placing of a cinder borrow topping over the entire 12.4 miles. The grading as completed will not be satisfactory to carry the traffic and the temporary topping will afford a smooth roadbed pending surfacing and bituminous surfacing. The latter operation is contemplated as soon as grading is completed.

CASCADE LAKES HIGHWAY
Grading, Project 46-F, 5 Miles, $160,000, Programmed Fiscal Year 1953

Shortage of cash necessitated deferment of construction of this project during the 1952 season. The Forest Service now favors the cancellation of the project in favor of the above-mentioned project, 46-C4, D3, E2, as the need is greater on that section.

NORTH UMPQUA HIGHWAY
Grading, Project 47-E, 4.0 Miles, Increase $145,000

Based on more complete survey information the estimated cost is now in excess of the $350,000 allocated under the 1953 Fiscal Year program. Since it is not desirable from a Forest Service standpoint to reduce the length it is necessary, and is so recommended, that an additonal $145,000 be allocated to finance the project to its logical terminus.

NORTH UMPQUA HIGHWAY
Surfacing and Crushed Rock Production, Project 47-A3, B6, C1, D2, 16.9 Miles, $375,000

Under previous projects 47-A1, B1, D to 47-B5 the highway will be graded from Rock Creek, westerly end of the route, to Steamboat Creek, 16.9 miles. The Forest Service, as well as the Bureau of Land Management, contemplate immediate and extensive timber sales contingent to the Steamboat Creek Area and it is essential that the highway be surfaced to that point. The project proposes to place a base course over the 16.9 miles and to produce the necessary crushed rock for future bituminous surfacing. Placing of the bituminous surfacing is contemplated under ensuing fiscal year's programming as the status of the grading and short season precludes this operation this coming season.

BELKNAP SPRINGS HIGHWAY
Advance Clearing, Project 51-A, 8.0 Miles, $50,000

The Belknap Springs Highway was added to the Forest Highway System during 1952 and the proposed project is the initial construction on the route. It is proposed to advance clear 8 miles beginning at the junction with the McKenzie Forest Highway Route 22 and extending northerly in Lane County.

The route extends a distance of 21 miles from the McKenzie Highway in the vicinity of Belknap Springs northerly to a junction with the Santiam Highway, Forest Highway Route 23, near its junction with the North Santiam Highway, Forest Highway Route 24, in Linn County.

The route will serve as an access to 1,750 million FBM of timber which the forest Service contemplates to harvest at the rate of 30 million FBM per year. It will also serve as a Trans-Cascade winter route for traffic between the Eugene, Oregon area and the Bend area in eastern Oregon. The estimated traffic will be 250 vehicles per day, of which 60 will be log trucks.

LUMP FUND SURVEY

The $100,000 herein recommended is to finance field surveys, design and plans for the recommended projects as well as for other projects previously approved and for new surveys recommended herein.

LUMP FUND MAINTENANCE

The $140,000 recommended is to finance the obligations of the Government for maintenance of completed projects for periods of one or two years following completion of construction.

Very truly yours,

/s/ W. H. Lynch

W. H. LYNCH
Division Engineer

Recommended for approval

R. H. Baldock
State Highway Engineer

U. S. FOREST SERVICE, REGION 6

R. F. Grefe
Act. Regional Forester

OREGON STATE HIGHWAY COMMISSION

Chairman

Chas. H. Reynolds
Commissioner

M. K. McIver
Commissioner

February 18, 1953

The Chief Counsel reported settlement of a condemnation case which the Commission had previously authorized against E. A. and I. A. Springer for property needed for the Garden Valley Road-Second Crossing of the South Umpqua River Section of the Pacific Highway in Douglas County. He advised that the appraised value of the property is $7,900 and that an offer had been made to the owners in that amount which they have accepted. The Commission approved the settlement as reported.

The Chief Counsel also presented a settlement of the condemnation action against Lawrence Harvey Kozowski and Bessie Dixson to acquire property needed as right of way for the Lapine-Forest Boundary Unit of the Lapine-Diamond Lake Junction Section of The Dalles-California Highway in Klamath County. The State's original offer, he said, was in the sum of $4,225 whereas the owners demanded $6,000. He also said that since filing the complaint the owners have improved their property so it now has an estimated value of $4,625. The settlement finally agree to, he added, is $5,000 for the property without any commercial access which the owners previously demanded. The Commission approved the settlement.

Commissioner Reynolds inquired concerning the status of right of way acquisition on the Mt. Vernon-John Day Section of the John Day Highway in Grant County, which project is scheduled for contracting at the April meeting of the Commission. He was informed that the project is not entirely clear from the right of way standpoint and that it may be necessary to condemn some of it. Commissioner Reynolds expressed the wish of the Commission that condemnation be not resorted to unless that appears to be absolutely necessary. The Right of Way Engineer was instructed to expedite the negotiations.

The Commission discussed with the Engineer the bids received at the morning session for highway construction, and at 3:30 p.m. Commissioner McIver publicly announced the Commission's decision with respect to each project, as follows, the Commission's action being by unanimous vote:

"Rock surfacing on the Poker Creek-Sumpter Section of the Sumpter Valley Highway east of Sumpter, Baker County: The Commission received five bids for this job, the low one being that of R. H. Sussex, Bellingham, Washington, at $30,800.00. The contract has been awarded to the low bidder at his bid price.

"Construction of a reinforced concrete viaduct, known as the Boeckman Road Grade Separation Structure, over the West Portland-Hubbard Highway in Clackamas County: Of the five bids received for this project, Birkemeier and Saremal, Portland, submitted the low one at $45,530.00. The Commission awarded the contract to Birkemeier and Saremal at their bid price.

"Mt. Hood Rock Production Project on the Mt. Hood and Wapinitia Highways in Clackamas, Hood River, and Wasco Counties, and the Parkdale Rock Production Project on the Mt. Hood and Hood River Highways in Hood River County: Rogers Construction Company, Portland, submitted the low combination bid for these two jobs in the total amount of $114,200.00. Eight higher bids were received. Both contracts have been awarded to Rogers Construction Company on their low combination bid.

"Installation of automatic fixed-time traffic signals at eight intersections on the Oregon Coast Highway in Astoria, Clatsop County: Only three bids were received for this work, the low one being that of Geo. F. Anderson, Astoria, at $22,930.00. The Commission has awarded the contract to the low bidder at his bid price.

"Oil mat surfacing on ten state highways in the northwestern part of the state, known as Divisions I and II Reoiling Project, in Clatsop, Yamhill, Columbia, Tillamook, Washington, Marion, and Polk Counties: Six bids were received for this work, the low one being that of J. C. Compton Company, McMinnville, in the sum of $85,288.80. The contract has been awarded to the low bidder at its bid price.

"Installation of a fixed-time traffic signal at one intersection on the Empire-Coos Bay Highway, and a supervisory interconnection with signals on the Oregon Coast Highway, in Coos County: Only one bid was received for this job, being that of Trowbridge and Flynn Electric Company, Medford, at $3,875.00. The bid has been rejected by the Commission as being too high.

"Grading and Surfacing on the Lower Fourmile Road Junction Section of the Oregon Coast Highway, 7.71 miles south of Bandon, Coos County: Stanton W. Payne, Eugene, submitted the low bid for this project at $11,546.50. The Commission received eleven higher bids. The contract has been awarded to the low bidder at his bid price.

"Grading, paving and oiled shoulders on the North Unit, Bend-Lapine Section of The Dalles-California Highway, four miles south of Bend, Deschutes County: Fourteen bids were received for this work. Rogers Construction Company, Portland, submitted the low bid at $756,471.00. The Commission has awarded the contract to Rogers Construction Company at its bid price.

"Construction of a reinforced concrete viaduct, known as the Heppner Junction Overcrossing, to carry Columbia River Highway traffic over the Heppner Branch tracks of the Union Pacific Railroad Company approximately ten and one-half miles east of Arlington in Gilliam County: The Commission received nine bids for this work, the low one being that of R. H. Jones, Hillsboro, at $32,840.00. The bid of R. H. Jones in the sum of $32,840.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of a reinforced concrete viaduct 78 feet in length over Wards Creek on Main Street in the City of Rogue River, Jackson County: Of the nine bids received for this work, that submitted jointly by F. L. Sommers and Central Heating Company, Eugene, was the low one at $17,339.00. This is a county project so all bids are being referred to Jackson County Court for further handling.

"Paving and construction of rock or gravel shoulders and furnishing of crushed material in stockpiles on the Fremont Junction-Rosa Creek Section of the Warner Highway, 4.3 miles north of Lakeview; grading and paving one mile on

the Lakeview Section of the Fremont and Klamath Falls-Lakeview Highways in Lakeview; and 0.33 mile of leveling course, shoulders and paving on the Lakeview (Pine Street North) Section on Pine Street in Lakeview, all three jobs being in Lake County: J. C. Compton Company, McMinnville, submitted the low combination bid for these three projects in the total amount of $243,975.50. Eight higher combination bids were received. The contract has been awarded to the low bidder, J. C. Compton Company, on its low combination bid price.

"Grade widening and paving on the Noble Slough-Foster Section of the Santiam Highway west and east of Sweet Home in Linn County: The Commission received seven bids for this work, the low one being that of Warren Northwest, Inc., Portland, at $216,616.50. The bid of Warren Northwest, Inc., in the sum of $216,616.50.is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grade widening and paving on the Mt. Angel Section of the Hillsboro-Silverton Highway in Mt. Angel, Marion County: Of the four bids received for this project, Warren Northwest, Inc., Portland, submitted the low bid at $63,039.50. The Commission has awarded the contract to the low bidder at its bid price.

"Construction of four reinforced concrete structures on the State Street-Battle Creek Unit of the Salem By-pass Section of US 99E in Marion County: Tom Lillebo, Reedsport, submitted the low bid for this work in the sum of $130,580.00. Three higher bids were received. The low bidder has been awarded the contract at his bid price.

"Removal of approximately 415 feet of reinforced concrete viaduct and construction of approximately 511 feet of reinforced concrete viaduct steel girder span, approximately 598 feet of reinforced concrete retaining wall, and approximately 1,600 feet of highway roadbed on 102d Avenue Overcrossing on the T. H. Banfield Expressway, Multnomah County: The Commission received seven bids on this project, that of Donald M. Drake, Company, Portland, being the low one at $188,223.25. The contract has been awarded to the low bidder at its bid price.

"Grading and paving the La Grande-Island City Section of the Wallowa Lake Highway northeast from La Grande in Union County: Of the seven bids received, the low one was submitted by K. F. Jacobsen, Inc., Portland, at $95,988.00. The contract has been awarded to K. F. Jacobsen, Inc., at its bid price.

"Mitchell-Willow Creek Rock Production Project on the Ochoco Highway east of Mitchell in Wheeler County: Only three bids were received for this work, the low one being that of Rogers Construction Company, Inc., Portland, at $34,500.00. The Commission has awarded the contract to the low bidder at its bid price."

The Commission discussed the projects requested by the delegation from Oregon City and Clackamas County during the morning session. As a result thereof the Commission authorized and instructed the Engineer to conduct an economic survey embracing all of them and to render a complete report of his findings.

The Secretary presented petitions signed by numerous residents of Lin-

coln and Tillamook Counties in which the Commission is urged to complete construction of the Siletz Secondary Highway between Kernville and Siletz at the earliest possible time. He was instructed to imform the petitioners that their project will be given due consideration in the programming of future highway funds.

There being no further business the meeting adjourned at 3:45 p.m.

Minutes of

February 17 and 18, 1953

EXHIBIT "A"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other materials sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

EXHIBIT "B"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Molalla Junction to Marquam Section of the Cascade State Secondary Highway in Clackamas County and in connection therewith to prepare a map showing the route and location of said section of highway and file said report and record with the Commission for consideration; and,

WHEREAS, the Engineer has reported that he has completed the said survey and has submitted the same for the approval or disapproval of the Commission; and,

WHEREAS, after due consideration of said survey, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members being present and voting affirmatively as follows:

1. That the survey of the Molalla Junction to Marquam Section of the Cascade State Secondary Highway, beginning at Engineer's Station 127+50 near the junction of the Cascade Secondary Highway with the Woodburn-Estacada Secondary Highway and extending in a southerly direction to Engineer's Station 491+00 near Marquam together with the map which for identification purposes bears Map No. 7B-17-1 and the date of January, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said section of said highway is permanently constructed the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the 17th day of February, 1953.

EXHIBIT "C"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, it has been brought to the attention of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's records or minutes, and

WHEREAS, notwithstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options has the informal approval of the Commission, and

WHEREAS, for the purpose of supplementing such informal records and action, it is the purpose of the Commission at this time to ratify all options so taken.

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, two members being present and voting affirmatively, as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with the construction, reconstruction, or other improvement of the following-named highway projects hereby are declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby are approved:

County and Section		Highway
DOUGLAS	Hinsdale Slough-Luder Creek (Grading and Paving)	Umpqua
CLACKAMAS	Molalla Junction to Marquam (Quarry and Right of Way)	Cascade
LANE	Judkins Point-Goshen Access Points (Frontage Roads and Grade Separations)	Pacific

2. It is further resolved that the informal action of the Commission and authorization for said acquisitions hereby are ratified.

3. That this resolution be entered in the minutes and records of the Commission as of February 17, 1953, and shall be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed on said attached page.

21321

EXHIBIT "D"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of state highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

Contract No. 3250, with Sound Construction & Engineering Co., for constructing the Highway Office Building in Salem, Marion County, completed February 2, 1953.

Contract No. 3397, with Tom Lillebo, for constructing the Bybee Bridge on the Table Rock Market Road in Jackson County completed November 15, 1952.

Contract No. 3624, with Tom Lillebo, for constructing the Anlauf Structures on the Pacific Highway in Douglas County, completed December 31, 1952.

Contract No. 3631, with H. & R. Construction Company, for constructing the Second Street Overcrossing in Hood River on the Columbia River Highway in Hood River County, completed November 24, 1952.

Contract No. 3636, with Lockyear & White, Inc., for constructing the Shogren Overcrossing on the Columbia River Highway in Wasco County, completed December 30, 1952.

Contract No. 3642, with N. A. Toole Construction Co., for furnishing crushed material in stockpile on the Unity Junction-Mill Gulch Section of the Baker-Unity Highway in Baker County, completed December 22, 1952.

Contract No. 3646, with Newport Construction Co., for furnishing crushed materials in stockpiles on the Pendleton Rock Production Project on four State Highways in Umatilla County, completed January 5, 1953.

Contract No. 3661, with N. A. Toole Construction Co., for furnishing crushed materials in stockpiles on the Alkali Lake Section of the Lakeview-Burns Highway in Lake County, completed January 31, 1953.

Contract No. 3689, with Electric Corporation, for installing the Woodburn Traffic Signals in Marion County, completed November 30, 1952.

Contract No. 3782, with Barney B. Helser for furnishing crushed materials in stockpiles on the Maupin Cow Canyon-Shaniko Section of The Dalles California and Sherman Highways in Wasco County, completed January 3, 1953

(cont.)

EXHIBIT "D" (cont.)

THEREFORE BE IT RESOLVED that the work covered by said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

21324

EXHIBIT "E"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, the Commission on the 10th day of July, 1952, fully approved and adopted the final survey of the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway in Curry County, Oregon, and in connection therewith ordered said survey maps, field notes, and other engineering data to be filed and preserved in the records of the Commission at Salem, Oregon; and,

WHEREAS the said section is located on a primary state highway, to-wit: The Oregon Coast Highway; and

WHEREAS, it was the intention and desire of the Commission on July 10, 1952, to not only adopt and approve the above-mentioned survey as such, but in addition to specifically provide that said section survey was to be constructed as a throughway and within the meaning and purpose of Chapter 226, Oregon Laws 1947; and

WHEREAS, the said resolution adopted on July 10, 1952, failed to fully set out the intentions and desires of the Commission with respect to the adoption of the said section survey as a throughway;

NOW THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, a majority of the members being present and voting affirmatively, as follows:

1. That the resolution dated July 10, 1952, approving and adopting the survey of the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway in Curry County, Oregon be and the same hereby is amended so as to include and incorporate therein the following paragraph:

> That the survey of the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway in Curry County, Oregon, has been made within the meaning and purpose of Chapter 226, Oregon Laws 1947, commonly known as the "Throughway Law", and said survey was likewise made within the scope and purpose of the resolution approved and adopted by the Highway Commission November 3, 1948. Therefore, the construction of the said section of the said Oregon Coast Highway shall be accomplished pursuant to the provisions of the said Throughway Law and said November 3, 1948, resolution.

2. That this amending resolution be entered in the minutes and re records of the Commission this 17th day of February, 1953.

EXHIBIT "F"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, the Highway Commission pursuant to and in accordance with Section 4, Chapter 226, Oregon Laws 1947, is authorized and empowered to layout, locate, relocate, adopt, establish, construct, designate, maintain and supervise the use and operation of new highways which shall be known as throughways as that term is defined in Section 3, Chapter 226, Oregon Laws 1947; and

WHEREAS, Section 4, Chapter 226, Oregon Laws 1947, also provides that any relocated section of an existing highway and such portions of existing highways which at the time the same are designated as throughways have less than ten commercial businesses abutting thereon catering to the motoring public in any one mile of such existing highways, may be designated and constructed as or converted into a throughway by the Highway Commission; and

WHEREAS, the Highway Commission has directed the Highway Engineer to prepare and file in the offices of the Highway Department at Salem, Oregon, a complete analysis and disclosure of all sections of that part of the Oregon Coast Highway which begins at Coquille and extends therefrom to the California border which sections on the date of this resolution, to-wit on the 17th day of February, 1953, have less than ten commercial businesses abutting thereon in any one mile, catering to the motoring public, and the portions or section of the said part of said highway which have abutting thereon ten or more commercial businesses per mile, catering to the motoring public; and

WHEREAS, the Highway Engineer pursuant to the directions of the Highway Commission has caused such study and examination to be made and has filed in the office of the Highway Department at Salem, Oregon, a complete set of maps on which there is shown all of the portions or sections of the Oregon Coast Highway from Coquille to the California border, and also on which there is shown all of the sections thereon which on the date of the adoption of this resolution have ten or more commercial businesses abutting thereon which cater to the motoring public in any one mile; and

WHEREAS, the Highway Commission has considered the aforesaid studies and investigations and after due deliberation does hereby find and declare that for the purpose of preserving human lives and minimizing property damage, and to facilitate the safe and convenient transportation of persons and property by motor vehicles, and to protect the safety and welfare of the public in general, that the Oregon Coast Highway and all sections thereof, including all relocated sections thereof, between Coquille and the California border, as hereinafter designated shall henceforth be classified, constructed, reconstructed, relocated and maintained as throughways as that term is defined in Section 3, Chapter 226, Oregon Laws 1947.

(cont.)

21325

EXHIBIT "F" (cont.)

Minutes of February 17 and 18, 1953

RESOLUTION

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That that part of the Oregon Coast Highway which extends from Coquille to the California border and all sections or portions thereof, including any section or portion thereof hereafter relocated, is hereby selected, designated and established as a throughway as that term is defined in Section 3, Chapter 226, Oregon Laws 1947, except for the portions or sections thereof which have on the date of the adoption of this resolution ten or more commercial businesses abutting thereon that cater to the motoring public in any one mile is hereby specifically excluded as a throughway; and, in connection therewith this Commission does hereby find and declare that four maps which are numbered 167, 168, 169 and 170, respectively, have been prepared under the direction of the State Highway Engineer and the same have been filed in the State Highway Department offices at Salem, Oregon, and on which maps there is shown that part of the Oregon Coast Highway which extends from Coquille to the California border, including those portions or sections thereof which have on the date of the adoption of this resolution ten or more commercial businesses abutting thereon that cater to the motoring public in any one mile. The aforementioned maps are by this reference incorporated herein, and are declared to be a part of this resolution as if fully set forth herein.

2. That this resolution shall be entered in the minutes and records of the Highway Commission as of the 17th day of February 1953.

EXHIBIT "G"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Jacksonville Hill Section of the Medford-Provolt State Secondary Highway in Jackson County and in connection therewith to prepare a map showing the route and location of said section of highway and file said report and record with the Commission for consideration; and,

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for the approval or disapproval of the Commission; and,

WHEREAS, after due consideration of said survey, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, a majority of the members being present and affirmatively voting as follows:

1. That the survey of the Jacksonville Hill Section of the Medford-Provolt State Secondary Highway, beginning at Engineer's Station 257+00, approximately $2\frac{1}{2}$ miles south of the town of Jacksonville, and extending in a northerly direction to Engineers Station 322+00, approximately $1\frac{1}{4}$ miles south of the town of Jacksonville, together with the map which for identification purposes bears Map File No. 7B-17-5 and the date of February, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said section of said highway is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the 17th day of February, 1953.

EXHIBIT "H-1"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six-month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Falls City	$2,677.88
Halsey	1,218.07
St. Paul	709.50

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 17th day of February, 1953.

EXHIBIT "H-2"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six-month period of 1952 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns;

Clatskanie	$2,438.76
Halsey	1,050.21
Prescott	322.10

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 17th day of February, 1953.

21321

EXHIBIT "H-3"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six-month period of 1952 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Bay City	$2,522.96
Long Creek	954.81
Rogue River	1,956.04
Sublimity.	1,216.72
Waterloo.	596.76

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 17th day of February, 1953.

EXHIBIT "I"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, that certain State Highway, known as the Corvallis-Newport Highway, as presently constructed through the city of Toledo, Lincoln County, Oregon, is routed over a city street heretofore selected and designated as a street over which to route state highway traffic, particularly Corvallis-Newport Highway traffic within the corporate limits of the said city of Toledo; and,

WHEREAS, it has been demonstrated that the parking of vehicles on said highway within the city of Toledo between its intersection with "A" Street and its intersection with Alder Street in said city constitutes and is a hazard to traffic and interferes with the safe and easy flow or movement of vehicles over said highway; and,

WHEREAS, it appears that the Common Council of the City of Toledo on the 5th day of January, 1953, adopted Ordinance No. 598 by which the parking of vehicles on said highway between "A" Street and Alder Street is prohibited; and,

WHEREAS, it is the judgment of this Commission that the State, through its State Highway Commission, should cooperate with the City of Toledo in the accomplishment of the purpose of said ordinance.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, a majority of its members being present and affirmatively voting as follows:

1. That the Commission does hereby ratify and approve said Ordinance No. 598 as adopted January 5, 1953 by the Common Council of the City of Toledo and hereby offers the cooperation of the State Highway Department to the end that the full benefit of said ordinance may be accomplished and the convenience and safety of the traveling public thereby advanced.

2. That the State Highway Engineer be and he hereby is instructed to erect "No Parking at Any Time" signs on said highway between its intersection with "A" Street and its intersection with Alder Street, and at such points between said termini as in the judgment of said Engineer are necessary to accomplish the purpose of said city ordinance and the action of the Highway Commission as herein declared.

3. That a certified copy of this resolution be sent to the Toledo City Council for its information and guidance.

4. That this resolution be entered in the minutes and records of the State Highway Commission as of the 17th day of February, 1953.

21331

EXHIBIT "J"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, the Pacific Highway is one of the major state primary highways and is likewise a federal highway, which highway throughout its entire length carries a large volume of traffic; and,

WHEREAS, it appears that at the intersection of the 12th Street truck route and the Pacific Highway East, immediately south of Salem, left-turn movements must be made by southbound traffic traveling on said highway in order to enter a section of the old route of the Pacific Highway East at said intersection, which said old route connects with a street known as Albert Drive on which is located numerous residences, and that at said intersection a hazardous condition is created by the parking of vehicles on said old highway route at this point; and,

WHEREAS, the parking of vehicles on the old highway right of way creates a hazard to vehicles entering the same from the new route of said Pacific Highway East, by reason of restricted sight distance, and also creates a hazard to the traveling public on said old highway; and,

WHEREAS, in the opinion of this Commission, public welfare and public safety require that parking should be prohibited within said area.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendations by members of its staff, that the parking of vehicles on the westerly side of the old route of the Pacific Highway East for a distance of 250 feet northerly from its intersection with the new route of the Pacific Highway East, south of Salem, and that the parking of vehicles on the easterly side of the old route of the Pacific Highway East for a distance of approximately 60 feet, measured from a point 30 feet northerly from said intersection to a point 30 feet southerly therefrom, creates a hazard not only to through traffic but to persons owning and using said parked vehicles.

2. That this Commission does hereby find and declare that the parking of vehicles on the right of way of said highway within said termini should be prohibited.

3. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the actior of the Highway Commission as herein declared, the signs on the westerly side of the old highway to bear in plain, legible letters, the words, "NO PARKING THIS SIDE" and those on the easterly side of said old route to bear

EXHIBIT "J" (cont.)

the words "NO PARKING BETWEEN SIGNS".

4. That a certified copy of this resolution be mailed to the Superintendent of the Department of State Police for his information and guidance.

5. That this resolution be entered in the minutes and records of the State Highway Commission as of the 17th day of February, 1953.

21333

EXHIBIT "K"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: REDWOOD HIGHWAY

Highway number: 25 Route number: US 199

Location of Termini		Established Speed
M. P. 40.10 (junction road to Jerome Prairie)	to M. P. 42.34 (junction hwy #261 Williams Secdy Hwy)	45 miles per hour

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

(cont.)

EXHIBIT "K" (cont.)

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the records and minutes of the Highway Commission as of the 17th day of February, 1953.

21335

EXHIBIT "L"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, the highways hereafter set forth or described have been duly designated and declared to be and are state highways and have been improved and are being maintained by the State Highway Commission pursuant to the laws of the State of Oregon as state highways, to-wit:

OREGON COAST Primary Highway No. 9
OCHOCO Primary Highway No. 41
SILETZ Secondary Highway No. 181
KINGS VALLEY Secondary Highway No. 191
ALSEA-DEADWOOD Secondary Highway No. 201
WESTON-ELGIN Secondary Highway No. 330
LITTLE SHEEP CREEK Secondary Highway No. 350
PAULINA Secondary Highway No. 380

and,

WHEREAS, said highways and sections of highways are, in the judgment of the State Highway Commission, being subjected to a kind and character of traffic which will damage and injure the said highways and sections of highways during the present period of freezing and thawing, and in order to protect said highways and sections of highways against such damage and injury, it is deemed and it is the judgment of the Highway Commission, and said Highway Commission finds that it will be for the best interests of said highways that the maximum weights permitted and authorized by law be reduced during such period; and,

WHEREAS, the State Highway Commission has, after due investigation, determined and found, and it is the judgment of the Commission that the maximum weights which shall be permitted upon any of said highways and sections of highways during said period shall be reduced and fixed as in this order provided.

NOW, THEREFORE, the premises being in part as above stated and the State Highway Commission being of the opinion that said highways and sections of highways were not built to sufficient standards to withstand adverse action of the elements and the maximum weights permitted and authorized by law, and the Commission having found upon due investigation that it will be for the best interests of said highways and sections of highways that the maximum total weight of load and vehicle which shall be permitted upon any of said highways and sections of highways during the said period, commencing on the dates hereinafter specified, shall be reduced so as to conform to the requirements fixed in this order.

IT IS HEREBY ORDERED that the maximum weight of combined load and vehicle or combination of vehicles which shall be permitted upon the fol-

EXHIBIT "L" (cont.)

lowing described highways and sections of highways shall not exceed 11,000 pounds gross on any single axle nor 20,000 pounds gross on any pair of tandem axles, nor a maximum of 36,000 pounds gross on all axles of the vehicle or combination of vehicles.

Name of Highway and No.		County	Section Restricted	Date Effective 1953
Oregon Coast	9	Coos	M. P. 274.36, S. end of Coquille River Bridge, to M. P. 385.00, three miles N. of Brookings	Jan. 24 8:00 a. m.
Ochoco	41	Crook & Wheeler	M. P. 34.8 jct. with old hwy, to M. P. 56.8, jct. with old hwy.	Feb. 19 8:00 a. m.
Siletz	181	Lincoln	M. P. 5.5, E. of Kernville, to M. P. 31.73, jct. with Corvallis-Newport Hwy. at Toledo.	Jan. 24 12:00 noon
Kings Valley	191	Polk & Benton	M. P. 1.01, S. city limits of Dallas, to M. P. 28.17, jct. with Corvallis-Newport Hwy.	Jan. 24 12:00 noon
Alsea-Deadwood (North Section)	201	Benton	M. P. 7.38 at S. end of old section to M. P. 9.69 about 2.31 miles south.	Jan. 24 12:00 noon
Weston-Elgin	330	Umatilla & Union	M. P. 8.0, 8 miles E. of Weston, to M. P. 37.9, Summerville Road.	Feb. 11 8:00 a. m.
Little Sheep Creek	350	Wallowa	M. P. 8.22 at end of oil section near road to Armin, to M. P. 30.42, end of state section at Imnaha.	Feb. 7 8:00 a. m.
Paulina	380	Crook	M. P. 1.0 near jct. with Ochoco Hwy to M. P. 15.0 about 1½ miles W. of jct. with old route.	Feb. 19 8:00 a. m.

IT IS FURTHER ORDERED, that these rules and regulations as made and found by the State Highway Commission under the provisions of Section 15, Chapter 405, Oregon Laws 1951, shall be in full force and effect from the effective date hereinabove specified until modified, annulled, or voided by the order of the State Highway Commission.

AND IT IS FURTHER ORDERED, that a notice be posted in a conspi-

cuous manner and place at each end of each of the above highways and at important crossroads on said highways so that said notice can be readily seen and read, which said notice shall state plainly the limitations and prohibitions of traffic hereby in this order determined and fixed.

AND BE IT FURTHER ORDERED that a certified copy of this order be be furnished to the county clerk of each county affected by this order, and that a certified copy of this order be furnished to the Superintendent of the Department of State Police for his information.

Dated this 17th day of February, 1953.

OREGON STATE HIGHWAY COMMISSION

By Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner

R. H. Baldock
State Highway Engineer

Attest
H. B. Glaisyer, Secretary

EXHIBIT "M"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, on the 19th day of February, 1952 and on the 17th day of February, 1953, the Commission adopted resolutions reducing the maximum load limit on various state highways and sections of highways; and,

WHEREAS, subsequent to the effective dates shown in said resolutions, conditions have changed so that it no longer is necessary or desirable and the Commission hereby finds that it no longer is necessary or desirable to maintain the reduced load limits set out in said resolutions.

NOW, THEREFORE, BE IT RESOLVED that the action of the State Highway Commission reducing the maximum permissible load limit as set forth in the said resolutions of February 19, 1952 and of February 17, 1953, on various state highways and sections of highways, to-wit:

Name of Highway and No.		County	Section	Date Removed 1953
Oregon Coast	9	Coos	M. P. 274. 36, S. end of Coquille Rv. Br., to M. P. 292. 69, S. city limits of Bandon.	Jan. 30 8:00 a. m.

be and the same hereby is rescinded and cancelled insofar as it pertains to the highways and section of highways listed hereinabove. The maximum load limit permissible on such highways and bridges subsequent to the removal dates shown shall be the maximum load limit provided by law.

IT IS HEREBY ORDERED that a certified copy of this resolution be furnished to the county clerk of each county in which said highways or sections of highways are located, and that a like copy be furnished the Superintendent of the Department of State Police for his information.

Dated this 17th day of February, 1953.

OREGON STATE HIGHWAY COMMISSION

By Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner

R. H. Baldock
State Highway Engineer

ATTEST:
H. B. Glaisyer, Secretary

EXHIBIT "N-1"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Santiam Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Noble Slough-Foster Section of the Santiam Highway; and

WHEREAS, said Commission is authorized to take fee simple title to said real property for right of way and other highway purposes; and

WHEREAS, the said Santiam Highway is a major highway of the State and as such carries large volumes of traffic both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper widening, improvement and maintenance of the Noble Slough-Foster Section of the Santiam Highway, the following described real property, to wit:

R-19776
Owner: J. F. McGlothren, et al

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 25, Township 13 South, Range 1 West, W. M., Linn County, Oregon, the said parcel being that portion of said Southeast quarter ($SE\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) included in a strip of land of variable width, lying on the Southerly side of the center line of the existing Santiam Highway, which center line is described as follows:

(cont.)

EXHIBIT "N-1" (cont.)

Beginning at Engineer's center line Station 1419+13.6, said Station being approximately 1750 feet South and 565 feet East of the West quarter ($W\frac{1}{4}$) corner of said Section 25; thence on a 1925 foot radius curve left (the long chord of which bears South 74° 13' East) 1155.7 feet; thence on a 833.6 foot radius curve left (the long chord of which bears North 77° 59' East) 308.4 feet; thence North 67° 23' East 118.2 feet; thence on a 1432.39 foot radius curve right (the long chord of which bears South 83° 00' East) 1480.8 feet to Engineer's center line Station 1449+76.7, said center line intersecting the West and East lines of said Southeast quarter ($SE\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) approximately at Stations 1427+50 and 1441+40, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station	to	Station	Width on Southerly Side of Center Line
West boundary of said Southeast quarter ($SE\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$)		1429+00	120 feet
1429+00		1439+00	70 feet
1439+00		East boundary of Southeast quarter ($SE\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$)	40 feet

The parcel of land to which this description applies contains 0.96 acre.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Santiam Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the Santiam Highway of a width not to exceed 25 feet on the Southerly side of the said Santiam Highway opposite Highway Engineer's center line Station 1440+80, for ordinary travel for private residential use only, and shall not be used in connection with any commercial activity.

EXHIBIT "N-1" (cont.)

The above said access to the highway from the said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to barricade said accesses for all purposes in the event of any violation.

3. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of the said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of February, 1953.

EXHIBIT "N-2"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Santiam Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Noble Slough-Foster Section of the Santiam Highway; and

WHEREAS, said Commission is authorized to take fee simple title to said real property for right of way and other highway purposes; and

WHEREAS, the said Santiam Highway is a major highway of the State, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper widening, improvement, and maintenance of the Noble Slough-Foster Section of the Santiam Highway, the following described real property, to wit:

R 19780
Owner: A. L. Weddle, et ux

A parcel of land lying in Lot 10, Block 1, Davis Heights addition to Sweet Home, situated in the Northwest quarter (NW$\frac{1}{4}$) of Section 31, Township 13 South, Range 1 East, W. M., Linn County, Oregon, the said parcel being that portion of said Lot 10 included in a strip of land 50 feet in width, lying on the Southerly side of the center line of the existing Santiam Highway which center line is described as follows:

(cont.)

EXHIBIT "N-2" (cont.)

Beginning at Engineer's center line Station 1485+65.1, said Station being approximately 1585 feet South and 1100 feet East of the Northwest corner of said Section 31; thence on a 2644.6 foot radius curve left (the long chord of which bears South 78° 15' East) 234.9 feet to Engineer's center line Station 1488+00, the Southerly line of said strip of land crossing the Northwesterly and Southeasterly lines of said Lot 10 approximately opposite Stations 1485+90 and 1487+65, respectively.

The parcel of land to which this description applies contains 0.044 acre, outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Santiam Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the Santiam Highway of a width not to exceed 25 feet on the Southwesterly side of the said Santiam Highway, opposite Highway Engineer's center line Station 1487+20.

3. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of February, 1953.

2134:

EXHIBIT "N-3"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Pacific Highway East is a highway under the jurisdiction and control of the State; and

WHEREAS, the Highway Commission has adopted a survey of a route and has designated said route as a state highway to be known as the Salem By-Pass Section of the Pacific Highway East, and has ordered and declared that said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, in connection with the proper establishment, construction and maintenance of the Salem By-Pass Section of the Pacific Highway East, and in connection therewith, the widening and improvement of Fisher Road so that Fisher Road will be a utility or service road to serve properties lying East of the Salem By-Pass Section and thereby form a connection by a system of county roads which will connect with and cross over or under the Salem By-Pass Section of the Pacific Highway East, the following described real property, to wit:

(cont.)

EXHIBIT "N-3" (cont.)

R 19557
Owner: George Bernhardt, et al

A parcel of land lying in the Southwest quarter ($SW\frac{1}{4}$) of Section 7, Township 7 South, Range 2 West, W. M., Marion County, Oregon, and being the Easterly 30 feet of that property described in that deed to George Bernhardt, recorded in Book 349, Page 213, of Marion County Records of Deeds, the said property of George Bernhardt being described as follows:

Beginning at a point which is reached by commencing at the Northwest corner of the Donation Land Claim of Towner Savage and wife No. 40, in Township 7 South, Ranges 2 and 3 West of the Willamette Meridian, in Marion County, Oregon; and running South along the claim line, 140 rods; thence East 15.32 chains parallel with the North line of said claim to said beginning point; thence East 4.50 chains to the West line of the lands owned by Lewis Savage; thence South 10.00 chains; thence West 4.50 chains; thence North 10.00 chains to the place of beginning.

The parcel of land to which this description applies contains 0.455 acre.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

4. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

5. That this resolution be entered in full in the minutes and records of the Commission this 17th day of February, 1953.

EXHIBIT "N-4"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, the Highway Commission has adopted a survey of a route and has designated said route as a state highway to be known as the Siletz Bay-Newport Section of the Oregon Coast Highway, and has ordered and declared that said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled; and

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed

(cont.)

EXHIBIT "N-4" (cont.)

and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Siletz Bay-Newport Section of the Oregon Coast Highway, the following described real property, to wit:

R 4198
Owner: Milton Stennett, et al

A parcel of land lying in Lot 2, of Section 17, Township 9 South, Range 11 West, W. M., Lincoln County, Oregon, and being a portion of that property described in that deed to Milton Stennett and Marie Stennett, recorded in Book 115, Page 493, of Lincoln County Records of Deeds, the said parcel being that portion of said property included in a strip of land of variable width, lying on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 474+45.6, said Station being 1745 feet North and 918 feet East of the Southwest corner of said Section 17; thence on a decreasing spiral curve right (the long chord of which bears South 74° 22' West) 400 feet; thence on an increasing spiral curve left (the long chord of which bears South 74° 22' West) 400 feet; thence on a 716.20 foot radius curve left (the long chord of which bears South 47° 52' West) 395.9 feet to Station 486+41.5. Said center line crosses the West line of said Lot 2 approximately at Station 484+25.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Northerly Side of Center Line	Width on Southerly Side of Center Line
477+00	482+45.6	35 feet	150 feet
482+45.6	485+00	30 feet	100 feet

The parcel of land to which this description applies contains 2.53 acres. of which 0.98 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 1.55 acres lie outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

(cont.)

EXHIBIT "N-4" (cont.)

a. A right of access to the relocated Oregon Coast Highway of a width not to exceed 35 feet on the Northwesterly side of the said relocated highway, opposite Highway Engineer's center line Station 482+50.

b. A right of access to the relocated Oregon Coast Highway of a width not to exceed 35 feet on the Northwesterly side of the said relocated highway, opposite Highway Engineer's center line Station 483+75.

c. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the Southeasterly side of the said relocated highway, opposite Highway Engineer's center line Station 484+10, for ordinary travel for private residential use only and shall not be used in connection with any commercial activity.

The above said accesses to the relocated highway from the said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to barricade said accesses for all purposes in the event of any violation.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access herein reserved to and from the aforesaid highway that are on or adjacent to any such frontage road or roads shall cease, but the owners, their heirs and assigns, shall have access to the frontage road or roads at such places as will afford reasonable and safe connections. Said frontage roads shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

EXHIBIT "N-4" (cont.)

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of February, 1953.

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, the Highway Commission has adopted a survey of a route and has designated said route as a state highway to be known as the Forest Boundary-Hauser Section of the Oregon Coast Highway, and has ordered and declared that said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain said Forest Boundary-Hauser Section of the Oregon Coast Highway, and in connection therewith, in order to relocate and construct the channel of an unnamed stream, an easement over the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take an easement over the said real property for the above described purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed

(cont.)

EXHIBIT "N-5" (cont.)

and required for the relocation and construction of the channel of an unnamed stream, in connection with the relocation, construction, improvement and maintenance of the Forest Boundary-Hauser Section of the Oregon Coast Highway, an easement over the following described real property, to wit:

R 18234
Owner: Peter Menegat, Jr., et al

A parcel of land lying Westerly of the Southern Pacific Railroad right of way in the Southwest quarter ($SW\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 23, Township 23 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being a strip of land lying Westerly of the Southern Pacific Railroad right of way and lying Easterly of a line which is parallel to and 260 feet Westerly of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning on the South line of said Section 23 at Engineer's center line Station 242+71, said Station being approximately 940 feet Easterly of the South quarter ($S\frac{1}{4}$) corner of said Section 23; thence North 17° 30' East 1729 feet to Station 260+00, the Northerly and Southerly limits of the said parcel being at right angles to said center line at Stations 251+50 and 244+50, respectively.

The parcel of land to which this description applies contains 0.96 acre.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

4. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best in-

terests of the State, the State Highway Commission, or the property owners.

5. That this resolution be entered in full in the minutes and records of the Commission this 17th day of February, 1953.

EXHIBIT "N-6"

Minutes of February 17 and 18, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Santiam Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Noble Slough-Foster Section of the Santiam Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes; and

WHEREAS, the said Santiam Highway is a major highway of the state and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for use in connection with the widening, improvement and maintenance of the Noble Slough-Foster Section of the Santiam Highway, the following described real property, located in Linn County, Oregon, to wit:

R 19784
Owner: D. L. Cochran, et al

A parcel of land lying in the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 32, Township 13 South, Range 1 East, W. M., Linn County, Oregon, and being a portion of that property conveyed by that deed to D. L. Cochran and Eura F. Cochran, recorded in Book 169, Page 817, of Linn County Records of Deeds, the said parcel being

(cont.)

21355

EXHIBIT "N-6" (cont.)

that portion of said property lying East of that tract of land conveyed by deed to O. O. Andrews and Stella M. Andrews recorded in Book 184, Page 287, Linn County Deed Records, and lying West of a county road and included in a strip of land 50 feet in width, on the Northerly side of the center line of the existing Santiam Highway, which center line is described as follows:

Beginning at Engineer's center line Station 1568+00, said Station being approximately 660 feet South and 1650 feet West of the Northeast corner of said Section 32; thence North 76° 53' East 900 feet to Engineer's center line Station 1577+00, the Northerly line of said strip of land crossing the East line of said Andrews tract and the West line of said county road approximately opposite Stations 1569+32 and 1576+05, respectively.

The parcel of land to which this description applies contains 0.154 acre, outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Noble Slough-Foster Section of the Santiam Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the Santiam Highway of a width not to exceed 25 feet on the North side of the said Santiam Highway, opposite Highway Engineer's center line Station 1569+50.

b. A right of access to the Santiam Highway of a width not to exceed 25 feet on the North side of the said Santiam Highway, opposite Highway Engineer's center line Station 1571+00.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of property with respect to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to

EXHIBIT "N-6" (cont.)

final determination such suit or action as may be necessary to acquire title to the aforesaid real property.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be and it hereby is entered in the minutes and records of the Commission this 17th day of February, 1953.

MINUTES OF SPECIAL MEETING

March 20, 1953

Upon being advised of the serious illness of H. B. Glaisyer, Secretary of the State Highway Commission, Charles H. Reynolds called a special meeting of the Highway Commission on March 20, 1953, with M. K. McIver, Floyd Query participating, by long distance telephone and the Commission adopted the following Resolution:

RESOLUTION

WHEREAS, H. B. Glaisyer is the duly appointed and qualified Secretary of the State Highway Commission; and

WHEREAS, H. B. Glaisyer by illness is temporarily incapacitated and unable to carry out all of the powers, functions and duties of his office; and

WHEREAS, Floyd Query is qualified in all respects to carry out all of the powers, functions and duties of the Secretary of this Commission authorized by Section 100-127 and Section 91-1004, O. C. L. A.

NOW, THEREFORE, BE IT RESOLVED that this Commission does hereby appoint Floyd Query as Acting Secretary, during the period of the incapacity of H. B. Glaisyer, to carry out and perform all of the powers, functions and duties of Secretary of this Commission which are authorized under said Section 100-127 and Section 91-1004, O. C. L. A.; and

BE IT FURTHER RESOLVED that a copy of this Resolution be certified by Floyd Query and filed with the Secretary of State, together with a sample of his signature.

There being no further business to come before the Commission, the meeting was declared adjourned by Acting Chairman Reynolds.

TABLE OF CONTENTS

Page	Date 1953	Subject
21358	Apr. 8	Bids received on construction projects.
21363		Parks Supt. reports on following matters:
		Wilhoit Springs. Clackamas County. Proposed acquisition. Purchase rejected.
		Advisory Committee on park matters proposed by Portland Chamber of Commerce to be carefully considered.
		Sodaville State Park. Linn County. Structural improvements to building approved.
		Ochoco State Park. Crook County. Request for soap box derby runway denied. Ski run approved.
21364		Silver Creek Falls Park. Marion County. One year extension of concession lease approved.
		Proposed changes in charges for use of state park facilities approved.
		Report of general park usage for 1952 filed.
		Wallowa Lake State Park. Wallowa County. Purchase of Wiggins property. Action deferred.
		Schooner Creek. Oregon Coast Hwy. Lincoln County. Purchase of area for park purposes denied.
21365		Rooster Rock. Columbia River Hwy. Multnomah County. Proposed beach development to be studied.
		Real property. Acquisition approved. See EXHIBIT "A".
		Wasco County. Columbia River Hwy. Mosier-The Dalles Section. Jacob G. Sherrer property. Elimination of parcel approved.
		Gilliam County. Columbia River Hwy. Arlington. Elimination of retail access to Shell Oil Company authorized.
		Real property. Acquisition of property for which no previous authority had been granted. See EXHIBIT "B".
		Sale of miscellaneous properties confirmed.
21366		Hood River County. Hood River. Settlement of June Haviland's water bill approved.
		Lane County. Eugene. Lease granted to Wheel and Rim Service, Inc. for use of property between 6th and 7th Streets.
		Multnomah County. Pacific Hwy. North Portland. Acquisition of Hunsperger property approved conditionally.
		Coos County. Coos Bay. "Consent to Assignment of Lease" granted Walter J. Brandon on property in West Bunker Hill Addition.
		Clatsop County. Columbia River Hwy. Big Creek Section. Quitclaim deed to county on stockpile site approved.
		Clackamas County. Mt. Hood Hwy. Zigzag-Rhododendron Section. Acquisition of property from County.
21367		Clackamas County. Mt. Hood Hwy. Sandy-Zigzag Section. Engineer to give economic survey report at May meeting.
		Douglas County. Elkton-Sutherlin Hwy. Calapooya-Sutherlin Section. Change of access points to Culver property approved.

Page	Date 1953	Subject
21367	Apr. 8	Gilliam County. Columbia River Hwy. Arlington-Heppner Jct. Section. Change of access to Shane property approved.
		Douglas County. Oregon Coast Hwy. Reedsport-Coos County Line Section. Change of access to Grant property approved.
		Hood River County. Columbia River Hwy. Cascade Locks-Herman Creek Section. Payment to Kendrick for irrigation facilities approved.
		Written offer to be made to Kendrick for 4.61 acres.
21368		Douglas County. Umpqua Hwy. Paradise Creek-Elkton Section. Acquisition of Kaskich land for myrtlewoods preservation area rejected.
		Wasco County. Columbia River Hwy. Shogren-Rowena Unit. Agreement approved with RR and Navigation Company re relinquishment of road easement across Chatfield property. Easement approved with OWR&N Company for roadway outside hwy. r/w.
		Douglas County. Pacific Hwy. Yoncalla Overcrossing. Agreements with SP RR Company re overcrossing approved.
		Umatilla County. Pendleton. Sale of property to the Lees confirmed.
		Multnomah County. Portland. Kern's Addition. Quitclaim deed on Klosternam property approved.
		Condemnation. Authority granted. See EXHIBITS "Q-1" through "Q-14".
21373		Trial cases in court. Report made.
		Tillamook County. Oregon Coast Hwy. Bay City-Tillamook Section. Jerry F. Arthur, re damages approved.
		Multnomah County. Banfield Expressway. Perry A. Jorgensen, re land approved.
		West Portland-Hubbard Hwy. Barbur Boulevard-Marion County Line Section. Howard Ellman, re r/w approved.
		Tillamook County. Oregon Coast Hwy. Little Nestucca River-Neskowin Section. Wm. P. Lord, re title for land approved.
21374		Lincoln County. Corvallis-Newport Hwy. Newport-Toledo Section. Roy E. Olson, re acquisition of land approved.
		Lincoln County. Corvallis-Newport Hwy. Newport-Toledo Section. John A. Moore, re acquisition of land approved.
		Settlement of the following cases:
		Douglas County. Pacific Hwy. Elkhead Road-Rice Hill Section. Darrell Ross, re purchase of land approved.
		West Portland-Hubbard Hwy. Boones Ferry Road-Willamette River Unit. Arthur O. Sasaki, re acquisition of land approved.
		Douglas and Coos Counties. Oregon Coast Hwy. Reedsport-Hauser Section. Alvin Johnson, re acquisition of land approved.
		Douglas County. Pacific Hwy. Winchester-Shady Section. Hugh Harrison, re acquisition of land approved.
		Wallowa County. Wallowa Lake Hwy. Lostine Section. Merton S. Wade, re acquisition of land approved.
21375		Condemnation cases. Settlement out of court.
21376		"Throughway Law". Resolution amending previous resolutions approved. See EXHIBIT "C".
21377		Legislative matters. Report showing status of bills submitted to this legislature.

Page	Date 1953	Subject
21377	Apr. 8	Coos County. Simpson State Park. Easement granted to Al Peirce for roadway across park.
		Linn County. Santiam Hwy. Noble Slough-Foster Creek Section. Removal of frontage road provision approved.
21378		Elmer A. Buckhorn, patent attorney, employed to handle the Wayne E. Murphy claim re patent on IBM processes.
		John W. Shuler. Payment of fee approved for services rendered re issuance of Highway Bonds.
		Clackamas County. Beaverton-Aurora Secdy. Hwy. Wilsonville Ferry. Bruck to move poles, lines, etc.
		~~Douglas~~ and Coos Counties. Oregon Coast Hwy. Reedsport-Hauser Section. Settlement of Cole case approved.
		Clackamas County. Oswego Hwy. Oswego. Request by city for widening hwy. approved.
		Lane County. Territorial Secdy. Hwy. Veneta. Shoulder parking prohibited. See EXHIBIT "H".
21379		Award of contracts. Engineer reports satisfaction of conditions.
21380		Leland W. Post's log hauling permit restored conditionally.
		Engineer's report showing estimates of income and expenditures during 1952 to 1955.
21381		Washington County. Tigard-Tualatin area. Request for new bridge and improvement of ORE 217 denied.
		Permit. Request of Interstate Tractor and Equipment Company, to move Skagit loader approved conditionally.
		Gilliam and Morrow Counties. Old Oregon Trail. John Day River-Heppner Jct. Section. Action deferred re fire protection.
21382		Lane County. Fox Hollow Secdy. Hwy. Eugene south. Completion of hwy. postponed for the present.
		Used equipment and scrap materials. Results of bids on March 26th considered and accepted.
		Special city allotment projects. Engineer's report showing status of $250,000 for 1950-51-52 filed.
		Douglas County. Pacific Hwy. Roseburg. north. Request for access from Housley property to hwy. denied.
		Union County. North Powder. Request for access on city street deferred pending inspection.
21383		Traffic Signals at school crossings. Policy requested. Action deferred for further study.
		Union and Baker Counties. Old Oregon Trail. Ladd Canyon-Rattlesnake Springs Section. Wayside sites considered.
		Contracts. Increases in project authorizations approved.
21384		Tillamook County. Oregon Coast Hwy. Neahkahnie Mt. road. Request for a survey to top of mountain denied.
		Coos County. Oregon Coast Hwy. Riverton. Request by Mr. Newton for installation of cattle pass approved. Requests for other cattle passes in this locality denied.

Page	Date 1953	Subject
21384	Apr. 8	Clatsop County. Astoria. Approved transfer of project funds from ferry terminal to: Benton County. Corvallis-Newport Hwy. Noon Bridge. Tillamook County. Oregon Coast Hwy. Nehalem River Bridge. Polk County. Pacific Hwy. West. Luckiamute River Bridge.
21385		Tillamook County. Oregon Coast Hwy. Rockaway. Request for steel grating over end of culvert denied.
		Klamath County. The Dalles-California Hwy. Crater Lake Jct. north. Transfer of funds to this hwy. approved.
		Jackson County. Medford. Signals. Request for an increase in state's share of cost approved.
		Clatsop County. Federal Aid Secdy. funds. Request to increase the amount allocated to county roads approved.
		Josephine County. Williams Secdy. Hwy. Grants Pass-Murphy Section. $150,000 to be placed in reserve.
21386		Josephine County. Redwood Hwy. Cave Jct.-California State Line Section. Request to oil shoulders approved.
		Yamhill County. Pacific Hwy. West. Newberg. Request from city to improve hwy. approved.
		Grant County. Kimberly-Long Creek Secdy. Hwy. Request for completion of hwy. Action deferred.
		Clackamas County. Oregon City. 7th and Main Streets. Request for traffic signal at intersection approved.
		Baker County. Baker-Homestead Hwy. Halfway Jct.-Robinette Section. Improvements deferred pending dam construction.
21387		Deschutes County. The Dalles-California Hwy. Redmond. Request for widening of 6th Street denied.
		Douglas County. Pacific Hwy. Canyonville north. Luminaire units at intersection of old and new alignments approved.
		Yamhill County. Pacific Hwy. West. McMinnville north. Request for illumination at intersection denied.
		Jefferson County. Madras south. Request for illumination of jct. of US 97 and US 26 denied.
21388		Lane County. Junction City-Eugene Secdy. Hwy. Eugene-Maxwell Road Section. Request for sidewalk denied.

Floyd Query, Acting Secretary

Bids, as follows, for highway construction were opened and read aloud by the Acting Secretary pursuant to previously published notice, at the conclusion of which it was announced that the awards of contracts would be made at 4:00 p.m. in the same room:

BAKER COUNTY
RICHLAND MAINTENANCE BUILDING

Loree Building Service, La Grande	$ 12,766.88
C. K. Olson, Nyssa	13,989.50
Witham Brothers, Baker	14,105.00
American Construction Company, Beaverton	14,701.00
Jensen & Mayes, Haynes	14,958.31
Bechtel Brothers, Elgin	15,460.00

CLACKAMAS COUNTY
CANBY GRADING AND PAVING PROJECT

and

MARION COUNTY
HUBBARD GRADING AND PAVING PROJECT

See tabulation of bids on the following page.

Canby and Hubbard Grading and Paving Projects (cont.)

Bidder	Canby Project	Hubbard Project	Lump Sum Reduction	Total Combined Bids
Warren Northwest Inc. Portland	$10,620.00	$4,983.50	------	$15,603.50
Western Paving & Constr. Co., Albany	11,190.00	4,591.00	------	15,781.00*
Oregon Asphalt Paving Co., Portland	12,096.50	5,206.50	------	17,303.00
Portland Road & Driveway Co., Portland	12,836.00	4,882.00	$350.00	17,368.00* **

* Bidder will accept Canby Project only in combination with Hubbard Paving Project.

** Bidder will make lump sum reduction of $350.00 if awarded both projects.

CLATSOP COUNTY
NEHALEM RIVER BRIDGE

Larson Construction Co., Astoria	$141,398.00
H. G. Palmberg, Astoria	143,356.00
Tom Lillebo, Reedsport	150,120.00
Geo. E. Berry & John R. Saxton, Beaverton	154,447.00
Lindstrom Brothers, Astoria	161,214.00
General Construction Co., Portland	161,652.20
Murray-Stanfield & Murray Brothers, Bend	165,050.00
Valley Construction Co., Portland	168,540.00
Natt McDougall Co., Portland	169,871.00
C. J. Eldon, Portland	170,439.50
Schrader Construction Co., Portland	189,501.00

COOS COUNTY
COOS BAY TRAFFIC SIGNALS

Trowbridge & Flynn, Medford	$ 3,640.00
W. R. Grasle, Portland	3,848.00

DESCHUTES, HARNEY AND OTHER COUNTIES
DIVISION NO. 4 REOILING PROJECT

Babler Brothers, Inc., Portland	$139,643.00
J. C. Compton Co., McMinnville	147,644.40
D-H Paving Co., Vancouver, Washington	153,614.50
Doolittle Construction Co., Seattle, Washington	164,386.00
Harr & Horton, Portland	168,211.70

April 8, 1953

DOUGLAS COUNTY
GRADING AND PAVING OREGON COAST HIGHWAY

Coos Bay Dredging Co., Coos Bay	$593,135.00
Fred H. Slate Co. Oreg. Ltd., Portland	595,436.50
Cosmo Gilo, Lowell	595,772.00
J. N. Conley, Portland	647,934.00
Natt McDougall Co., Portland	691,268.00
J. W. Briggs & Associates, Bend	725,345.00
Gibbons & Reed Co., Salt Lake City, Utah	738,523.00
Peter Kiewit Sons' Co., Longview, Washington	747,325.00

DOUGLAS COUNTY
WILBUR OVERCROSSING

Tom Lillebo, Reedsport	$ 58,380.00
Orlando C. Bennard, Portland	59,810.00
Hamilton & Thoms, Eugene	60,170.00
Lindstrom Brothers, Portland	60,850.00
Todd Building Co., Roseburg	61,640.00
Glen Snook, Eugene	62,490.00
Babler Brothers, Inc., Portland	62,720.00
General Construction Co., Portland	65,000.00
Valley Construction Co., Portland	68,155.00

DOUGLAS COUNTY
REMOVAL OF OLD COMSTOCK OVERCROSSING

Fred H. Slate Co. Oreg. Ltd. & E. C. Hall Co., Portland	$ 9,800.00
Hamilton & Thoms, Eugene	13,000.00
Glen Ousley, Eugene	13,616.00
Babler Brothers, Inc., Portland	14,800.00
George E. Berry, Beaverton	17,777.00
American Construction Co., Beaverton	17,932.00
Tom Lillebo, Reedsport	21,500.00
Schrader Construction Co., Portland	21,500.00
John A. Logan, Portland	26,000.00
Gaylord Construction Co., Portland	32,246.00

DOUGLAS COUNTY
VETERANS ADMINISTRATION FENCING PROJECT

San Jose Steel Co., Inc., Portland	$ 7,968.60

DOUGLAS AND JACKSON COUNTIES
TILLER-DEADHORSE CREEK ROCK PRODUCTION PROJECT

See next sheet.

April 8, 1953

21361

Tiller-Deadhorse Creek Rock Production Project (cont.)

M. C. Lininger & Sons, Medford	$ 27,525.00

April 8, 1953

CLATSOP COUNTY
ASTORIA-MEGLER FERRY SERVICE

Astoria Navigation Co., Astoria	$169,937.35
Arrow Transportation Co., Astoria	185,700.00
Babbidge & Holt, Portland	201,176.48

The Parks Superintendent reported on the following park matters:

1. Proposed acquisition of Wilhoit Springs area for a state park: The Parks Superintendent stated that the owners of the property, Mr. and Mrs. Albert Schoen[illegible]n, had again requested that the property be purchased; also inquiries had been received from Mr. Neal A. Butterfield, representative of the National Park Service at Portland, and from Mr. Murley M. Larimer, concerning acquisition of the area. He also advised that the property is now offered at $28,000 and that there are no changes in the conditions affecting the area. The Commission rejected the purchase.

2. Proposal regarding the appointment of an advisory committee on state park matters: The Parks Superintendent stated that from his standpoint he would have no objection to the committee if their activities were properly handled. The matter was discussed briefly, and it was pointed out that such a committee might entail a measure of divided authority in the handling of state parks and that there appeared to be few off-setting advantages. The Commission decided to reserve judgment on the matter until the appearance of a delegation on the following day. (Upon appearance of the Recreational and Natural Resources Committee of the Portland Chamber of Commerce, the Commission heard their plea and advised them that they would give careful consideration to their request. See paragraph ahead.)

3. Improvements to building in Sodaville State Park: The Parks Superintendent recalled that in December of last year use of the building had been granted to the Sodaville Women's Club and other small groups. Since that time, it was found four other groups were using the building regularly as well as intermittent groups who held annual reunions and picnics in the area. The building has been examined for safety by the Bridge Department and also by the State Fire Marshall relative to the fire hazard. To make the building structurally safe and to provide a second exit to the upper floor as requested by the Fire Marshall, he recommended an expenditure of approximately $350. The Commission approved the recommendation.

4. Request of Mr. M. W. Rarey, Prineville, to purchase or lease an area at Ochoco State Park for a soap box derby and winter ski area: The Parks Superintendent reported that the area Mr. Rarey wishes to use is a part of the Ochoco State Park and that construction of a soap box derby runway would place a bad scar upon the hillside. Insofar as the ski run is concerned, he felt that it could be constructed without material damage to the scenery, and he therefore recommended that the request for the soap box derby course be denied and use of the ski

run be approved on a route to be selected by the Parks Department. The Commission accepted the recommendation.

5. Extension of a lease with Roland Nohlgren to operate the Silver Creek Falls Park concession: The Parks Superintendent reported that these operators have had the concession during the past three years and now wish to extend the lease for one year. They have asked the State to haul the garbage from the premises, and they, in turn, will take care of clean-up of the area between the walks and the building. They also requested the installation of an additional doorway. It was his thought that the hauling of the garbage would cause no extra expense as garbage disposal is now required in other areas in the park, and that the installation of the additional door would cost about $75. He recommended, and the Commission approved, the extension of the lease for one year with the changes as outlined.

6. Proposed changes in charges for use of state park facilities: The Parks Superintendent explained that the cost of operating the parks has increased, and to keep pace with rising costs, it is necessary to make some increase in charges in order to pay the cost of the services furnished. He mentioned a number of the proposed rate changes, including campers'-weekly and overnight, bathing facilities at Honeyman Park, and other services which were discussed briefly. Following the discussion, he recommended that the changes as shown in his letter of April 1, 1953 be approved. The Commission approved the recommendation. (For further details, see the Parks Superintendent's letter in General Files.)

7. Report of general park usage for the year 1952: The Parks Superintendent stated that this report had been submitted to the Commission in writing as of April 2. The Commission took no action other than to order the report filed.

8. Proposed enlargement of Wallowa Lake State Park: The Parks Superintendent recalled that the Commission had previously asked him to investigate the merits of using the Wiggins property consisting of 34 acres, for expansion purposes, or the possibilities of extending the county road south about a mile to the Pacific Power and Light Company plant where an area could be obtained on a 99-year lease from the power company. The cost of development for this latter area, including construction of the necessary roadway, he estimated at $45,000. Mrs. Wiggins, he stated, has reduced her asking price for the 34 acres to $39,000 plus $11,000 for the property owned by her son. After some further discussion, the Commission deferred action on the matter pending a visit by the Commission on one of their trips this coming summer.

9. Proposed state park at Schooner Creek, four miles north of Yaquina Bay on the Oregon Coast Highway: The Parks Superintendent explained that Miss Helen P. Smith of Portland had requested that the state purchase from her approximately five acres to be used as a state park. Investigation disclosed, he stated, that the state has areas for park use at Yaquina Bay, at Spencer Creek, as well as farther north at Otter Creek, Boiler Bay, and Rocky Creek. In view of this, he recommended, and the Commission

approved, that the request be denied.

10. Proposed beach development at Rooster Rock on the Columbia River Highway: The Parks Superintendent exhibited a map and outlined the possibilities of development, pointing out that the area is an excellent one for swimming and would be very popular with Portland and nearby residents. In the discussion of the development of this area, it was pointed out that the biggest problem would be construction of facilities to get traffic off and on the Columbia River Highway. The Parks Superintendent estimated that development of park facilities on Rooster Rock would cost about $50,000. The Commission instructed the Engineer to prepare an estimate of costs for getting traffic on and off the highway and deferred further action pending the appearance of a delegation on this matter the following day. (The delegation was informed that no immediate improvement is planned but the matter is being given careful study. See paragraph ahead.)

The Right of Way Engineer presented for the Commission's approval options obtained for the acquisition of real property needed as right of way or for other purposes in connection with State Highway construction. After careful consideration, the Commission approved the options as reported and authorized the Right of Way Engineer to close them in accordance with the prices mentioned therein. The attached resolution, relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission unanimously.

Rowena-The Dalles Unit - Mosier-The Dalles Section, The Columbia River Highway, Jacob G. Sherrer, File No. 17804: In connection with the option for this property, the Right of Way Engineer explained that there are some people who wish to buy a parcel which is not needed for right of way purposes. The parcel concerned consists of 0.84 acre for a total of $2,646.00 and is landlocked by reason of the taking. He recommended that this item be eliminated from the option provided the arrangement is agreeable with the owner, Mr. Sherrer, and provided that it be clearly understood that the property, if sold, is to be without access to the highway. The Commission approved the recommendation.

The Commission also discussed the acquisition of property, payment for moving, and the matter of access for the Shell Oil Company's plant in Arlington on the Columbia River Highway, Right of Way File No. 19505. The Commission instructed the Right of Way Engineer to negotiate with the Shell Oil Company for the elimination of the right of retail access to the plant, confining their access to wholesale operations, and to advise the Commission as to whether the Shell Oil Company is agreeable. The option was withdrawn from the list presented.

The Right of Way Engineer requested authority to negotiate for acquisition of property needed for right of way on sectio[illegible]r which no previous authority had been granted. The Commission approved the [illegible]quest unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission unanimously confirmed sales of miscellaneous properties as reported by the Right of Way Engineer. (For a list of the properties sold, see

copy of report prepared by Mr. C. W. Parker, Property Manager, dated April 8, 1953 on file in the Secretary's office under the heading "Miscellaneous Sales".)

The Commission considered the matter of paying a bill for water furnished to Mrs. June Haviland, Hood River. The Right of Way Engineer explained that Mrs. Haviland's water line crossed state property on which contract work was being performed, and the line had somehow or other been broken and water had been seeping into the ground. The bill as of the forepart of April amounted to $273.20. The Engineer pointed out that the right of way option contained a clause that the State is to protect and re-establish all water lines. He recommended, therefore, that the bill in the amount of $273.20 be paid and that reimbursement from the contractor be sought if it can be proved that he is liable. The Commission approved the recommendation.

The Commission considered and approved granting of a lease to the Wheel and Rim Service, Inc., for the use of property between 6th and 7th Streets in Eugene. The Right of Way Engineer explained that the lease covers the period from March 1, 1953 to February 28, 1957 with a six-months cancellation clause, and the consideration is to be $3,000 payable at $750 per year. (The lease was signed by the Commission on the following day.)

Consideration was given by the Commission to the purchase of the Hunsperger property at the intersection of Denver and Union Avenues on the Pacific Highway in North Portland. The Right of Way Engineer explained that appraisals have been secured on the property ranging from $16,500 to $25,000. The owners, he stated, have said they will accept $23,000. He explained that although only a small sliver of property is necessary at this time for construction, it would be desirable to acquire the property to prevent the erection of signs and business establishments which might create a hazard to highway traffic. He recommended, and the Commission approved, acquisition of the property if it can be purchased for $20,000.

The Commission considered and approved a "Consent to Assignment of Lease" whereby Walter J. Brandon and Evangeline M. Brandon are granted permission to assign to the Assembly of God Church of Bunker Hill in Coos Bay their lease rights on Lots 3 and 4 and a portion of Lot 2 in Block 12, West Bunker Hill Addition to the City of Coos Bay. This property lies adjacent to the Oregon Coast Highway. (On the following day, the Commission signed the assignment of lease.)

The Commission approved a quitclaim deed to Clatsop County transferring to the County an old stockpile site containing 0.87 acre on the Big Creek Section of the Columbia River Highway in Clatsop County. The Right of Way Engineer explained that the State has no further use for this property and that it will be of some value to the County. (The deed was signed on the following day.)

In connection with property to be acquired from Clackamas County on the Zigzag-Rhododendron Section of the Mt. Hood Highway in Clackamas County,

the Right of Way Engineer reported that the County so far has not been willing to grant restriction of access on property to be acquired from them. He requested that the Commission reject options secured from the County, and that he be authorized to again contact the county officials in an attempt to negotiate for the property on a basis of restricted access. The Commission approved the request.

In the discussion of the property to be acquired from Clackamas County, Commissioner McIver inquired as to the progress being made on the economic survey on the section from Sandy to Zigzag. The Engineer replied that the survey is underway and that he expected to have a report for the May meeting.

The Right of Way Engineer recommended, and the Commission approved, two changes in access points to the property of J. W. and Maude Culver on the Calapooya-Sutherlin Section of the Elkton-Sutherlin Highway in Douglas County. He explained that these are changes in location only and do not give the property owners any access which they did not have previously. (The indentures of access were signed by the Commission on the following day.)

The Commission also approved an indenture of access granting a change in point of access to the property of George W. and Lillian Shane on the Arlington-Heppner Junction Section of the Columbia River Highway in Gilliam County. The change in access, the Right of Way Engineer stated, involves a change in the location and the installation by the State of a three-quarter-inch galvanized iron pipe to be placed within a four-inch concrete pipe at Highway Engineer's Station 243+58. (The indenture was signed by the Commission on the following day.)

Upon recommendation by the Right of Way Engineer, the Commission also approved an indenture of access changing the access point to the property of Andrew and Maurine Grant on the Reedsport-Coos County Line Section of the Oregon Coast Highway in Douglas County. These changes, he advised, involve a change in location and a change in width from 25 to 30 feet. (The indenture was signed by the Commission on the following day.)

The Right of Way Engineer presented for the Commission's consideration the matter of compensating a Mr. Kendrick in the sum of $287.23 for expenses incurred by Mr. Kendrick in providing irrigation facilities. He explained that in the construction work on the Cascade Locks-Herman Creek Section of the Columbia River Highway, it had been necessary to move Mr. Kendrick's irrigation pump. In reinstalling the pump, Mr. Kendrick had been put to additional expense, principally in securing a new transformer in order to provide power. He recommended that he be compensated in the sum of $287.23. The Commission approved the recommendation.

The Right of Way Engineer requested that the Commission grant approval to make an offer in writing of $230.50 for 4.61 acres owned by Mr. Kendrick on the Cascade Locks-Herman Creek Section of the Columbia River Highway in Hood River County. The area is needed for slide control purposes. He explained that Mr. Kendrick has refused to negotiate with the State Right of Way Agent on the acquisition, and it is desired to make him a bonafide offer in writing so that the State's position may be clear in case at some future time Mr. Kendrick might institute inverse con-

demnation proceedings. The Commission approved the request.

The Commission considered the matter of acquiring from Mrs. Kaskich a parcel of land on the Paradise Creek-Elkton Section of the Umpqua Highway in Douglas County as a myrtlewoods preservation area. The Right of Way Engineer explained that the Myrtlewoods Organization had previously agreed to pay one-half the cost of this property, amounting to $500, but so far the State has not been able to secure an option; however, the Myrtlewoods group have indicated that they would request that certain restrictions be placed in the deed limiting the use of the area for the preservation of myrtlewood only and not permitting any use of the right of way for highway construction purposes. After discussion, the Commission decided not to accept a deed containing restrictions as outlined.

The Commission considered and approved an agreement with the Oregon-Washington Railroad and Navigation Company relating to relinquishment of the Railroad's original road easement across the Chatfield property on the Shogren-Rowena Unit of the Columbia River Highway in Wasco County. The Commission also approved an easement with the O. W. R. & N Company for a roadway outside the highway right of way and the right to maintain and use a private roadway within the right of way boundaries. (The Commission signed the agreements on the following day.)

The Commission also gave consideration to and approved a construction agreement and an easement agreement with the Southern Pacific Railroad Company concerning the Yoncalla Overcrossing on the Pacific Highway in Douglas County. The Engineer explained that these agreements are necessary in connection with the contract on which bids are being received at this letting. (The Commission signed both agreements on the following day.)

The Right of Way Engineer presented, and the Commission confirmed, the sale of Lot 3 and a part of Lot 4 in Block 1 of South Pendleton to Sheow Nom Lee and Eng Shee Lee for the sum of $750. This property, he advised, has no value to the State for right of way purposes.

The Right of Way Engineer also presented for the Commission's approval the disposal of a five-foot easement secured from Thomas K. Klosternam on Lots 3 and 4, Block J, Kern's Addition to East Portland. This easement, he explained, is no longer necessary, and he recommended that it be removed by quitclaim deed to all rights and easements to construct, maintain, repair, and have free access to all cuts or fills on the property described. The Commission approved the recommendation.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties needed for public purposes in connection with various highway improvements and to make offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Joseph-Sheep Creek Hill Section of the Little Sheep Creek Highway

	Recommended offer
R 19863 - Lawrence Estes Right of Way (Wallowa) 11.81 acres	*

82nd Avenue-Halsey Street Connection of Unit No. 4 of the T. H. Banfield Expressway

R 20006 - Gordon C. Dudley Right of Way (Multnomah) 4,500 square feet	*
R 20008 - Cecil E. Ruef Right of Way (Multnomah) 8,568 square feet	*
R 20011 - James Hopkins 10,000 square feet Right of Way (Multnomah)	*
R 20069 - George A. Baker Right of Way (Multnomah) 450 square feet	*
R 20070 - S. P. Nagler Right of Way (Multnomah) 3,187 square feet	*

Calapooya Creek-Sutherlin Section of the Elkton-Sutherlin Highway

R 20222 - Sidney Leiken Outfall ditch for a culvert (Douglas) 0.083 acre	*
R 20223 - Kenneth J. Briscoe Outfall ditch for a culvert (Douglas) 0.083 acre	*

Barbur Blvd.-Marion County Line Section of the West Portland-Hubbard Highway

R 20226 - Lewis Keil Right of Way (Clackamas) 2.11 acres	*
R 19565 - Halberstadt, Jennie Right of Way (Washington) 1.153 acres	*
R 19658 - Leslie M. Erickson Right of Way (Clackamas) 0.033 acre	*

April 8, 1953

Barbur Blvd. -Marion County Line Section of the West Portland-Hubbard Highway

	Recommended offer
R 19659 - Nate Cozey Right of Way (Washington) 0.126 acre	*
R 19660 - Daisy Hunsacker Right of Way (Washington) 0.099 acre	*
R 19662 - Carl Johnson Right of Way (Clackamas) 0.63 acre	*
R 19814 - Frank Harvey Anderson Right of Way (Clackamas) 0.03 acre	*
R 19883 - Clarke T. Wheelbarger Right of Way (Washington) 0.096 acre	*
R 19885 - Arthur E. Lauer Right of Way (Washington) 1.728 acre	*
R 19887 - Ivan Jones Hermsen Right of Way (Washington) 3.86 acres	*

South Unit of the Elbow Lake-Gardiner Section of the Oregon Coast Highway

R 19652 - Crown Zellerbach Corporation Right of Way (Douglas) Parcel No. 1: 1.4 acres Parcel No. 2: 3.6 acres	*
R 19653 - Margaret B. Sparrow Right of Way (Douglas) 75.5 acres	*
R 19654 - Coos Bay Pulp Corporation Right of Way (Douglas) 10.41 acres	*
R 19655 - Gardiner Lumber Company Right of Way (Douglas) Parcel No. 1: 9.35 acres Parcel No. 2: 9.78 acres	*

April 8, 1953

21371

Garden Valley Road-2nd Crossing South Umpqua River Unit of the Deady-Shady Section of the Pacific Highway

		Recommended Offer
R 18519 - Frank A. Smith Right of Way (Douglas) 2.4 acres at $500	$1,200.00	$1,200.00

Jacksonville Grade Unit of the Provolt-Jacksonville Section of the Medford-Provolt Highway

R 19962 - G. A. Kimball
Right of Way (Jackson)
3.40 acres *

Crow-Lane County Line Section of the Territorial Highway

R 20057 - Harold L. Pulley
(Lane)
Parcel No. 1: 12.64 acres for Quarry Site
Parcel No. 2: 1.28 acres for an Easement for a Haul Road *

Winchester-Garden Valley Road Section of the Pacific Highway

R 17836 - J. M. Housley
Right of Way (Douglas)
13.17 acres *

County Farm-Ashland Section of the Pacific Highway

R 19273 - Marcel Klimek
Gravel Bar (Jackson)
1.5 acres *

Kaylor Corner-Marion County Line Unit of the Marquam-Molalla Junction Section of the Cascade Secondary Highway

R 19929 - August N. Damm
Quarry Site (Clackamas)
4.241 acres *

Tigard-Tualatin River Section of the Pacific Highway West

R 18478 - Rose Mary Fredericks
Right of Way (Washington)
1.34 acres *

North Corvallis Section of the Pacific Highway West

R 14612 - Union Bond & Trust Co.
Right of Way (Benton)
Parcel No. 1: 0.23 acre
Parcel No. 2: 0.92 acre
Parcel No. 3: 0.31 acre *

April 8, 1953

Hunter Creek Unit of the Gold Beach-Pistol River Section of the Oregon Coast Highway

	Recommended offer
R 14003 - George A. Beaumont (Curry) Parcel No. 1: 9.95 acres for Gravel Pit Parcel No. 2: 0.32 acre for Easement	*
R 14002 - S. O. Newhouse Gravel Pit (Curry) 0.5 acre	*
R 20225 - Thomas W. Remy Gravel Pit (Curry) 0.1 acre	*
R 20224 - Patricia Parks Reeve Gravel Pit (Curry) 0.5 acre	*
R 14990 - Joyce Tinley Flynn Haul Road (Curry) 0.5 acre	*

Boones Ferry Road-Marion County Line Unit of the Barbur Blvd. -White School Section of the West Portland-Hubbard Highway

R 19888 - John M. Worth Right of Way (Washington) Parcel No. 1: 0.064 acre Parcel No. 2: 0.048 acre Parcel No. 3: 0.102 acre	*
R 19970 - James P. Carney Right of Way (Clackamas) 3.232 acres	*
R 19971 - Michael H. Shaghnessy Right of Way (Clackamas) 1.0 acre	*

Tiller-Dead Horse Creek Section of the Tiller-Trail Highway

R 20302 - Eunice Milhoan Quarry (Douglas) 1.0 acre	*

Hood River-Mosier Section of the Columbia River Highway

L 1767 - James C. Fulton, et ux.
New description for additional property - new resolution needed

April 8, 1953

Union Avenue-Swift Road Junction Section of the Pacific Highway West

L 1843-A - Kernan Livestock Farms, Inc., et al — Recommended offer
New description required - new resolution needed *

Salem By-Pass Section of the Pacific Highway East

L 1812 - D. B. Murphy, et al
Change in access provisions - new resolution needed *

Joseph-Sheep Creek Hill Section of the Little Sheep Creek Highway

R 19852 - Margaret Pooler
Right of Way (Wallowa)
0.42 acre *

R 19854, R 19855 - E. E. Barton
Right of Way (Wallowa)
Parcel No. 1: 0.32 acre
Parcel No. 2: 0.26 acre *

The Commission unanimously approved the request by adoption of the attached resolutions relative thereto, marked EXHIBIT "Q-1" through "Q-14", inclusive, which resolutions by this reference are made parts hereof with like effect as though set forth in full herein.

The Commission considered and approved a report from the Chief Counsel concerning the trial of cases since the last Commission meeting as follows:

(1) State vs Jerry F. Arthur, et ux, L 1792: This case involves property on the Bay City-Tillamook Section of the Oregon Coast Highway. The jury returned a verdict in favor of the State assessing damages in the sum of $1,500 plus interest thereon at 6 percent from September 5, 1952. An offer had been made to this party in the sum of $2,000.

(2) State vs Perry A. Jorgensen, et al, L 1741: This case involves land on the T. H. Banfield Expressway. The jury returned a verdict in the amount of $475, whereas an offer had been made in the amount of $900.

(3) Howard Ellman, et ux vs State, L 1896: This case concerns land required for right of way on the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway, and the suit was filed alleging misrepresentations concerning access to the West Portland-Hubbard Highway. The Court held there was no evidence of fraud nor evidence of mutual mistake.

(4) William P. Lord, et al vs State, L 1382: This case involves suit to quiet title for land in Tillamook County, which land was acquired by the State for right of way of the Little Nestucca River-Neskowin Section of the Oregon Coast Highway. The Judge dismissed the case as the State had not consented to be sued in this type of action.

(5) State vs Roy E. Olson, et al, L 1847: This case involves acquisition of land for the Newport-Toledo Section of the Corvallis-Newport Highway. This jury returned a verdict assessing damages to be paid to the defendants in the sum of $10,000. Previously the State had offered to pay $11,175.

(6) State vs John A. Moore, et ux, L 1850: This case involves acquisition of land on the relocated Newport-Toledo Section of the Corvallis-Newport Highway, with complete restriction of access. The jury returned a verdict assessing damages to be paid the defendants in the amount of $2,500. Prior to commencement of this case, the State had made an offer of $2,175 for this property.

(For details see copy of Chief Counsel's report dated April 4, 1953 in the General Files.)

The Commission also considered and approved a written report from the Chief Counsel concerning settlement of the following cases:

(1) State vs Darrell Ross, et al, L 1964: This case involves purchase of 5.62 acres of land on the Elkhead Road-Rice Hill Section of the Pacific Highway plus 31.2 acres of land that will be landlocked by reason of acquisition and access control. The owner demanded $11,346 for the property but has agreed to accept the sum of $7,500 which is $144 in excess of the State's offer of $7,356.

(2) State vs Arthur O. Sasaki, et al, L 1823: This case involves acquisition of 15.02 acres of land on the Boones Ferry Road-Willamette River Unit of the Barbur Boulevard Section of the West Portland-Hubbard Highway plus 29.98 acres of excess property landlocked by reason of access control. The owners originally demanded $25,500 for all the property sought but have now agreed to accept the sum of $8,500 for the right of way only.

(3) State vs Alvin Johnston, et ux, L 1899: This case concerns acquisition of 5.24 acres of land and control of access on the relocated section of the Reedsport-Hauser Section of the Oregon Coast Highway. The State originally offered $16,500 for the property, whereas the owners demanded $50,000. The owners of the property have agreed to accept the sum of $19,000.

(5) State vs Hugh Harrison, et al, L 1959: This complaint involves the acquisition of 12.34 acres of land on the Winchester-Shady Section of the Pacific Highway and complete restriction of access from the defendants' remaining land. Prior to filing of the complaint, the State had offered to pay $55,000, but the owners demanded $75,000 plus the cost of moving two residences and garage building. A settlement was effected on the basis of paying $55,000 plus the cost of moving--a total of $71,732.

(6) State vs Merton S. Wade, et al, L 1885: This complaint concerns the acquisition of 5.7 acres of land on the Lostine Section of the Wallowa Lake Highway. The State originally offered to pay $3,500 for the property

plus construction of a stock pass and the re-establishment of irrigation facilities and road approaches. An agreement was effected whereby the State, in addition to constructing the fence already built, would construct approaches to the several access points and pay to the defendants the sum of $5,400. This settlement would relieve the State of all responsibility for re-establishment of the irrigation system and for construction of a stock pass.

The Chief Counsel recommended, and the Commission approved, the settlements as presented. (For more complete details, see copy of the Chief Counsel's report dated April 4, 1953 in the General Files.)

The Commission considered and confirmed offers reported by the Chief Counsel for the acquisition of real property needed for various public purposes, which offers were tendered to the owners prior to the commencement of condemnation proceedings and in conformity with authority granted him by the Commission in its resolution adopted December 20, 1951, as follows:

Unit No. 4 of the T. H. Banfield Expressway

R 14839 - Owner: Howard-Cooper Corporation. 1.16 acres for right of way. Amount of offer $115,187.00. Authorized by Commissioner Reynolds on March 9, 1953.

Willamette River-White School Junction Unit of the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway

R 19538 - Owner: Marie Schodde, et vir. 0.679 acre for right of way. Amount of offer $1,500.00. Authorized by Commissioner Reynolds on March 9, 1953.

R 19540 - Owner: Gabriel Mourens, et ux. 0.37 acre for right of way. Amount of offer $750.00. Authorized by Commissioner Reynolds on March 9, 1953.

Salem By-Pass Section of the Pacific Highway East

R 19557 - Owner: George Bernhardt, et al. 0.455 acre for right of way. Amount of offer $603.00. Authorized by Chairman Chandler on April 1, 1953.

Elk Head Road-Rice Hill Section of the Pacific Highway

R 19469 - Owner: Mamie Lake, et al. 9.7 acres for right of way and 3.7 acres for excess taking. Amount of offer $13,400.00. Authorized by Commissioner Reynolds on March 9, 1953.

R 19958 - Owner: G. C. Long, et ux. 35.76 acres for quarry site and 0.43 acre for easement for haul road. Amount of offer $6,372.00. Authorized by Commissioner Reynolds on February 25, 1953.

Noble Slough-Foster Section of the Santiam Highway

R 19780 - Owner: A. L. Weddle, et ux. 0.044 acre for right of way. Amount of offer $150.00. Authorized by Commissioner Reynolds on March 9, 1953.

R 19776 - Owner: J. F. McGlothren, et al. 0.89 acre for right of way. Amount of offer $168.00. Authorized by Mr. Reynolds on March 9, 1953.

R 19784 - Owner: The First National Bank of Portland, Executor of the Estate of D. L. Cochran, Deceased. 0.154 acre for right of way. Amount of offer $245.00. Authorized by Commissioner Reynolds on March 9, 1953.

Siletz Bay-Newport Section of the Oregon Coast Highway

R 4198 - Owner: Milton E. Stennett, et al. 1.55 acres for right of way. Amount of offer $4,500.00. Authorized by Chairman Chandler on April 1, 1953.

Forest Boundary-Hauser Section of the Oregon Coast Highway

R 18234 - Owner: Peter Menegat, Jr., et al. 0.96 acre for easement for channel change. Amount of offer $175.00. Authorized by Commissioner Reynolds on March 9, 1953.

Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway

R 3257 - Owner: Nellie L. Fromm, et al. 16.68 acres for right of way. Amount of offer $9,200.00 plus obligation of State to construct 670 rods of fence. Authorized by Commissioner Reynolds on February 27, 1953.

R 19453 - Owner: Stephen J. Spoerl, et ux. 34.8 acres for right of way, and 4.7 acres for quarry site. Amount of offer $6,450.00. Authorized by Commissioner Reynolds on February 25, 1953.

North Corvallis Section of the Pacific Highway West

R 17987 - Owner: T. J. Starker, et ux. 40,080 square feet for right of way. Amount of offer $8,035.00. Authorized by Commissioner Reynolds on March 9, 1953.

R 17978 - Owner: J. A. Gallagher, et ux. 1,326 square feet for right of way, and 0.2 acre for right of way. Amount of offer $2,150.00. Authorized by Chairman Chandler on November 6, 1952.

The Chief Counsel presented for the Commission's consideration a resolution amending resolutions previously adopted on November 3, 1948 and November 7, 1949 regarding correct reference to the throughway law. He pointed out that the amended resolution corrects a reference to Chapter 4, Oregon Laws, whereas the reference should have been Chapter 226. He recom-

mended that the resolution be adopted. The Commission accepted the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered and approved a report submitted by the Chief Counsel showing the status as of April 3, 1953, of all bills submitted by the Highway Commission in this session of the legislature. In connection with legislation, the Engineer stated that Mr. Elmo Smith, Chairman of the Senate Highway Committee, had recommended that, in the future, the Highway Interim Committee introduce bills having to do with highway matters rather than the Highway Commission. He pointed out that he also had sent a report to the Commission concerning the status of highway legislation. The Commission discussed briefly amendments that had been made to Senate Bill No. 37 and they also gave consideration to House Bill No. 609 concerning the weighmasters. It was their opinion that this latter bill should not be passed. They also considered the provisions of Senate Bill No. 25 which has to do with condemnation proceedings and the acquisition of highway rights of way. The Commission felt that inasmuch as this bill could be very detrimental to highway construction that a letter should be composed and forwarded to the legislature stating the Commission's position. Also discussed was a bill which would provide that the State Highway Department remove debris cast up by the ocean in creek channels which are crossed by State highways. It was felt that this obligation was not properly a function to be financed by gas tax money and that the bill should be opposed.

The Chief Counsel presented the matter of granting an easement to Al Peirce for a roadway across Simpson Park in Coos County. He recalled that this conveyance had been made in conjunction with a settlement of a condemnation case against Al and Hilda Peirce, and, as a part of the consideration, the State had agreed to grant an easement across Simpson Park at North Bend which would provide access between the Oregon Coast Highway and the bay frontage in the vicinity of the bridge across Coos Bay. He pointed out that the instrument by which the State secured the land from the City of North Bend had contained a statement to the effect that the land was to be used for a state park. An attempt was made to secure a release from the City of North Bend upon the location which had been agreed on. This location would provide a roadway in the northerly portion of the park in the general vicinity of the stockpile site now existing. The City, he said, objected but stated that it would give a release for a roadway farther south leaving the old Oregon Coast Highway in the vicinity of the loop road which now passes under the southern end of the bridge. In the discussion on this matter, it was pointed out that the only purpose of the park area was to beautify the entrance to the City and that there were no plans for development as the area is within the City. Chairman Chandler suggested that, to settle the objections raised by Mr. Peirce, he be granted the roadway that the City has agreed to release. Commissioners Reynolds and McIver concurred,and it was so ordered.

The Commission confirmed authority to remove frontage road provisions, when deemed necessary, from deeds and complaints in the acquisition of right of way for the Noble Slough-Foster Creek Section of the Santiam Highway previously authorized by Commissioner Reynolds on March 25, 1953.

The Commission confirmed authority requested by the Chief Counsel to employ Mr. Elmer A. Buckhorn, patent attorney, to review the demand made by Mr. Wayne E. Murphy that the State enter into a contract with him for the use of IBM cards and computations made by a process to which Mr. Murphy claims a patent right. He explained that Mr. Buckhorn had advised that the State has not violated any copyright of Mr. Murphy's and that the process was not patentable, and for his services made a charge of $15. The Commission confirmed the authority to employ the attorney and approved the payment of his fee.

The Commission considered and approved payment of a fee in the amount of $4,000 to Mr. John W. Shuler for services rendered and for his opinion in connection with issuance of 1953 Series A. Highway Bonds in the amount of $10,000,000.

The Chief Counsel presented for confirmation the action of the Engineer directing Mr. T. E. Bruck to remove poles, wires, cables, guys, and other appurtenances from the right of way of the Beaverton-Aurora State Secondary Highway at the Wilsonville Ferry crossing of the Willamette River. He also requested authority to prosecute any litigation necessary to effect such removal. The Commission unanimously confirmed the action and granted the authority as requested.

The Commission considered an agreement for the settlement of the case of State vs Roland M. Cole as approved by the Commission on January 21, 1953 and further agreed to provide the owners with commercial access to the Reedsport-Hauser Section of the relocated Oregon Coast Highway if, in the future, the Commission should change its policy and grant commercial access to other properties on this section, which properties did not formerly utilize commercial access to the existing highway in connection with the commercial businesses on the owners' properties. The Chief Counsel recommended that the agreement be approved as outlined. The Commission approved the recommendation. (The agreement was signed by the Commission on the following day.)

The Engineer presented his report concerning a request made by the City of Oswego for widening the Oswego Highway through the city. He recalled that, in a report made on February 20, he had advised that the cost of widening the highway to sixty feet between curbs, including the construction of curbs, drainage facilities, etc, would be about $60,000. Since that time, he stated, he has made a personal inspection of the project, and he found that a lesser improvement could be effected which would solve the condition at a lesser cost. It was his thought that a satisfactory job could be performed by widening the present eighteen-foot pavement to forty feet without curbs, etc. at a cost of about $11,000. He recommended the expenditure of $11,000 for work as outlined contingent upon the City's adopting the necessary parking regulations to provide for the proper movement of four lanes of traffic on the widened highway. The Commission approved the recommendation.

The Commission considered a report presented by the Engineer concerning a suggestion made by Mr. Robert M. Brown pertaining to shoulder park-

ing conditions on the Territorial Secondary Highway in the community of Veneta. The Engineer reported that subsequent to the receipt of Mr. Brown's letter an investigation had been made by the Traffic Engineer. The investigation disclosed that most of the accidents in the vicinity are caused by cars parked along the shoulders of the right of way in the vicinity of the O. W. L. Hall. At the nearby Veneta grade school there is a large parking lot which could be used when social activities are held in the hall. As there have been five reported accidents during the period from January 1, 1947 to November 30, 1952, he recommended that shoulder parking be prohibited on both sides of the highway between M. P. 19.91 and M. P. 20.07. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission approved a report from the Engineer advising that the conditions governing the awards of the following state highway contracts for which bids were received by the Commission on January 21 and 22 and February 18, 1953 have been satisfied and that contract and bond forms have been sent to the respective contractors for execution pursuant to the Commission's instructions:

(1) Construction of two reinforced concrete viaducts on the Elkhead Road-Rice Hill Unit of the Pacific Highway in Douglas County. Bids received January 21, 1953. Conditions of award satisfied March 3, 1953. Hannan Brothers Company, contractor.

(2) Rock base, grading and paving, and construction of one timber bridge on the Arlington-Heppner Junction Section of Columbia River Highway in Gilliam County. Bids received January 22, 1953. Conditions of award satisfied March 4, 1953. Goodfellow Brothers, Inc., contractor.

(3) Grading on the Brush Creek-Rinehart Creek Unit of the Rock Point-Gold Beach Section of the Oregon Coast Highway in Curry County. Bids received January 22, 1953. Conditions of award satisfied March 3, 1953. Fred H. Slate Co. Oregon Limited and E. C. Hall Company, contractors.

(4) Grading on Elkhead Road-Rice Hill Unit, Divide-Rice Hill Section of the Pacific Highway in Douglas County. Bids received January 21, 1953. Conditions of award satisfied March 3, 1953. R. A. Heintz Construction Co., contractor.

(5) Grading and paving the Lapine-Forest Boundary Unit, Lapine-Diamond Lake Junction Section of The Dalles-California Highway in Klamath and Deschutes Counties. Bids received January 21, 1953. Conditions of award satisfied March 2, 1953. Rogers Construction Company, contractor.

(6) Construction of eleven reinforced concrete structures and grading and paving approximately 0.67 mile roadway at intersections of T. H. Banfield Expressway with 148th, 162d, Rockwood Road, and Birdsdale Avenue in Multnomah County. Bids received January 21, 1953. Conditions of award satisfied February 26, 1953. Parker-Johnson Company, contractor.

(7) Construction of twin reinforced concrete viaducts over Union Pacific Railroad Company tracks on T. H. Banfield Expressway in Multnomah County. Bids received January 22, 1953. Conditions of award satisfied February 26, 1953. Carl M. Halvorson, Inc., contractor.

(8) Grading and surfacing on South Umpqua River-Fairgrounds Unit, Deady-Shady Section of the Pacific Highway in Douglas County. Bids received January 21, 1953. Conditions of award satisfied February 25, 1953. Funderburk Construction Company, contractor.

(9) Grading and selected roadbed topping on Turner Road-Battle Creek Junction Unit of Salem By-pass Section of Pacific Highway East in Marion County. Bids received January 22, 1953. Conditions of award satisfied February 20, 1953. Roy L. Houck & Son, contractor.

(10) Grading on Deady-Winchester Unit, Deady-Shady Section of the Pacific Highway in Douglas County. Bids received January 22, 1953. Conditions of award satisfied February 20, 1953. White Brothers Company, contractor.

(11) Grading and oil mat surfacing the East Unit, Deschutes County Line-Prineville Section of the O'Neil Secondary Highway in Crook County. Bids received January 22, 1953. Conditions of award satisfied February 19, 1953. Durbin Brothers, contractors.

(12) Construction of a reinforced concrete viaduct to carry Columbia River Highway traffic over the Heppner Branch tracks of the Union Pacific Railroad Company in Gilliam County. Bids received February 18, 1953. Conditions of award satisfied March 19, 1953. R. H. Jones, contractor.

The Engineer presented a letter signed by a Mr. Leland W. Post in which Mr. Post made an appeal for the restoration of his hauling permit cancelled by the Public Utilities Commissioner at the request of the Highway Commission on November 10, 1952. Mr. Post, he stated, has agreed in writing to conduct his log hauling operations in a lawful manner. He recommended that his permit be restored. The Commission approved the recommendation with the stipulation that Mr. Post be specifically warned that his log hauling operations must be such as will not damage the highways and be strictly within the law.

The Engineer presented his report showing estimates of income and expenditures during the years 1952 to 1955, including the additional expenditures made possible by the recently authorized $32,000,000 bond issue. He pointed out that the report brings to light the fact that current revenues are being overtaxed in meeting extra right of way costs, extra survey costs, and extra debt service costs occasioned by the bond program. Also it appears there will be little or no money for state construction projects until 1956 or 1957. The Commission accepted the report. (For further details, see the Engineer's letter dated March 17, 1953 in the General Files.)

The Commission considered a petition submitted by citizens and organizations in the Tigard-Tualatin area concerning construction of a new bridge across the Tualatin River at Tualatin, and for improvement of ORE 217 between the towns of Tualatin and Tigard. The Engineer reported that an investigation had been made on the request disclosing that improvement of the section requested, while only three and one-quarter miles in length, is extremely expensive. The total cost, he estimated, would be about $870,000 including a new bridge across the Tualatin River, a new overhead crossing of the Oregon Electric Railroad, reconstruction of a portion of the Southern Pacific Railroad trestle to permit an overcrossing, a $1\frac{1}{4}$-mile section of completely new construction, and two miles of widening the existing highway. The traffic between Tualatin and Tigard, he stated, averages slightly in excess of 1,000 vehicles per day, and he recommended in view of the light traffic that the road be retained in its present location. He also pointed out that expressions from other people in the area had been received opposing the relocation. The Commission approved the recommendation. (A delegation appeared before the Commission on this subject the following day. See paragraph ahead.)

The Commission considered a request made by the Interstate Tractor and Equipment Company, Portland, for special permission to move a piece of equipment known as the "Skagit" Loader and Mobile Yarder under its own power over Oregon highways. The Engineer explained that the equipment has a width of nine feet, a height of thirteen feet 2 inches, and a gross weight, including booms and lines, of 69,300 pounds, of which 31,100 pounds are on the front axle and 38,200 pounds on the tandem axle. This axle loading is excessive on structures and pavements designed for axle loadings of 18,000 pounds. He recommended that their request to move the equipment under its own power be denied due to excessive weight, but he explained that the equipment could be moved on a five-axle lowboy semitrailer combination by removing the booms and lines and provided the weight of the hauling equipment does not exceed approximately 27,000 pounds. However, in moving on the trailer, he pointed out that the load would require vertical clearance of about sixteen feet and consequently would not go under any of the underpasses in the state without further dismantling. He recommended also that permits be granted for the movement of this equipment when climatic conditions are satisfactory, when there is no likelihood of damage to the roads and bridges, and when there are no underpasses involved, also provided further that the equipment be moved on a lowboy semitrailer combination so that the total weight does not exceed 84,000 pounds and the axle weights do not exceed 19,000 pounds on any single axle and 38,000 pounds on any tandem axle. The Commission approved the recommendations. (A delegation appeared before the Commission on the following day. See paragraph ahead.)

Consideration was given by the Commission to a request submitted by John Krebs, Arlington, for fire protection along US 30 between the John Day River and Heppner Junction in Gilliam and Moro Counties. The Engineer reported that an investigation had been made concerning the request and that with the equipment available about six miles of highway right of way could be burned per day, thus completing the burning within a period of six days or one week. The cost of a week's operation, including equipment, labor, and supplies, he estimated would be $6,000 or approximately $170 per mile. He recommended that the work be performed provided Mr. Krebs or some other interested farmer would assume the responsibility of obtaining releases from all the property owners, relieving the Highway Commission and its employees from any claims for damage which might result from the burning operation.

and provided further that the ranchers agree to assist in performing the work. The Commission deferred their decision in this matter pending the appearance of the delegation on the following day. (See additional paragraph ahead.)

The Commission considered the Engineer's report on a request submitted by a Lane County Delegation at the February 18 meeting for completion of a two and three-quarter mile gap in the Fox Hollow Secondary Highway south of Eugene. The Engineer stated that as instructed by the Commission, he had made an investigation to determine the feasibility and cost of the construction. The project, he stated, was found to be a meritorious one, but the cost to complete the section would be approximately $87,000. As there are no available secondary funds in this division, and it does not appear feasible to transfer funds from other projects, he recommended that the project be given a high priority rating when critical sections of the Springfield-Creswell and Territorial Secondary Highways in Lane County have been taken care of. The Commission approved the recommendation.

Results on the receiving of bids in Salem on March 26, 1953 for the purchase of used equipment and scrap materials at the State Highway Shops in Salem were considered by the Commission. The Engineer pointed out that the estimate of value for the 84 items to be sold is $13,829 while the high bids received for the same items amounted to $16,338. He recommended that the 84 items be awarded to the high bidders, but that bid items No. 2, 3, 5, 6, 34, 35, 57, and 70 be rejected as being too low. The recommendation was approved by the Commission.

The Commission accepted and ordered filed a report submitted by the Engineer consisting of a tabulation showing the status of $250,000 special city allotment projects as approved by the Commission for the years 1950, 1951, and 1952. (For details, see Engineer's report, dated April 2, 1953, in the General Files.)

The Commission considered a request submitted by Mr. Dwight L. Schwab in behalf of his client, J. M. Housley, for access from the Housley property to the Pacific Highway at the north edge of Roseburg. The Engineer stated that Mr. Housley owns a tract of approximately 280 acres on the outskirts of North Roseburg, which at present is mostly undeveloped. The proposed US 99 freeway runs through a portion of his property, and Mr. Housley has requested access to the new freeway on each side so that he might construct service stations and other commercial facilities on either side of the highway. The State, he added, has been unable to negotiate settlement for the right of way, and preparations are being made to file condemnation proceedings. He pointed out that the granting of access as demanded for the Housley property would throw wide open the matter of access control throughout the State. If access were granted north of Roseburg, then there would be no basis for refusal of access at any other point on US 99 which has been made a freeway. He recommended that the request be denied. The Commission approved the recommendation. (Mr. Schwab appeared before the Commission on the following day. See paragraph ahead.)

The Commission gave consideration to the possibility of granting access from the state secondary highway between North Powder and the new route of the

Old Oregon Trail to permit construction of a service station and a motel--one on each side of the secondary highway. The Engineer exhibited a map showing the location of the properties involved and expressed the feeling that the granting of access anywhere within the limits where access rights had been purchased would be an extremely dangerous precedent. Commissioner Reynolds expressed the thought that the situation in North Powder is not entirely comparable as the location involved is a city street and that adjoining businesses have access. After some further discussion on the matter, the Commission deferred action pending a personal inspection by the Commission on one of their road trips this summer.

The Engineer presented for the Commission's consideration the adoption of a policy concerning the installation of traffic signals at school crossings. He stated that many requests are being received for these crossings. It was his thought that the policy should conform to nationally accepted warrants for such signals, and he recommended that when school crossing traffic meets the accepted warrant for a pedestrian signal, the Highway Commission enter into an agreement with the School Board and/or the City, where such crossings are within corporate city limits, providing for a fifty-fifty sharing of the cost between the State and the City or School Board. In rural areas it might be advisable for the State to pay all the cost as is now done for traffic signals in suburban areas. Action on this matter was deferred by the Commission for further study.

A report on the development of a proposed wayside area between Ladd Canyon and Rattlesnake Springs on the Old Oregon Trail was considered by the Commission. The Engineer recalled that as instructed at the meeting of February 18, he had caused an extensive investigation to be made as to possible wayside sites between Ladd Canyon and Rattlesnake Springs. The only site offering possibilities to warrant serious consideration, he added, is located about 0.7 mile north of Haines. He estimated the cost of development at $5,500. Commissioner Reynolds pointed out that it was desired to have a wayside area south of Baker, and if such site could not be found, he suggested that the development as proposed should be abandoned as it is too close to Ladd Canyon. Commissioner McIver and Chairman Chandler concurred in Commissioner Reynolds' suggestion.

The Engineer requested authority for increases in project authorizations for the following contracts:

(1) Contract No. 3623 on the Lone Creek Bridge-Rock Creek Section of the North Umpqua Federal Aid County Road in Douglas County. Increase of $43,000 requested due primarily to extra excavation caused by slides.

(2) Contract No. 3660 on the Modoc Point-Barclay Springs Section of The Dalles-California Highway in Klamath County. Increase of $27,000 requested due primarily to extra excavation to flatten high talus slopes and construction of dry rubble masonry.

(3) Contract No. 3514 on the Bunker Hill-Delmar Section of the Oregon Coast Highway in Coos County. Increase of $107,000 requested due primarily to unanticipated construction difficulties necessitating changes in alignment and resulting in a material overrun in excavation, crushed material in base, and the construction of a considerable amount of guard fence.

In connection with these overruns, the Engineer pointed out that for the year 1952 the contract underruns had been far greater than the overruns. The Commission approved the increases as requested.

The Commission considered a request from the Nehalem Bay Expansion Association for engineering assistance in surveying a route for a road leading to the top of Neahkahnie Mountain on the Oregon Coast Highway in Tillamook County. The Engineer recalled that requests for development of a road to the top of the mountain had been denied twice previously by the Commission. Conditions have not changed since that time and as the roadway is not favored by the Parks Superintendent nor is there engineering personnel to do the work, he recommended that the request be denied. The Commission approved the recommendation.

A request from Mr. W. S. Newton, a Bandon dairyman, was considered by the Commission for installation of a cattle pass under the Oregon Coast Highway near Riverton between Bandon and Coquille. The Engineer reported that the request had been thoroughly investigated, and, based upon the findings as to sight-distance, prevailing speeds, and the accident experience ratio, it was found that installation of a cattle pass is warranted. He pointed out particularly that the sight-distance at this location is bad. He recommended, and the Commission approved, the installation of a corrugated, galvanized iron cattle pass at an estimated cost of $2,500 as a minor betterment project.

Consideration also was given by the Commission to the request of Wendelin Fetch, Richard Danielson, and John P. Devereux for the installation of cattle passes near Riverton between Bandon and Coquille on the Oregon Coast Highway. The Engineer reported that these requests had been carefully investigated by the Traffic Engineer, and from the facts determined as to sight- distance, prevailing speed, and the accident experience ratio, it was found that installation of cattle passes could not be justified. He pointed out particularly that the sight-distance involved in each of these requests is very good. In view of these findings he recommended, and the Commission approved, that both of these requests be denied.

The Engineer recommended transfer of $225,000 from a project for construction of a ferry terminal at Astoria to the following bridge replacement jobs:

(1) The Noon Bridge crossing Marys River on the Corvallis-Newport Highway immediately west of Philomath.

(2) Replacement of the badly decayed timber approach spans to the draw-bridge crossing the Nehalem River on the Oregon Coast Highway in Nehalem.

(3) Complete replacement of the bridge crossing the Luckiamute River on US 99W, five miles south of Monmouth.

He stated that these bridge replacements are urgently needed. The Commission approved the recommendation.

The Commission gave consideration to a request submitted by Mr. Albert Sosnick, Portland, to place a steel grating over the end of a culvert under the Oregon Coast Highway near Rockaway in Tillamook County to prevent clogging with sand and drift during ocean storms. The Engineer reported that the request had been investigated disclosing that there is a small railroad trestle at the edge of the highway, and it was feared that placing a grate would cause a worse clogging of sand and drift than now exists. He therefore recommended, and the Commission approved, that the request be denied.

The Engineer requested authority to transfer $200,000 from construction projects in Division 4 which can be temporarily deferred to allow paving a section of The Dalles-California Highway in Klamath County, extending from Crater Lake Junction north twelve miles. He explained that this section has shown distress under traffic during the past three years and should be covered with three inches of asphaltic concrete pavement. No grading is required and the shoulders are of adequate width. He exhibited a list of projects for state construction in the 1953 budget for Division 4 which, in his opinion, can be eliminated. He recommended that the funds available from these projects, totaling $201,900 be transferred to the section on The Dalles-California Highway. The Commission approved the recommendation. (See the Engineer's letter of March 2 in the General Files listing projects to be transferred.)

The Engineer requested approval of an increase in the state's share of the cost to install wait-walk signals at two highway intersections in Medford in the amount of $250. He explained that the Commission had previously authorized an expenditure of $1,000 for the installation of these signals, $500 to be paid by the State and $500 to be paid by the city. Due to additional wiring and necessary controls, the cost of the signals was found to be $1,500 resulting in a cost of $750 each to the State and city. The city, he stated, has paid its share. The Commission approved the increase as requested.

The Engineer also requested authority to increase the amount of the 1954 Federal Aid Secondary funds allocated to county roads in Clatsop County from $75,000 to $99,000. He explained that at the last Commission meeting final programming had been approved with the exception of $27,000 allocated to Wheeler County. The county, he stated, has now advised that it wishes to carry the $27,000 for 1954 to the year 1955. In order to complete the program for 1954, he recommended that the Clatsop County project be increased from $75,000 to $99,000 which is the estimated cost to improve the 3.8-mile section of Federal Aid Secondary county road which has been given top priority by that county. By so doing, all of the 1954 funds will be taken up with the exception of $3,000. The Commission approved the recommendation.

The Commission considered the Engineer's request for withdrawal of $150,000 allocated to the Grants Pass-Murphy Section of the Williams Secondary Highway in Josephine County. The Engineer explained that it was originally intended to use this money in the construction of an asphaltic concrete pavement on the existing oiled surface; however, it has now developed that a considerable portion of the right of way is only 40 feet in width, which does not meet standards of the Bureau of Public Roads. To acquire sufficient right of way to widen the road to accepted standards, he estimated would cost approximately $100,000 as there are a

great number of residences along the highway. The total cost of improvement, he estimated at $390,000 including right of way, additional base rock and surfacing. The existing roadway, he stated, could be maintained without too much difficulty and at some future date it might be possible to improve the existing roadway as a state project not requiring the acquisition of expensive right of way. He therefore recommended that the $150,000 allotment be placed in reserve in Division 3. The Commission approved the recommendation.

The request of State Representative Haynes from Josephine County to oil the shoulders on the Redwood Highway was considered by the Commission. The Engineer reported that prior to the submission of Mr. Haynes request, the matter of oiling the shoulders had been investigated and the need determined. He pointed out that California, on the adjoining section, had recently reconstructed their portion and put in a 28-foot oiled surface. He recommended, and the Commission approved, the oiling of the shoulders with an O-11 specification between the California state line and Cave Junction, a distance of 12½ miles at an estimated cost of $25,000.

The Commission considered a request from the City of Newberg and the Newberg Chamber of Commerce for improvements to the surface of the Pacific Highway West in that city. The Engineer reported that the asphalt surface for a distance of about eight feet out from the curbs had been softened by drippings of oil and gasoline and had become somewhat uneven, and that the matter would be corrected as a routine maintenance operation as soon as the crew is in the vicinity. The Commission approved the report.

The Commission gave consideration to the petition submitted by residents of Long Creek recommending construction of the uncompleted section of the Kimberly-Long Creek Secondary Highway between Long Creek and Hamilton. The Engineer estimated the cost of completing this 8.09-mile section to secondary highway standards with an oil mat surfacing at $420,000. The average traffic, he pointed out, is approximately 125 vehicles a day. As there are no funds available and as the traffic does not justify an oiled road as requested, he recommended that the construction be deferred. The Commission approved the recommendation.

The Commission considered the installation of a traffic signal at the intersection of 7th and Main Streets in Oregon City as one of the features to relieve traffic congestion at the east end of the Oregon City-West Linn Bridge. The Engineer explained that the traffic congestion is not due to the narrowness of the bridge, but to the congested condition of the street at the end of the bridge. The City, he stated, has agreed to prohibit parking on certain sections of the street and to perform certain other functions necessary to obtain increased street capacity at the bridge head on a 90-day trial period. As a part of this plan, he recommended the installation of a traffic signal at 7th and Main at a total estimated cost of $3,200 with the provision that the City pay one-half the cost of the installation and all the cost of the maintenance and power necessary for operation. The Commission approved the recommendation.

Requests from R. L. Steenson and R. C. Carrithers, Robinette, for improvements to the four-mile section of the Baker-Homestead Highway between

Halfway Junction and Robinette, were considered by the Commission. The Engineer recalled that a similar request had been considered at the January meeting and at that time the Commission had declined to make the improvement due in part to the fact that after Hells Canyon Dam is constructed, this section would be flooded out, also that it might be flooded out even if the low dam of the Idaho Power Company is constructed. As the facts have not changed materially since that time, he recommended that construction of this section of highway be deferred until such time as the status of either dam is definitely known. In the meantime, the existing road will be maintained as well as possible considering the standard of construction. The Commission approved the recommendation.

The Commission also considered a request from the City of Redmond for the widening of a portion of Sixth Street, which is the southbound route of The Dalles-California Highway in the northerly part of the City. The Engineer advised that the City had made the same request in 1951 and again in 1952 and in each instance had been denied. The cost he estimated at $20,500. As there are many other cities where pavement widening is more necessary and as the state has completed an approximate $170,000 improvement in Redmond during 1951, he recommended and the Commission approved that the request be again denied.

The Engineer requested authority for the installation of six mercury vapor luminaire units at the intersection of the new and old alignments of the Pacific Highway north of Canyonville. He explained that a hazardous condition exists during the hours of darkness at this location due basically to poor illumination. He recommended the expenditure of $2,000 for the lighting units to be financed as a minor betterment project. The Commission approved the recommendation.

Consideration was given to the request of Mrs. Paul Youngman for illumination at the intersection of Evans Street and the Pacific Highway West north of the city limits of McMinnville. The Engineer reported that this intersection has been the subject of several investigations in the past few years and as a result the location of the stop signs have been changed and a 40-mile per hour speed zone has been adopted. Although there have been several accidents at this intersection, none occurred during the hours of darkness. In view of these facts, coupled with the relatively low traffic volume on Evans Street, he recommended that the request be denied. The Commission approved the recommendation.

Also considered was the request of Joe D. Thomison, Manager, Prineville-Crook County Chamber of Commerce regarding the illumination of the junction of US 97 and US 26 south of Madras. The Engineer reported that the request had been carefully investigated and that of the four accidents at this intersection from April 1, 1950 to December 31, 1952, all of them occurred during daylight hours and involved property damage only. He pointed out that this is a rural intersection with excellent alignment and that there is no indication that drivers are having difficulty at the intersection after dark. The Commission approved the Engineer's recommendation that the request forillumination be denied.

A petition from residents of School District No. 4 in Lane County was considered by the Commission. These people requested construction of a walkway along the easterly side of the Junction City-Eugene Secondary Highway from the north limits of Eugene to the Maxwell Road, a distance of 1.87 miles. The petition pointed out that the River Road School is located on the westerly side of the highway which necessitates crossing of the highway by pupils and patrons of the school. The Engineer recalled that in the latter part of 1950 and early part of 1951, the State constructed a three-foot paved footpath on the westerly side of the highway along the same section at a cost of $7,000. To construct a walkway on the easterly side, he estimated would cost about $12,000 as the necessary right of way would probably be quite expensive. As the district is now served by an adequate walk, he recommended that the request be denied. The Commission approved the recommendation.

The Commission also considered a petition from residents of Floras Creek and Denmark Districts for construction of a sidewalk on one side of the Floras Creek Bridge on the Oregon Coast Highway south of Langlois. The Engineer reported that the request had been carefully investigated and a sixteen-hour traffic count was taken on the bridge March 18 and 19, 1953. During this period, one pedestrian and 1,292 vehicles crossed the bridge. Conversations with Mr. D. J. Sage, District Maintenance Superintendent, revealed that Mr. Sage had no memory of ever seeing a pedestrian on the bridge. In view of these facts and the fact that there was no record of any accident involving a pedestrian on the bridge, the Engineer recommended, and the Commission approved, that the request be denied.

A protest made by Mr. Ray B. Compton, Roseburg attorney, was considered by the Commission. Mr. Compton had made vigorous protests concerning the location of an underpass on the proposed new location of the Pacific Highway in Roseburg. The Engineer reported that following the protests of Mr. Compton, Mr. Williams and Mr. Stiffler, Assistant Highway Engineers, had made an investigation on the ground and had discussed with Mr. Compton all features of the proposed underpass. As a result of these discussions, it was determined that apparently too much emphasis had been placed on the cost factor of the underpass structure without sufficient emphasis on the safety factor. He explained that the original plan had proposed a diagonal crossing, but it was later determined that a right-angle crossing would reduce the cost from about $55,000 to $36,000 and the decision was made to go ahead on the right-angle crossing. It was this right-angle crossing to which Mr. Compton objected. In view of these findings, the Engineer recommended that the original plan for the diagonal crossing be used at an estimated cost of $55,000. The Commission accepted his recommendation.

The Commission considered a request submitted by the City of Weston for widening of a one-block section of the Weston-Elgin Secondary Highway within the city. The Engineer reported that the approximate cost of the widening including curbs and sidewalks would be approximately $4,300. The investigation conducted, he stated, could determine no immediate need for the widening other than to allow diagonal parking. He also pointed out that there is a possibility of a change of routing within the city and as there is no apparent need for the widening, he recommended, and the Commission concurred, that the request be denied.

The Commission discussed with the Engineer the proposed project on the Little Sheep Creek Secondary Highway. The Engineer pointed out that as certain difficulties had been removed in the acquisition of right of way, it was proposed to receive bids for this job at the May meeting. He also called attention to the fact that there is an apparent surplus of somewhat over $100,000 for this job, but he suggested that before any commitment is made that bids be received and a disposition made of the balance afterward. The Commission approved the suggestion.

The Commission confirmed telephone approval previously given on the action taken by the Engineer in reducing by 1½ miles the length of the Molalla Junction-Marquam Section resurfacing project on the Cascade Secondary Highway. The Engineer explained that in order to conform to Federal Aid secondary standards, it would be necessary to realign 1.7 miles of the original job which would raise the cost to approximately $238,000. As this amount is considerably in excess of funds available, it appeared desirable to shorten the project on the south end a distance of 1½ miles, thus bringing the cost of the project down to about $200,000.

Consideration was given by the Commission to a request from the City of Albany for a survey of its minimum traffic needs. The Engineer pointed out that approximately half of the work would be on State Highway routes and half on city streets. The cost he estimated at approximately $2,000 and recommended that the work be done with state forces provided the city would pay half the cost. The Commission approved making a study on the basis as recommended.

The Commission approved the Engineer's request to transfer $19,000 from funds set up for construction of a standard masonry block building at Lakeview to construction of the same type of building at Klamath Falls as the structure at Klamath Falls is more urgently needed.

Consideration was given to a request submitted by a number of residents of Forest Grove for traffic signals at three intersections in Forest Grove, namely Main and Pacific, College and Pacific, and Cedar and Pacific. Pacific Street is the route of the Tualatin Valley Highway as well as the temporary route of the Wilson River Highway. The Engineer stated that for several years similar requests have been made for these signals. Investigations were conducted and in the past the requests had been denied as the vehicular and pedestrian traffic did not meet the minimum warrant for traffic signal installations. Due to the many letters received, another investigation was recently made, the results this time disclosing that the pedestrian and traffic volume at the Main Street intersection was sufficient to warrant the installation of a signal however the traffic at the intersections with Cedar Street and College Street was found to be insufficient. He recommended that a signal be installed at the Main Street intersection at an estimated cost of $6,000 provided the city will pay half the cost and agree to maintain the signal after its installation and provide the electrical energy to operate it. The Commission approved the installation with funds to be transferred from the Redmond signals which will not be needed this year.

The Commission also considered the request of Mr. R. L. Brunton, City Manager of Milton-Freewater for traffic signals on Main Street at S. E. 14th Street

and S. E. 3d Street and a re-examination of the location of school crossings. The Engineer stated that the request had been investigated by the Traffic Engineer who, in the course of the investigation had also talked the situation over with the City Manager, Chief of Police, School Board, and the Parent Teacher Association. There are, he stated, three school crossings on the State Highway in the city of Milton-Freewater. These are at N. W. Eighth Avenue just east of Perkins Street, at the intersection of Main Street and Columbia Street, and at the intersection of Main Street and S. E. 14th Street. Traffic volume counts were taken at the intersection of Main and 3d Streets and Main and 14th Streets disclosing that there was insufficient vehicular and pedestrian volume to meet the minimum acceptable warrants for the installation of signals. It was also disclosed that all of the accidents occurring at these locations involved property damage only and were not of the type that could have been prevented by traffic signals. In addition to not meeting the standard warrants for complete signalization, the crossings did not meet the minimum warrant for the installation of school crossing signals. As a result of this investigation he made the following recommendations:

1. That the request for traffic signals at the intersection of Main Street with S. E. 14th and S. E. 3d Streets be denied.

2. That 42-inch "SCHOOL CROSSING" signs be installed at the intersection of Main Street and Columbia Street and that the present schoolboy patrol operation be continued.

3. That 42-inch "SCHOOL CROSSING" signs be installed on Main Street on either side of S. E. 3d Street. It is further recommended that school authorities provide adult supervision at this crossing. The children crossing the highway at this point are too young to successfully operate a school boy patrol.

4. The school crossing on N. E. 8th Avenue in the vicinity of Perkins Street is placed in the optimum position at the present time. It is recommended that this crossing be continued.

The Commission approved the recommendations.

A written request from the Washington County Planning Commission was considered concerning the location and construction of a new highway from the Tualatin Valley Highway in Hillsboro in an easterly direction to a junction with the Sunset Highway. The Engineer reviewed the status of this request, pointing out that in 1950 a delegation had appeared requesting the same construction and that the Commission had authorized a reconnaissance survey. The survey data revealed that the project would cost $832,400 including a traffic interchange with the Sunset Highway, and the benefit ratio for the new route would be 1.82. This investigation also indicated that not enough traffic would be diverted to the new road to eliminate the need of widening the existing road to four lanes. The result of these studies, he stated, indicated that consideration of construction of the new route east from Hillsboro to the Sunset Highway should be deferred until the highway between Beaverton and Reedsville is widened to four lanes. In view of the above facts, he could see no reason to

make any change in the decision arrived at in 1950, which was to defer construction of a new highway until the existing highway had been four-laned at least to Reedsville, which he estimated would cost $535,000. He recommended that the petitioners be so advised. The Commission approved the recommendation.

The Engineer requested approval of illumination of the Sunset Boulevard traffic interchange in Cannon Beach and illumination at the junctions north and south of Cannon Beach together with some channelization work. The cost of illuminating the traffic interchange and the two intersections, he estimated at $3,825 and recommended that the work be done with betterment funds in the 1953 budget. The Commission approved the work as requested.

The Engineer reported that surveys had been completed on three sections of state highways as follows:

(1) The Rinehart Creek-Frankport Section of the Oregon Coast Highway in Curry County between Engineer's Station 595+00 and 720+00.

(2) East Unit, Pendleton-Deadman's Pass Section of the Old Oregon Trail in Umatilla County, from Engineer's Station 75+00 to Station 1150+00.

(3) Orr Corner to Rickreall Unit of the Rickreall-Monmouth Section of the Pacific Highway West in Polk County, from Engineer's Station 724+00 to Station 790+00.

He exhibited maps showing the proposed location of each survey and explained details. He recommended that these three surveys be adopted and that authority be granted to acquire the necessary rights of way. Upon a motion made by Commissioner Reynolds, seconded by Commissioner McIver, and declared unanimous by Chairman Chandler, the Commission approved the three surveys by adopting the attached resolutions relative thereto marked EXHIBITS "N-1" and "N-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Engineer reported that the following cities have satisfied the legal requirements with respect to the expenditure of State Tax Street Funds accrued to them during the second six-month period of 1952: Adams, Antelope, Aumsville, Aurora, Canyonville, Corvallis, Cove, Culver, DeLake, Eagle Point, Echo, Gates, Halsey, Huntington, Imbler, Lexington, Lonerock, Malin, Metolius Moro, Oakridge, Powers, Prescott, Riddle, Siletz, Sisters, Taft, Troutdale, Turner, Wheeler and Yamhill.

He also advised that the following cities have satisfied legal requirements with respect to the expenditure of State Tax Street Funds accrued to them during the first six-month period of 1952: Harrisburg, Oakridge, Powers, and Riddle.

He also stated that the following cities and towns have satisfied legal requirements with respect to the expenditure of State Tax Street Funds during the second six-month period of 1951: Harrisburg, Oakridge, Powers, Riddle, and Tualatin.

The City of Powers, he stated, has satisfied the legal requirements with respect to the expenditure of State Tax Street funds accrued to them during the first six-months period of 1951.

The plans of the projects proposed to be financed with the funds available have been examined and found satisfactory, and he recommended approval of the plans by the Commission. The Commission accepted the recommendation and thereupon adopted the attached resolutions relative thereto, marked EXHIBITS "D-1", "D-2", "D-3", and "D-4", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Consideration was given by the Commission to the following requests for extensions of time within which to complete certain highway contracts:

1. K. F. Jacobsen & Company, Inc., and J. M. Arenz, Contract No. 3582 for construction of structures, grading, and paving on the Fairview-Sundial Section of the T. H. Banfield Expressway in Multnomah County, requested an extension of time of 213 days, from November 30, 1952 to July 1, 1953, within which to complete this job. The contractor stated that originally it was planned to obtain the base rock from the road excavation, however, since there was no suitable rock available, it was necessary to obtain the rock from an outside source. They also stated that the quantity of this base rock considerably overran the original estimates which necessitated additional truck haul and labor. In addition to this, they added, that due to weather conditions, the State Highway Department ordered the paving shut down for the winter which would make it impossible to complete this job until early in the summer of 1953. The Engineer advised that the reasons given by the contractor for overrunning the time limit are correct and that these causes were not the fault of the contractor. He, therefore, recommended that the extension of time as requested by granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

2. E. C. Swaggart Company, Contract No. 3622 for Hunters Creek-Lone Ranch Creek Rock Production on the Oregon Coast Highway in Curry County, requested an additional extension of time of 7 days, from October 31, 1952 to November 6, 1952, within which to complete this contract. They attributed their failure to complete the project within the specified time limit to failure of bearings in their roll-type crusher which made it necessary to transport parts of the crusher to Portland, 326 miles, for repairs, resulting in a six-day overrun of time. The Engineer advised that the reasons given by the contractor for overrunning the time limit are correct. In view of the fact that the overrun did not cause any inconvenience to the public or to the Highway Department, he recommended the extension of time as requested be granted without penalty. The Commission approved the recommendation.

3. C & S Electric, Contract No. 3776 for installation of traffic signal system on the Pacific Highway in Eugene, Lane County, requested an extension of time of 60 days, from December 31, 1952 to March 1,

1953, within which to complete this contract. They alleged that the reason for not completing the contract within the specified time limit was because cast iron boxes for poles were not available. The Engineer advised that the project was put in operation prior to the contract completion date by the installation of galvanized metal junction boxes in place of the specified cast iron boxes. The cast iron boxes have now been received, he said, and the project was completed on February 20, 1953. Due to the fact that the delay was not the fault of the contractor, he recommended that the extension of time be granted to the completion date without penalty. The Commission approved the recommendation.

4. Acme Construction Company, Contract No. 3647 for grading and paving on the Suicide Creek-Pacific Highway Section of the Coos Bay-Roseburg Highway in Douglas County, requested an extension of time of 10 days, from September 30, 1952 to October 9, 1952, within which to complete this project. They gave as reasons for overrunning the time limit extra work on the Pacific Highway and extra work by Force Account on fence. The Engineer advised that all work on this contract was completed by the specified contract date with the exception of some fencing and some improvement work at the connection to the Pacific Highway which was done by Force Account. He added that there was no inconvenience to the public or additional expense incurred because of the overrun. In view of these facts, he recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

5. Electric Corporation, Contract No. 3811 for traffic signal installation at Chemeketa Street-Vista Avenue Section of the Pacific Highway East in Salem, Marion County, requested an extension of time of 28 days, from January 31, 1953 to February 28, 1953, within which to complete this job. They stated that the City of Salem requested them not to work during the Christmas holidays, thus delaying their work schedule. The Engineer advised that the City of Salem requested a postponement of any work that would interfere with traffic during the Christmas holiday rush. He further advised that the project was completed on February 20, 1953. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

6. Lindstrom Brothers, Inc., Contract No. 3438 for construction of a bridge on the Payette (Snake River) Section of the Old Oregon Trail Highway in Malheur County, requested an additional extension of time of 243 days, from November 30, 1952 to July 31, 1953, within which to complete this contract. They gave the following reasons for overrunning the time limit: "Due to the shortage of structural steel (the last steel was delivered to the job May 28, 1952) the completion of the erection of the steel was not completed until September 23, 1952. At this time we immediately started work on the deck, curbs, and handrail. Due to weather conditions at this time of the year, it is impossible to finish the painting and concrete finishing at this time." The Engineer advised that the delay was primarily due to the shortage of structural steel and the delay in delivery of this material to the project. He added that the contractor went ahead as rapidly as could be expected after the steel was delivered. He recommended therefore that the extension of time as requested be granted without penalty. A

letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

7. Hamilton and Thoms, Contract No. 3786 for construction of the Comstock grade separation on the Pacific Highway in Douglas County, requested an extension of time of 59 days, from January 31, 1953 to March 31, 1953, within which to complete this contract. They alleged they were delayed in starting this job due to the grading contractor's failure to complete the roadway excavation in time, and because of inclement weather. The Engineer advised that the reasons given by the contractor for overrunning the specified time limit are correct. He pointed out that the contractor has done his work with reasonable speed; therefore since no additional engineering expense has been incurred by the delay and there has been no inconvenience to the public, he recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

8. Bechtel Brothers, Contract No. 3487 for construction of a maintenance building at Meacham in Umatilla County, requested an extension of time of 531 days, from August 31, 1951 to February 13, 1953, within which to complete this job. They stated that the delay in the completion was due to the fact that adjustments on overhead doors were not made satisfactorily until February 1, 1953 by Overhead Door Company of Portland, Oregon.. The Engineer advised that the structure has been occupied by State forces since last fall and the delay in acceptance of the contract has been due to poor adjustments on the overhead doors which required some work by the door manufacturer. The adjustments have now been made. In view of these circumstances, he recommended the extension of time as requested be granted without penalty. The Commission approved the recommendation.

9. R. H. Jones, Contract No. 3619 for bridge construction on the Jones Ranch-Mitchell Section of the Ochoco Highway in Wheeler County, requested an extension of time of 180 days from March 31, 1953 to September 27, 1953, within which to complete this job. He gave the following as his reasons for overrunning the time limit: (1) Additional work in driving foundation piles; (2) the load limit on the highways leading into the construction area; (3) unseasonable weather; and (4) labor shortage. The Engineer advised that the delay from these causes was not serious. He added that the structure which is being replaced could not be closed until the grading contractor had completed a section of the adjacent highway. Since this will not be done until about April 1, work on the last structure cannot commence until that time. In view thereof, he recommended that the extension of time to July 31, 1953 be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

10. Parker-Johnson Company, Contract No. 3766 for construction of a heavy equipment shopbuilding at Salem in Marion County, requested

an extension of 30 days, from March 31, 1953 to April 30, 1953, within which to complete this work. They gave as a reason for overrunning the specified time limit the excessive wet weather during the months of December, 1952 and January, 1953 which made it impossible to roof the building and to keep the interior dry enough to complete the interior finishing. The Engineer advised that the structure has a composition roof laid on concrete slabs, which requires dry weather to successfully apply the roofing, and the interior finish could not be done until the roof was in place. The bad weather materially delayed the contractor, he said, and he has pushed the job with all practical speed when circumstances were such that he could. Therefore, he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

11. Hamilton and Thoms, Contract No. 3409 for construction of the Jasper Bridge over Middle Fork of the Willamette River on the Springfield-Creswell Highway in Lane County, requested an additional extension of time of 108 days, from September 30, 1952 to January 16, 1953, within which to complete this work. They alleged that because of the delay in delivery of structural steel they were unable to complete this job within the specified time limit. The Engineer advised that previously this contract was extended to and including September 30, 1952, without penalty, due to the delay in the delivery of structural steel. He added that the delay was longer than was anticipated; however, the bridge was opened to traffic on September 10, 1952 with the work performed after that date principally consisting of removal of the old structure. In view of the fact that there was no inconvenience to traffic nor were there any engineering costs during the period subsequent to the expiration of the first time extension, the Engineer recommended that the extension of the time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

12. Trowbridge & Flynn Electric Company, Contract No. 3825 for installation of the Twelfth Street Connection traffic signals in Salem, Marion County, requested an extension of time of 47 days, from March 31, 1953 to May 16, 1953, within which to complete this project. They gave the following reasons for overrunning the specified time limit: "Since the G. E. Luminaires are not of the type desired by the Highway Department, we have ordered the Westinghouse O. V.-20 and must await their arrival before installation can be made." The Engineer advised that the luminaires the contractor used in the lighting were not the type specified in the contract, and did not have the approval of the Highway Department which necessitated the contractor to replace these luminaires with the specific type called for in the contract. He added, however, that these are not in stock locally, and have been ordered from the factory. The work, he said, is complete except for these fixtures. Because of these circumstances, he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

13. Teller Construction Company, Contract No. 3827-A for construction of the Cereghino Haul Road Bridge on the T. H. Banfield Expressway in Multnomah County, requested an extension of time of 77 days, from February 28, 1953 to May 15, 1953, within which to complete this work. The contractor stated that

because of the delay in awarding the contract to them and due to the difficulty of obtaining insurance coverage satisfactory to the Union Pacific Railroad Company, they were unable to complete this job within the specified time limit. The Engineer advised that although the bids were received on this project on November 24, 1952, the low bidder defaulted, and it was re-awarded on January 6, 1953 to the second low bidder, Teller Construction Company. He also said that the requirements of the Union Pacific Railroad Company regarding a satisfactory insurance policy are so stringent that considerable delay and negotiation were necessary before an adequate policy could be provided. In view of these conditions, he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above was based upon the recommendation of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that contracts Nos. 3295, 3409, 3487, 3512, 3562, 3622, 3632, 3647, 3681, 3691, 3774, 3776, 3777, 3796, 3801, 3811, and 3823 for construction of state highway projects have been completed according to the requirements of the contracts or modifications thereof, and said projects are now ready for acceptance. After due consideration, the Commission accepted said contracts by adoption of the attached resolution relative thereto marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered and approved an agreement with Douglas County covering participation by the County in the cost of constructing the Lone Rock Bridge Section on the North Umpqua Douglas County Road on which bids are to be received on April 9.

The Commission considered a request from Mrs. Ralph Flannery, Chairman of the Safety Committee of the Coquille Business and Professional Women's Club, for a traffic signal crossing at 10th Street in Coquille. Following receipt of the request, the Engineer advised that a traffic investigation had been made disclosing that there was not enough traffic, according to nationally accepted standards, to warrant installation of a traffic signal. In view of these findings, he recommended the request be denied, but suggested the local school board be advised to consider the matter of a school boy patrol which should improve the condition at this intersection. The Commission approved the recommendation.

A request also was considered from the City of Medford for a survey to determine the need for traffic signals at the intersections of McAndrews Road

with Court Street and Riverside Avenue. Court Street and Riverside Avenue are one-way routings of the Pacific Highway through Medford. An investigation was made by the Traffic Engineering Department, which investigation, the Engineer reported, disclosed that both intersections handle enough traffic, according to nationally accepted standards, to warrant the installation of signals. He therefore recommended signals be installed at each intersection at a total estimated cost of $6,200, provided the City would pay one-half of the cost and agree to maintain the signals and furnish electrical energy. The Commission approved the recommendation.

The Commission considered a request from citizens of Brooks on the Pacific Highway north of Salem, for better traffic control at a heavily traveled county road intersection of the highway at Brooks. The Engineer stated that a traffic engineering investigation had been conducted showing there is much roadside culture in the community of Brooks and that high speeds prevail; also, during the past seven years there have been 72 accidents in the 0.62-mile section in which 2 persons were killed and 41 were injured. To alleviate the hazards, he recommended that mercury vapor luminaires be installed at an estimated cost of $800 and that a 45-mile per hour speed zone be established between M. P. 42.55 and M. P. 43.17. The Commission approved the recommendations and thereupon adopted the attached resolution relative thereto marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A request from Roy H. Mills, Secretary of the Oregon State Board of Control, for illumination of an allegedly dangerous intersection on the Pacific Highway East at the entrance to MacLaren School for Boys, north of Woodburn, was considered. The Engineer advised that a traffic engineering investigation had been conducted disclosing that there was only one accident of record during the hours of darkness in the five-year period from January 1, 1948, to December 31, 1952. The volume of traffic on the road to the Boys School, he stated, is quite low, and he recommended that the request for illumination be denied and that sight posts with reflectors be installed to identify the ditch line and the access to the school at an estimated cost of $100. The recommendation was approved by the Commission.

The Engineer requested authority to place a fill across the China Camp Marsh on the Oregon Coast Highway in Coos County. He explained that the bridge over the China Camp Marsh is narrow, and there have been a number of accidents lately due to the unsatisfactory condition of the bridge. A portion of the fill has been completed, and the balance should be completed in two stages. The next stage, which it is desirable to perform in 1953, would consist of the construction of a box culvert and the additional placement of fill material. The final stage which should be performed in 1954, he stated, would provide for the completion of the fill and paving of the roadway making a total expenditure of approximately $100,000. The Commission approved the request for $100,000 to perform the work, the money to be obtained by transferring bond funds from another section on this highway.

The Commission discussed with the Engineer the bids received at the morning session for highway construction, and at 4:00 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project, as fol-

lows, the Commission's action being by unanimous vote:

"Construction of a masonry block maintenance building on Highway Department property in Richland, Baker County: Six bids were received for this project, the low one being that of Loree Building Service, La Grande, at $12,766.88. The contract has been awarded to the low bidder at its bid price.

"Grading and paving project on South 4th Avenue in Canby, Clackamas County, and grading and paving "D" Street in Hubbard, Marion County: Warren Northwest, Inc., Portland, submitted the low combination for these two jobs in the total amount of $15,603.50. Three higher bids were received. The Commission has awarded both contracts to the low bidder on their combination bid.

"Construction of a reinforced concrete bridge on the Nehalem Highway over the Nehalem River in Clatsop County: The Commission received eleven bids for this project, the low one being that of Larson Construction Company, Astoria, at $141,398.00. The contract has been awarded to the low bidder at its bid price.

"Construction of fixed time traffic signal installation at the intersection of Fourth Street and Central Avenue on the Empire-Coos Bay Highway in Coos Bay, Coos County: Only two bids were received for this project. Trowbridge & Flynn, Medford, submitted the low bid of $3,640.00. The other bid was submitted by W. R. Grasle, Portland, at $3,848.00. The Commission has awarded the contract to Trowbridge & Flynn, at its bid price.

"Division No. 4 Reoiling Project on seven highways in Central Oregon, Deschutes, Harney, and other counties: Five bids were received for this work, the low one being that of Babler Brothers, Inc., Portland, at $139,643.00. The contract has been awarded to the low bidder at their bid price.

"Grading and paving the South Unit, Elbow Lake-Gardiner Section of the Oregon Coast Highway north from Gardiner, Douglas County: The Commission received eight bids for this work, the low one being that of Coos Bay Dredging Company, Coos Bay, at $593,135.00. The bid of Coos Bay Dredging Company in the sum of $593,135.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared.

"Construction of a reinforced concrete viaduct, known as the Wilbur Overcrossing, on the Pacific Highway over the Southern Pacific Company tracks in Douglas County: Tom Lillebo, Reedsport, submitted the low bid for this job in the amount of $58,380.00. Eight higher bids were received. The contract has been awarded to the low bidder at his bid price.

"Removal of the old reinforced concrete overcrossing and timber trestle approach on the old Pacific Highway near Comstock Station, Douglas County: Of the ten bids received, Fred H. Slate Company Oregon Ltd., and E. C. Hall Company, Portland, submitted the low bid at $9,800.00. The low bidders have been awarded the contract at their bid price.

"Installation of 3,420 lin. ft. of chain link wire mesh fence on metal posts set in concrete footings at Veterans Hospital near Roseburg, Douglas County: Only one bid was received for this job, being that of San Jose Steel Company, Inc., Portland, at $7,968.60. The contract has been awarded to the low bidder at its bid price.

"Tiller-Deadhorse Creek Rock Production Project on the Tiller-Trail Highway south from Tiller, Douglas and Jackson Counties: The Commission received four bids on this project, the low one being that of M. C. Lininger & Sons, Medford, at $27,525.00. The bid of M. C. Lininger & Sons in the sum of $27,525.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared.

"Installation of traffic signals in Central Point, Jackson County: All bids on this project were returned unopened as the project was withdrawn from the letting.

"Grading and paving the Jacksonville Grade Unit, Provolt-Jacksonville Section of the Medford-Provolt Highway west of Jacksonville, Jackson County: Central Heating Company and F. L. Somers, Eugene, submitted the low bid on this project, in the amount of $155,315.00. Six higher bids were received. The bid of Central Heating Company and F. L. Somers in the sum of $155,315.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Twelve miles of pavement resurfacing on the Spring Creek Hill-Lobert Section of The Dalles-California Highway north of Klamath Falls, Klamath County: Of the eight bids received for this job, Warren Northwest, Inc., Portland, submitted the low one at $199,880.00. The low bidder has been awarded the contract at its bid price.

"Klamath Falls-Booth Park Rock Production on the Klamath Falls-Lakeview Highway between Klamath Falls and Lakeview, Klamath and Lake Counties: Rogers Construction, Inc., Portland, submitted the low bid for this work at $88,300.00. Four higher bids were received. The Commission has awarded the contract to the low bidder at its bid price.

"Crow-Douglas County Line Rock Production Project on the Territorial Highway south from the town of Crow, southwest of Eugene, Lane County: Only two bids were received for this work, L. P. Stubblefield, Eugene, having submitted the low one at $28,930.00. The bid of L. P. Stubblefield in the sum of $28,930.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared.

"Paving Buford Avenue in Siletz, Lincoln County: Of the two bids received, Warren Northwest, Inc., Portland, submitted the low bid at $14,775.00. The bid of Warren Northwest, Inc., in the sum of $14,775.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the City of Siletz and provision has been made by said City of funds for the cost of the project in excess of $15,000, which amount will be advanced by the State.

"Reoiling Project on the Central Oregon and Vale-West Highways between Juntura and Vale, Malheur County: The Commission received five bids for this work. Babler Brothers, Inc., Portland, submitted the low bid at $79,482.00. The contract has been awarded to the low bidder at its bid price.

"Cleaning and painting all structural steel including handrails in the south ten trusses of the Interstate Bridge over the Columbia River on the Pacific Highway near Portland, Multnomah County: C. H. Savage Company, Portland, submitted the low bid for this project in the amount of $76,800.00. Three higher bids were received. The contract has been awarded to the low bidder at its bid price.

"Installation of traffic signals at intersections of Powell Boulevard with Main Street and S. E. Roberts Street on the Mt. Hood Highway in Gresham, Multnomah County: The only bid received for this project was that of W. R. Grasle Company, Portland, in the amount of $6,122.00. The bid of W. R. Grasle Company is accepted subject to the City of Gresham paying one-half of the cost of the project.

"Construction of park facilities at Cape Lookout Park, Tillamook County: Six bids were received for this job, the low one being that of Popham Construction Company, Portland, at $49,927.47. The Commission has awarded the contract to the Popham Construction Company at its bid price.

"Paving 0.17 mile on East Broadway Avenue in Beaverton, Washington County: Only two bids were received on this project. Porter W. Yett, Portland, submitted the low one at $9,678.00. The low bidder, Porter W. Yett, has been awarded the contract at his bid price.

"Furnishing ferry service at the Astoria-Megler Crossing of the Columbia River in Clatsop County: Three bids were received for this work, the low one being that of Astoria Navigation Company, Astoria, at $169,937.35. The contract has been awarded to the low bidder at its bid price.

"Furnishing insurance to cover the Astoria-Megler Ferry operation at Astoria, Clatsop County: Ship Service Company, Astoria, submitted the low bid for this work at $11,089.81 on Alternate "A". Six higher bids were received. The Commission has awarded the contract to the low bidder at its bid price."

A petition was presented from residents of Sylvan requesting some remedy to alleviate traffic congestion at the intersection of Canyon Road at Sylvan with the Skyline Boulevard on the northerly side, and Scholls Ferry Road and S. W. Hewitt Boulevard on the southerly side. The Engineer reported that subsequent to receiving the petition, an investigation had been made to determine possible remedies. He recalled that the Commission had previously authorized purchase of right of way so that eventually Canyon Road in this section could be widened to six lanes of traffic and an interchange constructed at Sylvan. However no schedule has been set up for construction. The widening project is estimated to cost about one million dollars, and there is no money available at this time; however, a survey has been made to provide some means of eliminating the existing hazard and congestion. He exhibited a map showing a proposed solution

"Installation of 3,420 lin. ft. of chain link wire mesh fence on metal posts set in concrete footings at Veterans Hospital near Roseburg, Douglas County: Only one bid was received for this job, being that of San Jose Steel Company, Inc., Portland, at $7,968.60. The contract has been awarded to the low bidder at its bid price.

"Tiller-Deadhorse Creek Rock Production Project on the Tiller-Trail Highway south from Tiller, Douglas and Jackson Counties: The Commission received four bids on this project, the low one being that of M. C. Lininger & Sons, Medford, at $27,525.00. The bid of M. C. Lininger & Sons in the sum of $27,525.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared.

"Installation of traffic signals in Central Point, Jackson County: All bids on this project were returned unopened as the project was withdrawn from the letting.

"Grading and paving the Jacksonville Grade Unit, Provolt-Jacksonville Section of the Medford-Provolt Highway west of Jacksonville, Jackson County: Central Heating Company and F. L. Somers, Eugene, submitted the low bid on this project, in the amount of $155,315.00. Six higher bids were received. The bid of Central Heating Company and F. L. Somers in the sum of $155,315.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Twelve miles of pavement resurfacing on the Spring Creek Hill-Lobert Section of The Dalles-California Highway north of Klamath Falls, Klamath County: Of the eight bids received for this job, Warren Northwest, Inc., Portland, submitted the low one at $199,880.00. The low bidder has been awarded the contract at its bid price.

"Klamath Falls-Booth Park Rock Production on the Klamath Falls-Lakeview Highway between Klamath Falls and Lakeview, Klamath and Lake Counties: Rogers Construction, Inc., Portland, submitted the low bid for this work at $88,300.00. Four higher bids were received. The Commission has awarded the contract to the low bidder at its bid price.

"Crow-Douglas County Line Rock Production Project on the Territorial Highway south from the town of Crow, southwest of Eugene, Lane County: Only two bids were received for this work, L. P. Stubblefield, Eugene, having submitted the low one at $28,930.00. The bid of L. P. Stubblefield in the sum of $28,930.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared.

"Paving Buford Avenue in Siletz, Lincoln County: Of the two bids received, Warren Northwest, Inc., Portland, submitted the low bid at $14,775.00. The bid of Warren Northwest, Inc., in the sum of $14,775.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the City of Siletz and provision has been made by said City of funds for the cost of the project in excess of $15,000, which amount will be advanced by the State.

"Reoiling Project on the Central Oregon and Vale-West Highways between Juntura and Vale, Malheur County: The Commission received five bids for this work. Babler Brothers, Inc., Portland, submitted the low bid at $79,482.00. The contract has been awarded to the low bidder at its bid price.

"Cleaning and painting all structural steel including handrails in the south ten trusses of the Interstate Bridge over the Columbia River on the Pacific Highway near Portland, Multnomah County: C. H. Savage Company, Portland, submitted the low bid for this project in the amount of $76,800.00. Three higher bids were received. The contract has been awarded to the low bidder at its bid price.

"Installation of traffic signals at intersections of Powell Boulevard with Main Street and S. E. Roberts Street on the Mt. Hood Highway in Gresham, Multnomah County: The only bid received for this project was that of W. R. Grasle Company, Portland, in the amount of $6,122.00. The bid of W. R. Grasle Company is accepted subject to the City of Gresham paying one-half of the cost of the project.

"Construction of park facilities at Cape Lookout Park, Tillamook County: Six bids were received for this job, the low one being that of Popham Construction Company, Portland, at $49,927.47. The Commission has awarded the contract to the Popham Construction Company at its bid price.

"Paving 0.17 mile on East Broadway Avenue in Beaverton, Washington County Only two bids were received on this project. Porter W. Yett, Portland, submitted the low one at $9,678.00. The low bidder, Porter W. Yett, has been awarded the contract at his bid price.

"Furnishing ferry service at the Astoria-Megler Crossing of the Columbia River in Clatsop County: Three bids were received for this work, the low one being that of Astoria Navigation Company, Astoria, at $169,937.35. The contract has been awarded to the low bidder at its bid price.

"Furnishing insurance to cover the Astoria-Megler Ferry operation at Astoria, Clatsop County: Ship Service Company, Astoria, submitted the low bid for this work at $11,089.81 on Alternate "A". Six higher bids were received. The Commission has awarded the contract to the low bidder at its bid price."

A petition was presented from residents of Sylvan requesting some remedy to alleviate traffic congestion at the intersection of Canyon Road at Sylvan with the Skyline Boulevard on the northerly side, and Scholls Ferry Road and S. W. Hewitt Boulevard on the southerly side. The Engineer reported that subsequent to receiving the petition, an investigation had been made to determine possible remedies. He recalled that the Commission had previously authorized purchase of right of way so that eventually Canyon Road in this section could be widened to six lanes of traffic and an interchange constructed at Sylvan. However no schedule has been set up for construction. The widening project is estimated to cost about one million dollars, and there is no money available at this time; however, a survey has been made to provide some means of eliminating the existing hazard and congestion. He exhibited a map showing a proposed solution

of this problem and explained that changing the present five-way intersection to a four-way intersection and making provision for left-turn refuges with traffic lights would provide for through highway traffic movement, left-turn movement, and cross-street movement, and furnish a reasonable solution to the problem at an estimated cost of $15,000. This plan would also include some pavement widening and channelization. He recommended that the improvements be installed. The Commission accepted the recommendation. (See paragraph ahead on April 9 where delegation appeared on this subject.)

The Engineer requested authority to install advance reflectorized span-mounted signs and four luminaire units at an estimated cost of $1,600 at the junction between the new Pacific Highway and the old highway leading to Springfield. He explained that southbound traffic on the Pacific Highway turns off the Eugene-Springfield Highway at Judkins Point, and many motorists are trapped in the inside lane when they desire to turn right onto the Pacific Highway. It was his thought that the installation of signs would advise motorists of the proper lane for traffic on US 99 and US 126, and he recommended that the installation be approved. The Commission approved the installation.

The Commission considered and ordered filed a letter from Mr. M. J. Maynard, Vancouver, Washington, protesting the placing of a toll on the proposed bridge between Vancouver and Portland on the Pacific Highway.

The Engineer brought up for discussion the continuance of the assemblying of analytical data on motor vehicles from records of the Public Utilities Commissioner and the Secretary of State. He recalled that, at the request of the Legislative Interim Committee on Highways, in January, 1952, the Commission had authorized an expenditure of $50,000 for the purpose of obtaining this analytical data. At the time the expenditure was authorized, it was thought that by February of 1953 the Public Utilities Commissioner would be equipped to perform this work. It is now apparent that his office will not be able to take over the work until about October 1, 1953. The $50,000 previously authorized, he stated, will be expended about April 30 of this year, and to continue the work to October 1 will require an additional authorization of $20,000. The work being performed, he stated, appears to be of sufficient concern to the Highway Department to warrant carrying on the work, and he recommended, therefore, that the work be continued and that it be financed by an additional authorization of $20,000. The Commission approved the recommendation.

The Commission considered, and upon the Engineer's recommendation, approved a five-year agreement with the Idaho Power Company to furnish electrical service to the Highway Department's remote-controlled radio tower south of Vale. The agreement provides, the Engineer stated, that the State is to pay the Power Company $10 per month for a period of five years. The payment, he felt, was justified by reason of the capital investment required by the Power Company in constructing nine-tenths of a mile of power line to provide the service. (The agreement was signed by the Commission on the following day.)

The Commission considered a supplemental agreement with the United States Government concerning reimbursement for inspection service on relocated State Highways US 730 and US 395 around McNary Dam. The Engineer explained that under the terms of the old agreement the Government paid a certain amount each month for in-

spection service; however, due to the large amount of inspection required, the monthly amount established in the contract was exceeded, and the Government has now prepared a new contract whereby it will reimburse the State for the actual total rather than on the monthly basis. He recommended that the revised agreement be approved. The Commission accepted the recommendation. (The Commission signed the agreement on the following day.)

Upon the Engineer's favorable recommendation, the Commission approved three minor revisions requested by the U. S. Army Engineers in their agreement with the State covering the building of a new section of the Willamette Highway around Dexter Regulating Dam on the Willamette River. (On the following day the Commission initialed the changes.)

The Commission considered a claim presented by the Pacific Telephone and Telegraph Company for damages to its toll telephone line on the Columbia River Highway east of Cascade Locks. The Engineer stated that an investigation disclosed that on January 21 a slide occurred near the Columbia Gorge Ranger Station. Some of the rocks in the slide, he reported, were of such size that it was necessary to blast them before they could be moved. It was further determined that flying rock from the blasting struck the telephone cable causing some damage and temporarily disrupting the full use of the cable. It was his thought that the Telephone Company's claim was just, and he recommended that it be paid. The Commission authorized payment in the approximate sum of $200 as recommended.

The Engineer reported that it had been called to his attention that the operations of the Lincoln Auto Wreckers, just east of the City of Toledo on the Corvallis-Newport Highway, are creating a hazard. As a result of this, the Traffic Engineer has conducted a field investigation to determine the facts. It was found that the twenty-one foot asphalt pavement has an average six-foot shoulder on the north side and a nine-foot shoulder on the south side. The Auto Wreckers are located at the intersection of two descending grades of approximately four percent. At the time of the investigation, four cars were found parked on the shoulders on the south side of the highway. In view of these facts, he recommended that "NO PARKING ON HIGHWAY SHOULDERS" signs be installed on both sides of the highway from M. P. 9.03 to M. P. 9.18. The Commission approved the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "J", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also commented that considerable difficulty had been experienced with traffic parking on the narrow shoulders of the Pacific Highway immediately north of the railroad grade crossing in the City of Creswell. The promiscuous parking by employees of a sawmill and patrons of a restaurant is reaching a point where it constitutes a traffic hazard. He recommended, therefore, and the Commission approved, the prohibition of parking on the shoulders on both sides of the highway between M. P. 135.65 and M. P. 135.95 subject to concurrent action on the part of the City by adopting an ordinance relative thereto, as the entire distance is within the corporate limits of the City of Creswell.

Extension of the Corvallis-Eastside Highway, a distance of two blocks,

from Second Street to Fourth Street and across the one-way street couplet in Corvallis was considered. The Engineer pointed out that since the one-way street system had been put into effect on Third and Fourth Street, the Corvallis, Eastside Highway does not connect with the Albany-Corvallis Highway. The extension, he stated, is desired by the City of Corvallis, and he recommended that a resolution extending the highway be adopted. The Commission accepted the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed with the Engineer the itinerary for the first trip to be made by the Highway Commission in the spring and summer of 1953. The Engineer presented an outline for the trip, pointing out that the people of Coos County have arranged a program for "Ben R. Chandler Day" on Friday, May 22, with a luncheon to be held at Coquille on that day and dinner in Coos Bay that evening. He outlined an itinerary to meet this day, starting from Portland on May 20, staying in Roseburg that night, from there to Brookings on May 21, Brookings to Coos Bay on May 22, and from Coos Bay to Portland on Saturday, May 23. The Commission approved the itinerary and authorized the necessary arrangements to be made for the trip.

The Engineer reported that the Detroit-Dry Creek relocated section of the North Santiam Secondary Highway has been completed and traffic is now routed over it. The old section of this highway, he stated, is no longer needed as a highway route, and he recommended that the Commission abandon the old right of way. The Commission accepted the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "G-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that the relocated portion of the Columbia River Highway, known as the Big Creek Section, in Clatsop County, has been completed and traffic is now routed over it. The old section of highway, he stated, is no longer needed for state highway purposes, and he recommended that the Commission abandon the old section. The Commission approved the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "G-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that the relocated portion of the Pacific Highway in Lane County, known as the Judkins Point-Goshen Section, has been completed and is now opened for traffic. According to the agreement with Lane County, dated September 12, 1951, Unit "A", from Engineer's Station 181+96.94 easterly along the old highway to the intersection of the old highway and the McKenzie Highway, is to remain under the jurisdiction and control of the State as a primary state highway and will be maintained as an extension or part of the McKenzie Highway; Unit "B", beginning at the intersection of the old route of the Pacific Highway with the present McKenzie Highway at Springfield Junction southerly to its intersection with the new route of the Pacific Highway No. 1 at Station 304+73.7, is also to remain as a state highway and shall henceforth be known and designated as the McVay Secondary Highway No. 225; Unit "C", beginning at the intersection of the relocated Pacific Highway with the old highway and opposite Engineer's Station 304+73.7 southerly over the

old route of the Pacific Highway to Engineer's Station 236+26.89, is to be transferred to the jurisdiction and control of Lane County. The Engineer recommended that the Commission adopt a resolution abandoning the sections as outlined above. The Commission accepted the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "G-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer advised that a portion of the Rome-Princeton Secondary Highway, known as the North Unit, Princeton-Follyfarm Section, in Harney County has been completed and is now opened to traffic. The old section of the highway, he stated, is no longer needed as a state highway route, and he recommended that it be abandoned to Harney County. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "G-4", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that a portion of the Clackamas Secondary Highway, known as the Eagle Creek Section, in Clackamas County has been completed,and traffic is now routed over it. The old section of highway, he stated, is no longer needed as a state highway route, and he recommended that it be abandoned to Clackamas County. The Commission accepted the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "G-5", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered and approved an agreement with Coos County relative to the relocation of a section of the Oregon Coast Highway, known as the Douglas County Line-Glasgow Section. The Engineer explained that under the terms of the agreement the County agrees to take over certain portions of the old section of highway when the relocated section is completed and opened to travel. (The Commission signed the agreement on the following day.)

The Engineer requested that the Sams Valley Secondary Highway be classified as a Group II highway from its junction with the Pacific Highway at Gold Hill to its junction with the Crater Lake Highway. He explained that the only previous restriction to this classification was a substandard bridge over the Rogue River restricted to a fifteen-ton load limit. This bridge, he added, was destroyed by a truck and has subsequently been replaced with a standard structure. The Commission approved the request.

The Engineer reported that in conformity with authority previously granted him he had placed reduced load limits on the following state highways: Alsea-Deadwood Secondary Highway No. 201, Medical Springs Secondary Highway No. 340, and Crater Lake Highway No. 22. It was necessary, he stated, to place these reduced load limits in order to save the highways from undue damage caused by freezing and thawing conditions. The Commission approved the Engineer's action by adopting the attached resolution relative thereto, marked EXHIBIT "O", which resolution by this reference is made a part hereof with

from Second Street to Fourth Street and across the one-way street couplet in Corvallis was considered. The Engineer pointed out that since the one-way street system had been put into effect on Third and Fourth Street, the Corvallis, Eastside Highway does not connect with the Albany-Corvallis Highway. The extension, he stated, is desired by the City of Corvallis, and he recommended that a resolution extending the highway be adopted. The Commission accepted the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed with the Engineer the itinerary for the first trip to be made by the Highway Commission in the spring and summer of 1953. The Engineer presented an outline for the trip, pointing out that the people of Coos County have arranged a program for "Ben R. Chandler Day" on Friday, May 22, with a luncheon to be held at Coquille on that day and dinner in Coos Bay that evening. He outlined an itinerary to meet this day, starting from Portland on May 20, staying in Roseburg that night, from there to Brookings on May 21, Brookings to Coos Bay on May 22, and from Coos Bay to Portland on Saturday, May 23. The Commission approved the itinerary and authorized the necessary arrangements to be made for the trip.

The Engineer reported that the Detroit-Dry Creek relocated section of the North Santiam Secondary Highway has been completed and traffic is now routed over it. The old section of this highway, he stated, is no longer needed as a highway route, and he recommended that the Commission abandon the old right of way. The Commission accepted the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "G-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that the relocated portion of the Columbia River Highway, known as the Big Creek Section, in Clatsop County, has been completed and traffic is now routed over it. The old section of highway, he stated, is no longer needed for state highway purposes, and he recommended that the Commission abandon the old section. The Commission approved the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "G-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that the relocated portion of the Pacific Highway in Lane County, known as the Judkins Point-Goshen Section, has been completed and is now opened for traffic. According to the agreement with Lane County, dated September 12, 1951, Unit "A", from Engineer's Station 181+96.94 easterly along the old highway to the intersection of the old highway and the McKenzie Highway, is to remain under the jurisdiction and control of the State as a primary state highway and will be maintained as an extension or part of the McKenzie Highway; Unit "B", beginning at the intersection of the old route of the Pacific Highway with the present McKenzie Highway at Springfield Junction southerly to its intersection with the new route of the Pacific Highway No. 1 at Station 304+73.7, is also to remain as a state highway and shall henceforth be known and designated as the McVay Secondary Highway No. 225; Unit "C", beginning at the intersection of the relocated Pacific Highway with the old highway and opposite Engineer's Station 304+73.7 southerly over the

old route of the Pacific Highway to Engineer's Station 236+26.89, is to be transferred to the jurisdiction and control of Lane County. The Engineer recommended that the Commission adopt a resolution abandoning the sections as outlined above. The Commission accepted the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "G-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer advised that a portion of the Rome-Princeton Secondary Highway, known as the North Unit, Princeton-Follyfarm Section, in Harney County has been completed and is now opened to traffic. The old section of the highway, he stated, is no longer needed as a state highway route, and he recommended that it be abandoned to Harney County. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "G-4", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that a portion of the Clackamas Secondary Highway, known as the Eagle Creek Section, in Clackamas County has been completed,and traffic is now routed over it. The old section of highway, he stated, is no longer needed as a state highway route, and he recommended that it be abandoned to Clackamas County. The Commission accepted the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "G-5", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered and approved an agreement with Coos County relative to the relocation of a section of the Oregon Coast Highway, known as the Douglas County Line-Glasgow Section. The Engineer explained that under the terms of the agreement the County agrees to take over certain portions of the old section of highway when the relocated section is completed and opened to travel. (The Commission signed the agreement on the following day.)

The Engineer requested that the Sams Valley Secondary Highway be classified as a Group II highway from its junction with the Pacific Highway at Gold Hill to its junction with the Crater Lake Highway. He explained that the only previous restriction to this classification was a substandard bridge over the Rogue River restricted to a fifteen-ton load limit. This bridge, he added, was destroyed by a truck and has subsequently been replaced with a standard structure. The Commission approved the request.

The Engineer reported that in conformity with authority previously granted him he had placed reduced load limits on the following state highways: Alsea-Deadwood Secondary Highway No. 201, Medical Springs Secondary Highway No. 340, and Crater Lake Highway No. 22. It was necessary, he stated, to place these reduced load limits in order to save the highways from undue damage caused by freezing and thawing conditions. The Commission approved the Engineer's action by adopting the attached resolution relative thereto, marked EXHIBIT "O", which resolution by this reference is made a part hereof with

like effect as though extended in full herein.

The Engineer also reported that reduced load limits had been removed from a number of highways as follows: Siletz Secondary Highway No. 181, Kings Valley Secondary Highway No. 191, Alsea-Deadwood Secondary Highway No. 201, Little Sheep Creek Secondary Highway No. 350, Medical Springs Secondary Highway No. 340, and Paulina Secondary Highway No. 380. The removal of the reduced load limits, he stated, was due to the fact that conditions had changed so that the highways could safely withstand legal loads. The Commission confirmed the Engineer's action by adopting the attached resolution relative thereto, marked EXHIBIT "P", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A written request from Mr. Arnold H. Earnshaw, Delake, that appropriate markers be erected pointing out that the "D" River crossing the Oregon Coast Highway near Delake is the shortest river in the world was considered. The Engineer recalled that at a previous meeting a similar request had been received and denied due to the fact that it could not be definitely determined that the "D" River was the shortest river in the world. Since that time, he stated, Mr. Earnshaw and others interested in the matter had submitted considerable data emphasizing the fact that the "D" River was as, as far as could be determined, the shortest river in the world. As no evidence could be found to the contrary, he recommended that the request be approved. The Commission concurred in the recommendation.

A protesting letter from Mr. J. C. Ofelt of Gleneden Beach was considered. Mr. Ofelt objected to the proposed revision of the Oregon Coast Highway through Gleneden Beach. In the discussion of this matter, it was pointed out that the location of the highway at this point has been protested several times in the past, and in each instance the location had been reaffirmed by the Commission. As there were no new facts in Mr. Ofelt's letter, the Commission ordered that it be filed.

The Commission considered and approved out-of-state travel expense for the following state highway employees:

1. R. H. Baldock, State Highway Engineer, and W. W. Stiffler, Assistant State Highway Engineer, to attend a meeting of the AASHO in Boise and Malad, Idaho, on May 7 and 8, , 1953. Estimated cost $197.00.

2. F. B. Crandall, Traffic Engineer, two assistant traffic engineers, and Forrest Cooper, Assistant Construction Engineer, to attend the 6th Northwest Traffic Engineering Conference at the University of Washington, at Seattle, on May 21 and 22, 1953. Estimated cost $215.00.

3. Frank I. Towle, Engineering Investigator, to attend a conference with the Coast Guard in Seattle, Washington, on April 10 and 11, 1953, concerning the case of the State vs. Yaquina Bay Dock and Dredge Company and the Port of Astoria. Estimated cost $40.35.

The Engineer recalled that at meetings held in January and February, 1953 the Commission had approved the placing of reduced speed zones beginning at the city limits of Amity, Lebanon, Waldport, and Astoria, but made their action contingent

upon similar action to be taken by the State Speed Control Board within the corporate limits of the cities and towns. Such action has now been taken, and the Engineer requested confirmation of the previously approved reduced speed zones. The Commission confirmed this previous action by adopting the attached resolutions relative thereto, marked EXHIBITS "K-1", "K-2", "K-3", "K-4", and "K-5", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Engineer presented a list of twenty employees who will either reach retirement age during the first quarter of 1953 or whose extended employment, having been approved previously by the Retirement Board, will expire during the third quarter of 1953. He pointed out that 30 to 40 days advance notice must be given to persons being retired or retained in service, and before such notice is official, it requires the action of the State Highway Commission, the Governor, and the Retirement Board. He recommended, and the Commission concurred, that all twenty of the employees be retained in service for an additional year. (For the list of employees concerned, see the Engineer's letter in the General Files dated March 25, 1953.)

Erection of a textboard concerning the aborigines who inhabited the Fort Rock area was considered by the Commission. The Engineer reported that Dr. Cressman of the University of Oregon has made interesting studies concerning these people, and as a result of these studies and discoveries, the Memorials Committee of the Oregon Historical Society has approved the following text:

FORT ROCK

SOME OF THE EARLIEST KNOWN INHABITANTS OF THIS CONTINENT MADE THEIR HOME IN A CAVE IN ONE OF THE LOW KNOLLS DOMINATED BY FORT ROCK, VISIBLE ACROSS THIS BASIN. RADIO-CARBON DATING INDICATES THAT SANDALS FOUND IN THE CAVE MAY BE 9,000 YEARS OLD. FORT ROCK IS THE REMNANT OF AN ANCIENT VOLCANO RISING 325 FEET ABOVE THE PLAIN. A GREAT LAKE COVERED THIS ENTIRE BASIN, SPREADING AS FAR SOUTH AS PICTURE ROCK. IT WAS IN A CAVE FACING THAT LAKE THAT THE FORT ROCK PEOPLE LIVED.

He recommended, and the Commission approved, the erection of the textboard on the Fremont Highway near Fort Rock.

Also considered was the proposed erection of a textboard on the Columbia River Highway opposite Sauvie Island. The Engineer reported that Mr. Omar Spencer, Portland attorney, has written a book concerning Sauvie Island and has requested that a textboard be erected. The request, he stated, has been approved by the Memorials Committee of the Oregon Historical Society, and he recommended that the textboard, with the following inscription, be erected as a minor betterment project at an estimated cost of $300.00:

HISTORIC SAUVIE ISLAND OPPOSITE THIS POINT

HOME OF THE MULTNOMAH INDIANS, FIRST SEEN BY LIEUTENANT BROUGHTON IN 1792, EXPLORED AND DESCRIBED BY LEWIS AND CLARK IN 1805-1806, SETTLED AS A FUR-TRADING POST CALLED FORT WILLIAM BY NATHANIEL J. WYETH IN 1834, THEN AS A DAIRY BY LAURENT SAUVIE REPRESENTING HUDSON'S BAY COMPANY ABOUT 1838, IT WAS FINALLY OCCUPIED AS DONATION LAND CLAIMS BY AMERICAN PIONEERS IN THE 1840's AND 1850's.

The Commission approved the request.

The Commission considered a letter written by Governor Paul L. Patterson announcing the reappointment of Mr. M. K. McIver as a member of the Oregon State Highway Commission for a three-year term, beginning April 1, 1953 and ending March 31, 1956.

The Commission considered a claim submitted by Mr. August Moser, retired Highway Department employee at La Grande, in the sum of $1,468.28. Mr. Moser claimed back salary which he alleged is due him because of performing certain types of work above his payroll classification which he was directed to do by the La Grande Shop Superintendent. The Engineer reported that Mr. Moser had based his claim on the assumption that the work he had performed entitled him to a higher rate of pay than he received. A review of the claim was made by Mr. W. W. Stiffler, Assistant State Highway Engineer, and Mr. A. G. Huntley, Personnel Director, and it was their opinion, he stated, that Mr. Moser was not required to perform any other work than the type of work a journeyman machinist is required to do, and that he had been paid as a journeyman machinist for the full time of seventy-one months between October 1, 1946 and September 1, 1952 for which his claim for additional compensation is made. In view of the comprehensive investigation made of the request, it was his belief that Mr. Moser does not have a valid claim, and he recommended that it be denied. The Commission approved the recommendation. (For further details concerning the claim, see the Engineer's letter, dated March 27, 1953, in the General Files.)

A petition from residents in the vicinity of Saginaw, Lane County, was considered by the Commission. These people requested more stringent traffic regulations in the community of Saginaw on the Pacific Highway north of Cottage Grove. The Engineer stated that their request had been investigated by the Traffic Engineering Department, and as a result of the investigation, he recommended the establishment of a 45-mile per hour speed zone between a point 0.14 mile north of Delight Valley Road and 0.32 mile south of this road. He also recommended the establishment of a "NO PARKING" zone on a section of the area over which the reduced speed zone had been placed. The Commission approved the Engineer's recommendation by adopting the attached resolutions relative thereto, marked EXHIBIT "L" and EXHIBIT "M", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Consideration was given by the Commission to a request received from the State Forestry Department for a two-year permit to utilize right of way purchased for the Fishhawk Falls Secondary Highway, Clatsop County. The Engineer stated

that the Forestry Department had been authorized to use this right of way in October, 1951 for a logging road to harvest state-owned timber. The Forestry Department did not use the original permit as arrangements for the sale of this timber have just now been completed. They wish to renew the permit for a period of two years, from May 1, 1953 to May 1, 1955, with the right to renew the lease for an additional year in the event that right of way is not needed by the State for new construction at that time. As the State has no present plans for construction of the Fishhawk Falls Secondary Highway in the next three years, he recommended that the permit be granted to them as outlined. The Commission approved the recommendation.

The Commission unanimously approved the report on papers signed by H. B. Glaisyer, Secretary, and Floyd Query, Acting Secretary, during the period January 16, 1953 to April 6, 1953.

The Commission gave consideration to the following items of unfinished business as shown on the summary, dated February 18, 1953:

1. Proposed rerouting of US 99W through McMinnville: The Engineer reported that in accordance with instructions from the Commission, descriptions and options have been prepared and given to a local group which is to secure the right of way. This item was ordered removed from the list of unfinished business.

2. Proposed plan for connection between Swift Avenue and Denver Avenue in North Portland: The Engineer recommended, and the Commission approved, that authority be given to condemn property needed for right of way, if such action is necessary, and to advertise the project for letting as soon as plans are completed. The Commission ordered the item removed from the list of unfinished business.

3. Agreement with Army Engineers regarding use of area at Hat Rock State Park: The Parks Superintendent stated that the agreement, although its terms have been agreed upon, is still in the hands of the Army Engineers. This item was ordered removed from the list of unfinished business.

4. Proposed wayside area between Ladd Canyon and Rattlesnake Springs: The Engineer stated that this item had been disposed of by his report which was made earlier in the session. The item was ordered removed from the list.

5. Request of residents of Oswego for widening of Oswego Highway through city, surfacing of parking strips, and improved signalization of railroad crossing: The Engineer stated that he had reported on this item earlier in the session. The item was ordered deleted from the list of unfinished business.

6. Proposed settlement with Edenfields for slide damage to their property on the Newport-Toledo Section of the Corvallis-Newport Highway: The Chief Counsel reported that he was conducting negotiations with the surety company for a compromised settlement in connection with the contractors

liability for the damages incurred. They have agreed, he stated, to pay one-third, or $3,566. Their liability in this instance, he stated, would probably be very difficult to prove in court, and he recommended that the proposed settlement be accepted. The Commission approved the recommendation and ordered the item removed from the list of unfinished business.

7. Proposed exchange of sand and gravel products with Columbia Sand and Gravel Company at Umatilla: The Engineer reported that an agreement has been prepared and signed by the Columbia Sand and Gravel Company and will be presented to the Commission at this meeting for their signature. The Commission approved the agreement and signed it later in the session. The item was ordered removed from the list.

8. Car parking problem on US 30 at Koberg Beach near Hood River: The Engineer reported that his report on this situation was not yet ready. This item is to remain on the list of unfinished business.

9. Request of Clackamas County delegation for improvement of the following: (1) 82d Street, Portland to Oregon City; (2) New bridge between Oregon City and West Linn: (3) Widening US 99E from New Era to Hubbard; and (4) Widening Mt. Hood Highway east of Sandy. The Engineer reported that he expected to have the economic survey completed and ready for the Commission's consideration at the May meeting. This item is to remain on the list of unfinished business.

10. Request of Lane County delegation for construction of a one and one-half-mile gap in the Fox Hollow Secondary Highway south of Eugene: The Engineer advised that this matter was covered in his report rendered earlier in the meeting. The item was ordered removed from the list of unfinished business.

The Commission confirmed May 18 and 19, 1953 as the dates for their next meeting which is to be held in the Green Room of the Imperial Hotel in Portland. They set also a tentative date of June 25 and 26, 1953 for the next following meeting. This meeting, too, will be held in the Green Room of the Imperial Hotel in Portland.

Consideration was given to the Engineer's report concerning a request submitted by the Central Oregon Chamber of Commerce for additional parking area at Government Camp on the Mt. Hood Highway. The Engineer stated that a larger area had been developed in September, 1952 by grading and widening the shoulders from the new section headquarters to the Skiway at a cost of $11,715. It is planned in 1953 to grade an off-highway parking area across from the forest service station and to surface and oil a part of the shoulders at a cost of $15,000. In connection with the complaint concerning delays to trucks submitted by the Central Oregon Chamber of Commerce, he stated that there was a heavy, wet snow on March 22, 1953, the Sunday they mentioned, and a deluge of ski fans, which conditions temporarily complicated the movement of traffic. It was his thought that more traffic officers to direct traffic would probably have helped the situation materially. The Commission accepted the report.

The Commission gave consideration to a letter written by Mr. H. T. Wood of Monroe, Oregon, with reference to the rerouting of the Pacific Highway West on 9th Street in Corvallis. The Engineer reported that the route mentioned by Mr. Wood has been investigated and found to be unsuitable in that it would cost more to construct and would not give the same service as the one under consideration. He recommended, and the Commission approved, that the request be denied.

The Engineer requested authority to recast the 5-year highway construction program so as to transfer $3,000,000 from the 1954-55 bond program to a 1956-57 state construction program and at the same time to have the allotments for federal aid and state construction conform with the adopted formula for distribution between divisions. He pointed out that in attempting to cut back the second bond program to effect a reduction from the $35,000,000 tentatively scheduled to the $32,000,000 authorized by the Legislature, he found it impossible to accomplish such a cut-back by the elimination of specific projects. It way his thought that it might be advisable to carry the $3,000,000 excess as state construction in the years 1956 and 1957. If it should be desired to advance some of the $3,000,000 to years earlier than 1956 and 1957, such might be accomplished by transfers of projects between the state construction program and the federal aid programs. The Commission approved the request.

The Commission considered and approved an abandonment agreement with Jackson County providing for disposal of the old route of the Jacksonville Grade Unit of the Medford-Provolt Highway when the new route has been constructed and opened to traffic. (The agreement was signed by the Commission later in the session.)

The Commission discussed with the Engineer the various problems to be presented by the delegations appearing before the Commission on the following day.

Commissioner Reynolds pointed out that the pedestrian walk had been left out of the plans for construction between La Grande and Island City. The Engineer was instructed to replace the sidewalk in the plans.

The Engineer reported that Mr. Joe Devers, an attorney in Stayton, had written a letter in behalf of the Stayton City Council requesting a public hearing in Stayton on the proposed routing of the North Santiam Highway in or near Stayton. He stated that several surveys on this route have been made and that hearings can be held at the Commission's pleasure. The Commission deferred action on this matter and instructed the Engineer to submit a report and recommendation concerning the route to be adopted after which the date and place for the hearing could be determined.

The meeting was adjourned at 5:00 p.m.

Portland, Oregon
April 9, 1953

The State Highway Commission met in regular session at 9:00 a.m. in the Crystal Room of the Benson Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2d Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
Floyd Query, Acting Secretary

Bids, as follows, for highway construction were opened and read aloud by the Acting Secretary pursuant to previously published notice, at the conclusion of which it was announced that the awards of contracts would be made at 4:00 p.m. in the same room:

CLACKAMAS COUNTY
McLOUGHLIN BRIDGE PAINTING

O & S Painters and George A. Macom, Tigard	$ 6,800.00
Johnston Painting Co., Portland	8,398.24
Andrew Nesheim, Olympia, Washington	9,544.00
Tri-State Painting Co., Portland	10,700.00
J. E. Brown, Portland	10,732.00
C. H. Savage, Portland	11,800.00
R. H. Ireland, Portland	14,000.00
V. L. Pilip & Son, Inc., Portland	14,947.00
Hall Erection & Painting Co., Portland	19,668.00

CLACKAMAS COUNTY
GRADING CASCADE HIGHWAY

Acme Construction Co., Eugene	$161,886.20	
Warren Northwest, Inc., Portland	166,938.70	
Morrison & Lamping, Walla Walla, Washington	170,547.00	*
J. N. Conley, Portland	175,777.50	
Erland & Blickle, Portland	183,860.50	

* Bidder will make lump sum reduction of $900 if also awarded the Molalla Paving Project.

CLACKAMAS COUNTY
GRADING AND PAVING PROJECT IN MOLALLA

Acme Construction Co., Eugene	$ 7,077.00	*
J. N. Conley, Portland	8,426.10	*
Warren Northwest, Inc., Portland	8,453.00	*
Morrison & Lamping, Walla Walla, Washington	8,706.00	*
Oregon Asphaltic Paving Co., Portland	9,595.00	

* Bidder will accept award of this project only in combination with the Molalla Junction-Marquam Project.

CLACKAMAS COUNTY
GRADING AND PAVING PROJECT IN SANDY

Oregon Asphaltic Paving Co., Portland	$ 14,279.00
Warren Northwest, Inc., Portland	14,335.00
Portland Road & Driveway Co., Portland	15,102.00

CROOK COUNTY
OCHOCO RESERVOIR-WHEELER COUNTY LINE ROCK PRODUCTION PROJECT

Rogers Construction, Inc., Portland	$ 27,200.00
Vernie Jarl, Gresham	29,640.00
Newport Construction Co., Portland	41,844.00

CURRY COUNTY
MUSSEL CREEK-HUNTER CREEK ROCK PRODUCTION PROJECT

Calkins Crushing Co., Ocean Lake	$ 38,950.00
E. C. Hall Co., Portland	42,560.00

DOUGLAS COUNTY
GRADING AND PAVING THE ELKTON-SUTHERLIN HIGHWAY

J. C. Compton Co., McMinnville	$102,605.00

DOUGLAS COUNTY
PACIFIC HIGHWAY STRUCTURES

Tom Lillebo, Reedsport	$ 99,655.00	
Babler Brothers, Inc., Portland	99,955.00	
Hamilton & Thoms, Eugene	104,510.00	
Hannan Brothers, Portland	110,700.00	*
Valley Construction Co., Portland	118,240.00	**
General Construction Co., Portland	119,140.00	

April 9, 1953

Pacific Highway Structures (cont.)

* Bidder will accept award of only one project.

** Bidder will accept award of only two projects.

DOUGLAS COUNTY
YONCALLA OVERCROSSING

Todd Building Co., Roseburg	$ 42,950.00	
Orlando C. Bennard, Portland	44,980.00	
Babler Brothers, Inc., Portland	45,250.00	
Glen Snook, Eugene	46,830.00	
Tom Lillebo, Reedsport	49,100.00	
Hamilton & Thoms, Eugene	62,350.00	

DOUGLAS COUNTY
ELKHEAD ROAD-RICE HILL UNIT STRUCTURES

Glen Snook, Eugene	$100,477.00	
Babler Brothers, Inc., Portland	103,040.00	
Tom Lillebo, Reedsport	106,208.00	
Hamilton & Thoms, Eugene	106,735.00	
Hannan Brothers, Portland	110,800.00	*
Valley Construction Co., Portland	118,852.00	**
General Construction Co., Portland	126,061.00	

* Bidder will accept award of only one project
** Bidder will accept award of only two projects.

DOUGLAS COUNTY
LONE ROCK BRIDGE

Tom Lillebo, Reedsport	$166,515.00	
Lindstrom Brothers, Portland	169,790.00	
Murray-Stanford & Murray Brothers, Bend	170,220.00	
C. J. Eldon, Portland	170,480.00	
Valley Construction Co., Portland	170,920.00	*
Hamilton & Thoms, Eugene	180,580.00	
General Construction Co., Portland	188,780.00	
Peter Kiewit Sons' Co., Vancouver, Washington	207,460.00	

* Bidder will accept award of only two projects.

April 9, 1953

DOUGLAS COUNTY
HARVARD AVENUE AND PORTLAND STREET OVERCROSSINGS

Hamilton & Thoms, Eugene	$ 92,560.00	
Babler Brothers, Inc., Portland	97,130.00	
Hannan Brothers, Portland	105,880.00	*
General Construction Co., Portland	109,675.00	
Tom Lillebo, Reedsport	111,785.00

A delegation composed of the following people appeared before the Commission to request cooperation from the State in providing fire protection along US 30 between the John Day River and Heppner Junction in Gilliam and Morrow Counties: Messrs. John Krebs and Bud Phillipi, Arlington farmers; Jack Harford and Foster A. Odem, Arlington Mayor and Assistant Chief of the Fire Department, respectively; and S. R. Bennett, Department of Interior, Baker.

Mr. Krebs acted as spokesman and introduced the various members of the delegation. He stated that it was the desire of the delegation that the state assist in burning the right of way to avoid fire hazard to crops later in the summer. The owners of the various properties fronting on the area to be burned have agreed, he stated, to assume liability for damage that may be caused by the burning operations. Chairman Chandler informed the delegation that this matter had been discussed on the previous day, and the Commission has agreed to perform the work on a cooperative basis provided the interested farmers assist in the burning operation and agree to assume the liability for damage to their property that may be caused by reason of the burning. The Commission, he added, has authorized an expenditure of $6,000 for this purpose on a trial basis for this year, and he asked the delegation to consult with the Engineer regarding the necessary details.

A delegation from Tigard and vicinity appeared before the Commission to urge construction of a new bridge across the Tualatin River at Tualatin and improvement of Highway 217 between Tualatin and Tigard. The following people were present: Messrs. J. O. Johnson, Attorney; Art Williams, Chairman of the School Board; Curtis Tigard, Vice President of the Tigard Businessmen's Club; Thomas Fowler, Tigard Junior High School Principal; John Schenkla and John Addington, property owners; John Cowles, businessman; and Lyle Walker, Manager of the Safeway Store, all of Tigard; Harry Seabold, County Judge; H. R. Johnson, County Commissioner and L. L. McIntyre, County Engineer, all of Hillsboro; Glen Nichols, Tigard High School Board member, Metzger; and A. R. Roberts, property owner, from Durham.

Mr. J. O. Johnson, who acted as spokesman, introduced various members of the delegation, and exhibited a map on which he pointed out the improvements

requested. He explained these improvements would be of material benefit to the Union High School as well as to the rapidly increasing population which would be served. It was pointed out by other members of the delegation that the route appears to be feasible, and its construction would eliminate several hazards on the existing route which have been the cause of a number of accidents. Chairman Chandler stated that the Commission has studied the problem, and it has been found that the proposed construction, consisting of approximately 3.25 miles, will cost about $870,000, and as the Commission has no available secondary funds, the work cannot be performed at this time. Mr. Johnson asked it if might not be possible to secure a cheaper job. Chairman Chandler replied that as this project involves federal funds, the work has to be performed to conform with the Bureau of Public Roads specifications. It was thought that it would be probably three or four years before money would be available. He explained to the delegation that the bond money made available by the legislature is to be used only for primary highways.

A delegation from Sylvan representing the Parent Teacher Association and the School District appeared before the Commission to request some means of relieving traffic congestion at Sylvan where five roads converge upon the state highway. This delegation was composed of the following: Representing the Parent Teacher Association were Mrs. C. J. Irelan, President, Messrs. Jack Meier, Walter A. Morgan, Herm Rademacher, C. J. Irelan, H. C. Kendall, Jr., Frank Belgrano, Mr. and Mrs. H. W. Winfree, Mesdames Rolla Gray, J. R. Keefer, Dan Malarkey, and Archie Clark; representing Commonwealth, Inc. were Messrs. Ralph L. Davis and Ogden Marshall; also present were Messrs. Ralph Nelson, Principal of Sylvan School, Terry D. Schrunk, Sheriff of Multnoman County, Q. B. Griffin, Cedar Hills Company, Allan Hart, William E. Yoemans, Stewart Kerr, D. H. Holman, Arthur MacArthur, Dr. Montgomery, Warren Munro, Wm. Rosenfeld, Richard Frank, Harry Tobey, James B. Castles, D. Wilmer Wallas, L. J. Evans, William Gruber, Edward F. Brady, Mrs. E. M. Kleiner, Charles R. Harding, Rudie Wilhelm, Jr., and Harry Mittleman.

Mr. Hart acted as spokesman and exhibited a map showing the intersection involved. He pointed out some of the problems with which they are confronted, including the matter of pedestrians crossing the state highway and those motorists in the westbound lanes who wish to make left turns. He asked that the Commission construct a grade separation structure at Sylvan without waiting for the six-lane construction on the state highway, and in the meantime to make all possible improvements to alleviate the present situation. Mr. Ralph Nelson pointed out that over 200 school children cross Canyon Road each day on foot, in cars, and in busses. School busses are required to make 7 left turns off the highway each day. He pointed out that only about 15 children cross as pedestrians now due principally to the hazard of crossing the highway. Mrs. Irelan emphasized the hazard to pedestrians in crossing the highway and pointed out that the traffic lights do not allow time for pedestrians to get across. Mr. Hart called attention to the accidents at the intersection with Hewitt Street. Mr. Warren Munro stated that his child was on the school patrol and that it was very hazardous since on one occasion when the child held his flag out for the other children to cross the street, it was knocked from his hand by the passing cars. Mr. Harding pointed out the traffic bottleneck which occurs every evening at

Sylvan and Canyon Road and also the trouble that is experienced getting on to Canyon Road from Humphrey Street. Mr. Jack Meier called attention to the rapidly growing residential district on Scholls Ferry Road. He stated that consideration had been given as to possible means to alleviate the traffic congestion and to a number of them it appeared that the installation of a grade separation structure offered the best solution. Mr. Belgrano stated that something should be done so that people traveling west could see the overhead signals in the evening. At certain times of the day, the sun is in the motorists' eyes, and they cannot distinguish red or green signal lights. Mr. Griffin of the Cedar Hills community advised that a new shopping center is being installed and construction of 250 new homes is planned for this year, all of which will add to the existing traffic congestion.

Chairman Chandler advised the delegation that plans have been made to relieve traffic congestion, and considerable right of way has been acquired to provide the six traffic lanes and a tunnel. The cost of this job, however, is approximately $1,500,000, and it will be some time before the money is available. In the meantime, he stated, plans have been made to provide a temporary remedy. The Engineer explained these plans briefly, pointing out the reduction of the 5-way intersection to a simple 4-way intersection, the construction of left-turn refuges, the installation of traffic-actuated signals, and the installation of signals which can be operated by pedestrians to allow crossing the highway. These features, he stated, while not a complete remedy, should relieve the situation considerably. Chairman Chandler concluded the conference by informing the delegation that the Commission is well aware of the problem involved, and all possible steps will be taken to provide temporary relief; however, the Commission, he stated, can make no promises as to when the money will be available for the major project, including the six traffic lanes and construction of a tunnel. (This matter was again considered later in the day, and the Commission instructed the Engineer to reinvestigate the problems involved and submit a report. See paragraph ahead.)

Representatives of the Recreational Resources Committee of the Portland Chamber of Commerce appeared before the Commission regarding appointment of an advisory committee on state parks. The following people were present: G. E. Cannon, Chairman of the Portland Chamber of Commerce; and A. R. Kirkham, Chester Irelan, Donald Parks, and Thornton T. Munger, all members of the Portland Chamber of Commerce.

Mr. Cannon, who acted as spokesman, explained that an Advisory Committee such as they have in mind could assist the Highway Commission in preparing long-range park plans and in the determination of park needs and policies. It was his thought that the committee would be selected by the Highway Commission and would consist of five to seven members. He pointed out that along the Oregon Coast there are a number of State Highway parks and National Forest Service parks which might possibly be consolidated. Mr. Kirkham gave as his point of view that increased population brought increased pressure on the Highway Commission and that the advisory committee could assist them in park matters. It is not his thought, he stated, to create a separate parks department, but he cited the efficient functioning of the Travel Advisory Board. Mr. Munger urged the appointment of the committee to aid in screening various park proposals submitted to the Highway Commission and to assist them in long-range planning. He pointed out that California has a fine

setup in this respect. Chairman Chandler stated that the request was new to the Commission, but they were much interested in what the delegation had to say and would give their suggestions careful consideration.

The Commission again discussed with the Engineer the request made by the Sylvan delegation for improvements at the Sylvan intersection on Canyon Road. The Commission instructed the Engineer to re-examine the situation and present his findings in a later report.

The meeting was recessed at 12:00 noon to reconvene at 2:00 p.m. in the same room with the same persons present and participating.

The Mt. Hood Pow-Wowers, a delegation consisting of people from Gresham, Sandy, and Portland, appeared before the Commission to urge early improvement of the Mt. Hood Highway between Sandy and Zigzag. The following people were present: A. L. Greenwalt, Little Chief, Government Camp; Jess Hite, President of the Sandy Chamber of Commerce; Harold Edes, member of Sandy Chamber of Commerce; Vic Bowman, Pontiac and G. M. C. Truck Dealer, Sandy; George H. McAllister, Roscoe Fanning (Big Chief) and C. Schmick, members of Gresham Chamber of Commerce; B. L. Walrad and Ed Marckx, Gresham; C. A. Wyman, Manager, West Coast Telephone Company, Gresham; Mrs. H. W. Lofgren, Secretary, Mt. Hood Pow-Wowers, Gresham; Percy Shelley, land holder, Marmot; William Drips, Welches; Ed Larson, Portland; and Floyd Martin and Jack Wininger, Portland Chamber of Commerce.

Mr. Greenwalt acted as spokesman and introduced the members of the delegation. He stated they had heard that the Highway Commission planned to do some work on the highway and inquired as to when it might be performed. He pointed out that the opening of the Warm Springs Highway had greatly increased the traffic on the Mt. Hood Highway, including a large amount of eastern Oregon livestock and wheat, as well as logging on the western mountain slope. He mentioned that conditions are intolerable at times because of the twists and curves in this highway and the narrowness of the road in certain sections. He offered the services of the delegation in acquiring right of way. Other members of the delegation cited the tourist attractions along the highway and the large number of tourists who now use the highway. Chairman Chandler informed the delegation that an economic survey had been authorized on this highway, and it was expected that a report concerning it would be made at the Commission meeting in May. The Commission, he stated, appreciates the problem and will make a sincere effort to improve the conditions mentioned.

Mr. Dwight Schwab, Mr. Ralph Cake, and Mr. Bill Kell, all of Portland, and Mr. J. M. Housley of Roseburg, appeared before the Commission regarding access to the Housley property north of Roseburg on the Pacific Highway. Mr. Schwab explained that Mr. Housley owns a large tract of land which is bisected by the new highway. Mr. Housley, he stated, plans to build residences on this property, and to accommodate the people who will use them he should have direct access to the new highway. He pointed out that no access is now granted, and it is necessary to drive to Garden Valley Road, about two miles away, in order to get on the highway. The building sites on this property are very desirable and should be allowed at least one access on each side of the

road. He also suggested that to take care of traffic turning off the highway that a third traffic lane be constructed. Chairman Chandler stated that the Commission has a fixed policy concerning access on relocated primary highways and that they have consistently refused access on these freeways. The restriction of access, he stated, is reflected in the purchase price paid to the owner for his property. If access is granted in this instance, it would defeat the purpose of access restriction, which is for safety, as the Commission could not consistently deny other requests. The Engineer added that this would be the only place in 140 miles of relocation on the Pacific Highway where access would be granted. Mr. Schwab showed a deed purportedly showing five accesses in the area, but Chairman Chandler pointed out to him that the deed that he had was on a section of highway not yet relocated and that when this section is relocated no access will be granted. He also pointed out that construction of the third traffic lane as suggested by Mr. Schwab would constitute a hazard to through traffic, and if access were given, it should require the construction of an overpass. He pointed out, too, that all access had been acquired on the Portland- Salem Expressway and that there was one section of approximately 25 miles without access.

Mr. James A. Mount and Mr. Virgil McNeil, representing the Visitors' Service Committee from the Portland Chamber of Commerce, appeared before the Commission to urge the development of beach facilities at Rooster Rock along the Columbia River Highway. Mr. Mount stated that from the standpoint of the Chamber of Commerce, they felt a certain responsibility in providing tourists with entertainment, and the natural facilities offered by the beach at Rooster Rock provide a great attraction for tourists and other people seeking recreation. There is no public bathing beach near Portland; however, he pointed out that Rooster Rock which is only 16 miles from Portland has a natural sandy beach but cannot be fully utilized pending further development. Mr. McNeil emphasized the recreational values offered at Rooster Rock and pointed out the need for parking space and construction of an adequate access road to reach the beach. Chairman Chandler informed them that the matter is being studied and that some sort of a plan would soon be developed; however, he added, there are no funds in this year's budget for the project. Commissioner Reynolds pointed out that it would probably cost more to provide highway facilities to get the traffic off and on the Columbia River Highway than it would to fix up the park.

A delegation from Condon, Moro, Fossil, and The Dalles appeared before the Commission to request oiling of the Wasco-Heppner Secondary Highway northwest of Condon and possible realignment of the same highway west of the John Day River. The following people were present: Van Rietmann and Jerry Schreiner of the Condon Commercial Club; Shelt Burress, Moro; Bob Meisner, Fossil Community Club; and Ward Webber, The Dalles Chamber of Commerce. Mr. Van Rietmann exhibited a map of the highway and requested the Commission to conduct a reconnaissance survey from the John Day River west and north and also to place an oiled surface from the end of the pavement northwest of Condon to the John Day River. Mr. Burress cautioned against selecting the wrong route on the northwesterly end of the highway. He also expressed the thought that the road would carry considerably more traffic if it was placed in good condition. Mr. Webber of The Dalles Chamber of Commerce stated that his group is in favor of improving the road. Jerry Schreiner pointed out that the highway is extremely valuable during floods on the Columbia River. He also complimented the Highway Department on the excellent maintenance

of the existing road. Chairman Chandler informed the delegation that their request would be considered, but there is no money available for improvement at this time.

Mr. W. L. MacDonald, representing the United States Forest Service, appeared before the Commission and requested a survey on the Little Sheep Creek Secondary Highway from Joseph east and north. He also requested the application of crushed rock and the modification of some sharp curves in the roadway. In response to inquiry from Commissioner Reynolds as to whether the United States Forest Service could participate in the development, he replied that it would be about a year and one-half before funds would be available, but the roadway requires immediate additional surfacing. Chairman Chandler stated that the Commission plans to receive bids in May for a major improvement to the highway from Joseph to the foot of the mountain grade, a distance of about five miles. Mr. MacDonald stated that the section in which he is interested is about twelve and one-half miles long. The Engineer was instructed to look into the matter and make a report on the overall picture, including the straightening and widening of this road.

The Commission also discussed briefly with Mr. MacDonald the proposed route for the road between Ukiah and Starkey. It was pointed out that there had been some complaint regarding the tentative location and plans were made with the Engineer to walk over the location with representatives from the Bureau of Public Roads sometime this spring or early summer.

Mr. MacDonald also brought up the matter that Mr. Post, whose P. U. C. permit had been revoked, had apparently made a statement to the effect that his overloads were permitted by the U. S. Forest Service on Forest Service roads. This, Mr. MacDonald stated is not true and he added further that the Forest Service load limits correspond with State load limits.

Mr. MacDonald also brought up the matter of moving a house in the vicinity of Silver Lake and inquired as to what procedure he should follow to secure a permit. He was advised that he should present his request to the Engineer and an investigation would be made to determine whether the moving could be safely done.

Mr. Jess Minson and Mr. William R. McCormack, Crook County Commissioners, appeared before the Commission and requested improvements to the Paulina Secondary Highway between Eagle Creek and Paulina. Mr. Minson thanked the Commission for improving the 16-mile section from Prineville to Davis Ranch. However, traffic, he stated, has increased and improvement is now desired eastward to Paulina. Chairman Chandler advised them that the proposed improvement would cost in the neighborhood of a million dollars and that it would be necessary to do it by stages. The improvement on this section, he stated, is in the tentative program. He then inquired if any survey work had been done on the section. The Engineer replied that the survey had been started, and it is expected to be finished early this summer.

Mr. W. J. Mordini, Assistant General Sales Manager, and Thomas McNeill, Manager, both with the Interstate Tractor and Equipment Company,

Portland, appeared before the Commission with the request that they be allowed to move a piece of equipment, known as a "Skagit" loader under its own power over state highways. Mr. Mordini displayed weight charts on the machine, showing it to have a total weight of 69,300 pounds. He pointed out that the equipment is of great value to loggers, particularly in salvaging scattered areas, down timber and diseased timber; also, many logging operators must log in small areas as the large timber patches become fewer. The machine, he explained, aids a great deal in selective logging as recommended by the Forest Service and has to be built heavy so that it can handle old growth timber. He observed that houses are allowed to be moved over highways as well as comparatively heavy earth-moving machinery, and he felt that permission should be granted to move the "Skagit" loader on its own power. The machine, he added, has air brakes, hydraulic steering, good sight visibility, and large tires which he felt would not harm the highways. He also stated that California and Washington have given permits to move this equipment on its own power. He pointed out that if the machine has to be dismantled to move, it defeats the purpose of economical operation. Chairman Chandler stated that the Commission has to be very careful in granting overweight permits in order to protect the public investment in roadways and bridges. The Commission, he added, relies on its Engineer for advice as to what weights are allowable, and these weights are well-known in industry. Manufacturers of equipment, he stated, should take into consideration the weights allowed by law in the various states in which they market their product. The Engineer stated that there was some doubt in his mind as to whether Washington and California granted permits to move this equipment on its own power, and added that it is possible, under permit in this state, to move this equipment on a lowboy type trailer by dismantling the loader; however, when the equipment is thus loaded it stands about 16 feet high and would be unable to travel on any highway where there are underpasses. Chairman Chandler concluded the interview by stating to Mr. Mordini and Mr. McNeill that they should consult with the Highway Engineer at Salem if they wish to dismantle and move the equipment on a five-axle lowboy semitrailer combination.

Judge W. R. Webber from The Dalles spoke before the Commission concerning some plan of constructing a section of road between Three-Mile Creek and Five-Mile Creek about two miles from the south end of The Dalles Bridge. He pointed out that an application has been made to construct 300 temporary homes in the area to be served by this road; and, also, the Army Engineers will need about 150 homes for operative personnel while The Dalles Dam is under construction and after it is finished. The proposed site, he stated, is at present a cherry orchard but is ideally situated for resident development. The County, he stated, has money available to purchase right of way. He asked if it were not possible to construct the complete project to The Dalles-California Highway, that, if the first two miles were completed, it would open the area up for housing development. The Engineer stated that tentative information shows that it would cost about one and one-half million dollars to construct six miles of highway and also that the Central Oregon Chamber of Commerce had objected to switching money from the southerly end of the division to The Dalles area. Chairman Chandler stated that he did not know of any money available and pointed out that the Commission had been forced to revise the bond program as the Legislature had approved $3,000,000 less than planned. He also pointed out that in this new bond program and in the program now nearing completion that Wasco County had faired very well in the expenditure of highway funds.

Mr. August Uehlinger of the Cascade Locks Lumber Company requested the Commission to allow the Lumber Company to haul logs on the old Columbia River Highway from Viento Park to Cascade Locks. Mr. Stiffler, Assistant State Highway Engineer, recalled that there had been some correspondence on the matter but up to now it had pertained only to piling. The Highway Engineer pointed out that the old Columbia River Highway is a narrow, crooked road, and no Highway Commission since 1917 has granted a permit to haul logs over it. The Commission instructed the Engineer to investigate the matter and report at a later date.

Acquisition of right of way along the route of the West Portland-Harbor Drive Section of the Salem-Portland Expressway was discussed. The Right of Way Engineer stated that as previously instructed they had acquired right of way where the owners had asked to sell and so far had spent about $300,000. The survey, he stated, has now been adopted, and he inquired as to what course the Commission wished to pursue in the future. The Commission instructed him that property should be acquired as is feasible with the present crew of right of way men, but acquisition should not be pushed, as construction is still five or six years in the future, and there are many other jobs which are more urgent. However, a close watch should be kept on the area to purchase necessary right of way to forestall real estate development.

The Commission discussed with the Engineer the bids received at the morning session and at 4:00 p.m. Commissioner Reynolds publicly announced the awards of contracts as follows:

"Cleaning and painting all structural steel in the McLoughlin Bridge over the Clackamas River on the Pacific Highway East near Oregon City, Clackamas County: The Commission received nine bids for this job, the low one being that of O & S Painters and George A. Macom, Tigard, in the amount of $6,800.00. The contract has been awarded to the low bidder at its bid price.

"Grading, paving, and construction of a 90-foot concrete bridge on the Molalla Junction-Marquam Section of the Cascade Highway north of Marquam, Clackamas County: Of the five bids received Acme Construction Company, Eugene, submitted the low bid at $161,886.20. The bid of Acme Construction Company in the sum of $161,886.20 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading and paving Section Street and Hart Avenue in Molalla, Clackamas County: The low bidder for this project was Acme Construction Company, Eugene, at $7,077.00. Four higher bids were received. The bid of Acme Construction Company in the sum of $7,077 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared.

"Grading and paving Sandy Heights Road in the City of Sandy, Clackamas County: Only three bids were received for this work, Oregon Asphaltic Paving Company, Portland, having submitted the low one at $14,279.00. The bid of Oregon Asphal-

tic Paving Company in the sum of $14,279.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the City of Sandy and provision has been made by said city of funds for the cost of the project in excess of $15,000, which amount will be advanced by the State.

"Ochoco Reservoir-Wheeler County Line Rock Production Project on the Ochoco Highway about eleven miles east of Prineville, Crook County: The Commission received only three bids for this project, the low one being that of Rogers Construction, Inc., Portland, at $27,200.00. The contract has been awarded to the low bidder at its bid price.

"Mussel Creek-Hunter Creek Rock Production Project on the Oregon Coast Highway, starting about fourteen miles south of Port Orford, Curry County: Of the two bids received, Calkins Crushing Company, Ocean Lake, submitted the low one at $38,950.00. The Commission rejected both bids as being too high.

"Grading and paving the Sutherlin Section of the Elkton-Sutherlin Highway in Sutherlin, Douglas County: J. C. Compton, McMinnville, submitted the only bid for this work, in the amount of $102,605.00. The bid of J. C. Compton Company in the sum of $102,605.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of three reinforced concrete viaducts on the Deady-Winchester Unit of the Pacific Highway about 10 miles north of Roseburg, Douglas County: The low bidder for this work was Tom Lillebo, Reedsport, in the amount of $99,655.00. Five higher bids were received. The contract has been awarded to the low bidder at his bid price.

"Construction of a reinforced concrete viaduct, known as the Yoncalla Overcrossing, on the new alignment of the Pacific Highway over the Southern Pacific Company tracks, Douglas County: The Commission received six bids for this job, Todd Building Company, Roseburg, having submitted the low one at $42,950.00. The bid of Todd Building Cpmpany in the sum of $42,950.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of four reinforced concrete structures on the Elkhead Road-Rice Hill Section of the Pacific Highway south of Yoncalla, Douglas County: The low bidder for this job was Glen Snook, Eugene, at $100,477.00. Six higher bids were submitted. Glen Snook, the low bidder, has been awarded the contract at his bid price.

"Construction of the Lone Rock Bridge over the North Umpqua River on the North Umpqua Road approximately 18 miles northeast of Roseburg, Douglas County: Tom Lillebo, Reedsport, was the low bidder for this work at $166,515.00. Seven higher bids were received. The bid of Tom Lillebo in the sum of $166,515.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the Bureau of Public Roads and Douglas County has made provisions for the deposit of $37,500 which is

said County's share of cost based upon the low bid.

"Construction of two reinforced concrete overcrossings at Harvard Avenue and Portland Street on the new alignment of the Pacific Highway in Roseburg, Douglas County: Of the six bids received for this work, Hamilton and Thoms, Eugene, submitted the low one at $92,560.00. The Commission has awarded the contract to the low bidder, Hamilton and Thoms, at their bid price.

"Erection of the Winston Maintenance Building on the Pacific Highway approximately six miles south of Roseburg, Douglas County: Five bids were received for this job, the low one being that of Robert C. Wilson, Corvallis, at $12,372.00. The low bidder, Robert C. Wilson, has been awarded the contract at his bid price.

"Replacement of portions of pier fenders for the bridge over the Umpqua River on the Oregon Coast Highway at Reedsport, Douglas County: Tom Lillebo, Reedsport, aubmitted the only bid for this job, in the amount of $26,450.00. The contract has been awarded to the low bidder at his bid price.

"Installation of guard rail and sight post on the Hood River-Mosier Section of the Columbia River Highway between Hood River and Mosier, Hood River and Wasco Counties: The low bid for this project was submitted by George E. Berry, Beaverton, at $81,088.00. The Commission received eight higher bids. The contract has been awarded to the low bidder at his bid price.

"Construction of two reinforced concrete bridges at Bear Creek and Whetstone Creek on the Tolo-Camp White Access Road approximately 5 to 8 miles west of Gold Hill, Jackson County: Babler Brothers, Inc., Portland, submitted the low bid at $72,512.00. Five higher bids were received. All bids have been referred to Jackson County Court.

"Pavement widening of the Makin Gulch-Jumpoff Joe Creek Section of the Pacific Highway about two miles south of Wolf Creek, Josephine County, and the Azalea, Jumpoff Joe Creek Rock Production Project on the Pacific Highway about eleven miles south of Canyonville, Josephine and Douglas Counties: The low combination bid for these jobs was submitted by J. C. Compton Company, McMinnville, in the total amount of $111,055.00. Four higher bids were received. The Commission has awarded both contracts to the low bidder on their low combination bid.

"Approximately fourteen and one-half miles of reoiling in Division No. 3 on four state highways near Blue River, Eugene, Elmira, Scottsburg, Reedsport, and Cave Junction in Josephine, Lane, and Douglas Counties: Of the four bids received, Baker Paving Company, Inc., Coos Bay, submitted the low bid at $43,774.25. The low bidder has been awarded the contract at its bid price.

"Construction of a standard latrine and septic tank with disposal field at Armitage State Park near Coburg, Lane County: The Commission received four bids for this project. Steinmuller and Lee, Springfield, submitted the low one at $5,082.00. The low bidder has been awarded the contract at its bid price.

"Paving on the Hayesville School-Battle Creek Junction Unit, Salem By-pass Section of the Pacific Highway east and south of Salem, Marion County: The low bidder on this project was Warren Northwest, Inc., Portland, at $279,020.00. Nine higher bids were received. The contract has been awarded to the low bidder at its bid price.

"Paving on 92d Avenue-Fairview Section of the T. H. Banfield Expressway east of Portland, Multnomah County: Warren Northwest, Inc., Portland, submitted the low bid on this work at $423,485.00. Four higher bids were received. The Commission has awarded the contract to the low bidder at its bid price.

"Grading and paving on the 82d Avenue-Halsey Street Connection, 92d Avenue-Fairview Section of the T. H. Banfield Expressway, east of Portland, Multnomah County. Of the six bids received for this project, Warren Northwest, Inc., Portland, submitted the low bid at $56,489.50. The bid of Warren Northwest, Inc., in the sum of $56,489.50 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"La Grande-Baker Rock Production Project on the Old Oregon Trail between La Grande and Baker, Union and Baker Counties: The Commission received six bids for this project, the low one being that of R. H. Sussex, Bellingham, Washington, at $13,900.00. The low bidder has been awarded the contract at his bid price.

"Surfacing on the Flora Spur of the Enterprise-Lewiston Highway near Flora about 34 miles north of Enterprise, Wallowa County: Only three bids were received for this work, the low one being that of Barney B. Helser, Moro, at $18,970.00. Mr. Helser, the low bidder, has been awarded the contract at his bid price."

Chairman Chandler, speaking in behalf of the Commission, complimented all of the employees present for the fine work they are doing.

The Engineer brought up the matter of the State performing work for isolated cities and other agencies. The City of Gold Beach, he stated, has asked the State to oil some of their streets with a 0-9 oiling specification. This specification, he stated, is a light oil treatment, and he felt that when it started to break up the City would blame the State for a poor job. He had recommended to them that they put in asphaltic pavement as a more durable type of surfacing. The City, however, has insisted on using the oiling specification and have stated that they will assume all responsibility for any failures that occur. The cost of the job, he stated, would be approximately $5,000, and, if aggreeable with the Commission, he would order the work done by state forces. The Commission approved performing the work.

The Chief Counsel reported in connection with the acquisition of the Badley property on the Oregon Coast Highway in Lincoln County that they had agreed to acceptance of terms for settlement verbally, but had now written a two-page letter setting up a number of conditions of settlement. It was his recommendation that none of these conditions be accepted and that the settlement should be made as originally agreed. He recommended, and the Commission approved, that if the Badleys did not go through with the settlement as originally agreed, condemnation proceedings be started.

The Commission approved the minutes of January 21 and 22, February 17 and 18, and the special telephone meeting held on March 20, 1953.

The Commission signed papers and agreements as follows:

"Lease for Land" with Wheel and Rim Service, Inc., re state property between 6th and 7th Streets in Eugene. Consideration $750 per year. Four-year lease with six months' cancellation clause.

"Lease" re consent to assignment by Walter J. Brandon and Evangeline M. Brandon to Assembly of God Church of Bunker Hill covering property in Lots 3, 4, and 2, Block 12, West Bunker Hill Addition to the City of Coos Bay.

"Deed" quitclaiming to Clatsop County old stockpile site containing 0.87 acre situate on the Big Creek Section of the Columbia River Highway.

"Indentures of Access" re changes of access points for the following:

a. Culver property on the Calapooya-Sutherlin Section of the Elkton-Sutherlin Highway, Douglas County.

b. Shane property on the Arlington-Heppner Junction Section of the Columbia River Highway, Gilliam County.

c. Grant property on the Reedsport-Coos County Line Section of the Oregon Coast Highway, Douglas County.

"Agreement" for five years with Idaho Power Company re furnishing of electrical service to Highway Department's remote-controlled radio tower south of Vale to the amount of 3 KW for a monthly charge of $10 per month.

"Agreement" with Coos County re abandonment of the Douglas County Line-Glasgow Section of the Old Oregon Coast Highway.

"Maintenance Agreement" with Douglas County covering the Lone Rock Bridge Section of the North Umpqua County Road, FAS 253.

"Agreement" with City of Gresham covering traffic signal installation along Mt. Hood Highway (Powell Boulevard) at intersection with Main and Roverts. (Authorized by Commission January 21, 1953)

"Agreement" with City of Sutherlin covering reconstruction of a portion of the Elkton-Sutherlin Highway (Central Avenue). (Authorized by Commission August 19, 1952)

"Agreement" with Munson & Paterson covering salvage logging on the Van Duzer Corridor. (Authorized by Commission February 17, 1953)

"Agreement" with Ralph Koon extending a two-year permit to use a temporary road across the Devil's Elbow State Park. (Authorized by Commission September 22, 1952.)

"Relinquishment Agreement" with O. W. R. & N Railroad Company re original road easement across the Chatfield property on the Shogren-Rowena Unit of the Columbia River Highway, Wasco County.

"Easement Agreement" with O. W. R. & N Railroad Company for a roadway outside of the highway right of way and the right to maintain and use a private roadway within the right of way boundaries on the Shogren-Rowena Unit of the Columbia River Highway, Wasco County.

"Easement Agreement" and "Construction Agreement" with Southern Pacific Railroad Company covering Yoncalla Overcrossing on Pacific Highway in Douglas County.

"Easement Agreement" with O. W. R. & N Railroad Company covering easements on the Rowena-Chenoweth Creek Section of the Columbia River Highway in Wasco County. (Has to do with easement involving State Highway Contract No. 3856, awarded to Vernie Jarl, which is now underway.)

"Abandonment Agreement" re Jacksonville Grade Unit of the Medford-Provolt Highway in Jackson County.

"Agreement" authorizing the Coast Guard's Umpqua River Lifeboat Station to make connection with Umpqua Lighthouse State Park water system and use of such water. (Authorized by Commission on October 20, 1952)

"Agreement" between State of Oregon and Columbia Sand and Gravel Company re removal of materials from State-owned gravel pit in exchange for certain other materials and services. (UB No. 7 - February 18, 1953)

"Agreement" with J. W. Irwin, owners of Log Cabin Motel, covering installation of mercury vapor luminaire unit near M. P. 232.53, Pacific Highway near Canyonville, Douglas County.

"Agreement" with J. W. Irwin, owners of Log Cabin Motel, covering installation of mercury vapor luminaire unit near M. P. 232.6, Pacific Highway, south of Canyonville, Douglas County.

"Agreement" with Roland M. Cole covering settlement of case of State vs Roland M. Cole.

"Agreement" with Army Engineers re three minor revisions requested in building new section of highway around Dexter Regulating Dam on Willamette River.

"Stockpile Lease" and "Lease and Sale of Road Materials" from Mount Emily Lumber Company on the La Grande-Island City Section of Wallowa Lake Highway.

"Supplemental Agreement" with U. S. Government re reimbursement of inspection services on relocated state highways, US 730 and US 395, around McNary Dam.

"Maintenance Agreement" with Douglas County covering the Lone Rock Bridge Section of the North Umpqua County Road, FAS 253, Douglas County.

"Bargain and Sale Deed" with Sheow Nom Lee for property located on Lot 3 and 4 in Block "I" of South Pendleton.

"Quitclaim Deed" to Thomas K. Klosterman for all rights and easements to construct, maintain, repair, and have free access to Lots 3 and 4, Block "J" Kerns Addition east of Portland.

"Application" for Public Highway. Survey for relocation of US 30 from a point approximately one mile east of Pendleton to Deadman's Pass.

There being no further business to transact, the meeting was declared adjourned at 5:00 p.m. by Chairman Chandler.

State Highway Engineer

Minutes of

April 8 and 9, 1953

EXHIBIT "A"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other material sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission, outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

WEST PORTLAND EXPRESSWAY

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, it has been brought to the attention of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's records or minutes; and

WHEREAS, not withstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options have the informal approval of the Commission; and

WHEREAS, for the purpose of supplementing such informal records and action, it is the purpose of the Commission at this time to ratify all options so taken.

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, all members being present and voting affirmatively, as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with the construction, reconstruction, or other improvement of the following-named highway projects hereby are declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby are approved:

CLACKAMAS COUNTY

Sandy-Firwood Section	Mount Hood Highway	
Owner - Meinig	0.73 acres	R/W

Owner sub-dividing property. This acquisition for future widening.

CURRY COUNTY

Hunter Creek Section	Oregon Coast Highway	
20224 - Reeve	2.30 acres	G. P.
20225 - Remy	.95	G. P.
14002 - Newhouse and Young	1.40	G. P.
14003 - Beaumont	9.95	G. P.
	.31	Haul Rd. Ease.
14990 - Flynn		Haul Rd. Ease.

(cont.)

EXHIBIT "B" (cont.)

CURRY COUNTY (cont.)

Rock Production contract to be let April, 1953.

DOUGLAS COUNTY

Shady-Canyonville Section	Pacific Highway	
Owner - Winston	0.92 acres	R/W

Coos Bay leg of Shady Point interchange between new and old Pacific Highway.

LANE COUNTY

Crow-Lane Co. Line	Territorial Highway	
Owner - Pulley	13.92 acres	Quarry and Haul Road

April 7, 1953 - Rock Production

WHEELER COUNTY

Fossil-Kinzua Junction	John Day Highway	
Owner - T. G. and Irene Wright	1.35 acres	Stock Pile Site

2. It is further resolved that the informal action of the Commission and authorization for said acquisitions hereby is ratified.

3. That this resolution be entered in the minutes and records of the Commission as of April 8, 1953, and shall be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed on said attached page.

EXHIBIT "C"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, on November 3, 1948, this Highway Commission adopted a resolution and entered the same in its records, by which resolution the Commission determined and adopted a policy with respect to the construction, reconstruction, location, relocation and operation of highways in the State of Oregon pursuant to and under the authority and meaning of the provisions of Chapter 226, Oregon Laws 1947, Known as the "Throughway Law"; and

WHEREAS, the aforesaid resolution was amended by a subsequent resolution which was adopted and entered into the records of this Commission on November 7, 1949; and

WHEREAS, each of the aforesaid resolutions erroneously refer to the Throughway Law as Chapter 4, Oregon Laws 1947, and/or Chapter 4, Laws of Oregon, when in fact it is and has been Chapter 226, Oregon Laws 1947; and

WHEREAS, it is deemed to be necessary to correct said erroneous statutory reference; therefore, it is the intention of this Commission to amend both of the aforesaid resolutions by deleting therefrom all references made therein of Chapter 4, Oregon Laws 1947, and/or Chapter 4, Laws of Oregon, and in lieu thereof to add and insert Chapter 226, Oregon Laws 1947;

NOW, THEREFORE, it hereby is resolved by this Commission as follows:

1. That the aforesaid resolutions heretofore described are amended in the following respects: That the words "Chapter 4, Laws of Oregon 1947" and Chapter 4, Oregon Laws 1947" are deleted from each of the aforesaid resolutions wherever the said words appear thereon, and in lieu thereof the words "Chapter 226, Oregon Laws 1947" are inserted and made a part of each of the aforesaid resolutions.

2. This resolution shall be entered in the minutes and records of the Highway Commission as of the 8th day of April, 1953.

April 8, 1953

EXHIBIT "D-1"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six month period of 1952 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Adams	$ 510.56	Lonerock	$ 125.98
Antelope	198.92	Malin	1,962.67
Aumsville	931.61	Metolius	520.51
Aurora	802.31	Moro	1,190.20
Canyonville	2,854.49	Oakridge	5,178.53
Corvallis	53,731.44	Powers	2,967.21
Cove	934.92	Prescott	394.52
Culver	997.91	Riddle	2,101.91
DeLake	2,135.07	Siletz	1,889.73
Eagle Point	2,012.40	Sisters	2,396.98
Echo	1,515.10	Taft	1,491.90
Gates	1,399.07	Troutdale	1,704.08
Halsey	1,286.35	Turner	2,022.35
Huntington	2,430.13	Wheeler	964.76
Imbler	493.98	Yamhill	1,986.96
Lexington	785.73		

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

EXHIBIT "D-1" (cont.)

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 8th day of April, 1953.

EXHIBIT "E"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3295, with M. L. & C. R. O'Neil for grading and surfacing on the Ladd Canyon-North Powder Section of the Old Oregon Trail Highway in Union County, completed May 13, 1952.

"Contract No. 3409, with Hamilton & Thoms for construction of the Jasper Bridge on the Springfield-Creswell Secondary Highway in Lane County, completed January 16, 1953.

"Contract No. 3487, with Bechtel Brothers for constructing the Meacham Maintenance Building Extension in Umatilla County, completed February 1, 1953.

"Contract No. 3512, with Porter W. Yett for structures, grading and paving on the Bunker Hill-Delmar Section of the Oregon Coast Highway in Coos County, completed February 12, 1953.

"Contract No. 3562, with Parker-Schram Company for topping and slope protection on the Hood River-Mosier Section of the Columbia River Highway in Hood River and Wasco Counties, completed February 28, 1953.

"Contract No. 3622, with E. C. Swaggart Co., for furnishing crushed rock in stockpiles on the Hunter Creek-Lone Ranch Creek Section of the Oregon Coast Highway in Curry County, completed November 6, 1952.

"Contract No. 3632, with Carl M. Halvorson for construction of the Hood River Overcrossing on the Columbia River Highway in Hood River County, completed February 23, 1953.

"Contract No. 3647, with Acme Construction Co., for grading and paving on the Suicide Creek-Pacific Highway Section of the Coos Bay-Roseburg Highway in Douglas County, completed October 9, 1952.

"Contract No. 3681, with E. H. Itschner Co., for grading and surfacing on the West Cottonwood Grade Section of the Wasco-Heppner Secondary Highway in Sherman County, completed October 20, 1952.

"Contract No. 3691, with E. L. Kennard for grading and surfacing on the Cape Lookout Park Access Road Section of Netarts-Cape Lookout Road in Tillamook County, completed March 6, 1953.

(cont.)

EXHIBIT "E" (cont.)

"Contract No. 3774, with Hannan Brothers Co., for constructing the Manning and Cemetery Road Undercrossings on the Pacific Highway in Douglas County, completed March 18, 1953.

"Contract No. 3776, with C & S Electric for installing traffic signals in Eugene, Lane County, completed February 20, 1953.

"Contract No. 3777, with Enoch I. Maerz for constructing Salem Maintenance Building in Marion County, completed April 1, 1953.

"Contract No. 3796, with Tom Lillebo for construction of the North Slough Bridge on the Oregon Coast Highway in Coos County, completed January 26, 1953.

"Contract No. 3801, with Teller Construction Co., for construction of the Arata Road Undercrossing on the T. H. Banfield Expressway in Multnomah County, completed March 9, 1953.

"Contract No. 3811, with Electric Corp., for traffic signal installation on the Chemeketa Street-Vista Avenue Section on the Pacific Highway East in Marion County, completed February 20, 1953.

"Contract No. 3823, with Rogers Construction Co., for furnishing crushed rock in stockpile on the Madras Section on four State highways in Jefferson County, completed February 16, 1953."

THEREFORE, BE IT RESOLVED that the work covered by State Highway contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "F"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS the present western terminus of the Corvallis-Eastside State Secondary Highway No. 210 is the intersection of Van Buren and N. 2nd Streets in Corvallis; and

WHEREAS this State Highway Commission is of the opinion that the interests of the motoring public would be better served by extending said highway two blocks farther west on Van Buren Street;

IT IS HEREBY RESOLVED by this State Highway Commission as follows:

1. That the western terminus of the Corvallis-Eastside State Secondary Highway No. 210 shall henceforth be the intersection of the Van Buren and N. 4th Streets in Corvallis.

Attached hereto, marked Exhibit "A" and by this reference made a part hereof, is a map upon which the location of the two-block section herein added on to the said highway is indicated by means of a red line. *

2. That the State Highway Engineer shall have the necessary and proper road signs erected and maintained in accordance with this resolution.

3. That this resolution shall be entered in the minutes and records of this Commission on this 8th day of April, 1953, and the Secretary is directed to mail a duly certified copy to the City Recorder of Corvallis.

---

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 22 , under the heading "Resolutions Adopting Secondary Highways" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

April 8, 1953

EXHIBIT "G-1"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS this State Highway Commission has found it necessary and desirable to relocate the section of the North Santiam Secondary Highway No. 162 known as the Detroit-Dry Creek Section in Marion County, the westerly terminus of which is at Highway Engineer's Station 161+30 of the relocated highway and the easterly terminus of which is at Highway Engineer's Station 10+00 of the relocated highway; and

WHEREAS by reason of this relocation a unit of the old right of way has been eliminated from the boundaries of the relocated highway, which eliminated unit is no longer needed for highway purposes or for the service of persons living thereon or for any community served thereby; and

WHEREAS construction of the relocated section has been completed and traffic is now routed over it; and

WHEREAS it is the purpose of this Commission to take official action and impress upon its records the disposition of units or sections of state highways eliminated from the original route by the relocation or realignment of such highways;

IT IS HEREBY RESOLVED by this State Highway Commission as follows:

1. That a unit of highway eliminated from the North Santiam Secondary Highway No. 162 by the completion of the relocated Detroit-Dry Creek Section in Marion County, and hereinafter defined and described as Unit "A", is declared to be not needed for the service of persons living thereon or for any community served thereby or for any other public use.

2. That the location of the highway unit herein referred to as Unit "A" is as follows:

Unit "A"

Beginning at State Highway Engineer's Station 0+00 of the former route of the North Santiam Highway in the southeast quarter of the northeast quarter of Section 11, Township 10 South, Range 5 East, W. M., thence easterly along the former route of the North Santiam Highway to State Highway Engineer's Station 35+00 of the relocated North Santiam Highway in the southwest quarter of the southeast quarter of Section 7, Township 10 South, Range 6 East, W. M.

Attached hereto, marked Exhibit "A", and by this reference made a part hereof, is a map upon which the location of the said Unit "A" is shown colored in red. *

(cont.)

EXHIBIT "G-1" (cont.)

3. That the unit of highway herein designated as Unit "A" is abandoned as a part of the North Santiam Secondary Highway No. 162, and all right, title and interest which the State of Oregon has in the rights of way of said unit hereby reverts to and vests in the owners of the abutting land. *

4. That the boundaries of the real property retained and used or acquired and used for right of way purposes for the relocated Detroit-Dry Creek Section of the North Santiam Secondary Highway No. 162, the location of a segment of which relocated section is shown colored in green on the attached Exhibit "A", shall be appropriately and properly marked with monuments on the ground by the State Highway Engineer, and such monuments shall thereafter be maintained in place. *

4. That this resolution shall be entered in the minutes and records of this Commission on this 8th day of April, 1953, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Marion County.

---

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 271, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of the minute entry to the same extent as if copied in full herein.

EXHIBIT "G-2"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS this State Highway Commission has found it necessary and desirable to relocate the section of the Columbia River Highway, State Highway No. 2, known as the Big Creek section in Clatsop County, the westerly terminus of which is at Highway Engineer's Station 486+00 of the relocated highway and the easterly terminus of which is at Highway Engineer's Station 595+50 of the relocated highway; and

WHEREAS by reason of this relocation a unit of the old right of way has been eliminated from the boundaries of the relocated highway; and

WHEREAS construction of the relocated section has been completed, and traffic is now routed over it; and

WHEREAS this Commission entered into an agreement with Clatsop County on June 18, 1951, wherein it was agreed that complete jurisdiction and control over a unit of the old highway, therein and herein referred to as Unit "A", would pass to and vest in the said county at such time as the State should officially accept the aforesaid relocated section of highway as being completed and available for travel; and

WHEREAS it is the purpose of this Commission to take official action and impress upon its records the disposition of units or sections of state highways eliminated from the original route by the relocation or realignment of such highways;

IT IS HEREBY RESOLVED by this State Highway Commission as follows:

1. That the Big Creek Section of the Columbia River Highway in Clatsop County is accepted as completed and available for public travel.

2. That pursuant to the terms of the aforesaid agreement, the unit of highway therein and herein referred to as Unit "A" is declared to be no longer a part of the Columbia River Highway, and said Unit "A" shall henceforth be maintained as a county road under the complete jurisdiction and control of Clatsop County.

3. That the location of the unit of highway herein referred to as Unit "A" is as follows:

Unit "A"

Beginning at State Highway Engineer's Station 529+10 of the relocated Columbia River Highway in the southeast quarter of the northwest quar-

(cont.)

ter of Section 19, Township 8 North, Range 7 West, W. M., Clatsop County, Oregon; thence easterly via the former route of the Columbia River Highway to State Highway Engineer's Station 589+15 in the northeast quarter of the northwest quarter of Section 20, Township 8 North, Range 7 West, W. M., Clatsop County, Oregon.

Attached hereto marked Exhibit "A" and by this reference made a part hereof, is a map upon which the location of the said Unit "A" is shown colored in red. *

4. That the boundaries of the real property retained and used or acquired and used for right of way or other highway purposes for the relocated Big Creek Section of the Columbia River Highway, the location of which relocated section is shown colored in green on the attached Exhibit "A", shall be appropriately and properly marked with monuments on the ground by the State Highway Engineer, and such monuments shall thereafter be maintained in place. *

5. That this resolution shall be entered in the minutes and records of this Commission on this 8th day of April, 1953, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Clatsop County.

---

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 236, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of the minute entry to the same extent as if copied in full herein.

EXHIBIT "G-3"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS the State Highway Commission has found it necessary and desirable to relocate the Judkins Point-Goshen Section of the Pacific Highway, State Highway No. 1, in Lane County, the northerly terminus of which section is at Highway Engineer's Station 162+01.59 of the relocated highway and the southerly terminus of which section is at Highway Engineer's Station 61+99.44 of the relocated highway; and

WHEREAS by reason of this relocation three units of the former right of way have thereby been eliminated from the boundaries of the relocated highway; and

WHEREAS the Highway Commission entered into an agreement with Lane County on September 12, 1951, relating to the disposition to be made of said eliminated units; and

WHEREAS the Highway Commission, by and through its authorized officers and agents, formally notified Lane County by a letter dated December 4, 1952, that the construction of the Judkins Point-Goshen Section had been completed and that jurisdiction and control over an eliminated unit, Unit "C", was vested in Lane County as of December 4, 1952; and

WHEREAS it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of units of highways eliminated from the former route in relocating sections of such highways.

IT IS HEREBY RESOLVED by this State Highway Commission as follows:

1. That the units of highway right of way referred to herein and in the Highway Commission's September 12, 1951 agreement with Lane County as Units "A", "B" and "C" have been eliminated from the route of the Pacific Highway.

2. That Unit "A" remains under the jurisdiction and control of the State as a Primary State Highway and shall henceforth be maintained by the State as an extension or part of the McKenzie Highway, State Highway No. 15.

3. That Unit "B" remains under the jurisdiction and control of the State as a Secondary Highway and shall henceforth be known and designated as the McVay Secondary Highway, State Highway No. 225.

4. That the Highway Department's December 4, 1952 letter to Lane County transferring jurisdiction and control over Unit "C" to Lane County as

(cont.)

of that date was in accordance with the aforesaid agreement and that this transfer is confirmed. Pursuant to the terms of that agreement Lane County shall maintain Unit "C" as a county road as of the date of transfer.

4. That the Highway Department's December 4, 1952 letter to Lane County transferring jurisdiction and control over Unit "C" to Lane County as of that date was in accordance with the aforesaid agreement and that this transfer is confirmed. Pursuant to the terms of that agreement Lane County shall maintain Unit "C" as a county road as of the date of transfer.

5. That the location of the unit of highway referred to herein and in the aforesaid agreement as Unit "A" is as follows:

Unit "A"

Beginning at Highway Engineer's Station 181+96.94 of the new route of the Pacific Highway No. 1 in the Southwest quarter of the Southeast quarter of Section 33, Township 17 South, Range 3 West, W. M., and running thence easterly along the old highway to the intersection of the old highway and the McKenzie Highway No. 15 at Springfield at Highway Engineer's Station 240+71.26 in the Northwest quarter of the Southeast quarter of Section 34, Township 17 South, Range 3 West, W. M.

Attached hereto, marked Exhibit "A" and by this reference made a part hereof, is a map upon which the location of the said Unit "A" is shown colored in purple. *

6. That the location of the unit of highway referred to herein and in the aforesaid agreement as Unit "B" is as follows:

Unit "B"

Beginning at the intersection of the old route of the Pacific Highway No. 1 with the present McKenzie Highway No. 15 at Springfield Junction at Highway Engineer's Station 240+71.26 in the Northwest quarter of the Southeast quarter of Section 34, township 17 South, Range 3 West, W. M., and running thence southerly to its intersection with the new route of the Pacific Highway No. 1 at Highway Engineer's Station 304+73.7 of the relocated route in the Southwest quarter of the Northwest quarter of Section 11, Township 18 South, Range 3 West, W. M.

The location of the said Unit "B" is indicated on the attached Exhibit "A" by means of a yellow line. *

7. That the location of the unit of highway referred to herein and in the aforesaid agreement as Unit "C" is as follows:

Unit "C"

Beginning at the intersection of the relocated Pacific Highway with the old highway in the Southwest quarter of the Northwest quarter of Section 11, Township 18 South, Range 3 West, W. M., and opposite State Highway Engineer's Station 304+73.7 of the relocated Pacific Highway; thence southerly via the former route of the Pacific Highway to State Highway Engineer's Station 236+26.89 of the old Pacific Highway in the Northwest quarter of the Southeast quarter of Section 14, Township 18 South, Range 3 West, W. M.

The location of the said Unit "C" is indicated on the attached Exhibit "A" by means of a red line. *

8. That the boundaries of the real property retained and used or acquired and used for right of way or other highway purposes for the relocated Judkins Point-Goshen Section of the Pacific Highway in Lane County, the location of which property and relocated section is shown colored in green on the attached Exhibit "A", shall be appropriately and properly marked with monuments on the ground by the State Highway Engineer, and such monuments shall thereafter be maintained in place.

9. That this resolution shall be entered in the minutes and records of this Commission on this 8th day of April, 1953, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Lane County.

---

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 238, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of the minute entry to the same extent as if copied in full herein.

EXHIBIT "G-4"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS this State Highway Commission has found it necessary and desirable to relocate the section of the Rome-Princeton State Secondary Highway No. 442 known as the North Unit, Princeton-Follyfarm Section in Harney County, the westerly terminus of which is at Highway Engineer's Station 500+73.8 of the relocated highway and the easterly terminus of which is at Highway Engineer's Station 554+40 of the relocated highway; and

WHEREAS by reason of this relocation a unit of the old right of way has been eliminated from the boundaries of the relocated highway; and

WHEREAS this Commission entered into an agreement with Harney County on June 5, 1952, wherein it was agreed that complete jurisdiction and control over this unit of the old highway, therein and herein referred to as Unit "A", would pass to and vest in the said county at such time as the State should officially accept the aforesaid relocated section of highway as being completed and available for travel; and

WHEREAS construction of the relocated section has been completed, and traffic is now routed over it; and

WHEREAS it is the purpose of this Commission to take official action and impress upon its records the disposition of units or sections of state highways eliminated from the original route by the relocation or realignment of such highways.

IT IS HEREBY RESOLVED by this State Highway Commission as follows:

1. That the North Unit, Princeton-Follyfarm Section of the Rome-Princeton Highway in Harney County is accepted as completed and available for public travel.

2. That pursuant to the terms of the aforesaid agreement, the unit of highway therein and herein referred to as Unit "A" is declared to be no longer a part of the Rome-Princeton Highway, and said Unit "A" shall henceforth be maintained as a county road under the complete jurisdiction and control of Harney County.

3. That the location of the unit of highway herein referred to as Unit "A" is as follows:

Beginning at the intersection of the old route of the Rome-Princeton Secondary Highway with the south line of the Diamond Valley Secondary Highway on the line between Section 1, Township 27 South, Range 33 East, and Section 6, Township 27 South, Range 34 East, W. M.; thence

(cont.)

southeasterly via the former route of the Rome-Princeton Highway to State Highway Engineer's Station 377+60 of the relocated Rome-Princeton Highway in the Northeast Quarter of the Northwest Quarter of Section 14, Township 27 South, Range 34 East, W. M.

Attached hereto, marked Exhibit "A" and by this reference made a part hereof, is a map upon which the location of the said Unit "A" is shown colored in red. *

4. That the boundaries of the real property retained and used or acquired and used for right of way or other highway purposes for the relocated Princeton-Follyfarm Section of the Rome-Princeton Highway, the location of which relocated section is shown colored in green on the attached Exhibit "A", shall be appropriately and properly marked with monuments on the ground by the State Highway Engineer, and such monuments shall thereafter be maintained in place. *

5. That this resolution shall be entered in the minutes and records of this Commission on this 8th day of April, 1953, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Harney County.

---

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 263, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of the minute entry to the same extent as if copied in full herein.

EXHIBIT "G-5"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS this State Highway Commission has found it necessary and desirable to relocate the section of the Clackamas Secondary Highway No. 171 known as the Eagle Creek Section in Clackamas County, the northerly terminus of which is at Highway Engineer's Station 997+58.77 of the relocated highway and the southerly terminus of which is at Highway Engineer's Station 1055+00 of the relocated highway; and

WHEREAS by reason of this relocation a unit of the old right of way has been eliminated from the boundaries of the relocated highway; and

WHEREAS this Commission entered into an agreement with Clackamas County on March 5, 1952, wherein it was agreed that complete jurisdiction and control over this unit of the old highway, therein and herein referred to as Unit "A", would pass to and vest in the said county at such time as the State should officially accept the aforesaid relocated section of highway as being completed and available for travel; and

WHEREAS construction of the relocated section has been completed, and traffic is now routed over it; and

WHEREAS it is the purpose of this Commission to take official action and impress upon its records the disposition of units or sections of state highways eliminated from the original route by the relocation or realignment of such highways.

IT IS HEREBY RESOLVED by this State Highway Commission as follows:

1. That the Eagle Creek Section of the Clackamas Secondary Highway No. 171 in Clackamas County is accepted as completed and available for public travel.

2. That pursuant to the terms of the aforesaid agreement, the unit of highway therein and herein referred to as Unit "A" is declared to be no

(cont.)

longer a part of the said Clackamas Highway, and the said Unit "A" shall henceforth be maintained as a county road under the complete jurisdiction and control of Clackamas County.

3. That the location of the unit of highway herein referred to as Unit "A" is as follows:

Unit "A"

Beginning opposite State Highway Engineer's Station 997+60 of the Clackamas Highway in the Southwest quarter of the Southwest quarter of Section 32, Township 2 South, Range 4 East, W. M., thence southerly via the former route of the Clackamas Highway to State Highway Engineer's Station 1032+22 of the Clackamas Highway in the Southeast quarter of the Northwest quarter of Section 5, Township 3 South, Range 4 East, W. M.

Attached hereto, marked Exhibit "A" and by this reference made a part hereof, is a map upon which the location of the said Unit "A" is shown colored in red. *

4. That the boundaries of the real property retained and used or acquired and used for right of way or other highway purposes for the relocated Eagle Creek Section of the Clackamas Highway, the location of which property and relocated section is shown colored in green on the attached Exhibit "A", shall be appropriately and properly marked with monuments on the ground by the State Highway Engineer, and such monuments shall thereafter be maintained in place. *

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 251, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of the minute entry to the same extent as if copied in full herein.

EXHIBIT "G-5" (cont.)

5. That this resolution shall be entered in the minutes and records of this Commission on this 8th day of April, 1953, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Clackamas County.

EXHIBIT "H"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, the Territorial Secondary Highway, otherwise known and designated as State Secondary Highway No. 200, is a State Highway under the jurisdiction and control of the State Highway Commission; and

WHEREAS, it appears that at a location just south of its junction with Barley Road in the community of Veneta there is located a building known as the O. W. L. Hall and that a hazardous condition is created at and near said O. W. L. Hall by the parking of vehicles on either shoulder of said Territorial Highway in front of and near said O. W. L. Hall; and

WHEREAS, the parking of vehicles on said highway right of way creates a hazard not only to the traveling public using said highway but to the parked vehicles and occupants thereof by reason of the fact that the shoulders at this point are of insufficient width to accommodate parking without encroaching on the highway pavement; and

WHEREAS, the roadway of said highway at said location is not of sufficient width to safely accommodate the traveling public and permit the parking of vehicles; and

WHEREAS, in the opinion of this Commission, public welfare and public safety require that parking should be prohibited within said area.

NOW, THEREFORE BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendation by members of its staff, that the parking of vehicles on either side of the Territorial Secondary Highway (ORE 200) between M. P. 19.91 (Engineer's Station 1121+75.0) and M. P. 20.07 (Engineer's Station 1130+00.0) in the vicinity of the intersection of Barley Road and the Territorial Highway in Veneta creates a hazard not only to traffic but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience, which, in the opinion of the Commission should be provided the motoring public.

3. That this Commission does hereby find and declare that the parking of vehicles on both sides of the right of wayof said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to

(cont.)

EXHIBIT "H" (cont.)

erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Highway Commission as herein declared on which signs shall be printed in plain, legible letters, "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 8th day of April, 1953.

EXHIBIT "I"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of Highway: PACIFIC HIGHWAY EAST

Highway Number: 1E Route number: US 99E

Location of Termini			Established Speed
M.P. 42.55 (0.40 mile north of Brooks)	to	M.P. 43.17 (0.22 mile south of Brooks)	45 miles per hour

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

(cont.)

EXHIBIT "I" (cont.)

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the State Highway Commission as of the 8th day of April, 1953.

EXHIBIT "J"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, the Corvallis-Newport Highway, otherwise known as a part of US Route No. 20, is one of the major state primary highways and likewise a Federal highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that at a location just east of the City of Toledo on the northerly side of the highway at the intersection of two descending grades there is located an establishment known as the Lincoln Auto Wreckers and that a hazardous condition is created at and near said Lincoln Auto Wreckers by the parking of vehicles on either shoulder of said Corvallis-Newport Highway in front of and near said Lincoln Auto Wreckers; and

WHEREAS, the roadway of said highway at said location is not of sufficient width to safely accommodate the traveling public and permit the parking of vehicles; and

WHEREAS, in the opinion of the Commission, public welfare and public safety require that parking should be prohibited within said area.

NOW, THEREFORE BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendation by members of its staff, that the parking of vehicles on either side of the Corvallis-Newport Highway (US 20) between M. P. 9.03 (Engineer's Station 2517+00) to M. P. 9.18 (Engineer's Station 2508+80) in the vicinity of the Lincoln Auto Wreckers at the intersection of two descending grades just east of Toledo creates a hazard not only to traffic but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience, which, in the opinion of the Commission should be provided the motoring public.

3. That this Commission does hereby find and declare that the parking of vehicles on both sides of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Highway Commission as herein declared on which signs shall be printed in plain, legible letters, "NO PARKING ON HIGHWAY SHOULDERS".

(cont.)

EXHIBIT "J" (cont.)

5. That a certified copy of this resolution be sent to the owners and operators of the Lincoln Auto Wreckers and a like copy to the Superintendent of the Department of State Police for his information.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 8th day of April, 1953.

EXHIBIT "K-1"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation, the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon that the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the State Highway Commission as of the 8th day of April, 1953.

EXHIBIT "M"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, the Pacific Highway, otherwise known as US Route 99, is one of the major state primary highways and likewise a Federal highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that, at a location in the community of Saginaw just north of Cottage Grove, a hazardous condition is created by the parking of vehicles on the shoulders; and

WHEREAS, the parking of vehicles on said highway right of way creates a hazard not only to the traveling public using said highway but to the parked vehicles and occupants thereof by reason of the fact that the shoulders at this point are of insufficient width to accommodate parking without encroaching on the traveled portion of the highway; and

WHEREAS, the roadway of said highway at said location is not of sufficient width to safely accommodate the traveling public and permit the parking of vehicles; and

WHEREAS, in the opinion of the Commission, public welfare and public safety require that parking should be prohibited within said area.

NOW, THEREFORE BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendation by members of its staff, that the parking of vehicles on either side of the Pacific Highway (US 99) between Engineer's Station 621+51.8, north of Delight Valley Road, and Engineer's Station 629+51.8, south of Delight Valley Road, within the community of Saginaw creates a hazard not only to traffic but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience, which, in the opinion of the Commission should be provided the motoring public.

3. That this Commission does hereby find and declare that the parking of vehicles on both sides of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the

(cont.)

EXHIBIT "M" (cont.)

action of the Highway Commission as herein declared on which signs shall be printed in plain, legible letters, "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 8th day of April, 1953.

EXHIBIT "N-1"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final surveys of the route and location of the Rinehart Creek-Frankport Section of the Oregon Coast Highway in Curry County, and the Pendleton-Deadmans Pass Section of the Old Oregon Trail Highway in Umatilla County, and in connection therewith to prepare maps showing the route and location of the said sections of the said highways and file said reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed the said survey and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes and other engineering data, it is in the judgment of the Commission that the same should be approved and filed.

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the survey of the Rinehart Creek-Frankport Section of the Oregon Coast Highway beginning at Highway Engineer's Station 595+00 and extending southerly to Highway Engineer's Station 720+00, together with the map which, for identification purposes, bears map file number 7B-20-7 and the date of March, 1952, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building at Salem, Oregon.

2. That the survey of the Pendleton-Deadmans Pass Section of the Old Oregon Trail Highway beginning at Highway Engineer's Station 75+00 and extending therefrom in an easterly direction to Highway Engineer's Station 1150+50, together with the map which, for identification purposes, bears map file number 7B-17-8, 9, 10, 11 and the date of February, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building at Salem, Oregon.

3. That when the abovesaid sections of the said highways are permanently constructed the same shall be done in accordance with the said surveys and locations, unless otherwise directed or ordered by the Commission.

4. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other

(cont.)

21520

EXHIBIT "N-1" (cont.)

required data of real properties needed for and in connection with the construction, reconstruction or improvement of the highways along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

5. That the surveys of the said sections of the Oregon Coast Highway and the Old Oregon Trail Highway have been made within the meaning and purpose of Chapter 226, Oregon Laws 1947, commonly known as the Throughway Law, and were likewise made within the scope and purpose of those certain resolutions hitherto approved and adopted by the Highway Commission on November 3, 1948, and February 18, 1953, respectively, which resolutions designated certain highways and sections thereof as throughways. Therefore, the construction of the above named sections of the said highways shall be accomplished pursuant to and within the meaning and scope of the said law and said resolutions.

6. That this resolution be entered in the minutes and records of the Commission as of the 8th day of April, 1953.

EXHIBIT "N-2"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Rickreall-Orr Corner section of the Pacific Highway West in Polk County, and in connection therewith to prepare a map showing the route and location of said section of said highway and file said report and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the survey of the Rickreall-Orr Corner section of the Pacific Highway West, beginning at Highway Engineer's Station 724+00 in the town of Rickreall and extending southerly to Engineer's Station 790+00 at Orr Corner, together with the map which, for identification purposes, bears map file number 7B-21-3 and the date of March, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building at Salem, Oregon.

2. That when the above-described section of said highway is permanently constructed the same shall be done in accordance with said survey and location, unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That the survey of the said section of the Pacific Highway West has been made within the meaning and purpose of Chapter 226, Oregon Laws, 1947, commonly known as the "Throughway Law", and was likewise made within the scope and purpose of those certain resolutions hitherto approved and adopted

(cont.)

EXHIBIT "N-2" (cont.)

by the Highway Commission on November 3, 1948, and February 18, 1953, respectively, which resolutions designated certain highways and sections thereof as throughways. Therefore, the construction of the above-named section of said highway shall be accomplished pursuant to and within the meaning and scope of said law and said resolutions.

5. That this resolution be entered in the minutes and records of the Commission as of the 8th day of April, 1953.

EXHIBIT "O"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, the highways hereinafter set forth or described have been duly designated and declared to be and are state highways and have been improved and are being maintained by the State Highway Commission pursuant to the laws of the State of Oregon as state highways to wit:

ALSEA-DEADWOOD Secondary Highway No. 201

MEDICAL SPRINGS Secondary Highway No. 340

CRATER LAKE Primary Highway No. 22

and

WHEREAS, said highways are, in the judgment of the State Highway Commission, being subjected to a kind and character of traffic which will damage and injure the said highways during the present period of rain, freezing, and thawing, and in order to protect said highways against such damage and injury it is deemed and is the judgment of the Highway Commission, and said Highway Commission finds that it will be for the best interests of said highways, that the maximum weights permitted and authorized by law be reduced during such period; and

WHEREAS, the State Highway Commission has after due investigation determined and found, and it is the judgment of the Commission that the maximum weights which shall be permitted upon said highways during said period shall be reduced and fixed as in this order provided.

NOW, THEREFORE, the premises being in part as above stated, and the State Highway Commission being of the opinion that said highways were not built to sufficient standards to withstand adverse action of the elements and the maximum weights permitted and authorized by law, and the Commission having found upon due investigation that it will be for the best interests of said highways that the maximum total weight of load and vehicle which shall be permitted upon said highways during the said period, commencing on the dates hereinafter specified, shall be reduced so as to conform to the requirements fixed in this order.

IT IS HEREBY ORDERED that the maximum weight of combined load and vehicle or combination of vehicles which shall be permitted upon the following described highways and sections of highways shall not exceed 11,000 pounds gross on any axle nor 20,000 pounds gross on any pair of tandem axles nor a maximum of 36,000 pounds gross on all axles of the vehicle or combination of vehicles:

(cont.)

EXHIBIT "O" (cont.)

Name of Highway and No.	County	Section Restricted	Date Effective 1953
Alsea-Deadwood Sec. 201	Lane	M.P. 10.48 (Cougar Creek) to M.P. 19.46 (North end of highway)	Feb. 24 8:00 a.m.
Medical Springs Sec. 340	Union & Baker	M.P. 0.0 (Union) to M.P. 35.4 (south of summit)	March 2 8:00 a.m.
Crater Lake Primary 22	Jackson & Klamath	M.P. 58.59 (Diamond Lake Hwy. Jct.) to M.P. 67.83 (Crater Lake National Park Boundary)	March 20 8:00 a.m.

IT IS FURTHER ORDERED that these rules and regulations as made and found by the State Highway Commission under the provisions of Section 15, Chapter 405, Oregon Laws 1951, shall be in full force and effect from the effective date hereinabove specified until modified, annulled, or voided by the order of the State Highway Commission.

AND IT IS FURTHER ORDERED that a notice be posted in a conspicuous manner and place at each end of each of the above highways and at important crossroads on said highways so that said notice can be readily seen and read which said notice shall state plainly the limitations and prohibitions of traffic hereby in this order determined and fixed.

AND BE IT FURTHER ORDERED that a certified copy of this order be furnished to the county clerk of each county affected by this order and that a certified copy of this order be furnished to the Superintendent of the Department of State Police for his information.

Dated this 8th day of April, 1953.

EXHIBIT "P"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, on the 17th day of February, 1953 and on the 8th day of April, 1953, the Commission passed and adopted resolutions reducing the maximum load limits on various state highways; and

WHEREAS, subsequent to the effective dates shown in said resolutions, conditions have changed so that it no longer is necessary or desirable and the Commission hereby finds that it no longer is necessary or desirable to maintain the reduced load limits set out in said resolutions:

NOW, THEREFORE BE IT RESOLVED that the action of the State Highway Commission reducing the maximum permissible load limits as set forth in the said resolutions of February 17, 1953 and April 8, 1953 on various state highways and sections of highways, to wit:

Name of highway and No.	County	Section restriction removed	Date Lifted 1953

be and the same hereby is rescinded and cancelled insofar as it pertains to the highways and sections of highways listed hereinabove, and the maximum load limit permissible on such highways subsequent to the dates shown shall be the maximum load limit provided by law.

IT IS HEREBY ORDERED that a certified copy of this resolution be furnished to the county clerk of each county in which said highways or sections of highways are located, and a like copy to the Superintendent of the Department of State Police for his information.

Dated this 8th day of April, 1953.

EXHIBIT "Q-1"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct, improve and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and

WHEREAS, for the purpose of constructing and maintaining certain sections of the state highway system, the Commission plans and proposes to acquire certain road building materials, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, the said Commission is authorized to take fee simple title to said real property for the acquisition of road building materials;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that the following described real property is necessary and required for the acquisition of road building materials for the proper construction and maintenance of certain sections of the state highway system, said real property being located in Jackson County, Oregon, and described as follows, to wit:

R-19273
Owner: Marcel Klimek, et ux

A parcel of land lying in Donation Land Claim No. 69 of Sections 24 and 25, Township 38 South, Range 1 West, W. M., Jackson County, Oregon, and being a portion of the following described property: That tract of land which was conveyed by that certain deed to Marcel Klimek and Julia Klimek, recorded in Book 214, Page 613, of Jackson County Record of Deeds, the said parcel being described as follows:

Beginning at a point on the East line of Donation Land Claim No. 69, 1180 feet South of the Northeast corner of said

(cont.)

EXHIBIT "Q-1" (cont.)

Donation Land Claim No. 69; thence North 54° 52' West 501.54 feet; thence North 33° 05' West 419.75 feet, more or less, to the Northwest line of said property; thence North 37° 22" East along said Northwesterly line 115 feet, more or less, to the center of Bear Creek; thence Southeasterly along the center of Bear Creek (the Northerly line of said property) to the East line of said Donation Land Claim No. 69; thence South along said East line 100 feet, more or less, to the point of beginning.

The parcel of land to which this description applies contains 1.5 acres, more or less.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

4. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

5. That this resolution be entered in full in the minutes and records of the Commission this 8th day of April, 1953.

EXHIBIT "Q-2"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and

WHEREAS, for the purpose of constructing and maintaining certain sections of the state highway system, the Commission plans and proposes to acquire a quarry site, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee simple title to said real property for the acquisition of a quarry site;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that the following described real property is necessary and required for the acquisition of a quarry site, for the proper construction and maintenance of certain sections of the state highway system, said real property being located in Clackamas County, Oregon, and described as follows, to wit:

R 19929
Owner: August N. Damm

A parcel of land lying in Lot 3 of Section 34, Township 5 South, Range 1 East, W. M., Clackamas County, Oregon, and being a portion of the following described property: That tract of land which was described in that certain deed to August N. Damm, recorded in Book 132, Page 604 of Clackamas County Record of Deeds, the said parcel being described as follows:

Beginning on the North line of the Ezekiel Burbage Donation Land Claim No. 40, Township 5 South, Range 1 East, W. M. at a point which is the Southwest corner of said property,

(cont.)

EXHIBIT "Q-2" (cont.)

said point being East 427.3 feet from the Northwest corner of said Ezekiel Burbage Donation Land Claim No. 40; thence following the West line of said property North 0° 05' 30" East 271.3 feet; thence South 89° 54' 30" East 430 feet; thence South 0° 05' 30" West 130 feet; thence South 89° 54' 30" East 470 feet; thence South 0° 05' 30" West 145.1 feet to the South line of said property; thence following said South line North 89° 40' West 900 feet to the point of beginning, containing 4.241 acres, more or less.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property..

4. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

5. That this resolution be entered in full in the minutes and records of the Commission this 8th day of April, 1953.

EXHIBIT "Q-3"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has adopted a survey of a route and has designated said route as a state highway, to be known as Unit No. 4 of the T. H. Banfield Expressway, and has ordered and declared that said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper establishment, construction, improvement and maintenance of Unit No. 4 of the T. H. Banfield Expressway as a throughway, and in connection therewith, the construction and maintenance of approach or connecting roads between the said T. H. Banfield Expressway and N. E. 82nd Avenue, also known as Secondary State Highway No.

(cont.)

21532

EXHIBIT "Q-3" (cont.)

160, the following described real property in fee simple, to wit:

R 20006
Owner: Gordon C. Dudley, et ux

A parcel of land being Lots 39 and 40, Block 9, Lee Bow Park Addition, in the City of Portland, County of Multnomah, State of Oregon, except that part of said lots deeded to the City of Portland, dated March 14, 1936, recorded in Book 364, Page 164, Multnomah County Record of Deeds, described as follows, to wit:

That portion of Lots 39 and 40, Block 9, Lee Bow Park lying between the East line of N. E. 82nd Avenue and a line drawn parallel to and 35 feet East of the West line of Section 33, Township 1 North, Range 2 East of the Willamette Meridian, when measured at right angles thereto, containing 250 square feet, more or less, being Parcel A of Tract No. 108 as described in the Engineer's report adopted by Ordinance No. 67963.

The parcel of land to which this description applies contains 4,500 square feet.

R 20008
Owner: Elnora A. Ruef

A parcel of land being all of Lots 3, 4, 41 and 42, Block 9, Lee Bow Park Addition, City of Portland, County of Multnomah, State of Oregon, except that part of said lots lying in N. E. 82nd Avenue, and also excepting that part of said Lots 3 and 4 conveyed to the State of Oregon, by and through its State Highway Commission, by deed dated August 4, 1949, recorded in Book 1352, Page 441, Multnomah County Record of Deeds.

The parcel of land to which this description applies contains 8,568 square feet.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and pro-

secute to final determination such suit or action as may be necessary to acquire title to said real property.

4. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

5. That this resolution be entered in full in the minutes and records of the Commission this 8th day of April, 1953.

EXHIBIT "Q-4"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set for th and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Winchester-Shady Point Section of the Pacific Highway; and

WHEREAS, the said Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for the proper relocation, construction, improve-

ment and maintenance of the Winchester-Shady Point Section of the Pacific Highway as a throughway, the following described real property in fee simple, to wit:

R 17836
Owner: J. M. Housley, et ux

A parcel of land lying in Sections 1 and 12, Township 27 South, Range 6 West, W. M., Douglas County, Oregon, and being a portion of Tracts 25, 28, 31, 36, 40 and 47, Edenbower Orchard Tracts, the said parcel being a strip of land extending from the South line of Broadmoor in said Tract 25 to the South line of said Tract 47, said strip of land being variable in width, lying on each side of the center line of the Pacific Highway, as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 2425+00, said Station being 299.0 feet North and 420.2 feet East of the Northeast corner of Lot 8 of Green Acres Subdivision; said Station also being 1753.6 feet North and 1945.9 feet East of a bronze disc set at the Southwest corner of Section 1, Township 27 South, Range 6 West, W. M., thence South 4° 04' 10" West 3500 feet to Engineer's center line Station 2460+00. The said center line intersects the South line of Broadmoor approximately at Station 2436+83 and intersects the South line of said Tract 47 approximately at Station 2458+66.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
South line of Broadmoor	2440	150 feet	125 feet
2440	2455	125 feet	125 feet
2455	South line of Tract 47	160 feet	125 feet

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 13.17 acres.

(cont.)

EXHIBIT "Q-4" (cont.)

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners, their heirs and assigns, rights of access to a frontage road to be constructed by the State upon the above described real property and East of the main traveled way, said frontage road to be connected to the said main traveled way at a point which is not a greater distance to the South of the remaining property than a point opposite Highway Engineer's center line Station 2500+00, and to a system of public ways at a point which is not a greater distance to the North of the remaining property than a point opposite Highway Engineer's center line Station 2435+50.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of April, 1953.

EXHIBIT "Q-5"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway, and

WHEREAS, the Highway Commission has adopted a survey of a route and has designated said route as a state highway, to be known as the Salem By-Pass Section of the Pacific Highway East, and has ordered and declared that said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission by a certain resolution made and entered on its records on the 20th day of December, 1951, declared the necessity for the acquisition of a parcel of land described therein for right of way purposes for the establishment, construction, improvement and maintenance of the Salem By-Pass Section of the Pacific Highway East, and for the control of access to and from the said highway and to and from the present existing Pacific Highway East, and authorized the acquisition of the said parcel of land and the said control of access in the manner provided by law, and it is now the determination of the Highway Commission that the said control of access should be changed in the manner provided herein, in order that a lesser number of access points be allowed to the property owners concerned, further, it is the determination of the Highway Commission that the said parcel of land described in the said resolution of December 20, 1951, is inadequate for the purpose of establishing the said Salem By-Pass Section of the Pacific Highway East, and therefore, the resolution of December 20, 1951, should be revised to conform with the present needs of the traveling public and to conform with the said access control change; and

(cont.)

EXHIBIT "Q-5" (cont.)

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Highway Commission hereby declares that the resolution made and entered in its records of December 20, 1951, referred to above be, and it hereby is, amended by this resolution.

2. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper establishment, construction, improvement and maintenance of the Salem By-Pass Section of the Pacific Highway East as a throughway, and in connection therewith, the construction and maintenance of approach or connecting roads between the said Salem By-Pass Section of the Pacific Highway East and the present existing Pacific Highway East. the following described real property in fee simple, to wit:

L 1812 (R 13921)
Owner: D. B. Murphy, et al

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of Section 12, Township 7 South, Range 3 West, W. M., Marion County, Oregon. and being a portion of the following described property: That tract of land which was conveyed by that certain deed to D. B. Murphy and Jennie V. Murphy, recorded in Book 157 Page 461, of Marion County Record of Deeds, the said parcel being all of said property except a tract described as follows:

Beginning at the most Southerly corner of said property and run thence North 56° West 383 feet, more or less, to a line which is parallel to and 40 feet Easterly of the relocated center line of the Pacific Highway East; thence Northeasterly (North 33° 13' 30" East - Highway bearing) 210 feet along said parallel line; thence South 56° East parallel to the Southwesterly line of said property, 382 feet, more or less, to the Easterly line of said property; thence South 34° West (deed bearing) 210 feet to the point of beginning.

The parcel of land to which this description applies contains 3.7 acres of which 0.5 acre lies within the existing right of way,

(cont.)

title to which hereby is alleged to be in the public, and 3.2 acres lie outside of the existing right of way.

3. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential common law or statutory rights of access between the right of way of the Salem By-Pass Section of the Pacific Highway East and the right of way of the present existing Pacific Highway East, and all of the owners' contiguous real property which abuts on said highway remaining after the sale or appropriation of the above described real property; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, a right of access to the present existing Pacific Highway East, of a width not to exceed 25 feet on the East side of the said existing Pacific Highway East, opposite Highway Engineer's center line Station 76+06.70.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access herein reserved to and from the aforesaid highway that are on or adjacent to any such frontage road or roads shall cease, but the owners, their heirs and assigns, shall have access to the frontage road or roads at such places as will afford reasonable and safe connections. Said frontage roads shall be connected to the present existing Pacific Highway East at a point no farther South from the property hereinabove described than Park Lane, opposite Highway Engineer's center line Station 67+20, and at a point no farther North from the property hereinabove described than Claxter Road, also known as Marion County Road No. 703, opposite Highway Engineer's center line Station 78+25.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

6. That upon the trial of any suit or action instituted to acquire

EXHIBIT "Q-5" (cont.)

said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 8th day of April, 1953.

EXHIBIT "Q-6"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Little Sheep Creek Secondary Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Joseph-Hayden Gulch Section of the Little Sheep Creek Secondary Highway, and for such purpose and in connection therewith, the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Joseph-Hayden Gulch Section of the Little Sheep Creek Secondary Highway, the following described real property in fee simple, to wit:

R 19852
Owner: Margaret Pooler

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of Section 29, Township 2 South, Range 45 East, W. M., Wallowa County, Oregon, and being a portion of that property described in that deed to W. I. Pooler and Margeret Pooler, recorded in Book 53, Page 222, of Wallowa County Records of Deeds, the said parcel being that portion of said property included in a strip of land variable in width, lying on each side of the center line of the Little Sheep Creek Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 25+88.37, said Station being 986.74 feet North and 2885.71 feet West

(cont.)

EXHIBIT "Q-6" (cont.)

of the Southeast corner of said Section 29; thence on a spiral curve right (the long chord of which bears South 84° 43' 15" East) 400 feet; thence on a 5729.58 foot radius curve right (the long chord of which bears South 78° 57' 30" East) 885.83 feet to Engineer's center line Station 38+74.20, said center line intersects the West and East lines of said property approximately at Station 26+85 and Station 37+90, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on North Side of Center Line	Width on South Side of Center Line
25+88.37	31+00	40 feet	50 feet
31+00	38+74.2	40 feet	40 feet

Except that portion of said strip of land lying within that tract described in that deed to Fred C. Pooler, recorded in Book 63, Page 347, of Wallowa County Deed Records.

The parcel of land to which this description applies contains 2.01 acres, of which 1.61 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 0.40 acre lies outside of the existing right of way.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property with respect to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

4. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

5. That this resololution be, and it hereby is, entered in the minutes and records of the Commission this 8th day of April, 1953.

EXHIBIT "Q-7"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission is necessary, or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Tigard-Tualatin River Section of the Pacific Highway West; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper widening, improvement

(cont.)

and maintenance of the Tigard-Tualatin River Section of the Pacific Highway West as a throughway, the following described real property, in fee simple, to wit:

R 18478
Owner: John H. Fredericks, et ux

A parcel of land lying in the Southwest quarter ($SW\frac{1}{4}$) of Section 15, Township 2 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of that property described in that deed to Rose Mary Frederick, recorded in Book 240, Page 361, of Washington County Records of Deeds, the said parcel being that portion of said property included in a strip of land of variable width, lying on each side of the Northbound center line of the Pacific Highway West as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 224+79.4, said Station being 1855.67 feet South and 786.08 feet West of the North quarter ($N\frac{1}{4}$) corner of said Section 15' thence South 3° 18' West 1411.77 feet; thence along the arc of a spiral curve right (the long chord of which bears South 5° 27' 35" West) 360 feet; thence along the arc of a 1591.55 foot radius curve right (the long chord of which bears South 27° 08' 30" West) 964.54 feet to Station 252+15.71, said center line crossing the Northerly and Southerly lines of said property approximately at Stations 233+92 and 242+88, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
233+00	237+60	40 feet	To existing right of way
237+60	237+85	40 feet to 50 feet	To existing right of way
237+85	243+00	50 feet	To existing right of way

The parcel of land to which this description applies contains 1.34 acre, outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary for the State to acquire all existing, future or potential common law or statutory rights of access between the right

(cont.)

of way of the Pacific Highway West and all of the owners' contiguous real property which abuts on said highway remaining after the sale or appropriation of the above described real property; except that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:

> A right of access to the Pacific Highway West of a width not to exceed 40 feet on the East side of the said Pacific Highway West, opposite Highway Engineer's center line Station 234+30, for the operation of existing picnic park activity and private residential use only.
>
> Said access from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of April, 1953.

EXHIBIT "Q-8"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway;and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway, and in connection therewith, to construct and maintain a connecting road between the said highway and the Upper Boones Ferry Road; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be improved, widened and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper widening, improvement

(cont.)

and maintenance of the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway as a throughway, and in connection therewith, the construction and maintenance of a connecting road between the said Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway and Upper Boones Ferry Road, the following described real property in fee simple, to wit:

R 19814
Owner: Frank Harvey Anderson, et ux

A parcel of land lying in Lot 5, Block 6, Lake Forest, a subdivision situated in Section 7, Township 2 South, Range 1 East, W. M., Clackamas County, Oregon, the said parcel being described as follows:

Beginning at the most Westerly corner of said Lot 5; thence North 47° 38' 15" East on the Northwesterly line of said Lot No. 5, 95 feet to the most Northerly corner of said Lot No. 5; thence South 44° 49' 15" East on the Northeasterly line of said Lot No. 5, 3.36 feet to a point 30 feet from, when measured at right angles to, the revised center line of the Upper Boones Ferry Road; thence parallel to said center line on a 379.26 foot radius curve left (the long chord of which bears South 32° 39' 17.5" West) 97.49 feet to a point on the Southwesterly line of said Lot No. 5; thence North 44° 49' 15" West on said Southwesterly line 28.51 feet to the point of beginning.

The parcel of land to which this description applies contains 1,318 square feet.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his

judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

5. That this resolution be entered in full in the minutes and records of this Commission this 8th day of April, 1953.

EXHIBIT "Q-9"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway, and, in connection therewith, the construction of an approach to the grade separation structure which crosses the said West Portland-Hubbard Highway at Bonita Road, also known as Washington County Road No. 636, and for the widening of the said Bonita Road; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be improved, widened and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members therof being present and voting affirmatively, as follows:

EXHIBIT "Q-9" (cont.)

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for use in connection with the proposed widening, improvement and maintenance of the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway, and, in connection therewith, the construction of an approach to the grade separation structure which crosses the said West Portland-Hubbard Highway at Bonita Road, also known as Washington County Road No. 636, and for the widening of the said Bonita Road, the following described real property, to wit:

R 19659
Owner: Nate B. Cozey, et ux

A parcel of land lying in Lot 3, Bonita Gardens, a subdivision of Section 12, Township 2 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of the following described property: That tract of land which was described in that certain deed to Nate B. Cozey and Caroline E. Cozey, recorded in Book 327, Page 377, of Washington County Record of Deeds, the said parcel being described as follows:

Beginning at the Northwest corner of Lot 3, Bonita Gardens, Section 12, Township 2 South, Range 1 East, W. M., thence South along the West line of said Lot 3, 6 feet to the true point of beginning; thence North 89° 24' 45" East parallel to the North line of said Lot 3, 184.2 feet to the East line of said property; thence South along the East line of said property 31.5 feet; thence South 89° 24' 45" West parallel to the North line of said Lot 3, 184.2 feet to the West line thereof; thence North along the West line of said Lot 3 to the place of beginning, excepting roads and streets.

The parcel of land to which this description applies contains 0.126 acre.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

4. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

5. That this resolution be entered in full in the minutes and records of the Commission this 8th day of April, 1953.

21552

EXHIBIT "Q-10"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway, and, in connection therewith, the construction of an approach to the grade separation structure which crosses the said West Portland-Hubbard Highway at Bonita Road, also known as Clackamas County Road No. 2125, and for the widening of the said Bonita Road; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be improved, widened and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed

(cont.)

and required for right of way purposes, for the proper widening, improvement and maintenance of the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway as a throughway, and in connection therewith, the construction of an approach to the grade separation structure which crosses the said West Portland-Hubbard Highway at Bonita Road, also known as Clackamas County Road No. 2125, and for the widening of the said Bonita Road, the following described real property in fee simple, to wit:

R 19658
Owner: Leslie M. Erickson, et ux

A parcel of land lying on Government Lot No. 2 of Section 7, Township 2 South, Range 1 East, W. M., Clackamas County, Oregon, and being a portion of the following described property: That tract of land which was described in that certain deed to Leslie M. Erickson, recorded in Book 156, Page 581 of Clackamas County Record of Deeds, the said parcel being described as follows:

Beginning at the Northeast corner of Government Lot No. 2, Section 7, Township 2 South, Range 1 East, W. M., thence South 0° 24' 15" West along the East line of said Government Lot No. 2, 6 feet to the true point of beginning; thence South 89° 26' 15" West parallel with the revised center line of Bonita Road 90.94 feet; thence South 82° 35' 41" West 126.07 feet to a point on the East line of the West Portland-Hubbard Highway; thence North 0° 20' 45" West along the East line of said highway 19.72 feet to a point 6 feet South of the North line of said Government Lot No. 2; thence South 89° 19' East parallel to and 6 feet South of the North line of said Government Lot No. 2, 216.10 feet to the point of beginning.

The parcel of land to which this description applies contains 0.033 acre.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

EXHIBIT "Q-10" (cont.)

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

5. That this resolution be entered in full in the minutes and records of the Commission this 8th day of April, 1953.

EXHIBIT "Q-11"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the Legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway, and, in connection therewith, to construct and maintain a connecting road between the said highway and Bonita Road, also known as Washington County Road No. 636; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be improved, widened and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

EXHIBIT "Q-11" (cont.)

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper widening, improvement and maintenance of the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway as a throughway, and in connection therewith, the construction and maintenance of a connecting road between the said Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway and Bonita Road, also known as Washington County Road No. 636, the following described real property in fee simple, to wit:

R 19565
Owner: Jennie Halberstadt

Parcel No. 1:

A parcel of land lying in the Northeast quarter (NE$\frac{1}{4}$) of Section 12, Township 2 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of the following described property: That tract of land which was described in that certain deed to Jennie Halberstadt, recorded in Book 235, Page 614 of Washington County Record of Deeds, the said parcel being described as follows:

Beginning at a point 1285.76 feet South and 67.25 feet West of the Northeast corner of said Section 12, said point being the Southeast corner of said property; said point also being the intersection of the North line of Bonita Road with the West line of the West Portland-Hubbard Highway; thence South 89° 24' 45" West along the North line of Bonita Road and the South line of said property 300 feet to the Southwest corner of said property; thence North 0° 20' 45" West along the West line of said property 148.19 feet; thence North 59° 26' 15" East 19.36 feet; thence North 89° 26' 15" East 190.48 feet; thence North 57° 17' 58" East 109.84 feet to a point on the West line of said West Portland-Hubbard Highway and the East line of said property; thence South 0° 20' 45" East along the East line of said property and the West line of said Highway 216.17 feet to the point of beginning.

The parcel of land to which this description applies contains 1.153 acre.

2. The Commission does further find and declare that the acquisition of the real property hereinabove described as Parcel No. 1 and the small size and unsatisfactory situation as a building site of the owner's remaining property will result in depriving the owner of a satisfactory homesite, and, therefore, it is to the best interest of the owner, as well as the interest of the State of Oregon, that the State acquire fee simple title to the remainder of the owner's real property lying North of the real

(cont.)

property hereinabove described as Parcel No. 1, which said remaining property is described as follows, to wit:

Parcel No. 2:

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of Section 12, Township 2 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of the following described property: That tract of land which was conveyed by that certain deed to Jennie Halberstadt, recorded in Book 235, Page 614 of Washington County Record of Deeds, the said parcel being described as follows:

Beginning at the Northeast corner of said property, said corner being 986.74 feet South and 68.98 feet West of the Northeast corner of said Section 12, said property corner also being on the West line of the West Portland-Hubbard Highway; thence Westerly along the North line of said property 300 feet to the Northwest corner thereof; thence Southerly along the West line of said property 152.4 feet, more or less, to a point which is 148.19 feet North 0° 20' 45" West from the Southwest corner thereof; thence North 59° 26' 15" East 19.36 feet; thence North 89° 26' 15" East 190.48 feet; thence North 57° 17' 58" East 109.84 feet to the West line of said West Portland-Hubbard Highway at a point 216.17 feet North 0° 20' 45" West of the Southeast corner of said property; thence Northerly along the West line of said highway 83.83 feet, more or less, to the point of beginning.

The parcel of land to which this description applies contains 0.907 acre.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of way Department is directed and authorized to commence and prosecure to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his ab-

sence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of April, 1953.

EXHIBIT "Q-12"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Winchester-Shady Point Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction,

(cont.)

improvement and maintenance of the Winchester-Shady Point Section of the Pacific Highway as a throughway, the following described real property in fee simple, to wit:

R 18519
Owner: Frank A. Smith, et al

A parcel of land lying in Block 33, Plat "D", Umpqua Park Fruit Lands, being in Sections 25 and 26, Township 27 South, Range 6 West, W. M., Douglas County, Oregon, the said parcel being that portion of said Block 33 included in a strip of land variable feet in width, lying on the Easterly side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 2696+59.34, said Station being 653.10 feet North and 151.79 feet West of the Southeast corner of Plat "A", Umpqua Park Fruit Lands in Section 35, Township 27 South, Range 6 West; thence on a spiral curve right (the long chord of which bears North 17° 04' 50" West) 600 feet; thence on a 1909.86 foot radius curve right (the long chord of which bears North 3° 36' 55" East) 979.72 feet; thence on a spiral curve right (the long chord of which bears North 27° 38' 40" East) 800 feet; thence on a 5729.58 foot radius curve right (the long chord of which bears North 43° 11' 25" East) 1775.83 feet; thence on a spiral curve right (the long chord of which bears North 53° 24' 10" East) 400 feet; thence North 54° 04' 10" East 80.24 feet; thence on a spiral curve left (the long chord of which bears North 53° 16' 10" East) 400 feet; thence on a 4774.65 foot radius curve left (the long chord of which bears North 28° 56' 40" East) 3787.50 feet to Engineer's center line Station 2608+36.05. The Easterly line of said strip of land intersects the South and North lines of said Block 33 approximately opposite Stations 2658+40 and 2641+76 respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line
2660+00	2645+00	To South Umpqua River
2645+00	2640+00	125 feet

It being the intent to convey to the South line of the property as acquired and claimed by the grantor by deed recorded in Book 200, Page 447 of Douglas County Deed Records.

(cont.)

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 2.40 acres, more or less.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Winchester-Shady Point Section of the relocated Pacific Highway and all of the real property of the owners described above.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of April, 1953.

EXHIBIT "Q-13"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Hood River-Mosier Section of the Columbia River Highway, and, in connection therewith, to construct and maintain a connecting or approach road between the relocated Columbia River Highway and the existing Columbia River Highway, and for such purposes the real property hereinafter described as Parcel No. 1 is necessary; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the said Commission is requred to designate, locate, relocate, construct, improve and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts, and for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire a quarry site, and for such purpose the real property hereinafter described as Parcel No. 2 is necessary; and

WHEREAS, the Highway Commission by a certain resolution made and entered on its records on the 16th day of July, 1951, and by a certain resolution made and entered on its records on the 19th day of February, 1952, declared

(cont.)

the necessity and need for the acquisition of a parcel of real property for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Hood River-Mosier Section of the Columbia River Highway, and, in connection therewith, the construction and maintenance of a connecting or approach road between the relocated Columbia River Highway and the existing Columbia River Highway, and a parcel of real property for a quarry site, for use in connection with the proper construction and maintenance of highways of the state highway system, and authorized the acquisition of said parcels of real property in the manner provided by law, and it is now the opinion of the Commission that the said parcel of real property needed for a quarry site, as described in said resolutions, is inadequate for the purpose for which it is needed, and it is, therefore, the opinion of the Commission that the said resolutions of July 16, 1951, and February 19, 1952, should be revised to conform with the present needs of the Highway Commission; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said Columbia River Highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby declare that the resolutions made and entered in its records of July 16, 1951, and February 19, 1952, declaring the necessity for the acquisition of two parcels of real property, be, and the same hereby are, amended by this resolution.

2. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Hood River-Mosier Section of the Columbia River Highway as a throughway, and, in connection therewith, the construction and maintenance of a connecting or approach road between the relocated Columbia River Highway and the existing Columbia River Highway, the following described real property in fee simple, to wit:

L 1767 (R 17634, R 17635)
Owner: James C. Fulton, et ux

Parcel No. 1:

A parcel of land lying in Government Lot 6 of Section 2, Township 2 North, Range 11 East, W. M., Wasco County, Oregon, the said parcel being described as follows:

EXHIBIT "Q-13" (cont.)

Beginning at a point 333.95 feet South and 1430 feet East of the Westerly Southwest corner of the J. A. Mosier Donation Land Claim No. 37, said point also being on the Southerly right of way line of the Columbia River Highway; thence on said right of way line North 79° 53' 30" East a distance of 167.68 feet; thence along a right of way line parallel to and 100 feet distant Southerly from the Union Pacific Railroad center line, South 73° 22' East a distance of 210.51 feet to the Westerly line of the Frank Ginger property; thence along the said property line South 0° 55' 30" West a distance of 280 feet; thence North 60° 39' 30" West a distance of 516.42 feet; thence North 56° 43' East a distance of 105.18 feet to the point of beginning, containing 1.91 acres.

The bearings used herein are based on the Oregon Coordinate System, North Zone.

3. The Commission does hereby further find and declare that in addition to the acquisition of fee simple title to the above described real property, it is necessary to acquire for a quarry site, for use in connection with the proper construction and maintenance of highways of the state highway system, the following described real property in fee simple, to wit:

Parcel No. 2:

A parcel of land lying in the South half ($S\frac{1}{2}$) of Section 2, Township 2 North, Range 11 East, W. M., Wasco County, Oregon, the said parcel being described as follows:

Beginning at the South quarter ($S\frac{1}{4}$) corner of said Section 2; thence North 87° 39' East 1719.97 feet along the South line of said Section 2; thence North 11° 25' West 1154.48 feet; thence North 72° 34' West 201.3 feet; thence North 18° 44' 25" East 705.43 feet; thence North 50° 35' 20" East 194 feet to the Southerly line of Parcel No. 1 above; thence North 60° 39' 30" West 116.42 feet to the most Westerly corner of said Parcel No. 1 above (the preceding courses are based on the Oregon Coordinate System, North Zone), said corner being on the Easterly line of that tract of land being sold to Louis Owens under unrecorded contract which tract is hereinafter described; thence Southerly along the Easterly line of said Owens tract to the intersection of said Easterly line of said Owens tract with the Easterly line of a tract conveyed by Marietta Harlan to Christian A. Hage by deed recorded in Book 54, Page 567, of Wasco County Deed Records; thence Southerly along the Easterly line of said Hage tract to the Southeast corner thereof, said corner being the Northeast corner of a tract conveyed by Marietta Harlan to J. Strein

(cont.)

by deed recorded in Book 57, Page 158, of Wasco County Deed Records; thence Southerly and Westerly along the Easterly line of said Strein tract to the South quarter ($S\frac{1}{4}$) corner of said Section 2, the point of beginning.

The parcel of land to which this description applies contains 28.93 acres.

The description of the tract hereinbefore mentioned as being sold to Louis Owens under unrecorded contract is as follows:

Beginning at the Northwest corner of the Charles and Opal Head property as described in Book 110, Page 25, Wasco County Deed Records; thence Easterly along the North line of said Charles and Opal Head property approximately 250 feet to an iron pipe; thence Southwesterly along the lower bank of an abandoned railroad roadbed approximately 1,000 feet to an iron pipe thence Westerly approximately 30 feet to the West line of the said Charles and Opal Head property; thence Northerly along the West line of said Charles and Opal Head property to the point of beginning, containing 3.5 acres, more or less.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed and located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury of damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 8th day of April, 1953.

EXHIBIT "Q-14"

Minutes of April 8 and 9, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Union Avenue-Swift Road Junction Section of the Pacific Highway West, and in connection therewith, to construct a connecting road which will join the said Swift Avenue with Denver and Union Avenues to serve as an additional leg of the existing interchange; and

WHEREAS, the said Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, may in its discretion acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State will be best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted,

(cont.)

highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Union Avenue-Swift Road Junction Section of the Pacific Highway West as a throughway, and in connection therewith, the construction and maintenance of a connecting road which will join the said Swift Avenue with Denver and Union Avenues, to serve as an additional leg of the existing interchange, the following described real property in fee simple, to wit:

L 1843A (R-15196)
Owner: Kernan Livestock Farms, Inc., et al

Parcel No. 1:

A parcel of land lying in the East half ($E\frac{1}{2}$) of Section 33, Township 2 North, Range 1 East, and the East half ($E\frac{1}{2}$) of Section 4, Township 1 North, Range 1 East, W. M., Multnomah County, Oregon, and being a portion of the following described property: Those tracts of land which were conveyed by those certain deeds to Kernan Livestock Farms, Inc., recorded in Book 359, Page 169, and in Book 274, Page 377, of Multnomah County Record of Deeds, the said parcel being described as follows:

Beginning at the Northeast corner of that tract of land conveyed by deed to Pacific International Association, recorded in Book 222, Page 236, Multnomah County Record of Deeds, said point being the intersection of the East line of said Pacific International Association tract with the South line of the Swift Secondary Highway, said point also being North 379.6 feet and West 597.1 feet from the Northeast corner of said Section 4; thence South 23° 13' 45" West along the East line of said Pacific International Association tract 911.77 feet; thence South 7° 33' 25" East 139.45 feet; thence South 19° 30' East 120 feet; thence South 31° 00' East 120 feet; thence South 45° 30' East 170 feet to the South line of said Kernan property; thence South 82° 00' East along the South line of said Kernan property 412 feet to the southeast corner thereof, said point being on the West line of North Denver Avenue; thence North 11° 37' East along the East line of said property and the West line

of North Denver Avenue 212.26 feet to a line parallel to and 50 feet Northerly and Easterly of the center line of the Swift-Union Connection as located; thence North 88° 52' West parallel to said Swift-Union Connection center line 76.47 feet to a point opposite Engineer's center line Station 70+98.75; thence continuing parallel to and 50 feet distant from said center line as follows: on a spiral curve to the right (the long chord of which bears North 80° 40' 05" West 295.09 feet) to a point opposite Station 74+18.75 P. S. C.; on a 308.10 foot radius curve to the right (the long chord of which bears North 32° 49' 07.5" West 312.26 feet) 327.46 feet; on a spiral curve to the right (the long chord of which bears North 15° 03' 02" East 295.09 feet) and North 23° 13' 45" East 502.89 feet to a point opposite Station 86+22.24; thence continuing North 23° 13' 45" East 14.83 feet to the South line of the Swift Secondary Highway; thence on a 686.20 foot radius curve to the left (the long chord of which bears North 40° 55' 29.5" West 116.67 feet) along the South line of said Swift Secondary Highway 116.81 feet to the point of beginning.

The parcel of land to which this description applies contains 5.634 acres.

2. That in addition to the acquisition of fee simple title to the above described real property, designated as Parcel No. 1, it is necessary that there be no rights or easements of access between the right of way hereinabove described as Parcel No. 1 and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the right of way hereinabove described as Parcel No. 1 of a width not to exceed 25 feet on the East side of the said right of way, opposite Highway Engineer's center line Station 84+00.

3. The Commission does hereby further find and declare that the acquisition of the real property hereinabove described as Parcel No. 1 and the denial of access thereto as hereinabove set forth will result in depriving the owners of all means of access from that portion of their real property lying Southwesterly of and adjacent to the real property hereinabove described as Parcel No. 1 to any public highway and to their remaining real property, and it is therefore, in the best interests of both the State and the owners for the State to acquire fee simple title to the owners' entire tract of real property lying Southwesterly of the East and North boundaries of the real property hereinabove described as Parcel No. 1, which said tract includes that portion of the real property hereinabove described as Parcel No. 1, and the real property described as follows, to wit:

(cont.)

Parcel No. 2:

A parcel of land lying in the East half ($E\frac{1}{2}$) of Section 4, Township 1 North, Range 1 East, W. M., Multnomah County, Oregon, the said parcel being described as follows:

Beginning at a point which is 911.77 feet South 23° 13' 45" West (along the East line of that tract conveyed to Pacific International Association by deed recorded in Book 222, Page 236 of Multnomah County Deed Records) from the Northeast corner of said tract, which corner is 379.6 feet North and 597.1 feet West of the Northeast corner of said Section 4; thence South 23° 13' 45" West 451 feet to the South line of that tract conveyed to Kernan Livestock Farms, Inc., by deed recorded in Book 359, Page 169, Multnomah County Deed Records; thence South 82° 00' East 423.45 feet along said South line; thence North 45° 30' West 170 feet; thence North 31° 00' West 120 feet; thence North 19° 30' West 120 feet; thence North 7° 33' 25" West 139.45 feet to the point of beginning.

The parcel of land to which this description applies contains 1.637 acres.

4. That in addition to the acquisition of fee simple title to the real property hereinabove described, it is necessary that there be acquired an easement across the following described parcel of real property, hereinafter designated as Parcel No. 3, for the purpose of constructing, maintaining and repairing the slopes or cuts of fills occasioned by or resulting from the construction, improvement and maintenance of the said connecting road. Nothing herein contained shall be construed to convey fee simple title to the land used for slope purposes, nor to prevent the owners, their heirs and assigns, from the full use and domain thereover, provided, however, that such use shall not be permitted to damage or destroy lateral support to the highway. The real property over which this easement is required is described as follows, to wit:

Parcel No. 3:

A parcel of land lying in the East half ($E\frac{1}{2}$) of Section 33, Township 2 North, Range 1 East, and the East half ($E\frac{1}{2}$) of Section 4, Township 1 North, Range 1 East, W. M., Multnomah County, Oregon, and being a portion of that property described in those deeds to Kernan Livestock Farms, Inc., recorded in Book 359, Page 169, and in Book 274, Page 377, of Multnomah County Records of Deeds, the said parcel being a strip of land extending from the Westerly line of Denver Avenue to the Southerly line of the Swift Highway, said strip of land being variable in width, lying

(cont.)

on the Northeasterly side of the center line of the Swift Highway connection to Union Avenue as said connection has been located, which center line is described as follows:

Beginning at Engineer's center line Station SU 69+00, said Station being 833.5 feet South and 141.3 feet West of the Northeast corner of said Section 4; thence North 88° 52' West 198.75 feet; thence on a spiral curve right (the long chord of which bears North 80° 20' 50" West) 320 feet; thence on a 358.1 foot radius curve right (the long chord of which bears North 32° 49' 07½" West) 380.6 feet; thence on a spiral curve right (the long chord of which bears North 14° 42' 35" East) 320 feet; thence North 23° 13' 45" East 502.89 feet to Station 86+22.24; thence continuing on the back tangent produced ahead North 23° 13' 45" East 43 feet, more or less, to the Southerly line of the Swift Highway, except that portion of said strip lying in Parcel No. 1 above.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Northeasterly Side of Center Line
Westerly line of Denver Avenue	75+00	250 feet
75+00	79+50	150 feet
79+50	Southerly line of Swift Highway	100 feet

5. That the highway facility for which the aforesaid real property and easement are required and are being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

6. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

7. That upon the trial of any suit or action instituted to acquire the said real property and easement, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

EXHIBIT "Q-14" (cont.)

8. That this resolution be entered in full in the minutes and records of the Commission this 8th day of April, 1953.

Portland, Oregon
May 18, 1953

The State Highway Commission met in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Charles H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2d Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Manager, Accounting Division
Floyd Query, Acting Secretary

The Parks Superintendent reported on the following park matters:

1. Improvement of three CCC buildings at Silver Falls State Park: The Parks Superintendent reported that the present buildings consist of one large room each and that better use can be made of them and more revenue obtained if they are divided into smaller rooms. He recommended, and the Commission approved, the expenditure of $750 to install partitions.

2. Proposal of Daughters of the American Revolution to construct caretaker's cottage on property within the boundaries of Champoeg State Park: The Parks Superintendent explained that in 1931 the Oregon State Board of Control had given them permission to use an area within the park. They now propose to construct a caretaker's cottage at an estimated cost of $12,000 to $15,000. He stated that he had no objection to the erection of the cottage but felt that there should be a more specific type of agreement with the DAR regarding the area granted to them by the Board of Control. After some further discussion, the Commission stated they had no objection to the erection of the caretaker's cottage but instructed that an agreement be prepared with the Daughters of the American Revolution covering the details of their use of the property within the park.

3. Proposal for development of a state park at Ochoco Lake east of Prineville: The Parks Superintendent stated that many organizations have been urging such a development. The lake, he added, has recently been stocked with fish and much use is being made of the lake by fishermen and tourists. The proposed site contains about 15 acres, is wooded, adjoins the highway, and can be purchased for about $5,000. He recommended that he be authorized to study the matter concerning feasibility, cost, and other details. The Commission granted authority as requested but deferred further action pending inspection of the site by the Commission on their trip into central Oregon this coming summer.

The Right of Way Engineer presented for consideration options secured for acquisition of real property needed for various state Highway improvements and for other purposes. After careful consideration, the Commission approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In discussing the various options, the Right of Way Engineer called attention to the option for the Shell property in Arlington, File No. 19505. He stated that as instructed at a previous meeting, access to the plant is now restricted to the marketing of petroleum products only.

Chairman Chandler inquired if the State was securing salvage value for timber acquired on right of way for state highway construction. The Right of Way Engineer replied that such salvage value was being secured as reflected in the contractor's bid price.

The Commission approved the Right of Way Engineer's request to negotiate acquisition of real property for which no authority previously had been granted by adoption of the attached resolution relative thereto marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission confirmed sales of miscellaneous properties as reported by the Right of Way Engineer. (For a list of the properties sold, see a copy of the report prepared by C. W. Parker, Property Manager, dated May 18 and 19, 1953, on file in the Secretary's office.)

The Right of Way Engineer recommended, and the Commission approved, a change of access point for the Krebs' property on the Arlington-Heppner Junction Section of the Columbia River Highway in Gilliam County. No additional access is being granted.

The Commission also approved a "Lease and Sale of Road Materials" agreement with Roy L. Houck and Son for road building materials to be obtained from the Canby Gravel Bar on the Willamette River-Marion County Line Section of the West Portland-Hubbard Highway in Clackamas County. The Right of Way Engineer explained that it had been originally planned that the contractor should furnish his own material, but such plan had not worked out; that under the proposed lease the contractor is to pay the sum of $0.08 per cubic yard for all materials used in Contract No. 3818 which amount is not more than he would have been required to pay under the original plan.

Consideration was given to a proposed lease to the Richfield Oil Company for the use of a parcel of land containing 25,000 square feet at the 6th and 7th Street connection in the City of Eugene. The Right of Way Engineer explained that the proposed lease is for a four-year term for a consideration of $550 per year and contains a six-months' cancellation clause. Upon his affirmative recommendation, the Commission approved granting the lease as outlined.

The Right of Way Engineer recommended and the Commission approved the sale of the following properties which are no longer needed for state highway purposes:

1. 7,800 square feet on Viento-Hood River Section of the Columbia River Highway, Hood River County, to Thomas C. Meredith and Robert B. Meredith for $780.

2. Portion of Block 14, McMillen's Addition to East Portland, on the Pacific Highway West, Multnomah County, to Ranco Savoff for $825.

3. Portion of Lots 17 and 20, Block 1, Central Addition to Albany, on the Pacific Highway, Linn County, to P. W. and Florence E. Drushella for $1,425.

4. 0.48 acre of land in Troutdale on the Old Columbia River Highway in Multnomah County, to J. J. and Ruth D. Walker for $1,100.

5. 0.32 acre of land on the Roseburg-Coos Bay Highway, Douglas County, to Henry Carel and Lucy May Schattenkerk for $125.

6. Portion of Lots 15 and 16, Estacada Lake Addition, on the Woodburn-Estacada Highway, Clackamas Highway, to Frank J. and Laura M. Bailey for $140.

The Commission considered a release of access restriction form concerning property sold to the State by J. Harold Nichols on the Camas Valley-Pacific Highway Section of the Coos Bay-Roseburg Highway in Douglas County. The Right of Way Engineer explained that the reason for the release is to clear up ambiguous language in the deed which clouded the title and the length of the restricted access strip. He recommended that it be approved. The Commission accepted the recommendation.

The Commission also considered and upon recommendation of the Right of Way Engineer approved sale of a parcel of land containing 1,130 square feet between Blocks 16 and 17 of Roseburg in Section 19, Township 27 South, Range 5 West, Douglas County, to J. F. and Velma Dillard. The property, the Right of Way Engineer stated, is no longer needed for highway purposes and a price of $850 is being received for it. The deed, he stated, is executed upon the condition that no buildings, structures, or fixtures shall ever be placed upon the property.

The Chief Counsel requested authority to acquire by condemnation if necessary the following properties needed as right of way in connection with various highway improvements or for other public purposes and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

2157

Mt. Vernon-John Day Section of the John Day Highway

	Recommended Offer
R 18731 - Daniel Pike Right of Way (Grant) 0.25 acre	*
R 18732 - Josephine Holland Right of Way (Grant) 1.43 acres	*
R 18733 - Clyde Holliday Right of Way (Grant) Parcel No. 1: 0.05 acre Parcel No. 2: 0.015 acre	* *
R 18740 - John Silvers (Grant) Parcel No. 1: Right of way 0.83 acre Parcel No. 2: Easement 0.62 acre	* *
R 18743 - Art Morgan (Grant) Parcel No. 1: Right of way 1.19 acre Parcel No. 2: Easement for irrigation ditch change 0.88 acre Parcel No. 3: Easement for channel change 0.6 acre Parcel No. 4: Easement for ditch change 0.2 acre	*
R 20053 - Alva M. Empey Right of Way (Grant) 0.72 acre	*
R 20036 - School District No. 20 Right of Way (Grant) 0.1 acre	*
R 20171 - Dave Musgrave Right of Way (Grant) 0.15 acre	*
R 20197 - Anales Kirkwood Right of Way (Grant) 0.07 acre	*

Harbor Drive-City Limits Section of the West Portland Expressway

R 19569 - Gregory V. Bride Right of Way (Multnomah) 5,000 square feet	*

May 18, 1953

Rinehart Creek-Frankport Unit of the Rocky Point-Gold Beach Section of the Oregon Coast Highway

	Recommended Offer
R 20172 - Norman J. Nash Right of Way (Curry) 18.58 acres	*
R 20202 - Clayton Mark Right of Way (Curry) 1.75 acres	*
R 20204 - Winston W. Chambers Right of Way (Curry) 45.5 acres	*

Gilchrist-Willamette Junction Unit of the Lapine-Diamond Lake Section of The Dalles-California Highway

R 17939 - Clarence V. Parsons Right of Way (Klamath) 0.55 acre	*

Zig Zag Rhododendron Section of the Mount Hood Highway

R 12367 - James W. Creighton Right of Way (Clackamas)	
0.02 acre	$750.00
0.50 acre	*
1.55 acres	*

The Commission unanimously granted the authority by adoption of the attached resolutions relative thereto marked EXHIBIT "N-1" through "N-7", inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

At 10:00 a.m. bids, as follows, for highway construction were opened and read aloud by the Acting Secretary, pursuant to a previously published notice at the conclusion of which it was announced that the awarding of contracts would be made at 4:45 p.m. in the same room:

BENTON COUNTY
MILL CREEK BRIDGE

C. J. Eldon, Portland	$ 35,520.00
Johnston and Bryant, Newberg *	35,526.50
Babler Brothers, Inc., Portland	37,145.00
Schrader Construction Co., Portland	42,615.00

* Bidder will accept award of only one project.

May 18, 1953

CLATSOP COUNTY
YOUNGS RIVER LOOP COUNTY ROAD

United Paving Co., Edmonds, Washington	$ 93,734.00
United Construction Co., Portland	99,680.00
Warren Northwest, Inc., Portland	102,440.00

COLUMBIA RIVER HIGHWAY IN COLUMBIA COUNTY
GRADING AND BRIDGE PROJECT

Kuckenberg Construction Company, Portland	$755,270.00
C. R. O'Neil, Creswell	769,039.70
Berke Brothers, Portland	809,291.50
Peter Kiewit Sons' Co., Longview, Washington	845,829.00
R. A. Heintz Construction Co. & J. N. Conley, Portland	889,408.50
J. G. Watts Construction Co., Portland *	903,509.00
Carl M. Halvorson, Inc., Portland *	947,923.50
Fred H. Slate Co., Oreg. Ltd. & E. C. Hall Co., Portland	963,453.00
Parker-Schram Co., Portland	1,016,223.50
Guy F. Atkinson Co., Portland	1,334,537.90
McNutt Brothers, Eugene	1,366,156.50

* Bidder will accept award of only one project

COLUMBIA COUNTY
ST. HELENS PAVING PROJECT

Parker-Schram Co., Portland *	$ 24,505.00
Porter W. Yett, Portland *	26,390.00
D-H Paving Co., Vancouver, Washington*	28,275.00
Pacific Asphalt Paving Co., Portland *	32,045.00
United Paving Co., Edmonds, Washington	32,384.30
Warren Northwest, Inc., Portland	33,930.00
Babler Brothers, Inc. and Rogers Construction Co., Portland *	37,700.00

* Bidder will accept award of this project only in combination with Sauvie Island Paving Project.

COOS COUNTY
EMPIRE PAVING PROJECT

Porter W. Yett, Portland	$ 12,824.00

COOS COUNTY
MYRTLE POINT PAVING PROJECT

Porter W. Yett, Portland	$ 14,852.00

May 18, 1953

OREGON COAST HIGHWAY IN CURRY COUNTY
GRADING AND PAVING BRUSH CREEK-FRANKPORT UNIT

Peter Kiewit Sons' Co., Longview, Washington	$984,239.00
Fred H. Slate Co., Oreg. Ltd. and E. C. Hall Co., Portland	996,183.00
Babler Brothers, Inc., Portland	1,041,230.00
Carl M. Halvorson, Inc., Portland *	1,114,202.50
Kuckenberg Construction Co., Portland	1,133,150.00
J. G. Watts Construction Co., Portland *	1,170,480.00
McNutt Brothers, Eugene	1,377,254.00

DOUGLAS COUNTY
WINCHESTER ROAD UNDERCROSSING

Erick Enquist, Troutdale	$ 33,076.00
R & M Construction Co., Central Point	33,170.00
Johnston and Bryant, Newberg *	34,090.00
Tom Lillebo, Reedsport	34,638.00
R. E. Meade and Co., Grants Pass	35,760.00
Babler Brothers, Inc., Portland	36,132.00
Hannan Brothers, Co., Portland	36,334.00
Hamilton and Thoms, Eugene	37,550.00

*Bidder will accept award of only one project.

DOUGLAS COUNTY
COMMUNITY HOSPITAL ROAD OVERCROSSING

R. E. Meade and Co., Grants Pass	$ 50,671.00
Hamilton and Thoms, Eugene	55,480.00
Hannan Brothers Co., Portland	57,550.00
Johnston and Bryant, Newberg *	58,120.00
Babler Brothers, Inc.	59,140.00

* Bidder will accept award of only one project

JOHN DAY HIGHWAY IN GRANT COUNTY
GRADING AND PAVING PROJECT

J. M. Arenz, Portland *	$332,061.00
Rogers Construction, Inc., Portland *	332,986.00
Durbin Brothers and John R. Saxton, Eugene *	338,915.60
Babler Brothers, Inc., Portland *	340,928.00
Curtis Gravel Co., Spokane, Washington *	342,272.50
Acme Construction Co., Eugene *	344,610.10
J. N. Conley, Portland *	351,575.10
R. A. Heintz Construction Co., Portland *	353,469.00
Peter Kiewit Sons' Co., Longview, Washington *	354,848.00

May 18, 1953

Grading and Paving on the John Day Highway (cont.)

Fred H. Slate Co., Oreg. Ltd. and E. C. Hall Co., Portland *	$355,036.00
Newport Construction Co., Portland	361,687.00
J. L. McLaughlin, Great Falls, Montana *	367,240.20
Central Heating Co. and F. L. Somers, Eugene *	374,702.00
Parker-Schram Co., Portland *	407,429.00
Porter W. Yett, Portland	411,228.00
J. W. Briggs and Associates, Bend *	414,440.00

* Bidder will accept award of this project only in combination with Mt. Vernon-John Day Project.

JOHN DAY HIGHWAY IN GRANT COUNTY
GRADING AND PAVING MT. VERNON-JOHN DAY SECTION

J. M. Arenz, Portland (1)	$342,813.00
Acme Construction Co., Eugene (1) (2)	358,010.00
Rogers Construction, Inc., Portland (1)	362,397.00
Durbin Brothers and John R. Saxton, Eugene (1) (3)	364,806.00

SHERIDAN GRADING AND PAVING PROJECT

W. G. Wright, McMinnville	$ 12,846.00
Central Paving Co., Dallas	14,983.10

The meeting was recessed at 12:15 p.m. to reconvene at 2:15 p.m. in the same room with the same persons present and participating.

The Commission considered and approved a report from the Chief Counsel concerning trial of cases since the last Commission meeting as follows:

(1) State vs Delorsa Livina Beck, et al, L 1772: This case involves acquisition of 4.65 acres of land on the Hayes Hill Section of the Redwood Highway in Josephine County. An offer had been made in the amount of $1,270.00 whereas the owners had demanded the sum of $40,000.00. The jury returned a verdict in the sum of $1,120.00.

(2) State vs R. K. D. Company, L 1719, involving the purchase of 0.84 acre of land with complete restriction of access for right of way of Unit No. 2 of the T. H. Banfield Expressway in Multnomah County. The State had made an offer for this property in the sum of $12,000.00. The defendants had demanded $32,212.00 plus $2,500.00 attorneys' fees. The jury returned a verdict in the sum of $12,500.00.

(3) State vs Nellie L. Fromm, et al, L 1968, involving the purchase of 21.88 acres of land for right of way on the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway in Curry County, with acquisition of all rights of access with the exception of four private accesses and one farm crossing. The State offered for this property the sum of $9,200.00 whereas the owners demanded $34,000.00, plus $2,000.00 attorney's fees. Appraiser's tertimonies as to value varied from $5,600.00 to $36,200.00, the variation being due principally to a difference of opinion as to the highest and best use for the property being acquired. The jury returned a verdict in the amount of $22,000.00.

In discussing the various aspects of the Fromm case, the Chief Counsel brought up the question of using a private access for the removal of timber lying back of the land for which the access was granted. He pointed out that one of the defendants chief arguments in the case was the fact that the State, by granting private access to the owners only would preclude use of a logging road across the property by the owners of timber lying back of the Fromm land. It was pointed out in the trial that the owners of this timber could market it only by crossing Fromm's land. He explained that during the past year, access provisions have been limited "for ordinary travel, for private residential use and for the production and transportation to market of farm and forest products of the defendants remaining land only". This language, he stated, precludes use of the access point by large areas embracing many ownerships. It was his feeling that this clause should be retained in granting access rights. In the discussion following, it was brought out that the Commission did not wish by arbitrary regulations to stop logging operations, and in certain instances, where the circumstances justified the action, they felt that modifications might be necessary. They instructed the Chief Counsel that when such modifications are indicated that the matter be brought to the Commission for its action.

(4) August De Phillips, et ux, vs State, L 1825, for damages to the Beaver State Lodge in Brookings on the Oregon Coast Highway in Curry County. The owners demanded the sum of $51,000.00 for damages resulting from the lowering of the grade of the highway approximately six feet in front of the plaintiff's property. The jury rendered a directed verdict that no damages be assessed against the State.

(5) State vs Tigard Grange No. 148, L 1873, involving acquisition of 3,180 square feet of land required for right of way for the Tigard-Newberg Section of the Pacific Highway West in Washington County. The State offered to pay $1,675.00 for the property whereas the owners had demanded $8,930.00. The jury returned a verdict in the amount of $1,750.00.

(6) State vs Francis G. Murray, L 1953, involving treble value of four ornamental maple trees removed from the right of way on the Pacific Highway East at a point opposite 17720 McLoughlin Boulevard in Clackamas County. The jury awarded a verdict in the sum of $300.00 as damages for the cutting of two trees.

The Commission also considered a written report from the Chief Counsel concerning settlement of the following cases:

(1) State vs Charles J. Marks, L 1975: This case involves enforcement of a specific performance suit on an option for property on the Reedsport-Coos County Line Section of the Oregon Coast Highway in Douglas County. On April 9, 1953, Mr. and Mrs. Marks executed and delivered a deed to the State in compliance with the provisions of the option.

(2) State vs G. N. Tenney, L 1716, concerning the acquisition of 0.30 acre of land for right of way on the T. H. Banfield Expressway in Multnomah County. The owners had demanded $106,000.00 for the property but have now agreed to accept $71,000 which was the original offer made to them in September, 1950.

(3) State vs John William Stewart, L 1952, involving specific performance of an option to convey 0.13 acre of land on the Medford-County Farm Section of the Pacific Highway in Jackson County. On April 15, the Stewarts executed and delivered a warranty deed to the State according to the terms of the option.

(4) State vs the First National Bank of Portland, L 1973. This case involved acquisition of 0.154 acre of land on the Noble Slough-Foster Section of the Santiam Highway in Linn County. The Bank has agreed to accept the sum of $245.00 as originally offered by the State.

(5) State vs Earl Brant, L 1962, involving acquisition of 17.48 acres on the Elkhead Road-Rice Hill Section of the Pacific Highway in Douglas County. The State made an offer of $18,326.00, whereas the owners demanded $30,000.00 for the property. Settlement has been effected on the basis of the State's offer with the Brants to retain ownership of the house and out buildings. They are also obligated to remove these buildings from the right of way immediately.

(6) State vs William E. Tegart, L 1915, concerning the acquisition of 3.15 acres for right of way on Unit No. 5 of the T. H. Banfield Expressway in Multnomah County. The State originally offered $4,200.00, whereas the owners demanded $4,920.00 for the property plus $1,300.00 for crop

damage and the State to assume obligation for draining their land. A settlement has been agreed upon for the sum of $4,200.00 plus $150.00 for attorney's fees with certain clauses to be placed in the option concerning damages which may be suffered by Mr. Tegart due to loss of water from a spring in which he has a water right, and for possible damage to his property from negligence on the part of the highway contractor, neither of these items being covered in the settlement agreed upon. The Commission accepted the Chief Counsel's recommendation that the option be accepted containing the matters set forth above. (For more complete details, see the Chief Counsel's letter of May 12, 1953, in the General Files.)

(7) State vs Peter Menegat, Jr., L 1976, involving acquisition of an easement over 0.96 acre of land for relocating and constructing a section of creek channel on the relocated Forest Boundary-Hauser Section of the Oregon Coast Highway in Coos County. An offer of $175.00 was made for this easement. The owner refused to negotiate unless the State agreed to lower a culvert beneath the old highway for the purpose of draining his remaining land. The owner later agreed to convey the easement for the sum of $200.00 and an option has been secured in that amount.

(8) St ate vs William L. McDonald, L 1905. This case involves purchase of 14.9 acres of land on the Forest Boundary-Hauser Section of the Oregon Coast Highway in Coos County. An offer in the amount of $14,500.00 was made for this property, including all rights of access to the relocated highway except two private use access points. The owners, however, demanded $35,000.00 which they later agreed to reduce to $16,500.00, which amount the Chief Counsel recommended be paid.

(9) State vs Gabriel Mourens, L 1979, involving purchase of 0.37 acre of land on the Barbur Boulevard-Tualatin River Section of the West Portland-Hubbard Highway in Clackamas County. An offer in the amount of $750.00 was made for this property, whereas the owners demanded $1,500.00. After further negotiation, Mr. Mourens agreed to accept the sum of $750.00.

(10) State vs Alice S. Friday, L 1279, concerning acquisition of 2.98 acres of land on the Sunset Highway. The State originally offered $200.00 for the property and a settlement later was arranged in the sum of $350.00.

(11) State vs James E. Langdon, Jr., L 1938; State vs James E. Langdon, Sr., L 1939; State vs Homer Langdon, L 1940. These cases involved acquisition of 31.52 acres of land on the Boones Ferry Road-Marion County Line Section of the West Portland-Hubbard Highway in Clackamas County. An original offer in the amount of $25,923.00 was made which was not acceptable to the owners. A compromise settlement was effected involving the payment of $27,500.00 and the moving and enlargement of a stock pass.

The Chief Counsel recommended and the Commission approved the settlements as presented. (For further details see a copy of the Chief Counsel's report dated May 12, 1953, in the General Files.)

May 18, 1953

The Commission considered and confirmed offers reported by the Chief Counsel for the acquisition of real property needed for various public purposes which offers were tendered to the owners prior to the commencement of condemnation proceedings and in conformity with authority granted him by the Commission in its resolution adopted December 20, 1951, as follows:

Winchester-Garden Valley Road Section of the Pacific Highway

R 17836 - Owner: J. M. Housley, et ux. 13.36 acres for right of way. Amount of offer $10,183.00. Authorized by Chairman Chandler on April 21, 1953.

North Corvallis Section of the Pacific Highway West

R 14612 - Union Bond and Trust Co. 1.46 acre for right of way. Amount of offer $4,000.00. Authorized by Chairman Chandler on April 21, 1953.

County Farm-Ashland Section of the Pacific Highway

R 19273 - Owner: Marcel Klimek, et ux. 1.5 acre for gravel bar. Amount of offer $449.00. Authorized by Commissioner McIver on April 14, 1953.

Tigard-Tualatin River Section of the Pacific Highway West

R 18478 - Owner: Johnny Fredericks, et ux. 1.34 acre for right of way. Amount of offer $41,750.00. Authorized by Commissioner McIver on May 7, 1953.

Kaylor Corner-Marion County Line Unit of the Marquam-Molalla Junction Section of the Cascade Secondary Highway

R 19929 - Owner: August N. Damm. 5.6 acres for quarry site. Amount of offer $1,075.00. Authorized by Commissioner McIver on April 14, 1953.

Unit No. 4 of the T. H. Banfield Expressway

R 20008 - Owner: Elnora A. Ruef. 8,568 square feet for right of way. Amount of offer $4,300.00. Authorized by Chairman Chandler on April 21, 1953.

R 20006 - Owner: Gorden Dudley, et ux. 4,500 square feet for right of way. Amount of offer $2,250.00. Authorized by Chairman Chandler on April 21, 1953.

Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway

R 19565 - Owner: Jennie Halberstadt. 1.153 acre for right of way and 0.907 acre for excess taking. Amount of offer $11,250.00. Authorized by Commissioner McIver on May 7, 1953.

R 19658 - Owner: Leslie M. Erickson, et ux. 0.033 acre for right of way. Amount of offer $2,430.00. Authorized by Chairman Chandler on May 13, 1953.

R 19659 - Owner: Nate B. Cozey, et ux. 0.13 acre for right of way. Amount of offer $3,220.00. Authorized by Chairman Chandler on May 13, 1953.

Joseph-Hayden Gulch Section of the Little Sheep Creek Highway

R 19852 - Owner: Margaret Pooler. 0.40 acre for right of way. Amount of offer $334.00. Authorized by Chairman Chandler on May 13, 1953.

The Chief Counsel presented for the Commission's consideration the claim of Donald McArthur, Florence McArthur, and Joyce McArthur for damages in the sum of $243.17 suffered when a motorcycle they were riding struck a slick section of the Halsey-Sweethome Secondary Highway and skidded off the highway resulting in minor personal injuries and property damages. He explained that in the afternoon of June 11, 1952, a State Highway Department paving crew had left a coating of asphalt on the surface of the highway Near M. P. 18.2. Later in the afternoon it rained and there were several accidents at this spot, including the three McArthurs. An investigation revealed that five cars and one motorcycle had skidded off the highway as a result of the slick condition at this location. In view of these facts, he recommended that the claim be allowed in the sum of $243.17. The Commission approved the recommendation.

Consideration was given to a request from the Scotts Valley School District No. 30 that they be allowed to purchase 10 acres of land lying on the easterly side of the Anlauf-Elkhead Road Unit of the Divide-Rice Hill Section of the Pacific Highway in Douglas County. The Chief Counsel explained that the School District wishes to acquire the property for the purpose of constructing a new school building upon it. He recommended that the 10 acres be sold to them at $250 an acre which he estimated would be a fair market value. In the discussion of this matter, it was pointed out that the entire tract of land consists of 24 acres, and the thought was expressed that the entire tract should be sold, in which case the price would be $200 per acre. Also discussed was the matter of putting up a fence and whether this obligation should be assumed by the School Board or the State. Action was deferred by the Commission pending a personal inspection on their trip to Southern Oregon May 20-23.

The Commission took no action upon the matter of the use of local counsel in the trial of condemnation cases.

The Commission approved the Chief Counsel's request for the dismissal

of a specific performance action against William I. Fisher, et ux, and authorized him to institute condemnation proceedings if necessary with respect to right of way on the Tigard-Onion Flat Unit of the Tigard-Newberg Section of the Pacific Highway West. The attached resolution relative thereto, marked EXHIBIT "O", which resolution is made a part hereof with like effect as though extended in full herein.

The Chief Counsel presented for the Commission's consideration the granting of a quitclaim deed to Mr. Otto King and wife for two tracts of land abutting the Pacific Highway near Talent, Oregon. He explained that no conveyance of property is being made to the Kings but the deed is being given simply to clear up a cloud on the title to the land.

He also presented for consideration the granting of a quitclaim deed to Ralph and Virginia Thomas for 0.177 acre of land at the point of connection of the State Street-South Unit of the Salem By-Pass with the existing Pacific Highway East. This deed is to clear title to the property, and he pointed out that the deed has been prepared setting forth that the same shall not constitute a waiver of any right on the part of the Commission to acquire the right of way needed nor shall it be considered in any way a determination on the part of the Commission that there is no present or future necessity of this land being used for right of way purposes. The Commission approved granting both deeds. (On the following day the papers were signed.)

A request from the County Court of Curry County for the advancement of $20,000 was considered by the Commission. The Chief Counsel explained that the 1953 Legislature had enacted a law whereby any county is authorized to apply to the State Highway Commission for an advancement of monies appropriated to counties by Section 100-129 O. C. L. A. The bill provides that monies so advanced must be used for repairing or reconstructing county roads or bridges damaged by abnormal weather conditions during the period from January 1 to February 1, 1953. The bill passed by the Legislature contained an emergency clause and was signed by the Governor on April 8 so it became effective immediately. The County Court, he stated, has submitted a certified copy of a resolution requesting the advancement of $20,000. These funds are to be reimbursed by withholding an amount from the quarterly allocation of monies to the counties out of the 19 percent highway revenues distributed to counties under the provisions of Section 100-129 O. C. L. A. He recommended that the money be advanced as requested. The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered a request from the Attorney General that assistance be granted in making a job analysis and a study of salary schedules of attorneys employed by the Highway Commission and other state agencies. The Chief Counsel explained that the Attorney General wished to undertake a study of salary schedules of all legal personnel assigned to various state agencies, the purpose of the study being to determine if salary adjustments are necessary and also to study the extent and degree of responsibility of work now being done by the respective attorneys. The Civil Service Commission will aid in making this study and will make a charge for their services, a part of which is to be paid by the State Highway Department. The Chief Counsel recommended that he

be authorized to cooperate with the Attorney General as requested and that the Highway Department pay its proportionate share. After some further discussion questioning the value of the study, the Commission approved the cooperation as requested.

The Chief Counsel presented for consideration a request from Mr. Badley that property acquired from him near Otter Crest on the Oregon Coast Highway in Lincoln County will not be used for commercial purposes for a period of 15 years. The Chief Counsel requested authority to furnish Mr. Badley with a letter to such effect. The Commission approved the request.

Consideration was given to a proposed settlement with J. C. Burns and Mary C. Burns involving 13.17 acres of land required for a borrow pit on the T. H. Banfield Expressway near Halsey Street. The State, the Chief Counsel reported, had originally offered $16,770.00, including the building of a road at an estimated additional cost of $860. The defendants, he stated, have now agreed to accept the sum of $17,200 plus $550 interest and the State to build the road. He recommended, and the Commission approved, the settlement as presented.

A report was submitted by the Engineer concerning a request from Clackamas County for improvements on State highways within the county. The report recommended:

1. Early improvement of 82d Avenue between Portland and Oregon City when funds are available.

2. Deferment of consideration concerning construction of a new bridge between Oregon City and West Linn across the Willamette pending a trial of remedial traffic measures at the Oregon City bridgehead.

3. Denial of request for widening the Pacific Highway East between New Era and Hubbard as the Portland-Salem Expressway will absorb much of the traffic.

4. Improvement of 19.04 miles on the Mt. Hood Highway between Sandy and Rhododendron as soon as funds are available.

The Commission accepted the report.

Consideration was given by the Commission to a request from the City of Klamath Falls for additional highway projects within the city as follows:

1. Completion of the new South 6th Street viaduct.

2. One-way traffic on South Fifth Street and South Sixth Street, in lieu of one-way traffic on Sixth Street and South Seventh Street leading to the Sixth Street viaduct.

3. Construction of a truck route through the industrial area utilizing South Second Street, Plum Street, Oak and Spring Streets, or some variant to that route.

The Engineer advised that there is listed in the tentative five-year program construction of a parallel bridge alongside the present Sixth Street viaduct at an estimated cost of about half a million dollars. This project is set up for the year 1955 as a Federal Aid urban project contingent upon the availability of Federal money. Concerning the request for one-way traffic on South Fifth Street and South Sixth Street, he reported that the couplet would cost $88,000 and afford a benefit quotient of 17.51 in comparison with the South Sixth and South Seventh Street couplet which would cost $55,000 and afford a benefit quotient of 38.81. In view of these findings, he recommended that the South Sixth and South Seventh Street couplet be used to connect with the South Sixth Street viaduct when built. With reference to the new truck route, he advised that several plans have been considered, varying in cost from $196,000 to $235,000. It was his recommendation that the Commission continue to refrain from adding truck routes to the highway system and maintaining them. But should construction of a truck route be approved, he recommended the route using Second, Plum, Oak and Spring Streets, costing about $233,000. The Commission deferred action on these matters pending the appearance of a delegation from Klamath Falls on the following day.

The Commission approved a report from the Engineer advising that the conditions governing awards of the following state highway contracts for which bids were received by the Commission on February 18 and April 8 and 9, 1953, have been satisfied and the contract and bond forms have been sent to the respective contractors for execution pursuant to the Commission's instructions:

1. Grading and paving the Noble Slough-Foster Section of the Santiam Highway west and east of Sweet Home in Linn County. Bids received February 18, 1953. Conditions of award satisfied April 13, 1953. Warren Northwest, Inc., contractor.

2. Grading and paving on Sandy Heights Road in Sandy in Clackamas County. Bids received April 9, 1953. Conditions of award satisfied April 13, 1953. Oregon Asphaltic Paving Company, contractor.

3. Paving project on Buford Avenue in Siletz in Lincoln County. Bids received April 8, 1953. Conditions of award satisfied April 14, 1953. Warren Northwest Inc., contractor.

4. Installation of traffic signals on the Mt. Hood Highway in Gresham in Multnomah County. Bids received April 8, 1953. Conditions of award satisfied April 14, 1953. W. R. Grasle, contractor.

5. Construction of the Yoncalla Overcrossing on the Pacific Highway in Douglas County. Bids received April 9, 1953. Conditions of award satisfied April 16, 1953. Todd Building Company, contractor.

6. Construction of the Lone Rock Bridge on the North Umpqua Road in Douglas County. Bids received April 9, 1953. Conditions of award satisfied April 16, 1953. Tom Lillebo, contractor.

7. Crow-Douglas County Line Rock Production Project on the Territorial Highway in Lane County. Bids received April 8, 1953. Conditions of award satisfied April 22, 1953. L. P. Stubblefield, contractor.

8. Grading and paving and furnish crushed materials in stockpiles on the Jacksonville Grade Unit, Provolt-Jacksonville Section of the Medford-Provolt Highway in Jackson County. Bids received April 8, 1953. Conditions of award satisfied April 24, 1953. Central Heating Company and F. L. Somers, contractor.

9. Grading and paving and construction of a concrete bridge on the Molalla Junction-Marquam Section of the Cascade Highway in Clackamas County. Bids received April 9, 1953. Conditions of award satisfied April 24, 1953. Acme Construction Company, contractor.

10. Grading and paving in Molalla on Section Street and Hart Avenue in Clackamas County. Bids received April 9, 1953. Conditions of award satisfied April 29, 1953. Acme Construction Company, contractor.

In the matter of access control on primary state highways, the Engineer presented the matter of granting commercial access on the Umpqua Highway between Scottsburg and Reedsport. He stated that the highway closely parallels the Umpqua River and there are many beautiful recreational sites. The owners of these sites, he stated, are violently protesting the sale of their access rights except for private purposes. So far in acquiring this right of way, no commercial accesses have been granted unless they are presently in existance. Owners of recreational areas adjacent to the river have insisted that they retain the privilege of developing these areas by installation of fishing lodges, boat concessions, etc. He recommended, and the Commission approved, that development of such recreational areas should not be barred where they are so ideally situated and would be extensively used by travelers upon the highway.

The Commission considered a request submitted by Mr. MacDonald of the U. S. Forest Service at the April meeting, that additional surfacing be placed on the Little Sheep Creek Secondary Highway between the north end of the existing oil and the town of Imnaha. The Engineer reported that the southerly 4.2 miles requires additional base rock and that the entire 21.5 miles requires at least $1\frac{1}{2}$" of fine crushed rock to provide for adequate maintenance. Application of the base and surfacing rock, he estimated would cost $80,000, and he recommended approval of the job as a major betterment Federal Aid Project. The Commission approved the recommendation.

A request submitted by Mr. E. V. Nelson for commercial access to his proposed prehistoric gardens adjacent to the Oregon Coast Highway near Mussel Creek in Curry County was considered by the Commission. The Engineer stated that Mr. Nelson proposes to build a garden in which would be displayed prehistoric animals which existed many million years ago. These animals would include dinosaurs, sabre-toothed tigers, three-toed horses, and other animals from the various prehistoric ages. Nothing like this, he pointed out, has ever been done in the United States and would undoubtedly prove a great attraction to tourists. The Commission deferred action on Mr. Nelson's request pending inspection of the site by the Commission on its trip through Southern Oregon May 20-23, 1953.

The Commission considered a report submitted by the Engineer concerning the location of the West Coast Telephone Company phone line along the right of way of the Umpqua Highway between Reedsport and Scottsburg. The Engineer reported that the request for a permit was made on July 14, 1952, along the northerly side from M. P. 1.91 to M. P. 2.63 and from M. P. 6.00 to M. P. 16.24. They also requested permission to rebuild existing facilities along the southerly side of the highway between M. P. 2.63 and M. P. 6.00. Upon investigation, it was found that the Douglas County Court in 1927 had issued a permit along the southerly side from Reedsport to Scottsburg, and this permit was transferred to the Highway Commission when the road was made a state highway. Accordingly after the matter had been further investigated, the phone company had been advised that its request had been denied and that it would be necessary to reconstruct its line along the southerly side of the highway. Action on this matter was deferred by the Commission pending the appearance of a delegation representing the West Coast Telephone Company on the following day.

The Engineer discussed with the Commission a plan to eliminate existing traffic hazards at Sylvan on the Sunset Highway in West Portland. Since the appearance of the delegation from Sylvan at the last Commission meeting, a further study has been made, he stated. It was found that to construct an improvement that will satisfactorily care for traffic until such time as the ultimate depressing of the highway is effected will cost about $87,000. Of this $87,000, approximately $41,000 will be utilized in the ultimate planning so that the actual cost of the temporary work that will eventually be lost is $46,000. The cost of depressing the highway with the overcrossing structure at Skyline Boulevard, he estimated at $500,000. This cost will be reduced by about $37,000, represented by the change in Humphrey Boulevard. Commissioner McIver stated that he had talked to several residents in this area who indicated a desire that only permanent improvements be performed at this time. He pointed out that more traffic is developing on the highways, a vigorous building program is in the making at Cedar Hills, and there is also the possibility of changing the military airport which may considerably alter the traffic picture on the highway. The Commission deferred action on the proposed construction.

Consideration was given by the Commission to a request submitted by the Portland Chamber of Commerce delegation regarding development of Rooster Rock Park along the Upper Columbia Highway. The Engineer reported that following the appearance of the delegation at the April meeting, an investigation had been made to determine the cost of developing the park facilities and the cost of the access road. Development of the park, he stated, is estimated to cost $50,000 and to provide the access road from the highway to the park is estimated to cost $15,000, making a total estimated expenditure for the initial development of $65,000. He recommended that this expenditure be considered in formulating the 1954 budget. The State Parks Superintendent stated that the project is worthy, and he recommended that development be made. The Commission approved the recommendations, the work to start in 1954.

The Commission considered a report submitted by the Engineer con-

cerning a request to be submitted by the Wheeler County delegation on the following day for additional grading and surfacing work on the Shaniko-Fossil Secondary Highway. The Engineer reported that the cost to complete the highway to a graveled surface would be about $1,290,000. At the present time, the average daily traffic, he stated, is considerably under one hundred vehicles daily. He pointed out that $304,300 has been expended to date for grading and gravel surfacing on the highway, and there is in next year's secondary Highway program a tentative allocation of $130,000. Action on this matter was deferred by the Commission pending the appearance of the delegation from Wheeler County on the following day.

A request from the City of Independence was considered by the Commission for state assistance in building of a bridge over Ash Creek on Ash Street in Independence. The Engineer explained that the city has no engineering force to handle this work, and they desire assistance in the design of the structure, the receiving of bids for construction, and supervision by the State after the contract is let. They have agreed, he stated, to reimburse the State for all costs incurred in such work from money allocated to the city from State highway revenues and have also agreed to deposit with the State a certified check in the amount of the estimated cost of the work. He recommended, and the Commission approved, doing the work as outlined.

The Commission considered a request submitted by the Powder River Sportsmen's Club of Baker that the State provide a parking area, picnic and restroom facilities adjacent to the Unity Reservoir, on the Baker-Unity Highway in Baker County. The Engineer reported that an investigation disclosed that the reservoir is much used for fishing, and there is no place to park, with the result that cars park along the shoulders which are narrow, thus creating a hazard. Construction of the facilities requested, he stated, would be almost entirely for the benefit of fishermen as the only available site for such facilities is a considerable distance from the highway. It was his opinion that construction of these facilities might establish a far-reaching precedent, and it appeared there should be some end to the services that can be furnished from highway users' funds. He suggested that it might be more appropriate for the State Game Commission to construct the facilities requested. The Commission deferred action in this matter for further study as to the outcome of the fish planting program and the use of the area by fishermen and motorists.

A petition was considered from the Umpqua Highway Association requesting early improvement of the old Pacific Highway from Drain to Anlauf and from Drain two miles south. The Engineer reported that this section of the old Pacific Highway does have inferior alignment and is of narrow width, but the new Pacific Highway being constructed east of Drain through Scotts Valley will materially relieve traffic on the existing highway. He suggested that the old highway be given a trial to determine its ability to handle the decreased traffic when the new highway section is opened. He also pointed out that no money is available for improvement at the present time. The Commission accepted the suggestion.

The Commission gave consideration to a petition from residents adjacent to the Eddyville-Nashville Secondary Highway requesting the paving of the

highway from Nashville to its junction with US 20, a distance of approximately twelve miles, with the work to be done in 1953. The Engineer advised that an investigation disclosed that the roadbed considered is quite narrow with a thin gravel surface. Before the road could be oiled or paved, it would be necessary to widen the roadbed and add considerable base rock. Performance of this work with the paving requested, he estimated would cost at least $300,000. The average volume of traffic over the section, he pointed out, is only about ninety vehicles per day, which he felt did not justify the expenditure that would be required to improve the highway as requested. He recommended that improvement be deferred until there is more traffic, and other projects having a higher priority have been taken care of. The Commission approved the recommendation.

Consideration was given by the Commission to a request from the City of Huntington for construction of a sidewalk between what is known as the "old town" and the "main part of town". The Engineer advised that the city contends that an old wooden sidewalk was torn out when the highway was rebuilt about 1937 and that the State had promised to rebuild this walk. A diligent search, he stated, has been made and no record can be found of any commitment to build the sidewalk nor can any record be found of the old wooden sidewalk referred to. As it has been, and is the policy of the Highway Commission not to build sidewalks within the corporate limits of cities and towns, he recommended, and the Commission approved, that the request be denied.

Consideration was given to a resolution submitted by the City of Springfield requesting the completion of the South "A" Street project by construction of a second bridge over the Willamette River at Springfield. The petition pointed out the large volume of traffic over the present two-lane bridge and the increasing frequency of accidents on the structure. The Engineer reported that there is no money available now for the project, but funds have been tentatively set up in the third year of the Commission's proposed five-year program. No action was taken.

The Commission considered requests from the Umatilla County Court and the Board of County Commissioners of the County of Walla Walla, Washington, for improvement of a county road extending from Vansycle in Umatilla County to the Washington State line thence to a connection with the Washington State Highway system at Wallula. The Engineer recalled that a similar request had been considered by the Commission in 1949 at which time it was estimated that such an improvement would cost $432,000. The project in Oregon, he stated, is at present a Umatilla County road not on the state highway system, and on which the estimated daily traffic is about fifty vehicles. The proposed highway, he added, would not render any improvement over existing highways as far as McNary Dam is concerned, and furthermore traffic from the east can readily reach the McNary Dam area via the Athena-Holdman Secondary Highway combined with US 395. Commissioner Reynolds pointed out that wheat farmers feel it would be an advantage to them in that it would be a good haul to the Columbia River where the grain could be placed on barges. Also he felt that development of atomic plants at Richland, Washington, would have a bearing on the need for the highway. After further discussion, the Com-

mission instructed the Engineer to contact Washington State road officials as to how they feel about developing the proposed roadway in Washington, and if they indicated a willingness to conduct such development that a reconnaissance survey of the route be made in Oregon.

A request was considered from Mr. C. R. McCoy, Treasurer of the Parkdale Grange for an investigation concerning improvement of the highway approach to the bridge over the east fork of Hood River on the Mt. Hood Highway near Dimmick State Park. An investigation has been made, the Engineer reported, disclosing very little improvement could be made unless the highway were completely relocated and a new bridge constructed. The existing approach, he stated, is on a 36-degree curve and the best that could be obtained without building a new bridge would be a twenty-four degree curve, which reduction he felt would not justify the estimated cost of $12,000. Traffic over the highway is approximately six hundred vehicles daily; not an excessive amount for the existing type of roadway. In view of these conditions, he recommended that no improvement be attempted at this location until funds are available for a relocation. The Commission approved the recommendation.

The Commission also considered a request from a Mr. Reade and a Mr. Strecker of Spray, Oregon, for oiling of the Heppner-Spray Highway. The Engineer reported that the highway carries an average of about twenty vehicles per day, which volume is far below that ordinarily required for oiling. He, therefore, recommended, and the Commission approved, that the request be denied.

A petition was considered by the Commission from residents of the Sumpter area protesting the resurfacing of the Sumpter Valley Highway with crushed gravel and requesting that the contract be cancelled, and the money involved be applied to extending the oil surface. The Engineer reported that the application of the $35,000 set up for crushed gravel would permit construction of not more than a mile of oiled highway, and he felt it was not feasible to undertake such a small section for construction. When further improvement is made, it should be done when funds are available to construct a section at least three or four miles in length. The placement of the crushed gravel, he stated, is necessary to maintain the highway in suitable condition and is not intended as an ultimate solution. He recommended that the petitioners be advised that it is not practical to cancel the existing contract, and that further improvement will be considered when funds are available. The Commission accepted the recommendation.

The Engineer reported that surveys for relocations and improvements of various state highways had been completed. He exhibited maps showing the proposed locations and explained details. He recommended adoption of the following surveys:

1. Relocation of the Monroe Section of the Pacific Highway West in Benton County.

2. Survey for the Elbow Lake-Gardiner Section of the Oregon Coast Highway in Douglas County.

3. Relocation of the Clatskanie-Delena Section of the Columbia River Highway in Columbia County.

4. Relocation of the Goshen-Divide Section of the Pacific Highway in Lane County.

5. Relocation of the Frankport-Euchre Creek Section of the Oregon Coast Highway in Curry County.

The Commission approved the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "M", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties needed as right of way in connection with various highway improvements, or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

South Unit of the Elbow Lake-Gardiner Section of the Oregon Coast Highway

	Recommended Offer
R 19652 - Crown Zellerbach Corporation Right of Way (Douglas) Parcel No. 1: 1.4 acres Parcel No. 2: 3.6 acres	*
R 19653 - Margaret B. Sparrow Right of way (Douglas) 75.5 acres	*
R 19655 - Gardiner Lumber Company Right of way (Douglas) Parcel No. 1: 9.35 acres Parcel No. 2: 9.78 acres	*

The Commission approved the request by adoption of the attached resolution relative thereto marked EXHIBIT "N-8", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer requested authority to conduct a reconnaissance survey for the relocation of the Oregon Coast Highway from Neahkahnie to Brighton in Tillamook County. He explained that routing of the highway along the sand spit next to the ocean and across the small neck of Nehalem Bay had long been contemplated to eliminate the present circuitous route via Wheeler. The County owns a considerable amount of property and is agreeable to transferring to the State at nominal cost any property needed for right of way. Although construction of the section is probably several years in the future, he felt that a reconnaissance survey should be made now to be followed at a later date by an aerial survey. A reconnaissance survey

he estimated to cost $1,500, and the aerial survey was estimated to cost between $4,000 and $5,000. He recommended that the reconnaissance survey be authorized at this time with consideration to be given later to the aerial survey. The Commission approved the authorization.

The Commission gave consideration to a request submitted by the Engineer for the expenditure of $40,000 to construct a bridge at Wolf Creek on the Pacific Highway in Josephine County. The Engineer explained that in 1947, a triple ten-foot by ten-foot concrete box culvert was installed at right angles to the roadway. It has now developed that during each flood period, large amounts of gravel are deposited in the culverts, restricting the waterway and presenting the danger of becoming completely closed which would result in heavy damage to adjacent property. He estimated the cost of the structure at $40,000 and recommended that it be constructed this coming summer from bond funds allocated to the Pacific Highway. The Commission deferred action on this matter pending an inspection by the Commission on their trip through Southern Oregon May 20-23.

Attention was given by the Commission to a proposed change in construction plans which would eliminate new construction on the Brushes Creek Section of the Oregon Coast Highway in Curry County. The Commission deferred action on this matter until they could inspect the section personally on their trip through Southern Oregon May 20-23.

The Commission considered and approved the following agreements covering the financing and maintenance of county road projects on which contract work is to be performed:

1. Sunset Highway-Multnomah County Line and McDaniel Road-Multnomah County Line project in Washington County.

2. Holland-Loop County Road project in Josephine County.

3. Cottonwood Creek and West Side County Road Project in Lake County.

4. Thompson Creek County Road Project in Jackson County.

5. Sprague River County Road Project in Klamath County.

6. Youngs River Loop County Road Project in Clatsop County.

7. Clackamas-Boring County Road Project in Clackamas County.

8. Gilbert River-Sauvie Island Road and Reeder Road-Willamette River Sections of Multnomah County roads.

(These agreements were signed by the Commission on the following day.)

Improvement of the Grants Pass-Murphy Section of the Williams Secondary Highway in Josephine County was considered by the Commission. The Engin-

eer recalled that at the previous Commission meeting allocation of $150,000 had been withdrawn from this project because this amount was not sufficient to improve the section to Bureau of Public Roads standards. He felt that the expenditure of $390,000 which was the estimated cost if the section were brought up to Bureau of Public Roads standards was not justified, but it was also his thought that the section should be improved by minor widening and the application of a medium type oil surface. He pointed out that traffic on this section is quite heavy, being 3,500 vehicles at the northern terminus and 1,800 at the southern terminus, with an average of 2,650. To keep faith with Jackson County and to effect a satisfactory improvement for the traffic involved, he recommended that improvement of this section be undertaken as a State project at an estimated cost of $110,000. The Commission approved the recommendation.

Consideration was given by the Commission to a request from the City of Portland for additional widening of Barbur Boulevard immediately south of its junction with Harbor Drive in Portland. The Engineer reported that there is in the 1953 budget an approved item of $6,200 for widening at this location to provide an additional traffic lane. The City, he stated, has now requested that the widening be extended a short distance to the south which would cost approximately $3,000 additional plus the cost of constructing a retaining wall for another $3,000. The City has agreed to pay half of the additional cost which would be about $3,000. He recommended, and the Commission approved, the request with the City to perform the work and bear the costs in excess of $9,000.

The Commission discussed briefly with the Engineer the programming of Federal Aid Primary, Urban, and Secondary funds. The Commission took no action on this proposed programming, but instructed the Engineer to provide additional copies for Commissioner Reynolds and Commissioner McIver for consideration on the Commission's trip through southern Oregon, May 20-23.

The Engineer requested authority to enter into a cooperative agreement with Interstate Theater Equipment Company in the construction of a new entrance to their out-door theater adjacent to the Pacific Highway West approximately one mile east of Tigard. He stated that access to the theater would be from an existing county road known as Red Rock Road. This road, however, intersects the State highway at an angle creating a critical turning movement which would be very hazardous to highway traffic. Investigation, he stated, has disclosed that it will cost approximately $13,500 to construct a suitable access of which amount $7,500 would be for construction costs, $3,200 for traffic signals, and $2,800 for right of way. The Theater Company recognizes that this intersection is hazardous and has agreed to cooperate to the extent of paying $10,000 towards the cost of construction. This amount, he stated, is a much larger percentage than any other theater company has agreed to pay, and as access cannot be prohibited to the existing county road, he recommended that an agreement be entered into with the Theater Company whereby it is to pay $10,000 to be deposited in advance, the State to pay the balance of the costs estimated at $3,500 as a minor betterment project. The Commission approved the recommendation.

The Engineer requested authority for the expenditure of $4,600 for the replacement of four old type corner-installed signal installations at the intersections of 6th with Willamette and Olive Streets, and 7th Street with Willamette

and Charnelton Streets in Eugene. The City officials of Eugene, he explained, are anxious to replace the corner installations with overhead signals as they receive many complaints from people who run through the signals because of unawareness. The estimated cost for the four signals involved is $9,200 which would result in a cost of $4,600 each to the State and City. He recommended that the installations be replaced at the four intersections with the City to bear half the costs. The Commission approved the recommendation.

A request was made by the Engineer for an additional expenditure of $10,000 as the State's share in the cost of the Western Association of State Highway Officials test road section at Malad City, Idaho. The tests, he stated, were started last fall and ran until November 27 at which time operations ceased because of a frozen road bed. Tests were started April 1 of this year and will continue until freezing weather again sets in. It was his thought that by that time most of the tests considered necessary will have been obtained but to continue the operations to that time will require approximately $100,000 in additional funds which means that Oregon's share would be $10,000 which he recommended be paid. The Commission approved the expenditure with the stipulation that no further authorization would be granted for this project.

The Commission considered a proposed agreement with the City of Portland for construction of an overcrossing and connec tions to the T. H. Banfield Expressway at 39th Street. The Engineer explained that this plan meets objections voiced by the City to the original plan for a connection at 37th Avenue. The additional cost, he estimated, would be about $260,000. The City, however, has agreed to contribute $75,000 payable $25,000 each year in 1953, 1954, and 1955, plus the acquisition of right of way on 39th Avenue, estimated to cost $46,500. He recommended, and the Commission authorized, the preparation of the agreement.

The Commission considered the status of Highway Contract No. 3756 wherein Mr. E. L. Kennard is the contractor, and upon being advised by the Engineer that Mr. Kennard refuses to complete the performance called for in the said contract, and based upon the recommendation of the Engineer and the Chief Counsel, unanimously declared the contractor, Mr. Kennard, to be in default and instructed the Chief Counsel to take all necessary action against Mr. Kennard and his surety, The Travelers Indemnity Company, to the end that they be held responsible for all damages suffered by the State by reason of said default.

A proposed agreement with the City of Hood River concerning Jaymar Road was considered by the Commission. The Engineer recalled that under the terms of a previous agreement approved by the Commission but not signed by the City of Hood River, the City had consented to level a sawdust pile on City property and cover the same with 6 inches of soil. The second item on this agreement pertained to the paving of Jaymar Road. It was originally estimated that the paving of the road would cost $3,800,and the City was to place rock surfacing on the road at its expense prior to the paving which was to be done on a 50-50 basis. It has now been determined that the cost of the rock which the City will need to place is approximately $1,000, and the City requests that it be given credit for the placement of the rock in the amount of $1,000 and then pay to the State $900 in cash, the State to bear the cost for the paving. As the State was able to save approximately $18,000 by leveling off the sawdust pile rather than by hauling it away, he recommended that a

new agreement be entered into with the City whereby the City would place at least $1,000 worth of crushed rock on the road and pay the State $900 in cash with the State to make arrangements for paving the street. The Commission approved the recommendation.

The Commission gave consideration to the extension of the Havana-Helix Secondary Highway from its connection with the old section of the Oregon-Washington Highway southerly about 0.7 mile to the newly constructed section of the highway. Commissioner Reynolds stated that in company with the Umatilla County Court they had inspected the proposed connection, and it appeared that it could be made at a reasonable cost. In the discussion following, it was pointed out that there is a narrow bridge involved and a bad railroad grade crossing. No action was taken by the Commission at this time pending an inspection of the location on a trip into eastern Oregon this summer.

The Engineer reported that Contracts Nos. 3664, 3709, 3751, 3766, 3775, 3780, 3786, 3787, 3789, 3798, 3821, 3822, and 3827-A for construction of State Highway projects have been completed according to the requirements of the contracts or modifications thereof and said projects are now ready for acceptance. After due consideration, the Commission by unanimous vote, accepted said contracts by adoption of the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that the following list of cities and towns have fulfilled the legal requirements for expenditure of State Tax Street Funds that have accrued to them during the second six-month period of 1952, and that the plans for the improvements proposed to be financed with such funds have been examined and found satisfactory:

Arlington	$2,274.31
Butte Falls	1,233.30
Clatskanie	2,987.11
Cornelius	3,308.69
Falls City	2,827.97
Gearhart	1,883.10
Lafayette	2,194.74
Manzanita	1,123.89
Maupin	1,034.38
Nehalem	895.14
Ocean Lake	2,320.73
Phoenix	2,473.23
Waldport	2,284.26

The Engineer recommended approval of the plans by the Commission. The Commission approved the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "E-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that the towns of Glendale, Talent, and Tualatin have fulfilled the legal requirements with respect to expenditures of

State Tax Street Funds that have accrued to them during the first six-month period of 1952 and that the plans for the improvements proposed to be financed with such funds have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission approved the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "E-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer then reported that the City of Richland has fulfilled the legal requirements with respect to expenditure of State Tax Street Funds that accrued to it during the second six-month period of 1951 and that the plans for the improvements proposed to be financed with such funds have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission approved the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "E-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to a proposed expenditure for widening and installation of asphalt markers with reflectorized sight-pasts at the intersection of the realigned Wilson River Highway Connection with Pacific Avenue near the west city limits of Forest Grove. The Engineer reported that there had been numerous complaints concerning this intersection and an investigation had been made. Traffic on the Wilson River Highway approaches at rather high speeds and results in a hazard for westbound traffic on Pacific Avenue which must cross inbound traffic on the highway. Also the new Forest Grove High School is located just west of this intersection which further complicates conditions. It was his thought that some minor widening and the installation of raised asphalt markers with the reflectorized sight-posts at an estimated cost of $2,500 would eliminate this hazard, and he recommended that the work be approved as a minor betterment item. The Commission approved the recommendation.

Reversing of stop sign installations at the intersection of the Wapinitia Highway and The Dalles-California Highway was considered. The Engineer explained that in 1943, the Commission had stipulated that traffic on the Wapinitia Highway need not stop at its intersection with The Dalles-California Highway. Since the opening of the Warm Springs Highway, the traffic has materially decreased on the Wapinitia Highway and has increased on The Dalles-California Highway. He felt that it would be in the best interest of the motoring public for traffic on the Wapinitia Highway to stop before entering The Dalles-California Highway, and he so recommended. The Commission accepted the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to a request submitted by the Yaquina Head Grange No. 934 of Agate Beach for a pedestrian crossing lane across the Oregon Coast Highway in Agate Beach, and for the establishment of a restricted speed zone. The Engineer reported that a careful investigation had been made, the results of which disclosed that the accident rate in the vicinity of Agate Beach is higher than the average, being 9.59 accidents per million vehicle miles compared to an average accident rate of 4.96 accidents per million vehicle miles. The in-

vestigation also disclosed that if a pedestrian crosswalk was to be marked between the Post Office and the Lighthouse Road at Ocean Avenue, it would be used by very few people, would create a false sense of security in the mind of the pedestrian, and would increase rather than decrease the hazard to the pedestrian. He, therefore, recommended that the request for the crosswalk be denied, and also recommended that a 50-mile per hour speed zone be established on the Oregon Coast Highway between M. P. 149.72 and M. P. 150.16. The Commission approved the recommendations , by adopting the attached resolution relative thereto, marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

To reduce the accident frequency at both ends of the bridge crossing China Camp Marsh between Coos Bay and Coquille on the Oregon Coast Highway. The Engineer recommended, and the Commission approved, the establishment of a 25-mile per hour speed zone between M. P. 269.24 and M. P. 270.36. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to a request from Marion B. Winslow, Superintendent of Schools in Coos Bay, for a reduced speed zone on the Oregon Coast Highway between the south city limits of Coos Bay and a point south of the Coos River Highway Junction. The Engineer reported that an investigation had been made disclosing that the accident rate in this section was considerably higher than the average accident rate for suburban primary highways. In view of the evidence disclosed in the investigation, he recommended the establishment of a 40-mile per hour speed zone on the Oregon Coast Highway between the south city limits of Coos Bay at M. P. 256.70 and the south entrance to the Bunker Hill School at M. P. 257.24. He also recommended that the existing "School Zone Be Careful" sign which is located at M. P. 257.32 be moved northward to M. P. 257.22. The Commission approved the recommendations by adopting the attached resolution relative thereto marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that the State Speed Control Board at its meeting May 6, 1953, had considered and approved the establishment of speed zones in the City of Empire on the Empire-Coos Bay Highway and had also established speed zones on the Three Mile Lane Secondary Highway in the City of Dayton. He pointed out that the State Speed Control Board has jurisdiction within the cities to establish speed zones, and in these two cases, a parallel action should be taken by the State Highway Commission to establish speed zones beyond the city limits. Such action, he stated, is deemed necessary due to the extent of roadside culture beyond the city limits of the towns involved. He, therefore, recommended, and the Commission approved, the establishment of a 40-mile per hour speed zone between the southeast city limits of Empire at M. P. 0.47 on the Empire-Coos Bay Highway and Bruel street at M. P. 0.60. He also recommended, and the Commission approved, the establishment of a 40-mile per hour speed zone on the Three Mile Lane Secondary Highway from a point 0.07 mile west of 9th Street at M. P. 6.32 to the west city limits of Dayton at

M. P. 6.66, and a 35-mile per hour speed zone from the east city limits of Dayton at M. P. 7.15 to the east end of the Yamhill River Bridge at M. P. 7.40. The Commission thereupon adopted the attached resolutions relative thereto marked EXHIBIT "J-1" and EXHIBIT "J-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered a request submitted by C. G. Reiter, City Manager of Albany, in behalf of the Albany Timber Carnival Association for a permit to use Waverly Lake Park in Albany in conjunction with the annual timber carnival scheduled for July 2, 3, and 4, 1953. The Engineer recalled that the Commission has granted use of the park to the Association for the past several years, and it has cooperated very well with the Department and the State Police in compliance with the terms and conditions of the permit granted to them and in the handling of traffic. He recommended, and the Commission approved that they be allowed to use the park as requested under the terms of a permit to be issued to them.

The Engineer requested that authority be granted him to make application to the U. S. War Department for a permit to construct a bridge across the Columbia River between Vancouver and Portland. He explained that the states of Oregon and Washington have each passed legislation necessary to permit construction of this bridge, and one of the first steps to be taken is the securing of the permit from the U. S. War Department. The Commission granted the authority as requested.

Consideration was given to objections voiced in a letter from the Port Orford Chamber of Commerce to the location of the truck scales in Bandon. They pointed out that trucks loading in Curry County are weighed in Bandon in Coos County, and citations for overloads are issued at Bandon, with the resulting revenue accruing to Coos County. They felt that there should be a scale located in Curry County. The Commission instructed the Engineer to make investigation for a truck scale site in Curry County.

The Engineer recommended, and the Commission approved out-of-state travel expenses for the following personnel:

1. W. C. Williams, Assistant State Highway Engineer, to attend AASHO meeting in Chicago on May 27, 1953.

2. William F. Lieske, Radio Engineer, to attend a meeting of the Association of Police Communication Officers on radio frequency allocations in Seattle, Washington, on May 13 and 14, 1953. Estimated cost $25.

3. F. B. Crandall, Traffic Engineer, to attend meeting of AASHO on revision of manual on Uniform Traffic Control Devices on June 8, 9, and 10, 1953, and a board meeting of the Institute of Traffic Engineers on June 11 and 12, 1953, in Washington, D. C. Estimated cost $365.

4. C. W. Enfield, Chief Counsel, and Forrest Cooper, Assistant

Construction Engineer, to attend the annual meeting of the National Directors of American Right of Way Association in Sacramento on June 20, 1953. Estimated cost $80 each.

The Commission approved a proposed itinerary for their trip through southwestern Oregon May 20-23, 1953. The scheduled trip is to leave Portland on May 20, stopping at Roseburg overnight. From Roseburg on May 21, via the Redwood Highway to Crescent City and north on the Oregon Coast Highway to Gold Beach. On May 22 from Gold Beach to Coquille and Coos Bay. On May 23 from Coos Bay to Portland. Action was deferred on suggested itineraries for trips to be taken by the Commission during the coming summer.

A request from the Clatsop County Court for return to the county of an old bridge over Nehalem River on the Nehalem Secondary Highway was considered by the Commission. The Engineer reported that a new bridge is being constructed on the highway at M. P. 30.7, and the old bridge which is being dismantled, is not suitable for replacement on the highway system. The old structure, he added, was originally built and paid for by Clatsop County, and past practices in such instances have been to turn the old structure over to the county that paid for it. He recommended, and the Commission approved, that the old structure be turned over to the County at the site when the new bridge is opened to traffic.

Consideration was also given to a request from the U. S. Army Engineers for return to them of the old bridge on Fall Creek on the Alsea Highway. The Engineer stated that the existing structure originally constructed by the U. S. Government is a narrow, steel span not suitable for use on the State Highway system. The Army Engineers, he stated, have requested that the bridge be turned over to them for use at The Dalles in connection with construction of The Dalles Dam. As the bridge has practically no value to the state, he recommended that the old bridge be turned over to the U. S. Government at the site when the new bridge is opened to traffic. The Commission accepted the recommendation.

The Commission considered and approved, upon the Engineer's favorable recommendation, an abandonment agreement with Clackamas County, whereby the County agrees to take over and maintain as a county road the old section of the Molalla Junction-Marquam Section of the Cascade Secondary Highway in Clackamas County when the new section has been completed and opened to traffic. (The agreement was signed by the Commission on the following day.)

The Engineer also recommended, and the Commission approved, an abandonment agreement with Wallowa County whereby the county agrees to maintain as a county road the old section of the Joseph-Sheep Creek Hill Section of the Little Sheep Creek Secondary Highway when the new section is completed and opened to traffic. (The agreement was signed the next day)

The Engineer also recommended, and the Commission approved, an agreement with Columbia County and the City of Clatskanie providing for disposal to the County and to the City of Clatskanie the old route of the Clatskanie-Delena Section of the Columbia River Highway when the new section has been

completed and opened to traffic. (The agreement was signed the next day)

The Engineer requested classification of the Starkey Secondary Highway in Union County from an unclassified status to the status of a Group I highway. Test runs, he stated, have been made over the highway indicating that 60-foot truck-trailer combinations can operate on the proper side of the center line. The Commission approved the request.

The Engineer reported that reduced load limits previously placed on certain highways had been removed as conditions necessitating the reduced limits had changed so that they were no longer required. He requested that the Commission confirm his action in removing the reduced load limits on the following state highways:

1. Medical Springs Secondary Highway, No. 340.

2. Ochoco Highway, No. 41.

3. Weston-Elgin Secondary Highway, No. 330.

The Commission approved the Engineer's request by adopting the attached resolution relative thereto, marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered a request submitted by the United States Army Engineers for authority to construct a parking area at Government expense adjacent to the Lookout Point Dam on the Willamette Highway. The Engineer explained that the parking area is proposed to be constructed on property owned by the Southern Pacific Company and the State Highway Department. In two years time, he stated, the area constructed at Government expense is to be turned over to the State for maintenance. He felt that the proposed plan is desirable in providing a place for motorists to stop and view the dam site. He, therefore, recommended that the Government be given permission to enter on the State's property, such permission to be covered by a formal permit or agreement as soon as such can be prepared. The Commission approved the recommendation.

The Commission approved a report submitted by the Acting Secretary, showing papers signed in behalf of the Commission during the period from April 6, 1953 to May 15, 1953.

The Commission gave consideration to the following matters of unfinished business appearing on the Secretary's summary dated April 27, 1953:

1. Car parking problem on U. S. Highway No. 30 at Koberg Beach near Hood River. The Engineer stated that his report is not yet ready. The item is to remain on the list of unfinished business.

2. Request of Clackamas County delegation for improvement of 82d Avenue, Portland to Oregon City; (2) construction of a new bridge between Oregon City and West Linn; (3) widening US 99E from New Era to Hubbard and (4) widening of the Mt. Hood Highway east of Sandy.

This matter, the Engineer stated, was covered in his report on this subject made earlier in the day. The item was ordered deleted from the list of unfinished business.

3. Proposed additional parking area at Wallowa Lake Park. Action on this matter was deferred pending an inspection by the Commission on their trip through Eastern Oregon this coming summer. The item was ordered deleted from the list of unfinished business and to be considered as new business when the matter again comes up.

4. Proposed development at Rooster Rock Park on the upper Columbia Highway: This matter was previously considered in the Engineer's report made earlier in the day. The Commission instructed that the item be deleted from the list of unfinished business.

5. Granting of access to the highway in North Powder for a service station and motel. The Engineer reported that action has been taken to provide commercial access. The Commission ordered the item deleted from the list of unfinished business.

6. Policy regarding installation of school crossing pedestrian signals. The Commission instructed that such installations be presented to the Commission for consideration as and when they arise. The item is to be deleted from the list of unfinished business.

7. Proposed hearing regarding the route of the North Santiam Highway as it affects the town of Stayton. The Engineer stated that his report is not yet complete, but he felt that it would be ready prior to the June meeting. This item is to remain on the list of unfinished business.

8. Proposed traffic improvements in the Sylvan area on Canyon Road in West Portland, The Engineer stated that action on this had been taken by the Commission in conjunction with his report submitted earlier in the day. The item was ordered removed from the list of unfinished business.

9. Straightening and widening on Little Sheep Creek Secondary Highway. This matter was previously covered by the Engineer's report submitted earlier in the day. The item was ordered deleted from the list of unfinished business.

10. Request of August Uehlinger to haul logs between Viento Park and Cascade Locks on the Columbia River Highway. The Engineer stated that he would have a report for the Commission on the following day. (See ahead for Engineer's report and Commission action.)

The Commission confirmed the dates of June 25 and 26, 1953 as dates for the next regular meeting of the Commission to be held in the Green Room of the Imperial Hotel, Portland. They also approved the date of July 22, 1953, in the Imperial Hotel as the date for a meeting to take action concerning the sale of

highway bonds authorized by the 1953 legislature. * The Commission also set the dates of August 6 and 7, 1953, as the date for the following Commission meeting to be held in the Green Room of the Imperial Hotel in Portland.

---

* FOOTNOTE: It was the Commission's expressed thought that all of the bonds as authorized by the legislature should be sold. They instructed that a resolution be prepared authorizing preparation of the necessary documents for the bond sale, and that an opinion on the proposed sale be obtained from Mr. Shuler in advance so that these matters can be taken care of before July 22.

A letter from Terry D. Shrunk, Multnomah County Sheriff, was considered citing hazards in the vicinity of the Union Avenue Amphitheater on US 99 caused by parking on Union Avenue. The Engineer reported that an investigation had been conducted disclosing that vehicles park on both sides of the highway, particularly on Sundays when races are held, resulting in considerable pedestrian movement and congestion. In order to provide safety for the traveling public, the Engineer recommended that parking be prohibited on Union Avenue from M. P. 4.66 to M.P. 5.81, on the "Y" Line from Engineer's Station 0+00 to Engineer's Station 9+37 where the "Y" Line intersects the "S" Line, from Engineer's Station 36+50 to Engineer's Station 55+00 where the "S" Line intersects the Pacific Highway East. The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "L", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed with the Engineer the bids received for highway construction at the morning session, and at 4:30 p.m., Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's action being by unanimous vote:

"Construction of a bridge over Mill Creek on the Alsea Highway in Benton County: Four bids were received for this project, the low one being submitted by C. J. Eldon of Portland at $35,520.00. The Commission has awarded the contract to the low bidder, C. J. Eldon.

"Grade widening and paving on the Miles Crossing-Johnson Road Section of the Youngs River Loop County Road in Clatsop County: Three bids were received for this project, the low bid being submitted by United Paving Company, Edmonds, Washington at $93,734.00. The contract has been awarded to the low bidder, United Paving Company.

"Grading and construction of a concrete bridge on the Clatskanie-Delena Section of the Columbia River Highway in Columbia County. Seven bids were received on this project, the low bid being submitted by Kuckenberg Construction Company, Portland at $755,270.00. The bid of Kuckenberg Construction Company in the sum of $755,270.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Paving Project (Columbia Boulevard and South First Street) in St. Helens, Columbia County: Parker-Schram Company, Portland, submitted the low bid for this project out of seven bids submitted. The bid of Parker-Schram Company in the sum of $24,505.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the City of St. Helens and provision has been made by said City of funds for the cost of the project in excess of $15,000, which amount will be advanced by the State.

"Paving (Michigan Avenue) in the city of Empire, Coos County: Porter W. Yett, Portland, submitted the only bid for this project. The Commission has rejected the bid as being too high.

"Paving on Ash, Second, and Third Streets in the City of Myrtle Point, Coos County: Porter W. Yett submitted the only bid received for this job. The Commission has rejected the bid as being too high.

"Grading and paving on the Brush Creek-Frankport Unit of the Rocky Point-Gold Beach Section of the Oregon Coast Highway in Curry County: Seven bids were received for this job, the low one being submitted by Peter Kiewit Sons' Company, Longview, Washington at $984,239.00. The bid of Peter Kiewit Sons' Company in the sum of $984,239.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of a reinforced concrete viaduct over the Pacific Highway near Winchester in Douglas County: Seven bids were received for this project, the low one being submitted by Erick Enquist, Troutdale, at $33,076.00. The Commission has awarded the contract to the low bidder, Erick Enquist.

"Construction of a reinforced concrete viaduct over the Community Hospital Road on the Pacific Highway in Roseburg, Douglas County: R. E. Meade and Company, Grants Pass, submitted the low bid for this job at $50,671.00. Four other bids were also received. The Commission has awarded the contract to the low bidder, R. E. Meade and Company.

"Grading and paving on the Fields Creek-Mt. Vernon Unit of the Dayville-Mt. Vernon Section of the John Day Highway in Grant County: Sixteen bids were received on this project, the low one being submitted by J. M. Arenz, Portland, at $332,061.00. The bid of J. M. Arenz in the sum of $332,061.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading and paving on the Mt. Vernon-John Day Section of the John Day Highway in Grant County: Sixteen bids were received for this project, the low bid being submitted by J. M. Arenz, Portland at $342,813.00. The bid of J. M. Arenz in the sum of $342,813.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau

of Public Roads.

"Construct three concrete bridges on Thompson Creek Road, south of Applegate in Jackson County. Central Heating Company and F. L. Somers, Eugene, submitted the low bid for these structures at $54,076.00. Four other bids were also received. The bid of Central Heating Company and F. L. Somers in the sum of $54,076.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the Bureau of Public Roads and Jackson County has made provisions for the deposit of $12,200.00 which is said County's share of the cost based upon the low bid.

"Application of base rock and oil on the Maddock Corner-West Side Section of the Cottonwood Creek and West Side County Roads, west of Lakeview in Lake County: Peter Kiewit Sons' Company, Longview, Washington, submitted the only bid for this project at $86,410.00. The bid of Peter Kiewit Sons' Company in the sum of $86,410.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the Bureau of Public Roads and Lake County has made provisions for the deposit of $24,400.00, which is said County's share of the cost based upon the low bid.

"Silver Lake-Valley Falls Rock Production Project on the Fremont and Lakeview, Burns Highways in Lake County: N. A. Toole Construction Company, Ontario, submitted the low bid for this work at $74,275.00. Three other bids were also received. The Commission has awarded the contract to the low bidder, N. A. Toole Construction Company.

"Grading and paving on the Gilbert River-Sauvie Island Road and Reeder Road-Willamette River Sections of the Reeder and Gillihan County Roads on Sauvie Island in Multnomah County. Seven bids were received on this job, the low one being submitted by Parker-Schram Company, Portland, at $159,718.00. The bid of Parker-Schram Company in the sum of $159,718.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the Bureau of Public Roads and Multnomah County has made provisions for the deposit of $35,950.00 which is said County's share of the cost based upon the low bid.

"Grading and paving on Monroe Street in the City of Sheridan in Yamhill County: Only two bids were received for this job, the low one being submitted by W. G. Wright, McMinnville at $12,846.00. The contract has been awarded to the low bidder, W. G. Wright.

The meeting was adjourned at 5:00 p.m.

Portland, Oregon
May 19, 1953

The State Highway Commission met in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Charles H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, First Assistant State Highway Engineer
W. W. Stiffler, Second Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
Floyd Query, Acting Secretary

Bids as follows for highway construction were opened and read aloud by the Acting Secretary, pursuant to a previously published notice at the conclusion of which it was announced that the awards of contracts would be made at 3:00 p.m. in the same room:

BENTON COUNTY
PHILOMATH PAVING PROJECT

Warren Northwest, Inc., Portland	$ 9,206.00
Lebanon and Harrisburg Sand & Gravel Co., Lebanon	10,056.00
Western Paving and Construction Co., Albany	10,217.00

CLACKAMAS COUNTY
DAMASCUS-BORING GRADING AND PAVING

Babler Bros., Inc. and Rogers Construction Co., Portland	$ 79,584.00
Portland Road & Driveway Co., Portland	94,367.00
Logan Taylor & Co., Portland	95,839.00
United Paving Co., Edmonds, Washington	107,164.40

CURRY COUNTY
MUSSEL CREEK-HUNTER CREEK ROCK PRODUCTION PROJECT

Calkins Crushing Company, Ocean Lake	$ 38,950.00

2160

CURRY COUNTY
BRUSH CREEK-FRANKPORT UNIT STRUCTURES

Babler Brothers, Portland	$ 75,220.00
R & M Construction Co., Central Point	76,325.00
Tom Lillebo, Reedsport	76,590.00
Larson Construction Co., Astoria	79,930.00

CURRY COUNTY
HARRIS BEACH PARK OVERNIGHT CAMPING AREA

Leroy C. Weideman, Brookings	$ 27,462.40
Wold Brothers, Bandon	27,985.00
R & M Construction Co., Central Point	33,619.00

DESCHUTES COUNTY
BEND OFFICE BUILDING AND STORAGE SHED

Paul B. Emerick, Portland	$393,739.00
Murray Brothers Construction Co. and Murray & Stanford, Bend	396,436.00
Bessonett & Graft, Medford	404,000.90
J. G. Watts Construction Co., Portland	404,965.00
Erwin E. Batterman, Salem	416,990.00
Chas. R. Schmiedeskamp, Portland	426,129.00
Parker-Johnson Co., Portland	428,211.00

DOUGLAS COUNTY
REEDSPORT JUNCTION IRRIGATION SYSTEM PROJECT

Western Golf Course Supply Co., Portland	$ 3,149,10
R & M Construction Co., Central Point	4,308.64
Tom Lillebo, Reedsport	4,420.79

GRANT COUNTY
LONG CREEK SURFACING PROJECT

Russell Olson Construction Co., Pendleton	$ 11,835.00
Babler Brothers, Inc., Portland	14,370.00

GRANT COUNTY
MOON CREEK AND JOHN DAY RIVER BRIDGES

Loree Building Service, La Grande	$ 53,100.00
Babler Brothers, Inc., Portland	56,350.00
Larson Construction Co., Astoria	60,800.00
Valley Construction Co., Portland	60,965.00

May 19, 1953

Moon Creek and John Day River Bridges (cont.)

C. E. Blakeley, Klamath Falls	$ 62,650.00
Parker-Johnson Company, Portland	62,948.00
Lindstrom Brothers, Portland	69,450.00

JACKSON COUNTY
GOLD HILL GRADING AND PAVING PROJECT

Central Heating Co. and F. L. Somers, Eugene	$ 13,258.00

JOSEPHINE COUNTY
GRADING AND OILING HOLLAND LOOP COUNTY ROAD

Babler Brothers, Inc., Portland	$110,235.00
Durbin Brothers, Eugene	118,399.00
Central Heating Co. and F. L. Somers, Eugene	141,235.00

KLAMATH COUNTY
OILING SPRAGUE RIVER COUNTY ROAD

Rogers Construction Co., Portland	$ 91,820.00
Peter Kiewit Sons' Co., Longview, Washington	99,780.00
John R. Saxton, Clatskanie *	109,180.00

*Bidder will not accept projects totaling more than $300,000.00

LINCOLN COUNTY
WALDPORT GRADING AND PAVING PROJECT

Central Heating Co., and F. L. Somers, Eugene	$ 11,162.00
Warren Northwest, Inc., Portland	12,728.00

MULTNOMAH, WASHINGTON AND CLACKAMAS COUNTIES
GRADING AND PAVING WEST PORTLAND-HUBBARD HIGHWAY

Rogers Construction, Inc., Portland	$478,685.50
J. N. Conley, Portland	503,489.00
Parker-Schram Co., Portland	511,157.80
Fred H. Slate Co., Oreg. Ltd. & E. C. Hall Co., Portland	527,594.50
J. G. Watts Construction Co., Portland	590,713.00
Porter W. Yett, Portland	634,249.00

21611

MULTNOMAH COUNTY
TROUTDALE GRADING AND PAVING PROJECT

Warren Northwest, Inc., Portland	$ 5,484.50
Parker-Schram Co., Portland	6,391.00
Oregon Asphaltic Paving Co., Portland	7,832.50
Babler Brothers, Inc. and Rogers Construction Co., Portland	7,980.00
Portland Road & Driveway Co., Portland	8,973.00

MULTNOMAH COUNTY
GRADING UNION AVENUE-SWIFT ROAD JUNCTION

General Construction Co., Portland	$112,620.00
Riverbend Construction, Inc., Portland	133,385.00
Kernan Livestock Farms, Inc., Portland	141,075.00
Vernie Jarl, Gresham	142,595.00
J. G. Watts Construction Co., Portland	143,965.00
John A. Logan, Portland	159,845.50

WALLOWA COUNTY
GRADING AND PAVING LITTLE SHEEP CREEK SECONDARY HIGHWAY

Morrison & Lamping, Walla Walla, Washington	$258,774.00
Rogers Construction Co., Portland	260,512.00
Newport Construction Co., Portland	260,939.50
C. E. Leseberg, Nyssa	261,503.50
J. N. Conley, Portland	269,107.50
Morrison-Knudson Co., Inc., Boise, Idaho	269,817.00
John R. Saxton, Clatskanie *	271,785.50
Roy W. Daggett, Enterprise	292,632.38

*Bidder will not accept projects totaling more than $300,000.00

WALLOWA COUNTY
LOSTINE GRADING AND PAVING PROJECT

H. J. & H. W. Miller, Baker	$ 12,802.00
Rogers Construction Co., Portland *	15,595.00
Newport Construction Co., Portland *	17,305.00
K. F. Jacobsen & Co., Inc., Portland	17,365.00
J. N. Conley, Portland *	19,390.00

* Bidder will accept award of this project only in combination with Joseph-Sheep Creek Hill Project.

May 18, 1953

WASHINGTON COUNTY
CORNELL AND BARNES COUNTY ROADS WIDENING AND PAVING

Porter W. Yett, Portland	$110,975.00
Warren Northwest, Inc., Portland	121,097.50
Parker-Schram Co., Portland	127,845.50

A delegation representing the City of Seaside appeared before the Commission to discuss securing traffic relief on the Oregon Coast Highway within the city. The following people were present: A. W. Ensor, Seaside, President, Chamber of Commerce; Lester U. Raw, Seaside, Mayor; Avery A. Combs, Seaside, City Attorney; John Philips, Seaside, Director of Chamber of Commerce; Lloyd Eastman, Seaside, Manager of Chamber of Commerce; and N. Brandenburg, Astoria, representing the oil industry. Mr. Lloyd Eastman introduced the various members of the delegagion. Mr. Avery Combs acted as spokesman. He recalled that about six months ago a delegation had requested an extension of Roosevelt Drive as a truck route within the city. The State had made a survey, he stated, and the city had been advised that the proposed construction was too expensive. He pointed out that the traffic situation is getting worse and that the purpose of the delegation today is to bring the problem to the Commission's attention, without asking for any specific project.

Chairman Chandler stated that the situation now, as far as the Highway Department is concerned, is about the same as when the survey was made. He pointed out that there is a segment of opinion in Seaside to keep the light tourist traffic on Holiday Drive and to put the truck traffic on Roosevelt Drive. It was his thought that the ultimate solution would be to by-pass the city. This, however, is an expensive operation, and no money is available at the present time. One of the delegates then inquired if the Commission could provide them with a plan for the ultimate development so that the city officials could undertake a campaign of education among the residents of the city. They were informed by the Chairman that the survey now being conducted in that area is not yet completed, but when it is done, which he thought would be sometime this summer, they would be advised. He urged the delegation to encourage the people of Seaside to decide among themselves the type of improvement they favored.

Mr. and Mrs. C. H. Starrett and Mr. H. A. Kidby appeared before the Commission to request that the Commission buy the Starrett property at 7444 S. W. View Point Terrace on the West Portland-Harbor Drive Section of the Portland-Salem Expressway, Portland. Mrs. Starrett explained that to supplement their retirement income, she and her husband had purchased property and had constructed a house on it with the idea of raising flowers. It had been their plan to pay for this recently acquired property by selling their property on the West Portland-Harbor Drive Section. The property, she stated, had been put up for sale, but they had not been able to sell it due to the fact that the right of way line of the new highway came very near to the property, and as a result, prospective buyers did not wish to purchase a residence so close to an arterial highway. She left with the Commission a number of letters from prospective buyers and others

indicating the lack of interest in the property when it was found that it would adjoin the new highway. She requested the Commission to purchase the property. She was advised by Chairman Chandler that a careful review would be made of the whole situation in order to definitely ascertain all the facts. The Commission, he added, does not wish to injure any individual.

Mr. George N. McBride, District Manager for the West Coast Telephone Company, Mr. Art Scripture, General Commercial Superintendent, and Edwin L. Graham, Attorney, appeared before the Commission to request that they be allowed to install a telephone line along the right of way of the Umpqua Highway between Reedsport and Scottsburg as requested in their permit application. Mr. Graham explained that the old telephone line became worthless when the power line was installed. If the phone company is granted permission to construct the phone line as they desire, they can do so for a cost of about $34,000 to serve thirty-eight potential subscribers, but if they are required to construct their line as indicated by the Highway Department, it will cost them $31,500 additional, which would be too high a figure to justify the construction.

He requested permission to construct a telephone pole line along the north side of the Umpqua Highway from M. P. 1.91 near Reedsport to M. P. 2.63, and along the south side of the highway from M. P. 2.63 to M. P. 6.00, and again on the north side from M. P. 6.00 to M. P. 16.24 at Scottsburg. He pointed out that the north side of the highway right of way lies between the river and the highway and involves much easier construction whereas the south side would involve placing much of the line over very rough and rock terrain.

Chairman Chandler stated that the Commission is aware of the bad terrain on the south side of the highway, but the Commission is also interested in preserving the beauty of the roadway on the north side between the highway and the river. He suggested to the delegation that engineers from the Highway Department go over the matter with engineers representing the phone company and attempt to find a satisfactory solution. This arrangement was agreeable with the phone company representatives, and the Highway Engineer was thereupon instructed to arrange a joint inspection and to make a report on the results at the June meeting.

The Commission again discussed with the Engineer the matter of hauling logs on the Columbia River Highway, which discussion had been precipitated by the application of August Euhlinger to haul logs from Viento to Cascade Locks. The Assistant Highway Engineer, Mr. W. W. Stiffler, exhibited a map and pointed out the routes over which permits have been granted to haul logs on the new and the old Columbia River Highway. He felt that hauling should not be generally permitted until representatives of "Save The Gorge" committee had completed transfers of land with the United States Forest Service.

Chairman Chandler remarked that much of the Columbia River Highway has been rebuilt to modern standards, and he inquired as to why the Commission should refuse to permit log hauling over such reconstructed sections. The Engineer explained that Commissions in the past had never permitted hauling of logs which had developed into a sort of policy. The Chairman then inquired if the Commission had a legal right to deny the use of the highway to log haulers. The Chief Counsel replied that the Commission can refuse to issue a permit only on the basis of safety

to the traveling public and for the protection of the highway roadbed. Commissioner McIver remarked that in his estimation it was not a good policy to link the issuance of log hauling permits with economic or roadside beauty angles. No action was taken by the Commission at this time. (After lunch, the subject was again discussed and the Commission instructed the Engineer to treat the issuance of log hauling permits on the Columbia River Highway on the same basis as he would for any other highway.)

The meeting was recessed at 12:00 noon to reconvene at 2:00 p.m. in the same room with the same persons present and participating.

Mr. John Silvertooth and a Mr. Wood from Antelope, Oregon, appeared before the Commission regarding improvement to the Shaniko-Fossil Secondary Highway. They left with the Commission a petition requesting specifically that the road between Shaniko and Antelope be relocated, straightened and oiled, and that the road between Fossil and Antelope be completed and oiled. Mr. Silvertooth pointed out that farmers, ranchers, and other producers who use the road would save greatly in their hauling costs if the highway was improved. It was his thought that although the traffic on the road is now light that if improved it would increase greatly. He also stated that tentative promises have been made to donate part of the right of way necessary for improvement. Mr. Wood complimented the efficient operation of the state maintenance crews in keeping the present road in as good a condition as it is. He called attention to the dangerous curves on the road and its lack of adequate surface. He felt that the road, if improved, would be much used by haulers from the John Day Highway in their trips to Portland as the route via Fossil and Shaniko is approximately 40 miles shorter to Portland than by way of Arlington. Chairman Chandler informed the delegation that the Commission is aware of the need for improvement and that an engineering study has been made indicating that adequate improvement from Fossil to Shaniko would cost about $1,300,000. He explained that highway funds are allocated to the various divisions in the state to provide fair distribution, and there is no money available for the requested improvement.

A delegation from Klamath Falls appeared before the Commission requesting highway improvements within the city. The following people were present: Paul O. Landry, Mayor; Frank Tarr, City Councilman; E. A. Thomas, City Engineer; Al Hatton, Chairman, Cross Town Traffic Committee; Greer Drew, Member, Cross Town Traffic Committee; Frank Tucker, Secretary, Chamber of Commerce; and Roy Murphy, Keith Cobo, Arthur Dye, N. B. Drew, and George Morgan, Businessmen. Mr. Paul Landry, who acted as spokesman, stated that although there had been considerable difference of opinion among the residents of Klamath Falls as to what projects should be constructed, these differences have now been reconciled, and they are agreed on a program. The City, he stated, is now willing to accept the program offered by the Highway Department with the modification that they would like to have a truck traffic route. Chairman Chandler reviewed the matter pointing out that an economic survey had been made and plans for improvements had been prepared. Property, he stated, has been acquired for the Sixth Street viaduct but no commitment made as to time of construction. In the survey conducted, it was decided that Sixth and Seventh Streets should be one-way streets, also Main and Klamath

Streets; however, the Commission had heard nothing about a truck route until a few days ago. He pointed out that plans have been made on the basis of the traffic and facts disclosed by the economic survey, but no funds have been included for the proposed truck route. Mayor Landry stated that it was the consensus of opinion within the City that the Sixth Street viaduct was the most important item, but they feel that in addition to the cross-town route they should also have the newly proposed truck route. He inquired as to when the viaduct might be constructed. Chairman Chandler stated that the Commission had agreed on the cross-town plan and the Sixth Street viaduct but could not see their way clear for construction of the truck route. Tentative plans provide for construction of the Sixth Street viaduct in 1955 at a cost approaching $600,000, and it is possible that Main and Klamath Street work costing about $100,000 can be performed at an earlier date; however, he stated, if the City insists on including the truck route, then the Commission could not state when the work could be performed as it has not been included in the plans. Mayor Landry pointed out that there had been no highway improvements within the City in the last ten years, and they were very anxious to get the work done. The City, he added, has lost many sawmills in the past few years, and they are very conscious of their economy. He then inquired if the Commission would look at the proposed routes in the City. He was informed by Chairman Chandler that the Commission could do so in connection with the trip which they planned to take during the latter part of July. The Commission, He added, can promise nothing more in the line of improvements than is included in the program. Mayor Landry then inquired if the right of way line could be determined for the west side route as it was his understanding that construction for the west side by-pass was scheduled ahead of the east side by-pass construction. Chairman Chandler recalled that to his memory the east side construction had been scheduled for earliest consideration and due to conflicts, plans to construct the west side route had been practically abandoned. The Commission, he concluded, has no funds set up for construction of the west side route.

A delegation appeared before the Commission requesting permission to haul logs over the Territorial Secondary Highway between the Douglas County Line and the Pacific Highway at Anlauf. The following people were present: William B Adams, representing Harold Woole, Portland; and E. Alvin Allan, Robert W. Rohrer, John Stigers, Eugene E. Boss, and Lee M. Kruse, farmer-loggers, Cottage Grove. Mr. Adams acted as spokesman and pointed out that the approximate 6-mile section of highway from the county line to the Pacific Highway is closed only to the hauling of logs. As a result of this closure, considerable damage may be done to a number of people who felled timber in 1952 planning to haul it out during the spring and summer of 1953. It is realized, he stated, that parts of the Highway are narrow, but the log operators have agreed to widen two curves themselves, and, if required, will put on flagmen to control traffic on a narrow section. The Engineer stated that a section of the road is only 12 feet wide and hauling had been restricted on the basis of safety. Mr. Rohrer stated that he had logs which have been on the ground for over a year, and if granted permission, he would take his equipment and widen the extremely narrow section of about 1/4 mile. He requested that a speed limit be placed on the narrow section. Chairman Chandler stated that unless the State Police were there to enforce it the speed zone would do little good. The Highway Commissio he added, plans to be in that vicinity on May 23, and will make a personal inspection, barring unforseen circumstances, and if there is any plan which can be worked out to provide for the moving of the logs and for the safety of other traffic, it will be done

The Commission discussed with the Engineer the bids received in the morning's session and at 3:00 p.m. Commissioner Reynolds publicly announced the awards of contracts as follows:

"Paving project on "G" Street in Philomath in Benton County: Warren Northwest, Inc., Portland, submitted the low bid out of the total of three bids received for this project at $9,206.00. The Commission has awarded the contract to the low bidder, Warren Northwest, Inc.

"Grading and paving on the Damascus-Boring Section of the Clackamas-Boring County Road in Clackamas County: Babler Brothers, Inc., and Rogers Construction Company of Portland bidding as a joint venture submitted the low bid for this job at $79,584.00. Three other bids were also received. The bid of Babler Brothers, Inc., and Rogers Construction Company in the sum of $79,584 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the Bureau of Public Roads and Clackamas County has made provisions for the deposit of $17,900.00 which is said County's share of the cost based upon the low bid.

"Mussel Creek-Hunter Creek Rock Production Project on the Oregon Coast Highway south of Port Orford, Curry County: Calkins Crushing Company, Ocean Lake, submitted the only bid received for this job at $38,950.00. The contract has been awarded to Calkins Crushing Company.

"Construction of three bridges on the Brush Creek-Frankport Unit of the Oregon Coast Highway south of Port Orford in Curry County. Four bids were received for this project, the low one being submitted by Babler Brothers, Portland, at $75,220.00. Bid of Babler Brothers in the sum of $75,220.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of park facilities in Harris Beach Park on the Oregon Coast Highway north of Brookings in Curry County. Three bids were received for this project, the low one being submitted by Leroy C. Weideman, Brookings, at $27,462.40. The contract has been awarded to the low bidder, Leroy C. Weideman.

"Construction of an equipment repair shop, office, building, and storage shed in Bend, Deschutes County: Paul B. Emerick, Portland, submitted the low bid for this work at $393,739.00. Six other bids were also received. The contract has been awarded to the low bidder, Paul B. Emerick.

"Installation of the Reedsport Junction Irrigation System Project on the Oregon Coast Highway at Reedsport in Douglas County. Western Golf Course Supply Company, Portland, submitted the low bid for this job at $3,149.10. Two other bids were also received. The contract has been awarded to the low bidder, Western Golf Course Supply Company.

"Bituminous macadam surfacing project on East Main Street in Long Creek, Grant County. Two bids were received for this work, the low one being sub-

mitted by Russell Olson Construction Company, Pendleton, at $11,835.00. The contract has been awarded to the low bidder, Russell Olson Construction Company.

"Construct bridges over Moon Creek and John Day River on the John Day Highway west of John Day in Grant County. Seven bids were received for this project, the low one being submitted by Loree Building Service, La Grande, at $53,100.00. The bid of Loree Building Service in the sum of $53,100.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading and paving on Fourth Avenue North and Seventh Street West in the City of Gold Hill in Jackson County. The only bid submitted for this project was received from The Central Heating Company and F. L. Somers in Eugene at $13,258.00. The contract has been awarded to The Central Heating Company and F. L. Somers.

"Grading and oiling on the George Road-East Junction Section of the Holland Loop County Road in Josephine County. Three bids were received for this work. The low one being submitted by Babler Brothers, Inc., Portland, at $110,235.00. The bid of Babler Brothers, Inc., in the sum of $110,235.00 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the Bureau of Public Roads and Josephine County has made provisions for the deposit of $38,400.00 which is said County's share of the cost based upon the low bid.

"Construction of road base and surface oiling on the Sprague River-Beatty Junction Section of the Sprague River County Road in Klamath County: Three bids were received for this work, the low one being submitted by Rogers Construction Company, Portland, at $91,820.00. The bid of Rogers Construction Company in the sum of $91,820.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the Bureau of Public Roads and Klamath County has made provisions for the deposit of $20,600.00 which is said County's share of the cost based upon the low bid.

"Grading and paving Fayette Street in the City of Waldport, Lincoln County: Only two bids were received for this work, the low bid being submitted by The Central Heating Company and F. L. Somers, Eugene, in the amount of $11,162.00. The contract has been awarded to the low bidder, The Central Heating Company and F. L. Somers.

"Grading and paving on the Barbur Boulevard-Boones Ferry Road Unit of the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway in Multnomah, Washington, and Clackamas Counties. Rogers Construction, Inc., Portland, submitted the low bid for this work at $478,685.50. Five higher bids were also received. The bid of Rogers Construction, Inc., in the sum of $478,685.50 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading and paving on the Troutdale Section of the Crown Point Secondary Highway in Troutdale, Multnomah County: Five bids were received for this work, the low one being submitted by Warren Northwest, Inc., Portland, at $5,484.50. The contract has been awarded to the low bidder, Warren Northwest, Inc.

"Grading of a branch road on the Union Avenue-Swift Road Junction Section of the Pacific Highway West at Denver Avenue Junction north of Portland in Multnomah County: General Construction Company, Portland, submitted the low bid for this project at $112,620.00. Also received were five higher bids. The bid of General Construction Company in the sum of $112,620.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading and paving the Joseph-Sheep Creek Hill Section of the Little Sheep Creek Secondary Highway east of Joseph in Wallowa County. Morrison and Lamping, Walla Walla, Washington, submitted the low bid for this job at $258,774.00. Seven higher bids were also received. The bid of Morrison and Lamping in the sum of $258,774.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading and paving Resort Street in the town of Lostine, Wallowa County: Five bids were received for this job, the low one being submitted by H. J. and H. W. Miller, Baker, at $12,802.00. The contract has been awarded to the low bidder, H. J. and H. W. Miller.

"Roadbed widening and paving on the Sunset Highway-Multnomah County Line and McDaniel Road-Multnomah County Line Sections of the Cornell and Barnes County Roads near Cedar Mills in Washington County: Three bids were received for this work, the low bid being submitted by Porter W. Yett, Portland, at $110,975.00. The bid of Porter W. Yett in the sum of $110,975.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the Bureau of Public Roads and Washington County has made provisions for the deposit of $25,000.00 which is said County's share of the cost based upon the low bid."

The Chief Counsel brought up for the Commission's consideration the matter of granting a quitclaim deed to the South Santiam River Water Control District for five parcels of land along the Santiam River near Sanderson Bridge. He explained that the Army Engineers planned to call for bids for river bank work in the near future, and they need this land for a material source. The land, he stated, is not needed for highway purposes, and he recommended that the deed be approved. The Commission accepted the recommendation.

Mr. W. C. Williams, Assistant Highway Engineer, stated that tests are being conducted on the North Dillard Bridge on the Pacific Highway to determine vibration. The University of California, he added, has special equipment

for this work and has agreed to lend it if the State will send a man and car to the University to pick it up and bring it to Oregon. He requested authority to secure the equipment and return it when the work is performed. The Commission approved the recommendation and authorized the expenditure of $125 to cover expenses.

Commissioner Reynolds stated that a letter had been received from Mr. Garnett Barrett, Morrow County Judge, expressing appreciation for completion of the Lena-Nye Section of the Heppner Highway in Morrow and Umatilla Counties. Also the Commission has been invited to include Heppner in the Commission's itinerary for a future road trip through Eastern Oregon, and to take part in a dedication of the soon to be completed Lena-Nye Section.

Commissioner Reynolds also brought up the matter of a section on Adams Avenue in La Grande striped for four lanes of traffic and near which is a section marked for two lanes. This, he stated, has caused complaints as being hazardous. The Engineer stated that the two-lane section is too narrow for four lanes, unless all parking is prohibited. The Engineer was instructed to take the matter up with the police in the area as to a possible solution.

The Commission discussed briefly the matter of State cooperation on constructing a retaining wall along a city park in Condon, which adjoins the state highway. Commissioner Reynolds stated that State Senator Stewart Hardie had brought the matter to his attention. The Engineer was instructed to reinvestigate the matter and report to the Commission.

Also discussed was the possibility of installing some type of sign in Wallowa Park to advise visitors in the park concerning the sights that can be seen in the park, and also some sort of booklet or pamphlet for tourists informing them of places of scenic and historical interest in Oregon. The Parks Superintendent was instructed to investigate these matters and report later.

The Commission also discussed with the Engineer the wording to be placed on signs at each end of construction projects. Commissioner Reynolds stated that he has heard a number of expressions from various people stating that they liked the signs and he wondered if it might not be advisable to put additional information on them. Commissioner McIver inquired if, in selecting the type of sign now used, the State's advertising consultant had been consulted. The Engineer stated that information had been secured from many states as to the type of signs they used, and out of these had been devised the sign now in use. In this particular case, he added, the advertising consultant had not been contacted. No action was taken.

Commissioner Reynolds stated that he had received a number of commendations from insurance companies on the work being performed by Mr. W. M. Strohmeyer as Safety Engineer of the Highway Department. The Engineer stated that since Mr. Strohmeyer has been acting as Safety Engineer, there has been a material reduction of accidents involving state highway vehicles.

Commissioner Reynolds then inquired of the Engineer as to whether or not an underpass will be required on Highway US 30 at the north entrance to Ontario. He also stated that in letters received from the Ontario Chamber of Commerce they had

expressed appreciation for work performed and invited the Commission to spend an evening with them in Ontario. The Engineer replied, concerning the north entrance to Ontario, that the survey has not yet been completed. He stated, however, that he would check on this matter and report to the Commission later.

The matter of access rights acquired in Lapine on The Dalles-California Highway was discussed briefly. Commissioner Reynolds stated that this matter had been brought to his attention by the property owners who wondered why their access had been restricted while others in the same town had not been restricted. The Engineer stated that this access had been purchased some time ago, and he would be glad to review the matter. Action on this was deferred pending a personal inspection by the Commission on their trip through Central Oregon this coming spring or summer.

Chairman Chandler stated that the Commission now has authority to appoint an Assistant Secretary to carry on the duties of the Secretary when the Secretary is absent. He expressed the opinion that the Commission should take action at this meeting to appoint an Assistant Secretary. Commissioner Reynolds moved that Floyd Query be appointed as Assistant Secretary. Commissioner McIver seconded the motion, and it was declared unanimous by Chairman Chandler.

The Commission signed agreements and other papers as follows:

"Indenture of Access" re change of access point of Krebs property on the Arlington-Heppner Junction Section of Columbia River Highway, Gilliam County.

"Lease and Sale of Road Materials" with Roy L. Houck & Son covering road building materials from Canby Gravel Bar on Willamette River-Marion County Line Section of West Portland-Hubbard Highway, Clackamas County.

"Bargain and Sale Deeds" re sale of following properties:

a. 7,800 sq. ft. on Viento-Hood River Section of Columbia River Highway, Hood River County, to Thomas C. Meredith for $780.

b. Portion of Block 14, McMillen's Addition to East Portland, on Pacific Highway West, Multnomah County, to Ranco Savoff for $825.

c. Portion of Lots 17 and 20, Block 1, Central Addition to Albany, on Pacific Highway, Linn County, to P. W. and Florence E. Drushella for $1,425.

d. 0.48 acre of land in Troutdale on Old Columbia River Highway, Multnomah County, to J. J. and Ruth D. Walker for $1,100.

e. 0.32 acre of land on Roseburg-Coos Bay Highway, Douglas County, to Henry Carel Schattenkerk for $125.

f. Portion of Lots 15 and 16, Estacada Lake Addition, on Woodburn-Mt. Hood Highway, Clackamas County, to Frank J. Bailey, for $140.

"Release of Access Restrictions" with J. Harold Nichols, et al., correcting access restriction on Camas Valley-Pacific Highway Section of Coos Bay-Roseburg Highway, Douglas County.

Two "Agreements" with Washington County covering financing of Sunset Highway-Multnomah County Line and McDaniel Road-Multnomah County Line county projects.

Two "Agreements" with Josephine County covering financing and maintenance of Holland Loop County Road.

Two "Agreements" with Lake County covering financing and maintenance of Cottonwood Creek and West Side County Roads.

Two "Agreements" with Jackson County covering financing and maintenance of Thompson Creek County Road.

Two "Agreements" with Klamath County covering financing and maintenance of Sprague River County Road.

Two "Agreements" with Clatsop County covering financing and maintenance of Youngs River Loop County Road.

Two "Agreements" with Clackamas County covering financing and maintenance of Damascus-Boring County FAS project.

"Abandonment Agreement" re Molalla Junction-Marquam Section of the Cascade Highway in Clackamas County.

"Abandonment Agreement" re Joseph-Sheep Creek Hill Section of the Little Sheep Creek Highway in Wallowa County.

"Abandonment Agreement" re Clatskanie-Delena Section of the Columbia River Highway in the City of Clatskanie, Columbia County.

Two "Quitclaim Deeds" re clarification of title on the following properties:

a. State Highway Commission to Otto King and wife for land located on the Pacific Highway near Talent, in Jackson County.

b. State Highway Commission to Ralph Thomas and Virginia Thomas, husband and wife, for land located on the Salem By-pass of the Pacific Highway East in Marion County.

"Bargain and Sale Deed" conveying property acquired from the Roseburg School District in Roseburg to J. F. Dillard and Velma Dillard. Consideration $850.

"Agreement" with City of Portland covering traffic signal installation on N. E.

Union Avenue at N. E. Bryant Street and N. E. Portland Boulevard.

Two "Agreements" with Multnomah County covering financing and maintenance of Gilbert River-Sauvie Island Road and Reeder Road-Willamette River Sections S-135(1) FAS 644.

Special State Tax Street Funds: Empire, Gold Hill, Long Creek, Lostine, Myrtle Point, Philomath, St. Helens, Sheridan, and Waldport.

"Easement" with South Santiam River Water Control District, Linn County.

There being no further business to come before the Commission, the meeting was declared adjourned at 4:15 p.m.

State Highway Engineer

Minutes of

May 18 and 19, 1953

EXHIBIT "A"

Minutes of May 18 and 19, 1953

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other materials sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of n egotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

Allowance - 9 rods of fence at $3.50 per rod.	31.50	
Amount to be paid owner - chrg to Right of Way		$71.50

THINGS TO BE DONE BY THE STATE:

Access reserved for private residential use, northerly side at Station 351+80.

Access controlled -

EXHIBIT "B"

Minutes of May 18 and 19, 1953

RESOLUTION

WHEREAS, it has been brought to the attention of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's records or minutes; and

WHEREAS, notwithstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options have the informal approval of the Commission; and

WHEREAS, for the purpose of supplementing such informal records and action, it is the purpose of the Commission at this time to ratify all options so taken.

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, all members being present and voting affirmatively, as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with the construction, reconstruction, or other improvement of the following-named highway projects hereby are declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby are approved:

MARION COUNTY

Niagara-Detroit (at Little Sardine Creek) North Santiam Highway

20395-Carl B. and Vivian Crop

Stock Pile Site 0.28 acres more or less

2. It is further resolved that the informal action of the Commission and authorization for said acquisitions hereby is ratified.

3. That this resolution be entered in the minutes and records of the Commission as of May 18, 1953, and shall be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed on said attached page.

May 18, 1953

EXHIBIT "C"

Minutes of May 18 and 19, 1953

RESOLUTION

WHEREAS, the 47th Legislative Assembly enacted Senate Bill No. 405, under the terms of which any county is authorized to apply to the State Highway Commission for an advancement of moneys appropriated to such county by section 100-129, O. C. L. A.; and

WHEREAS, said Senate Bill No. 405 contained an emergency clause and therefore became effective immediately upon its being signed by the Governor, on April 8, 1953, and has been designated as Chapter 303, Oregon Laws 1953; and

WHEREAS, the Highway Commission has received from the County Court of Curry County a certified copy of a resolution requesting an advancement of moneys appropriated to said County by section 100-129, O. C. L. A.; and

WHEREAS, said chapter 303, Oregon Laws 1953 requires that the Highway Commission certify to the Secretary of State certain facts, and authorize advancement of moneys from the State Highway Fund not exceeding the amount requested;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That it is now found and determined, and is hereby certified that.

(a) The State Highway Commission has received from the County Court of Curry County a certified copy of a resolution adopted by said County Court under date of April 10, 1953.

(b) Said resolution discloses a finding by said County Court that the sum of $20,000.00 is required by Curry County to repair and reconstruct county roads and bridges damaged or destroyed by the abnormally inclement weather conditions during the period from January 1, 1953 to February 1, 1953.

(c) Said resolution further includes a request for an advancement from the State Highway Fund of the sum of $20,000.00 to be used by Curry County to repair and reconstruct county roads and bridges damaged or destroyed as aforesaid.

(d) Said sum of $20,000.00 does not exceed one-half the amount distributed to Curry County from the State Highway

(cont)

EXHIBIT "C" (cont)

Fund under section 100-129, O. C. L. A., between February 1, 1952 and February 1, 1953.

2. That the Secretary of State is hereby authorized to advance to Curry County, out of the State Highway Fund, the sum of $20,000.00 under the provisions of chapter 303, Oregon Laws 1953.

3. That this resolution shall be entered in the minutes and records of the Commission on this 18th day of May, 1953, and the Secretary is directed to mail a fully executed copy thereof to the Secretary of State.

May 18, 1953

EXHIBIT "D"

Minutes of May 18 and 19, 1953

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3664, with Arthur Simonson & George Borgen for furnishing crushed material in stockpiles on the Baker-Huntington Section of the Old Oregon Trail Highway in Baker County, completed April 4, 1953.

"Contract No. 3709, with Barney B. Helser for furnishing crushed material in stockpiles on the Wasco-Grass Valley Section of the Sherman Highway in Sherman County, completed March 31, 1953.

"Contract No. 3751, with Tom Lillebo for construction on the Calapooya Creek Bridge on the Elkton-Sutherlin Highway in Douglas County, completed April 24, 1953.

"Contract No. 3766, with Parker-Johnson Co. for construction of a heavy equipment shed at Salem in Marion County, completed April 30, 1953.

"Contract No. 3775, with Trowbridge & Flynn Electric Company for construction of traffic signals on the Pacific Highway in Medford, Jackson County, completed March 31, 1953.

"Contract No. 3780, with Loree Building Service for constructing a maintenance shed at Pendleton in Umatilla County, completed March 31, 1953.

"Contract No. 3786, with Hamilton & Thoms for construction of the Comstock grade separation on the Pacific Highway in Douglas County, completed March 31, 1953.

"Contract No. 3787, with Carl Anderson for fencing on the Middle Unit, Arlington-Heppner Junction Section of the Columbia River Highway in Gilliam County, completed April 20, 1953.

"Contract No. 3789, with Harold W. Salter for construction of employee's houses at Lincoln in Jackson County, completed April 28, 1953.

"Contract No. 3798, with Ausland & Dodson for the Wagner Creek Bridge widening and pipe support on the Pacific Highway in

Jackson County, completed April 22, 1953.

"Contract No. 3821, with Newport Construction Company for furnishing crushed material in stockpiles on the Canyon Creek-Poison Creek Section of the John Day-Burns Highway in Grant and Harney Counties, completed March 26, 1953.

"Contract No. 3822, with Harold W. Salter for construction of a maintenance building at Medford in Jackson County, completed April 24, 1953.

"Contract No. 3827-A, with Teller Construction Company for construction on Cereghino haul road bridge on the T. H. Banfield Expressway in Multnomah County, completed May 4, 1953."

THEREFORE BE IT RESOLVED that the work covered by State highway contracts for the construction of said State highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

May 18, 1953

EXHIBIT "E -1"

Minutes of May 18 and 19, 1953

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission appor tioned from revenues accruing during the last six month period of 1952 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Arlington	$2,274.31
Butte Falls	1,233.30
Clatskanie	2,987.11
Cornelius	3,308.69
Falls City	2,827.97
Gearhart	1,883.10
Lafayette	2,194.74
Manzanita	1,123.89
Maupin	1,034.38
Nehalem	895.14
Oceanlake	2,320.73
Phœnix	2,473.23
Waldport	2,284.26

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

(cont)

"EXHIBIT E-1" (cont)

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 18th day of May, 1953.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 18th day of May, 1953.

May 18, 1953

EXHIBIT "F"

Minutes of May 18 and 19, 1953

RESOLUTION

WHEREAS, by the provisions of O. C. L. A., 115-351 as amended by Chapter 428, Oregon Laws 1941, the State Highway Commission with respect to state highways, is authorized to designate main-traveled or through highways or sections thereof by placing at the entrances thereto from intersecting highways signs or markers notifying drivers of vehicles to stop before entering or crossing such designated highway or highways, and the State Highway Commission is further authorized to designate particular intersections and place such stop signs or markers at one or more entrances thereto; and

WHEREAS, the Commission heretofore on the 27th day of April, 1943, adopted a resolution by which certain state highways and sections thereof were declared to be and were designated as main or through highways, and adopted certain amendatory resolutions on December 13, 1945, August 25, 1947, November 24, 1947, September 19, 1949, and the State Highway Engineer was instructed to properly mark the same; and

WHEREAS, by said resolution of April 27, 1943, the Highway Commission declared the Wapinitia Highway to be a through highway and stipulated that traffic on the said Wapinitia Highway need not stop at its intersection with The Dalles-California Highway (M. P. 42. 29) approximately 3 miles west of Maupin; and

WHEREAS, since adoption of said resolution of April 27, 1943, by the Commission a traffic engineering investigation has been made which reveals that conditions have changed at the junction of the Wapinitia Highway with The Dalles-California Highway, that the traffic volume has materially decreased on the Wapinitia Highway since the opening of the Warm Springs Highway, and that the traffic volume on The Dalles-California Highway has considerably increased; and

WHEREAS, based upon the results of said investigation, the State Highway Engineer has recommended to this Commission a modification of the order contained in the afore-mentioned resolution of April 27, 1943.

NOW, THEREFORE, based upon the results of said traffic engineering investigation made by its employees and upon the recommendation of the State Highway Engineer, this Commission, all members being present and voting affirmatively, does hereby find, declare, resolve, and order as follows:

May 18, 1953 (cont)

EXHIBIT "F" (cont)

1. That so much of said resolution of April 27, 1943, permitting traffic on the Wapinitia Highway to enter The Dalles-California Highway at its junction with said The Dalles-California Highway without stopping be and the same hereby is repealed, but in all other respects the provisions of said resolution of April 27, 1943 are hereby reaffirmed and shall remain in full force and effect.

2. That hereafter all vehicles traveling on the Wapinitia Highway shall come to a stop before entering upon the intersection of said highway with The Dalles-California Highway.

3. That the State Highway Engineer be and he hereby is instructed to place or cause to be placed and thereafter maintain the necessary signs and markers to accomplish the traffic control and regulation contemplated by this resolution. Such signs as may be erected at said intersections shall conform to the types and standards heretofore approved by the Commission.

4. This resolution shall be entered in the minutes and records of the Commission as of the 18th day of May, 1953, and a duly certified copy thereof delivered to the U.S. Bureau of Public Roads and a like copy to each of the following: The Wasco County Court, the Wasco County Clerk, and the Superintendent of the Department of State Police for their information.

May 18, 1953

EXHIBIT "G"

Minutes of May 18 and 19, 1953

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commis sion has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: OREGON COAST HIGHWAY

Highway number: 9 Route number: US 101

Location of Termini		Established Speed
M. P. 149.72 (0.22 mile north of Ocean Drive)	to M. P. 150.16 (0.22 mile south of Ocean Drive) (cont)	50 miles per hour

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the Oregon State Highway Commission as of May 18, 1953.

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highw ays hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of Highway THREE MILE LANE SECONDARY HIGHWAY

Highway number: 152 Route number: ORE 233

Location of Termini		Established Speed
M. P 6. 32 (0 07 mile west of 9th Street) May 18, 1953	to M. P. 6. 66 (west city limits of Dayton) (cont)	40 miles per hour

EXHIBIT "J-2" (cont)

Location of Termini		Established Speed
M. P. 7.15 (east city limits of Dayton)	to M. P. 7.40 (east end of the Yamhill River bridge)	35 miles per hour

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the Oregon State Highway Commission as of May 18, 1953.

RESOLUTION

WHEREAS, on the 17th day of February, 1953 and on the 8th day of April, 1953, the Commission passed and adopted resolutions reducing the maximum load limits on various state highways; and

WHEREAS, subsequent to the effective dates shown in said resolutions, conditions have changed so that it no longer is necessary or desirable and the Commission hereby finds that it no longer is necessary or desirable to maintain the reduced load limits set out in said resolutions.

NOW, THEREFORE BE IT RESOLVED that the action of the State Highway Commission reducing the maximum permissible load limits as set forth in the said resolutions of February 17, 1953 and April 8, 1953 on various state highways and sections of highways, to wit:

Name of Highway and No.	County	Section restriction removed	Date Lifted 1953
Medical Springs Secondary 340	Union & Baker	M. P. 9.6at Catherine Creek to M. P. 20.4 at Medical Springs	May 1 8:00 a.m.
Ochoco Primary 41	Crook & Wheeler	M. P. 34.8, (Jct. with old hwy) to M. P. 56.8 (Jct. with old hwy)	Apr. 28 8:00 a.m.
Weston Elgin Secondary 330	Umatilla & Union	M. P. 8.0 (eight miles East of Weston) to M. P. 37.9 (Summerville Road)	May 18 9:00 a.m.

be and the same hereby is rescinded and cancelled insofar as it pertains to the highways and sections of highways listed hereinabbve, and the maximum load limit permissible on such highways subsequent to the dates shown shall be the maximum load limit provided by law.

IT IS HEREBY ORDERED that a certified copy of this resolution be furnished to the county clerk of each county in which said highways or sections of highways are located, and a like copy to the Superintendent of

OREGON STATE HIGHWAY COMMISSION

By Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner

R. H Baldock
State Highway Engineer

ATTEST:
Floyd Query, Acting Secretary

May 18, 1953

EXHIBIT "L"

Minutes of May 18 and 19, 1953

RESOLUTION

WHEREAS, the Pacific Highway East, otherwise known as US 99E, is one of the major state primary highways and likewise a Federal highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that at a location on Union Avenue (Pacific Highway East) just north of its junction with N. E. Vancouver Avenue there is located an establishment known as the Union Avenue Amphitheater and that a hazardous condition is created at and near said Amphitheater by the parking of vehicles on both sides of said Pacific Highway East in the vicinity of said Amphitheater; and

WHEREAS, the parking of vehicles on said highway right of way creates a hazard not only to the traveling public using said highway, but to the parked vehicles and occupants thereof by reason of the fact that this condition results in a considerable pedestrian movement across the highway and congestion due to said shoulder parking; and

WHEREAS, an additional hazard is created by similar parking on the shoulders of the access road which serves said Amphitheater, said access road being hereinafter designated also by the terms "Y" Line and "S" Line as shown on the attached map; and

WHEREAS, in the opinion of this Commission, public welfare and public safety require that parking should be prohibited within said areas.

NOW, THEREFORE BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendation by members of its staff, that the parking of vehicles on either side of the Pacific Highway East (US99E) between M. P. 4.66 (Engineer's Station 100+00) and M. P. 5.81 (Engineer's Station 40+00) and also on the access road to the Union Avenue Amphitheater at the following locations: On the "Y" Line from Engineer's Station 0+00 to Engineer's Station 9+37 where the "Y" Line intersects the "S" Line, and on the "S" Line from Engineer's Station 36+50 to Engineer's Station 55+00 where the "S" Line intersects the Pacific Highway East, creates a hazard not only to traffic but to persons owning and using said parked vehicles.

(cont)

May 18, 1953

EXHIBIT "L" (cont)

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience, which, in the opinion of the Commission should be provided the motoring public.

3. That this Commission does hereby find and declare that the parking of vehicles on both sides of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Highway Commission as herein declared on which signs shall be printed in plain, legible letters, "NO PARKING ON HIGHWAY SHOULDERS."

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police and also to the Union Avenue Amphitheater for their information.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 18th day of May, 1953.

May 18, 1953

EXHIBIT "M"

Minutes of May 18 and 19, 1953

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final surveys of:

1. The Goshen-Divide Section of the Pacific Highway in Lane County;

2. The Monroe Section of the Pacific Highway West in Benton County;

3. The Clatskanie-Delena Section of the Columbia River Highway in Columbia County;

4. The Elbow Lake-Gardiner Section on the Oregon Coast Highway in Douglas County; and

5. The Frankport-Euchre Creek Section of the Oregon Coast Highway in Curry County,

and in connection therewith to prepare maps showing the route and location of each of the said highway sections and to file said reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed each of the said surveys and has submitted them for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the survey of the Goshen-Divide Section of the Pacific Highway beginning at Highway Engineer's Station 60+00 near the town of Goshen and extending in a southerly direction to Highway Engineer's Station 1048+80 near the town of Divide, together with the map which, for identification purposes, bears map file No. 7B-21-10 and the date May, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in the State Highway Building, Salem, Oregon.

2. That the survey of the Monroe Section of the Pacific Highway West beginning at Highway Engineer's Station 118+11 a short distance north of the town of Monroe and extending southerly to Highway Engineer's Station 734+73.3 south of the town of Monroe, together with the map which, for identification purposes, bears map file No. 7B-21-6 and the date April,

1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building, Salem, Oregon.

3. That the survey of the Clatskanie-Delena Section of the Columbia River Highway beginning at Highway Engineer's Station 1655+36.01, a short distance west of the town of Clatskanie and extending easterly to Highway Engineer's Station 2053+06.09, a short distance east of the hamlet of Delena, together with the map which, for identification purposes, bears map file Nos. 7B-20-8 & 18 and the date May, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building, Salem, Oregon.

4. That the survey of the Elbow Lake-Gardiner Section of the Oregon Coast Highway beginning at Highway Engineer's Station 268+00 near Elbow Lake and extending southerly to Highway Engineer's Station 657+36.59 in the town of Gardiner, together with the map which, for identification purposes, bears map file No. 7B-15-16 and the date April, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building, Salem, Oregon.

5. That the survey of the Frankport-Euchre Creek Section of the Oregon Coast Highway beginning at Highway Engineer's Station 720+00 near the village of Frankport and extending southerly to Highway Engineer's Station 879+35 about one-half mile south of Euchre Creek, together with the map which, for identification purposes, bears map file No. 7B-23-7 and the date May, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building, Salem, Oregon.

6. That when the above described sections of said highways are permanently constructed the same shall be done in accordance with said surveys and locations, unless otherwise directed or ordered by the Commission.

7. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of the highways along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

EXHIBIT "M" (cont)

8. That the surveys of said sections of the Pacific Highway, Pacific Highway West, Columbia River Highway and the Oregon Coast Highway have been made within the meaning and purpose of Chapter 226 Oregon Laws 1947, commonly known as the Throughway Law, and were likewise made within the scope and purpose of those certain resolutions hitherto approved and adopted by the Highway Commission on November 3, 1948, and February 18, 1953, respectively, which resolutions designated certain highways and sections thereof as throughways. Therefore, the construction of the above named sections of the said highways shall be accomplished pursuant to and within the meaning and scope of the said law and said resolutions.

9. That this resolution be entered in the minutes and records of the Commission as of the 18th day of May, 1953.

EXHIBIT "N-1"

Minutes of May 18 and 19, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Zig Zag-Rhododendron Section of the Mount Hood Highway; and,

WHEREAS, the said Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary; and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is

needed and required for right of way purposes, for the proposed relocation, construction, improvement and maintenance of the Zig Zag-Rhododendron Section of the Mount Hood Highway as a throughway, the following described real property in fee simple, to wit:

R-12367
Owner: James W. Creighton, et ux

Three parcels of land lying in the Southeast quarter (SE1/4) of Section 3, Township 3 South, Range 7 East, W.M., Clackamas County, Oregon, and being portions of the following described property: Tract 38 of the independent resurvey with tract segregations as resurveyed and accepted by the Department of the Interior in 1935, the said parcels being those portions of the foregoing described property included in a strip of land 100 feet in width, 50 feet on each side of the center line of the Mount Hood Highway as said highway has been relocated over and across or adjacent to the said property, which center line is described as follows:

Beginning at a point which is Engineer's center line Station 953+64 opposite and 50 feet distant from which point the Southerly line of the said strip of land intersects the North line of said property; said point being 2417 feet North and 2380 feet West of the Southeast corner of Section 3, Township 3 South, Range 7 East, W.M.; thence on a 11,459.16 foot radius curve right (the long chord of which bears South 60° 19' 15" East 1867.42 feet) a distance of 1868 feet to Station 972+32.

Parcel No. 1 is all that part of said property included in said strip of land between Stations 953+64 and 962+11, containing 1.55 acre.

Parcel No. 2 is all that part of said property included in said strip of land between Stations 963+23 and 967+04, containing 0.50 acre.

Parcel No. 3 is all that part of said property included in said strip of land between Stations 971+72 and 972+32, containing 0.02 acre.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Zig Zag-Rhododendron Section of the Mount Hood Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following

EXHIBIT "N"-1" (cont)

a. A right of access to the relocated Mount Hood Highway of a width not to exceed 25 feet on the North side of the said relocated highway, opposite Highway Engineer's center line station 959+00, for private residential use only.

b. A right of access to the relocated Mount Hood Highway of a width not to exceed 25 feet on the South side of the said relocated highway, opposite Highway Engineer's center line Station 964+00, for ordinary travel for private residential use and for the development, harvesting and transportation of forest products of the owners' remaining land only, and shall not be used in connection with any other commercial activity.

c. A right of access to the relocated Mount Hood Highway of a width not to exceed 25 feet on the South side of the said relocated highway, opposite Highway Engineer's center line Station 972+00, for private residential use only.

d. A right of access to the relocated Mount Hood Highway of a width not to exceed 25 feet on the South side of the said relocated highway, opposite Highway Engineer's center line Station 983+00, for private residential use only.

The above said accesses to the relocated highway from the said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said accesses for all purposes in the event of any violation.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access herein reserved to and from the aforesaid highway that are on or adjacent to any such road or roads shall cease, but the owners, their heirs and assigns, shall have access to the frontage road or roads at such places as will afford reasonable and safe connections. Said frontage roads shall be connected to the said main highway at a point not a greater distance to the West of the owners' remaining property than a point opposite Highway Engineer's center line Station 952+22.05, and a point not a greater distance to the East of the owners' remaining property than a point opposite Highway Engineer's center line Station 991+50.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "N-1" (cont)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 18th day of May, 1953.

EXHIBIT "N-2"

Minutes of May 18 and 19, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Rinehart Creek-Frankport Section of the Oregon Coast Highway; and,

WHEREAS, the said Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS. for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Rinehart Creek-

EXHIBIT "N-2" (cont)

Minutes of May 18 and 19, 1953

RESOLUTION

Frankport Section of the Oregon Coast Highway as a throughway, the following described real property in fee simple, to wit:

R-20172
Owner: Norman J. Nash, et al

A parcel of land lying in Lots 2 and 3 of Section 19 in the Southwest quarter (SW¼) of the Northwest quarter (NW¼) and the Northwest quarter (NW¼) of the Southwest quarter (SW¼) of Section 20, Township 34 South, Range 14West, W. M., Curry County, Oregon, the said parcel being that portion of said subdivisions included in a strip of land variable in width, lying on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station L^4 599+00.65, said Station being 1736.3 feet North and 251.9 feet West of the West quarter (W¼) corner of said Section 20; thence on a decreasing spiral curve left through a spiral angle of 8° 00' (the long chord of which bears South 24° 04' East) 400 feet to Station 603+00.65 back equals 599+59.94 ahead; thence South 26° 44' East 200.61 feet; thence on a spiral curve right (the long chord of which bears South 22° 14' East) 450 feet at which point the radius is 954.93 feet; thence on a spiral curve right (the long chord of which bears South 4° 14' East) 450 feet; thence on a spiral curve left (the long chord of which bears South 3° 04' East) 500 feet; thence on a 1432.39 foot radius curve left (the long chord of which bears South 21° 25' 15" East) 584.38 feet; thence on a spiral curve left (the long chord of which bears South 39° 46' 30" East) 500 feet; thence South 43° 06' 30" East 392.04 feet to Engineer's center line Station 630+36.97. Said center line crosses the North line of said Lot 2 of Section 19 approximately at Station 600+20 and the South line of said Northwest quarter (NW¼) of the Southwest quarter (SW¼) of Section 20 approximately at Station 629+10.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
599+00.65 through an equation back equals 599+59.94 ahead	603+00.65		
602+50	603+50	To existing highway 150 feet	150 feet

EXHIBIT "N-2" (cont)

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
603+50	605+50	150 feet	120 feet
605+50	610+50	100 feet	120 feet
610+50	613+50	100 feet	100 feet
613+50	615+00	100 feet on a straight line to 235 feet	100 feet
615+00	619+00	235 feet on a straight line to 160 feet	
619+00	626+44.93	160 feet on a straight line to 70 feet	
626+44.93	633+00	300 feet	
615+00	616+50		100 feet on a straight line to 220 feet
616+50	618+50		220 feet on a straight line to 190 feet
618+50	624+00		190 feet on a straight line to 135 feet
624+00	626+44.93		135 feet on a straight line to 130 feet
626+44.93	629+10		280 feet on a straight line to 0 feet (along the South line of the Northwest quarter (NW$\frac{1}{4}$) of the Southwest quarter (SW$\frac{1}{4}$) of Section 20)

The parcel of land to which this description applies contains 20.48 acres, of which 1.9 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 18.58 acres, more or less, outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Rinehart Creek-Frankport Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the West side of the said relocated highway, opposite Highway Engineer's center line Station 614+00, for ordinary travel for private residential use only.

The above said access to the relocated Oregon Coast Highway

from the said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission, shall have the power to barricade said access for all purposes in the event of any violation.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access herein reserved to or from the aforesaid highway that are on or adjacent to any such frontage road or roads shall cease, but the owners, their heirs and assigns, shall have access to the frontage road or roads at such places as will afford reasonable and safe connections. Said frontage road or roads shall be connected to the said main highway or to other public ways at a point not a farther distance to the North of the said remaining property than Highway Engineer's center line Station 602+00, and at a point not a farther distance to the South of the said remaining property than Highway Engineer's center line Station 632+00.

b. A right to cross under the relocated Oregon Coast Highway under the North approach of the highway bridge to be constructed across Myrtle Creek, for farm purposes only, said undercrossing to be $10\frac{1}{2}$ feet in height and 12 feet in width, opposite Highway Engineer's center line Station 624+11; provided, however, that upon the alienation of either of the portions of the property severed by the said relocated Oregon Coast Highway, resulting in the severed portion of said property being owned by different persons, this right of undercrossing shall be forfeited, and shall cease, and if the owners, their heirs or assigns, shall commit, suffer or permit any use of the said undercrossing for any purpose other than as a passageway from one side of the said highway to the other for farm purposes, then and in that event the right hereby reserved to the owners shall be automatically forfeited, and the Highway Commission shall have the power to close and barricade said undercrossing for all purposes. The construction of a frontage road shall not defeat the right of crossing herein reserved.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 18th day of May, 1953.

1172

EXHIBIT "N-3"

Minutes of May 18 and 19, 1953

RESOLUTION

WHEREAS, by viftue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the John Day Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Dayville-John Day Section of the said John Day Highway, and for such purpose and in connection therewith, the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper widening, improvement and maintenance of the Dayville-John Day Section of the John Day Highway, the following described real property in fee simple, towit:

R-18743
Owner: Art Morgan, et al

Parcel No. 1:

A parcel of land lying in the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 30, and in the Northwest quarter ($NW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 29, Township 13 South, Range 31 East, W.M., Grant County, Oregon, and being a portion of that property described in that deed to Art Morgan, recorded in Book 50, Page 127, of Grant County Records of Deeds, the said parcel being that portion of said property lying in said subdivisions and included in a strip of land 80 feet in width, 40 feet on each side of the center line of the John Day Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 213+86.44, said station being 1627 feet South and 1172 feet West of the North quarter ($N\frac{1}{4}$) corner

of said Section 30; thence North 81° 14' 30" East 645.3 feet; thence on a spiral curve left (the long chord of which bears North 80° 34' 30" East) 400 feet; thence on a 5729.58 foot radius curve left (the long chord of which bears North 77° 42' 15' East) 307.5 feet; thence on a spiral curve left (the long chord of which bears North 74° 50' East) 400 feet; thence North 74° 10' East 347.59 feet; thence on a spiral curve left (the long chord of which bears North 72° 50' East) 400 feet; thence on a 2864.79 foot radius curve left (the long chord of which bears North 67° 39' 15" East) 251.25 feet; thence on a spiral curve left (the long chord of which bears North 63° 28' 30" East) 400 feet; thence North 61° 08' 30" East 5.99 feet; thence on a spiral curve right (the long chord of which bears North 63° 48' 30" East) 400 feet; thence on a 1432.39 foot radius curve right (the long chord of which bears North 72° 27' 30" East) 165.83 feet; thence on a spiral curve right (the long chord of which bears North 81° 06' 30" East) 400 feet to Station 255+09.9 back equals 255+12.09 ahead; thence North 83° 46' 30" East 87.91 feet to Station 256+00, said center line crossing the South and East lines of said property approximately at Stations 229+00 and 255+70 respectively, excepting therefrom a portion of that tract heretofore conveyed by deed to the State of Oregon recorded in Book 43, Page 142, Grant County Deed Records.

The bearings used herein are based on the Oregon Coordinate System, North Zone.;

The parcel of land to which this description applies contains 1.19 acres, outside of the existing right of way.

2. The Commission does hereby further find and declare that in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired, in connection with the proposed widening, improvement and maintenance of the Dayville-John Day Section of the John Day Highway, a temporary construction easement across the following described two parcels of real property, for the purpose of realigning the channel of an irrigation ditch so that the said John Day Highway can be properly widened, improved and maintained. Said temporary construction easement is to be in effect only during the period of construction of the said realigned channel. The real property across which this temporary construction easement is required is described as follows, to wit:

Parcel No. 2:

A strip of land 20 feet in width lying Northerly of and adjacent to Parcel No. 1 and extending from a line at right angles to the center line at Station 235+00 to the Easterly line of said property, containing 0.88 acre.

Parcel No. 4:

EXHIBIT "N-3" (cont)

A strip of land 20 feet in width lying Northerly of and adjacent to the Northerly line of said Parcel No. 1 and extending from the West line of said North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) to a line at right angles to said center line at Station 231+39.24, containing 0.2 acre.

3. The Commission does hereby further find and declare that in addition to the acquisition of fee simple title to the real property hereinabove described as Parcel No. 1, and the temporary easement across the real property hereinabove described as Parcel No. 2 and Parcel No. 4, it is necessary that there be acquired, in connection with the proposed widening, improvement and maintenance of the Dayville-John Day Section of the John Day Highway, an easement across the following described real property, for the purpose of changing the channel of an irrigation ditch so that the said John Day Highway can be properly widened, improved and maintained. The real property across which this easement is required is described as follows, to wit:

Parcel No. 3:

A strip of land 60 feet in width lying Southerly of and adjacent to the Southerly line of Parcel No. 1 and extending from a line at right angles to the above described center line in said parcel at Station 248+00 to the Easterly line of said property, containing 0.6 acre.

4. That in addition to the acquisition of fee simple title to the real property hereinabove described as Parcel No. 1, and the temporary construction easement across the real property hereinabove described as Parcels No. 2 and 4, and the easement across the real property hereinabove described as Parcel No. 3, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Dayville-John Day Section of the John Day Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the John Day Highway of a width not to exceed 25 feet on the North side of the said highway, opposite Highway Engineer's center line Station 229+25, for production and transportation to market of farm products of the owners' remaining land, for operation of existing stock raising activities on the owners' remaining land, and for private residential use only.

b. A right of access to the John Day Highway of a width not to exceed 25 feet on the North side of the said highway, opposite Highway Engineer's center line Station 236+40, for production and transportation to market of farm products of the owners' remaining land, for operation of existing stock raising activites on the owners' remaining land, and for private residential use only.

c. A right of access to the John Day Highway of a width not to exceed 25 feet on the South side of the said highway, opposite Highway Engineer's center line Station 240+00, for production and transportation to market of farm products of the owners' remaining land, for operation of existing stock raising activities on the owners' remaining land, and for private residential use only.

d. A right of access to the John Day Highway of a width not to exceed 25 feet on the North side of the said highway, opposite Highway Engineer's center line Station 251+40, for production and transportation to market of farm products of the owners' remaining land, for operation of existing stock raising activities on the owners' remaining land, and for private residential use only.

The above said accesses to the highway from the said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the plaintiff shall have the power to barricade said accesses for all purposes in the event of any violation.

5. That the highway facility for which the aforesaid real property and easements are required and are being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

6. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property with respect to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire the said real property and easements.

7. That upon the trial of any suit or action instituted to acquire the said real property and easements, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be entered in full in the minutes and records of the Commission this 18th day of May, 1953.

EXHIBIT "N-4"

Minutes of May 18 and 19, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the John Day Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Dayville-John Day Section of the said John Day Highway, and for such purpose and in connection therewith, the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Dayville-John Day Section of the John Day Highway, the following described real property in fee simple, to wit:

R-18732
Owner: Josephine Holland, et vir

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 27, Township 13 South, Range 30 East, W.M., Grant County, Oregon, the said parcel being that portion of said Northeast quarter ($NE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) lying Easterly and Northerly of the present John Day Highway and included in a strip of land 80 feet in width, 40 feet on each side of the center line of the John Day Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 75+98.91, said Station being 2292.9 feet North and 1382.3 feet West of the East quarter ($E\frac{1}{4}$) corner of said Section 27; thence on a spiral curve right (the long chord of which bears South

71° 20' East) 400 feet; thence on a 2864.79 foot radius curve right (the long chord of which bears South 64° 42' 25" East) 395.97 feet; thence on a spiral curve right (the long chord of which bears South 58° 04' 50" East) 400 feet; thence South 56° 44' 50" East 66.1 feet; thence on a spiral curve left (the long chord of which bears South 57° 28' 36" East) 250 feet; thence on a 3274.04 foot radius curve left (the long chord of which bears South 69° 58' 35" East) 1261.78 feet to center line Station 103+72.76; said center line crossing the Northeasterly right of way line of the present John Day Highway approximately at Station 83+50 and the East line of said Northeast quarter (NE$\frac{1}{4}$) approximately at Station 91+22.

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 1.43 acres.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Dayville-John Day Section of the relocated John Day Highway and the said Dayville-John Day Section of the present existing John Day Highway between Highway Engineer's center line Station 70+60 and Highway Engineer's center line Station 91+11, and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the present existing John Day Highway of a width not to exceed 25 feet on the North side of the said highway, opposite Highway Engineer's center line Station 75+00, for the production and transportation to market of farm products of the owners' remaining land, and for private residential use only.

b. A right of access to the present existing John Day Highway of a width not to exceed 25 feet on the North side of the said highway, opposite Highway Engineer's center line Station 80+00, for the production and transportation to market of farm products of the owners' remaining land, and for private residential use only.

c. A right of access to the relocated John Day Highway of a width not to exceed 25 feet on the North side of the said relocated highway, opposite Highway Engineer's center line Station 90+00, for the production and transportation to market of farm products of the owners' remaining land, and for private residential use only.

EXHIBIT "N-4" (cont)

d. A right of access to the relocated John Day Highway of a width not to exceed 25 feet on the South side of the said relocated highway, opposite Highway Engineer's center line Station 90+00, for the production and transportation to market of farm products of the owners' remaining land, and for private residential use only.

The above said accesses to the relocated highway from the said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State shall have the power to barricade said accesses for all purposes in the event of any violation.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property with respect to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire the said real property.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, and the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 18th day of May, 1953.

EXHIBIT "N-5"

Minutes of May 18 and 19, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Lapine-Willamette Highway Junction Section of The Dalles-California Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper widening,

2172

EXHIBIT "N-5" (cont)

improvement and maintenance of the Lapine-Willamette Highway Junction Section of the The Dalles-California Highway as a throughway, the following described real property in fee simple, to wit:

R-17939
Owner: Clarence V. Parsons, et al

A parcel of land lying in the Southwest quarter (SW$\frac{1}{4}$) of the Southeast quarter (SE$\frac{1}{4}$) of Section 8, Township 24 South, Range 9 East, W.M., Klamath County, Oregon, the said parcel being that portion of said Southwest quarter (SW$\frac{1}{4}$) of the Southeast quarter (SE$\frac{1}{4}$) lying Easterly of a line which is parallel to and 200 feet Westerly of the center line of the The Dalles-California Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1446+00, said Station being 230 feet North and 1080 feet West of the Southeast corner of said Section 8; thence South 37° 01' West 600 feet to Station 1452+00, the Westerly line of said parcel crossing the East and South lines of said Southwest quarter (SW$\frac{1}{4}$) of the Southeast quarter (SE$\frac{1}{4}$) approximately opposite Stations 1446+65 and 1449+95, respectively, containing 0.55 acre, more or less.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Lapine-Willamette Highway Junction Section of the The Dalles-California Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the The Dalles-California Highway of a width not to exceed 25 feet on the West side of the said highway, opposite Highway Engineer's center line Station 1448+50, for production and transportation to market of farm products of the owners' remaining land, for the development, harvesting and transportation to market of forest products of the owners' remaining land, and for private residential use only.

Said access from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; there-

upon, all rights of access herein reserved to and from the aforesaid highway that are on or adjacent to any such frontage road or roads shall cease, but the owners, their heirs and assigns, shall have access to the frontage road or roads at such places as will afford reasonable and safe connections. Said frontage road or roads shall be connected to the said main highway or to other public ways only at such point or points as may be designated by the State.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 18th day of May, 1953.

EXHIBIT "N-6"

Minutes of May 18 and 19, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the John Day Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Dayville-John Day Section of the John Day Highway, and for such purpose and in connection therewith, the real property hereinafter described is necessary, and access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper widening, improvement and maintenance of the Dayville-John Day Section of the John Day Highway, the following described real property in fee simple, to wit:

R-20036
Owner: Grant County School District No. 3, et al

A parcel of land lying in the Northwest quarter (NW$\frac{1}{4}$) of the Northeast quarter (NE$\frac{1}{4}$) of Section 30, Township 13 South, Range 31 East, W.M., Grant County, Oregon, and being a portion of a one-half acre tract around Schoolhouse as excepted in that deed to Art Morgan, recorded in Book 50, Page 127, of Grant County Records of Deeds, the said parcel being that portion of said tract included in a strip of land 40 feet in width, lying on the Southerly side of the center line of the John Day Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 231+39.24, said Station being 1293 feet South and 547 feet East of the North quarter (N$\frac{1}{4}$) corner or said Section 30; thence North 74° 10' East 347.59 feet; thence on a spiral curve left (the long chord of which bears North 72° 50' East)

400 feet to Station 238+86.83, the Southerly line of said strip of land crossing the Westerly and Easterly line of said tract approximately opposite Stations 234+35 and 236+67, respectively.

The parcel of land to which this description applies contains 0.1 acre outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Dayville-John Day Section of the John Day Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the John Day Highway of a width not to exceed 25 feet on the South side of the said John Day Highway, opposite Highway Engineer's center line Station 235+42, for private residential use only.

The above said access to the John Day Highway from the said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to barricade said access for all purposes in the event of any violation.

3. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said real property.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State High-

EXHIBIT "N-6" (cont)

way Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 18th day of May, 1953.

EXHIBIT "N-7"

Minutes of May 18 and 19, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more ad equately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be established, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property herein-

after described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper establishment construction and maintenance of the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway as a throughway, the following described real property in fee simple, to wit:

R-19569
Owner: Gregory V. Bride, et al

Parcel No. 1:

A parcel of land lying in Block 33, Capitol Hill, a subdivision lying in Section 21, Township 1 South, Range 1 East, W.M., Multnomah County, Oregon, the said parcel being described as follows:

Beginning at the Northwest corner of Lot 5 of said Block 33; thence East 25 feet; thence Southwesterly 32 feet to a point on the West line of said Lot 5, distant thereon 20 feet from the Northwest corner thereof; thence North 20 feet to the place of beginning, containing 250 square feet.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. The Commission does further find and declare that the acquisition of the real property hereinabove described as Parcel No. 1 and the denial of access thereto will result in depriving the owners of all means of access from their remaining real property lying immediately South of the real property hereinabove described as Parcel No. 1 to any public way, and that, therefore, it is in the best interests of the owners and the State for the State to acquire fee simple title to the entire tract of real property described as Lot 5, Block 33, Capitol Hill, a subdivision, situated in Section 21, Township 1 South, Range 1 East, W.M., Multnomah County, Oregon, which said tract includes that portion thereof hereinabove described as Parcel No. 1 and the real property described as follows, to wit:

Parcel No. 2:

All of Lot 5, Block 33, Capitol Hill, a subdivision, situated in Section 21, Township 1 South, Range 1 East, W.M., Multnomah

County, Oregon, except Parcel No. 1 as described above, containing 4,750 square feet.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 18th day of May, 1953.

EXHIBIT "N-8"

Minutes of May 18 and 19, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Elbow Lake-Gardiner Section of the Oregon Coast Highway; and

WHEREAS, the said Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary;

NOW, THEREFORE BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Elbow Lake-Gardiner Section of the Oregon Coast Highway as a throughway, the following described real property in fee

(cont.)

simple, to wit:

R 19655
Owner: Gardiner Lumber Company

Parcel No. 1:

A parcel of land lying in the Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 15, Township 21 South, Range 12 West, W. M., Douglas County, Oregon, the said parcel being that portion of said Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) included in a strip of land of variable width, lying on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 485+00, said Station being 1147.56 feet South and 16.24 feet East of the Northwest corner of said Section 15; thence South 50° 12' East 615.18 feet; thence on a spiral curve right (the long chord of which bears South 48° 52' East) 400 feet; thence on a 2864.70 foot radius curve right (the long chord of which beats South 44° 33' East) 165 feet; thence on a spiral curve right (the long chord of which bears South 40° 14' East) 400 feet; thence South 38° 54' East 419.82 feet to Station 505+00, said center line crossing the North and East lines of said Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) approximately at Stations 487+51 and 502+22, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
485+00	495+15.18	175 feet	150 feet
495+15.18	499+00	150 feet	175 feet
499+00	503+00	150 feet	250 feet
503+00	505+00	150 feet	200 feet

The parcel of land to which this description applies contains 9.20 acres, outside of the existing right of way.

Parcel No. 2:

A parcel of land being a portion of Addison C. Gibbs Donation Land Claim No. 37, and a portion of Lots 2 and 3, Section 15, Township 21 South, Range 12 West, W. M., Douglas County, Oregon, the said parcel being a strip of land extending from

(cont.)

the North line of said Lots 2 and 3 to the Northerly line of the existing Smith River County Road, said strip of land being of variable width lying on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 500+80.18, said Station being 2227.28 feet South and 1164.13 feet East of the Northwest corner of said Section 15; thence South 38° 54' East 877.88 feet; thence on a spiral curve right (the long chord of which bears South 37° 34' East) 400 feet; thence on a 2864.79 foot radius curve right (the long chord of which bears South 32° 52' East) 203.33 feet; thence on a spiral curve right (the long chord of which bears South 28° 10' East) 400 feet; thence South 26° 50' East 1160.33 feet to Station 531+21.72 back equals 689+23.30 ahead; thence on a spiral curve right (the long chord of which bears South 22° 50' East) 400 feet to Station 685+23.30, said center line crossing the North line of said Lot 3 and the center line of said county road approximately at Stations 506+20 and 688+20 respectively, excepting that portion of said strip lying within the existing right of way.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
504+00	508+00	150 feet	200 feet
508+00	513+58.06	150 feet	175 feet
513+58.06	520+00	100 feet	100 feet
520+00	522+00	125 feet	100 feet on a straight line to 50 feet
522+00	525+00	125 feet	50 feet
525+00	531+21.72 back equals 689+23.30 ahead	125 feet	To Westerly line of existing Oregon Coast Highway
689+23.30	688+00	125 feet	To Westerly line of existing Oregon Coast Highway

The parcel of land to which this description applies contains 9.87 acres, outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished

all existing, future or potential rights of access between the right of way of the Elbow Lake-Gardiner Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the West side of the said highway, opposite Highway Engineer's center line Station 524+10.

b. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the West side of the said highway, opposite Highway Engineer's center line Station 687+30.

c. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the West side of the said highway, opposite Highway Engineer's center line Station 662+60.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 18th day of May, 1953.

2174

EXHIBIT "O"

Minutes of May 18 and 19, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Tigard-Tualatin River Section of the Pacific Highway West; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper widening, improvement and maintenance of the Tigard-Tualatin River Section of the Pacific Highway West as a throughway, the following described real property in fee simple, to wit:

(cont.)

EXHIBIT "O" (cont.)

R 18647 and R 18648
Owner: William Fisher, et al

A parcel of land lying in the Northwest quarter ($NW\frac{1}{4}$) of Section 15, Township 2 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of the following described property: Those tracts described in those deeds to William Fisher and Sopha Fisher, recorded in Book 293, Page 431, in Book 158, Page 151, and in Book 159, Page 379, and that tract described in that deed to William L Fisher, recorded in Book 112, Page 513, and that tract described in that deed to Wm. I. Fisher, recorded in Volume 131, Page 636, of Washington County Records of Deeds, the said parcel being that portion of said property lying Westerly of a line parallel to and 50 feet Easterly of the center line of the Northbound lane of the Pacific Highway West as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 212+45.73, said Station being 644.43 feet South and 594+70 feet West of the North quarter ($N\frac{1}{4}$) corner of said Section 15; thence on a 3819.72 foot radius curve to the left (the long chord of which bears South 11° 54' West) 771.67 feet to Station 220+17.4; thence on a spiral curve to the left (the long chord of which bears South 4° 14' 15" West) 375 feet to Station 223+92.40; thence South 3° 18' West 83.65 feet to Station 224+76.05 back equals 224+79.40 ahead; thence South 3° 18' West 520.6 feet to Station 230+00, said Easterly line crossing the Northerly and Southerly lines of said property approximately opposite Stations 216+50 and 227+49.5, respectively.

The parcel of land to which this description applies contains 1.945 acres.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there shall be no rights of access of any nature between the right of way of the said Pacific Highway West and all of the owners' contiguous real property which abuts on the said highway remaining after the sale or appropriation of the above described real property; except that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the Pacific Highway West of a width not to exceed 25 feet on the East side of the said highway, opposite Highway Engineer's center line Station 218+17, for private residential use only.

(cont.)

EXHIBIT "O" (cont.)

b. A right of access to the Pacific Highway West of a width not to exceed 25 feet on the East side of the said highway, opposite Highway Engineer's center line Station 218+75, for private residential use only.

c. A right of access to the Pacific Highway West of a width not to exceed 25 feet on the East side of the said highway, opposite Highway Engineer's center line Station 222+50, for private residential use only.

d. A right of access to the Pacific Highway West of a width not to exceed 50 feet on the East side of the said highway, opposite Highway Engineer's center line Station 226+10.

Said accesses from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said accesses for all purposes in the event of any violation.

3. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 18th day of May, 1953.

TABLE OF CONTENTS

Page	Date 1953	Subject
21743	June 8	Commission Inspection Trip into northwestern Oregon, June 8-11, 1953.
		Clackamas County. Mt. Hood Highway. Zigzag-Rhododendron Section. Relocation survey approved. Resolution adopted.
21745		Clatsop County. Astoria Ferries. I. A. DeFrance and Floyd H. Simon authorized to sign registration documents. Resolution adopted.
21746		Construction Projects. Program for unobligated balances of Federal Aid Funds discussed. Action deferred.
	June 9	Oregon Coast Highway. Astoria-Newport Section. Improvements and state parks inspected.
		Corvallis-Newport Highway. To Corvallis. Improvements and parks inspected.
21747		Tillamook County. Nehalem. Nehalem Bay Expansion Association. Delegation requests improvements. Further study to be given.
21748		Tillamook County. Tillamook. Highway and parks improvements requested by delegation.
		Benton County. Corvallis. Corvallis Chamber of Commerce. Commission dinner guests at Benton Hotel.
	June 10	Corvallis to Bend. Attended Detroit Dam dedication, inspected Forest Service buildings, then on to Bend.
21749	June 11	Bend to The Dalles via US97 and US 197. Inspected proposed hwy. suggested by County Judge Webber.
		Construction Program for unobligated balances of Federal Hwy. Funds adopted.
21751		Inspected new Columbia River Bridge construction with County Court.
		Returned to Portland via Upper Columbia River Hwy.
21752	June 25	Bids received on construction projects.
21756		Parks Supt. reports on following matters:
		Proposed development of Koberg Park. Hood River County. Improvements discussed; no action.
		Park information in certain state parks. Erection of ten signs approved.
21757		Vista House. Crown Point. Columbia River Hwy. Concession agreement with Jack Flaucher extended for one year.
		Sunset Hwy. Forest Wayside. Clatsop County. Sale of down timber confirmed.
		Saddle Mt. State Park. Clatsop County. Easement to State Board of Forestry for construction of lookout building approved.
		Cape Lookout State Park. Tillamook County. Extension of agreement with Soil Conservation Service approved.
		Yaquina Bay State Park Lighthouse. Lincoln County. Historical Society granted balance of year to raise funds for repairs.

Page	Date 1953	Subject
21758	June 25	Blue Lake. Jefferson County. Acceptance of deed for land donated by the Corbetts approved.
		Spencer Creek Park. Lincoln County. Change in name of park to "Beverly Beach Park" approved.
		Honeyman State Park. Lane County. Increase in swimming rates and plan for development approved.
		Robert W. Sawyer Forest Wayside. Deschutes County. Engineer to investigate possible improvements requested by Mr. Sawyer.
		Real Property. Acquisition authorized. See EXHIBIT "A".
21759		Multnomah County. Banfield Expressway. Engineer to make status report re present and contemplated construction.
		Grant County. Pendleton-John Day Hwy. Long Creek Maintenance Headquarters Site. Purchase of property confirmed.
		Sales of miscellaneous properties confirmed.
		Wallowa County. Joseph-Wallowa Lake Secdy. Hwy. Wallowa Lake State Park. Acquisition of Wiggins property deferred.
		Hood River County. Columbia River Hwy. Port of Hood River Commission. Settlement of damage claim to boat basin approved.
21760		Deeding of 0.153 acre to Port approved.
		Lane County. Florence. Gallagher's Addition. Block 52. Transfer of property to County approved.
		Lane County. Willamette Hwy. Lookout Point Reservoir. Granting of access to the US Corps of Engineers approved.
		Union County. Old Oregon Trail. Ladd Canyon Section. North Powder Connection. Access to Dalton property approved.
		Changes in points of access approved for following properties:
		Coos County. Oregon Coast Hwy. Bay Park-Delmar Section. Baker property.
		Coos County. Oregon Coast Hwy. Coos Bay-Coquille Section. Franz property.
		Jackson County. Pacific Hwy. Medford-County Farm Section. Rynning property.
21761		Douglas County. Oregon Coast Hwy. Clear Lake-Forest Boundary Section. West property.
		Jackson County. Pacific Hwy. Medford-County Farm Section. Wood property.
		Coos County. Oregon Coast Hwy. Bay Park-Delmar Section. Nullet property.
		Marion County. Silver Creek Falls Secdy. Hwy. Silver Creek Falls State Park. Sale of timber authorized. See EXHIBIT "B".
		Acquisition of roadway easement for timber outlet approved.
		Meeting recessed at 12:00 noon and reconvened at 2:00 p.m.
		Wasco County. The Dalles. Laughlin's Addition. 3rd Street. Sale of land to City approved. See EXHIBIT "C".
		Coos County. North Bend. Coos Bay Plat "B" Addition. Sale of property to City approved.
21762		Wasco County. Columbia River Hwy. The Dalles. Laughlin's Addition. Strip of land deeded to Kellers.
		Polk County. Dallas-Coast Secdy. Hwy. Salt Creek-Dolph Corner Section. Strip of land deeded to Hoekstres.

Page	Date 1953	Subject
21762	June 25	Linn County. Santiam Hwy. Cottonwoods Corner. (Albany east). Exchange of property with the Vians approved.
		Deschutes County. The Dalles-California Hwy. City of Redmond's request for annexation of property approved.
21763		Klamath County. Green Springs Hwy. Renewal of two Ground Leases for storage approved.
		Grant County. John Day Hwy. Dayville-Mt.Vernon Section. Lease from Arizona Barnes for use of gravel pit approved.
		Bonds. Proposed sale of $32,000,000 issue discussed. Special meeting set for July 22, 1953.
		Condemnations. Authority granted to acquire properties; see EXHIBITS "O-1" through "O-11".
21765		Court cases re acquisition of land. Report made as follows:
21766		Washington County. Sunset Hwy. Raab Road. SW Scholls Ferry Road. State vs Mary E. Baker.
		Multnomah County. Sunset Hwy. Canyon Road Section. State vs Bert M. Butler. Engineer and Counsel to report further on reason for acquisition.
		Gilliam County. Columbia River Hwy. Arlington-Heppner Jct. Section. State vs Ralph D. Phillips.
		Marion County. Pacific Hwy. East. Salem By-pass Section. State Street South Unit. State vs Helen R. Edmunson.
		Wasco County. Columbia River Hwy. The Dalles Section. State vs Arthur N. Muller.
21767		Coos County. Oregon Coast Hwy. Reedsport-Hauser Section. Forest Boundary-Hauser Unit. State vs H.W. Senter.
		Multnomah County. Banfield Expressway. Portland. State vs Steve Calcagno.
		Leroy Lumber Company vs Oregon State Hwy. Commission. Action dismissed.
		Settlement of following cases re land acquisition approved:
		Clackamas County. West Portland-Hubbard Hwy. Barbur Blvd.-Marion County Line Section. State vs Jennie Halberstadt.
		Coos County. Oregon Coast Hwy. Hauser-North Bend Section. State vs Neil F. Ferre.
		Coos County. Oregon Coast Hwy. Hauser-North Bend Section. State vs Velva Ricketts Ferre.
21768		Clackamas County. West Portland-Hubbard Hwy. Barbur Blvd.-Marion County Line Section. State vs Frank H. Anderson.
		Douglas County. Pacific Hwy. Elkhead Road-Rice Hill Section. State vs Harold Turpin.
		Tillamook County. Oregon Coast Hwy. Bay City-Tillamook Section. State vs Anna Olive Neilson.
		Wallowa County. Little Sheep Creek Secdy. Hwy. Joseph-Hayden Gulch Section. State vs Margaret Pooler.
		Malheur County. Old Oregon Trail. Ontario Spur. State vs J. S. Chambers. Enforcement of option to convey land.
		Lane County. Willamette Hwy. State vs George F. Steiner. Damages to state-owned Snogo.

Page	Date 1953	Subject
21768	June 25	Clackamas County. West Portland-Hubbard Hwy. Barbur Blvd.-Marion County Line Section. State vs Leslie M. Erickson.
21769		Multnomah County. Sunset Hwy. Canyon Road Section. State vs Duane Investment Company.
		Washington County. Beaverton-Aurora Secdy. Hwy. Tualatin River Bridge. State vs Earl Ayers. Ed Freeman and Howard Levil Johnson. Case to recover sum for destruction of bridge.
		Condemnation cases. Offers for property approved.
21770		Grant County. John Day. Agreement with California Pacific Utilitites Company to use their radio facilities approved.
		Umatilla County. Pendleton-Cold Springs Hwy. M.P. 13.93. Start of legal action against Anna E. Davis, Jack M. Davis, and Charolla Craddock for damages to station wagon. Confirmed.
		Multnomah County. Portland. Canyon Road. Payment to Elmer Helmke for loss of nursery stock approved.
		Removal of frontage road provisions in deeds and complaints approved on following properties:
		Grant County. John Day Hwy. Mt. Vernon-John Day Section. Holland, Morgan, and School District #20.
		Douglas County. Oregon Coast Hwy. Elbow Lake-Gardiner Section. South Unit. Gardiner Lumber Company.
		Curry County. Oregon Coast Hwy. Rinehart Creek-Frankport Section and Rinehart Creek-Euchre Creek Section. Winston W. Chambers.
21771		Award of contracts. Engineer reports satisfaction of conditions.
21772		Tillamook County. Netarts-Cape Lookout Secdy. Hwy. Cape Lookout Park. Re-assignment of contract to Ferguson-Cassidy Company approved.
		Wasco County. Columbia River Hwy. Mosier west. Request of Columbia-Hudson Company for construction of log dump denied.
21773		Used equipment and scrap materials. Results of bids on June 15th considered and accepted with exception of item No. 8. Item No. 52. Albert's bid withdrawn due to error.
		Jackson County. Pacific Hwy. Ashland. Engineer reports on survey re improvements of hwy. through city.
		Baker County. Old Oregon Trail. Baker. Broadway Avenue and Main Street. Report on traffic survey. Action deferred.
21774		Marion County. North Santiam Secdy. Hwy. Mehama-Salem Section. Survey for location of hwy.
		Clackamas County. Oswego Hwy. Oswego. City adopts parking regulations. Approved by Commission.
		Klamath County. Crescent Lake Road. Willamette Hwy. Jct. to Crescent Lake. Request for oiling approved.
		Hood River County. Columbia River Hwy. Herman Creek east. Slide area. Further corrective measures authorized.
		Sherman County. The Dalles-California Hwy. Moro RR Grade Separation. Transfer of 1954 FAS funds for project approved.

Page	Date 1953	Subject
21775	June 25	Surveys approved for relocation of 4 sections of hwys.; see EXHIBITS "N-1" and "N-2". Baker County. Baker-Homestead Hwy. Love Bridge-Black Bridge Section. East Unit. Lane County. Willamette Hwy. Deception Creek-Oakridge Section. Grant County. John Day Hwy. Fields Creek-John Day Section Deschutes County. The Dalles-California Hwy. Crooked River-Terrebonne Section.
		Coos County. Oregon Coast Hwy. Coquille-Bandon Section. Mr. Thompson's request for stock-pass denied.
		Grant County. John Day Hwy.-Beech Creek Secdy. Hwy. intersection. Mt. Vernon. Request for flashing beacon denied.
		Marion County. North Santiam Secdy. Hwy. Stayton. Request for two traffic signals. One approved; one denied.
21776		Jackson County. Ashland. Request for traffic signals and crosswalks denied. Larger "School Crossing" signs approved.
		Jackson County. Snider Creek Bridge on FAS 273. Griffin Creek Bridge on FAS 274. County to build bridges. FAS funds into 1955 allotment.
21777		Hood River and Wasco Counties. Columbia River Hwy. Hood River-Mosier Section. Contract #3562. Increase in authorization approved.
		Gilliam County. Heppner Jct. Overcrossing. Contract #3885. Increase in authorization approved.
		Marion County. Salem. South 12th Street. County Court's request for maintenance of street denied.
		Josephine County. Redwood Hwy. Applegate Bridge and West Fork, Illinois Bridge. One-way signals approved.
		Coos County. Oregon Coast Hwy.-Millington Road intersection. Coos Bay south. Installation of two luminaire units approved.
		Hood River County. Columbia River Hwy. Mitchell Point. Tour Inn. Request for luminaire at intersection with hwy. denied.
21778		Gilliam County. Arlington. Main Street. State to move house encroaching on hwy. r/w.
		Tillamook County. Oregon Coast Hwy. Bay City-Garibaldi Section. Request for reconstruction denied.
		Klamath County. Willamette Pass Ski Area. Request for additional parking space approved.
		Lane County. Pacific Hwy. Jct. (old and new). Judkins Point-Goshen Section. Installation of 3 lights at jct. approved.
21779		Deschutes County. The Dalles-California Hwy.-Tumalo-Deschutes Road intersection. Installation of crossroads symbols approved.
		Lake County. Warner Secdy. Hwy. Drake Creek-Adel Section. Contract #3439. Settlement with bonding company discussed.
		Multnomah County. Swift Secdy. Hwy. North Portland. Installation of two flashing beacons denied.

Page	Date 1953	Subject
21780	June 25	Umatilla County. Old Oregon Trail. Meacham. Transfer of funds for storage building approved.
		Wasco County. Columbia River Hwy. (old). The Dalles. Request for traffic lights, turn-out and holding lane approved conditionally.
		State Tax Street Funds. Plans approved. See EXHIBITS "D-1" and "D-2".
21781		Extensions of time to complete contracts granted.

INSPECTION TRIP

June 8 through June 11, 1953

During the four day period commencing Monday, June 8, 1953, and ending Thursday, June 11, 1953, the members of the State Highway Commission made a personal inspection of state highways in the northwestern part of the state, viewing contract work under construction, recently completed projects, projects proposed for the future, and a number of state parks. Present during this trip were the following:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2nd Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
C. H. Armstrong, State Parks Superintendent
Ralph Watson, Public Relations Consultant
H. B. Glaisyer, Secretary

Also present in the group were A. G. Skelton, Division Engineer, who accompanied the Commission through Division No. 1; J. D. Walker, Division Engineer, who accompanied the Commission through Division No. II; William E. Chandler, Division Engineer, and Dean Swift, Assistant Division Engineer, who accompanied the Commission through Division No. IV; W. L. MacDonald, Highway Engineer, U. S. Forest Service; and Don J. Sterling, Jr., representing the Oregon Journal.

Following is a brief resume of events that occurred during the progress of this inspection trip and action taken by the Commission on special items:

Portland, Oregon
June 8, 1953

The morning hours were spent inspecting highways in and adjacent to the City of Portland. During the progress of this inspection the Commission considered and disposed of the following matters:

1. Approval of the relocation survey for the Zigzag-Rhododendron Section of the Mt. Hood Highway in Clackamas County: The Engineer exhibited a map showing the proposed location and explained details. He pointed out that the change is a forest highway section and if the Commission approves and adopts the survey, then the U. S. Bureau of Public Roads will be in position to advertise construction of the project for bids to be received at an early date. He recommended approval of the survey at this time. The Commission approved the recommendation unanimously

by adoption of the following resolution relative thereto upon motion by Commissioner McIver which was duly seconded by Commissioner Reynolds:

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Zigzag-Rhododendron Section of the Mt. Hood Highway in Clackamas County, and in connection therewith to prepare a map showing the route and location of said section of said highway and to file said report and record with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the survey of the Zigzag-Rhododendron Section of the Mt. Hood Highway beginning at Highway Engineer's Station 899+00 west of the hamlet of Zigzag and extending in an easterly direction to Highway Engineer's Station 1032+83.2 at the easterly edge of the community of Rhododendron, together with the map which for identification purposes bears map File No. 6B-30-16, the date of May, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in the State Highway Building at Salem, Oregon.

2. That when the above said section of said highway is permanently constructed the same shall be done in accordance with said survey and location, unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That the survey of said section of the Mt. Hood Highway has been made within the meaning and purpose of Chapter 226, Oregon Laws 1947,

commonly known as the Throughway Law, and was likewise made within the scope and purpose of those certain resolutions hitherto approved and adopted by the Highway Commission on November 3, 1948 and February 18, 1953, respectively, which resolutions designated certain highways and sections thereof as throughways. Therefore, the construction of the above named section of said highway shall be accomplished pursuant to and within the meaning and scope of the said law and said resolutions.

5. That this resolution be entered in the minutes and records of the Commission as of the 8th day of June, 1953.

---

2. Delegation of authority to Mr. I. A. DeFrance, Assistant Maintenance Engineer, and Mr. Floyd H. Simon, District Maintenance Superintendent, to sign and execute either jointly or individually, as the case may be, in behalf of the State Highway Commission, all marine and U. S. Treasury Department documents as may be required by the Office of the Collector of Customs in connection with the licensing of the Astoria ferries, M. R. Chessman, Tourist No. 3, and Tourist No. 2: The Engineer explained that the Federal laws require registration of these vessels with the Collector of Customs, and that the registration of any motor vessel is valid for one year only, therefore, subject to renewal annually. He further stated that the registration of the three vessels under discussion expires on this day, so if they are to be operated legally, they must be re-registered at once. As a result of this discussion, the Commission authorized Mr. DeFrance and Mr. Simon to act for the Commission on such matters. The following resolution relative thereto was adopted by the Commission by unanimous vote:

RESOLUTION

WHEREAS, the Highway Commission, since June 1, 1946, has operated ferry service between Astoria, Oregon, and Megler, Washington, as a connection between that certain highway known as US101 in the State of Oregon, with the same highway in the State of Washington, and

WHEREAS, the furnishing of such ferry service requires the operation of the following motor vessels, to-wit: M. R. Chessman, Tourist No. 3, and Tourist No. 2, and

WHEREAS, the laws of the United States Government require the registration of the aforesaid vessels with the Collector of Customs, and

WHEREAS, the registration of any motor vessel with the Collector of Customs is valid for one year only and, therefore, subject to renewal annually, and

WHEREAS, it is cumbersome, inconvenient and burdensome for the Highway Commission to make a special trip to the Customs House

located in Astoria annually to sign and execute the documents necessary to register the said vessels, and

WHEREAS, it is deemed to be necessary and in the public interest that the Highway Commission be relieved of the above mentioned burdensome duties, and that the same be duly delegated to responsible employees of the State Highway Department, as hereinafter set forth,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That Floyd H. Simon, District Maintenance Superintendent, and I. A. De France, Assistant Maintenance Engineer, both of whom are employees of the Oregon State Highway Department, be delegated and hereby are delegated and authorized to sign and execute, either jointly or individually, as the case may be, for and on behalf of the State Highway Commission, all marine and Collector of Customs, U. S. Treasury Department, documents necessary and required by the Office of Collector of Customs, for the continued "Enrollment of License" for the following motor vessels, to-wit: M. R. Chessman, Tourist No. 3, and Tourist No. 2.

2. This resolution shall be entered in the minutes and records of the Highway Commission on this 8th day of June, 1953.

The Commission discussed adoption of a program for unobligated balances of Federal Aid Funds, totaling $420,000 Primary Funds, $1,060,000 Urban Funds, and $435,000 Secondary Funds. The Engineer presented a list of desirable projects, dated May 15, 1953. Action thereon was deferred by the Commission until later in the trip. (The Commission adopted the program recommended by the Engineer during its stop-over in The Dalles on Thursday, June 11, 1953. See ahead for additional paragraph.)

Following the morning inspection, the Commission returned to Portland for luncheon and thereafter at 3:00 p.m., motored to Astoria over the Lower Columbia River Highway, inspecting highway projects enroute. An overnight stop was made at Astoria and the trip resumed on the following morning.

Tuesday, June 9, 1953
Enroute from Astoria to
Corvallis

The Commission resumed its inspection trip, leaving Astoria at 8:30 a.m. Highway improvements and state parks were inspected along the Oregon Coast Highway as far south as Newport, and along the Corvallis-Newport Highway to Corvallis.

At 11:15 a.m. the Commission met with a delegation representing the Nehalem Bay Expansion Association at Manzanita Junction Cafe, a short distance west of the town of Nehalem. The local group was composed of eleven people headed by Mr. K. A. Banks, Secretary of the Association, and included the following: Messrs. Glen Spicer, President, Merle Ferrell, Lee Meade, Postmaster of Nehalem, Larkin, Cherry, Ben Lane, Mrs. Webber and others. Mr. Meade was principal spokesman. He stated that their association consists of citizenry of the Nehalem Bay Recreational Area which includes the towns of Brighton, Wheeler, Mohler, Nehalem, Bayside Gardens, Manzanita Beach, and Neahkahnie. He asked the Commission for the following: That a study be made of a proposed highway connecting the Sunset Highway at Elsie with the Necanicum Highway at a place known as Markam and Callow Camp, about seven miles north of the town of Mohler.

Mr. Meade alleged that construction of this "cut-off" highway will provide the shortest route to the sea from metropolitan Portland, being seven miles shorter than the Hamlet Junction route. He further stated that the road is now partially built and there remains only about three miles to construct. He alleged that the people of this district were promised this "cut-off" road by former State Highway Commissioner Charles K. Spaulding when the Seaside and Tillamook areas had been taken care of. He further mentioned that this route was considered by a former Highway Commission along with the other routes during the time "Portland's Short Road to the Sea" was first discussed, being known then as the Ridge Route. Mr. Banks endorsed Mr. Meade's remarks. Mr. Lane asked for two projects: (1) construction of a park road on the Nehalem Sand Spit and (2) establishment of a roadway extending across Short Sand Beach State Park from U.S. Highway 101 to the summit of Neahkahnie Mountain. He said that such road will provide one of the world's highest, if not the highest, accessible ocean view points directly above the sea.

Chairman Chandler responded to the group stating that the Commission will take their requests under advisement for study.

The meeting adjourned at 11:30 a.m., following which the Commission motored to the City of Tillamook where the Commission luncheoned at 12:30 p.m. with a representative local group, consisting of 14 businessmen, in a place known as Victory House, a short distance south of the city proper. Included in the local group were the following: County Judge O. E. Effenberger, County Commissioner August Schollmeyer, Hon. H. C. Elliott, Mayor of the City of Tillamook, Verne Tinnerstet, Manager of Chamber of Commerce, Charles Ross, and Arthur O. Waud, Manager of Oregon Coast Association. Informal discussion was held following the luncheon, during which Chairman Chandler gave the group a brief outline of the objectives of the inspection trip, particularly mentioning the proposed developments at Cape Lookout State Park and construction

of a proposed extension of the Wilson River Highway from Glenwood to a connection with the Sunset Highway near North Plains. As to Cape Lookout State Park, he advised that the Commission has in mind to develop an overnight camping area that will accommodate about thirty parties, and is estimated to cost about $60,000. As to the Wilson River Highway extension, he said that the survey has been completed and adopted by the Commission following the old railroad grade and that the right of way is nearly all acquired. This project, he said, is scheduled to be financed with monies derived from the sale of bonds which were authorized by the 1953 Legislature, so it should not be too long before work is done, although the Commission is somewhat concerned about the sale of the bonds. However, an attempt is to be made to sell them early in August.

Judge Effenberger mentioned a hazardous condition on U.S. 101 at the north entrance of the City of Tillamook and requested that it be eliminated. The Engineer advised that he will investigate the condition and report his findings to the Commission. Mayor Elliott inquired as to when the Commission proposes to construct the new Wilson River Highway entrance into the City of Tillamook. He was informed by Chairman Chandler that such improvement is included in the Federal Aid Program for either 1955 or 1956. At the request of Judge Effenberger, Mr. Armstrong, Parks Superintendent, gave a few facts concerning Cape Lookout State Park and the proposed developments at that place. Judge Effenberger then mentioned a prospective state park in the Cape Mears Lighthouse area. He also stated that the County is interested in construction of a roadway extending from Oceanside to Bayocean, mentioning that the County has between $50,000 and $75,000 available to assist in financing the work. He suggested designation of the road as a Federal Aid Secondary County Road, and he expressed the hope that an arrangement can be effected with the State to build the road. He asked the Commission to authorize the Engineer to make an investigation. The Commission took no action.

The meeting adjourned at 1:30 p.m., following which the Commission motored to Cape Lookout State Park, thence to Corvallis over the Corvallis-Newport Highway.

At 7 00 p.m. the Commission and its party were the guests of the Corvallis Chamber of Commerce for dinner in the Benton Hotel. Following the dinner a short informal meeting was held presided over by Mr. J. Reynolds of the local group. The meeting adjourned at 9:00 p.m.

June 10, 1953
Enroute from Corvallis to Bend

The Commission group left Corvallis at 9:00 a.m. and drove to Detroit Dam on the North Santiam Highway via U.S. 20, Ore 226 and Ore 222. Luncheon was had at the dam, following which the Commission attended the dedication of the Dam, which was concluded at 3:30 p.m. Inspection was made of some Forest Service maintenance buildings near

Detroit, and the group then motored to Bend for an overnight stop, arriving there at approximately 5:30 p.m. At 8:00 p.m. the Highway group attended a banquet honoring Hon. Douglas McKay, Secretary of U. S. Department of Interior, Hon. Paul Patterson, Governor of Oregon, Hon. Len Jordan, Governor of Idaho, General Samuel D. Sturgis, Jr., Chief of Army Engineers and others. Hon. Robert W. Sawyer, Bend, Editor of the Bend Bulletin, and former president of the National Reclamation Association, presided during after dinner talks. Adjournment was taken at 10:00 p.m.

June 11, 1953
Enroute from Bend to The Dalles

The Commission left the City of Bend at 8:00 a.m. and motored to The Dalles for luncheon traveling over U.S. 97 and U.S. 197. Enroute the Commission inspected a proposed highway suggested by County Judge Ward R. Webber as an approach to the bridge that is being constructed across the Columbia River near The Dalles. The highway group were guests of The Dalles Chamber of Commerce for luncheon at Hi-way Cafe. Local people present included:County Judge Ward Webber, S. M. Hix and Vernon Obrist, County Commissioners, Melvin A. Davidson, Mayor of The Dalles, Leland M. Swanson, City Manager, and Wm. Nelson, Manager of The Dalles-Wasco Chamber of Commerce. An informal meeting was held following the luncheon during which Judge Webber welcomed the group and Chairman Ben R. Chandler responded. The Commission at this time held a brief session of its own for adoption of a program for the unobligated balances of Federal Highway Funds in the amounts of $420,000 for Primary Federal Aid Projects, $1,060,000 for Urban Federal Aid Projects, and $435,000 for Secondary Federal Aid Projects. The Commission unanimously approved the following projects for such funds as recommended by the Engineer.

PROPOSED PROGRAM-UNOBLIGATED BALANCES

May 15, 1953

Division	County	Project	Allotment
		PRIMARY FEDERAL-AID PROJECTS	
1	Washington	Bridge over Tualatin River, US-99W near Tigard	$200,000

Division	County	Project	Allotment
		PRIMARY FEDERAL - AID PROJECTS (cont.)	
3	Lane	Goshen-Divide Section, Bridge at Northerly Crossing of Coast Fork of Willamette River	$220,000
			$420,000
		URBAN FEDERAL-AID PROJECTS	
1	Multnomah	Harbor Drive. Clay St.-Columbia St., Traffic Interchange	$600,000
1	Multnomah	Banfield Expressway, Grading or Structures Units 3 and 4	$460,000
			$1,060,000
		SECONDARY FEDERAL-AID PROJECTS	
2	Lincoln	Siletz Secondary. Bear Creek-Reed Creek, Grading and Paving	$160,000
3	Lane	Territorial Secondary. Gillespie Corner-Lorane, Paving	$275,000
			$435,000

The meeting was declared adjourned at 2:00 p. m. The Commission then inspected the new Columbia River Bridge construction in company with the County Court and other members of the local group. Thereafter, the Commission returned to Portland over the new Upper Columbia River Highway, arriving there at approximately 5:00 p. m. Thus was concluded the second inspection trip during the 1953 season.

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

June 11, 1953

Portland, Oregon
June 25, 1953

The State Highway Commission met in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Asst. State Highway Engineer
W. W. Stiffler, 2d Asst. State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Bids as follows for highway construction work were opened and read aloud pursuant to previously published notice, at the conclusion of which, it was announced that the awards of contracts would be made at 4:00 p.m. in the same room:

Tom Lillebo, Reedsport	68,546.00
General Construction Co., Portland	74,738.00

The Commission approved the minutes of its meeting held on April 8 and 9, 1953.

The Parks Superintendent reported on the following park matters:

1. Proposed development of Koberg Park adjoining the Columbia River Highway about 1½ miles east of Hood River: The Parks Superintendent reported that to adequately develop the area, including removal of the old Koberg Building, the filling of a water hole and construction of a parking area, would cost approximately $14,000. He called attention to a report submitted by the Highway Engineer advising that the estimated cost to widen the pavement and to provide approach roads and parking facilities is about $20,000. The Engineer stated that the area had been used as a park by the City of Hood River a number of years ago, and the City now wishes it rebuilt as a State Park project. The Parks Superintendent stated that in its present condition about 100 people at a time can use the area. It was his opinion since it is close to the City of Hood River, that the development should be made by the City. The matter of providing safe and adequate access between the park area and the highway was also discussed and report was submitted by the Engineer showing that such facilities would cost about $20,000. The Commission ordered that no action be taken at this time and the area be observed for about a year under present conditions to determine the amount of use and what may be required to provide adequate access to the park area. The Commission also ordered a report concerning these matters which shall include a statement as to the number of people who use the area.

2. Installation of park information in certain state parks: The Parks Superintendent reported that as instructed by the Commission at the May meeting he investigated various suggestions with respect to the dissemination of information concerning state parks, including the printing of pamphlets, maps, folders, and the installation of signs showing park information. It was his opinion that the construction and installation of a large sign displaying a state park map and showing the location of the parks with information relative to each would be most suitable. He exhibited a sketch showing a proposed sign and advised that the cost of construction and placement would be approximately $25 per sign. He recommended and the Commission approved the installation of ten of the signs at this time so as to provide means to study their effect with the general public, and the installation of others if they appear to be desirable.

3. Renewal of Vista House lease on the old Columbia River Highway with Mr. and Mrs. Jack Flaucher: The Parks Superintendent reported that the Flauchers have operated the concession for several years and that their return to the State in 1952 was $5,577.79. Their operations, he stated, have been very satisfactory, and he recommended that the present lease be extended for one year from March 31, 1954 to March 31, 1955, subject to the same details and conditions as are now in force. The Commission approved the recommendation.

4. Sale of down timber on the Sunset Highway Forest Wayside in Section 2, Township 3 North, Range 6 West, W. M.; Section 31, Township 4 North, Range 5 West, W. M.; and Section 5, Township 3 North, Range 5 West, W. M.: The Parks Superintendent reported that sometime ago blow-down timber in this area was sold to Schmidlin Brothers under an auction bid arrangement. A small area was eliminated from this sale, he said, for the reason that it was felt the timber could not be removed without considerable damage to the remaining stand; however, a scheme now has been worked out whereby the down timber can be removed without serious damage. The total amount of the timber, he stated, is 38,000 board feet, and Schmidlin Brothers have offered to pay $1,310 for it. He mentioned that the sale has had previous phone approval by Chairman Chandler and Commissioner McIver, and he requested that the sale be confirmed. The Commission unanimously confirmed the sale.

5. Proposed permit easement to the State Board of Forestry for construction and use of a permanent type fire lookout building in Saddle Mountain State Park: The Parks Superintendent reported that for the past several years the State Board of Forestry has maintained a lookout on top of the butte in this park without any formal written agreement. The Board now plans to replace the old building with a stone and metal structure; and as it is necessary to maintain such a structure for the control of fires in the area, including the state park, it would be desirable to have an agreement prepared covering the matter. He recommended and the Commission approved the granting of a permanent easement to the State Board of Forestry covering the location, construction and use of the lookout building as proposed.

6. Supplemental agreement with the Soil Conservation Service of the Department of Agriculture for furnishing beach grass at Cape Lookout State Park for the period from July 1, 1953, to June 30, 1954: The Parks Superintendent stated that this agreement would merely be an extension of a previous agreement entered into for the providing of beach grass culms. The price paid in 1952 and 1953, he stated, was $2 per thousand. He recommended that the supplemental agreement be approved without definite stipulation as to the amount of beach grass to be furnished or the exact price to be paid as the amount required is not known and the price is to be based on cost. The Commission adopted the recommendation.

7. Proposed plan to make Yaquina Bay Lighthouse in Yaquina Bay State Park a national historical monument: The Parks Superintendent recalled that this matter had been before the Commission a number of times in former years and that the Commission previously had given the Lincoln County Historical Society one year's time which expired February, 1953, to raise funds to repair the building which is unsafe and has been padlocked. He estimated that it would cost approximately $15,000 to repair the building to a safe standard. In the discussion following, it was brought out that the Commission is responsible for the building and unless it is made

into a safe structure it should be torn down. The Commission agreed to grant those interested in restoring the building the balance of this year within which to make the repairs. The building is to be razed if satisfactory progress on the repairs is not accomplished by that time.

8. Acceptance of deed from Mr. and Mrs. Henry L. Corbett for land at the south end of Blue Lake in Jefferson County as a memorial to their son Elliott R. Corbett II: The Parks Superintendent stated that at a previous Commission meeting the offer of the Corbetts to donate the land had been accepted, and at this time they are offering a deed for about one-half the area, the remaining portion probably to be deeded next year. The area covered in the deed, he stated, is in Lot 4, Section 27, Township 13 South, Range 8 East, W. M. He presented a letter from Mr. Corbett indicating his desire to have the area known as the Elliott R. Corbett II Memorial Park to be preserved as a wilderness area and suggesting that the Corbetts might wish to install a placque and small improvements in keeping with the spirit of the park. The Parks Superintendent recommended that the Commission accept the deed. His recommendation was approved.

9. Proposed change of name of "Spencer Creek Park" to "Beverly Beach Park": In the discussion on this matter Chairman Chandler pointed out that the area had been known as "Beverly Beach" for a number of years, and it was his thought that the area should retain that name. The Commission approved the change in name and ordered signs erected in conformity therewith.

10. The Parks Superintendent brought up for discussion the change recently made in charges for using swimming facilities in Honeyman State Park. Previous charges, he stated, had been 10 cents for children and 20 cents for adults which had been changed to 15 cents for children and 30 cents for adults. He pointed out that the facilities provided are worth about $100,000 and that approximately 9,000 swimmers had used the area in 1952 out of which 4,000 paid for the use. A fence is now being installed so that it will be more difficult for people to use the swimming facilities without paying. There has, he stated, been some objection to the increase in price but the problem has been simply either a reduction in services to the public or an increase in the charges. The Engineer stated that in his opinion it is important that the facilities be kept up and adequate life guards furnished. The Commission unanimously confirmed the increase in rates and approved the Parks Superintendent's plan for development and handling of the park area.

Chairman Chandler instructed the Engineer to contact the Parks Superintendent regarding possible improvements to the Robert W. Sawyer Forest Wayside a short distance north of Bend. He stated that he had received a letter from Mr. Sawyer concerning this matter and instructed that after investigation had been made that a report be rendered to the Commission.

The Right of Way Engineer presented for the Commission's consideration options secured for the acquisition of real property needed for various highway improvements and for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked EXHIBIT "A", which

resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission instructed the Engineer to prepare and submit an up-to-date report showing the status of construction on the Banfield Expressway in Portland including contracts that have been let and those contemplated. The Commission expressed the desire to complete the Expressway to 39th Street in the city of Portland as soon as possible in order to relieve traffic congestion on Sandy Boulevard. The Engineer commented that an agreement has now been reached with the City regarding 39th Street. The Assistant Engineer, Mr. W. C. Williams, pointed out that there are only a few right of way acquisitions remaining to be completed including the Howard-Cooper property, Providence Hospital, and an agreement with the Railroad Company concerning its property, and he advised that if settlement can be reached with the Railroad Company, it might be possible to award another contract in September. He recalled that past experience with the Union Pacific Railroad had shown that it took a great deal of time to complete agreements after the basic details had been worked out locally. The Commission instructed the Engineer to expedite as much as possible the completion of the Railroad agreements and, if necessary, to contact Mr. Perry Lynch, Vice President, Operating, of the Company at Omaha.

The Right of Way Engineer asked the Commission to formally confirm acquisition of real property needed for the maintenance headquarters' site at Long Creek on the Pendleton-John Day Highway in Grant County. He explained that the Commission informally authorized this acquisition and on April 8 had approved an option for 0.489 acre of land to Harlan Hansen for the sum of $250, and on May 18 had approved an option to the Town of Long Creek for the acquisition of 0.414 acre for the sum of $250 and also on May 18 had approved an option in favor of Alton and Nadine Mc Bride for a building in the amount of $3,500, the three transactions totalling $4,000. He explained that the Highway Department has been paying rental for this site for a considerable length of time and a good maintenance structure has been erected on it. He recommended for the records that the Commission formally confirm the purchase of this property. The Commission accepted the recommendation.

The Commission unanimously confirmed sales of miscellaneous properties as reported by the Right of Way Engineer. (For list of properties sold, see copy of report prepared by Mr. C. W. Parker, Property Manager, dated June 25 and 26, 1953, on file in the Secretary's office under the heading "Lease Sales".)

Consideration was given by the Commission to the acquisition of approximately 35 acres of land from Mrs. Irene Wiggins as an addition to Wallowa Lake State Park, consideration $50,000. Action on this matter was deferred by the Commission pending personal inspection of the property on its trip through this area in the middle part of July.

The Right of Way Engineer presented for the Commission's consideration the matter of compensating the Port of Hood River Commission in the sum of $2,000 for damage caused their boat basin in connection with the new Columbia River Highway construction at Hood River. It was his opinion that the settlement agreed upon is a very nominal sum, and he recommended that payment in the sum

of $2,000 be made to the Port of Hood River Commission. The Commission approved the recommendation.

In this connection the Right of Way Engineer also brought up the matter of deeding to the Port 0.153 acres of ground on which to place a roadway for the Port's use. This parcel of property, he stated, is no longer needed for highway purposes, and he recommended that it be deeded to the Port of Hood River Commission inasmuch as the transfer of the land is a part of the basis of settlement of the damage claim. The Commission accepted the recommendation.

The Commission considered deeding to Lane County 5,050 square feet of land situate in Block 52, Gallagher's Addition to the City of Florence. The Right of Way Engineer explained that it is proposed to transfer this property to the County without cost inasmuch as it no longer is required for highway purposes and because the County originally deeded the property to the State without cost. Lane County, he stated, has requested permission to acquire the ground for erection of a county building to handle county matters in the Florence area. He recommended that the property be transferred to the county with complete restriction of access to the highway. The Commission approved the recommendation. (A Quitclaim Deed was signed by the Commission on the following day.)

The granting of access to the U. S. Corps of Engineers at Lookout Point Reservoir on the Willamette Highway in Lane County was also considered by the Commission. The Right of Way Engineer explained that the point of access is necessary for the Engineers' operations and that they will place a gate across the access to prevent public use. He recommended and the Commission approved granting of the access. (On the following day the Commission signed the "Grant of Access".)

The Commission also considered granting to Mrs. Allie Dalton two points of access on the North Powder Connection with the Ladd Canyon Section of the Old Oregon Trail in Union County. The Right of Way Engineer reported that the Dalton property has been bottled up by construction of the Ladd Canyon Section which also required reconstruction of a section of the Anthony Lakes Road where it intersects the Old Oregon Trail. In order to provide suitable means of access for the Dalton property, he recommended that two points of access be granted. The Commission approved the recommendation. (On the following day the Commission signed the "Grant of Access" form.)

The Right of Way Engineer presented to the Commission proposed changes in points of access for the following properties:

a. Baker property on the Bay Park-Delmar Section of the Oregon Coast Highway in Coos County, File 14922.

b. Franz property on the Coos Bay-Coquille Section of the Oregon Coast Highway in Coos County, File 15205.

c. Rynning property on the Medford-County Farm Section of the Pacific Highway in Jackson County, File 18428.

d. West property on the Clear Lake-Forest Boundary Section of the Oregon Coast Highway in Douglas County, File 18712.

e. Wood property on the Medford-County Farm Section of the Pacific Highway in Jackson County, File 19116.

f. Nullet property on the Bay Park-Delmar Section of the Oregon Coast Highway in Coos County, File 15209.

He explained that no additional access is being granted, and he recommended that the changes be approved as presented. The Commission accepted the recommendation. ("Indentures of Access" covering the above were signed by the Commission on the following day.)

A resolution was considered by the Commission providing for the sale of timber from a section of Silver Creek Falls State Park. The Right of Way Engineer recalled that the Commission at a previous meeting had authorized sale of this timber in connection with a transfer of land to improve the State Park holdings. The timber to be sold, he stated, is in the Northeast quarter ($NE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) and the Northwest quarter ($NW\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 17, Township 8 South, Range 2 East, W. M., Marion County, and contains slightly in excess of 2,000,000 board feet of timber, valued at $37,500. He asked the Commission to confirm its prior approval of the sale at the price of $37,500. The Commission approved the request unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In this connection the Commission considered and upon the Right of Way Engineer's recommendation authorized the securing of a roadway easement to serve timber land located in Sections 8 and 16, Township 8 South, Range 2 East, Marion County. The Right of Way Engineer explained that it is necessary to secure the easement in order to provide an outlet for timber which the Commission proposes to sell in Silver Falls Park.

The meeting recessed at 12 noon and reconvened at 2:00 p.m. with the same persons present and participating.

Sale of a parcel of land situate in Lot 9, Block 21, Laughlin's Addition to the City of The Dalles was considered by the Commission. The Right of Way Engineer explained that this property which is located on 3d Street in the City of The Dalles no longer is needed for highway purposes, and he recommended that it be advertised for sale at a minimum price of $6,000 cash. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer presented the matter of selling to the City of North Bend certain property described as the westerly 30 feet of Lot 9, Block 30, Coos Bay Plat "B", addition to North Bend. The city, he stated, wishes to acquire the property for installation of a pumping plant in connection with their sewage

system. As the property is not required for highway purposes, he recommended that it be sold to the city for the sum of $125. The Commission approved the recommendation. (A deed was signed by the Commission on the following day.)

The Right of Way Engineer also brought up the matter of selling to Mr. and Mrs. G. E. Keller of The Dalles, a five-foot strip of land that lies on the northerly side of the Columbia River Highway in Lot 8 of Block 21, Laughlin's Addition to the City of The Dalles. This property, he stated, was acquired originally for slope purposes but no longer is required for that purpose since the remainder of the lot has been graded to the same elevation as the new improvement. He explained that when the property was acquired from the Kellers, it was agreed that the five-foot strip would be returned to them when the grading had been completed. He recommended that the property be deeded to the Kellers for a consideration of $1. The Commission approved the recommendation. (The Commission signed a deed on the following day.)

Consideration was given to the matter of quitclaiming to Clara and Henry Hoekstre a narrow strip of land in Section 8, Township 7 South, Range 5 West on the Salt Creek-Dolph Corner Section of the Dallas Coast Highway in Polk County. The Right of Way Engineer explained that the U. S. Department of Agriculture, Production and Marketing Administration Section, in conjunction with farmers in this area are constructing a flood control ditch and that the parcel of land is needed in connection therewith. He further stated that the tract is about 300' long, 15' wide at the widest point, tapering to nothing, and that the value of the property is very small. It was his opinion that inasmuch as the property is not required for highway purposes, and as the value is small, the simplest method of handling the matter would be to deed the parcel of land to the Hoekstres for $1, and he so recommended. The Commission approved the recommendation. (On the following day, the Commission signed a quitclaim deed.)

Consideration was given by the Commission to an exchange of property with Albert and Olive Vian on the Santiam Highway at Cottonwoods Corner, about 6.5 miles east of Albany in Linn County. The Right of Way Engineer explained that the Santiam Highway now occupies a parcel of land which has never been formally acquired from the owners. To clear the title to this land, the Vians have agreed to deed to the State the land occupied by the highway in exchange for a nearby parcel of land which was formerly a part of the old county road. The exchange, he said, will be of benefit to the State by clearing up the title to the property. He recommended, and the Commission approved, such exchange of properties. (The deed was signed by the Commission on the following day.)

Consideration was given by the Commission to a request from the City of Redmond that the Commission consent to annexation to the city of the south 30 feet of the Southeast quarter (SE$\frac{1}{4}$) of the Southwest quarter (SW$\frac{1}{4}$) of the Southwest quarter (SW$\frac{1}{4}$) of Section 16, Township 15 South, Range 13 East. The Engineer explained that this property lies on what is known as the Redmond-Bend Section of The Dalles-California Highway, and its inclusion within the city will not be harmful to the State. He recommended approval of

the city's request. The Commission adopted the recommendation.

The Right of Way Engineer recommended, and the Commission approved, renewal of Ground Leases as follows:

a. G. C. Kerns - File No. 6051 in the Northwest quarter (NW$\frac{1}{4}$) of the Northwest quarter (NW$\frac{1}{4}$) of Section 27, Township 39 South, Range 8 East on the Green Springs Highway in Klamath County. Extended to July 7, 1954 for a consideration of $30.

b. Weyerhaeuser Timber Company - File No. 4503 near the summit of Hayden Mountain on the Green Springs Highway in Klamath County. Extended to July 12, 1958.

The Right of Way Engineer explained that these are routine renewals of leases for ground on which to store maintenance materials. (Both "Ground Leases" were signed by the Commission on the following day.)

The Right of Way Engineer also recommended, and the Commission approved, a form of lease from Arizona Barnes for land to be used for a gravel pit on the Dayville-Mt. Vernon Section of the John Day Highway in Grant County. The consideration is to be $100 for a two-year lease on 6.7 acres. (The Commission signed the lease on the following day.)

The Commission discussed with Mr. Fred H. Paulus, Deputy State Treasurer, and Mr. Fred Johnson, Vice President of the U. S. National Bank of Portland, the proposed sale of $32,000,000 highway bonds as authorized by the 1953 Legislature. Mr. Paulus stated his opinion as to the marketability of the bonds, advising that the market now is better than it has been for some time, and the probabilities are that the full amount of $32,000,000 bonds can be sold if they are placed on a 10-year maturity basis and are uncallable. Prospective purchasers, he stated, seem to prefer one maturity date rather than several. He called attention to the rising rate of interest pointing out that the first group of highway bonds had been sold for 1.61 percent, the next group for 1.63 percent, and the third group for 1.99 percent. Chairman Chandler pointed out that it will be necessary to sell the entire $32,000,000 of bonds if the five-year construction program is to go forward. He suggested that a definite decision with regard to the issue be deferred until July 22 when a special meeting of the Commission is scheduled to be held in Portland, and that the bond market be carefully observed in the interim. Commissioners Reynolds and McIver approved the suggestion whereupon the Commission unanimously set 10:00 a.m. on July 22 as the date for such special meeting to be held in the Imperial Hotel, Portland, for further consideration of the matter.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties needed for public purposes in connection with various highway improvements, and to make offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951.

Clatskanie-Delena Section of the Columbia River Highway	Recommended Offer
R 20262 - Howard F. Thompson Right of Way (Columbia) 225 square feet	$ 300.00
R 20265 - Frank T. Willson Right of Way (Columbia) 1.85 acres	2,250.00
R 20264 - Forrest L. Bradley Right of Way (Columbia) 0.10 acre	400.00
R 20275 - Frances Agnew Right of Way (Columbia) 7.8 acres	3,000.00
R 20317 - George A. Carlson Right of Way (Columbia) 13.04 acres	2,500.00
R 20321 - R. H. Rupp Right of Way (Columbia) 2.30 acres	1,100.00
R 20324 - W. O. Walker Right of Way (Columbia) Parcel No. 1: 10.29 acres Parcel No. 2: 5.30 acres	4,000.00
R 20325 - Kenneth A. Johnson Right of Way (Columbia) 4.14 acres	2,000.00
R 20328 - M. V. Collette Right of Way (Columbia) 6.43 acres	2,500.00
R 20331 - Carl E. Forsberg Right of Way (Columbia) 0.8 acre	180.00
R 20336 - Oscar L. Lindberg Right of Way (Columbia) Parcel No. 1: 0.06 acre Parcel No. 2: 7.56 acres	*

June 25, 1953

	Recommended Offer
Mosier-The Dalles Section of the Columbia River Highway	
R 17476 - Charles Hunt Right of Way (Wasco) 0.54 acre	$6,585.00
Newport-Toledo Section of the Corvallis-Newport Highway	
R 20546 - John W. Goodyear Right of Way (Lincoln) 0.33 acre	*
Barbur Boulevard-Tualatin River Section of the West Portland-Hubbard Highway	
R 4035 - Paul L. Kertes (Washington) Elimination of access rights	$1,500.00
Rinehart Creek-Frankport Unit of the Rocky Point-Gold Beach Section of the Oregon Coast Highway	
R 20204 - Winston W. Chambers Right of Way (Curry) Parcel No. 1: 45.5 acres Parcel No. 2: 31.0 acres	13,500.00
Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway	
L 1815 - Leroy Lumber Company, et al. Change in access provisions - new resolution needed	
Elkhead Road-Rice Hill Unit of the Divide-Rice Hill Section of the Pacific Highway	
L 1972 - G. C. Long, et ux. New description required - new resolution needed	
Sylvan Section of the Sunset Highway	
L 1982 - Faun E. Helmcke Change in access provisions - new resolution needed	

The Commission approved the request unanimously by adoption of the attached resolutions relative thereto marked EXHIBIT "O-1" through "O-11", inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered and upon motion by Commissioner Reynolds, unanimously approved a report from the Chief Counsel concerning the cases tried since the last Commission meeting, as follows:

1. State vs Mary E. Baker, et vir, L 1802, involving acquisition of 2,185 square feet of land for a connecting road between the Sunset Highway and Raab Road and Southwest Scholls Ferry Road. An offer had been made in the amount of $3,500 for this property whereas the owners had demanded the sum of $25,000. The jury returned a verdict in the amount of $8,500.

2. State vs Bert M. Butler, et al, L 1901, involving acquisition of 31,800 square feet of land on the Canyon Road Section of the Sunset Highway which property lies adjacent to the Vista Avenue Bridge over the highway. The State made an offer of $3,000 for this property whereas the owners demanded the sum of $58,000. The jury returned a verdict in the amount of $12,000.

In the discussion of this case, Chairman Chandler inquired why the State is condemning this land in order to protect a city bridge. He gave as his understanding that the land had been acquired for highway right of way and not for the purpose of protecting the bridge. The Engineer stated that it will be necessary eventually to widen the highway. He added that perhaps hasty action had been taken in condemning this property and that it might possibly have been better to let the county or city take the action. The Chief Counsel stated that inasmuch as the jury has awarded a verdict, and the State is in possession of the property, the only alternative other than paying the amount of the verdict is to appeal the case. The Commission deferred action at this time and instructed the Engineer and the Chief Counsel to bring in a report on the following day as to why this property had been acquired. (See additional entry ahead.)

3. State vs Ralph D. Phillips, et al, L 1957, involving acquisition of 9,650 square feet of land for right of way on the Arlington-Heppner Junction Section of the Columbia River Highway. An offer was made for this property in the amount of $8,608 whereas the owners demanded the sum of $12,000. The jury returned a verdict in the amount of $10,000.

4. State vs Helen R. Edmunson, L 1929, involving acquisition of 3.876 acres of land for right of way on the State Street South Unit of the Salem By-pass Section of the Pacific Highway East with complete restriction of access between the highway and the owner's remaining property. An offer in the amount of $2,500 was made but the owner demanded approximately $22,000. The jury returned a verdict in the amount of $3,000.

5. State vs Arthur N. Muller, et al, L 1834, involving acquisition of 3,500 square feet of land for right of way on The Dalles Section of the Columbia River Highway. An offer in the sum of $10,050 was made for this property whereas the owners demanded $9,000 plus conveyance of certain excess properties that the State had acquired adjacent to this section of highway and in the same block. The State refused to settle on this basis whereupon the defendants demanded the sum of $20,000. The jury returned a verdict in the amount of $15,000.

6. State vs H. W. Senter, et al, L 1900, involving acquisition of 2.55 acres of land for right of way on the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway. The State offered to purchase this property for the sum of $4,250 whereas the owners demanded $22,706. The jury returned a verdict in the amount of $6,000.

7. State vs Steve Calcagno, et ux, L 1932, involving acquisition of 0.417 acre of land for right of way on Unit No. 5 of the T. H. Banfield Expressway in Portland. An offer had been made by the State in the amount of $1,200 whereas the owners placed in evidence testimony showing a valuation of $6,500 and $7,000. The jury returned a verdict in the sum of $1,750.

8. Leroy Lumber Company vs Oregon State Highway Commission, L 1988 This case is a suit in equity wherein the plaintiff is attempting to recover rental for property occupied by the State pursuant to a complaint from condemnation previously filed for the recovery of the value of timber removed by the State, and also to request that the State permit additional access points without limitations as to use, and to prevent the State from taking certain portions of the property for park purposes. The State filed a motion to quash service, which motion was argued before Judge King on May 29, 1953, and the Court entered an order dismissing the action without attorneys' fees or costs being assessed against either party. (For details see copy of the Chief Counsel's report dated June 18, 1953, in the General Files.)

The Commission also considered and approved a written report from the Chief Counsel concerning settlement of the following cases:

1. State vs Jennie Halberstadt, L 1999: This case involved the acquisition of 1.153 acres of land for right of way of the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway. An offer was made in the amount of $11,250. The owner's appraisal indicated a value of $13,650. A settlement has been effected in the sum of $11,250 with the owner to retain ownership of the buildings, which buildings have a salvage value of not in excess of $500.

2. State vs Neil F. Ferre, et ux, L 1874: This case involves acquisition of land for the right of way in the Hauser-North Bend Section of the Oregon Coast Highway and for the control of access to the owners' remaining property. An offer was made for the property in the sum of $10,500 whereas the owners demanded the sum of $20,000. A settlement has been effected in the sum of $10,500 with the State to gravel that portion of the right of way adjacent to the defendant's property at an estimated cost of $200 plus the granting of a revocable permit to use the well formerly owned by the defendants for a period of five years.

3. State vs Velva Ricketts Ferre, et al, L 1875: This case involves acquisition of 1.15 acres of land for the right of way of the Hauser-North Bend Section of the Oregon Coast Highway. The State offered $8,600 for this property. A settlement was effected for the sum of $9,562.75 plus conveyance to Velva and Neil Ferre of 8,480 square feet of land adjacent to the property with access being limited solely to the frontage road.

4. State vs Frank Harvey Anderson, et ux, R 19814: This case involves purchase of 1,318 square feet of land for right of way for a connecting road between Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway and the Upper Boones Ferry Road. The State offered $460 for this property whereas the owners demanded $1,800. Settlement was effected for $1,000.

5. State vs Harold Turpin, et ux, L 1967: This case involves acquisition of 28.49 acres of land for right of way of the Elkhead Road-Rice Hill Section of the Pacific Highway and the relocation and realignment of the Yoncalla-Elkhead County Road and for the construction of connecting roads between the Yoncalla-Elkhead County Road and the Scotts Valley County Road and for acquisition of rights of access. The State offered $7,500 for the property plus construction of a water collecting box and pipe line. A settlement has been negotiated for $10,500 with the defendants being obligated to provide their own water supply, the State having no further obligation with respect thereto.

6. State vs Anna Olive Neilson, et al, L 1790: This case concerns acquisition of 3.33 acres of land for right of way of the Bay City-Tillamook Section of the Oregon Coast Highway and for an easement for a channel change. An offer was made for this property in the sum of $6,250. Settlement has been effected for the sum of $6,500.

7. State vs Margaret Pooler, L 2003: This case concerns the acquisition of 2.01 acres of land required for right of way on the Joseph-Hayden Gulch Section of the Little Sheep Creek Secondary Highway. The State offered to pay $334 plus the re-establishment of the irrigation system and fencing. Settlement has been effected whereby the defendant agrees to convey the property to the State without monetary consideration but with the State obligated to re-establish the irrigation system and the fence, and in addition to construct a siphon, the cost of which is estimated to be $600.

8. State vs J. S. Chambers, et ux, L 1944: This case involves enforcement of an option to convey 1.5 acres of land to the State for right of way of the Ontario Spur of the Old Oregon Trail at the option price of $2,775. This case was dismissed upon being advised that the property is no longer required for right of way purposes, and the defendants were paid the sum of $16.60 for filing fees and attorney's fees.

9. State vs George F. Steiner, et al, L 1806, for damages done to a state-owned Snogo in the sum of $679.42 in an accident occurring March 7, 1951, on the Willamette Highway. Settlement was effected in the amount of $760.

10. State vs Leslie M. Erickson, et ux, L 2002, for the acquisition of 0.033 acre of land for right of way of the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway and construction of an approach. An offer was made in the sum of $2,430 whereas the defendants asked for $3,750. A settlement was reached in the amount of $3,090.

11. State vs Duane Investment Company, et al, L 1879, for acquisition of 1,440 square feet of land for right of way of the Canyon Road Section of the Sunset Highway. $550 was offered for this property plus $600 for moving a sign. The owners asked $7,500 for the property. A settlement was effected for the sum of $1,500.

12. State vs Earl Ayers, Ed Freeman, and Howard Levil Johnson, L 1947: This case was filed to recover the sum of $21,885 for destruction of the Tualatin River Bridge on the Beaverton-Aurora Secondary Highway. This amount was later reduced to $19,780. The Portland Gas and Coke Company has also filed suit against these people in the sum of $56,840. The only assets of the defendants that could be reached by judgment consisted of a $5,000 insurance policy on their towing vehicle. A settlement was effected whereby the defendants pay $2,500 to the State and $2,500 to the Portland Gas and Coke Company.

The Chief Counsel recommended and the Commission approved the settlements as presented. (For further details see the Chief Counsel's letter dated June 17, 1953, in the General Files.)

The Commission considered and confirmed offers reported by the Chief Counsel for the acquisition of real property needed for various public purposes, which offers were tendered to the owners prior to the commencement of condemnation proceedings in conformity with authority granted the Chief Counsel by the Commission in its resolution adopted December 20, 1951, as follows:

Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway

R 19814 - Owner: Frank Harvey Anderson, et ux. 1,318 square feet for right of way. Amount of offer $460.00. Authorized by Chairman Chandler on May 15, 1953.

Union Avenue-Swift Boulevard Junction Section of the Pacific Highway East

R 15196 - Owner: Kernan Livestock Farms, Inc., et al. 7.271 acres for right of way. Amount of offer $20,000.00. Authorized by Commissioner McIver on May 25, 1953.

Salem By-Pass Section of the Pacific Highway East

L 1812 - Owner: D. B. Murphy, et al. 3.7 acres for right of way. Amount of offer $15,000.00. Authorized by Commissioner McIver on June 1, 1953.

Elbow Lake-Gardiner Section of the Oregon Coast Highway

R 19655 - Owner: Gardiner Lumber Co. 19.13 acres for right of way. Amount of offer $24,570.00. Authorized by Chairman Chandler on June 15, 1953.

Rinehart Creek-Frankport Section of the Oregon Coast Highway

R 20172 - Owner: Norman J. Nash, et al. 18.58 acres for right of way. Amount of offer $18,610.00. Authorized by Chairman Chandler on June 18, 1953.

A proposed cooperative agreement between the State and the California Pacific Utilities Company for joint usage of the Company's property near John Day and improvements to be built thereon was considered by the Commission. The Chief Counsel stated that it is proposed that the State construct a small radio building on the Power Company's property and install radio equipment, allowing the Power Company use of the building for its radio equipment. The agreement, he said, is advantageous to the State, and he recommended that it be approved. The Commission accepted his recommendation. (The agreement was signed later in the session.)

The Chief Counsel requested confirmation of authority given him verbally by the Commission to commence legal action against Anna E. Davis, Jack M. Davis, and Charolla Craddock to recover damages caused by these people to a state-owned stationwagon. The accident, he stated, occurred on June 27, 1951, at M. P. 13.93 on the Pendleton-Cold Springs Highway about 16½ miles north of Pendleton and was caused by the negligence of the defendants. He also said that the defendants insurance carrier has failed to make settlement so it is necessary to institute legal action. The Commission confirmed the authority as requested.

The Chief Counsel also brought up for the Commission's consideration the matter of payment to Elmer Helmke in connection with property purchased from Wilfred Helmke on Canyon Road in Portland. He explained that at the time the property was purchased from Wilfred Helmke, Elmer Helmke had a lease on this property for the raising of nursery stock, and it was agreed that he would be reimbursed in the sum of $115.75 for nursery stock destroyed. He recommended that Mr. Helmke be paid such amount as previously agreed. The Commission approved the recommendation.

The Chief Counsel recommended, and the Commission approved, the removal of frontage road provisions in deeds and complaints in the acquisition of the following properties:

1. Josephine Holland, File No. R 18732; Art Morgan, File No. R 18743; and School District No. 20, File No. R 20036, all on the Mt. Vernon-John Day Section of the John Day Highway in Grant County.

2. Gardiner Lumber Company, File No. R 19655, on the South Unit of the Elbow Lake-Gardiner Section of the Oregon Coast Highway in Douglas County.

3. Winston W. Chambers, File No. R 20204, on the Rinehart Creek-Frankport and Rinehart Creek-Euchre Creek Sections of the Oregon Coast Highway in Curry County.

The Commission approved a report from the Engineer advising that the conditions governing the awards of the following State Highway Contracts for which bids were received by the Commission on April 8 and 9, 1953, and on May 18 and 19, 1953, have been satisfied, and that contract and bond forms have been sent to the respective contractors for execution pursuant to the Commission's instructions:

1. Tiller-Deadhorse Creek Rock Production Project on Tiller-Trail Highway in Douglas and Jackson Counties. Bids received April 8, 1953. Conditions of award satisfied May 6, 1953. M. C. Lininger & Sons, Contractor.

2. Grading and paving on 82d Avenue- Halsey Street Connection, 92d Avenue-Fairview Section of the T. H. Banfield Expressway, east of Portland in Multnomah County. Bids received April 9, 1953. Conditions of award satisfied May 14, 1953. Warren Northwest, Inc., contractor.

3. Grading and paving on Sutherlin Section of Elkton-Sutherlin Highway in Douglas County. Bids received April 9, 1953. Conditions of award satisfied May 14, 1953. J. C. Compton Company, contractor.

4. Grading and paving on Elbow Lake-Gardiner Section of Oregon Coast Highway in Douglas County. Bids received April 8, 1953. Conditions of award satisfied May 14, 1953. Coos Bay Dredging Company, contractor.

5. Construction of two 84-foot and one 100-foot reinforced concrete bridges on Thompson Creek Road south of Applegate in Jackson County. Bids received May 18, 1953. Conditions of award satisfied May 25, 1953. Central Heating Co. & F. L. Somers, contractor.

6. Oiling the Maddock Corner-West Side Section of Cottonwood Creek and West Side County Roads west of Lakeview in Lake County. Bids received May 18, 1953. Conditions of award satisfied May 25, 1953. Peter Kiewit Sons' Co., contractor.

7. Grading and paving on Damascus-Boring Section of Clackamas-Boring County Road in Clackamas County. Bids received May 19, 1953. Conditions of award satisfied May 25, 1953. Babler Brothers, Inc. & Rogers Construction Company, contractor.

8. Grading and oiling on George Road-East Junction Section of Holland Loop County Road east of Cave Junction in Josephine County. Bids received May 19, 1953. Conditions of award satisfied May 27, 1953. Babler Brothers, Inc., contractor.

9. Roadbed widening and paving on Sunset Highway-Multnomah County Line and McDaniel Road-Multnomah County Line Section of Cornell and Barnes County Roads near Cedar Mills in Washington County. Bids received May 19, 1953. Conditions of award satisfied May 27, 1953. Porter W. Yett, contractor.

10. Base and oiling work on the Sprague River-Beatty Junction Section of Sprague River County Road in Klamath County. Bids received May 19, 1953.

Conditions of award satisfied May 28, 1953. Rogers Construction Company, contractor.

11. Paving Columbia Boulevard and South First Street in St. Helens in Columbia County. Bids received May 18, 1953. Conditions of award satisfied June 2, 1953. Parker-Schram Company, contractor.

12. Grading and paving on the Gilbert River-Sauvie Island Road and Reeder Road-Willamette River Sections of the Reeder and Gillihan County Roads on Sauvie Island northwest of Portland in Multnomah County. Bids received May 18, 1953. Conditions of award satisfied June 2, 1953. Parker-Schram Company, contractor.

13. Grading and paving on Joseph-Sheep Creek Hill Section of Little Sheep Creek Secondary Highway in Wallowa County. Bids received May 19, 1953. Conditions of award satisfied June 5, 1953. Morrison & Lamping, contractor.

14. Grading and paving Barbur Boulevard-Boones Ferry Road Section of the West Portland Hubbard Highway in Washington and Clackamas Counties. Bids received May 19, 1953. Conditions of award satisfied June 23, 1953. Rogers Construction Company, contractor.

15. Grading Union Avenue-Swift Road Junction Section of the Pacific Highway West in North Portland, Multnomah County. Bids received May 19, 1953. Conditions of award satisfied June 24, 1953. General Construction Company, contractor.

Assignment of a contract awarded to the Popham Construction Company was considered by the Commission. The Engineer reported that on April 8, a contract had been awarded to the Popham Construction Company for the construction of facilities in Cape Lookout Park on the Netarts-Cape Lookout Highway in Tillamook County. Subsequently, Mr. Popham was drowned on a fishing trip on April 18, and as the business had been run by him, his estate is not in a position to complete the contract, and his wife with her attorney, has requested that the company be allowed to assign this contract to the Ferguson-Cassidy Company. This latter company, he stated, has submitted a prequalification statement and is qualified to handle this job. In view of the circumstances involved and the delay and loss of time should the project be readvertised, he recommended approval of the assignment. The Commission accepted the recommendation and so ordered.

Consideration was given by the Commission to a request received from the Columbia-Hudson Company for construction of a log dump in the Columbia River on property to be leased from the O. W. R. & N. Company, adjacent to the Columbia River Highway about $1\frac{1}{4}$ miles west of Mosier in Wasco County. The Engineer advised that there is no access whatsoever on this section of highway. By an agreement, he said, the State is authorized to use railroad property where necessary in reconstruction of the highway, and in these locations, the State has gone to considerable expense in revising the railroad alignment to eliminate grade crossings. To preserve the freeway characteristics of the

highway, he recommended that the request of the company be opposed, and that the reasons for opposing be given to the railroad company also that the Columbia-Hudson Lumber Company be notified that construction of a log dump at this location is not in the best interests of the general public. The Commission approved the recommendation.

The Engineer reported results of bids received in Salem on June 15, 1953, for the purchase of used equipment and scrap materials. He advised that the equipment and material was located at Highway Department Shops at Coquille, Klamath Falls, and La Grande and that the bids received were generally good. He recommended that the high bids be accepted for all items except Item No. 8, a half-ton Chevrolet Pickup located at Klamath Falls, and that all bids for that item be rejected as being too low. The Commission approved the recommendation.

The Engineer also reported receipt of a letter from M. Albert of Portland who had submitted what appeared to be the high bid on Item No. 52 for scrap pneumatic tubes located at La Grande. Mr. Albert, he stated, alleges that he intended to bid 0.0075 per lb. for this material, but inadvertently misplaced the decimal point and had bid 0.075 per lb. As Mr. Albert had extended the total to $4.50 which would have been based on the lesser unit price, and as the estimated value of the material was $6.00, he recommended that Mr. Albert be allowed to withdraw his bid and that the material be offered to the second high bidder, Snow Williams Motor Company, who bid $0.031 per lb. The Commission approved the recommendation with the stipulation that if the second high bidder refuses to take the material at his bid price then the sale of this item is to be readvertised.

The Engineer presented a report showing the results of a survey conducted at Ashland to determine an adequate plan for improving the Pacific Highway through this area. He outlined briefly the results of the survey, stating that studies had been made on improvement of the existing route, a possible one-way street system, and a by-pass. As there appears to be no satisfactory one-way routing, consideration had been given only to the other two plans. To improve the existing highway to carry four lanes of traffic, he estimated would cost $767,000 over a distance of 1.35 miles. The by-pass construction he estimated would cost $1,525,000 for two-lane construction. The economic analysis, he stated, indicated a benefit ratio of 4.33 for improving the present road and 3.15 for the by-pass route. He pointed out that it is impossible to improve the highway through the city without the close cooperation of the City Council, particularly in the prohibition of parking, which, he stated, is the key to the whole situation. He also pointed out that at the present time, there are no funds available for expenditure on either route other than $303,000 set aside for right of way and construction of a parallel underpass and a short section immediately north and south thereof. The Commission ordered that a copy of the report be delivered to the city without commitment of any kind. (See Engineer's report in General Files for further details.)

The Engineer also submitted his report on a traffic survey conducted in the City of Baker. He pointed out that a recent action of the Baker City Council requiring parallel parking along US 30 on Broadway Avenue and Main Street has served to increase the traffic capacity of these streets and as a result there is minor congestion only between 5:00 p.m. and 6:00 p.m. He stated that a copy of

the traffic report had been sent to the City of Baker and suggested that no action be taken until the matter is again brought up by the City. The Commission accepted the suggestion.

The Engineer reported the results of a survey for the permanent location of the North Santiam Secondary Highway from the Fish Hatchery near Mehama to Salem. He pointed out that two possible routes have been located, one by-passing the towns of Stayton, Sublimity, and Aumsville, and the other by-passing only the towns of Aumsville and Sublimity. The matter was discussed briefly, but action thereon was deferred pending a public hearing to give the people of the towns of Stayton, Aumsville, and Sublimity on opportunity to present their views concerning the relocation of the highway. The Secretary was instructed to inform the respective city councils that the Commission will hold a hearing for their benefit before construction on either alignment is started and that they will be informed when a date has been set therefor.

The Engineer reported that the City of Oswego has adopted necessary parking regulations to provide for four lanes of traffic on the Oswego Highway within the city. He recalled that the Commission at its April meeting approved an expenditure of $11,000 for widening the highway within the city, providing the city adopted "NO PARKING" regulations on the section to be widened. He advised that a copy of the city Ordinance No. 463, dated May 5, 1953, has been received, prohibiting the parking of all vehicles on the east and west sides of State Street (route of the Oswego Highway) from the Oswego Creek Bridge north to Wilbur Street, and from Church Street north to Kirkham Street, but allowing parallel parking on the block between Wilbur Street and Church Street. He recommended that the Commission concur in the action taken by the city. The Commission accepted the recommendation.

Consideration was given to a request from Senator Philip S. Hitchcock and Representative Edward A. Geary, Klamath Falls, for the oiling of the Crescent Lake Road from the Willamette Highway Junction to the community of Crescent Lake. The Engineer recalled that this matter was considered by the Commission in 1951, and at that time the traffic volume did not warrant oiling. However, as of November, 1952, the traffic had increased to 220 cars daily. He recommended that a contract be let for stabilizing the base and placing an oil mat surface on the 2.2-mile section at an estimated cost of $35,000. The recommendation was approved by the Commission.

The Engineer requested authority to expend $15,000 to continue investigations and corrective measures on four slides on the Upper Columbia River Highway immediately east of Herman Creek in Hood River County. Since January 1, 1953, he stated, approximately $15,000 has been spent in investigation and relief measures, but the work is incomplete and requires considerable further study to determine the most economical method to correct the condition. The Commission approved the expenditure, as requested, as a minor betterment item from the 1953 budget.

The Engineer requested and the Commission approved the transfer of $30,000 of 1954 Federal Aid Primary Reserve Funds to finance the Moro Railroad Grade Separation Project.

The Engineer reported that under authority previously granted him, surveys had been completed for the relocation of four sections of State Highways as follows:

1. Survey for relocation of the East Unit of the Love Bridge-Black Bridge Section of the Baker Homestead Highway in Baker County.

2. Survey for relocation of the Deception Creek-Oakridge Section of the Willamette Highway in Lane County.

3. Survey for relocation of the Fields Creek-John Day Section of the John Day Highway in Grant County.

4. Survey for relocation of the Crooked River-Terrebonne Section of The Dalles-California Highway in Deschutes County.

He exhibited maps showing the proposed location of each survey and explained details. He recommended that the four surveys be adopted and authority be granted to acquire the necessary rights of way. Upon a motion made by Commissioner Reynolds, seconded by Commissioner McIver, and declared unanimous by Chairman Chandler, the Commission approved the four surveys by adopting the attached resolutions relative thereto marked EXHIBIT "N-1" and "N-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

A request submitted by E. L. Thompson of Bandon for installation of a stock pass under the Oregon Coast Highway between Coquille and Bandon was considered by the Commission. The Engineer reported that as a result of previous requests for stock passes, a complete study of all cattle crossings in this area had been made. He recalled that in April in connection with similar requests, stock passes had been denied when the sight-distance in both directions was in excess of 500 feet. The sight-distance at Mr. Thompson's ranch, he said, is in excess of 500 feet easterly and westerly, and he recommended in view thereof that Mr. Thompson's request be denied. The Commission approved the recommendation.

Consideration was also given to a request from the City of Mt. Vernon in Grant County for installation of a flashing beacon at the intersection of the John Day Highway and the Beech Creek Highway (US 395). The Engineer advised that an investigation made by the Traffic Engineer disclosed among other things that the 24-hour volume of traffic entering the intersection was 2,240 vehicles, of which 73 percent entered from the John Day Highway. The remaining 27 percent was divided almost evenly between the Beech Creek Highway and the Ingle Creek County Road. Also, the investigation disclosed that there were only two accidents at this intersection between January 1, 1948 and February 28, 1953, with no fatalities. As the traffic volume is low and the accident record favorable, he recommended that the request be denied. The Commission approved the recommendation.

The Commission discussed a request from the City of Stayton for a survey concerning the establishing of traffic control lights at the intersection of the North

Santiam Highway with Washington Street in Stayton, and also at the highway intersection with Hospital Road. The Engineer advised that the investigation had been made, and that the conditions as found do not justify traffic signals. However, it was found that a flashing beacon should be installed at the intersection of Washington Street with the highway as this is a right angle turn and a flashing beacon affords considerable protection in indicating turns. The investigation also revealed that no further protective measures were warranted at the intersection of Hospital Road with the North Santiam Highway. He recommended, and the Commission approved, the installation of a flashing beacon at Washington Street at an estimated cost of $400 to be paid for entirely by the State.

The Commission gave consideration to a petition submitted by the Walker Parent-Teacher Association, Ashland, Oregon, requesting:

1. The painting of crosswalks at the intersections of Walker Avenue with the Pacific Highway and the Green Springs Highway

2. The posting of warning signs concerning school children walking along highways

3. The establishment of speed zones on both highways

4. Traffic lights at the intersections of Walker Avenue and Pacific Highway and the Green Springs Highway for the benefit of school children; and that these installations be made by the beginning of the school term in 1953.

The Engineer reported that subsequent to receipt of the petition, a careful investigation had been made on the ground. The investigation, he said, disclosed that the volume of traffic at these intersections is far below the minimum national traffic signal standards for both pedestrians and vehicles. Also there were no accidents at either intersection during 1952 and the first three months of 1953. He also pointed out that the sections referred to in the petition are already under a reduced speed zone. In view of these facts, he recommended that the request for traffic signals be denied. He explained that it is the policy of the Commission to paint crosswalks only in those instances where a school boy patrol is in operation, and he recommended that this policy be continued. He also recommended that the advance warning signs at the two intersections be removed and replaced with 42-inch "SCHOOL CROSSING" signs, 300 feet in advance of each of the intersections, to be installed just before the beginning of the new school year. The Commission accepted all of the Engineer's recommendations.

A request from Jackson County for the elimination of $19,000 set up in the 1954 FAS program for the construction of two small bridges was considered by the Commission. The Engineer reported that this money was intended originally for two small bridges, one over Snider Creek on FAS 273 and one over Griffin Creek on FAS 274. The County, he stated, feels that it can build these bridges with their own forces, and for that reason they wish to combine the $19,000 with the 1955 allotment, the total to be used for construction of

a bridge over Bear Creek on FAS 273 and a bridge over the Applegate River on FAS 559. He recommended, and the Commission approved the County's request.

The Engineer requested, and the Commission approved, an increase of $80,000 in the project authorization for Contract No. 3562 on the Hood River-Mosier Section of the Columbia River Highway in Hood River and Wasco Counties. He explained that this overrun was caused by slipouts of embankment materials encroaching into the Columbia River, sometimes as much as 90 feet below the water level. To replace the slipouts, it was necessary to use additional rock in slope protections and rock toe wall, which was not anticipated in the original plans.

The Engineer also requested and the Commission approved an increase of $7,000 in the project authorization for Contract No. 3885 covering the Heppner Junction Overcrossing in Gilliam County. He explained that the overrun was caused by lengthening the overcrossing 27 feet in order to provide a stock driveway and a roadway beneath the structure. In the purchase of the right of way for this structure, it was agreed to provide a roadway and stock driveway, and the most economical method of doing so was to extend the overcrossing. To have built separately the structures required in the right of way agreement, he stated, would have cost about $14,000.

Consideration was given by the Commission to a request from the Marion County Court for State maintenance of South 12th Street from the south city limits of Salem to its connection with the Pacific Highway East. The Engineer reported that the County request is based on highway truck traffic routed over this road. However, this condition has been in existence for a number of years, and as soon as the by-pass is completed, few trucks will be using the road. He pointed out that a school is now being built on South 12th Street which will cause a great deal of additional work to be done on the road to satisfy the Parent-Teacher Association. He recommended that the request be denied. The Commission approved the recommendation.

The Engineer requested authority to install one-way traffic signals on the Applegate Bridge over Rogue River and on the West Fork, Illinois River Bridge on the Redwood Highway in Josephine County, at an estimated total cost of $5,000. He said that the expense is fully justified in order to eliminate traffic hazards that now exist at these places. The Commission approved the request.

Consideration was given by the Commission to a request from Mr. C. S. Osika, Chairman of the Governor's Regional Safety Commission, Coquille, for illumination of the intersection of US 101 and Millington Road south of the city of Coos Bay. The Engineer stated that an investigation disclosed that southbound traffic on US 101 is somewhat confused during the hours of darkness when attempting to make a left turn into Millington Road because of approaching headlights. To remedy this situation, he recommended and the Commission approved the installation of two mercury vapor luminaire units at an estimated cost of $750.

Also considered was a request from L. C. and Edna Johnson, proprietors of Tour Inn at Mitchell Point on the Columbia River Highway in Hood River County, for permission to install a luminaire unit at the intersection of the highway with the motel's access road. The Engineer stated that in the past some motels have

been permitted to install light units, but these have been only at points where there is a heavy turning movement and where sight vision is obscured. In this instance, neither of these conditions prevail, and it was his thought that installation of a luminaire unit would serve no useful purpose and might possibly be detrimental to traffic on this fast, modern highway. He therefore recommended, and the Commission approved, that the request be denied even though the owners have agreed to pay for the cost of installation.

The Commission considered a request from the City of Arlington that the State move a house on Main Street in Arlington from its present position to eliminate encroachment on a city street. The Engineer reported that this property had been purchased as an office for the State Police, and it had not been known at the time that it was encroaching upon the street. As the State Highway Department insists that there be no private encroachments on highway right of way, he recommended that the State move its building from the city street at an estimated cost of $1,000. The Commission approved the recommendation.

A request was considered by the Commission from the consolidated High School Districts of Bay City and Garibaldi for reconstruction of the Oregon Coast Highway between the towns of Bay City and Garibaldi to afford safe transportation of students by school buses. The Engineer advised that this section is somewhat substandard, but there are many other sections of highway with more critical deficiencies. He pointed out that there is no manner of financing this improvement, which he estimated will cost in excess of $500,000. He also pointed out that there are hundreds of buses operating over county roads, secondary highways and even primary highways which are far inferior to the coast highway between Bay City and Garibaldi. He recommended that the School District be advised that there are no funds for this improvement at this time. The Commission approved the recommendation.

A request submitted by Mr. George Korn, Manager of the Willamette Pass Ski Area, for additional parking space at this place was considered by the Commission. The Engineer recalled that $4,500 had been spent in 1949 for an off-highway parking area which accommodates about 50 cars. To double the capacity of the existing area he estimated would cost $7,150. He pointed out that attendance at the Ski Area is increasing each year and on week-ends approximately 50 cars are parked on the highway shoulders in an area utilized by freight trucks which stop for a check of brakes and chains before proceeding down grade. Such shoulder parking, he stated, is definitely a hazard in the winter time, and he recommended that the existing parking area be extended easterly to another connection with the main highway thereby doubling the present parking capacity at an estimated cost of $7,150. The Commission approved the recommendation.

The Engineer requested authority to install three mercury vapor lighting units at the junction of the old and the new Pacific Highway between Judkins Point and Goshen, immediately south of Eugene. He explained that this is a channelized intersection with a number of openings and during hours of darkness traffic to and from Springfield experiences considerable difficulty. An investigation by the Traffic Engineer, he stated, indicates that adequate lighting would help, and he recommended the installation of three mercury vapor units at an estimated cost of $950. The recommendion was accepted by the Commission.

A letter from Bobby B. Balzhiser of Bend was considered by the Commission. Mr. Balzhiser alleges that a hazardous condition exists at the intersection of US 97 with the Tumalo-Deschutes Road about seven miles north of Bend. The Engineer stated that investigation discloses that there is some sight restriction by reason of US 97 being in a rock cut at this location. During the last five and one-half years, he said, there have been only three reported accidents at this location not including two reported by Mr. Balzhiser. None of these, he added, were caused by the conditions referred to in his letter. As the traffic volume at this intersection is low and the accident record is not bad, it was his thought that the installation of signals or widening of the rock cut do not appear to be warranted. He recommended, in lieu thereof, and the Commission approved installation of oversize crossroad symbols on either side of the side road.

The Commission discussed with the Engineer a proposed settlement with Glens Falls Indemnity Company which furnished the performance bond for Spada Brothers in connection with State Highway Contract No. 3439 for construction of the Drake Creek-Adel Section of the Warner Secondary Highway in Lane County. In reviewing the history of this case, the Engineer recalled that Spada Brothers had been declared in default by the Commission on August 17, 1951, and arrangements had been made with the bonding company through Mr. John M. Coke, its Attorney-in-Fact, for completion of the project by contractors, Jacobsen and Arenz. The total engineering cost overrun, he stated, amounted to $16,615.77, but all of this cannot be collected from the surety as there are limitations on the amount reimbursable. Leaving out the months when the contractor's operations were shut down and the months under which no penalty was assessed would leave eight months, namely, September, October, November, and December of 1951, and April, May, June, and July of 1952 for which penalty should be assessed. The maximum which can be assessed under the contract, he stated, is $750 per month or $6,000 for the eight months' period. The payment of $6,000, he stated, is agreeable with the surety and has also been approved by the Chief Counsel. In addition to the $6,000 the surety has also agreed to reimburse the State in the sum of $12,480.90 which it owes by reason of increased costs to complete the project. In addition to this money to be paid to the State, the bonding company has been forced to pay out approximately $86,000 to settle claims against the defaulting contractor. He recommended and the Commission approved finaling of the contract with the engineering penalty of $6,000 to be assessed against the Glens Falls Indemnity Company. In the discussion of this matter, the Engineer stated that action had been taken to revise the daily limit on engineering penalties in the contracts from $25 to $50 per day. He pointed out that the old amount of $25 had been in effect for a number of years and reflected costs in an era when labor costs were much less than at the present time. Chairman Chandler expressed the thought that bonding companies should be requested to check their contractors closer on the bonds they execute in connection with State Highway contracts in order to avoid recurrence of a similar situation. The Engineer was instructed to notify the bonding companies to that effect.

Consideration was given by the Commission to a request from Swift and Company, North Portland, for the installation of two flashing beacons on the Swift Secondary Highway in the vicinity of Swift and Company's plant in North Portland. An investigation had been made in this matter, the Engineer reported, disclosing that the accident record is rather high due to the fact that the traffic is heavy and

there is no control of access. As there are no cross streets, he pointed out, and all of the culture is on the south side, it would be very difficult to control access points. The industrial concerns along the highway do not desire any change in their present accesses and it is, he added, extremely difficult to enforce the posted speed limit of 25 miles per hour. While the accident rate is high, it is still only seven accidents a million vehicle-miles as compared with a state-wide average for suburban sections on the secondary highways of 10.72 accidents per million vehicle-miles. In view of these facts and conditions, he recommended, and the Commission approved, that the request be denied.

Authority was requested by the Engineer to transfer $17,000.00 from the amount budgeted for construction of employees' dwellings at Meacham to modernization of the equipment storage building at the same location. He explained that both the District Maintenance Superintendent and the Division Engineer had urged that this change be made in order to provide adequate storage and heating facilities for winter equipment which they felt is more urgently needed than the employees' housing. It is proposed to use the $17,000.00 to construct four 14-foot storage bays, 36 feet in depth with modern toilet facilities and a furnace for heating the storage bays, the work to be done by contract and bids to be called for in August, 1953. The Commission approved the transfer as requested.

A request from the Harvey Aluminum Company for the installation of traffic lights and a turn-out and holding lane on the old Columbia River Highway at The Dalles was considered by the Commission. The Engineer reported that the Aluminum Company, which is building a plant at The Dalles, has arranged to cross the railroad tracks at grade and the Railroad Company has agreed to provide crossing signals and short-arm gates at such crossing. Further that the Alumunum Company wants the Highway Commission to install traffic lights at the highway intersection as it feels the lights will be required to handle the large amount of traffic into and from the Aluminum Plant; also, they have requested the use of the northerly side of the existing highway right of way for space to construct a turn-out and holding lane for traffic into the plant. He pointed out that upon completion of the new US 30 into The Dalles, the existing highway will be only a frontage road and there will be very little traffic on it other than that generated by the Aluminum Company, which he thought would be considerable. He recommended that traffic lights be installed at the highway intersection at an approximate cost of $3,500 to be paid by the State, and that the Aluminum Company be granted an easement to use the northerly side of the highway right of way for a turn-out and holding lane providing construction of such lane is done at the expense of the Aluminum Company. The Commission approved the recommendation on condition that the Company builds its road.

The Engineer reported that the City of Sumpter has satisfied the legal requirements with respect to the expenditure of State Tax Street Funds accrued to them during the first six months of 1952.

He also reported that the following cities have satisfied legal requirements with respect to the expenditure or State Tax Street Funds during the second six months' period of 1952: Barlow, Cascade Locks, Coburg, Columbia

City, Creswell, Dayville, Dufur, Eastside, Estacada, Fairview, Gaston, Gervais, Gold Hill, Granite, Halfway, Hammond, Hubbard, Idanha, Ione, Island City, Jefferson, Jordan Valley, Joseph, Juntura, Monroe, Monument, Mosier, Mount Vernon, North Powder, Prairie City, Scappoose, Shaniko, Sherwood, Sodaville, Summerville, Wasco, and Yoncalla.

He advised that the plans for the projects proposed to be financed with the funds available have been examined and found satisfactory, and he recommended approval of the plans by the Commission. The Commission accepted the recommendation by adopting the attached resolutions relative thereto marked EXHIBITS "D-1" and "D-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Consideration was given by the Commission to the following requests for extensions of time within which to complete the following highway contracts:

1. W. R. Grasle Company, Contract No. 3803 for installation of traffic signals in Portland and vicinity on the Columbia River and Mt. Hood Highways in Multnomah County, requested an extension of time of 90 days from January 31 to and including April 29, 1953, within which to complete this job. The contractor alleged that although all equipment had been installed by the specified completion date, the painting could not be completed until Aptil 29 because of bad weather. The Engineer reported that the painting could not be performed during the winter months and the contractor had been directed to postpone painting until better weather, which painting was completed April 29. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

2. Trowbridge and Flynn Electric Company, Contract No. 3757 for installation of traffic signals in The Dalles on the Columbia River Highway in Wasco County, requested an extension of time of 151 days from December 31, 1952, to May 31, 1953, within which to complete this work. The contractor stated that he was unable to complete the job within the specified time limit as the painting could not be done in the winter time, and he also had to make corrections in the installation. The Engineer reported that the signals were completed by the completion date except for adjustments, replacement of defective parts, and painting of the traffic signal poles. In view of these circumstances, he recommended the extension of time be granted as requested without penalty. The Commission approved the recommendation.

3. Donald M. Drake Company, Contract No. 3676 for construction of the Tualatin River Bridges on the West Portland-Hubbard Highway in Washington County, requested an extension of time of 61 days from May 31, 1953 to July 31, 1953, within which to complete this job, The contractor stated that his operations had been delayed due to high water in March and April, 1952, and also flood waters in January, 1953, which washed out falsework. The Engineer reported that the contractor's falsework had been washed out in the flood last winter, and he was not able to replace it for several months. He recommended that the extension of time be granted without penalty and presented a letter from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

4. Tom Lillebo, Contract No. 3707 for bridge construction on the Salem By-pass Section of the Pacific Highway East, Marion County, requested an extension of 30 days' time from April 30 to May 30, 1953, in which to complete the contract. He stated that only minor finishing work is left to be performed, which work has been held up by rain. The Engineer reported that the project was completed prior to April 30 with the exception of a small amount of surface finish which was postponed until more suitable weather. No inconvenience has been caused to traffic nor has additional engineering expense been incurred. He therefore recommended that the extension of time be granted without penalty and presented a letter from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

5. Teller Construction Company, Contract No. 3732 for construction of a bridge and pumphouses on the Columbia River Highway in Hood River County, requested an extension of time of 14 days from April 30 to and including May 13, 1953, within which to complete this project. The contractor alleged that the work had been delayed due to difficulties in driving pile and because of inclement weather. The Engineer reported that as far as could be determined, the pile driving was no more difficult than on other projects in the vicinity, and the contractor had laid off most of the winter months while other contractors continued to work. He recommended that the extension of time be granted subject to the contractor reimbursing the State for all engineering expenses incurred between April 30 and May 13, 1953. He presented a letter from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

6. Johnston and Bryant, Contract No. 3814 for construction of a sand storage shed on the Wilson River Highway in Tillamook County, requested an extension of time of 45 days from June 15 to July 31, 1953 within which to complete this job. The contractor stated that unsettled weather prevented the painting of the shed exterior. The Engineer reported that all work except the painting had been completed prior to June 15 and as the weather was wet at that time, the contractor had been requested to defer painting. In view of these facts, he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

7. Delano Aerial Surveys, Contract No. 3759 for aerial photography and topographic mapping of the Euchre Creek-Brookings Section of the Oregon Coast Highway in Curry County, requested an additional extension of time of 122 days, from February 28 to June 1, 1953, within which to complete this work. The contractor stated that a large amount of detail work plus some delays due to inspection of the Bureau of Public Roads' portion of the work had prevented completion of the contract within the limits of the previous extension of time. The Engineer reported that this is the first contract of this kind awarded in the coast area, and the time limit was too short considering the heavy terrain and the weather conditions that were encountered. He also said that no additional expense has been incurred by the State, and he recommended that the additional extension of time as requested be granted without penalty. The Commission approved the recommendation.

8. F. L. Somers, Contract No. 3660 for grading and paving the Modoc Point-Barkley Springs Unit of the Modoc Point-Algoma Section of The Dalles-California Highway in Klamath County, requested an extension of time of 273 days, from September 30, 1952 to June 30, 1953, within which to complete this contract. The contractor stated that no efforts were spared in trying to complete the project,but the start of the work had been delayed approximately two weeks while arrangements were being made for railroad protection; also, his operations were restricted more than was expected by heavy highway traffic. The Engineer stated that the contractor had prosecuted the work to the best of his ability but had been handicapped by restrictions placed on him by the adjacent railroad and by heavy traffic. He recommended that the extension of time be granted as requested without penalty, and he presented a letter from the Bureau of Public Roads concurring in the recommendation. The Commission approved the recommendation.

9. Oscar E. Joelson, Contract No. 3459 for rock production on the Lapine Section of The Dalles-California and Fremont Highways in Klamath and Deschutes Counties, requested an additional extension of time of 168 days, from April 30 to October 15, 1952, within which to complete this job. He stated that he was unable to complete the job within the limits of the previous extension of time because of heavy snow fall, and when operations had been resumed, the cinders were very wet reducing production to about one-fourth. The Engineer reported that because of a crushing job for the Bureau of Public Roads the contractor was unable to start work on this job until September 20, 1951, and could not crush during the winter months because of heavy snows. The overrun in time on this project, he stated, did not cause the State any inconvenience or extra expenditure. In fact the engineering costs were considerable less than the amount authorized. In view of these conditions, he recommended that the additional extension of time be granted without penalty. The Commission approved the recommendation. *

---

* FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above, was based upon the recommendations of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that the contracts, Nos. 3459, 3609, 3739, 3679, 3707, 3727, 3732, 3757, 3759, 3762, 3779, 3781, 3785, 3799, 3803, 3809, 3812, 3815, 3824, 3840, 3842, 3847, 3849, 3874, 3893, 3902, 3903, and 3924, for construction of State Highway projects have been completed according to the requirements of the contracts or modifications thereof and said projects are now ready for acceptance. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that a recent investigation reveals that the stop signs at the junction of the Athena-Holdman Highway and the Havana-Helix Highway are incorrect insofar as traffic needs are concerned. He pointed out that in a resolution adopted by the Commission September 21, 1949, northbound traffic on the Havana-Helix Highway is required to stop before entering the Athena-Holdman Highway at Mile Post 3.66. A check of the 1951 traffic data revealed that the average daily traffic north of the intersection, which is three-way, was 209 vehicles; south of the intersection the average daily traffic was 253 vehicles; west of the intersection was 61 vehicles. The westerly and northerly legs of the intersection form the Athena-Holdman Highway and the northerly and southerly legs form the Havana-Helix Highway. In view of the traffic volumes it is apparent, he stated, that the traffic entering the intersection from the westerly leg on the Athena-Holdman Highway should be required to stop rather than the other, as now posted, and he so recommended. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "M", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer brought up for the Commission's consideration the designation of the Lower Columbia River Highway between Rainier and Astoria as a "throughway". He explained that when the original "throughway" system was adopted in 1948, the Lower Columbia River Highway was included only from Portland to the city of Rainier. Construction, he stated, is now underway on the Clatskanie-Delena Section and condemnation proceedings may be necessary to acquire right of way. In order to condemn access rights, it was his opinion that the section of highway from Rainier to Astoria should be designated as a "throughway" and he so recommended. The Commission approved the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "P", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given by the Commission to a resolution submitted by the Douglas County Pomona Grange No. 13, requesting the lowering of the existing 40 miles per hour speed limit to 25 miles per hour on the Coos Bay-Roseburg Highway through the community of Camas Valley. The Engineer advised that following receipt of the resolution, a traffic engineering investigation had been made disclosing among other things that the alignment in this vicinity is tangent and in the past two years there had been but two accidents in the section, both of which involved property damage only. The accident rate during 1952, he stated, was 5.76 accidents per million vehicle-miles, considerably below the average accident rate for similar sections. A speed check revealed that 80 per cent of all vehicles traveled at or below a speed of 38 miles per hour and the maximum speed recorded was 45 miles per hour. In view of these findings, he recommended that the request be denied. The Commission adopted the recommendation.

The Commission also considered requests from State Representative Edward A. Geary and a Mr. O. Sisemore both of Klamath Falls for designation of a reduced speed zone on the Klamath Lake Highway between Mile Posts 45.81 and 48.66 west of Klamath Falls. An engineering investigation was conducted, the Engineer stated, disclosing among other things that there were four accidents on this section during 1951 and the accident rate during that year was 3.65 accidents per million vehicle-miles of travel, in comparison with the average accident rate of 10.72 accidents per million miles for suburban secondary highways. From 1-1-48 to 3-31-53 there were 19 reported accidents and no fatalities. In addition to these accidents there was a fatal accident during May, 1953, involving an out-of-state motorist driving a racing car, who failed to make a curve. Speed checks were taken and it was found that the lowest indicated speed which should be established would be 40 miles per hour. The safe speeds for all curves were checked and it was found that these ranged from 25 to 45 miles per hour on the curves in question; therefore, the establishment of a 40-mile-per-hour speed zone would tend to give the motorist false information. As a result of the engineering investigation, he recommended the installation of extra large curve symbol signs with advisory speed indications where necessary throughout the entire section. He also recommended that the request for a speed zone be denied. The Commission approved the recommendations.

The Engineer reported that the State Speed Control Board has established a 35-mile per hour speed limit in the southerly part and a 25-mile per hour speed limit in the northerly part of the city of Gaston on the Tualatin Valley Highway. Just north of the north city limits, he stated, there is a short section which includes a narrow bridge and an abrupt change from rural to urban culture. A traffic engineering investigation has been conducted, he stated, revealing that the reduced speed zone should be extended from the north city limits of Gaston to a point 0.05 mile northerly therefrom, and he so recommended. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that residents along Crocker Lane, which intersects the Junction City-Eugene Secondary Highway between Eugene and Junction City, known as the River Road, complain of the hazard caused by the parking of vehicles on the shoulders of the highway and the servicing of such vehicles at the pumps of a service station near the intersection of Crocker Lane and River Road. He further stated that an investigation disclosed that the sight distance at this point is somewhat restricted, and while there have been no accidents thus far, a potential hazard exists. As it is unlawful to service vehicles on the right of way, he suggested that notice be sent to the service station operator ordering him to desist from such practice. He requested authority to erect a fence along the right of way line to physically prevent such servicing, and he also recommended that parking on the shoulders of the highway in the immediate vicinity be prohibited. The Commission accepted the Engineer's suggestion and recommendations and thereupon instructed the Chief Counsel to prepare an appropriate resolution covering the entire matter for adoption by the Commission at its next

regular meeting.

The matter of permitting vehicles to park on highway shoulders at the "Top O' Hill" Cafe on US99E near Mile Post 26.0, a short distance north of Aurora, was considered by the Commission. The Engineer reported that this spot is a favorite stopping place for truckers, but even though ample area has been provided for off-highway parking, some of them continue to park their vehicles on the highway shoulders. There have been, he stated, about six accidents at this location in which shoulder parking was either the direct or indirect causative factor. To alleviate the situation, he recommended and the Commission approved that parking on shoulders be prohibited on both sides of the highway between Mile Post 25.68 and Mile Post 26.0. The attached resolution relative thereto, marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission by unanimous vote.

Consideration was also given to the problem of cars parking on highway shoulders on the Oregon Coast Highway in the vicinity of an auto race track near Neotsu in Lincoln County. The Engineer recalled that on July 26, 1950, parking had been prohibited in this area because of the race track, and on October 20, 1952, the action was rescinded as the race track had been abandoned. However, the race track is again in operation and shoulder parking has again become a problem. He recommended that the "No Parking on Highway Shoulders" restriction be re-enacted between Mile Post 123.20 and Mile Post 123.58. The Commission approved the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that complaints have been received regarding the inconvenience and potential hazards created by reason of indiscriminate shoulder parking on the Netarts Secondary Highway easterly a distance of 0.12 mile from the east end of the bridge crossing the Tillamook River. An investigation conducted by the Traffic Engineering Division, he stated, disclosed five accidents on this section during the past five years, all of which involved property damage only. Photos taken in the vicinity show that off-street parking is available and that vehicles parked head-in overhang the edge of the 16-foot concrete pavement at McKinley's Moorage. In view of these conditions he recommended that shoulder parking be prohibited between Mile Post 1.55 and Mile Post 1.67 on the Netarts Secondary Highway. The Commission approved the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported for confirmation removal of reduced load limits on the following state highway sections and bridges.

McKenzie Primary Highway, No. 15; West Diamond Lake Secondary Highway No. 233, Crater Lake Highway No. 22, Clackamas Secondary Highway No. 171, Old Oregon Trail Primary Highway No. 6, and the Elkton-Sutherlin Secondary Highway No. 231. He explained that these reduced load limits had been placed in the first instance to protect the roadways and the bridges due to freezing and thawing conditions in the highways and structural weaknesses in the bridges. These conditions, he stated, in certain instances no longer exist or have been removed and the reduced load limits are no longer necessary. The Commission approved the Engineer's action in removing reduced load limits by adopting the attached resolution relative thereto marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that under authority previously granted him, he ordered reduced load limits on the following sections of state highways: McKenzie Highway No. 15, Rome-Princeton Secondary Highway No. 442, Crater Lake North Secondary Highway No. 232, East Diamond Lake Secondary Highway No. 425, and West Diamond Lake Secondary Highway No. 233. The reduced load limits, he explained, were placed because of softened roadbed conditions due to freezing, thawing and excessive moisture. Such action, he stated was necessary to protect the highways from damage. The Commission confirmed the Engineer's action by adoption of the attached resolution relative thereto marked EXHIBIT "J", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that construction of the Catching Slough-Enegren Ferry Section of the Coos River Highway in Coos County has been completed and is now open to traffic. In compliance with an agreement previously entered into with Coos County, he recommended that the old highway section be turned over to Coos County to be maintained as a county road. The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "L", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

An abandonment agreement with Grant County covering the Mt. Vernon-John Day Section of the John Day Highway in Grant County was considered by the Commission. The Engineer reported that it is planned to reconstruct this section of highway during the season of 1953, and under the terms of the agreement the County agrees to take over and maintain certain portions of the old highway route as a county road after the newly constructioned section has been completed and opened to traffic. He recommended and the Commission approved the agreement. (The abandonment agreement was signed by the Commission on the following day.)

Also considered was an abandonment agreement with Clatsop County covering the Nehalem River Bridge Section of the Nehalem Highway in Clatsop County. The Engineer reported that it is planned to reconstruct this section of highway during 1953 and the County has agreed, under the terms of the agreement, to maintain a certain portion of the abandoned route as a county road when the newly constructed section is completed and opened to traffic.

He recommended that the agreement be approved. The Commission accepted the Engineer's recommendation. (The abandonment agreement was signed by the Commission on the following day.)

The Commission also gave consideration to an agreement with Marion County covering the handling and routing of Fisher Road traffic in connection with construction of the Salem By-Pass in Marion County. The Engineer explained that in connection with the Salem By-Pass, the Commission had previously entered into an agreement with the County under date of February 1, 1952, providing for handling and routing of certain county roads and it has now been determined that this agreement should be supplemented by provisions for widening, improving and extending Fisher Road to form a service road for properties lying east of the By-Pass section. He explained that the road is to be extended southerly to a connection with the Silverton Road. He recommended that the agreement be approved. The Commission accepted his recommendation. (The agreement was signed by the Commission on the following day.)

The Commission discussed with the Engineer the bids received at the morning session for highway construction, and at 4:00 p.m., Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's action being by unanimous vote.

"Grading and oiling on the New Bridge-Richland Section of the New Bridge County Road north of Richland in Baker County. Two bids were received for this work, the low one being submitted by Arthur Simonsen, Baker, at $44,390.50. The bid of Arthur Simonsen in the sum of $44,390.50 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from Bureau of Public Roads and Baker County has made provisions for the deposit of $13,950.00, which is said County's share of cost based upon the low bid.

"Grading and paving the North Corvallis Section of the Pacific Highway West at Corvallis in Benton County. Fourteen bids were received for this job, the low one being submitted by Berke Bros., Portland, at $285,426.00. The bid of Berke Bros. in the sum of $285,426.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Installation of traffic signals on the Oswego Highway at 7th and Main Streets in Oregon City and on the Tualatin Valley Highway at Pacific Ave. and Main St. in Forest Grove in Clackamas & Washington Counties. Four bids were received, the low bid being submitted by Trowbridge & Flynn Electric Co., Medford, at $6,040.00. The Commission deferred award of the contract pending receipt of an agreement signed by Oregon City officials pertaining to traffic regulations on streets near the east end of the Willamette River Bridge. (The contract was awarded to the low bidder on the following day.)

"Grading and rock base on the Apiary Section of the Rainier-Apiary County Road south of Rainier in Columbia County. Fifteen bids were received for this project, the low one being submitted by M. L. O'Neil & Son, Eugene, at $41,740.50. The bid of M. L. O'Neil & Son in the sum of $41,740.50 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from Bureau of Public Roads and Columbia County has made provisions for the deposit of $9,600.00 which is said County's share of cost based upon the low bid.

"Grading and oil mat surfacing on the China Camp Marsh Section of the Oregon Coast Highway about 3 miles north of Coquille in Coos County. Keith Bros., Medford, submitted the low bid out of six bids received for this project at $70,612.00. The contract has been awarded to the low bidder at their bid price.

"Paving Michigan Avenue in the City of Empire in Coos County. Porter W. Yett, Portland, submitted the only bid received for this job at $11,436.00. The contract has been awarded to Porter W. Yett at his bid price.

"Paving on Ash, Second and Third Streets in the City of Myrtle Point in Coos County. Porter W. Yett, Portland, submitted the only bid for this work at $13,170.00. The contract has been awarded to Porter W. Yett at his bid price.

"Construction of a concrete deck girder bridge over Willow Creek on the Columbia River Highway at Heppner Junction in Gilliam County. Five bids were received for this project, the low one being submitted by Hamilton & Thoms, Eugene, at $151,435.00. The contract has been awarded to the low bidder at their bid price.

"Paving on Wilson Street in the town of Monument in Grant County. Three bids were received for this job, the low one being submitted by J. C. Compton Co., McMinnville, at $11,810.00. The contract has been awarded to the low bidder at their bid price.

"Landscaping at Coburg Junction on the Pacific Highway in Eugene, Lane County. Rich & Sons Nursery, Hillsboro, submitted the low bid for this job at $12,186.40. Two higher bids were also received. The contract has been awarded to the low bidder at their bid price.

"Construction of a concrete bridge over Bilyeu Creek on County Road No. 832 in Linn County. Four bids were received for this work, the low one being submitted by Lindstrom Bros., Inc., Portland, at $12,796.00. The Commission has referred all bids to Linn County as this is a county project.

"Construction of a concrete bridge over Crabtree Creek on Market Road No. 7 in Linn County. Two bids were received for this job, the low one being submitted by Lindstrom Bros., Inc., Portland, at $27,704.00. The Commission has referred all bids to Linn County as this is a county job.

"Oiling and shoulder construction on the Kingston-Scio and Oak Creek-

Plainview Sections between Stayton and Scio on the Scio-Stayton County Road, and between Lebanon and Brownsville on the Lebanon-Brownsville County Road in Linn County. J. C. Compton Co., McMinnville, submitted the low bid for this work at $72,273.00. Four higher bids were also received. The bid of J. C. Compton Co. in the sum of $72,273.00 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from Bureau of Public Roads and Linn County has made provisions for the deposit of $16,300.00 which is said County's share of the cost based upon the low bid.

"Grading and paving on Race Track Street in the Town of Heppner, Morrow County. Five bids were received for this work, the low one being submitted by Warren Northwest, Inc., at $15,804.00. The bid of Warren Northwest, Inc., in the sum of $15,804.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the City of Heppner and provision has been made by said city of funds for the cost of the project in excess of $15,000.00, which amount will be advanced by the State.

"Remove and reconstruct pile trestle approaches to the swing span over the Nehalem River on the Oregon Coast Highway in Tillamook County. Three bids were received for this job, the low bid being submitted by H. G. Palmberg, Astoria, at $66,814.00. The contract has been awarded to the low bidder at his bid price.

"Grading and oiling on the Friend-Dufur Section of the Friend County Road about nine miles south of Dufur in Wasco County. Four bids were received for this job, the low bid being submitted by J. N. Conley, Portland, at $74,288.00. The bid of J. N. Conley in the sum of $74,288.00 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from Bureau of Public Roads and Wasco County has made provisions for the deposit of $22,000.00 which is said County's share of cost based upon the low bid.

"Construction of a masonry block maintenance shed at Forest Grove in Washington County. J. E. Jeremiah, Portland, submitted the low bid for this work at $6,503.75. Four higher bids were also received. The contract has been awarded to the low bidder at his bid price.

"Construction of a masonry block maintenance shed at Manning on the Sunset Highway in Washington County. The low bid for this job was submitted by J. E. Jeremiah, Portland, at $15,394.00. Six higher bids were also received. The contract has been awarded to the low bidder at his bid price.

"Construction of Buck Hollow Bridge over Willamina Creek on the Willamina-Coast Creek Road in Yamhill County. Six bids were received for this job, the low bid being submitted by Hamilton & Thoms, Eugene, at $51,770.00.

The bid of Hamilton & Thoms in the sum of $51,770.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from Bureau of Public Roads and Yamhill County has made provisions for the deposit of $11,650.00, which is said County's share of cost based upon the low bid.

The Engineer requested confirmation of the authority given him on June 18 to permit log haulers to haul on Saturday afternoons beginning June 20. He explained that the request for such privilege had been submitted by the Western Forest Industries Association and by individual operators to allow them to replenish their depleted log supplies. Telephone approval of this request was secured from two of the Commissioners, following which the Public Utilities Commissioner, the State Police, the weighmasters and the press had been notified that log hauling would be permitted on Saturday afternoons beginning June 20 and extending to the winter season with the exception of July 4, a holiday, and September 5, which is the Saturday preceding Labor Day. The Commission confirmed the Engineer's action.

Consideration was given by the Commission to a letter from John B. Lloyd inviting members of the Commission to take part in ceremonies incident to dedication of the Weiser Interstate Bridge across the Snake River on July 9, 1953. The matter was discussed, and the Commission agreed that someone representing the Highway Department should be present. Commissioner Reynolds volunteered to represent the Commission on this occasion. It was understood that Mr. A. F. Parson, Division Engineer, will also attend.

An agreement with Morrison-Knudsen Company of Boise, Idaho, for the removal of 30,000 yards of cinders from a state-owned cinder pit adjoining the Burns-Crane Highway was considered. The Engineer advised that the pit contains a far greater amount of material than will be needed by the Highway Department in the forseeable future. The Union Pacific Railroad Company, he stated, has asked permission to take approximately 30,000 yards of material from this pit as ballast for its railroad tracks, the materials to be removed by the Morrison-Knudsen Company, and has agreed to pay five cents per cubic yard for the material. He recommended approval of the request and execution of the agreement. The Commission accepted the Engineer's recommendation. (On the following day the agreement was signed by the Commission.)

Increase in salary ranges for engineering classifications as approved by the Civil Service Commission were considered by the Commission. The Engineer explained that the last increase in engineering classifications authorized by the Civil Service Commission was in August, 1951, and recently the Civil Service Commission had approved an increase effective July 1, 1953, for all engineering classifications with the exception of Grade VII. There are only two persons in the Grade VII range, being Mr. W. C. Williams and Mr. W. W. Stiffler, Assistant State Highway Engineers. Increases, he pointed out, have been granted to state officials by the state legislature and in line with these increases, the Civil Service Commission has approved a new rate for the Grade VII classification. The present

rate for this grade is $738.00 to $851.00 per month. The new rate ranges from $805.00 to $926.00. Authorization, he stated, has been secured from the Civil Service Commission and approved by Governor Patterson to pay these two men $900.00 per month. He presented a tabulation of rates applying to the engineering classifications, showing the present and proposed rates, and recommended that the proposed rates be approved. The Commission approved the rates as presented by the Engineer.

The Commission gave consideration to a request from Mr. W. S. Phelps, Management Assistant with the Oregon State Board of Forestry, for temporary permit to construct a scaling platform on the southerly side of the Wilson River Highway at Glenwood. The Engineer reported that the scaling platform is to be used in scaling logs sold by the Forestry Department from the Tillamook Burn area. The application, he stated, has been investigated by the Division Engineer and the Traffic Engineering Division, whose recommendation it is that a temporary permit be granted to construct such a platform, the installation and removal of the platform to be at the expense of the Forestry Department, and the permit to expire on December 31, 1954. The recommendation was accepted by the Commission.

The Commission approved out of state travel expenses for the following people:

1. R. H. Baldock to attend Executive Committee meeting of the AASHO at Mackinac Island, Michigan, and Executive Committee meeting of the Highway Research Board in Wequetonsing, Michigan, June 30 to July 4, 1953, the estimated cost being $330.00.

2. W. C. Williams to attend the Advisory Committee meeting on the WASHO test road at Ogden, Utah, on June 29 and 30, 1953, the estimated cost being $115.00.

3. C. H. Maison, Manager, Accounting Division, to go to San Francisco, California, June 16 to 18, 1953, to check audit charges in books of the Southern Pacific Company concerning Modoc Point-Barkley Springs Section of The Dalles-California Highway. The cost of the trip is estimated at $100.00.

Consideration was given to a proposed cooperative agreement with the U.S. Geological Survey regarding investigation to determine stream flow in small drainage areas. The Engineer reported that during the last two years the Commission had approved cooperation in this work and the Highway Department now is beginning to get very favorable data from the results of this investigation. He pointed out that for the first time the Department is now able to predict with reasonable accuracy the volume of runoff per square mile in several sections of the state thereby effecting real economies in the design of roadway culverts. He felt that it would be advantageous to continue the investigation for another year beginning June 30, 1953. After some further discussion and upon the En-

gineer's favorable recommendation, the Commission approved the extension of the agreement for one year and authorized the expenditure of a maximum of $5,000.00 as the State's share of the cost.

A request from Charles A. Crump was considered for permission to install a factory-made cattle guard on the Warner Secondary Highway about 5.9 miles north of Adel in Lake County. The Engineer reported that Mr. Crump proposes to make the installation at his own expense, but as yet has not submitted a plan. He recalled that some few years ago the Bridge Engineer had designed a cattle guard with concrete sills and steel rails which would cost approximately $4,000.00. No valid permits, he stated, are in effect authorizing the use of cattle guards of any design on any state highway. It was his opinion that they are hazardous to highway traffic, and upon his recommendation the Commission denied the request.

The Commission considered and approved a report submitted by the Secretary showing vouchers and lists signed by him during the period May 15 to June 24, 1953.

The Commission gave consideration to the following items of unfinished business as they appear on the summary prepared by the Secretary as of May 23, 1953.

1. Car parking problem on US 30 at Koberg Beach near Hood River. This matter had been considered earlier in the day in reports rendered by the Parks Superintendent and the Engineer. The item was ordered deleted from the list of unfinished business.

2. Proposed hearing regarding route of the North Santiam Highway as it affects Stayton. The Commission instructed that the interested parties be advised that a hearing would be held, and as soon as the date for such hearing has been determined, they would be advised. The item was ordered deleted from the list of unfinished business.

3. Proposal for development of a State Park at Ochoco Reservoir east of Prineville. Further action in this matter was deferred pending inspection by the Commission, probably in August. This item is to remain on the list of unfinished business.

4. Proposed sale of excess property on the Divide-Rice Hill Section of the Pacific Highway to Scott's Valley School District No. 18. This property was viewed by the Commission on their trip through Southwestern Oregon during May 20-23, 1953. At that time, the Commission agreed that to sell to the District 10 acres at $250.00 per acre, or if the District takes the entire tract consisting of 24 acres, then the price would be $200.00 per acre. Construction of a fence to keep school children off the highway was discussed, and it was agreed that if the property is sold to the school, the school may erect a fence but the State will not contribute toward the cost.

The Commission confirmed the action and ordered the item deleted from the list of unfinished business.

5. Use of local counsel in trial of condemnation cases. No action was taken by the Commission at this time. The item is to remain on the list of unfinished business.

6. Request of Mr. E. V. Nelson for commercial access to his proposed "Prehistoric Gardens" on the Oregon Coast Highway near Mussel Creek in Curry County: Consideration had been given to this matter by the Commission at the meeting on May 18, but action had been deferred pending inspection by the Commission on their trip through Southwestern Oregon during May 20-23, 1953. At that time, the Commission viewed the property and approved dual access to be used for this particular commercial venture and for no other purpose whatsoever that caters to the public. The Commission confirmed the action. This item is to be removed from the list of unfinished business.

7. Request of the West Coast Telephone Company to change the proposed location of their telephone line along the Umpqua Highway between Reedsport and Scottsburg: The Engineer reported that as instructed by the Commission at the May meeting, a representative from the Highway Department had been instructed to review the location with a telephone company representative, but to date the report had not been completed. This item is to remain on the list of unfinished business.

8. Request of the Powder River Sportsmen's Club, Baker, for construction of parking, picnic and restroom facilities adjacent to Unity Reservoir on the Baker-Unity Highway in Baker County: Action on this matter was deferred pending inspection by the Commission on its inspection trips into Eastern Oregon in July. This item is to remain on the list of unfinished business.

9. Proposed expenditure of $40,000.00 to construct a bridge at Wolf Creek on the Pacific Highway in Josephine County: The Engineer recalled that the Commission had tentatively approved this expenditure at the May meeting, but had withheld final approval pending an inspection which was made by the Commission on the trip through Southwestern Oregon during May 20-23, 1953. The Commission confirmed the expenditure. This item is to be removed from the list of unfinished business.

10. Proposed changes in construction plans on the Brushes Creek Section of the Oregon Coast Highway: Action had been deferred on this matter at the meeting on May 18, 1953, pending personal inspection by the Commission on the trip through Southern Oregon during May 20-23, 1953. On May 22, 1953, the section was viewed by the Commission, and the Engineer was instructed at that time to prepare a survey. The Engineer reported that the survey is now under way and will be presented for consideration as soon as it is

completed. The Commission ordered this item continued on the list of unfinished business.

11. Proposed programming of available Federal Aid Funds: This item was ordered deleted from the list of unfinished business inasmuch as the program had been adopted by the Commission on its inspection trip in June.

12. Proposed extension of the highway from Havana south to a connection with the Oregon-Washington Highway east of Pendleton: Action on this matter was deferred pending personal inspection by the Commission on its trip into Eastern Oregon, in July. The item is to remain on the list of unfinished business.

13. Protest from Port Orford Chamber of Commerce regarding the present policy of State weighmasters and relocation of the Bandon truck scale: The Engineer reported that as instructed at the May meeting, an investigation was being conducted for a suitable scale site location in Curry County, and that as soon as a suitable site has been found, the matter would be presented to the Commission. The Commission ordered the item deleted from the list of unfinished business, and if the matter again comes up, it is to be treated as new business.

14. Request of Mr. & Mrs. C. H. Starett that the State purchase their property adjacent to the proposed right of way of the West Portland-Harbor Drive Section of the Portland-Salem Expressway: This matter was considered by the Commission at the meeting May 19, 1953, and the Engineer and Right of Way Engineer were instructed at that time to ascertain all of the facts and submit a report, which report was submitted on May 27. The Commission viewed the property during its inspection trip in June, and at that time denied the request inasmuch as the property is in no way required for State Highway use. The Commission confirmed the action and ordered this item removed from the list of unfinished business.

15. Request to haul logs on the Territorial Secondary Highway between Douglas County line and the Pacific Highway at Anlauf: This matter was considered by the Commission at its meeting on May 19, but action was deferred pending a determination by the Engineer as to a safe means of hauling logs over the highway, and an inspection by the Commission on its trip through Western Oregon during May 20-23, 1953. Action was taken by the Commission on May 23, and the Engineer was then instructed to issue permits for hauling logs over the section with the provision that flagmen are to be provided on the narrow sections. The Commission confirmed the action and ordered this item removed from the list of unfinished business.

16. Striping of traffic lanes on Adams Avenue in La Grande. The Engineer reported that as instructed by the Commission at the meeting of May 19, the matter had been investigated as to a method to properly safeguard traffic, and as a result the striping has been completed.

This item is to be removed from the list of unfinished business.

17. Proposed construction of a retaining wall along the city park in Condon where the park adjoins the highway: The Engineer reported that as instructed by the Commission, the matter had been reinvestigated, and it was found that it will cost approximately $10,000.00 to construct the wall. Action was deferred pending inspection by the Commission on its trip into Central Oregon during July. This item is to remain on the list of unfinished business.

18. Proposed erection of signs to inform tourists regarding historical landmarks and some sort of brochure describing interesting things in the vicinity: This item was reported on by the Parks Superintendent earlier in the day and was ordered removed from the list of unfinished business.

19. Proposed location of highway at north entrance to Ontario and determination as to whether an "underpass" or an "overpass" is to be constructed: The Engineer reported that the survey of this section is not yet completed, but as soon as it is, it will be presented to the Commission for consideration. This item is to remain on the list of unfinished business.

20. Request for access to The Dalles-California Highway in Lapine: Action on this matter was deferred pending inspection by the Commission on its trip into Central Oregon later in the season. This item is to remain on the list of unfinished business.

21. Request of Nehalem Bay Expansion Association for:

1. Study of the proposed highway between Elsie on the Sunset Highway and the junction with the Necanicum Highway north of Mohler.

2. Establishment of road through Short Sand Beach Park from the Oregon Coast Highway to the top of Neahkahnie mountain.

3. Construction of a road on the Nehalem Sandspit.

4. Re-routing of the Oregon Coast Highway from a point near Otis via ocean frontage on Cascade Head to a point near Neskowin.

These matters were discussed briefly, and upon the Engineer's negative recommendation were denied by the Commission as there are no funds available to finance them.

The Commission confirmed the date of July 22, 1953, as the date for its meeting to consider the sale of $32,000,000.00 of Oregon Highway Bonds as authorized by the 1953 legislature. The meeting is to be held

in the Imperial Room of the Imperial Hotel, Portland, and is to convene at 10:00 A.M. The Commission also confirmed the dates of August 6 and 7, 1953, as the dates for the next regular Highway Commission meeting to be held in the Green Room of the Imperial Hotel. The Secretary was instructed to make the arrangements for the meeting place for both meetings.

Portland, Oregon
June 26, 1953

The meeting of the State Highway Commission reconvened in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st. Assistant State Highway Engineer
W. W. Stiffler, 2nd Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Bids as follows for highway construction were opened and read aloud pursuant to previous published notice at the conclusion of which it was announced that awards of contracts would be made at 3:00 p.m. in the same room.

BENTON COUNTY
TWIN BRIDGES-MUDDY CREEK GRADING AND ROCK SURFACING

A. H. Saxton & Son, Corvallis	$21,093.00
Buchanan Excavating Co., Junction City	21,429.50
J. R. Taggart, Salem	25,041.50
Smith Sand & Gravel Co., Albany	27,009.10
Durbin Bros., Eugene	29,652.00
Q. L. Rufener, Portland *	34,275.00

*Bidder will accept only one project.

General Construction Co., Portland	48,967.50
Babler Bros., Inc., Portland	49,270.00

Hon. James H. Sturgis, County Judge, Umatilla County, appeared before the Commission concerning construction of a road extending from Ordnance on US30, northerly to a connection with US730 near Umatilla. He explained that the road is needed in connection with the bridge to be constructed across the Columbia River at Umatilla, and on which it is planned to receive bids in the middle of August. It was his thought that the Federal Government would be interested in the road and might contribute funds towards its construction as it connects two government projects. He gave as his feeling that the road would provide a saving in distance of about five miles between common points. Action on the matter was deferred pending personal inspection by the Commission on its trip through Eastern Oregon in July.

Mr. Fred A. Taylor and Mr. H. L. Claycombe, representing the Ashland Chamber of Commerce, appeared before the Commission concerning improvements to the Pacific Highway between Medford and Ashland. Mr. Taylor stated that the Chamber of Commerce also is interested in getting highway improvements within the city of Ashland, and they would use their influence as much as possible to sell the idea of prohibiting parking on the highway through the city. They requested early construction of a section consisting of .7 of a mile to connect with the existing 4-lane section in the city. He also said that they would endeavor to get "off-street" parking of cars with no parking on the highway route. Mr. Claycombe pointed out that all residents and businesses along the highway are not in favor of improvement, and that it will be necessary to conduct a campaign of education within the city. Chairman Chandler concluded the discussion by stating that the engineers economic survey concerning highway routing as it pertains to Ashland has been completed, and a copy of the same will be sent to the city for its information.

The Chief Counsel brought up the matter of a proposed agreement with the Daughters of the American Revolution pertaining to their construction and maintenance of a caretaker's building within Champoeg State Park site. He stated that as instructed by the Commission at a previous meeting, a form of agreement had been prepared which is agreeable with the DAR. The agreement provides among other things a clarification of the DAR right to occupy land in the park and the right to construct and maintain buildings on the property within their jurisdiction, with the stipulation that the buildings

are to be kept in good repair. No commercial ventures are to be allowed other than the operation of a tea room and the selling of antiques. The agreement also provides that should the premises be required for public purposes, the DAR property may be moved by the State at State expense. The agreement, he added, has the approval of the State Parks Superintendent, and he recommended that it be accepted by the Commission. The Commission approved the agreement.

In connection with this matter the Chief Counsel requested authority to prepare a bill for submission to the 1955 legislature giving the Commission authority to grant permits to operate historical places, buildings, etc. in State Parks. The Park Superintendent stated his approval of the plan. The request was granted by the Commission.

The Chief Counsel brought up for discussion the illegal cutting of standing timber in Van Duzer corridor on the Salmon River Highway by a Mr. J. W. Birchell sometime between August and November, 1952. Mr. Birchell, he stated, removed approximately 27M board feet of timber from State property which had a value of $400. He had been notified that triple damages would be required, and in reply he tendered a check for $600., or regular value plus one-half. The Chief Counsel pointed out that in the event of a suit to collect a larger amount of money, there is a question as to whether the State could actually prove that he took the trees. He recommended that the $600. be accepted as payment in full, and the case be closed. The Commission approved his recommendation.

The Chief Counsel also presented a proposed agreement with the United States Bureau of Land Management for joint usage of a radio transmitting site near Vale. The land, he stated, is owned by the Bureau of Land Management, and it is to the State's advantage to use the property for the State's radio facilities. Mr. W. W. Stiffler, Assistant Highway Engineer, explained that the Bureau has a site at Vale, and the State owns and operates a station at Baker. Under the terms of the agreement, it is proposed that rights would be granted to the Bureau of Land Management for use of the State station at Baker in exchange for State use of the Bureau's site at Vale. Following the Chief Counsel's recommendation of the agreement from the legal point, and the Engineer's recommendation from a standpoint of utility, the Commission approved the agreement, which extends for a period of 25 years from October 1, 1952, but can be terminated by either party upon 90 days notification to the other.

Mr. H. L. Goodmanson, Drain, Oregon, Chairman of Highway 38 Association, appeared before the Commission to request improvements to the old route of the Pacific Highway northerly from Drain to Anlauf, and southerly from Drain to Yoncalla. He presented letters from the City of Drain, the Yoncalla Lions Club, the City of Yoncalla, the City of Elkton, and the Lower Umpqua Chamber of Commerce, all urging such improvements. He pointed out that the old highway between Anlauf and Yoncalla was built many years ago and contains a great number of curves and other dangerous features. He also pointed out that three people have been drowned during the past year due to lack of guard rail. that there

are 47 curves in the 5½ mile section and that truck traffic is increasing. Mr. Goodmanson did not wait for the Commission to reply to his request.

A delegation from Southern Oregon representing the Ashland, Medford and Grants Pass Chambers of Commerce, appeared before the Commission and requested several improvements to highways in Southwestern Oregon. The following people composed the group: Paul Rynning, County Engineer, Medford Chamber of Commerce; Fred Taylor and H. L. Claycombe, Ashland Chamber of Commerce; and Charles McClean, Grants Pass Chamber of Commerce. Mr. Rynning headed the group.

Mr. McClean who acted as principal spokesman, thanked the Commission for work already performed and that under way in their district. He urged installation of a one-way traffic light on the bridge over the Applegate River on the Redwood Highway in Josephine County. Commissioner Reynolds stated that the Commission on the previous day approved installation of one-way traffic lights on this bridge and on the bridge over the West Fork of the Illinois River. Mr. McClean then inquired as to the type of shoulders to be installed in the Redwood Highway between Cave Junction and the California line. The Engineer replied that these are to be oiled shoulders. Mr. McClean then brought up the matter of flood conditions which prevail at times on the Pacific Highway below Savage Rapids Dam. It was his thought that the highway grade should be raised about five feet in order to prevent such flooding. He also requested widening of the Caveman Bridge at Grants Pass, the elimination of curves on US99 north of Grants Pass, on Merlin Hill, and improvement of US99 from the city airport to Sexton Mountain. He inquired as to when work is to be performed on the Williams Highway between Grants Pass and Murphy. He was informed that an investigation will be made of the flood conditions referred to, and that it is contemplated to call bids for work on the Williams Highway in August or September.

Mr. Rynning inquired as to the plans to stop the slides on US99 in the Siskiyou Mountains. He also requested construction of a passing or truck lane in the Siskiyous. Chairman Chandler advised that every effort is being made to stop the slide condition and that the Commission has been spending about a quarter of a million dollars yearly to build passing or truck lanes in mountainous sections and expects to continue to do so until all are provided. The Engineer added that work of a similar nature is now being performed on Sexton Mountain and that the third lane can be built in the Siskiyous without extra grade widening. Mr. Rynning then remarked that plans for construction of a dam in the Rogue River along the Crater Lake Highway had been abandoned and as a consequence definite consideration should be given by the Commission to realigning the highway between Trail and Cascade Gorge. He also urged the Commission to extend the Little Butte Creek Secondary Highway to a connection with the improved highway in Klamath County, particularly to a connection with the highway at Fish Lake. The State Highway Engineer suggested that the delegation secure, if possible, a letter from the U. S. Department of the Interior stating just what they intend to do in regard to construction of a dam in the Upper Rogue River.

Mr. Fred Taylor requested improvement of the Green Springs Highway, particularly the crooked section between US99 and the top of the hill. The Engineer recalled that a survey of this section was made a number of years ago and it was found then that it would be very expensive to modernize it. To do so today, he said, would be even more expensive.

Chairman Chandler inquired if the delegation still wishes the Commission to complete the highway construction program as now arranged. Mr. Rynning replied that they desire completion of the present program before the improvements requested at this meeting are considered. Chairman Chandler concluded the interview with a comment that about a half million dollars had been spent on the Crater Lake Highway in the last two or three years but the Commission plans to take a trip through Southern Oregon in August, and if possible, will view the requested projects at that time.

A group representing the Amity Community Commercial Club was present and urged the Commission to eliminate a dangerous curve on US99W near Whiteson. Present were: Phil Bladine, member of McMinnville Chamber of Commerce; Cliff Elliott, Secretary of McMinnville Chamber of Commerce; R. W. Haverly, Principal, Union Highway School, Amity; H. W. Torbet, Highway Committee, Amity Commercial Club; and W. C. Ford, merchant, Amity. Mr. Bladine acted as spokesman. He recalled that a delegation appeared before the Commission about a year and a half ago concerning this same matter. Since that time, he stated, three fatalities have occurred in this location. He explained that the "S" curve combined with sharp vertical curvature and narrow pavement width produces a very dangerous condition which has caused numerous accidents and a number of near accidents. He declared it the worst place on this highway between Portland and Eugene. Chairman Chandler stated that the Engineer had been previously instructed to conduct a survey on this section, which to date had not been submitted to the Commission; however, it is expected that the report will be completed in time for consideration by the Commission at its August meeting. Action will then be taken in the matter.

The Engineer reported that he had met with a group of safety-minded people known as the Oregon Highway Lifesavers, Inc. This group, he stated, is a relatively new organization and one of their objectives is the reduction of highway accidents. They have suggested that a sign be placed on the city limits sign posts with the wording, "Drive Carefully-Prevent Accidents-Highway Lifesavers". He suggested that such signs be installed in those cities and towns where a local chapter of the Lifesavers organization has been organized. Chairman Chandler and Commissioner McIver commented that care should be taken in putting up various signs as the presence of too many reduces their effectiveness. The Engineer estimated there would be a total of about 300 signs which would cost between $600.00 and $1,000.00. The Lifesavers group, he said, has agreed to install its own insignia. The Commission approved the Engineer's suggestion, but instructed him to work with the group and not ahead of it.

The Commission resumed discussion concerning acquisition of the Butler property on the Sunset Highway near Sylvan in Multnomah County. Mr. A. G. Skelton, Division Engineer, was present and explained that the property had been purchased in order to provide right of way for six lanes of highway traffic which he felt would be required in the near future. Chairman Chandler inquired how it happened that the Commission had become involved in the purchase of property which appeared to be principally for the City of Portland's benefit in protecting their bridge. The Engineer replied that city officials had approached members of the Highway Department and requested them to buy right of way at the city bridge site if it is to be needed in future highway construction so that the City could also take measures to protect its bridge footings. To accommodate the City, and as the additional right of way will eventually be needed, a special effort was made to purchase the Butler property. Chairman Chandler then inquired as to how much salvage the State might be able to secure in the acquisition of this property. The Chief Counsel replied that there appeared to be about 14,000 yards of material which has a value of about $1. 25 per cubic yard. As a result of this discussion, the Commission unanimously approved the Chief Counsel's report on this subject as presented on the previous day.

The meeting recessed at 12:00 noon and reconvened at 2:00 p. m. in the same room with the same persons present and participating.

Mr. Joe D. Thomison, Manager of the Prineville-Crook County Chamber of Commerce, was present and urged the Commission to acquire property at the Ochoco Reservoir about 10 miles east of Prineville on the Ochoco Highway for the purpose of establishing a state park. The Isaac Walton League and other groups, he stated, are much interested in establishing a recreational area at this location for use by the general public. He also said that the Game Commission has stocked the Reservoir with fish and that the area is rapidly becoming popular for fishing and picnicking. He requested that the Commission give consideration to the establishment of a park near the east end of the Reservoir. He was informed that the matter will be given consideration.

Chairman Chandler inquired of the Engineer as to just what projects remain to be contracted out of the program arranged for the $40,000,000 bond money authorized by the 1951 Legislature. Mr. W. C. Williams briefly reviewed the projects and outlined the probable dates on which bids could be received.

The Commission discussed an itinerary for its inspection trip through Northeastern Oregon in the month of July. It was agreed that the trip would start from Portland at noon on Tuesday July 14 and would end on Saturday July 18, with overnight stops at Arlington, Wallowa Lake, John Day and Condon.

The Commission discussed with the Engineer the bids received for highway construction at the morning session, and at 3:00 p. m., Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's action being by unanimous vote:

"Installation of traffic signals on the Oswego Highway at Seventh and Main Streets in Oregon City and on the Tualatin Valley Highway at Pacific Avenue and Main Street in Forest Grove, Clackamas and Washington Counties: Commissioner Reynolds announced that the bids covering this project were opened on the previous day, but award of the contract was deferred until this time, pending execution of an agreement with the City of Oregon City covering the installation at that place, which agreement now has been signed. Of the four bids received for this work, he said, Trowbridge & Flynn Electric Company, Medford, submitted the low one at $6,040.00. The contract has been awarded to the low bidder at its bid price.

"Grading and rock surfacing on the Twin Bridges-Muddy Creek Section of the Beaver Creek -Greenberry Road in Benton County: Six bids were received for this project, the low one being that of A. H. Saxton & Son, Corvallis, in the amount of $21,093.00. The bid of A. H. Saxton & Son in the sum of $21,093.00 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from Bureau of Public Roads and Benton County has made provisions for the deposit of $4,800.00 which is said County's share of cost based upon the low bid.

"Construction of a reinforced concrete deck girder bridge over Kellogg Creek, construction of a reinforced concrete retaining wall, and grading and paving .32 mile of highway on the Milwaukie-Gladstone Road (Oatfield Road) in Clackamas County: The Commission received five bids for this work, Birkemeier & Saremal, Portland, having submitted the low bid at $60,275.00. The bid of Birkemeier & Saremal in the sum of $60,275.00 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the Bureau of Public Roads and Clackamas County has made provisions for the deposit of $13,600.00 which is said County's share of cost based upon the low bid.

"Pavement widening on the South Oswego Section of the Oswego Highway in Oswego, Clackamas County: Of the four bids received for this work, Portland Road & Driveway Company, Portland, submitted the low bid at $12,083.50. The Commission awarded the contract to the low bidder at their bid price.

"Paving Pacific and Hillside Avenues in Brookings, Curry County: The Commission did not receive any bids for this project.

"Construction of a reinforced concrete and steel truss bridge over Rinehart Creek on the Oregon Coast Highway south of Port Orford, Curry County. Peter Kiewit Sons' Company, Longview, Washington, submitted the low bid in the sum of $162,410. Two higher bids were received. The contract has been awarded the low bidder, Peter Kiewit Sons' Company at their bid price.

"Oil mat surfacing on the Forest Boundary-Lapine Junction Section of Burgess Road, Deschutes County: Only two bids were received for this work, the low one being that of Babler Bros., Inc., Portland, at $24,809.00. The bid of Babler Bros., Inc., in the sum of $24,890.00 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the Bureau of Public Roads and Deschutes County has made provisions for the deposit of $5,600.00 which is said County's share of cost based upon the low bid.

"Grading and paving Evergreen Avenue in Redmond, Deschutes County: The only bid received for this work was Babler Bros, Inc., Portland, at $10,040.00. The Commission has awarded the contract to the Babler Bros., Inc., at their bid price.

"Oiling the Mikkalo-Olex Junction and Condon Junction-Lost Valley Road Sections of the Mikkalo and Lone Rock Roads, Gilliam County: The Commission received three bids for this work, the low one being that of Russell Olson Construction Co., Pendleton, at $23,858.00. The bid of Russell Olson Construction Company in the sum of $23,858.00 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for exeuction as soon as concurrence is received from Bureau of Public Roads and Gilliam County has made provisions for the deposit of $5,400.00 which is said County's share of cost based upon the low bid.

"Grading and oiling on the Frankton, Methodist Lane and Country Club Roads near and west of Hood River, Hood River County: Warren Northwest, Inc., Portland, submitted the low bid at $41,240.00. Two higher bids were received. The bid of Warren Northwest Inc. in the sum of $41,240.00 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from Bureau of Public Roads and Hood River County has made provisions for the deposit of $13,600.00 which is said County's share of cost based upon the low bid.

"Construction of a reinforced concrete deck girder bridge over Snider Creek on Table Rock Road approximately seven miles northeast of Gold Hill, Jackson County: Bessonette & Graff, Medford, submitted the low bid for this work at $19,945.00. Three higher bids were received. All bids have been referred to the Jackson County Court as this is a county project.

"Construction of Griffin Creek double reinforced concrete culvert on the Jacksonville-Central Point Road, Jackson County: Of the six bids received for this work, Ausland & Dodson, Grants Pass, submitted the low one at $7,030.00. All bids were referred to Jackson County Court since this is a county project.

"Construction of two wood frame buildings and other miscellaneous facilities in Cove Palisades State Park near Culver, Jefferson County: Enoch I. Maerz, Salem, submitted the only bid for this work at $17,177.00. The contract has been awarded to Enoch I. Maerz at his bid price.

"Construction of a masonry block building on Oregon State Highway Commission property in Klamath Falls, Klamath County: The Commission received three bids for this work. R. H. Jones, Hillsboro, submitted the low bid at $21,338.00. The contract has been awarded to the low bidder at his bid price.

"Grading and oiling on the Springfield Section of the Eugene-Marcola Road at Springfield, Lane County: Only two bids were received for this work, the low one being that of Inter City Sand & Gravel Company, Inc., Eugene. The bid of Inter City Sand & Gravel Company, Inc., in the sum of $30,790.00 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from Bureau of Public Roads and Lane County has made provisions for the deposit of $7,000.00 which is said County's share of cost based upon the low bid.

"Landscaping the Tillamook Street-Steel Bridge Unit, Harbor Drive Section of the Pacific Highway West in Portland, Multnomah County: Knight Pearcy Nursery and Parkrose Nursery, Portland, submitted the low bid for this work at $17,169.50. Two higher bids were received. The Commission awarded the contract to the low bidder at their bid price.

"Construction of a pile trestle bridge over Ash Creek in the City of Independence, Polk County: Of the six bids received for this project, General Construction Company, Portland, submitted the low one at $17,211.00. All of the bids were referred to the City of Independence since this is a city project.

"Grading and finishing the West Approaches to Salem Bridges on the Salem-Dallas Highway in West Salem, Polk County: F. O. Laws, Salem, submitted the low bid for this project at $17,285.00. The Commission received six higher bids. The contract has been awarded to F. O. Laws, the low bidder, at his bid price.

"Grading and Oiling on Mud Hollow-Canyon-Wasco Section of Fulton Canyon-Wasco Road westerly from Wasco, Sherman County: No bids were received for this work.

"Construction of a masonry block building on Oregon State Highway Commission property in Tillamook, Tillamook County. The Commission received only two bids for this work, the low one being that of Lloyd G. Sperling, Tillamook, at $16,218.00. Lloyd G. Sperling has been awarded the contract at his bid price.

"Paving N. E. 5th Avenue in Milton-Freewater, Umatilla County: Of the two bids received, H. J. and H. W. Miller, Baker, submitted the low one at $13,100.00. The contract has been awarded to the low bidder at their bid price.

"Grading and paving Dearborn Avenue in Union, Union County: La Grande

Concrete Pipe Company, LaGrande, submitted the low bid for this work at $11,244.50. Two higher bids were received. The Commission has awarded the contract to the low bidder at their bid price.

"Construction of a reinforced concrete bridge over 15-Mile Creek on Hamel Boule Road, Wasco County: Four bids were received for this job. Wall & Son, Portland, submitted the low bid at $19,300.00. All bids for this project have been referred to Wasco County since this is a county project.

"Construction of a 3 span reinforced concrete slab span structure over the relocated Lower Boones Ferry Road on the West Portland-Hubbard Highway, Washington County. The Commission received seven bids for this project, the low one being that of Birkemeier & Saremal, Portland, at $40,170.00. The contract has been awarded to the low bidder at their bid price.

The Commission discussed with the Engineer the allocation of 1955 Federal Funds to various highway projects throughout the State. The Engineer presented a list of proposed projects and explained that they had been allocated by formula in the various sections of the state in the fairest possible manner to provide the greatest benefit to the traveling public. Each project was considered carefully by the Commission and details were explained by the Engineer. As a result of this consideration, the Commission approved projects for construction as follows upon motion made by Commissioner McIver, seconded by Commissioner Reynolds and declared unanimous by Chairman Chandler:

PROGRAM FOR 1955 FEDERAL FUNDS

(As approved by Highway Commission on June 26, 1953)

INTERSTATE FEDERAL FUNDS

County	Highway, Section and Description	Allotted Amount
	DIVISION NO. 3	
Jackson	Pacific. Ashland Railroad Grade Separation, Grade, Pave & Structure	$ 275,000
	DIVISION NO 4	
Wasco	Columbia River. Chenoweth Creek-The Dalles (To apply on Grading and Paving	$ 395,000
	Total, All Divisions	$ 670,000

June 25 and 26, 1953

PRIMARY FEDERAL FUNDS

County	Highway, Section and Descripiton	Allotted Amount
	DIVISION NO. 1	
Columbia	Columbia River. East Unit, Goble-St. Helens, Grade and Pave	$ 620,000
	Subtotal, Division No. 1	$ 620,000
	DIVISION NO. 2	
Clackamas & Marion	Pacific East. Portion of Willamette River-Hayesville Section, Grade, Pave and Structures	$ 630,000
Benton	Pacific West. Monroe Section, Grading and Paving	150,000
Clatsop	Columbia River. Gnat Cr.-Bradley Park, Paving	125,000
Columbia	Columbia River. Clatskanie-Delena, Paving	290,000
	Subtotal, Division No. 2	$1,195,000
	DIVISION NO. 3	
Curry	Oregon Coast. Portion of Frankport-Euchre Creek Unit of Rocky Point-Gold Beach Section, Grading and Bridges	$ 300,000
Lane	Pacific. North Unit, Goshen-Divide Section, Grade, Pave and Structures	915,000
	Subtotal, Division No. 3	$1,215,000
	DIVISION NO. 4	
Deschutes	Central Oregon. Brothers-Hampton, Paving	$ 300,000

June 25 and 26, 1953

Division No. 4 (cont)		
Wasco	Columbia River. Chenoweth Creek-The Dalles (To apply on Grading, Paving & Structures)	$ 265,000
	Subtotal, Division No. 4	$ 565,000
	DIVISION NO. 5	
Malheur	Central Oregon. Vale-Cairo, West Unit, 5 Miles, Grade, Pave and Bridge	$ 450,000
Harney	Central Oregon. Unit on Sage Hen Hill-Burns, Grade and Pave	595,000
Umatilla	Pendleton-John Day. Pendleton (Emigrant St.) Grade Separation	135,000
	Subtotal, Division No. 5	$1,180,000
	Total, All Divisions	$4,775,000

URBAN FEDERAL FUNDS

County	Highway, Section and Description	Allotted Amount
	DIVISION NO. 1	
Multnomah	Banfield Expressway. Units 2, 3 and 4, Grade and Pave or Structures	$1,050,000
	DIVISION NO. 3	
Douglas	Pacific. Roseburg Section (To apply on N. Bridge over S. Umpqua River	$ 385,000
	DIVISION NO. 5	
Umatilla	Pendleton-John Day. Pendleton (Emigrant St.) Grade Separation (Estimated cost is $450,000. $135,000 is provided for in 1955 Primary F. A. Program)	$ 315,000
	Total, All Divisions	$1,750,000

SECONDARY (STATE) FEDERAL FUNDS

County	Highway, Section and Description	Allotted Amount
	DIVISION NO. 1	
Clackamas	Clackamas. Grade Separation over S. P. near Clackamas	$ 150,000
	Reserve	491,000
	Subtotal, Division No. 1	$ 641,000
	DIVISION NO. 2	
Columbia	Nehalem. Treharne-Washington Co. Line, 4.8 miles, A. C. Resurface	$ 100,000
Yamhill	Amity-Dayton. Amity-Dayton Section (First Unit), Grade, Surface and Oil	150,000
Marion	North Santiam. Mill City-Niagara, 7.3 miles, 3" A. C. Resurface	180,000
Linn	Albany-Lyons. Crabtree Creek Bridge	50,000
	Reserve	143,000
	Subtotal, Division No. 2	$ 623,000
	DIVISION NO. 3	
Douglas	Tiller-Trail. Canyonville-East, Grade and Pave	$ 85,000
Lane	Springfield-Creswell. Jasper Bridge-Willamette Hwy., Regrade, Surface & Oil	190,000
Lane	Territorial. Smithfield-Siuslaw Highway, Grade and Pave	100,000
	Subtotal, Division No. 3	$ 375,000

DIVISION NO. 4

Crook	Paulina. Eagle Rock-Post, 9 miles, Grade, Surface and Oil	$ 180,000
	Reserve	130,000
	Subtotal, Division No. 4	$ 310,000

DIVISION NO. 5

Baker	Baker-Homestead. Table Rock-Black Bridge, Grade, Surface and Oil	$ 300,000
	Reserve	151,000
	Subtotal, Division No. 5	$ 451,000
	Total, All Divisions	$ 2,400,000

The Commission authorized the Engineer to release the approved program to the press excluding amounts set up for reserves.

Commissioner Reynolds inquired as to why the by-pass project in Ontario on US 30 which had been considered for the year 1954 had been postponed until 1956. The Engineer replied that in order to complete the program with the funds which were expected to be available, it was necessary to defer some work and the Ontario project had been considered in this category. The Legislature, he stated, cut the bond money from $35,000,000 to $32,000,000 and if the Ontario project were to be started in 1954, completion would be delayed due to lack of funds.

The Commission discussed a schedule of contract lettings for the bond monies authorized by the 1953 legislature. The Engineer submitted a list of eligible projects from which the Commission selected the following for 3 lettings scheduled up to January 1, 1954: The Engineer was authorized to submit the projects to the Bureau of Public Roads for its approval.

Glenwood-North Plains Section: Grading	$ 815,000
Glenwood-North Plains Section: Wilksboro R.R. O'xing Structure	97,000
Glenwood-North Plains Section: Dairy Creek & Gales Creek Bridges, 2 Drge. Str.	191,000

June 25 and 26, 1953

Willamette River-Hayesville Section:	
Willamette River-Gervais Unit, Grading	$ 935,000
Orr Corner-Monmouth Section:	
Grading and Paving	340,000
Harrisburg-Junction City Section:	
Grading and Paving	200,000
Junction City-Eugene Section:	
Prairie Road-Eugene Unit, Grading & Paving	360,000
Junction City-Eugene Section:	
Prairie Road-Eugene Unit, R.R. O'xing & 1 Bridge	90,000
Divide-Rice Hill Section:	
Anlauf-Rice Hill Unit, Paving	1,300,000
Deady-Shady Section:	
Winchester-S. Umpqua River Unit, Grading	600,000
Deady-Shady Section:	
Fairgrounds Road-Shady Unit, Grading	450,000
Elbow Lake-Gardiner Section, North Unit:	
Grading and Paving	900,000
Rocky Point-Brush Creek Section:	
Grading and Paving	1,285,000
Crooked River-Terrebonne Section:	
Grading and Paving	360,000
Bend-Lapine Section, South Unit:	
Grading and Paving	800,000
Banfield Expressway:	
42nd Ave. -92nd Ave. Section, Grading	1,100,000
Glenwood-North Plains Section:	
North Plains Jct. Grade Separation Structure	45,000
Blackwell Hill-Medford Section:	
Blackwell Hill-Seven Oaks Unit, Grading & Paving	710,000
Blackwell Hill-Medford Section:	
Seven Oaks-Medford Section, Grading & Paving	450,000
Monroe Section:	
Structures	75,000
Junction City-Eugene Section:	
Prairie Rd. -Eugene Unit, R.R. O'xing Widening	70,000
Goshen-Divide Section:	
Goshen-Coast Fork Willamette R. Unit, Grading	575,000

June 25 and 26, 1953

December, 1953 (cont)

Goshen-Divide Section:	
Goshen-Coast Fork Willamette R. Unit, Strs. (14)	375,000
Deady-Shady Section:	
N. Umpqua River (Winchester) Bridge	725,000
Crooked River-Terrebonne Section:	
R.R. Grade Separation Structure	40,000
Emigrant Hill Section:	
Grading	2,250,000

Commissioner Reynolds stated that he had noticed in a recent road condition report that it had stated there were delays due to construction when he was quite certain the job had been completed and no delay involved. He felt that delays should not be mentioned in the road report unless there is a certainty that there will be delay. The Engineer stated that the road reports are issued by the Maintenance Department, and in order to check the construction features in them, hereafter the reports would be sent to Mr. W. C. Williams, Assistant Highway Engineer before being released.

The Commission had under consideration salary increases for the State Highway Engineer, Mr. R. H. Baldock, and for the Commission Secretary, Mr. H. B. Glaisyer. As a result of discussion, motion was made by Commissioner Reynolds that the salary of Mr. Baldock be increased to $15,000 per year and that of Mr. Glaisyer be increased to $675 per month, both increases to be effective July 1, 1953. The motion was seconded by Commissioner McIver and carried by the unanimous vote of the Commission.

Agreements and other papers were signed by the Commission as follows:

" Quitclaim Deed"transferring to Lane County, without cost, 5,050 sq. ft. of land in Block 52, Gallagher's Addition to Florence.

"Grant of Access" with US Corps of Engineers at Lookout Point Reservoir on Willamette Highway in Lane County.

"Grant of Access" to Mrs. Allie Dalton on Ladd Canyon Section of Old Oregon Trail Highway in Union County.

"Indenture of Access" to Orval Baker re change of access point on the Bay Park Delmar Sec. of Oregon Coast Highway, Coos County.

"Indenture of Access" to Oscar Franz re change of access point on the Coos Bay Sec. of Oregon Coast Highway.

"Indenture of Access" to Paul B. Rynning re change of access point on Medford-County Farm Sec. of Pacific Hwy, Jackson County.

" Indenture of Access" to Albert West re change in point of access on Clear Lake-Forest Boundary Sec. Oregon Coast Highway.

"Indenture of Access"to Jacob A. Nullett re change in point of access on Bay Park-Delmar Section, Oregon Coast Highway.

"Indenture of Access" to Ellen Wood re change in point of access on Medford-County Farm Section.

"Bargain & Sale Deed" to G. E. Keller re sale of property.

"Bargain & Sale Deed"to City of North Bend re sale of property.

"Quitclaim Deed" to Henry Hoestre re sale of property on Salt Creek-Dolph Corner, Dallas-Coast Highway.

"Quitclaim Deed" re exchange of property with Albert Vian on Albany-Lebanon Section of South Santiam Highway in Linn County.

"Agreement extending Term of Ground Lease" to G. G. Kerns on the Green Springs Section in Klamath County.

"Agreement extending Term of Ground Lease" to Weyerhaeuser Timber Co. on Green Springs Highway in Klamath County.

"Lease and Sale of Road Materials" re approval of ground lease from Arizona Barnes covering lease of gravel pit on Dayville-Mt. Vernon Sec. of John Day Highway, Grant County. Consideration $100 for two-year lease of 6.7 acres.

"Agreement" with California-Pacific Utilities Company for joint usage of Company's property and improvements to be constructed thereon by State for operation of a remote-controlled radio station near John Day.

"Abandonment Agreement" with Grant County covering Mt. Vernon-John Day Sec. of John Day Highway.

"Abandonment Agreement" with Clatsop County covering the Nehalem River Bridge Section on Nehalem Highway.

"Agreement" with Marion County covering handling and routing of Fisher Road traffic in connection with Salem-By-Pass in Marion County.

"Agreement"with Morrison-Knudsen Company of Boise, Idaho, contractor for UP R.R. Co. for removal of 30,000 yds. of material from cinder pit adjacent to Burns-Crane Highway. Consideration 5 cents per cu. yd.

"Lease and Sale of Road Materials"re lease for gravel pit from Stewart Livestock Company on Dayville-Mt. Vernon Sec. of John Day Highway, Grant County. (Authorized by Commission 5-18-53)

June 25 and 26, 1953

"Agreements"with Southern Pacific Company coverning easement and construction of overcrossing of Pacific Highway West north of Corvallis.

"Agreement" with City of Hood River covering sawdust disposal and improvement of Jaymar Hill Road. (Authorized 5-18-53.)

"Agreement" with City of Forest Grove covering installation of traffic signals at intersection of Pacific Avenue and Main Street. (Authorized 4-8-53)

"Agreement" with City of Corvallis covering the construction of the North Corvallis Section of the Pacific Highway West. (Authorized by Commission 11-24-52)

"Agreement" with City of Oregon City covering designation of certain streets in Oregon City as part of Oswego Highway.

"Agreement" with Region 1, Bureau of Land Management, Dept. of Interior covering joint use of radio transmitting and receiving stations at Vale and Baker.

"Finance and Maintenance Agreements"
Gilliam County, Condon Junction-Lost Valley Road Sec., Lone Rock County Road, FAS 441
Gilliam County, Mikkalo-Olex Jct. Sec., Mikkalo County Road, FAS 440
Wasco County, Friend-Dufur Sec., Friend County Road, FAS 565
Deschutes County, Forest Boundary-Lapine Jct. Sec., Burgess County Road, FAS 555

June 25 and 26, 1953

EXHIBIT "A"(cont)

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are, approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land along and adjacent to the Silver Creek Falls Park described as follows:

Northeast quarter of the Northeast quarter and the Northwest quarter of the Northeast quarter of Section 17, Township 8 South, Range 2 E., W.M., in Marion County, Oregon, and

WHEREAS, on said land there is a stand of timber which after consideration, the Commission hereby finds and declares is not needed, required or useful for highway or park purposes,

AND WHEREAS, the said timber has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $37,500.00, and the Commission is desirous of selling and disposing of said timber at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said timber for sale, in accordance with the terms and provisions of Chapter 437, Oregon Laws 1949, as amended by Chapter 154, Oregon Laws 1951.

Sealed or oral bids for the sale of the said timber shall be received by the Department in Room 418, State Highway Building, Salem, Oregon at 3:00 P.M., on the 17th day of August, 1953.

The results and tabulations of the bids received shall be reported to the Commission at its next succeeding regular or special meeting and the Commission shall have the right to reject any or all bids so received.

The published notice for the sale shall fix a minimum price of $37,500.00 for which the timber shall be sold and shall further provide that the sale shall be made for cash.

EXHIBIT "C"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land along and adjacent to the Columbia River Highway described as follows:

> A parcel of land lying in Lot 9, Block 21, Laughlin's Addition to the Dalles City in Wasco County, Oregon, the said parcel being described as follows:
>
> Beginning at the most Northerly corner of said Lot 9; thence Southeasterly, along the Northeasterly line of said Lot 9, 50 feet to the most Easterly corner of said Lot 9; thence Southwesterly, along the Southeasterly line of said Lot 9, 40 feet; thence westerly in a straight line 55.9 feet to a point in the Northwesterly line of said Lot 9, which point is 65 feet Southwesterly of said most Northerly corner; thence Northeasterly along said Northwesterly line 65 feet to the point of beginning, containing 2625 square feet.

WHEREAS, after consideration, the Commission hereby finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $6,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of Chapter 437, Oregon Laws 1949, as amended by Chapter 154, Oregon Laws 1951.

Sealed or oral bids for the sale of the said property shall be received by the Department on the site as set forth above to be sold at 1:00 P.M., on the 14th day of August, 1953.

The results and tabulations of the bids received shall be reported to the Commission at its next succeeding regular or special meeting and the Commission shall have the right to reject any or all bids so received.

The published notice for the sale shall fix a minimum price of $6,000.00 for which the property shall be sold and shall further provide that the sale shall be made for cash.

EXHIBIT "D-1"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six month period of 1952 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Sumpter.....$458.35

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

EXHIBIT "D-1" (cont)

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 25th day of June, 1953.

EXHIBIT "D"-2

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six month period of 1952 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Barlow	$ 248.65	Island City	$ 457.51
Cascade Locks	2,430.13	Jefferson	2,108.55
Coburg	2,297.52	Jordan Valley	782.42

Idanha	1,465.37	Yoncalla	2,075.39
Ione	868.61		

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed

an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 25th day of June, 1953.

EXHIBIT "E"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3459, with Oscar E. Joelson for furnishing crushed materials in stockpiles on the Lapine Section of The Dalles-California and Fremont Highways in Klamath and Deschutes Counties, completed October 15, 1952.

"Contract No. 3609, with Warren Northwest, Inc., for grading and paving on the Forest Boundary-Gilchrist Unit, Lapine-Diamond Lake Junction Section of The Dalles-California Highway in Klamath County, completed November 6, 1952.

"Contract No. 3639, with Parker-Johnson Company, for construction of Rock Creek Bridge, Mosier Overcrossing and Mosier Creek Bridge on the Columbia River Highway in Wasco County, completed May 15, 1953.

"Contract No. 3707, with Tom Lillebo for constructing the State Street, Mill Creek and Market Road 56 structures on the Salem By-pass Section of the Pacific Highway East in Marion County, completed May 28, 1953.

"Contract No. 3727, with C. R. O'Neil for grading and oil mat surfacing on the Middle Unit, Deschutes County Line-Prineville Section of the O'Neil Highway in Crook County, completed June 11, 1953.

"Contract No. 3732, with Teller Construction Company for construction of the Columbia River Bridge Grade Separation Structure and Pumphouses on the Columbia River Highway in Hood River County, completed May 13, 1953.

"Contract No. 3757, with Trowbridge & Flynn Electric Co., for construction of The Dalles Traffic Signals on the Columbia River Highway in Wasco County, completed May 31, 1953.

"Contract No. 3759, with Delano Aerial Surveys for aerial photography and topographic mapping on the Euchre Creek-Brookings Section of the Oregon Coast Highway in Curry County, completed June 1, 1953.

"Contract No. 3762, with Koppisch Construction Co., Inc., for paving on the Cannon Beach-Arcadia Section of the Oregon Coast Highway in Clatsop County, completed June 11, 1953.

EXHIBIT "E"(cont)

"Contract No. 3769, with Donald M. Drake Co., for construction of the Tualatin Undercrossing on the West Portland-Hubbard Highway in Washington County, completed May 29, 1953.

"Contract No. 3779, with Warren Northwest, Inc., for grading and paving on the Glenn Creek Road-S. P. Railroad Section of the Salem-Dayton Highway in Polk County, completed May 29, 1953.

"Contract No. 3781, with Zephyr Electric for construction of the La Grande Traffic Signals in Union County, completed April 30, 1953.

"Contract No. 3785, with Grimstad & Vanderveldt for paving on the Astoria (28th St.-32nd St.) Section of the Columbia River Highway in Clatsop County, completed June 10, 1953.

"Contract No. 3799, with Calkins Crushing Co., for furnishing crushed materials in stockpiles on the Richardson-Noti Section of the Richardson-Eugene Highway in Lane County, completed February 2, 1953.

"Contract No. 3803, with W. R. Grasle Company for construction of Portland Vicinity Traffic Signals in Multnomah County, completed April 29, 1953.

"Contract No. 3809, with J. E. Jeremiah for construction of the Seaside Maintenance Building in Clatsop County, completed May 29, 1953.

"Contract No. 3812, with Swendig & Son for construction of the Heppner Maintenance Building in Morrow County, completed April 30, 1953.

"Contract No. 3815, with Gilbert Roberts for construction of The Dalles Sand Shed in Wasco County, completed May 29, 1953.

"Contract No. 3824, with N. A. Toole Construction Co., for furnishing crushed materials in stockpiles on the Juntura-Harper Section of the Central Oregon Highway in Malheur County, completed April 8, 1953.

"Contract No. 3840, with Jed Wilson for furnishing crushed materials in stockpiles on the Olnew-Jewell Section of the Nehalem Highway in Clatsop County, completed May 27, 1953.

"Contract No. 3842, with Trowbridge & Flynn Electric Co., for construction of the Roseburg Traffic Signals in Douglas County, completed May 20, 1953.

"Contract No. 3847, with Calkins Crushing Co., for surfacing and furnishing crushed materials in stockpiles on the Necanicum Section of three State Highways and two park roads in Clatsop County, completed May 11, 1953.

EXHIBIT "E" (cont)

"Contract No. 3849, with E. H. Itschner Co., for furnishing crushed materials in stockpiles on the Ochoco Junction-Prairie City Section of the John Day and Beech Creek Highways in Grant County, completed May 13, 1953.

"Contract No. 3874, with Durbin Bros., for grading and oil mat surfacing on the East Unit, Deschutes County Line-Prineville Section of the O'Neil Highway in Crook County, completed June 11, 1953.

"Contract No. 3893, with Fred H. Slate Company, Oregon Ltd. and E. C. Hall Company for the removal of the Comstock Overcrossing on the Pacific Highway in Douglas County, completed May 25, 1953.

"Contract No. 3902, with O & S Painters and George A. Macom Painting Company for painting the McLoughlin Bridge on the Pacific East Highway in Clackamas County, completed June 5, 1953.

"Contract No. 3903, with Rogers Construction, Inc., for furnishing crushed materials in stockpiles on the Ochoco Reservoir-Wheeler County Line Section of the Ochoco Highway in Crook County, completed June 12, 1953.

"Contract No. 3924, with L. P. Stubble field for furnishing crushed materials in stockpiles on the Crow-Douglas County Line Section of the Territorial Highway in Lane County, completed June 2, 1953."

THEREFORE, BE IT RESOLVED that the work covered by State Highway contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "F"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Tualatin Valley Highway

Highway number: 29 Route number: Ore. 6

Location of Termini		Established speed
M P. 25.91 (0.05 mile north of the north city limits of Gaston)	to M. P. 25.96 (north city limits of Gaston)	25 miles per hour

EXHIBIT "F" (cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the State Highway Commission as of the 25th day of June, 1953.

2184

EXHIBIT "G"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, the Pacific Highway East is one of the major state primary highways and is likewise a federal highway, which highway throughout its entire length carries a large volume of traffic; and,

WHEREAS, it appears that at a location about one-half mile north of the town of Aurora in Clackamas County there is located on the southerly or easterly side of said highway an establishment known as the "Top O' Hill Cafe", and that a hazardous condition is created at and near said cafe by the parking of trucks and other vehicles on either shoulder of said Pacific Highway East in front of and near said cafe; and,

WHEREAS, an area has been provided for off-highway parking at such location; and,

WHEREAS, the roadway of said highway at said location is not of sufficient width to safely accommodate the traveling public and permit the parking of vehicles on the shoulders of the highway pavement; and,

WHEREAS, in the opinion of the Commission, public welfare and public safety require that parking should be prohibited within said area,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendations by members of its staff that the parking of vehicles on either side of the Pacific Highway East between Mile Post 25.68 (Engineer's Station 166+34.3) and Mile Post 26.00 (Engineer's Station 183+23.9) in the vicinity of the "Top O' Hill Cafe" creates a hazard not only to highway traffic but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience, which in the opinion of the Commission, should be provided the motoring public.

3. That this Commission does hereby find and declare that the parking of vehicles on either side of the right of way of said highway within said termini should be prohibited.

EXHIBIT "G" (cont)

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Highway Commission as herein declared, on which signs shall be printed in plain, legible letters, "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the owners and operators of the Top O' Hill Cafe and a like copy to the Superintendent of the Department of State Police for his information.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 25th day of June, 1953.

EXHIBIT "H"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, the Oregon Coast Highway US101 is one of the major state highways of the State and is likewise a part of the Federal Highway System, which highway throughout its entire length carries a large volume of traffic; and,

WHEREAS, it appears that cars and other vehicles are parked within the right of way limits of said highway, particularly near a race track located about two and one-half miles north of the town of Oceanlake in Lincoln County; and,

WHEREAS, the parking of said vehicles on the shoulders of said highway tends to restrict and impair the use of the traveled portion of the highway to such an extent that in the opinion of the Highway Commission, a hazard is created not only to through highway traffic but to the owners and occupants of said parked vehicles; and,

WHEREAS, in the opinion of the Commission, public welfare and public safety require that the use of the shoulders of said highway within said area for the parking of vehicles should be prohibited;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendations made by and under the supervision of the State Highway Engineer, that the parking of motor vehicles on either side of the Oregon Coast Highway between M.P. 123.20 (Highway Engineer's Station 730+00) and M.P. 123.58 (Highway Engineer's Station 750+00), a distance of 2,000 feet extending a short distance in either direction from the road entrance to the race track north of Oceanlake in Lincoln County, creates a hazard not only to through highway traffic but also to persons owning and using said parked vehicles.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking facilities for vehicles and at the same time provide the degree of safety and convenience which in the opinion of this Commission should be provided the motoring public.

3. That this Commission does further find and declare that the parking of vehicles on either side of the right of way of said highway within said termini should be prohibited.

EXHIBIT "H" (cont.)

4. That the State Highway Engineer be and he hereby is instructed to erect "NO PARKING ON HIGHWAY SHOULDERS" signs at said termini and at such points between said termini as in the judgment of said Engineer are necessary to accomplish the purposes of this resolution and the action of the Highway Commission as herein declared.

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information and guidance.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 25th day of June, 1953.

EXHIBIT "I"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, the Netarts Secondary Highway is a state highway under the jurisdiction and control of the Highway Commission, which highway carries a considerable volume of traffic; and,

WHEREAS, it appears that at a location east of the city of Tillamook beginning at the east end of the bridge crossing Tillamook River and extending easterly a distance of about 0.12 mile, vehicles are parked on the shoulders of said highway in such a manner as to endanger the motoring public as well as the owners and operators of said parked vehicles; and,

WHEREAS, off-street parking is available; and,

WHEREAS, the roadway of said highway at said location is not of sufficient width to safely accommodate the traveling public and permit the parking of vehicles; and,

WHEREAS, in the opinion of the Commission, public welfare and public safety require that parking should be prohibited within said area.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendations by members of its staff, that the parking of vehicles on either side of the Netarts Secondary Highway No. 131 between M. P. 1.55 (Engineer's Station 53+98.1) and M. P. 1.67 (Engineer's Station 59+90) creates a hazard not only to the motoring public but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience, which, in the opinion of the Commission, should be provided the motoring public.

3. That this Commission does hereby find and declare that the parking of vehicles on either side of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Highway Commission as hereby declared on which signs shall be printed

in plain, legible letters, "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 25th day of June, 1953.

EXHIBIT "J"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, the highways hereinafter set forth or described have been duly designated and declared to be and are state highways and have been improved and are being maintained by the State Highway Commission pursuant to the laws of the State of Oregon as state highways, to-wit:

MCKENZIE Primary Highway No. 15
ROME-PRINCETON Secondary Highway No. 442
EAST DIAMOND LAKE Secondary Highway No. 425
CRATER LAKE NORTH Secondary Highway No. 232
WEST DIAMOND LAKE Secondary Highway No. 233

and

WHEREAS, said highways are, in the judgment of the State Highway Commission, being subjected to a kind and character of traffic which will damage and injure the said highways because of rain and freezing and thawing and in order to protect said highways against such damage and injury, it is the judgment of the Highway Commission and said Highway Commission finds that it will be for the best interests of said highways that the maximum weights permitted and authorized by law be reduced during such period; and,

WHEREAS, the State Highway Commission has after due investigation determined and found, and it is the judgment of the Commission that the maximum weights which shall be permitted upon said highways during said period shall be reduced and fixed as in this order provided.

NOW, THEREFORE, the premises being in part as above stated, and the State Highway Commission being of the opinion that said highways were not built to sufficient standards to withstand adverse action of the elements and the maximum weights permitted and authorized by law, and the Commission having found upon due investigation that it will be for the best interests of said highways that the maximum total weight of load and vehicle which shall be permitted upon said highways during the said period, commencing on the dates hereinafter specified, shall be reduced so as to conform to the requirements fixed in this order.

IT IS HEREBY ORDERED that the maximum weight of combined load and vehicle or combination of vehicles which shall be permitted upon the following described highways and sections of highways shall not exceed 11,000 pounds gross on any axle nor 20,000 pounds gross on any pair of tandem axles nor a maximum of 36,000 pounds gross on all axles of the vehicle or combination of vehicles:

EXHIBIT "J" (cont)

Minutes of June 25 and 26, 1953

RESOLUTION

Name of Highway and No.	County	Section Restricted	Date Effective 1953
McKenzie Primary 15	Lane & Deschutes	M. P. 55.0 to 82.7 (Belknap Springs Road to 8.46 mi. W. of Sisters.)	8:00 a. m. June 12
Rome-Princeton Secondary 442	Harney	M. P. 8.2 to 29.4 (8.2 mi. E. of Diamond Valley Hwy. Jct. to Road to Follyfarm)	8:00 a. m. June 12
East Diamond Lake Secondary 425	Douglas & Klamath	M. P. 0.0 to 14.72 (Entire length)	8:00 a. m. May 28
Crater Lake North Secondary 232	Douglas	M. P. 0.0 to 5.29 (Entire Length)	8:00 a. m. May 28
West Diamond Lake Secondary 233	Jackson & Douglas	M. P. 0.0 to 23.89 (Entire Length)	8:00 a. m. May 28

IT IS FURTHER ORDERED that these rules and regulations as made and found by the State Highway Commission under the provisions of Section 15, Chapter 405, Oregon Laws 1951, shall be in full force and effect from the effective date hereinabove specified until modified, annulled, or voided by the order of the State Highway Commission.

AND IT IS FURTHER ORDERED that a notice be posted in a conspicuous manner and place at each end of each of the above highways and at important crossroads on said highways so that said notice can be readily seen and read, which said notice shall state plainly the limitations and prohibitions of traffic hereby in this order determined and fixed.

AND BE IT FURTHER ORDERED that a certified copy of this order be furnished to the county clerk of each county affected by this order and that a certified copy of this order be furnished to the Superintendent of the Department of State Police for his information.

Dated this 25th day of June, 1953.

RESOLUTION

OREGON STATE HIGHWAY COMMISSION

By Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner

R. H. Baldock
State Highway Engineer

ATTEST:
H. B. Glaisyer, Secretary

EXHIBIT "K"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, on the 19th day of February, 1952, on the 8th day of April, 1953, and on the 25th day of June, 1953, the Commission adopted resolutions reducing the maximum load limits on various state highways, sections of highways and bridges; and,

WHEREAS, subsequent to the effective dates shown in said resolutions, conditions have changed so that it no longer is necessary or desirable and the Commission hereby finds that it no longer is necessary or desirable to maintain the reduced load limits set out in said resolutions.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED that the action of the State Highway Commission reducing the maximum permissible load limit as set forth in the resolutions of February 19, 1952, April 8, 1953 and June 25, 1953, on various state highways, sections of highways and bridges, to-wit:

Name of Highway and No.	County	Section Restriction Removed	Date Lifted 1953
McKenzie Primary 15	Lane & Deschutes	M. P. 55.0 to 82.7 (Road to Belknap Springs to 8.46 mi. W. of Sisters)	9:00 a. m. June 25
West Diamond Lake Secondary 233	Jackson & Douglas	M. P. 0.0 to 8.0	8:00 a. m. June 10
Crater Lake 22	Jackson & Klamath	M. P. 58.59 to 67.83 (Jct. with Diamond Lake Hwy. to Crater Lake National Park Boundary)	12:00 noon May 28
Clackamas Secondary 171	Clackamas	M. P. 19.54 (Eagle Creek Bridge)	Oct. 3, 1952

EXHIBIT "K" (cont)

Minutes of June 25 and 26, 1953

RESOLUTION

Name of Highway and No.	County	Section Restriction Removed	Date Lifted 1953
Old Oregon Trail Primary 6	Malheur	M. P. 404.52 (Weiser Bridge)	June 5, 1953
Elkton-Sutherlin Secondary 231	Douglas	M. P. 24.00 (Calapooya Creek Bridge)	May 28, 1953

be and the same hereby is rescinded and cancelled insofar as it pertains to the highways, sections of highways and bridges listed hereinabove, and the maximum load limit permissible on such highways subsequent to the dates shown shall be the maximum load limit provided by law.

IT IS HEREBY ORDERED that a certified copy of this resolution be furnished to the county clerk of each county in which said highways, sections of highways and bridges are located, and a like copy to the Superintendent of the Department of State Police for his information.

Dated this 25th day of June, 1953.

OREGON STATE HIGHWAY COMMISSION

EXHIBIT "L"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, the State Highway Commission has found it necessary and desirable to relocate the section of the Coos River Highway, State Secondary Highway No. 241, known as the Catching Slough-Enegren Ferry Section in Coos County, the westerly terminus of which is at highway Engineer's Station 16+20 on the relocated highway and the easterly terminus of which is at Highway Engineer's Station 381+49.8 on the relocated highway; and

WHEREAS, as a consequence of the relocation of said section of highway, a portion or unit of the old highway has been eliminated from the boundaries of the relocated highway and is no longer needed for State highway purposes; and

WHEREAS, this Commission entered into an agreement with Coos County on December 14, 1950, wherein it was agreed that complete jurisdiction and control over a unit of the old highway, therein and herein referred to as Unit "A", would pass to and vest in the said county at such time as the State should officially accept the said relocated section of highway as being completed and available for travel; and

WHEREAS, it is the purpose of this Commission to take official action and impress upon its records the disposition made of the portion or unit of the right of way of said highway affected by reason of relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the section of the Coos River Highway, State Secondary Highway No. 241, located in Coos County and known as the Catching Slough-Enegren Ferry Section, the westerly terminus of which is at Highway Engineer's Station 16+20 on the relocated highway and the easterly terminus of which is at Highway Engineer's Station 381+49.8 on the relocated highway, is hereby declared to be completed and opened to public travel.

2. That the portion or unit of the old right of way which by reason of the relocation of the said highway is no longer within the boundaries of the old right of way and which is identified herein as Unit "A", is shown colored in red on the map attached hereto which is marked Exhibit "A" and is by this reference made a part hereof. The location of Unit "A" is more particularly described as follows:

Unit "A"

Beginning at State Highway Engineer's Station 25+29.9 of the relocated Coos River Secondary Highway

in the northwest quarter of the northwest quarter ($NW\frac{1}{4}$-$NW\frac{1}{4}$) of Section 32, Township 25 South, Range 12 West, W.M.; thence easterly via the former route of the Coos River Secondary Highway to State Highway Engineer's Station 165+50 of the relocated Coos River Secondary Highway in Lot 7 of Section 27, Township 25 South, Range 12 West, W.M.

3. That pursuant to the terms of the aforesaid agreement, Unit "A" is hereby declared to be no longer a part of the Coos River Highway and the same hereby vests under the jurisdiction and control of the County Court of Coos County as a county road, and all right, title and interest which the State has in Unit "A" hereby passes and vests in the said County Court; it being stipulated in said agreement that Unit "A" shall henceforth be maintained by the County as a county road.

4. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State.

5. That the boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the State Highway Engineer or his authorized representative, and such boundary monuments shall thereafter be maintained in place.

6. That this resolution shall be entered in the minutes and records of the Commission on this 25th day of June, 1953, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Coos County.

EXHIBIT "M"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, by the provisions of O. C. L. A., 115-351 as amended by Chapter 428, Oregon Laws 1941, the State Highway Commission with respect to state highways, is authorized to designate main traveled or through highways or sections thereof by placing at the entrances thereto from intersectimg highways signs or markers notifying drivers of vehicles to stop before entering or crossing such designated highway or highways, and the State Highway Commission is further authorized to designate particular intersections and place such stop signs or markers at one or more entrances thereto; and

WHEREAS, the Commission heretofore on the 27th day of April, 1943, adopted a resolution by which certain state highways and sections thereof were declared to be and were designated as main or through highways, and adopted certain amendatory resolutions on December 13, 1945, August 25, 1947, November 24, 1947, and September 21, 1949, and the State Highway Engineer was instructed to properly mark the same; and

WHEREAS, by said amendatory resolution of September 21, 1949, the Highway Commission declared the Athena-Holdman Secondary Highway No. 334 to be a through highway, and stipulated that traffic on said highway need not stop before entering its intersection with the Havana-Helix Secondary Highway No. 335; and

WHEREAS, since adoption of said amendatory resolution of September 21, 1949, a traffic engineering investigation has been made which reveals that conditions have changed at the junction of the Athena-Holdman Secondary Highway and the Havana-Helix Secondary Highway; that the traffic volume has materially decreased on the Athena-Holdman Highway, and the traffic volume on the Havana-Helix Highway has considerably increased; and

WHEREAS, based upon the results of said investigation, the State Highway Engineer has recommended to this Commission a modification of the order contained in the aforementioned resolution of September 21, 1949.

NOW, THEREFORE, based upon the results of said traffic engineering investigation and upon the recommendation of the State Highway Engineer, this Commission, all members being present and voting affirmatively, does hereby find, declare, resolve and order as follows:

1. That so much of said resolution of September 21, 1949, as pertains to the Athena-Holdman Secondary Highway No. 334 and the Havana-Helix Secondary Highway No. 335 is hereby repealed but in all other respects, the provisions of said resolution of September 21, 1949, are hereby

reaffirmed and shall remain in full force and effect.

2. That the following named highways shall be designated as through stop highways in their entirety unless exceptions are stipulated.

Highway No. 334, Athena-Holdman Highway Between M. P. 0.00 at Highway No. 36, (Pendleton-Cold Springs Highway, US395) and M. P. 17.60 at Highway No. 8, (Oregon-Washington Highway, ORE 11) in Athena.

Exception: Traffic on Highway No. 334, Athena-Holdman Highway, eastbound, shall stop at its junction with Highway No. 335, the Havana-Helix Highway, at M. P. 8.46, on each leg of the "Y" intersection.

Highway No. 335, Havana-Helix Highway between M. P. 0.00 at the beginning of the highway in Helix and M. P. 8.96 at the intersection of the county road to Adams.

Exception: Traffic on Highway No. 335, Havana-Helix Highway, southbound, shall stop at its junction with Highway No. 334, Athena-Holdman Highway, at M. P. 2.50.

3. That the State Highway Engineer be and he hereby is instructed to place or cause to be placed and thereafter maintain the necessary signs and markers to accomplish the traffic control and regulation contemplated by this resolution. Such signs as may be erected at said intersections shall conform to the types and standards heretofore approved by the Commission.

4. This resolution shall be entered in the minutes and records of the Commission as of the 25th day of June, 1953, and a duly certified copy thereof delivered to the United States Bureau of Public Roads and a like copy to the Umatilla County Court, County Clerk, and the Superintendent of the Department of State Police for their information.

EXHIBIT "N-1"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the East Unit of the Love Bridge-Black Bridge Section of the Baker-Homestead Highway in Baker County, and of the Fields Creek-John Day Section of the John Day Highway in Grant County, and in connection therewith to prepare maps showing the route and location of said sections of highway and file said reports and records with the Commission for consideration, and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW THEREFORE BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1-a. That the survey of the East Unit of the Love Bridge-Black Bridge Section of the Baker-Homestead Highway beginning at a point approximately 26 miles east of the City of Baker, (Engineer's Station 1403+40.4) and extending easterly to a point approximately 6 miles west of the town of Richland, (Engineer's Station 1732+54.73) together with the map which for identification purposes bears Map File No. 7B-4-10, and the date of May, 1953, field notes and other engineering data submitted by the Engineer, hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

1-b. That the survey of the Fields Creek-John Day Section of the John Day Highway beginning at a point about 11 miles west of the town of Mt. Vernon, (Engineer's Station 820+00) and extending in an easterly direction to the City of John Day, (Engineer's Station 430+03.17) together with the map which for identification purposes bears Map File No. 7B-16-21; 7B-20-5 and 6, and the date of June, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said sections of said highways are permanently constructed the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

EXHIBIT "N-1" (cont)

Minutes of June 25 and 26, 1953

RESOLUTION

3. That the approval and adoption of said surveys shall substitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the 25th day of June, 1953.

EXHIBIT "N-2"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Deception Creek-Oakridge Section of the Willamette Highway in Lane County, and of the Crooked River-Terrebonne Section of The Dalles-California Highway in Jefferson and Deschutes Counties, and in connection therewith to prepare maps showing the route and location of said sections of highway and to file said reports and records with the Commission for consideration and;

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1-a. That the survey of the Deception Creek-Oakridge Section of the Willamette Highway beginning at a point about one-half mile north and west of Deception Creek, (Engineer's Station 946+80.19) and extending in a southerly and easterly direction to a point in the westerly edge of the town of Oakridge, (Engineer's Station 1190+00.0) together with the map which for identification purposes bears Map File No. 7B-21-15, and the date of June, 1953, field notes, and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission, at Salem, Oregon.

1-b. That the survey of the Crooked River-Terrebonne Section of The Dalles-California Highway, beginning at a point on the southerly side of Crooked River immediately north of the Jefferson County-Deschutes County line, (Engineer's Station 930+71.65) and extending in a southerly direction to a point about one-third mile south of the community of Terrebonne, (Engineer's Station 1114+00) together with the map, which for identification purposes bears Map File No. 7B-22-1 and the date of June, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission, at Salem, Oregon.

RESOLUTION

2. That when said sections of said highways are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That the surveys of said sections of said Willamette Highway and said The Dalles-California Highway have been made within the meaning and purpose of Chapter 226, Oregon Laws 1947, commonly known as the Throughway Law, and were likewise made within the scope and purpose of those certain resolutions approved and adopted by the Highway Commission on November 3, 1948, and February 18, 1953, designating certain highways and sections thereof as throughways. Therefore, the construction of said state highways shall be accomplished pursuant to the provisions of said law and said resolutions.

5. That this resolution be entered in the minutes and records of the Commission as of the 25th day of June, 1953.

EXHIBIT "O-1"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Clatskanie-Delena Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Clatskanie-Delena Section of the Columbia

River Highway as a throughway, the following described real property in fee simple, to wit:

R 20317
Owner: George A. Carlson, et ux

A parcel of land lying in the Northeast quarter (NE¼) of Section 13, Township 7 North, Range 4 West, W. M., Columbia County, Oregon, the said parcel being that portion of said Northeast quarter (NE¼) included in a strip of land of variable width, lying on each side of the center line of the Columbia River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1890+98.77, said Station being 722 feet North and 2725 feet West of the East quarter (E¼) corner of said Section 13; thence on a spiral curve left (the long chord of which is North 76° 37' 20" East) 400 feet; thence North 75° 17' 20" East 2373.32 feet; thence on a spiral curve right (the long chord of which is North 77° 22' 20" East) 500 feet to Station 1923+72.09, said center line crossing the West and East lines of said Northeast quarter (NE¼) approximately at Stations 1893+52 and 1919+68, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Northerly Side of Center Line	Width on Southerly Side of Center Line
West line of said NE¼	1895+00	80 feet	110 feet
1895+00	1904+00	100 feet	110 feet
1904+00	1910+00	120 feet	140 feet
1910+00	1912+00	120 feet	100 feet
1912+00	1914+00	140 feet	100 feet
1914+00	East line of said Section 13	80 feet	100 feet

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 13.04 acres.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be no rights or easements

of access between the right of way of the Clatskanie-Delena Section of the relocated Columbia River Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the relocated Columbia River Highway of a width not to exceed 25 feet on the North side of the said relocated highway, opposite Highway Engineer's center line Station 1903+60, for private residential use only.

The above said access to the relocated highway from the said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State shall have the power to barricade said access for all purposes in the event of any violation.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access herein reserved, except crossing for farm purposes, to and from the said highway that are on or adjacent to any such frontage road or roads shall cease, but the owners, their heirs and assigns, shall have access to the frontage road or roads at such places as will afford reasonable and safe connections. Said frontage roads shall be connected to the said main highway or to other public ways at a point not a greater distance to the West of the said remaining property than Highway Engineer's center line Station 1889+00, and at a point not a greater distance to the East of the said remaining property than Highway Engineer's center line Station 1918+00.

b. A right to cross the relocated Columbia River Highway for farm purposes only, said crossing not to exceed 25 feet in width, opposite Highway Engineer's center line Station 1913+40; provided, however, that upon the alienation of either of the portions of the property severed by the said relocated Columbia River Highway, resulting in the severed portions of the said property being owned by different persons, this right of crossing shall be forfeited and shall cease, and if the owners, their heirs or assigns, shall commit, suffer or permit any use of the said crossing for any purpose other than as a passageway from one side of the said highway to the other for farm purposes, then and in that event the right hereby reserved to the owners will be automatically forfeited, and the State Highway Commission shall have the power to close and barricade said crossing for all purposes.

EXHIBIT "O-1" (cont.)

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 25th day of June, 1953.

EXHIBIT "O-2"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Mosier-The Dalles Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction,

improvement and maintenance of the Mosier-The Dalles Section of the Columbia River Highway as a throughway, the following described real property in fee simple, to wit:

R-17476
Owner: Charles Hunt, et ux

A parcel of land lying in Tract 1, Snipe's Acres, situated in the Northwest quarter (NW$\frac{1}{4}$) of Section 33, Township 2 North, Range 13 East, W.M., Wasco County, Oregon, the said parcel being that portion of said Tract 1 lying Westerly of a line parallel to and 75 feet on the Easterly side of the center line of the Columbia River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 2207+84.43, said Station being 1418.77 feet North and 586.37 feet West of the Southeast corner of said Section 29; thence South 18° 43' 30" East 3537.64 feet to Engineer's center line Station 2243+22.07; said center line of said strip of land crossing the Northerly and Southerly boundaries of said Tract 1 approximately at Stations 2238+98 and 2241+06, respectively.

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 0.54 acre.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be no rights or easements of access between the right of way of the Mosier-The Dalles Section of the relocated Columbia River Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

EXHIBIT "O-2" (cont)

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 25th day of June, 1953.

EXHIBIT "O-3"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Clatskanie-Delena Section of the Columbia River Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construc-

tion, improvement and maintenance of the Clatskanie-Delena Section of the Columbia River Highway as a throughway, the following described real property in fee simple, to wit:

R-20328
Owner: M. V. Collette, et al

A parcel of land lying in the West half ($W\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 16, Township 7 North, Range 3 West, W.M., Columbia County, Oregon, and being a portion of that property described in that deed to M. V. Collette and Alice M. Collette, recorded in Book 105, Page 8, of Columbia County Records of Deeds, the said parcel being that portion of said property included in a strip of land of variable width, lying on both sides of the center line of the Columbia River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 2022+00, said Station being 710 feet South and 2730 feet West of the North quarter ($N\frac{1}{4}$) corner of said Section 16; thence North 66° 06' 20" East 619.42 feet; thence on a spiral curve right (the long chord of which bears North 67° 08' 50" East) 500 feet; thence on a 4583.66 foot radius curve right (the long chord of which bears North 78° 31' 20" East) 1486.67 feet to Station 2048+06.09, said center line crossing the Westerly and Easterly lines of said property approximately at Stations 2022+50 and 2033+25, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Southerly Side of Center Line	Width on Northerly Side of Center Line
2022+00	2024+00	60 feet	100 feet
2024+00	2035+00	100 feet	100 feet

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 4.50 acres, more or less, outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be no rights or easements of access between the right of way of the said Clatskanie-Delena Section of the relocated Columbia River Highway and all of the real property of the owners remaining after the appropriation of the real

property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 25th day of June, 1953.

EXHIBIT "O-4"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Sylvan Section of the Sunset Highway; and,

WHEREAS, the said Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, the Highway Commission by a certain resolution made and entered in its records on the 24th day of November, 1952, declared the necessity for the acquisition of a parcel of land described therein for right of way purposes, for the widening, improvement and maintenance of the Sylvan Section of the Sunset Highway, and the control of access to and from the said highway, and authorized the acquisition of the said parcel of real property and the said control of access in the manner provided by law, and it is now the determination of the Highway Commission that the said control of access should be changed in the manner provided herein, in order that a greater use of said access be allowed to the property owners concerned, and it is, therefore, the determination of the Highway Commission that the said resolution of November 24, 1952, should be revised to conform with this change; and,

EXHIBIT "O-4" (cont)

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Highway Commission does hereby declare that the resolution made and entered in its records of November 24, 1952, referred to above, be, and hereby is, amended by this resolution.

2. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proposed widening, improvement and maintenance of the Sylvan Section of the Sunset Highway as a throughway, the following described real property in fee simple, to wit:

L-1982 (R-15882)
Owner: Faun E. Helmcke

A parcel of land lying in the Southwest quarter (SW$\frac{1}{4}$) of Section 6, Township 1 South, Range 1 East, W.M., Multnomah County, Oregon, and being a portion of the following described property: That tract of land known as Tax Lot 120 which was conveyed by that certain deed to Elmer R. Helmcke and Faun E. Helmcke, recorded in Book 1087, Page 203 of Multnomah County Records of Deeds, the said parcel being described as follows:

Commencing at the Southwest corner of said Section 6, thence North 0° 15' West along the section line 1225.62 feet; thence North 89° 45' East 508.20 feet; thence North 0° 15' West 229.47 feet; thence North 79° 14' East 6.50 feet; thence South 11° 57' East along the Easterly line of Tract No. 1 of said property 200 feet to the true point of beginning of the land herein to be described; thence continuing South 11°57' East along the Easterly line of said Tract No. 1, 22.45 feet to the Northerly side of County Road No. 1138; thence Westerly tracing the Northerly side of said County Road on a 2905 foot radius curve to the left (the long chord of which bears South 71° 35' 14" West) 16.40 feet to the Southwest corner of said Tract No. 1; thence North 11° 57' West 17.65 feet along the Westerly line of said Tract No. 1; thence North 55° 50' 12" East, 17.56 feet to the point of beginning.

The parcel of land to which this description applies contains 0.01 acre.

3. That in addition to the acquisition of fee simple title to the above

described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Sylvan Section of the Sunset Highway and all of the contiguous real property of the owner remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owner of the said remaining land, for service of the said remaining land, the following:

A right of access to the Sunset Highway of a width of 25 feet on the Northerly side of the said Sunset Highway, opposite Highway Engineer's center line Station 169+52, for private residential use, and for the operation of existing nursery activity on the owner's remaining land only.

The above said access to the said Sunset Highway from the said remaining property shall not be used by the owner, her heirs or assigns, or anyone holding under her, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access herein reserved to and from the aforesaid highway that are on or adjacent to any such road or roads shall cease, but the owner, her heirs and assigns, shall have access to the frontage road or roads at such places as will afford reasonable and safe connections. Said frontage roads shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owner and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or,

EXHIBIT "O-4" (cont)

in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owner.

7. That this resolution be entered in full in the minutes and records of the Commission this 25th day of June, 1953.

EXHIBIT "O-5"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Clatskanie-Delena Section of the Columbia River Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is

EXHIBIT "O-5" (cont)

needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Clatskanie-Delena Section of the Columbia River Highway as a throughway, the following described real property in fee simple, to wit:

R-20265
Owner: Frank T. Willson, et al

A parcel of land lying in Lot 1 of the South half ($S\frac{1}{2}$) of the E. G. Bryant Donation Land Claim and also lying in Section 8, Township 7 North, Range 4 West, W.M., Columbia County, Oregon, and being a portion of that property described in that deed to Frank T. Willson and Margaret A. Willson, recorded in Book 102, Page 108, of Columbia County Records of Deeds, the said parcel being that portion of said property included in a strip of land 120 feet in width, 60 feet on each side of the center line of the Columbia River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1682+62.26, said Station being 1577.12 feet North and 1931.4 feet West of the Southeast corner of said Section 8; thence on a spiral curve left (the long chord of which bears South 52° 22' 10" East) 600 feet; thence on a 1909.86 foot radius curve left (the long chord of which bears South 70°02' 05" East) 777.69 feet to Engineer's center line Station 1696+39.95, said center line crosses the Westerly and Easterly lines of said property approximately at Engineer's center line Stations 1684+05 and 1690+85.

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 1.85 acres.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be no rights or easements of access between the right of way of the Clatskanie-Delena Section of the relocated Columbia River Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the relocated Columbia River Highway of a width not to exceed 30 feet, on the North side of the said highway, opposite Highway Engineer's center line Station 1684+40.

b. A right of access to the relocated Columbia River Highway of a width not to exceed 30 feet, on the South side of the said highway, opposite Highway Engineer's center line Station 1684+40.

EXHIBIT "O-5" (cont)

c. A right of access to the relocated Columbia River Highway of a width not to exceed 30 feet, on the North side of the said highway, opposite Highway Engineer's center line Station 1687+50.

d. A right of access to the relocated Columbia River Highway of a width not to exceed 30 feet, on the South side of the said highway, opposite Highway Engineer's center line Station 1689+65.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access herein reserved to and from the aforesaid highway that are on or adjacent to any such frontage road or roads shall cease, but the owners, their heirs and assigns, shall have access to the frontage road or roads at such places as will afford reasonable and safe connections. Said frontage roads shall be connected to the said main highway or to other public ways at a point not a greater distance to the West of the owners' remaining property than Highway Engineer's center line Station 1681+80, which is the Conyers Street intersection with the relocated Columbia River Highway, and at a point not a greater distance to the East of the owners' remaining property than Highway Engineer's center line Station 1710+00.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 25th day of June, 1953.

21926

EXHIBIT "O-6"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes;and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Clatskanie-Delena Section of the Columbia River Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved,property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation,

construction, improvement and maintenance of the Clatskanie-Delena Section of the Columbia River Highway as a throughway, the following described real property in fee simple, to wit:

R-20275
Owner: Frances Agnew

A parcel of land lying in the Southwest quarter (SW$\frac{1}{4}$) of Section 10, Township 7 North, Range 4 West, W.M., Columbia County, Oregon, and being a portion of that property described in that deed to Frances Agnew, recorded in Book 75, Page 272, of Columbia County Records of Deeds, the said parcel being that portion of said property included in a strip of land of variable width, lying on each side of the center line of the Columbia River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1783+88.06, said Station being 686 feet North and 65 feet West of the South quarter (S$\frac{1}{4}$) corner of said Section 10; thence North 30° 52' 30" West 76.54 feet to Station 1783+11.52 equals 1783+25.01; thence on a spiral curve left (the long chord of which bears North 35° 22' 30" West) 450 feet; thence on a 954.93 foot radius curve left (the long chord of which bears North 56° 47' 50" West) 414.07 feet; thence on a spiral curve left (the long chord of which bears North 78° 13' 10" West) 450 feet; thence North 82° 43' 10" West 396.67 feet; thence on a spiral curve left (the long chord of which bears North 85° 23' 10" West) 400 feet to Station 1762+14.27, said center line crossing the East and West lines of said property approximately at Stations 1775+43 and 1762+38, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Northerly Side of Center Line	Width on Southerly Side of Center Line
East line of said property	1774+40	120 feet	90 feet
1774+40	1772+00	120 feet	150 feet
1772+00	1771+80	250 feet	150 feet
1771+80	East line of Tract 44 of Haven Acres No. 2	250 feet	100 feet
East line of Tract 44 of Haven Acres No. 2	1766+50	150 feet	100 feet

EXHIBIT "O-6" (cont)

Station to Station		Width on Northerly Side of Center Line	Width on Southerly Side of Center Line
1766+50	1764+00	150 feet	175 feet
1764+00	1762+00	150 feet	100 feet

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 8.8 acres, of which 1.0 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 7.8 acres lie outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Clatskanie-Delena Section of the relocated Columbia River Highway and all of the contiguous real property of the owner remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owner of said remaining land, her heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the relocated Columbia River Highway of a width not to exceed 25 feet on the North side of the said highway, opposite Highway Engineer's center line Station 1764+50, for production and transportation to market of farm products of the owner's remaining land, for the development, harvesting and transportation of forest products of the owner's remaining land, and for private residential use only.

b. A right of access to the relocated Columbia River Highway of a width not to exceed 25 feet on the North side of the said highway, opposite Highway Engineer's center line Station 1773+60, for production and transportation to market of farm products of the owner's remaining land, for the development, harvesting and transportation of forest products of the owner's remaining land, and for private residential use only.

The above accesses to the relocated highway from the said remaining property shall not be used by the owner, her heirs or assigns, or anyone holding under her, for any use not herein stated, and the State shall have the power to barricade said accesses for all purposes in the event of any violation.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access herein reserved to and from the aforesaid highway that are on or adjacent to any such frontage road or roads shall cease, but the

owner, her heirs and assigns, shall have access to the frontage road or roads at such places as will afford reasonable and safe connections. Said frontage road or roads shall be connected to the said main highway or to other public ways at a point not a greater distance to the West of the owner's remaining property than Highway Engineer's center line Station 1710+00, and at a point not a greater distance to the East of the owner's remaining property than Highway Engineer's center line Station 1772+50.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owner.

6. That this resolution be entered in full in the minutes and records of the Commission this 25th day of June, 1953.

-1931

EXHIBIT "O-7"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Clatskanie-Delena Section of the Columbia River Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation,

construction, improvement and maintenance of the Clatskanie-Delena Section of the Columbia River Highway as a throughway, the following described real property in fee simple, to wit:

R-20325
Owner: Kenneth A. Johnson, et ux

A parcel of land lying in the West half ($W\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 17, Township 7 North, Range 3 West, W.M., Columbia County, Oregon, and being a portion of that property described in that deed to Kenneth A. Johnson and Sarah Johnson, recorded in Book 117, Page 273, of Columbia County Records of Deeds, the said parcel being that portion of said property included in a strip of land 180 feet in width, 90 feet on each side of the center line of the Columbia River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1994+90.92, said Station being 1461 feet South and 288 feet West of the North quarter ($N\frac{1}{4}$) corner of said Section 17; thence on a spiral curve left (the long chord of which bears North 85° 48' 50" East) 400 feet; thence on a 5729.58 foot radius curve left (the long chord of which bears North 76° 17' 35" East) 1637.50 feet to Station 2015+28.42, said center line crossing the Westerly and Easterly lines of said property approximately at Stations 1995+95 and 2006+00, respectively.

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 4.14 acres, more or less, outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be no rights or easements of access between the right of way of the said Clatskanie-Delena Section of the relocated Columbia River Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the relocated Columbia River Highway of a width not to exceed 25 feet on the South side of the said highway, opposite Highway Engineer's center line Station 1998+50, for production and transportation to market of farm products of the owners' remaining land, and for private residential use only.

b. A right of access to the relocated Columbia River Highway

of a width not to exceed 25 feet on the North side of the said highway, opposite Highway Engineer's center line Station 2004+50, for production and transportation to market of farm products of the owners' remaining land, for the development, harvesting and transportation of forest products of the owners' remaining land, for the operation of existing mink ranch activity on the owners' remaining land, and for private residential use only.

Said accesses from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State shall have the power to close and barricade said accesses for all purposes in the event of any violation.

The State, however, shall have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access herein reserved to and from the aforesaid highway that are on or adjacent to any such frontage road or roads shall cease, but the owners, their heirs and assigns, shall have access to the frontage road or roads at such places as will afford reasonable and safe connections. Said frontage roads shall be connected to the main highway or to other public ways at a point not a greater distance to the West of the owners' said remaining property than Highway Engineer's center line 1956+50, and at a point not a greater distance to the East of the owners' said remaining property than Highway Engineer's center line Station 2022+30.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire said real property or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 25th day of June, 1953.

EXHIBIT "O-8"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Clatskanie-Delena Section of the Columbia River Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is

needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Clatskanie-Delena Section of the Columbia River Highway as a throughway, the following described real property in fee simple, to wit:

R-20331
Owner: C. E. Forsberg, et ux

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 9, Township 7 North, Range 3 West, W.M., Columbia County, Oregon, the said parcel being that portion of said Southeast quarter ($SE\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) lying Southerly of a line which is parallel to and 100 feet Northerly of the center line of the Columbia River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 2028+19.42, said Station being 460 feet South and 2164 feet West of the South quarter ($S\frac{1}{4}$) corner of said Section 9; thence on a spiral curve right (the long chord of which bears North 67° 08' 50" East) 500 feet; thence on a 4583.66 foot radius curve right (the long chord of which bears North 78° 31' 20" East) 1486.67 feet; thence on a spiral curve right (the long chord of which bears North 89° 53' 50" East) 500 feet to Station 2053+06.09, said center line crossing the South and East lines of said Southeast quarter ($SE\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) approximately at Stations 2045+90 and 2050+60, respectively.

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 0.8 acre, more or less, outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Clatskanie-Delena Section of the relocated Columbia River Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the said owners, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the relocated Columbia River Highway of a width not to exceed 25 feet on the North side of the said highway, opposite Highway Engineer's center line Station 2050+00, for production and transportation to market of farm products of the owners' remaining land, for the development, harvesting and transportation of forest products of the owners' remaining land, and for private residential use only.

Said access from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access herein reserved to and from the aforesaid highway that are on or adjacent to any such frontage road or roads shall cease, but the owners, their heirs and assigns, shall have access to the frontage road or roads at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway at Highway Engineer's center line Station 2043+00, and at such other places as may be designated by the State.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 25th day of June, 1953.

EXHIBIT "O-9"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the acquisition of the rights of access to, from and between the real property hereinafter described and the said Barbur Boulevard-White School Section of the West Portland-Hubbard Highway is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

EXHIBIT "O-9" (cont)

1. The Commission does hereby find and declare that it is necessary to acquire, in connection with the proper widening, improvement and maintenance of the Barbur-Boulevard-White School Section of the West Portland-Hubbard Highway as a throughway, all rights of access to, from and between said West Portland-Hubbard Highway, including a right of access described in a deed recorded in Volume 170, Page 271, of the Deed Records of Washington County, Oregon, said right of access being more particularly described as being retained at Highway Engineer's center line Station 101+25, and the following described real property, to-wit:

L 2019 (R4035)
Owner: Paul L. Kertes, et al.

The South half ($S\frac{1}{2}$) of the Southeast quarter ($SE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 1, Township 2 South, Range 1 West, excepting that portion conveyed to the State of Oregon, by and through its State Highway Commission, by that deed dated January 26, 1938 and recorded January 29, 1938, in Book 170, Page 271, of the Deed Records of Washington County, Oregon.

2. That the highway facility for which the said rights of access are required and are being taken has been planned, designed and located, and will be constructed in a manner which, in the opinion of the Commission will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire said rights of access.

4. That upon the trial of any suit or action instituted to acquire said rights of access, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission or the property owners.

5. That this resolution be entered in full in the minutes and records of the Commission this 25th day of June, 1953.

EXHIBIT "O-10"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Clatskanie-Delena Section of the Columbia River Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real prop-

erty hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Clatskanie-Delena Section of the Columbia River Highway as a throughway, the following described real property in fee simple, to wit:

R-20324
Owner: W. G. Walker, et al

Parcel No. 1:

A parcel of land lying in the South half ($S\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 17, Township 7 North, Range 3 West, W.M., Columbia County, Oregon, the said parcel being that portion of said South half ($S\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) included in a strip of land of variable width lying on each side of the center line of the Columbia River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1970+00, said Station being 1594.12 feet South and 107.9 feet West of the Northwest corner of said Section 17; thence North 86° 28' 50" East 2490.92 feet; thence on a spiral curve left (the long chord of which bears North 85° 48' 50" East) 400 feet to Station 1998+90.92, said center line crossing the West and East lines of said Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) approximately at Stations 1970+56 and 1983+23, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Southerly Side of Center Line	Width on Northerly Side of Center Line
1970+00	East line of the Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$)	100 feet	100 feet
East line of the Southwest			

EXHIBIT "O-10" (cont)

Station to Station	Width on Southerly Side of Center Line	Width on Northerly Side of Center Line
quarter (SW¼) of the Northwest quarter (NW¼)		
East line of the Southeast quarter (SE¼) of the Northwest quarter(NW¼)	110 feet	100 feet

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 11.95 acres, of which 1.66 acres lie within the existing right of way, title to which hereby is alleged to be in the public, and 10.29 acres lie outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rightsof access between the right of way of the said Clatskanie-Delena Section of the relocated Columbia River Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described, except that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:

Rights of access to the Lindberg County Road, also known as Columbia County Road No. T-56, where said county road lies within the right of way of the real property hereinabove described as Parcel No. 1, and Southerly of the said main relocated highway. Said rights of access to the said county road shall be to and from that portion of the said remaining property which abuts upon said county road where the said county road will be located Southerly of the said main relocated highway. The said county road shall be connected to the said main highway or other public ways only at such point or points as are designated by the State.

3. The Commission does further find and declare that the acquisition of the real property hereinabove described as Parcel No. 1, and the denial of access thereto, as hereinabove set forth, will result in depriving the owners of all means of access from that portion of their real property lying North of and adjacent to the real property hereinabove described as Parcel No. 1, to any public way and to their remaining real property, and that, therefore, it is in the best interests of the State and the owners for the State to acquire fee simple title to the entire tract of real property lying North of the South boundary of the real property hereinabove described as Parcel No. 1, which said tract includes that portion of the real property

hereinabove described as Parcel No. 1 and the real property described as follows, to wit:

Parcel No. 2:

All that portion of said South half ($S\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 17 lying Northerly of Parcel No. 1 above, containing 5.30 acres.

4. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 25th day of June, 1953.

EXHIBIT "O-11"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Rinehart Creek-Frankport and Frankport Euchre Creek Sections of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said sections of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

EXHIBIT "O-11" (cont)

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Rinehart Creek-Frankport and Frankport-Euchre Creek Sections of the Oregon Coast Highway as a throughway, the following described real property in fee simple, to wit:

L-2013 (R-20204)
Owner: Winston W. Chambers, et al

Parcel No. 1:

A parcel of land lying in the West half ($W\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) and the West half ($W\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 29, Lot 1 of Section 31, and Lots 2, 3 and 4 of Section 30, Township 34 South, Range 14 West, W.M., Curry County, Oregon, and being a portion of that property described in those deeds to Winston W. Chambers and Marjorie P. Chambers, recorded in Book 26, Page 540, and in Book 27, Page 197, of Curry County Records of Deeds, the said parcel being that portion of said subdivisions lying Northerly of that tract of land described in those deeds to Alexander Frank, recorded in Book 5, Page 524, Book 6, Page 80, and Book 6, Pages 566-567, Curry County Deed Records, and included in a strip of land of variable width, lying on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station L^4 641+23.68, said Station being 235.3 feet North and 1491.8 feet East of the Northwest corner of said Section 29; thence on a decreasing spiral curve right (the long chord of which bears South 2° 58' 30" East) 500 feet; thence South 0° 21' 30" West 689.33 feet; thence on a spiral curve right (the long chord of which bears South 5° 38' 30" West) 487.5 feet; thence on an 881.47 foot radius curve right (the long chord of which bears South 30° 24' 40" West) 437.18 feet; thence on a spiral curve right (the long chord of which bears South 55° 11' 20" West) 487.5 feet; thence South 60° 28' West 64.94 feet; thence on a spiral curve left (the long chord of which bears South 55° 58' West) 450 feet; thence on a 954.93 foot radius curve left (the long chord of which bears South 46° 01' West) 31.67 feet; thence on a spiral curve left (the long chord of which bears South 36° 04' West) 450 feet; thence South 31° 34' West 585.69 feet; thence on a spiral curve left (the long chord of which bears South 27° 04' West) 450 feet; thence on a 954.93 foot radius curve left (the long chord of which bears South 16° 14' West) 61.11 feet; thence on a spiral curve left (the long chord of which bears South 5° 24' West) 450 feet; thence South 0° 54' West back equals 0° 49' West ahead 113.74 feet; thence on a spiral curve right (the long chord of which bears South 2° 19' West) 300 feet; thence on a 1909.86 foot radius curve right (the long chord of which

bears South 8° 55' 30" West) 240.56 feet; thence on a spiral curve right (the long chord of which bears South 15° 32' West) 300 feet; thence South 17° 02' West 14.5 feet; thence on a spiral curve left (the long chord of which bears South 10° 22' 25" West) 400 feet; thence on a 572.96 foot radius curve left (the long chord of which bears South 19° 18' East) 326.67 feet; thence on a spiral curve left (the long chord of which bears South 48° 58' 25" East) 400 feet; thence South 55° 38' East 334.2 feet; thence on a spiral curve right (the long chord of which bears South 52° 18' East) 500 feet to Station 721+98.27. The Westerly line of said strip of land crosses the Easterly line of said West half ($W\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 29 approximately opposite Station L^4 645+00 and said center line crosses the Northerly line of said Alexander Frank tract in said Lot 1 approximately at Station 712+60.

Also that part of said West half ($W\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 29 lying Westerly of said strip of land and Easterly of the existing highway and lying between lines at right angles to said relocated highway center line at Stations 660+00 and 664+00. Also that part of said West half ($W\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 29 and that part of said Lot 3 of Section 30 lying Westerly of the existing highway and Easterly of said strip of land and lying between lines at right angles to said relocated highway center line at Stations 677+00 and 680+00.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
641+23.68	642+50	70 feet	120 feet
642+50	648+00	70 feet	100 feet
648+00	657+00	80 feet	100 feet
657+00	661+00	100 feet	100 feet
661+00	668+00	200 feet	100 feet
668+00	684+00	100 feet	100 feet
684+00	687+50	130 feet	100 feet
687+50	690+67	180 feet	100 feet
690+67	691+00	180 feet	To mean high tide of the Pacific Ocean
691+00	East line of said Section 31	To existing Easterly right of way line	To mean high tide of the Pacific Ocean

The parcel of land to which this description applies contains 54.18 acres, of which 8.68 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 45.5 acres lie

outside of the existing right of way.

Parcel No. 2:

A parcel of land lying in the West half ($W\frac{1}{2}$) of Section 32, Township 34 South, Range 14 West, W. M., Lot 3 and Lot 5 of Section 5, Township 35 South, Range 14 West, W. M., Curry County, Oregon, and being a portion of that property described in that deed to W. W. Chambers, et ux, recorded in Book 26, Page 540, of Curry County Records of Deeds, the said parcel being that portion of said property lying Southerly of that tract of land conveyed by deed to Alexander Frank, recorded in Book 6, Pages 566-567, Curry County Deeds, and included in a strip of land of variable width, lying on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station L^4 725+74.38, said Station being 1775.65 feet South and 347.35 feet East of the Northwest corner of said Section 32; thence on a spiral curve right (the long chord of which bears South 23° 55' 20" East) 500 feet; thence South 20° 35' 20" East back equals South 20° 35' 30" East ahead 663.87 feet; thence on a spiral curve right (the long chord of which bears South 15° 15' 40" East) 400 feet; thence on a 716.20 foot radius curve right (the long chord of which bears South 3° 17' 30"East) 32.5 feet; thence on a spiral curve right (the long chord of which bears South 8° 40' 40" West) 400 feet; thence South 14° 00' 30" West 5.96 feet; thence on a spiral curve left (the long chord of which bears South 8° 40' 40" West) 400 feet; thence on a 716.20 foot radius curve left (the long chord of which bears South 2° 21' 30" East) 9.17 feet; thence on a spiral curve left (the long chord of which bears South 13° 23' 40" East) 400 feet; thence South 18° 43' 30" East 5.22 feet; thence on a spiral curve right (the long chord of which bears South 15° 23' 30" East) 400 feet; thence on a 1145.92 foot radius curve right (the long chord of which bears South 7° 50' 30" East) 35.33 feet; thence on a spiral curve right (the long chord of which bears South 0° 17' 30" East) 400 feet; thence South 3° 02' 30" West 40.24 feet; thence on a spiral curve left (the long chord of which bears South 3° 37' East) 400 feet; thence on a 572.96 foot radius curve left (the long chord of which bears South 18° 54' 30" East) 38.99 feet; thence on a spiral curve left (the long chord of which bears South 34° 11' 50" East) 400 feet; thence South 40° 51' 25" East 113.05 feet; thence on a spiral curve right (the long chord of which bears South 34° 11' 50" East) 400 feet; thence on a 572.96 foot radius curve right (the long chord of which bears

21946

EXHIBIT "O-11" (cont)

South 20° 01' East) 16.83 feet; thence on a spiral curve right (the long chord of which bears South 5° 50' East) 400 feet to Engineer's center line Station 780+35.54, said center line crossing the Southerly line of said Frank tract and the Southerly line of said Chambers property approximately at Stations 731+68 and 778+90, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
730+00	739+00	100 feet	100 feet
739+00	741+38.25	140 feet	100 feet
741+38.25	745+70.75	100 feet	100 feet
745+70.75	749+85.88	150 feet	100 feet
749+85.88	766+66.67	200 feet	To mean tide line of the Pacific Ocean
766+66.67	780+35.54	150 feet	200 feet

The parcel of land to which this description applies contains 31.0 acres.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Rinehart Creek-Frankport and Frankport-Euchre Creek Sections of the relocated Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the West side of the said highway, opposite Highway Engineer's center line Station 651+60, for private residential use only.

b. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the West side of the said highway, opposite Highway Engineer's center line Station 673+25, for private residential use only.

c. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the East side of the said highway, opposite Highway Engineer's center line Station 681+50, for private residential use only.

d. A right of access to the relocated Oregon Coast Highway of a

width not to exceed 25 feet on the East side of the said highway, opposite Highway Engineer's center line Station 742+00, for private residential use only.

e. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the East side of the said highway, opposite Highway Engineer's center line Station 777+00, for private residential use only.

The above said accesses to the relocated Oregon Coast Highway from the said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to barricade said accesses for all purposes in the event of any violation.

f. A right to cross the relocated Oregon Coast Highway for farm purposes only, said crossing not to exceed 25 feet in width, opposite Highway Engineer's center line Station 693+50; provided, however, that upon the alienation of either of the portions of the property severed by the said relocated Oregon Coast Highway, resulting in the severed portions of said property being owned by different persons, this right of crossing shall be forfeited and shall cease, and if the owners, their heirs or assigns, shall commit, suffer or permit any use of the said crossing for any purpose other than as a passageway from one side of the said highway to the other for farm purposes, then and in that event the right hereby reserved to the owners will be automatically forfeited and the State Highway Commission shall have the power to close and barricade said crossing for all purposes.

g. A right to cross the relocated Oregon Coast Highway for farm purposes only, said crossing not to exceed 25 feet in width, opposite Highway Engineer's center line Station 732+50; provided, however, that upon the alinenation of either of the portions of the property severed by the said relocated Oregon Coast Highway, resulting in the severed portions of said property being owned by different persons, this right of crossing shall be forfeited and shall cease, and if the owners, their heirs or assigns, shall commit, suffer or permit any use of the said crossing for any purpose other than as a passageway from one side of the said highway to the other for farm purposes, then and in that event the right hereby reserved to the owners will be automatically forfeited and the State Highway Commission shall have the power to close and barricade said crossing for all purposes.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Com-

EXHIBIT "O-11" (cont)

mission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 25th day of June, 1953.

EXHIBIT "P"

Minutes of June 25 and 26, 1953

RESOLUTION

WHEREAS, the Highway Commission pursuant to and in accordance with Section 4, Chapter 226, Oregon Laws 1947, is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate, maintain and supervise the use and operation of new highways which shall be known as throughways as that term is defined in Section 3, Chapter 226, Oregon Laws 1947; and

WHEREAS, Section 4, Chapter 226, Oregon Laws 1947, also provides that any relocated section of an existing highway and such portions of existing highways which at the time the same are designated as throughways have less than ten commercial businesses abutting thereon catering to the motoring public in any one mile of such existing highways, may be designated and constructed as or converted into a throughway by the Highway Commission; and

WHEREAS, the Highway Commission has directed the Highway Engineer to prepare and file in the offices of the Highway Department at Salem, Oregon, a complete analysis and disclosure of all sections of that part of the Columbia River Highway which begins at the City of Rainier and extends therefrom to the City of Astoria, which sections on the date of this resolution, to-wit: On the 25th day of June, 1953, have less than ten commercial businesses abutting thereon in any one mile, catering to the motoring public and the portions or sections of the said part of the said highway which have abutting thereon ten or more commercial businesses per mile catering to the motoring public; and

WHEREAS, the Highway Engineer pursuant to the directions of the Highway Commission has caused such study and examination to be made and has filed in the office of the Highway Department at Salem, Oregon, a complete set of maps on which there is shown all of the portions or sections of the Columbia River Highway from the City of Rainier to the City of Astoria, and also on which there is shown all of the portions or sections thereon which on the date of the adoption of this resolution have ten or more commercial businesses abutting thereon which cater to the motoring public in any one mile; and

WHEREAS, the Highway Commission has considered the aforesaid studies and investigations and, after due deliberation, does hereby find and declare that for the purpose of preserving human lives and minimizing property damage, and to facilitate the safe and convenient transportation of persons and property by motor vehicles, and to protect the safety and welfare of the public in general, that the Columbia River Highway and all sections thereof, including all relocated sections thereof between the City of Rainier and the City of Astoria, as hereinafter designated, shall henceforth be classified, constructed, reconstructed, relocated and maintained as throughways as that term is defined in Section 3, Chapter 226, Oregon Laws 1947.

(cont.)

EXHIBIT "P" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. That that part of the Columbia River Highway which extends from the City of Rainier to the City of Astoria and all sections or portions thereof, including any section or portion thereof hereafter relocated, is hereby selected, designated and established as a throughway as that term is defined in Section 3, Chapter 226, Oregon Laws 1947, except for the portions or sections thereof which have, on the date of the adoption of this resolution, ten or more commercial businesses abutting thereon that cater to the motoring public in any one mile is hereby specifically excluded as a throughway; and, in connection therewith, this Commission does hereby find and declare that 5 maps, which are numbered 58, 59, 60, 61, and 62, respectively, have been prepared under the direction of the State Highway Engineer and the same have been filed in the State Highway Department offices at Salem, Oregon, and on which maps there is shown that part of the Columbia River Highway which extends from the City of Rainier to the City of Astoria, including those portions or sections thereof which have, on the date of the adoption of this resolution, ten or more commercial businesses abutting thereon that cater to the motoring public in any one mile. The aforementioned maps are by this reference incorporated herein and are declared to be a part of this resolution as if fully set forth herein.

2. This resolution shall be entered in the minutes and records of the Highway Commission as of the 25th day of June, 1953.

INSPECTION TRIP

July 14 - 18 inclusive

1953

Portland, Oregon
July 14, 1953

The members of the State Highway Commission started on their third 1953 inspection trip of state highways this day. Those making the trip were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2nd Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
C. H. Armstrong, State Parks Superintendent
Ralph Watson, Public Relations Consultant
H. B. Glaisyer, Secretary

Also accompanying the Commission on the trip were the following:

W. L. Mac Donald, Regional Engineer, U.S. Forest Service
C. G. Polk, District Engineer, U.S. Bureau of Public Roads
Ray Conway, Manager Oregon State Motor Association
Dave Eyre, Business Manager, Oregon Journal, Portland
Bernard Mainwaring, Capitol Journal, Salem

The group left Portland at 1:00 p.m. and motored to Arlington inspecting new highway construction in the Columbia River Gorge enroute. An overnight stop was made at Arlington, but no business was transacted at that place.

Wednesday, July 15, 1953

Following its overnight stop at Arlington, the Commission motored to the town of Umatilla where at 9:30 a.m. a conference was held with County Judge James H. Sturgis of Umatilla County, Wm. R. Nugent, Umatilla City Councilman, Will Thompson, Street Commissioner, and Mr. Cyril G. Brownell, representing the Chamber of Commerce. Judge Sturgis was particularly interested in the designation of a new highway connection between US 30 at Ordnance and US 730 near Umatilla, to serve as a direct approach to the Columbia River Bridge which the County proposes to construct in the near future. Messrs. Brownell, Thompson and Nugent were particularly interested in the location of the approach to the proposed bridge from US 730. Judge Sturgis was informed by the Commission that the State is without funds to finance construction of the connecting highway as requested by him. It was

pointed out that such highway will closely parallel an existing state highway which is available for traffic that wishes to cross the bridge from US 30 so the need for a new highway is not evident at the present time. Messrs. Brownell, Thompson and Nugent were informed that the problem of providing the approach road leading to the bridge from US 730 is a matter for the people who are building the bridge to decide, and that the only concern the State has is the connection with US 730. They were also told that the Highway Department approved one plan for such connection, but that whatever plan is adopted must provide for a satisfactory channelized intersection where the bridge approach road connects with the state highway. The conference was concluded at 9:45 a.m.

Thereafter the Commission motored to Pendleton via US 730 to Cold Springs, thence via US 395 to Holdman, thence by a county road to a junction about four miles south of Helix, thence to Havana where the Commission inspected a possible connection with ORE 11 as requested by the County Court of Umatilla County and local citizens, thence to Pendleton via ORE 11. In Pendleton the Commission inspected the site of a proposed railroad underpass on Emigrant Street, the design for which, the Engineer advised, is now being prepared. At 11:30 a.m. the Commission conferred with a delegation from the northwestern part of Umatilla County, including two people from Walla Walla, Washington, regarding the Havana-Helix Road and the Van Sycle Road in northern Umatilla County. County Commissioner J. E. Olinger presided. The following persons made up the group: From the town of Helix -- S. E. Brogoitt, Verne Dale, Henry Campbell, Harry Eaton, and Raphael Raymond; from Walla Walla, Washington -- Doc. Campbell and Herb West; from the town of Weston -- Jim Kuhn; from Athena -- Leonard Roff and R. C. Cooke, editor of the Athena Press; from Pendleton -- J. W. Forrester, Jr., publisher of the Pendleton East Oregonian and Chairman of the Transportation Committee of the Umatilla County Development Commission, and Orin Allison, Secretary of the Pendleton Chamber of Commerce. Mr. Brogoitt strongly urged extension of the Havana-Helix Secondary Highway to a connection with ORE 11. The group also urged an extension of the Havana-Helix Highway northerly down Van Sycle Canyon to a junction with US Highway 410 near Wallula, Washington. A number of persons spoke in behalf of the project, but the Commission took no action other than to state that the matter would be given consideration.

The Highway group was the guest of the Pendleton Chamber of Commerce for luncheon in the dining room of the Pendleton Hotel, following which, at 12:30 p.m., a short business session was held. Mr. Art Holmes, Chairman of the Road Committee of the Pendleton Chamber of Commerce presided. At his request Chairman Chandler introduced the members of the highway party. Commissioner Reynolds outlined the status of highway improvements that affect Umatilla County, particularly pointing out progress that is being made on the construction of the new highway in the Columbia Gorge. He also told the group that the Highway Commission plans to sell $32,000,000 Highway Bonds that were authorized by the 1953 Legislature, and if the sale is consumated, additional construction work will be expedited along US 30 west of The Dalles and east of Pendleton to Emigrant Hill. He mentioned that the Van Sycle Canyon Road and the Havana-Helix Road will be studied by the Commission and its

Engineers, and ORE 11 between Adams and Milton-Freewater and the Pendleton-Pilot Rock Section will also be studied. There followed a general discussion which was concluded at 1:10 p.m.

Following this meeting, the Commission motored to Wallowa Lake inspecting highway projects and park developments enroute.

Wallowa Lake, Oregon
July 15, 1953

The members of the State Highway Commission and its party were guests of the County Court of Wallowa County and the Chambers of Commerce of the cities of Enterprise, Lostine, Wallowa, and Joseph for dinner in Wallowa Lake Lodge, following which at 9:15 p.m. at the request of the Hon. Dean B. Erwin, County Judge of Wallowa County who presided, Chairman Chandler introduced the members of the highway group. The following persons composed the local group: County Judge Dean B. Erwin, County Commissioners J. M. Scholl and L. E. McDaniel, representing the County Court of Wallowa County; Harold Haller, Art Thrasher, and R. D. McCurdy, representing the Enterprise Chamber of Commerce, Melvin Crow, Mike Crow, and Warner Crow, representing the Lostine Chamber of Commerce; Chilton Marshall, Lee Burrows, Hurbert Johnson, and Gene Lively representing the Wallowa Chamber of Commerce; Hormer, Hayes, Max Wilson, Wilburt Reece, Georbe Dodson, Henry Hatch and Charles Heard, representing the Joseph Chamber of Commerce.

Mr. McDonald, Regional Engineer, U. S. Forest Service, a member of the Highway Commission group, advised in response to an inquiry by Mr. Erwin, that the U. S. Forest Service hopes to complete improvement of the Enterprise-Lewiston Highway next year, and plans to place additional rock on the Little Sheep Creek Secondary Highway in order to provide a good road into a place known as Imnaha. At Judge Erwin's request, Chairman Chandler remarked that the Commission considers that development of the Wallowa Lake State Park for recreational purposes is a worthy undertaking. He mentioned that the Commission is thinking about enlarging the present area by the addition of a tract adjoining the present park on the south, and is also thinking about extending the park along the west side of Wallowa Lake and construction of a loop road around the lake. Commissioners Reynolds and McIver also spoke briefly. The meeting adjourned at 9:45 p.m.

Wallowa Lake, Oregon
July 16, 1953

Following breakfast in Wallowa Lake Lodge, the Commission inspected the boat landing constructed on the westerly side of the lake in connection with the development of this park. The Commission also inspected the Anderson property on the west side of the lake which has been proposed as an addition to the park, the land now being owned by a man by the name of Harris. Mr. Bennett, U. S. Forest Supervisor, was present and advised that he will cooper-

ate fully with the Commission in acquiring the Anderson property. The Commission then inspected the Wiggins property which has been proposed as another addition to the present park and which Mrs. Wiggins has offered to sell to the State for the sum of $50,000. Also inspected was property being used as a corral and additional property which is being used by boy scouts near the falls in the Wallowa River. The inspections were completed at 9:00 a.m. and the Commission then motored to La Grande where at 11:30 a.m. refreshments were enjoyed by all in the home of Commissioner and Mrs. Chas. H. Reynolds.

La Grande, Oregon
July 16, 1953

The highway group were guests of the La Grande Chamber of Commerce for luncheon in Hoke Hall on the Campus of Eastern Oregon College of Education. Following luncheon, at 1:15 p.m., a short business session was held with Mr. Fred Kiddle, Island City, presiding. Mr. Kiddle asked for the following projects:

1. Construction of the Starkey-Ukiah Road at the earliest possible time
2. Survey for improvements of US 30 between La Grande and Hilgard
3. Mr. Kiddle stated that they approve the plans for improvement of US 30 over Cabbage Hill (Emigrant Hill) and hope that the Commission can see its way clear to advertise the project for bids to be received at its October meeting
4. Modernization of the remaining section of the Wallowa Lake Highway between La Grande and Elgin, particularly the eighteen-mile section between Island City and Elgin

Responding, Chairman Chandler outlined briefly what the Commission has in mind for development at Wallowa Lake. Commissioner Reynolds told the group of the progress that is being made in reconstructing the Columbia River Highway through the Columbia Gorge. He also mentioned probable sale of $32,000,000 of Oregon Bonds on August 7 as authorized by the 1953 Legislature. Others speaking were Commissioner McIver, Senator Charles Bingham, and Representative David C. Baum, R. H. Baldock, State Highway Engineer, W. C. Williams, Assistant State Highway Engineer, W. W. Stiffler, Assistant State Highway Engineer, Ray Conway, Manager Oregon State Motor Association, and Robert Howard, President, Union Chamber of Commerce.

The meeting adjourned at 1:45 p.m., following which the Commission motored to the City of Baker where a short pause was made to confer with a group from that city. The Commission met the local group which consisted of about twenty persons, including County Judge Lloyd Rea, and County Commissioners R. M. Phipps and Gill C. Wright, on the courthouse lawn. No business was transacted. The group left Baker at 3:25 p.m. and motored to the town of John Day via the Baker-Unity Highway and the John Day Highway. A recreational area at Unity Dam reservoir proposed by the Isaac Walton League was inspected enroute.

John Day, Oregon
July 16, 1953

The State Highway Commission and its party were guests of the John Day Chamber of Commerce for dinner at the Veterans Hall in John Day, following which at 9:45 p.m. several after-dinner talks were made. Hon. Elmo Smith, State Senator, presided in behalf of Mayor Earl Van Voorhis who was present but was suffering from a throat infection. At his request Mr. Herman Oliver, former member of the State Highway Commission, welcomed the highway group to John Day. Chairman Chandler responded and introduced the members of the party. Senator Smith introduced the local people present. The meeting adjourned at 10:30 p.m., following which the highway group visited the city museum in Canyon City, and viewed a wonderful collection of relics of the past which are on display at that place.

July 17, 1953

Following the overnight stop in the City of John Day, the highway group motored to the town of Nye over the Pendleton-John Day Highway, thence over the Heppner Highway to the county line between Morrow and Umatilla Counties, where at 11:30 a.m. ceremonies were held under the auspices of the Heppner Chamber of Commerce dedicating a recently completed section of this highway between a place known as Lena in Morrow County and Nye in Umatilla County. Mr. Penland, President of the Heppner Chamber of Commerce and Editor of the Heppner Gazette, presided. County Judge Garnet Barratt of Morrow County, was the principal speaker. The ribbon was cut by Mr. Ben R. Chandler, Chairman of the Oregon State Highway Commission .

Following the dedicatorial ceremonies, the Highway Commission group were guests of the Heppner Chamber of Commerce for luncheon on the courthouse lawn. After luncheon a number of talks were given with Mr. Penland presiding. At 2:00 p.m. a short business session was held. This meeting was presided over by Mr. Ed Dick of Heppner who called upon a number of the local people to present projects. Mr. Orvil Smith spoke in behalf of the Heppner-Spray Highway. He stated that this road is now gravelled, and they would like to have it widened and oiled to the junction point beyond the town of Hardman, about twenty-six miles in length. County Judge Barratt and Mayor J. O. Turner, Heppner, also spoke in behalf of the improvement of this road. Judge Barratt suggested the routing of the highway from Hardman to Parkers Mill and then to the town of Monument. He stated that the County Court of Morrow County is committed to build a road on such route if Grant County will construct the Grant County end and meet the Morrow County road at the county line. Judge Barratt also brought up the distribution of forest highway funds and gave as his feeling that Morrow County is not receiving as much of that money as it is entitled to. He urged a greater allocation as an aid to marketing of timber.

July 17, 1953

Chairman Chandler mentioned the possibilities of obtaining Federal timber access road money to finance construction of roads into timber districts. He further explained the procedure that is necessary to follow in the programming of Federal funds for forest highway construction. As a result of the discussion, the Commission authorized the Engineer to make an economic study of the proposed road from Hardman to Monument via Parkers Mill.

A delegation from Grant County was present and urged the Commission to give serious consideration to construction of a highway along the route suggested by Judge Barratt from Hardman to Monument by Parkers Mill. The delegation was informed by Chairman Chandler that the Highway Commission's first secondary highway obligation in Grant County is the completion of the Kimberly-Long Creek Secondary Highway. Judge Barratt then asked the Commission to realign the Heppner Highway between Heppner and Ione, and he also mentioned improvement of this highway on a direct line from a place called Morgan to the town of Arlington, following down Fourmile Creek. He stated that such route will provide a saving in distance of about 12 miles from Morgan to Arlington. He was informed that improvement of this highway is not in the Highway Commission's program. Mayor Turner asked for improvement of the street which leads to the city's hospital. He was informed that the monies he has in mind cannot be expended for new construction but are limited to repairs. The meeting adjourned at 3:00 p.m., following which the highway group motored to the City of Condon for an overnight stop.

Condon, Oregon
July 17, 1953

At the call of Chairman Chandler, the Highway Commission met in special session at 5:00 p.m. in Apartment No. 2 of the Condon Motor Court. Present were Ben R. Chandler, Chairman, Chas. H. Reynolds, Commissioner, M. K. McIver, Commissioner, R. H. Baldock, State Highway Engineer, C. W. Enfield, Chief Counsel, C. H. Armstrong, State Parks Superintendent, and H. B. Glaisyer, Secretary. The following matters were disposed of:

1. Request of County Judge James H. Sturgis for construction of a highway extending northerly from US 30 at Ordnance to a connection with US 730 near Umatilla, to serve westbound US 30 traffic which wishes to cross the Columbia River Bridge at Umatilla when it is completed. The Commission decided not to assume this obligation for reasons stated to Judge Sturgis on the occasion of its stop at the town of Umatilla on July 15, such reasons being that the Commission has no money immediately available with which to finance such project and the proposed road follows too closely an existing highway between these two places.

2. Proposed extension of the Havana-Helix State Secondary Highway from its present terminus at Havana to a connection with the revised location of the Oregon-Washington Highway (ORE 11), as requested by a delegation from northern Umatilla County on the occasion of the Commission's visit to Pendleton on July 15. The Commission deferred action

on this matter pending additional information. The Engineer was instructed to secure such information and report back to the Commission.

3. Purchase of thirty-four acres of land from Mrs. Irene Wiggins as an addition to Wallowa Lake State Park, amount of option $50,000: The Parks Superintendent expressed himself in favor of enlarging the present park and recommended purchase of the thirty-four acres from Mrs. Wiggins for the amount of the option. He explained that Mrs. Wiggins has received other inquiries concerning purchase of her property, and indications are that she can get a higher price for it than that for which she has offered to sell it to the State. He pointed out that if the Commission decides to acquire this property, then it will be necessary also to purchase another lot surrounded by it which Mrs. Wiggins has sold to another party. It was his feeling that it might be necessary to pay this party $500 for the lot. The Commission unanimously approved purchase of the thirty-four acres from Mrs. Wiggins at the sum of $50,000, and authorized purchase of the extra lot if it can be obtained at reasonable cost.

4. Request of Powder River Sportsmen's Club, Baker, for development of parking, picnic, and restroom facilities adjacent to Unity Reservoir on the Burnt River adjacent to the Baker-Unity Highway near Unity: The Engineer recalled that this matter was first discussed by the Commission at its meeting on May 18 when he reported against the development, which is estimated to cost about $2,000, because it would establish a rather far-reaching precedent in the matter of developing parks and restroom facilities solely for the benefit of fishermen. He stated that he is still of the same opinion, and he recommended that the request be denied. The Commission approved the recommendation.

5. Request of the City of Condon for construction of a retaining wall along the city park property in Condon where it fronts on the John Day Highway, also request of the City for state assistance in construction of a storm sewer on Main Street (route of the John Day Highway) in the business district of Condon. The Commission deferred action in these matters until its meeting scheduled to be held on July 22, 1953. (See ahead for additional paragraph following inspection of the premises in company with a number of local citizens.)

6. Inquiry from the Recreational and Natural Resources Committee, Portland Chamber of Commerce, as to the action taken by the Commission on the Committee's request for appointment of an Advisory Committee on State Parks: The Secretary was instructed to direct a communication to Mr. Carvel Linden, President of the Portland Chamber of Commerce, and explain to him that the Commission feels that those in charge of the State Parks Division of the Highway Department have done an excellent job in the acquisition and development of park areas, and that the Commission believes that monies made available now for parks should be expended largely for development rather than for purchase of new areas, as an accommodation to the people who wish to use the parks; also that the Commission does not

now see the need for a special Advisory Committee on Parks, but will be very glad to receive suggestions from any group or individual who is interested in the parks to the end that the use of state parks may be made most enjoyable to the general public which desires to patronize them, such suggestions to be presented either in writing or in person at a regular meeting of the Highway Commission.

7. Consider granting right of access to certain property owners in Curry County in order to permit them to market timber located on land situate back of properties acquired from Messrs. Chambers, Nash, and Spoerl: The Chief Counsel explained that the Commission, in dealing with Messrs. Chambers, Nash, and Spoerl for right of way on the Oregon Coast Highway at this location, is acquiring access rights which will prevent the marketing of timber from land owned by others farther removed from the highway. He gave as his feeling that owners of the timber in the rear should be given access to the highway in order to market their logs, but that any access that is allowed should be strictly limited to logs. He recommended approval of such arrangement. The Engineer concurred therein. The Commission approved the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

8 Consider action taken by the Astoria City Council prohibiting the parking of vehicles on both sides of US 30 within the corporate limits of Astoria, particularly between 53d Street and the east city limits; also consider designation of a "NO PARKING ON HIGHWAY SHOULDERS" zone on both sides of US 30 for a distance of one-half mile easterly from the east city limits of Astoria. The Engineer advised that a hazardous condition exists on the Columbia River Highway (US 30) at the east city limits of Astoria in the vicinity of the entrance to Tongue Point Naval Station by reason of servicemen parking their cars day and night along both shoulders of the highway very close to the edge of the pavement. Such parking, he said not only creates a hazard to traffic on US 30 but it also interferes with highway maintenance operations. He pointed out that free parking is available to these servicemen on naval property if they carry public liability and property damage insurance. The Engineer further stated that during an investigation of the matter contact was made with the City and as a result the City Council on June 15 1953 enacted Ordinance No. 53-28 which prohibits parking on both sides of US 30 within the corporate limits between 53d Street and the east city limits. He recommended Commission concurrence in the ordinance. The Commission unanimously adopted the recommendation whereupon the Engineer recommended further establishment of a "NO PARKING ON HIGHWAY SHOULDERS" zone on both sides of the Columbia River Highway US 30 for a distance of one-half mile easterly from the east city limits of Astoria particularly between M. P. 101.03 and M. P. 100.53. The Commission approved the recommendation unanimously by adoption of the following resolution relative thereto

RESOLUTION

WHEREAS the Columbia River Highway is one of the major State primary highways and is likewise a federal highway which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that in the vicinity of the access road to the Tongue Point Naval Station, east of Astoria, servicemen and others park their cars by day and by night along both shoulders of the highway thereby creating a hazard to traffic on the highway and also creating a deterrent to highway maintenance operations; and

WHEREAS, free parking is available to servicement on U. S. Naval property; and

WHEREAS, the roadway of said highway at said location is not of sufficient width to safely accommodate the traveling public and at the same time permit parking of vehicles on the shoulders of the highway; and

WHEREAS, in the opinion of the Commission, public welfare and public safety require that parking should be prohibited within said area.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendation by members of its staff, that the parking of vehicles on either side of the Columbia River Highway from the east city limits of Astoria at M. P. 101.03 (Engineer's Station 32+90) to M. P. 100.53 (Engineer's Station 59+00) in the vicinity of the access road to the Tongue Point Naval Station, creates a hazard not only to highway traffic, but to said parked vehicles and to the persons owning and using said parked vehicles.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience, which, in the opinion of the Commission should be provided the motoring public.

3. That this Commission does hereby find and declare that the parking of vehicles on either side of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Highway Commission as herein declared, on which signs shall be printed in plain, legible letters, "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the City Manager of the City of Astoria and a like copy to the Superintendent of the Department of State Police.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 17th day of July, 1953.

July 17, 1953

9. Proposed agreement with U. S. Corps of Engineers covering lease of 190 acres of Federal land as a part of Hat Rock State Park, Umatilla County: The Parks Superintendent explained the provisions of the proposed agreement and recommended its approval. The Chief Counsel concurred in the recommendation. The Commission approved the recommendation unanimously. (The agreement was signed by the Commission at its special meeting on July 22, 1953.)

10. Status of right of Way acquisition on the five units of The T. H. Banfield Expressway, Portland: Pursuant to instructions from the Commission at its June meeting, the Chief Counsel presented a written report on the status of such right of way acquisition. This was discussed briefly by the Commission and ordered filed for future reference.

11. Report by State Parks Superintendent on reaction of people residing in the vicinity of Florence, Reedsport, etc. to the increase in charges made for use of swimming facilities in Honeyman State Park, including construction of a fence around the swimming area: The Parks Superintendent advised that as was authorized by the Commission at its June meeting, the new rates for the use of the facilities have been put into effect, and the fence that was authorized has been constructed. He also said there still is considerable objection from people residing in the vicinity of the park and numerous letters have been received objecting to both the increased charges and to the fence. He also said that some vandalism has occurred, but he gave as his feeling that this is under control because police officers, both State and City, are taking a hand in the matter. He expressed the belief that the local people will soon become accustomed to the new charges and the fence, and that they will cooperate in handling the facilities according to the new setup. The Commission approved the report.

12. Chairman Chandler brought up for discussion a proposed hearing in the City of Gold Beach on August 3, 1953 concerning the relocation of the Oregon Coast Highway south of Rocky Point, which hearing is to be conducted by himself and the State Highway Engineer: The Engineer, the Chief Counsel, and the State Parks Superintendent were instructed to assemble and furnish certain information for use at such hearing.

The meeting adjourned at 6:15 p.m. following which the highway group were the guests of the Condon Chamber of Commerce at a picnic dinner in the Condon Memorial Park. At 8:45 p.m. the Commission conferred with twenty-five local people in the City Memorial Building. Mr. E. R. Fatland presided. He asked the Commission for three things:

1. Construction of a storm sewer on Main Street (route of the John Day Highway) through the business district of Condon

2. Oiling of the unoiled portion of the Wasco-Heppner Secondary Highway between Condon and Cottonwood Bridge over the John Day River

3. Construction of a retaining wall on the John Day Highway in front of the city park in Condon

He called upon Mr. Van Rietmann who elaborated on the need for oiling the Wasco-Heppner Highway between Condon and Cottonwood Bridge. Mr. Rietmann exhibited a map revealing state highways in the vicinity of Condon and pointed out that the Wasco-Heppner Highway provides a facility between Condon and The Dalles which is twenty miles shorter than the route via Arlington. He alleged that such route would require traffic to pass over only one summit between John Day and Portland, whereas two summits must be crossed on the route via Prineville. He urged the oiling of the highway from the standpoint of aiding the transportation of wheat to Portland. He read aloud a statement of statistics, and he gave as their feeling that the transporting of grain alone justifies the improvement that they are requesting. He urged the Commission to provide for the oiling work in its next construction budget. Lantern slides revealing conditions existing along the highway under discussion, including both easterly and westerly grades of the Cottonwood Canyon were shown by Mr. Rietmann.

Mr. Marvin Albee urged the improvement from the standpoint of transporting patients to the hospital in The Dalles. He alleged that ninety percent of the people residing in the Condon area secure hospitalization in The Dalles. Mr. Ralph Potter stated that he represents Pomona Grange which has authorized him to urge the Commission to improve this road.

Mr. Jim Burns asked for the city park improvements mentioned by Mr. Fatland. He said that the park was developed by the State Highway Department and turned over to the city to maintain but it is a bigger problem than the city can finance. He urged the Commission to provide restrooms in the park and to construct a retaining wall along the park frontage and to extend their sewer drain. He also asked the Commission to help the City place a layer of gravel on their car parking area which, he said, would greatly facilitate the parking of cars and eliminate considerable traffic congestion that now occurs on the highway during weekends.

Senator Stewart Hardie mentioned that were the highway between Condon and Wasco improved by oiling, it would then be possible to secure bus service over this route but not otherwise. Mr. Fatland mentioned improved mail service over this route were the Commission to oil the road.

In responding to the requests, Chairman Chandler pointed out that the city park is within the city limits and that the State Highway Commission has a strict policy that prevents the giving of state aid for improvement or development of city parks. The Commission, he said, receives many requests for construction of latrines and other improvements in parks located in civic areas but is of the firm opinion that the obligation to provide such facilities rests with the local people. The Highway Commission, he said, limits its park developments to areas outside cities and towns, and the proposed development in the Condon Memorial Park is a matter for the people of the City of Condon to provide. As to construction of curbs and paving of the entire area between curbs, he stated that he believed the Commission will authorize such work and will mark the pavement for four lanes of moving traffic if the city will adopt the necessary ordinances to prohibit the parking of vehicles along the highway at this point. As to the oiling of the Condon-Cottonwood Bridge

Section, Chairman Chandler pointed out that the Commission is gradually getting this road improved and that it is the intention of the Commission to inspect the section under discussion on the following day. He gave as his feeling that both east and west grades in the Cottonwood Canyon are now in pretty fair condition; however, he said, it might be possible to appropriate a little more money next year for additional improvements, although there is nothing definite as to that at the present time.

There followed a general discussion during which Mr. Fatland urged improvements to their city park. He gave as his feeling that the park is a state park which the city is maintaining so the state, in his estimation, should provide needed facilities. He was informed by Chairman Chandler that the park is not a state park and that very little, if any, state money was spent in its development. He pointed out that during the depression years the Federal Government required that a certain amount of Federal Aid money should be spent for landscaping purposes, and it was those funds that were used in this particular instance with some state matching monies. Mr. Fatland concluded their presentation by stating that they are not particular who owns the park--the state or the city--but they simply want the improvements which have been mentioned and which the city cannot finance. He read aloud a resolution that was adopted by the Condon City Council in 1937 authorizing the city authorities to execute an agreement with the State Highway Commission for the development and maintenance of the park area. He also read aloud portions of the agreement referred to which, he said, bears the date June 15, 1937 and is signed by Mr. Henry F. Cabell, as Chairman, Messrs. E. B. Aldrich and F. L. TouVelle, as Commissioners. The meeting adjourned at 9:45 p.m.

July 18, 1953

Following its overnight stop in Condon, the Commission motored to Timberline Lodge for luncheon via ORE 206, US 97, ORE 216, ORE 52, and US 26. The Cottonwood Canyon Section of the Wasco-Heppner Secondary Highway was inspected by the Commission in company with a group of local citizens of Condon.

Following luncheon, the highway group motored to Portland where the trip was concluded.

EXHIBIT "A"

Minutes of July 17, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Rinehart Creek-Frankport and Frankport-Euchre Creek Sections of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said sections of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission by a certain resolution made and entered on its records on the 25th day of June, 1953, declared the necessity for the acquisition of two parcels of real property described therein for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Rinehart Creek-Frankport and Frankport-Euchre Creek Sections of the Oregon Coast Highway, and for the control of access to and from the said highway, and authorized the acquisition of said parcels of land and the said control of access in the manner provided by law, and it is now the determination of the Highway Commission that the said control of access should be changed in the manner provided herein, in order that a greater use of the granted access points be allowed, and, therefore, the resolution of June 25, 1953, should be revised to conform with the said change in access control; and

(cont.)

EXHIBIT "A" (cont.)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby declare that the resolution made and entered in its records of June 25, 1953, referred to above, be, and it hereby is, amended by this resolution.

2. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Rinehart Creek-Frankport and Frankport-Euchre Creek Sections of the Oregon Coast Highway as a throughway, the following described real property in fee simple, to wit:

L 2013 (R 20204)
Owner: Winston W. Chambers, et al

Parcel No. 1:

A parcel of land lying in the West half ($W\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) and the West half ($W\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 29, Lot 1 of Section 31, and Lots 2, 3 and 4 of Section 30, Township 34 South, Range 14 West, W. M., Curry County, Oregon, and being a portion of that property described in those deeds to Winston W. Chambers and Marjorie P. Chambers, recorded in Book 26, Page 540, and in Book 27, Page 197, of Curry County Records of Deeds, the said parcel being that portion of said subdivisions lying Northerly of that tract of land described in those deeds to Alexander Frank, recorded in Book 5, Page 524, Book 6, Page 80, and Book 6, Pages 566-567, Curry County Deed Records, and included in a strip of land of variable width, lying on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station $L^{4}641+23.68$, said Station being 235.3 feet North and 1491.8 feet East of the Northwest corner of said Section 29; thence on a decreasing spiral curve right (the long chord of which bears South 2^{o} 58' 30" East) 500 feet; thence South 0^{o} 21' 30" West 689.33 feet; thence on a spiral curve right (the long chord

(cont.)

of which bears South 5° 38' 30" West) 487.5 feet; thence on an 881.47 foot radius curve right (the long chord of which bears South 30° 24' 40" West) 437.18 feet; thence on a spiral curve right (the long chord of which bears South 55° 11' 20" West) 487.5 feet; thence South 60° 28' West 64.94 feet; thence on a spiral curve left (the long chord of which bears South 55° 58' West) 450 feet; thence on a 954.93 foot radius curve left (the long chord of which bears South 46° 01' West) 31.67 feet; thence on a spiral curve left (the long chord of which bears South 36° 04' West) 450 feet; thence South 31° 34' West 585.69 feet; thence on a spiral curve left (the long chord of which bears South 27° 04' West) 450 feet; thence on a 954.93 foot radius curve left (the long chord of which bears South 16° 14' West) 61.11 feet; thence on a spiral curve left (the long chord of which bears South 5° 24' West) 450 feet; thence South 0° 54' West back equals 0° 49' West ahead 113.74 feet; thence on a spiral curve right (the long chord of which bears South 2° 19' West) 300 feet; thence on a 1909.86 foot radius curve right (the long chord of which bears South 8° 55' 30" West) 240.56 feet; thence on a spiral curve right (the long chord of which bears South 15° 32' West) 300 feet; thence South 17° 02' West 14.5 feet; thence on a spiral curve left (the long chord of which bears South 10° 22' 25" West) 400 feet; thence on a 572.96 foot radius curve left (the long chord of which bears South 19° 18' East) 326.67 feet; thence on a spiral curve left (the long chord of which bears South 48° 58' 25" East) 400 feet; thence South 55° 38' East 334.2 feet; thence on a spiral curve right (the long chord of which bears South 52° 18' East) 500 feet to Station 721+98.27. The Westerly line of said strip of land crosses the Easterly line of said West half ($W\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 29 approximately opposite Station L 645+00 and said center line crosses the Northerly line of said Alexander Frank tract in said Lot 1 approximately at Station 712+60.

Also that part of said West half ($W\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 29 lying Westerly of said strip of land and Easterly of the existing highway and lying between lines at right angles to said relocated highway center line at Stations 660+00 and 664+00. Also that part of said West half ($W\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 29 and that part of said Lot 3 of Section 30 lying Westerly of the existing highway and Easterly of said strip of land and lying between lines at right angles to said relocated highway center line at Stations 677+00 and 680+00.

The widths in feet of the strip of land above referred to

(cont.)

are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
641+23.68	642+50	70 feet	120 feet
642+50	648+00	70 feet	100 feet
648+00	657+00	80 feet	100 feet
657+00	661+00	100 feet	100 feet
661+00	668+00	200 feet	100 feet
668+00	684+00	100 feet	100 feet
684+00	687+50	130 feet	100 feet
687+50	690+67	180 feet	100 feet
690+67	691+00	180 feet	To mean high tide of the Pacific Ocean
691+00	East line of said Section 31	To existing Easterly right of way line	To mean high tide of the Pacific Ocean

The parcel of land to which this description applies contains 54.18 acres, of which 8.68 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 45.5 acres lie outside of the existing right of way.

Parcel No. 2:

A parcel of land lying in the West half ($W\frac{1}{2}$) of Section 32, Township 34 South, Range 14 West, W. M., Lot 3 and Lot 5 of Section 5, Township 35 South, Range 14 West, W. M., Curry County, Oregon, and being a portion of that property described in that deed to W. W. Chambers, et ux, recorded in Book 26, Page 540, of Curry County Records of Deeds, the said parcel being that portion of said property lying Southerly of that tract of land conveyed by deed to Alexander Frank, recorded in Book 6, Pages 566-567, Curry County Deeds, and included in a strip of land of variable width, lying on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station $L^4$725+74.38, said Station being 1775.65 feet South and 347.35 feet East of the Northwest corner of said Section 32; thence on a spiral curve right (the long chord of which bears South 23° 55' 20" East) 500 feet; thence South 20° 35' 20" East back equals South 20° 35' 30" East ahead 663.87 feet; thence on a spiral curve right (the long chord of which bears South 15° 15' 40" East) 400 feet; thence on a 716.20 foot radius curve right (the long chord of which bears South 3° 17' 30" East) 32.5 feet; thence

(cont.)

EXHIBIT "A" (cont.)

on a spiral curve right (the long chord of which bears South 8° 40' 40" West) 400 feet; thence South 14° 00' 30" West 5.96 feet; thence on a spiral curve left (the long chord of which bears South 8° 40' 40" West) 400 feet; thence on a 716.20 foot radius curve left (the long chord of which bears South 2° 21' 30" East) 9.17 feet; thence on a spiral curve left (the long chord of which bears South 13° 23' 40" East) 400 feet; thence South 18° 43' 30" East 5.22 feet; thence on a spiral curve right (the long chord of which bears South 15° 23' 30" East) 400 feet; thence on a 1145.92 foot radius curve right (the long chord of which bears South 7° 50' 30" East) 35.33 feet; thence on a spiral curve right (the long chord of which bears South 0° 17' 30" East) 400 feet; thence South 3° 02' 30" West 40.24 feet; thence on a spiral curve left (the long chord of which bears South 3° 37' East) 400 feet; thence on a 572.96 foot radius curve left (the long chord of which bears South 18° 54' 30" East) 38.99 feet; thence on a spiral curve left (the long chord of which bears South 34° 11' 50" East) 400 feet; thence South 40° 51' 25" East 113.05 feet; thence on a spiral curve right (the long chord of which bears South 34° 11' 50" East) 400 feet; thence on a 572.96 foot radius curve right (the long chord of which bears South 20° 01' East) 16.83 feet; thence on a spiral curve right (the long chord of which bears South 5° 50' East) 400 feet to Engineer's center line Station 780+35.54, said center line crossing the Southerly line of said Frank tract and the Southerly line of said Chambers property approximately at Stations 731+68 and 778+90, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
730+00	739+00	100 feet	100 feet
739+00	741+38.25	140 feet	100 feet
741+38.25	745+70.75	100 feet	100 feet
745+70.75	749+85.88	150 feet	100 feet
749+85.88	766+66.67	200 feet	To mean tide line of the Pacific Ocean
766+66.67	680+35.54	150 feet	200 feet

The parcel of land to which this description applies contains 31.0 acres.

3. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Rinehart Creek-Frankport and Frankport-Euchre Creek Sections of the

EXHIBIT "A" (cont.)

relocated Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the West side of the said highway, opposite Highway Engineer's center line Station 651+60, for private residential use, for the production and transportation to market of farm products of the owners' remaining land, for the development and transportation to market of mineral products of the owners' remaining land, and for the development, harvesting and transportation to market of forest products only.

b. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the West side of the said highway, opposite Highway Engineer's center line Station 673+25, for private residential use, for the production and transportation to market of farm products of the owners' remaining land, for the development and transportation to market of mineral products of the owners' remaining land, and for the development, harvesting and transportation to market of forest products only.

c. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the East side of the said highway, opposite Highway Engineer's center line Station 681+50, for private residential use, for the production and transportation to market of farm products of the owners' remaining land, for the development and transportation to market of mineral products of the owners' remaining land, and for the development, harvesting and transportation to market of forest products only.

d. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the East side of the said highway, opposite Highway Engineer's center line Station 742-00, for private residential use, for the production and transportation to market of farm products of the owners' remaining land, for the development and transportation to market of mineral products of the owners' remaining land, and for the development, harvesting and transportation to market of forest products only.

e. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the East side of the said highway, opposite Highway Engineer's center line Station

(cont.)

EXHIBIT "A" (cont.)

777+00, for private residential use, for the production and transportation to market of farm products of the owners' remaining land, for the development and transportation to market of mineral products of the owners' remaining land, and for the development, harvesting and transportation to market of forest products only.

The above said accesses to the relocated Oregon Coast Highway from the said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to barricade said accesses for all purposes in the event of any violation.

f. A right to cross the relocated Oregon Coast Highway for farm purposes only, said crossing not to exceed 25 feet in width, opposite Highway Engineer's center line Station 693+50; provided, however, that upon the alienation of either of the portions of the property severed by the said relocated Oregon Coast Highway, resulting in the severed portions of said property being owned by different persons, this right of crossing shall be forefeited and shall cease, and if the owners, their heirs or assigns, shall commit, suffer or permit any use of the said crossing for any purpose other than as a passageway from one side of the said highway to the other for farm purposes, then and in that event the right hereby reserved to the owners will be automatically forfeited, and the State Highway Commission shall have the power to close and barricade said crossing for all purposes.

g. A right to cross the relocated Oregon Coast Highway for farm purposes only, said crossing not to exceed 25 feet in width, opposite Highway Engineer's center line Station 732+50; provided, however, that upon the alienation of either of the portions of the property severed by the said relocated Oregon Coast Highway, resulting in the severed portions of said property being owned by different persons, this right of crossing shall be forfeited and shall cease, and if the owners, their heirs or assigns, shall commit, suffer or permit any use of the said crossing for any purpose other than as a passageway from one side of the said highway to the other for farm purposes, then, and in that event the right hereby reserved to the owners, will be automatically forfeited, and the State Highway Commission shall have the power to close and barricade said crossing for all purposes.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will

21420

EXHIBIT "A" (cont.)

be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 17th day of July, 1953.

Portland, Oregon
July 22, 1953

Pursuant to action taken by the State Highway Commission at its meeting on June 25, 1953, a special meeting of the Commission was held in the Imperial Room of the Imperial Hotel this date, commencing at 10:00 a.m., Pacific Standard Time, for the particular purpose of discussing matters pertaining to the sale of $32,000,000 Oregon Highway Bonds as authorized by provisions of Chapter 20, Oregon Laws 1953. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
H. B. Glaisyer, Secretary

Also present in the discussion of this matter were Mr. John W. Shuler, Bond Attorney, who has been retained by the Commission to pass on the legality of this issue, and Mr. Fred H. Paulus, Deputy State Treasurer. Mr. Paulus outlined a suggested procedure for the sale of the bonds and for retiring them in 13 years at the rate of $2,000,000 annually for the first seven years and $3,000,000 annually for the remaining six years. A suggestion was also made that the retirement of the bonds be extended to 15 years; however, there appeared to be a question in the minds of those present whether or not a satisfactory bid would be received if the maturity date were extended to 15 years. The matter was discussed thoroughly, and as a result thereof, motion was made by Commissioner McIver that the entire issue of $32,000,000 of bonds be offered for sale on a 13-year maturity basis with provision for retiring them $2,000,000 each year for the first seven years and $3,000,000 each year for the remaining six years. The motion was seconded by Commissioner Reynolds, and was declared by Chairman Chandler to have received the unanimous vote of the Commission.

The Commission then discussed a date for the meeting to receive bids for the purchase of the bonds and decided unanimously to receive the bids at the regular meeting of the Commission scheduled to be held in Portland on Friday, August 7, 1953, the bids to be opened at 9:00 a.m., Pacific Standard Time, on that day. The Secretary was authorized and instructed to advertise the sale in The Daily Bond Buyer, New York City, and in the Daily Journal of Commerce, Portland, Oregon. The following resolution with respect to the sale of the bonds was thereupon offered by Commissioner McIver who moved its adoption. The motion was seconded by Commissioner Reynolds. Chairman Chandler declared the motion carried by the unanimous vote of the Commission.

21172

RESOLUTION

BE IT RESOLVED BY THE STATE HIGHWAY COMMISSION OF THE STATE OF OREGON that, of the bonds authorized by Article XI, Section 7 of the Constitution of the State of Oregon, and further authorized by Chapter 20, Oregon Laws 1953, THIRTY-TWO MILLION DOLLARS ($32,000,000.00) par value be issued and sold in order to carry out the purposes of said Article with respect to the construction of permanent roads, and the purposes of said law; and

BE IT FURTHER RESOLVED that the principal of and the interest upon all of the bonds issued pursuant to this resolution be paid upon the due dates thereof at the Fiscal Agency of the State of Oregon in the City and State of New York, and that the bonds be known and designated as OREGON STATE HIGHWAY BONDS, SERIES 1953 B, and be numbered consecutively from one (1) to thirty-two thousand (32,000) inclusive; and

BE IT FURTHER RESOLVED that the said bonds be dated September 1, 1953, be issued in denominations of $1,000.00 each to mature serially in numerical order at the rate of $2,000,000.00 on the 1st day of September in each of the years 1954 to 1960, inclusive, and $3,000,000.00 on the 1st day of September in each of the years 1961 to 1966, inclusive; and

BE IT FURTHER RESOLVED that the said bonds shall bear interest payable semiannually on the first days of March and September in each year, at the rate or rates specified in the accepted bid for the bonds; and

BE IT FURTHER RESOLVED that the State Highway Commission furnish to the original purchaser or purchasers of such bonds, without cost to them, the written opinion of Messrs. WINFREE, McCULLOCH, SHULER & SAYRE, Attorneys of Portland, Oregon, certifying to the validity and legality of the said bonds; and

BE IT FURTHER RESOLVED that bids for the said bonds shall be received on August 7, 1953, at the hour of 9 o'clock A. M., Standard Oregon Time, at a meeting of the Commission to be held at that time in the Green Room of the Imperial Hotel in Portland, Oregon, and that the Secretary of the Commission cause a notice of sale of the bonds to be published in one issue of the DAILY BOND BUYER, a financial newspaper printed and published in the City and State of New York, and in one issue of THE DAILY JOURNAL OF COMMERCE, a daily newspaper of general circulation printed and published in the City of Portland, Multnomah County, Oregon, at least ten (10) days prior to the date of the proposed sale of the bonds; and

BE IT FURTHER RESOLVED that the said notice specify that the said bonds shall bear interest on par value at a coupon rate or rates, in multiples of 1/4 of 1% but not exceeding three percent (3%) per annum, and shall be sold at not less that $98 for each $100 par value at an effective interest rate, computed on a simple interest basis, of not to exceed TWO AND ONE-HALF PERCENT (2 1/2%) per annum, payable semi-annually; that each bidder submitting a bid for the bonds shall include therewith as a good faith deposit a certified check in

the sum of $500,000.00, drawn upon a bank having a capital and surplus of not less than $10,000,000.00; and that the State Highway Commission of the State of Oregon reserves the right to reject any or all bids for the bonds; and

BE IT FURTHER RESOLVED that the said bonds be executed with the facsimile signatures of two of the officers specified in Chapter 550, Oregon Laws 1951, and with the manual signature of the other of such officers, as shall be agreed upon by them, and that the interest coupons annexed to the bonds be executed with the facsimile signatures of all of said officers; and

BE IT FURTHER RESOLVED that the State Treasurer of the State of Oregon be, and he hereby is, authorized to deliver the said bonds to the purchaser or purchasers thereof after the date of sale, execution, and sealing thereon, upon the payment of the purchase price thereof; and

BE IT FURTHER RESOLVED that the Secretary of the Commission cause the notices of sale of said bonds to be published in the form indicated in Exhibit A attached hereto, and made a part hereof; and

BE IT FURTHER RESOLVED that the State Highway Commission, through the State Department of Finance and Administration, obtain bids for the lithographing of the said bonds.

EXHIBIT A

NOTICE OF BOND SALE

$32,000,000.00

STATE OF OREGON

OREGON STATE HIGHWAY BONDS

SERIES 1953 B

SEALED BIDS will be received by the STATE HIGHWAY COMMISSION of the State of Oregon until the hour of 9 o'clock A.M., Standard Oregon Time, on August 7, 1953, at the Green Room of the Imperial Hotel at Broadway and Stark Streets, in the City of Portland, Oregon, and will be immediately opened and considered for THIRTY-TWO MILLION DOLLARS ($32,000,000.00) par value of OREGON STATE HIGHWAY BONDS, SERIES 1953 B.

The said bonds will be negotiable general-obligation bonds of the State of Oregon, and will be sold at not less than $98 for each $100 par value thereof and the accrued interest thereon, to the bidder offering the lowest effective rate of interest upon the bonds, not exceeding 2-1/2 percent per annum, payable semiannually, computed upon a simple interest basis.

July 22, 1953

The bonds will bear interest payable semiannually on March 1 and September 1 of each year, at such rate or rates, in multiples of 1/4 of 1% but not exceeding three percent (3%) per annum on par value, as shall be designated in the accepted bid for the bonds. Both the principal of and the interest upon the bonds will be paid at the Fiscal Agency of the State of Oregon in the City and State of New York (The National City Bank of New York). The bonds will be dated September 1, 1953, will be in coupon form, and will be in denominations of $1,000.00 each, and will mature serially in numerical order at the rate of $2,000,000.00 on the 1st day of September in each of the years 1954 to 1960, inclusive, and $3,000,000.00 on the 1st day of September in each of the years 1961 to 1966, inclusive.

All bids must be unconditional and be accompanied by a certified check, drawn upon a solvent bank, having a capital and surplus of $10,000,000.00 or more, in favor of the State Highway Commission of the State of Oregon, for $500,000.00. The proceeds of the check will not draw interest but will be forfeited to the State of Oregon as liquidated damages in case the bidder to whom the bonds are awarded should withdraw his bid or fail to complete his purchase in accordance with the terms thereof. The bonds will be delivered complete, on or before September 21, 1953, without cost to the successful bidder, at such bank in New York City, or in Chicago, Illinois, or in Portland, Oregon, having a capital and surplus of $10,000,000.00 or more, as the successful bidder shall name.

Each bidder is requested to include in his bid a statement of the total interest cost and effective interest rate, based upon aggregate interest cost, that the State of Oregon will pay upon the issue if the bid be accepted.

The successful bidder will be furnished, without cost to him, with the unqualified legal opinion of Winfree, McCulloch, Shuler & Sayre, Attorneys of Portland, Oregon, approving the validity of the bonds purchased.

The State Highway Commission reserves the right to reject any or all bids for the bonds.

Offers for the bonds should be addressed to the State Highway Commission of the State of Oregon, and should be designated "Bid for Oregon State Highway Bonds, Series 1953 B". Mailed bids must be received by the undersigned at Room 134, State Highway Building, Salem, Oregon, by August 6, 1953.

Dated at Salem, Oregon, the 22nd day of July, 1953.

STATE HIGHWAY COMMISSION OF
THE STATE OF OREGON,

By H. B. Glaisyer, Secretary

Address: Room 134, State Highway
Building, Salem, Oregon.

Published

July 22, 1953

The Commission then discussed the matter of lithographing the bonds. The Secretary was authorized and instructed to secure quotations in the usual manner through the Department of Finance and Administration. Motion to that effect was offered by Commissioner McIver, duly seconded by Commissioner Reynolds, and was declared by Chairman Chandler to have received the unanimous vote of the Commission.

Following disposal of matters pertaining to the sale of the bonds, the Commission disposed of a number of routine matters as follows:

The Right of Way Engineer brought up for consideration the granting of a spur track easement to the O. W. R. and N. Company right of way acquired from the Chatfields for the Shogren-Rowena Unit of the Columbia River Highway in Wasco County. He explained details, and recommended that the easement be granted. The Commission approved the recommendation. (The easement was signed later in the session.)

The Chief Counsel requested authority to commence condemnation action to acquire certain parcels of property needed for state highway improvements which properties it appears cannot be acquired at reasonable cost by negotiation. He presented a list of the properties as follows:

Forest Boundary-Hauser Section of the Oregon Coast Highway

		Recommended Offer
L 1902	Ray Snook Change in description to lessen the taking - new resolution required	*

Clatskanie-Delena Section of the Columbia River Highway

L 2018	Kenneth A. Johnson Change in access provisions - new resolution required	*

Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway

L 1815	Leroy Lumber Company Change in description to lessen the taking and change in access provisions New resolution required	*

Mill Gulch-Salisbury Section of the Baker-Unity Highway

R 12730	John F. Hart Right of Way (Baker) 3.7 acres	*

Washburn-North Plains Section of the Wilson River Highway

				Recommended Offer
R 19844	Edward Rieben	Recommended Offer	$5,750	
	Right of Way (Washington)	Fencing	1,136	
	10.39 acres		$6,886	$6,900.00

Reedsport-Hauser Section of the Oregon Coast Highway

R 20644	Paul Schuttpelz Right of Way (Coos) 0.65 acre	$ 780.00

As a result of discussion, the Commission unanimously approved the Chief Counsel's request and authorized him to proceed with the condemnation actions on the basis of his recommended offers and in conformity with instructions given him in the Commission's resolution adopted December 20, 1951. The attached resolutions relative thereto, marked EXHIBIT "A-1" through EXHIBIT "A-3" inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein were thereupon adopted by the Commission.

The Engineer brought up for discussion the matter of deeding to the City of Springfield, without cost, a strip of land 60 feet wide extending from South "A" Street northerly to Main Street for use as a cross street connection between these two thoroughfares which form a state highway couplet. He exhibited a map showing the location of the property and recalled that the Commission in its agreement with the City relative to construction of the South "A" Street route understood that the County would construct necessary connecting streets between South "A" Street and Main Street as would be necessary for adequate traffic movement. At 10th Street, he said, there is no existing street and all of the property at the proposed location of a connection at this point is owned by the State and the City. He further stated that the State's property was purchased in 1937 from Lane County for $150, and it was intended at that time to use it as a maintenance site, but the plan was abandoned due to possible development. A portion of the property, he said, is now being rented to the Mountain States Power Company for $400 a year, but no part of that particular tract is required for the street connection. The present day value of the property, he said, is far in excess of what the State paid for the whole tract, it being worth about $5,000, that portion required for the street connection being worth about $2,000. He recommended in view of the fact that the City is to construct the cross street, that a 60 foot right of way for such street be deeded to the City without cost. The Commission approved the recommendation and so ordered.

A letter was presented from the Hon. Jack Harford, Mayor of the City of Arlington, requesting an investigation as to the feasibility of providing a new connection with U.S. Highway 30 (new route) from a point west of China Creek Bridge to the intersection of Main Street with First Street in Arlington. The Engineer advised that the request has been investigated and

it has been determined that to provide such a connection would cost about $18,000 exclusive of right of way which, he said, the City has offered to furnish. He added the investigation reveals the proposed connection would serve no particular useful purpose, but on the contrary would result in a new access with left-turn movements on the new highway at a very hazardous location. He gave as his considered opinion that the Main Street intersection as now planned is much better located and can be channelized and protected with a traffic signal if it should develop that such a signal is required. He recommended that the request be denied and that the City be informed of the reasons therefor. The Commission approved the recommendation.

The Commission approved a report from the Engineer advising satisfaction of the conditions governing the awards of the following contracts and also advising that contract and bond forms have been prepared and forwarded to the respective contractors pursuant to the Commission's instructions;

(1) Brush Creek-Frankport Unit, Rocky Point-Gold Beach Section of Oregon Coast Highway in Curry County. Bids received May 18, 1953. Conditions of award satisfied June 29, 1953. Peter Kiewit Sons' Company, contractor.

(2) Three structures on Brush Creek-Frankport Unit of Oregon Coast Highway south of Port Orford in Curry County. Bids received May 19, 1953. Conditions of award satisfied June 29, 1953. Babler Bros., contractor.

(3) Apiary Section of Rainier-Apiary County Road in Columbia County. Bids received June 25, 1953. Conditions of award satisfied June 30, 1953. M. L. O'Neil & Son, contractor.

(4) Moon Creek and John Day River Bridges on John Day Highway in Grant County. Bids received May 19, 1953. Conditions of award satisfied July 1, 1953. Loree Building Service, contractor.

(5) Clatskanie-Delena Section of Columbia River Highway in Columbia County. Bids received May 18, 1953. Conditions of award satisfied July 1, 1953. Kuckenberg Construction Company, contractor.

(6) Fields Creek-Mt. Vernon Unit, Dayville-Mt. Vernon Section of John Day Highway in Grant County. Bids received May 18, 1953. Conditions of award satisfied July 1, 1953. J. M. Arenz, contractor.

(7) Mt. Vernon-John Day Section of John Day Highway in Grant County. Bids received May 18, 1953. Conditions of award satisfied July 1, 1953. J. M. Arenz, contractor.

(8) Heppner (Race Track Street) Grading and Paving Project in Morrow County. Bids received June 25, 1953. Conditions of award satisfied July 1, 1953. Warren Northwest, Inc., contractor.

(9) Kingston-Scio and Oak Creek-Plainview Section of Scio-Stayton and Lebanon-Brownsville County Roads in Linn County.

Bids received June 25, 1953. Conditions of award satisfied July 1, 1953. J. C. Compton Company, contractor.

(10) Friend-Dufur Section of Friend County Road in Wasco County. Bids received June 25, 1953. Conditions of award satisfied July 2, 1953. J. N. Conley, contractor.

(11) Mikkalo-Olex Junction and Condon Junction-Lost Valley Road Sections of Mikkalo and Lone Rock Roads in Gilliam County. Bids received June 26, 1953. Conditions of award satisfied July 2, 1953. Russell Olson Construction Company, contractor.

(12) Hood River County Roads west of Hood River in Hood River County. Bids received June 26, 1953. Conditions of award satisfied July 3, 1953. Warren Northwest, Inc., contractor.

(13) New Bridge-Richland Section of New Bridge County Road in Baker County. Bids received June 25, 1953. Conditions of award satisfied July 6, 1953. Arthur Simonsen, contractor.

(14) Twin Bridges-Muddy Creek Section of Beaver Creek-Greenberry in Benton County. Bids received June 26, 1953. Conditions of award satisfied July 6, 1953. A. H. Saxton & Son, contractor.

(15) Forest Boundary-Lapine Junction Section of Burgess Road in Deschutes County. Bids received June 26, 1953. Conditions of award satisfied July 6, 1953. Babler Bros., Inc., contractor.

(16) Springfield Section of Eugene-Marcola Road at Springfield in Lane County. Bids received June 26, 1953. Conditions of award satisfied July 9, 1953. Inter City Sand & Gravel Company, Inc., contractor.

(17) Buck Hollow Bridge over Willamina Creek on Willamina-Coast Creek Road in Yamhill County. Bids received June 25, 1953. Conditions of award satisfied July 10, 1953. Hamilton & Thorns, contractor.

(18) North Corvallis Section of Pacific Highway West in Benton County. Bids received June 25, 1953. Conditions of award satisfied July 10, 1953. Berke Brothers, contractor.

Consideration was given by the Commission to a request from representatives of the Southern Oregon Truckers' League and the Evans Products Company, Coquille, for the widening or improvement of shoulders along US101 in the vicinity of the Evans Products Company's log dump at Southport Slough between the cities of Coos Bay and Coquille. The Engineer advised that this matter has been investigated by the Traffic Engineering Division, as well as by Mr. F. D. Morgan, Assistant Division Engineer, Roseburg, and that the investigation discloses that the log dump of the Evans Products Company on Isthmus Slough is so designed that it can hold no more than three trucks and

that during the heavy logging season such storage space is insufficient to accommodate all of the trucks that wait to unload, and as a result oft-times log trucks park in the right lane of the two lane northbound highway creating a very hazardous condition to other traffic. A plan to alleviate the condition, he said, was offered by Mr. W. W. Stiffler, Assistant State Highway Engineer, which provides for construction of a storage area for waiting trucks, 250-feet long and 22-feet wide at an estimated cost of $820, but which compels widening the highway shoulders to provide an additional decelerating lane 11-feet wide capable of supporting the loading trucks for a distance of 530-feet southerly from the parking area. Such widening work, he said, is estimated to cost $800. The plan, he added, was submitted to the Truckers' League and to the Evans Products Company with a suggestion that the League and the Company bear the expense of the parking area ($820) and the State bear the expense of the widening of the highway shoulders ($800). The plan was approved by the League and the Company, and a check in the amount of $820 has been received. He recommended approval of this cooperative project as outlined, all of the work involved to be performed by the State. The Commission unanimously adopted the Engineer's recommendation and authorized him to proceed on the basis outlined.

The Engineer reported that on the one-way street route of US 99 E through the City of Salem there are four street intersections where the old type of corner traffic signal box is still in use. This type of intersection signal, he said, is difficult for motorists to see, moreover, they are not interconnected to provide for progression. He also said that the City has requested that these signals be converted to the standard overhead "walk-wait" type which is estimated to cost about $9,200, and has offered to pay 50% of the cost involved. He recommended approval of the project on the basis that the City will pay 50% of the cost of the change, will furnish electrical energy to operate the signals, and will maintain the signals after installation. The Commission approved the recommendation unanimously.

Consideration was given by the Commission for the following requests for extensions of time within which to complete highway contracts:

(1) Loree Building Service, Contract No. 3773 for construction of maintenance building in the City of Baker, requested an additional extension of time of 30 days, from May 31, 1953 to June 30, 1953, within which to complete this job. They attributed their failure to complete the project within the previously extended time limit to rainy weather which did not allow the painting work. The Engineer advised that the building was completed within the specified completion date except for painting of the steel sash and doors, and the weather was such that it has not been advisable to do such work until June. The Highway Department, he said, has had full use of the structure during this entire period, and in view thereof, he recommended that the additional extension of time now requested be granted without penalty. The Commission approved the recommendation.

(2) Peter Kiewit Sons' Company, Contract 3716 for construction of the Grat Creek-Bradley Park Section of the Columbia River Highway in Clatsop County, requested an extension of time from June 30, 1953 to October 15, 1953 within which to complete this project. They alleged they were unable to complete the project within the specified time limit because of inclement weather during the winter and spring of 1952-1953. The Engineer advised that the reason given by the contractor for overrunning the specified time limit is correct. The contractor, he said, attempted to operate but materials were so wet that it was impossible to accomplish anything worth while. He recommended in view of the circumstances that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation unanimously.

(3) Durbin Bros., Contract 3617 for grading and oil mat surfacing on Johnson Avenue in the City of Prairie City, requested an extension of time of 319 days, from September 15, 1952 to July 31, 1953, within which to complete this job. They recalled that this contract was awarded to them in combination with the Austin-Squaw Creek Project on the John Day Highway. They also said that they scheduled their work so as to do certain portion of it on both jobs at the same time; however, they were unable to complete the final coat of oil on the Austin-Squaw Creek Job because of adverse weather and consequently, could not complete the oil work on the Prairie City job which was to be done at the same time. The Engineer advised that both projects mentioned by the contractor were awarded to Durbin Bros. who had intended to oil both projects at the same time; however, bad weather set in which delayed completion of the oiling work on the Austin-Squaw Creek Project so the oiling work was not started on the other project. He recommended in view of these circumstances that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

(4) Rogers Construction Company, Contract 3663 for grading and rock base on the Shogren-Rowena Creek Unit of the Columbia River Highway, Wasco County, requested an extension of time of 60 days, from June 15, 1953 to August 15, 1953, within which to complete this job. They attributed their failure to complete the project within the specified time limit to excessive slide removal, overrun of original quantities, and the fact that a bridge contract was not completed to allow their crushing plant to be moved in on the job. The Engineer advised that an excessive amount of slide removal occurred which was not anticipated in the original plan; also the failure of a bridge contractor to complete his project held up the prime contractor from moving in his crushing plant. The overrun of the time limit, he said, is not the fault of the contractor, and he accordingly recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

(5) Western Golf Course Supply Company, Contract 3828 for construction of an irrigation system and seeding on the Harbor Drive-Tillamook Street-Steel Bridge Section of the Pacific Highway West in Portland, requested an extension of time of 45 days, from May 31, 1953 to July 15, 1953, within which to complete this job. They alleged they were unable to complete the project within the specified time limit because of excessive rains during the spring months which delayed performance of necessary grading and seeding work. The Engineer advised that excessive rainy weather during the spring months stopped the contractor from doing the seeding on this section. He further stated that all of the sprinkling system has been installed and is operating, and that the seeding will be completed as soon as the ground can be worked. He recommended in view of the circumstances that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

(6) Tom Lillebo, Contract 3667 for construction of the Scholfield Creek Bridge on the Oregon Coast Highway at Reedsport, Douglas County, requested an extension of time of 16 days, from May 31, 1953 to June 16, 1953 within which to complete this job. Mr. Lillebo stated that traffic has had unristricted use of the bridge since April 3, 1953 and that the 16-day extension is required in order to assure suitable weather to complete painting work and to remove staging from the girder span. The Engineer advised that the reason given by the contractor for overrunning the specified time limit is correct, in fact the bridge was opened to traffic on April 3, 1953, nearly two months ahead of the specified completion date. The overrun of time limit has not been the fault of the contractor, and in view thereof, he recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

(7) Teller Construction Company, Contract 3791 for construction of the Mosier Connection Grade Separation structure on the Columbia River Highway in Wasco County, requested an extension of time of 13 days, from May 31, 1953 to June 13, 1953, within which to complete this job. They gave the following reason for overrunning the specified time limit "Expected freezing weather, didn't want to start job due to expectant freeze". The Engineer advised that this contractor was given ample time within which to complete the project, but he did no work during the winter months when other contractors were working successfully in the vicinity. He recommended in view of this fact that the extension of time as requested be granted subject, however, to the contractor reimbursing the State for engineering costs incurred in connection with the job between May 31, 1953 and June 13, 1953. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation unanimously.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above, was based upon the recommendations of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Commission discussed an itinerary for its proposed inspection trip to Southwestern Oregon and decided to make such inspection during the four-day period commencing Monday, August 10, 1953, and ending Thursday, August 13, 1953. The Commission approved the itinerary prepared by the Engineer for such trip.

The Commission discussed appointment of an Assistant Secretary as authorized by Chapter 129, Oregon Laws 1953, and decided unanimously to appoint Mr. Floyd Query as such assistant, he having worked under the Secretary, Mr. H. B. Glaisyer, for a number of years and being acquainted with the work involved. The following resolution appointing Mr. Query as Assistant Secretary was thereupon adopted by the Commission by unanimous vote:

RESOLUTION

WHEREAS, under the provisions of Section 100-113, O.C.L.A., as amended by Chapter 129, Oregon Laws 1953, the Commission is authorized to appoint an Assistant Secretary who shall, after appointment, hold office during the pleasure of the Commission; and

WHEREAS, said law further provides that said Assistant Secretary shall receive an annual salary to be fixed by the Commission; and

WHEREAS, this Commission having duly considered and examined the qualifications of Floyd A. Query;

NOW, THEREFORE BE IT AND IT HEREBY IS RESOLVED AND ORDERED all members being present and voting affirmatively as follows:

1. That it is the judgment of this Commission that Floyd A. Query is by training and experience qualified to fill the position of Assistant Secretary.

2. That Floyd A. Query be and he hereby is appointed to the position of Assistant Secretary and shall perform such duties as may be assigned to him by the Secretary or by this Commission and shall, under the direction of or in the absence of the Secretary, have full authority to perform any duty required or permitted by law to be performed by the Secretary.

3. That the Assistant Secretary shall receive a starting annual salary of $6,384.00, payable in monthly installments of $532.00 per month, as approved by the Civil Service Commission and the Department of Finance and Administration for an Executive II in the fourth step, and shall be entitled to receive reimbursement for such actual traveling and other necessary expenses as may be incurred in the performance of his official duties.

4. That a copy of this resolution be certified by the Secretary of this Commission and by him filed with the Secretary of State, together with a sample of the signature of Floyd A. Query as Assistant Secretary.

5. That this resolution be entered in the minutes and records of this Commission as of the 22nd day of July, 1953.

The Commission also discussed appointment of an Auditor who shall be charged with the duty of handling the fiscal affairs of the Commission, pursuant to the provisions of Section 100-113, O.C.L.A., as amended by Chapter 129, Oregon Laws 1953. The Commission unanimously approved the appointment of Mr. Clifford H. Maison as Auditor by adoption of the following resolution relative thereto:

RESOLUTION

WHEREAS, under the provisions of Section 100-113, O.C.L.A., as amended by Chapter 129, Oregon Laws 1953, the Commission is directed to appoint an Auditor who shall be charged with the duty of handling the fiscal affairs of the Commission; and

WHEREAS, said law further provides that the Commission shall fix the salary of the Auditor and shall prescribe his duties and functions; and

WHEREAS, the Commission has duly considered and examined the qualifications of Clifford H. Maison;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED, all members being present and voting affirmatively as follows:

1. That it is the judgment of this Commission that Clifford H. Maison is by training and experience fully qualified to perform the duties and obligations of the position of Auditor.

2. That Clifford H. Maison be and he hereby is appointed as Auditor and is hereby charged with the duty of handling the accounting and fiscal affairs of the Commission.

3. That the said Auditor shall receive a starting salary of $610.00 per month, as approved by the Civil Service Commission and the Department of Finance and Administration for an Accounts Executive III in the fourth step, and shall be entitled to receive reimbursement for such actual traveling and other necessary expenses as may be incurred in the performance of his duties.

4. Before entering upon the duties of his position the Auditor shall give to the State of Oregon a fidelity bond executed by a corporate insurance company duly licensed to transact the business of surety within this State in a penal sum of $50,000 and conditions upon the faithful discharge by the Auditor of the duties of his position, the faithful performance by all persons employed by him of their duties and trusts, and for the transfer and delivery to his successors or any other person designated by the

Commission of all moneys, books, papers, records and other articles or effects belonging to the position.

5. That a copy of this resolution be certified by the Secretary of this Commission and by him filed with the Secretary of State and the State Treasurer, together with a sample of the signature of Clifford H. Maison as Auditor.

6. That this resolution be entered in the minutes and records of the Commission as of the 22nd day of July, 1953.

The Commission had under discussion the setting of a date for its regular meeting in September and by unanimous vote decided to hold such meeting on Thursday and Friday, September 24 and 25, 1953. The Secretary was instructed to make the usual arrangements to hold this meeting in the Green Room of the Imperial Hotel.

The Commission considered and signed agreements, etc., as follows:

Easement Agreement with O.W.R. and N. Company re spur track easement on former Chatfield property on Shogren-Rowena Unit of Columbia River Highway, Wasco County. (Agenda Item 1-B-1)

"Seventh Modification of Cooperative Agreement" for Oregon Forest Highway, Route 16, Sections A, B, D, and M, Tiller-Trail.

Cooperative Agreement for Oregon Forest Highway Project 9-A3, B3, C Oregon Coast.

Agreement with U.S. Geological Survey covering investigation of small drainage areas during fiscal year July 1, 1953 to June 30, 1954.

Bargain and Sale Deed to Albert J. Wirtz for parcel of land in Lot 12, Block 42, Crescent, situate in Section 30, Klamath County, Oregon.

Agreement with SP Company covering installation and maintenance of flashing light signals at crossing F-777.7 near Fanno, Washington County.

License from Corps of Engineers re development of Hat Rock Area Park in McNary Dam Lake area, Umatilla County, Oregon.

Certificates of Awards - one package.

The meeting adjourned at 12:00 noon.

EXHIBIT "A-1"

Minutes of July 22, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Reedsport-Hauser Section of the Oregon Coast Highway, and in connection therewith, to construct and maintain a connecting road between the said highway and Lakeside Highway, also known as Coos County Road No. 35; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

EXHIBIT "A-1" (cont)

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Reedsport-Hauser Section of the Oregon Coast Highway, and in connection therewith, the construction and maintenance of a connecting road between the said highway and Lakeside Highway, also known as Coos County Road No. 35, the following described real property in fee simple, to wit:

R-20644
Owner: Paul Schuttpelz, et al

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 13, Township 23 South, Range 13 West, W.M., Coos County, Oregon, and being a portion of that property described in that deed to Paul Schuttpelz and Thekla Schuttpelz, recorded in Book 201, Pages 225, 226 and 227, of Coos County Records of Deeds, the said parcel being that portion of said property included in a strip of land 80 feet in width, 40 feet on each side of the center line of the Lakeside Approach Road as said approach road has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 0+00, said Station being 933 feet South and 167 feet East of the Northeast quarter ($NE\frac{1}{4}$) of said Section 13; thence North 48° 37' West 735.73 feet to Station 7+35.73 which Station is in the center line of the existing Oregon Coast Highway and opposite Engineer's center line Station 365+00 on the relocated center line of said highway, said approach road center line crossing the East line of said property approximately at Station 3+47 and the West line of said property approximately at Station 7+01.

The parcel of land to which this description applies contains 0.65 acre.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or,

in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

5. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of July, 1953.

EXHIBIT "A-2"

Minutes of July 22, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain the Washburn-North Plains Section of the Wilson River Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be established, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is

needed and required for right of way purposes, for the proper establishment, construction and maintenance of the Washburn-North Plains Section of the Wilson River Highway as a throughway, the following described real property in fee simple, to wit:

R-19844
Owner: Edward Rieben, et al

A parcel of land lying in the Southeast quarter (SE $\frac{1}{4}$) of Section 32, Township 2 North, Range 3 West, W.M., Washington County, Oregon, the said parcel being that portion of said Southeast quarter (SE $\frac{1}{4}$) included in a strip of land 190 feet in width, 70 feet on the Northerly side and 120 feet on the Southerly side of the center line of the Wilson River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 2618+00.53, said Station being 885.18 feet North and 1350.49 feet West of the Southwest corner of said Section 32; thence North 75°06' 30" East 7,000 feet to Engineer's center line Station 2688+00.53. Said Engineer's center line crosses the West and North lines of said Southeast quarter (SE $\frac{1}{4}$) approximately at Engineer's center line Stations 2659+75 and 2682+58, respectively.

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 10.39 acres.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be no rights or easements of access between the right of way of the said Washburn-North Plains Section of the Wilson River Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

A right to cross the Washburn-North Plains Section of the Wilson River Highway for farm purposes only, said crossing not to exceed 25 feet in width, opposite Highway Engineer's center line Station 2668+80; provided, however, that upon the alienation of either of the portions of the property severed by the said Washburn-North Plains Section of the Wilson River Highway, resulting in the severed portions of the said property being owned by different persons, this right of crossing shall be forfeited and shall cease, and if the owners, their heirs or assigns, shall commit, suffer or permit any

use of the said crossing for any purpose other than as a passageway from one side of the said highway for farm purposes, then and in that event the right hereby reserved unto the owners will be automatically forfeited, and the State shall have the power to close and barricade said crossing for all purposes.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of July, 1953.

EXHIBIT "A-3"

Minutes of July 22, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Reedsport-Hauser Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, the Highway Commission by a certain resolution made and entered on its records on the 26th day of May, 1952, declared the necessity for the acquisition of a parcel of land described therein for right of way purposes, for the relocation, construction, improvement and maintenance of the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway, and for the control of access to and from said highway, and authorized the acquisition of said parcel of land and the control of access in the manner provided by law, and it is now the determination of the Highway Commission that the description of the said parcel of land should be changed in the manner provided herein, in order that the amount of real property required be decreased; and, therefore, the resolution of May 26, 1952, should be revised to conform with the present needs of the traveling public and to conform with the said change in description of the said parcel of land; and,

EXHIBIT "A-3" (cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission hereby declares that the resolution made and entered in its records of May 26, 1952, referred to above, be, and it hereby is, amended by this resolution.

2. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Reedsport-Hauser Section of the Oregon Coast Highway as a throughway, the following described real property in fee simple, to wit:

L-1902 (R-19208)
Owner: Ray Snook, et ux

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 13, Township 23 South, Range 13 West, W.M., Coos County, Oregon, and being a portion of that property described as Lot O-2, which is under a term permit dated April 26, 1945, to Henry J. Brumels and transferred to Ray Snook December 18, 1946, the said parcel being that portion of said Lot O-2 included in a strip of land 350 feet in width, 150 feet on the Easterly side and 200 feet on the Westerly side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 354+37.25, said Station being approximately 1235 feet West and 1215 feet South of the Northeast corner of said Section 13; thence on a 2291.83 foot radius curve left (the long chord of which bears North 31° 45' 30" East) 1827.33 feet to Station 372+64.58, said center line crossing the Southerly line of said Lot O-2 and the most Northerly North line of said lot approximately at Stations 355+70 and 364+80, respectively.

The parcel of land to which this description applies contains 3.45 acres.

3. That in addition to the acquisition of fee simple title to the above

described real property, it is necessary that there be no rights or easements of access between the right of way of the said Reedsport-Hauser Section of the relocated Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

4. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

6. That upon the trial of any suit or action institutued to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of July, 1953.

Portland, Oregon
August 6, 1953

The State Highway Commission met in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Asst. State Highway Engineer
W. W. Stiffler, 2nd Asst. State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows for highway construction were opened and read aloud pursuant to previously published notice at the conclusion of which it was announced that the award of contracts would be made at 3:00 p.m. in the same room:

Mr. E. E. Varco, Deschutes County Commissioner, was present and offered to the Commission as a gift from Deschutes County a parcel of land near Tumalo adjoining the Bend-Sisters Highway and the Deschutes River. He stated that it is the opinion of the County Court that the property will fit in well with the park property the State now has at this location. The Commission thanked him for the proffered land and instructed the Parks Superintendent to investigate the proposed addition as to how it will fit in with park development plans and to report his findings to the Commission at its September meeting, if possible.

The Commission unanimously approved the minutes of its meetings held on May 18 and 19, 1953, and during its inspection trip on June 8-11, 1953.

The Parks Superintendent reported on the following park matters:

1. Request of Marshall N. Dana, Portland, in behalf of the Recreational and Natural Resources Committee of the Portland Chamber of Commerce, that the State acquire two tracts of land in the Columbia River Gorge as an addition to the State Parks System: The Parks Superintendent reported that one of the parcels which is located at Latourell Falls, is owned by Mr. and Mrs. B. B. Bennett and consists of 26 acres for which they ask $55,000, including the buildings. This property, he recalled, had been previously considered by the Commission and turned down as being too costly, and he again recommended against acquisition of the
